# **Minor in Philosophy**

# **About This Program**

Philosophy focuses on the perennial problems raised by the encounter of human beings with the world and with their history and culture, especially problems concerning the nature of reality, the nature of knowledge, and the nature of value. The practice of philosophy requires the cultivation of analytical reasoning abilities, clarity of written and spoken argumentation, as well as the development of synthetic and higher-order critical thinking capacities. While concentrating on some of the most profound and fundamental problems of thought, philosophy students learn the history of the discipline and hone these broadly transferable and practically applicable skills.

A Minor in Philosophy requires 18 semester hours, at least six of which must be 3000/4000 level.

## Competencies

- 1. Upon completion of the minor, students will be able to construct and critically assess complex philosophical arguments.
- 2. Upon completion of the minor, students will demonstrate an understanding of central figures and main problems in philosophy.
- 3. Upon completion of the minor, students will be able to read a philosophical text with care and comprehension.
