

# Bachelor of Science in Accounting

## About This Program

The Bachelor of Science in Accounting provides accounting and business knowledge sufficient to enable the pursuit of professional opportunities in government, industry, and public practice. This degree is appropriate for individuals who wish to complete significant course work in accounting.

This accounting program is separately accredited by the Association to Advance Collegiate Schools of Business (AACSB), ensuring it meets high standards of education and professional development.

## Competencies

1. Upon completion, students will be able to demonstrate an understanding of the accounting process and demonstrate knowledge of the reporting requirements in financial statements and the accountants' impact on the economy and the financial markets.
2. Upon completion, students will be able to demonstrate an ability to apply information technologies relevant to the accounting field.
3. Upon completion, students will be able to articulate the values and practices associated with the ethical responsibilities of public and private accounting fields.
4. Upon completion, students will be able to demonstrate effective business communication skills.
5. Upon completion, students will be able to research, identify issues and critically analyze responses and conclusions to those issues.
