

Minor in Biochemistry

About This Program

The Minor in Biochemistry requires 18 hours of chemistry, of which at least 6 must be at the 3000/4000 level. Only lecture courses that satisfy a degree requirement for one of the degrees offered by the Department of Chemistry and Biochemistry may be used. Research courses, Chemistry Readings, and Internship credits may not be used towards the Chemistry Minor.

Competencies

1. Upon completion, students will be able to identify, formulate, and solve basic chemistry problems.

Curriculum

Courses

12 hours of chemistry courses that satisfy a degree requirement for one of the degrees offered by the Department of Chemistry and Biochemistry		12
CHEM 4311	BIOCHEMISTRY I	3
CHEM 4312	BIOCHEMISTRY II	3
Total Hours		18

Advising Resources

First time in college students should plan to speak to a program advisor when starting their second year. Transfer students should be advised prior to New Maverick Orientation.
