

Bachelor of Business Administration in Accounting

About This Program

The Bachelor of Business Administration degree is intended for those individuals who seek a broader education. This program prepares students for graduate study and/or for professional careers in the public, private, government and non-for profit sector as internal auditors, management accountants, government auditors and other accounting related functions.

This accounting program is separately accredited by the Association to Advance Collegiate Schools of Business (AACSB), ensuring it meets high standards of education and professional development.

Competencies

1. Upon completion, students will be able to demonstrate an understanding of the accounting process and demonstrate knowledge of the reporting requirements in financial statements and the accountants' impact on the economy and the financial markets.
2. Upon completion, students will be able to demonstrate an ability to apply information technologies relevant to the accounting field.
3. Upon completion, students will be able to articulate the values and practices associated with the ethical responsibilities of public and private accounting fields.
4. Upon completion, students will be able to demonstrate effective business communication skills.
5. Upon completion, students will be able to research, identify issues and critically analyze responses and conclusions to those issues.

Curriculum

Students must meet all lower division requirements before enrolling for upper division courses. Specified prerequisites are designated for certain courses.
