

Post-Baccalaureate Certificate in Development Review

About This Program

The Post-Baccalaureate Certificate in Development Review provides training in zoning, subdivision plat review, site design, communication skills, and urban development, while keeping in mind the interests of citizens and the spirit of places. These skills are essential for planners who want to understand proposed development activity, ensure that proposed development is consistent with a city's vision, and facilitate review of development proposals. The program is geared for both entry-level planners/planning technicians, and for professionals in allied fields such as architecture, landscape architecture, law, engineering, and real estate.

Competencies

1. Upon completion, students will be able to communicate planning information clearly and effectively in oral, written, and graphic form.
2. Upon completion, students will be able to relate knowledge of the ethical and normative aspects of planning to the planning process.
3. Upon completion, students will be able to identify and evaluate planning problems and to apply planning methods to their solution and communication.
4. Upon completion, students will be able to identify and relate the factors influencing the growth and development of communities, cities, and regions.
5. Upon completion, students will be able to understand the challenges that regions, cities, communities, and planners face in the field.

Admissions Criteria

Non-degree seeking students may apply complete this certificate by applying for admission to the UTA Graduate Admissions as a Non-Degree Seeking Student (<https://www.uta.edu/academics/schools-colleges/gradschool/admissions/>).

Students can also complete the certificate as part of the accelerated online MPA program by completing hours applicable to the MPA degree.
