

Bachelor of Applied Arts and Sciences (BAAS)

COURSES

BAAS 3301. INTRODUCTION TO INTERDISCIPLINARY STUDIES FOR THE BAAS. 3 Hours.

This course introduces students to foundational concepts in interdisciplinary studies and encourages the development of durable skills for academic and professional contexts. Students reflect on their academic and professional histories, explore university resources, and engage in short- and long-term academic and career planning and development.

BAAS 3388. SPECIAL TOPICS IN APPLIED ARTS & SCIENCES. 3 Hours.

Special topics in BAAS concentrations. May be repeated for credit when the topic changes.

BAAS 4398. BACHELOR OF APPLIED ARTS & SCIENCES CAPSTONE. 3 Hours.

Students will apply information from previous courses to address a problem or question relevant to their BAAS concentration. Students will produce a well-researched project, which they will present to an academic and/or professional audience. Prerequisite: BAAS 3301 and permission required.
