Advanced study of the theory and practice in written and oral presentations with emphasis on the application of communication theory in organizational and technical professions.

COMM 5325. GLOBAL COMMUNICATION. 3 Hours.
Examination of verbal and nonverbal barriers to effective intercultural and international communication. Developing effective communication in advanced study of communication theories: interpersonal, organizational, mass media and intercultural contexts and exploring the definition and impact of global communication.

COMM 5341. MEDIA MANAGEMENT. 3 Hours.
Study of media policy and regulation; media, cultural, and management theories; media economics; accounting and finance; business strategy, management and marketing.

COMM 5345. COMMUNICATION CAMPAIGNS. 3 Hours.
Advanced study of communication theories and research with the goal of developing strategic communication plans, including the selection of the appropriate vehicles and creative tactics. Team project required.

COMM 5346. MEDIA AND PUBLIC POLICY. 3 Hours.
Advanced study of communication theories and research related to understanding the linkage between media, public opinion and public policy. Individual and/or team project required.

COMM 5347. CRISIS COMMUNICATION. 3 Hours.
Advanced study of communication theories related to crisis communication and strategies used to communicate with stakeholders before, during and after crisis situations.

COMM 5349. COMMUNICATION IN VIRTUAL ORGANIZATIONS. 3 Hours.
This course examines the communication processes in virtual organizations. Communication, organizational, and management theories related to virtual organizations will be introduced. Students will learn to critically analyze specific communication issues in virtual organizations, such as organizational trust, knowledge management, communication and knowledge networks, employee relationships, and organizational identification.

COMM 5350. HEALTH COMMUNICATION. 3 Hours.
This course provides an overview of health communication in interpersonal contexts as well as the role of mediated communication on human behavior and policy.

COMM 5351. POLITICAL COMMUNICATION. 3 Hours.
This course emphasizes theoretical perspectives while also exploring, analyzing and evaluating the applied aspects of communication in politics. Students will engage in research according to their own specific interests within communication.

COMM 5352. SOCIAL MEDIA THEORY AND PRACTICE. 3 Hours.
At the intersection of mass and interpersonal communication, social media has reshaped how millions of people experience popular culture, journalism and politics. This course will involve advanced study of networked communication, social implications of these networks and the application of professional techniques for communicating via social media and measuring progress using available platform analytics.

COMM 5353. DIGITAL MEDIA DATA ANALYTICS. 3 Hours.
Study theories and practices related to the collection, analysis, presentation, and interpretation of data for digital communication purposes. Students will work on data analytics and data visualization projects.

COMM 5391. CONFERENCE COURSE. 3 Hours.
Topic assigned on an individual basis, covering individual research or study in the designated areas. Can be taken no more than two times for credit. Prerequisite: permission of the department.
COMM 5392. SEMINAR. 3 Hours.
Special topics. Topic varies from semester to semester. May be repeated when topic changes.

COMM 5398. THESIS. 3 Hours.
Student completion of a research project on a subject of primarily theoretical interest, intended for an academic audience. Prerequisite: satisfactory completion of coursework and consent of thesis advisor.

COMM 5399. GRADUATE COMMUNICATION INTERNSHIP. 3 Hours.
Practical training and experience in the field of communication. Applied communication research project is required. Course counts as an elective and has a pass/fail grade. No credit will be given for current employment, previous experience or activities. Prerequisite: Minimum nine graduate semester hours completed. Subject to departmental approval.

COMM 5698. THESIS. 6 Hours.
Student completion of a research study on a subject of primarily theoretical interest, intended for an academic audience. Prerequisite: satisfactory completion of thesis proposal defense and consent of thesis advisor.

COURSES

COMS 0185. FORENSICS. 1 Hour.
Preparation for and participation in intercollegiate and intersquad forensic activities. Students engage in supervised research, development of debate skills and individual speaking activities. Prerequisite: permission.

COMS 1301. FUNDAMENTALS OF PUBLIC SPEAKING. 3 Hours. (TCCN = SPCH 1315)
Stress on development of the individual's speaking abilities and confidence in a variety of speaking situations.

COMS 1302. VOICE AND DICTION. 3 Hours. (TCCN = SPCH 1342)
Designed to improve the quality of the individual's speech. Enunciation, articulation, pronunciation, and the fundamentals of voice production. The phonetic alphabet as a visual means of teaching auditory differences.

COMS 2302. PROFESSIONAL AND TECHNICAL COMMUNICATION FOR SCIENCE AND ENGINEERING. 3 Hours.
Theory and practice in written and oral presentations with an emphasis on professional and technical communication for science and engineering. Prerequisites: 30 or more hours earned and ENGL 1301 or Student Group.

COMS 2304. GROUP COMMUNICATION PRINCIPLES. 3 Hours. (TCCN = SPCH 2333)
Principles and practice of effective interaction within small groups including meeting planning, agenda setting, conflict management, and decision making.

COMS 2305. BUSINESS AND PROFESSIONAL COMMUNICATION. 3 Hours. (TCCN = SPCH 1321)
Insight into communication skills. Designed to give the student experience in interviewing, business presentations, organizational reports, and the relationship of visual and oral presentations to business.

COMS 3309. ORGANIZATIONAL COMMUNICATION. 3 Hours.
Communication functions within formally structured social systems such as business, government, and education. Emphasis on conceptual schemes for conducting analysis of training programs in organizational communication. Credit will not be given for both COMS 3309 and PCOM 3309. Prerequisite: COMS 2304 with a grade of C or better (2.0/4.0), COMS 1301, and 3 hours of Math.

COMS 3310. GROUP COMMUNICATION THEORY. 3 Hours.
Characteristics of group communication including group function and formation, norms, cohesion, problem solving, leadership, and ethics. Prerequisite: COMS 2304 with a grade of C or better (2.0/4.0) and 3 hours of Math.

COMS 3312. BACKGROUNDS OF PUBLIC ADDRESS. 3 Hours.
Traditional works pertinent to theories of communication. Emphasis on discovering the traditional bases shared by empirical and critical studies of rhetorical communication. Prerequisite: COMS 1301 and COMS 2304 with a grade of C or better (2.0/4.0), or permission of the department.

COMS 3315. COMMUNICATION FOR EDUCATORS. 3 Hours.
Basic concepts, theories, research and processes relevant to formal and informal instructional situations. Units of study will focus on intrapersonal, interpersonal, small group, and presentational communication. Prerequisite: COMS 1301 and COMS 2304 with a grade of C or better (2.0/4.0), or permission of the department.

COMS 3316. COMMUNICATION IN HUMAN RELATIONS. 3 Hours.
The human communication process within social, business, and family contexts. Theories and principles of interpersonal communication. Prerequisites: 45 or more hours earned.

COMS 3320. INTERVIEW PRINCIPLES. 3 Hours.
Theory and practice in interviewing as it relates to information-gathering, questioning, and response analysis in probing, persuasive, employment, and survey interviews; practical and legal application in employment interviews; preparation of resume and cover letter. Prerequisite: One of the following: COMS 1301, COMS 2302, or COMS 2305.

COMS 3321. ORAL INTERPRETATION OF LITERATURE. 3 Hours.
The fundamental principles of oral interpretation and techniques of interpretation. Stresses background research concerning author and type of material. Prerequisite: COMS 1301. A grade of C or better in one of the following courses: COMS 2302, COMS 2304, COMS 2305.
COMS 3323. ORAL INTERPRETATION OF CHILDREN’S LITERATURE. 3 Hours.
Traditional oral interpretation principles and performance techniques as applied to various genres of children's literature. Prerequisite: COMS 1301, a grade of C or better in one of the following courses: COMS 2302, COMS 2304, COMS 2305.

COMS 4300. PERSUASIVE COMMUNICATION. 3 Hours.
Analysis of the means by which persuasive communication affects individuals and society. Extensive reading of theories of techniques of persuasion. Study of the adaptation of motivational appeals, structural strategies, and other persuasive techniques in interpersonal and public contexts. Prerequisite: COMS 3315 and COMS 1301; COMS 2304 with a grade of C or better (2.0/4.0).

COMS 4302. MODERN PUBLIC ADDRESS. 3 Hours.
Analysis of major 20th-century forms of public address and speakers. Application of various models for criticism and public address. Prerequisite: COMS 3315, COMS 1301, and a grade C or better in one of the following courses: COMS 2302, COMS 2304, COMS 2305; or permission of the department.

COMS 4315. PROFESSIONAL PRESENTATIONS. 3 Hours.
The role of internal and external informative and persuasive presentations in organizations. Extensive readings and practice with an emphasis on research, development, organization, and critical evaluation of oral and visual presentations. Credit will not be given for both COMS 4315 and PCOM 4315. Prerequisite: 60 hours complete and a C or better in one of the following courses: COMS 1301, COMS 2302, COMS 2304, or COMS 2305.

COMS 4320. MANAGERIAL COMMUNICATION. 3 Hours.
Analysis of the role of the business manager; readings in research and theory with emphasis on problem-solving and motivation. Credit will not be given for both COMS 4320 and PCOM 4320. Prerequisite: COMS 3315 and COMS 3309 with a grade of C or better (2.0/4.0), or permission of the department.

COMS 4321. READERS THEATRE. 3 Hours.
Readers interpret various kinds of literature for an audience. Analysis and criticism of literature are stressed. Prerequisite: COMS 3315, a grade of C or better (2.0/4.0) in COMS 3321 or COMS 3323, or permission of the department.

COMS 4322. COMMUNICATION TRAINING AND DEVELOPMENT. 3 Hours.
The process of analyzing communication problems and providing training skills for businesses and organizations. Emphasizes practical knowledge of facilitating skill improvement in verbal and nonverbal communication. Prerequisite: 60 hours complete and a C or better in one of the following courses: COMS 1301, COMS 2302, COMS 2304, or COMS 2305.

COMS 4391. CONFERENCE COURSE. 3 Hours.
Topics assigned on an individual basis, covering research or study in the designated areas. May be repeated when topic changes. Prerequisite: 60 or more hours earned and permission of the department.

COMS 4393. COMMUNICATION TOPICS. 3 Hours.
Special studies in speech. Topics will vary from semester to semester. May be repeated once when topics vary. Prerequisite: 60 hours earned, and permission.

COMS 4395. PROFESSIONAL INTERNSHIP. 3 Hours.
Individual research while working with business and industry. Individual conference to be arranged. Graded Pass/Fail. Prerequisite: 60 or more hours earned, and permission.

COURSES

CTEC 2350. WEB COMMUNICATION DESIGN AND DEVELOPMENT 1. 3 Hours.
Overview of theoretical principles of communication, organization, human-computer interaction, and user experience research for effective communication over the Internet. This course provides an introduction to essential elements of Web design and development, including using markup and style sheet languages, developing information architecture, and assessing usability.

CTEC 3320. MULTIMODAL COMMUNICATION AND DESIGN. 3 Hours.
Application of contemporary communication theories to examine how meaning is constructed, interpreted and produced through multiple communication modalities. Students are expected to complete a theoretically informed, personal portfolio and accumulate skills in digital workflows, graphic creation and manipulation, audio-video editing, storyboarding, and compositing. Prerequisite: COMM 3303.

CTEC 3350. WEB COMMUNICATION DESIGN AND DEVELOPMENT 2. 3 Hours.
A continuation of CTEC 2350. This course provides in-depth examination of usability, accessibility, online rhetoric, and branding. Content also includes current Web communication technology including markup language, scripting and style sheet, for effective communication on the Web across multiple technological platforms. Prerequisite: CTEC 2350 with a grade of C (2.0/4.0 scale) or better, and 3 hours of Math.

CTEC 4309. INTERNET MARKETING COMMUNICATION. 3 Hours.
Course examines best practices in marketing communication; considers electronic commerce conducted via current communication and information technology. Discussion of theories, research strategies, usage trends, and current development. Prerequisite: COMM 3300, COMM 3315, a grade of C (2.0/4.0) or better in COMM 2311, and one of the following: ADVT 4300, CTEC 3350, PREL 3355, or COMM 4318.
CTEC 4321. DIGITAL COMMUNICATION MANAGEMENT. 3 Hours.
Study of corporate and organizational communication theories through a user-centered approach. Students will design, analyze, and evaluate the organization and structure of digital communication via the development of Web-based, database-supported interactive applications. Prerequisite: COMM 3315, a grade of C or better (2.0/4.0) in the following: COMM 2311, CTEC 2350, and CTEC 3350.

CTEC 4323. USER EXPERIENCE RESEARCH AND DESIGN. 3 Hours.
Study of contemporary theories of user experience research including human-computer interaction, interaction design, multimodal communication, and industrial design. Prerequisites: COMM 3315 and a grade of C or better (2.0/4.0) in the following: COMM 2311, CTEC 2350, CTEC 3320, CTEC 3350, or, for non-CTEC majors, permission of the department.

CTEC 4350. WEB COMMUNICATION DESIGN AND DEVELOPMENT 3. 3 Hours.
This capstone course of the CTEC sequence reviews and applies theoretical principles of communication, human-computer interaction, user experience research, and information architecture for effective communication over the Internet. The course includes web design, implementation, development and project management. Prerequisites: A grade of C (2.0/4.0) or better in the following courses: CTEC 2350, CTEC 3320, CTEC 3350, CTEC 4309, and either CTEC 4321 or CTEC 4323.

CTEC 4391. CONFERENCE COURSE. 3 Hours.
Topic assigned on an individual basis, covering individual research or study in the designated areas. May be repeated when topic changes. Prerequisite: 60 or more hours earned and permission of the department.

CTEC 4393. SPECIAL TOPICS. 3 Hours.
Special studies in communication technology. Topic varies from semester to semester. May be repeated when topic changes, for a maximum of six credit hours. Prerequisite: 60 or more hours earned and permission.

CTEC 4395. PROFESSIONAL INTERNSHIP. 3 Hours.
Individual research while working with business and industry. Individual conference to be arranged. Prerequisite: 60 or more hours earned and permission.

COURSES

JOUR 2330. INTRODUCTION TO JOURNALISM. 3 Hours. (TCCN = COMM 2302)
Providing an overview of ethics, history, principles and fundamentals of journalism as reflected in current practices.

JOUR 2340. PHOTOJOURNALISM I. 3 Hours. (TCCN = COMM 1316)
Basic theory and techniques of photojournalism; introduction to electronic digital photography and editing; professional, technical, and aesthetic values.

JOUR 2346. REPORTING. 3 Hours. (TCCN = COMM 2315)
Complex journalistic stories with emphasis on ethics, researching, interviewing, and writing of general news stories, news features, and specialized stories. Prerequisite: A grade of C or better in both COMM 2311 and JOUR 2330.

JOUR 3330. DATA JOURNALISM. 3 Hours.
Use of data management skills and software to report stories, using journalistic principles and writing style as well as visualization. Prerequisite: JOUR 2346 with a C or better.

JOUR 3341. PHOTOJOURNALISM II. 3 Hours.
Advanced electronic imaging techniques as applied to newspapers, magazines, and public relations. Prerequisite: JOUR 2340 with a grade of C (2.0/4.0) or better.

JOUR 3345. COPY EDITING. 3 Hours.
Focus on the function of editors, copy editors and copy editing for journalistic and other publications in print and online formats. Prerequisite: A grade of C or higher in both JOUR 2330 and JOUR 2346, or permission of the department.

JOUR 3360. SPORTS REPORTING. 3 Hours.
Reporting on sports across multiple platforms. Credit will not be given for both BCMN 3360 and JOUR 3360. Prerequisite: A grade of C or better in both JOUR 2340 and JOUR 2346.

JOUR 4325. SPECIALIZED REPORTING. 3 Hours.
This course focuses on the unique demands of a specialized form of journalism. Subjects include such topics as sports reporting, business reporting, health and science reporting, travel reporting and writing for new media. Prerequisite: JOUR 2346 with a grade of C or higher and COMM 3315.

JOUR 4326. FEATURE AND OPINION WRITING. 3 Hours.
Nature, function, and structure of articles for print and online media. Prerequisite: JOUR 2346 with a grade of C or better and COMM 3315.

JOUR 4341. DIGITAL STORYTELLING. 3 Hours.
Creating multimedia packages in news, illustrative, and narrative formats. Conducting social media journalism. Readings in newsroom practices, law, and ethics of digital communication. Prerequisites: COMM 3315, and a grade of C (2.0/4.0) or better in JOUR 2346 and JOUR 3341.

JOUR 4346. PUBLIC AFFAIRS REPORTING. 3 Hours.
Research in planning and writing techniques required for covering such public affairs news sources as governmental offices, bureaus, and agencies. Experience in covering local government agencies, including agency budgets. Investigative and in-depth methods of news gathering; extensive practice in news writing. Prerequisite: COMM 3315, JOUR 2346 with a grade of C or higher, and completion or concurrent enrollment in JOUR 3330.
JOUR 4391. CONFERENCE COURSE. 3 Hours.
Topic assigned on an individual basis, covering individual research or study in the designated areas. May be repeated when topic changes. Prerequisite: 60 or more hours earned and permission of the department.

JOUR 4393. SPECIAL TOPICS. 3 Hours.
Special studies in journalism. Topic varies from semester to semester. May be repeated as topics vary. Prerequisite: JOUR 2346, 60 or more hours earned, and permission of the department.

JOUR 4395. PROFESSIONAL INTERNSHIP. 3 Hours.
Individual research while working with business and industry. Individual conference to be arranged. Graded P/F. Prerequisite: 60 or more hours earned and permission of the department.

COURSES

PCOM 2301. INTRODUCTION TO NONPROFITS AND PHILANTHROPY. 3 Hours.
An overview of working in the nonprofit sector and exploring the issues and values surrounding philanthropy and not-for-profit organizations. Topics include history of philanthropy, theories of the nonprofit sector, law and governance, programming, mission, volunteer recruiting, and fundraising.

PCOM 3301. FUNDRAISING AND DEVELOPMENT. 3 Hours.
Examination of the fundraising practices and development role in nonprofits including the role of government support, earned revenue, private giving, and legal and ethical contexts of fundraising. Topics include the major areas of philanthropy in addition to the fundraising tools such as grant proposals, special events, planned giving, capital campaigns, and new technologies. Prerequisite: PCOM 2301.

PCOM 3309. ORGANIZATIONAL COMMUNICATION. 3 Hours.
Communication functions within formally structured social systems such as business, government, and education. Emphasis on conceptual schemes for conducting analysis of training programs in organizational communication. Credit will not be given for both COMS 2304 and PCOM 3309. Prerequisite: COMS 2304 with a grade of C or better (2.0/4.0), COMS 1301, and 3 hours of Math.

PCOM 3320. STRATEGIC SOCIAL MEDIA COMMUNICATION. 3 Hours.
Developing strategy and content for social media, engaging in audience analysis, understanding the unique attributes of various platforms, and communicating ethically and effectively across those platforms. Credit will not be given for both PCOM 3320 and PREL 3320.

PCOM 4301. NONPROFIT MANAGEMENT. 3 Hours.
Leadership of nonprofits including staff, volunteers, marketing, advocacy, and board development. Topics include the creation of compelling programs and the use of storytelling to appeal to target audiences. Operational and financial aspects of nonprofit management, mission and governance of organizations, and strategic planning for effective management are also covered. Prerequisite: COMM 3315, PCOM 2301, PCOM 3301.

PCOM 4315. PROFESSIONAL PRESENTATIONS. 3 Hours.
The role of internal and external informative and persuasive presentations in organizations. Extensive readings and practice with an emphasis on research, development, organization, and critical evaluation of oral and visual presentations. Credit will not be given for both COMS 3309 and PCOM 4315. Prerequisite: 60 hours complete and a C or better in one of the following courses: COMS 1301, COMS 2302, COMS 2304, or COMS 2305.

PCOM 4320. MANAGERIAL COMMUNICATION. 3 Hours.
Analysis of the role of the business manager; readings in research and theory with emphasis on problem-solving and motivation. Credit will not be given for both COMS 2302 and PCOM 4320. Prerequisite: COMM 3315 and COMS 3309 with a grade of C or better (2.0/4.0), or permission of the department.

PCOM 4391. CONFERENCE COURSE. 3 Hours.
Topic assigned on an individual basis, covering individual research or study in the designated areas. May be repeated when topic changes. Prerequisite: 60 or more hours earned and permission of the department.

PCOM 4393. SPECIAL TOPICS. 3 Hours.
Special studies in philanthropy. Topic varies from semester to semester. May be repeated when topic changes for a maximum of six credit hours. Prerequisite: 60 or more hours earned and permission.

PCOM 4395. DIRECTED INTERNSHIP IN NONPROFITS AND PHILANTHROPY. 3 Hours.
Application of practices and theories within a professional philanthropic context. Students work with a host organization in their area of interest applying knowledge to practical situations. Individual conference to be arranged. Graded Pass/Fail. Prerequisite: COMM 3315, PCOM 2301, and PCOM 3301.

COURSES

PREL 2338. INTRODUCTION TO PUBLIC RELATIONS. 3 Hours. (TCCN = COMM 2330)
Principles and methods of building goodwill and obtaining publicity; process of influencing public opinion; analysis of media; implementation of public relations programs.

PREL 3320. STRATEGIC SOCIAL MEDIA COMMUNICATION. 3 Hours.
Developing strategy and content for social media, engaging in audience analysis, understanding the unique attributes of various platforms, and communicating ethically and effectively across those platforms. Credit will not be given for both PCOM 3320 and PREL 3320.
PREL 3339. PUBLIC RELATIONS METHODS I. 3 Hours.
The theory and practice of selecting the appropriate mass media channels to reach and influence specialized groups with introductory practice in public relations writing. Prerequisite: A grade of C or higher (2.0/4.0 scale) in the following courses: PREL 2338, COMM 2311, and either MATH 1308 or MATH 1309, and 60 or more hours earned.

PREL 3340. PUBLIC RELATIONS METHODS II. 3 Hours.
The theory and advanced practice of selecting the appropriate mass media channels to reach and influence specialized groups with strategic public relations writing. Prerequisite: PREL 3339 with a grade of C or higher (2.0/4.0 scale).

PREL 4316. PUBLIC RELATIONS CAMPAIGNS. 3 Hours.
The study of advanced public relations campaign strategies based on research techniques; campaign development, implementation and assessment. Prerequisite: PREL 3339 and PREL 3340 with a grade of C (2.0/4.0 scale) or better. COMM 3315, COMM 3303, and ECON 2305, and completion or concurrent enrollment in PREL 4320.

PREL 4320. PUBLIC RELATIONS MANAGEMENT CASE STUDIES. 3 Hours.
The use of case studies to study public relations management decision-making in areas of operation, personnel, content, promotion, finance, and governmental regulations. Prerequisite: COMM 3315, A grade of C (2.0/4.0) or better in PREL 3340.

PREL 4391. CONFERENCE COURSE. 3 Hours.
Topic assigned on an individual basis, covering individual research or study in the designated areas. May be repeated when topic changes. Prerequisite: 60 or more hours earned and permission of the department.

PREL 4393. SPECIAL TOPICS. 3 Hours.
Special studies in public relations. Topic varies from semester to semester. May be repeated when topic changes for a maximum of six credit hours. Prerequisite: 60 or more hours earned, and permission of the department.

PREL 4395. PROFESSIONAL INTERNSHIP. 3 Hours.
Individual research in public relations while working with business and industry. Individual conference to be arranged. Prerequisite: 60 or more hours earned and permission of the department.
Communication - Graduate Program

Objective

The Master of Arts in Communication program includes the areas of Communication Studies and Mass Communication. It is designed to meet the educational needs of recent graduates and professionals.

The program’s curriculum emphasizes the integrated nature of the communication discipline. For example, the program offers education in the management of media resources, the changing role of media and technology in an information society, and a theoretical and ethical framework for considering the impact of media on society.

Educational and organizational professionals can focus on working with both external and internal constituencies and communication processes of management, training and development, and human resources. A broader knowledge of communication processes at the interpersonal, organizational, and mass media levels provides the opportunity for career enhancement and/or further graduate studies.

Admission Standards

Prospective students must apply for admission through, and supply all information required by the Graduate School. In addition, the following information will be considered in determining admission status into the program: undergraduate GPA, GRE scores, letters of recommendation and an essay. All criteria are considered together; no single factor will eliminate a prospective student from consideration.

The following table outlines specific requirements for unconditional and probationary admission.

Graduate Admission Standards

<table>
<thead>
<tr>
<th>Admissions Criteria</th>
<th>Unconditional</th>
<th>Probationary</th>
</tr>
</thead>
<tbody>
<tr>
<td>GPA on last 60 hours of Undergraduate Program (as calculated by Graduate School of UT Arlington)</td>
<td>3.0</td>
<td>under 3.0</td>
</tr>
<tr>
<td>GRE</td>
<td>Evaluated</td>
<td>Evaluated</td>
</tr>
<tr>
<td>3 letters of recommendation</td>
<td>Evaluated</td>
<td>Evaluated</td>
</tr>
<tr>
<td>Essay</td>
<td>Evaluated</td>
<td>Evaluated</td>
</tr>
</tbody>
</table>

1 Minimum undergraduate GPA requirement for unconditional admission is a 3.0 on a 4.0 scale.

Students not meeting unconditional criteria will be reviewed by a committee of Chair of the Department of Communication, Graduate Advisor, and Graduate Program Committee. The committee will review the following: undergraduate GPA (in last 60 hours of undergraduate work); GRE scores (verbal, analytical and quantitative); letters of recommendation; and essay. An applicant who performs successfully on a majority of these criteria may be admitted on probation. While taking the GRE is encouraged, this requirement may be waived for UTA communication graduates with a cumulative GPA of 3.2 or higher. The committee will make a final admission decision and document that decision for the student record.

Unconditional Admission

Criteria for unconditional admission status are designated in the previous table. Decisions on unconditional admission are made after considering the minimum GPA noted in the graduate admission standards and all other criteria noted in the preceding paragraph.

Probationary Admission

Criteria for probationary admission status are designated in the previous table. When on probation, students can make no grade lower than a 3.0 in their first 12 semester hours of graduate coursework.

Provisional Admission

An applicant unable to supply all required documentation prior to the admission deadline but who otherwise appears to meet admission requirements.

Deferred Status

Deferred decision is granted when a file is incomplete or when a denied decision is not appropriate.

Denial of Admission

An applicant will be denied admission if he or she has less than satisfactory performance on a majority of admission criteria listed in the previous table.
Fellowship Criteria

Fellowship selection will be based on the highest GPA in the last 60 hours of the bachelor’s degree program. Candidates for fellowships must meet the following criteria:

a. New students coming to UT Arlington in the fall of each semester.
b. Have a GPA of at least 3.0 in their last 60 hours of their bachelor’s degree program.
c. Minimum 3.0 GPA in graduate credit hours.
d. Enrolled in a minimum of 6 semester hours in the long semesters.

Degree Requirements

The Master of Arts in Communication degree offers non-thesis/coursework and thesis options. The non-thesis/coursework option will require 36 hours of coursework. The thesis option will require 30 hours that will include 24 credit hours of coursework and a 6-credit-hour thesis. A final comprehensive examination will be required of students in all options.

Courses required of all students in the program in the first semester:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMM 5300</td>
<td>ADVANCED THEORIES IN COMMUNICATION</td>
</tr>
<tr>

Total Hours 15-27

1 An advanced quantitative research methods course from another department may be substituted for this course with the permission of the communication graduate advisor.

Graduate courses outside the department may be taken with the approval of the Graduate Studies Committee. Students should submit a letter to the graduate advisor including course title, course description, and statement of value to the program of study.
Non-Thesis Option. (36 semester hours total) 36 semester credit hours of coursework are given. The final comprehensive examination will consist of a written and oral exam covering the coursework. Additional remedial work may be required if deemed necessary by the student's committee. Students failing the examination will not be allowed to test again.

Thesis Option. (30 semester hours total) 24 semester credit hours of coursework and a thesis, for which 6 semester hours are given. The final comprehensive examination will consist of an oral defense of the thesis prospectus and an oral defense of the thesis. Additional remedial work may be required if deemed necessary by the student’s committee.
Communication - Undergraduate Programs

Overview

The Department of Communication offers two bachelor’s degrees: Bachelor of Arts in Communication and Bachelor of Arts in Philanthropy.

The degree Bachelor of Arts in Communication is offered with multiple specializations. The department curricula provide students with an overview of the role and function of communication in society. These courses present a broad academic exposure, including theories, skills, techniques, critical analysis, historical perspectives, and aesthetic appreciation.

The Department of Communication seeks to emphasize theories and techniques which give students the ability to adapt to rapid changes in communication technology.

Within the major disciplines, specializations are available in advertising, broadcasting, communication technology, journalism, public relations, organizational communication, and interpersonal communication.

The Bachelor of Arts in Philanthropy equips students with the necessary theoretical frameworks and practical knowledge about communication, fundraising, and leadership for a career in nonprofit and philanthropic organizations. The major courses provide students with training in nonprofit management, nonprofit ethics, fundraising and development, public relations, and multi-media communication. Students also take grant writing courses from the English department and are recommended to take marketing, management, and other related courses as electives.

All majors in the Department of Communication must complete the following core courses. The department math requirement must be completed before reaching 60 hours:

- COMM 3300 COMMUNICATION TECHNOLOGY 3
- COMM 3310 COMMUNICATION LAW & ETHICS 3
- COMM 3315 COMMUNICATION THEORY 3

Declaring a Major in the Department of Communication

I. Admission to Major

All undergraduate students seeking to declare a major in the Department of Communication (ADVT, BCMN, COMS, CTEC, JOUR, PCOM, PREL) must meet the following criteria:

Completion of a minimum of 12 hours in residence at The University of Texas at Arlington with a minimum cumulative GPA of 2.25/4.0.

Students who do not meet these minimum requirements can request to be admitted as a COMM Intended or PCOM Intended major. Please see restrictions below.

II. Admission as a COMM Intended or PCOM Intended Major

a. Completion of a minimum of 12 hours in residence at The University of Texas at Arlington with a minimum cumulative GPA of 2.0/4.0.

b. COMM Intended or PCOM Intended majors may enroll in up to a total of 18 hours in the Department of Communication (ADVT, BCMN, COMS, CTEC, JOUR, PCOM, PREL)

c. Students who do not achieve a cumulative UT Arlington GPA of 2.25/4.0 by the completion of 18 hours in the Department of Communication will not be cleared to continue in the department.

III. Dismissal from Department of Communication COMM Intended or PCOM Intended Status

Students who do not meet the requirements for declaring a Department of Communication major after completing eighteen (18) hours of communication course work will not be allowed to take additional communication courses at UT Arlington. The student will be suspended from the Department of Communication COMM Intended or PCOM Intended status and must choose a major not offered by the Department of Communication at that time in order to remain enrolled at UT Arlington.

General Academic Standards in the Department of Communication

a. Graduation as a major in the Department of Communication must meet the UT Arlington graduation standard of a minimum GPA of 2.0/4.0.

b. Graduation as a major in the Department of Communication must meet the department graduation standard of a minimum cumulative GPA of 2.0/4.0 in all department courses (ADVT, BCMN, COMS, CTEC, JOUR, PCOM, PREL).

Requirements for a Bachelor of Arts Degree in Communication

Pre-Professional Courses

General Core Requirements (p. 47)
Students must take ENGL 1301 RHETORIC AND COMPOSITION I and ENGL 1302 RHETORIC AND COMPOSITION II (Note: These courses also fulfill requirements in the General Core) Students should see their individual sequence for the specific COMS requirement. For students pursuing a degree in Philanthropy it is recommended that they take PHIL 1304 to fulfill the Language, Philosophy, Culture requirement, and GEOG 2302 or GEOG 2303 to satisfy the Social and Behavioral Sciences requirement of the Common Core.

The College of Liberal Arts has a modern and classical languages requirement for the B.A. degree. Students must demonstrate proficiency in a modern or classical language at the first-year college level (1441 and 1442) unless the degree pursued does not require a modern or classical language.

Student Success requirement: UT Arlington’s first year experience courses are designed to orient students to life on the Maverick campus. Freshman and transfer students are required to receive credit for one of these two classes (UNIV 1101 or UNIV 1131) or an equivalent course. The required course for the degree plan for a program of study will be determined by the college/school/department faculty.

Professional Courses

Major
A minimum of 45 semester hours, with 18 at the 3000/4000 level. A student must complete the requirements for one of the departmental specializations.

Minor, Certificate, or Electives

Students may complete an optional minor consisting of 18 hours, six of which must be at the 3000/4000 level in the selected minor. The minor will be selected after consulting with an advisor. Students may also complete the Certificate in Digital Media, the Certificate in Professional Communication, the Certificate in Fundraising and Nonprofit Management, or the minor may be combined with the Certificate. Students must also take electives as needed to bring the total number of credit hours to 120.

- Criminology and Criminal Justice, M.A. (p. 882)

COURSES

CRCJ 2334. INTRODUCTION TO THE CRIMINAL JUSTICE SYSTEM. 3 Hours. (TCCN = CRIJ 1301)
An overview of the entire criminal justice system; history and development, law enforcement, prosecution and defense, courts and trial processes, and corrections. Formerly CRCJ 3334; credit will not be granted for both CRCJ 3334 and CRCJ 2334.

CRCJ 2335. ETHICS AND THE CRIMINAL JUSTICE SYSTEM. 3 Hours.
An examination of ethical issues confronted by criminal justice personnel and organizations. The course explores the standards and professional responsibilities of criminal justice practitioners, including law enforcement officers, officers of the courts, and juvenile and corrections officials.

CRCJ 2340. CRIMINAL INVESTIGATION. 3 Hours. (TCCN = CRIJ 2314)
Fundamentals of criminal investigation, including theory and history, conduct at crime scenes, sources of information, collection and preservation of evidence, case and trial preparation. Formerly CRCJ 2314; credit will be given for CRCJ 2340 or CRCJ 2314, but not both.

CRCJ 2350. INTRODUCTION TO LAW ENFORCEMENT. 3 Hours.
An overview of the historical and organizational development of police systems. Emphasis is placed on the function and organizational structure of law enforcement agencies and how these agencies interface with other components of the criminal justice system.

CRCJ 3300. THEORETICAL CRIMINOLOGY. 3 Hours.
The methodological and theoretical perspectives of the social and biological sciences as integrated into the criminal justice system. Prerequisite: CRCJ 2334.

CRCJ 3307. INTRODUCTION TO SECURITY SYSTEMS. 3 Hours.
Historical development of private security, its form and practice in modern society. Emphasis on three major divisions within the field: industrial, commercial and governmental security organizations and issues.

CRCJ 3310. PROFESSIONAL WRITING FOR CRCJ MAJORS. 3 Hours.
Designed to develop or enhance skills in varied writing styles used in the study of criminology and criminal justice. Legal, technical, and academic writing requirements are presented with emphasis on purpose, form and content. Specific focus is on technical reports for law enforcement agencies, legal research, field investigations, as well as proper citation and reference style. Open to CRCJ majors or minors only.

CRCJ 3320. CYBERCRIME. 3 Hours.
The course presents a conceptual overview of cybercrime and information security. Topics include: history of cybercrime, cybercrime techniques, cyberterrorism, forensics, and information security fundamentals.

CRCJ 3330. FUNDAMENTALS OF LAW. 3 Hours.
This course introduces students to areas of the law that affect the daily lives of U.S. residents. Emphasis is on fundamental criminal law and constitutional law principles which provide a platform for consideration of important public policy issues concerning crime, discrimination, health care, and immigration.

CRCJ 3336. POLICE MANAGEMENT AND ADMINISTRATION. 3 Hours.
Examines the principles of administration, management, politics and leadership with emphasis on their applicability to police planning, organization, direction, control and personnel management.

CRCJ 3337. ADVANCED CRIMINAL PROCEDURE. 3 Hours.
The processes involved in the criminal justice system; the rules of evidence; the laws of arrest, search and seizure; and the judicial process from offense to conviction.

CRCJ 3338. JUVENILE JUSTICE SYSTEMS. 3 Hours.
Organization, processes, and functions of the juvenile justice system in the United States, its historical antecedents, and contemporary challenges. Consideration also given to sociopolitical factors in juvenile justice decision-making. This course satisfies the requirements for UNIV 1101.

CRCJ 3340. CRIMINAL JUSTICE STATISTICS. 3 Hours.
An introduction to basic concepts and techniques necessary for a preliminary and proficient understanding of criminal justice research. Focus is on analyzing and interpreting research findings including types of data, central tendency, and both descriptive and inferential statistics. Prerequisite: CRCJ 2334 and CRCJ 3350 or equivalent.
CRCJ 3350. INTRODUCTION TO RESEARCH METHODS IN CRIMINOLOGY AND CRIMINAL JUSTICE. 3 Hours.
This course introduces students to the research methodology used in criminological research. Emphasis is on the development of a general understanding of why and how research can be and is conducted in the field of criminology and criminal justice. Other dimensions of research are discussed including the nature of scientific thought, the link between research methods and criminological theory, and the various ethical issues concerning research in the field of criminology.

CRCJ 3370. INTRODUCTION TO FORENSICS. 3 Hours.
This course provides an overview of forensic science. Emphasis is on crime scene investigation, physical evidence, organic and inorganic analysis, forensic toxicology and use of DNA in investigations.

CRCJ 3371. CRIME SCENE INVESTIGATION. 3 Hours.
Provides an in-depth examination of the principles of crime scene investigation. Aspects of forensic crime scene investigation from receiving the call, arriving at the scene, processing of the scene, evidence collection, and safety protocols are examined from scientific, procedural, and legal perspectives. In addition, the tools, techniques, and protocols necessary to perform systematic and thorough crime scene investigation will be presented. Prerequisite: CRCJ 3370.

CRCJ 3380. RACE, CRIME, AND JUSTICE. 3 Hours.
An examination of race in the context of the criminal justice system. Emphasis is on social construction of crime; and the treatment of racial minorities as victims and offenders by law enforcement, courts, and corrections. Offered as CRCJ 3380 and MAS 3380; credit will be granted only once. Offered as AAST 3380 and CRCJ 3380; credit will be granted in only one department. Prerequisite: CRCJ 2334.

CRCJ 3385. WOMEN AND CRIME. 3 Hours.
This course examines criminology and criminal justice issues as they relate specifically to women. The three major areas of coverage include (1) women and girls as victims of crime, (2) women and girls as criminal offenders; and (3) women working in the criminal justice system. Offered as DIVR 3385, CRCJ 3385 and GWSS 3385; credit will be granted only once.

CRCJ 3390. VICTIMOLOGY. 3 Hours.
The relationship between victims of crime and the criminal justice system. Includes an analysis of the characteristics of crime victims, victim reporting and nonreporting patterns, treatment of victims by the various segments of the criminal justice system, victim assistance programs, and the issue of compensation and/or restitution for victims of crime.

CRCJ 3395. DRUG USE AND ABUSE. 3 Hours.
An examination of the description, classification, and analysis of the problem of illegal drug use. Focus is on current drug policies in the United States, and a comparison of worldwide drug policies, and critical analysis of each.

CRCJ 4191. CONFERENCE COURSE. 1 Hour.
Directed individual study; research and study on a topic agreed upon by instructor and student. No more than six hours credit will be granted for conference courses in criminal justice. Prerequisite: permission of the instructor.

CRCJ 4291. CONFERENCE COURSE IN CRIMINAL JUSTICE. 2 Hours.
Directed individual study; research and study on a topic agreed upon by instructor and student. No more than six hours credit will be granted for conference courses in criminal justice. Prerequisite: permission of the instructor.

CRCJ 4301. THE AMERICAN JUDICIAL SYSTEM. 3 Hours.
Federal, state, and local judicial systems, with special emphasis on state trial courts having criminal jurisdiction. Court structure and function, court management, and judicial behavior.

CRCJ 4302. MOCK TRIAL I. 3 Hours.
The purpose of this course is to enhance the student's knowledge of the American adversarial judicial system through in-depth study of trial procedure and evidentiary rules. The primary teaching vehicle is a simulated trial based on the official hypothetical case published by the American Mock Trial Association for the current school year. Cases alternate between criminal and civil cases. The current state of our nation affords us a unique opportunity to explore ways to incorporate digital modalities of jury trials and their impact on our justice system.

CRCJ 4303. MOCK TRIAL II. 3 Hours.
In-depth examination of the structure, functions and operations of U.S. civil and criminal trials, with special attention to modern jury decision making and its impact on the criminal justice process by learning practical skillsets related to the voir dire and trial court process.

CRCJ 4309. PRIVATE SECURITY ADMINISTRATION. 3 Hours.
The essentials of governmental and proprietary security development and program planning; including personnel recruitment and training, developing and conducting security audits, records and information protection, and general applications of modern management techniques to security organization. Prerequisite: CRCJ 3307.

CRCJ 4313. SERIAL KILLERS. 3 Hours.
The main objective of this course is to examine various dimensions of criminology with an emphasis placed on the theoretical explanations, motivations, and behaviors of those who commit serial murder and mass violence. In this course students will be asked to think critically about theories of crime causation, crime typologies, and the victimology.

CRCJ 4315. WHITE-COLLAR AND CORPORATE CRIME. 3 Hours.
This course provides an overview of the structure, extent, cost, and control of white-collar and corporate crimes. Landmark cases and everyday instances will be detailed. Theoretical explanations and policy implications will be discussed.
CRCJ 4325. GANGS. 3 Hours.
An examination of historical and contemporary street and correctional institutional gangs. Addresses the nature and definition of gangs, types and diversity of membership of gangs, theoretical explanations, criminal and deviant behavior, law enforcement responses, intervention and prevention strategies, and public policy issues.

CRCJ 4332. COMMUNITY CORRECTIONS. 3 Hours.
Evaluation of practices, issues, and trends in community corrections. Emphasis is on the de-institutionalization movement, probation, parole, intermediate punishments, and other community alternatives to incarceration.

CRCJ 4333. INSTITUTIONAL CORRECTIONS. 3 Hours.
Examination and evaluation of practices, issues, and trends in institutional corrections. Emphasis is on administration, organization, and effectiveness of incarceration.

CRCJ 4340. FORENSIC DEATH INVESTIGATION. 3 Hours.
An exploration of death investigations including an overview of protocols utilized to investigate a death as well as autopsy perspectives. Focus is on the numerous causes of death and the working relationship of police investigators, death investigators, forensic pathologists, and forensic laboratories. Prerequisite: CRCJ 3370.

CRCJ 4341. FORENSIC EXAMINATION OF IMPRESSION EVIDENCE. 3 Hours.
Explores how impression evidence is formed, how to collect and enhance impression evidence and how to compare this type of evidence. The student will also learn how impression evidence is presented and utilized in a courtroom setting. Prerequisites: CRCJ 3370 and CRCJ 3371 or permission of the instructor.

CRCJ 4342. FORENSIC HAIR AND FIBER IDENTIFICATION. 3 Hours.
Introduces the student to forensic hair and fiber examination by microscopy, including the presentation of the techniques, skills, and limitations of the hair and fiber examiner in a modern crime laboratory setting. Collection techniques utilized at the crime scene and from items of evidence will also be examined. The impact of these techniques on the criminal justice system, in particular the court system, will be explored. Prerequisite: CRCJ 3370 or permission of the instructor.

CRCJ 4343. FORENSIC EXPERT TESTIMONY. 3 Hours.
Survey of the techniques for providing testimony as an expert witness in a court of law, including proper physical appearance, demeanor, qualifications, presentation of evidence, offering opinion, and ethics of providing testimony. Prerequisite: CRCJ 3370.

CRCJ 4344. CRIME ACROSS THE LIFE COURSE. 3 Hours.
This course will introduce students to developmental and life-course criminology, which seeks to understand the development of offending over time. In particular, the class will focus on early precursors to criminal behavior, stability and factors impacting change in criminal behavior, and how genetics and the environment may impact criminal behavior.

CRCJ 4345. CRIME AND THE CRIMINAL JUSTICE SYSTEM IN THE MEDIA. 3 Hours.
An examination of crime and the criminal justice system as depicted in the media; special emphasis on the roles of the media in influencing individual and societal perceptions of, and reactions to, crime and the criminal justice system.

CRCJ 4352. TERRORISM AND MASS VIOLENCE. 3 Hours.
Examination of historic and current trends in civil disruption from domestic/international perspectives. Considers literature and philosophical basis of political terrorism; costs of terrorism; future trends and deterrence by civil or military intervention. Formerly CRCJ 3352; credit will not be granted for both CRCJ 4352 and CRCJ 3352.

CRCJ 4355. ORGANIZED CRIME: NATIONAL AND INTERNATIONAL. 3 Hours.
An examination of organized crime in the United States and internationally, including history, development, ethnic links, impact upon society and the economy, and international cooperation aimed at eradicating the occurrence and proliferation of this form of criminality.

CRCJ 4357. FORENSIC FIREARMS IDENTIFICATION. 3 Hours.
This course introduces students to the field of forensic firearm and tool mark identification. Topics include development, manufacture, evaluation and comparison of firearms, ammunition and tool mark evidence. Students will also acquire an understanding of the firearm examiner’s responsibilities as they impact the criminal justice system. Prerequisite: CRCJ 3370.

CRCJ 4365. CAPITAL PUNISHMENT. 3 Hours.
An examination of historic and current trends in capital punishment. Considers the literature and philosophical basis of capital punishment, the costs of capital punishment, and future trends of capital punishment. Provides an in-depth examination of capital punishment from a criminal justice policy perspective.

CRCJ 4380. COMPARATIVE CRIMINAL JUSTICE SYSTEMS. 3 Hours.
An overview of criminal justice systems in other countries. Includes an intensive study and analysis of materials on their law enforcement, judicial, and corrections components; review of comparative studies on a variety of criminal justice topics.

CRCJ 4386. TOPICS IN CORRECTIONS. 3 Hours.
May be repeated for credit as the topics vary, but credit will not be granted for more than 12 semester hours of CRCJ-prefix topics courses without permission of advisor.
CRCJ 4387. TOPICS IN CRIME AND CRIMINOLOGY. 3 Hours.
May be repeated for credit as the topics vary, but credit will not be granted for more than 12 semester hours of CRCJ-prefix topics courses without permission of advisor.

CRCJ 4388. TOPICS IN LAW AND JUDICIAL PROCESSES. 3 Hours.
May be repeated for credit as the topics vary, but credit will not be granted for more than 12 semester hours of CRCJ-prefix topics courses without permission of advisor.

CRCJ 4389. TOPICS IN LAW ENFORCEMENT AND PRIVATE SECURITY. 3 Hours.
May be repeated for credit as the topics vary, but credit will not be granted for more than 12 semester hours of CRCJ-prefix topics courses without permission of advisor.

CRCJ 4390. INTERNSHIP IN CRIMINAL JUSTICE. 3 Hours.
Provides the student with an opportunity to apply academic experience to practical situations by serving for a specified number of hours as participant-observer in a criminal justice agency. May be taken for a total of six semester hours. Internships must be arranged with internship supervisor in the semester prior to enrolling for this course. Prerequisite: permission of the instructor.

CRCJ 4391. CONFERENCE COURSE IN CRIMINAL JUSTICE. 3 Hours.
Directed individual study; research and study on a topic agreed upon by instructor and student. No more than six hours credit will be granted for conference courses in criminal justice. Prerequisite: permission of the instructor.

CRCJ 4394. HONORS THESIS/SENIOR PROJECT. 3 Hours.
Required of all students in the University Honors College. During the senior year, the student must complete a thesis or a project under the direction of a faculty member in the major department.

CRCJ 5196. CONFERENCE COURSE CRJU. 1 Hour.

CRCJ 5301. PROSEMINAR IN CRIMINOLOGY AND CRIMINAL JUSTICE. 3 Hours.
This course is a comprehensive introduction to the discipline, with particular emphasis on the specialties of department faculty, academic research, and writing style. Classic and contemporary literature will be used to examine criminal behavior and the structure, function, operation, and interaction of the criminal justice system components as well as current practices and future trends in criminology and criminal justice.

CRCJ 5309. RESEARCH METHODS IN CRIMINAL JUSTICE. 3 Hours.
Examination of research methodology in criminal justice. Special emphasis on methods and techniques for conducting research in criminal justice, including a review of problems encountered in sampling and survey research, field research, public policy implementation, and program evaluation.

CRCJ 5310. STATISTICS & RESEARCH PRACTICES IN CRIMINAL JUSTICE. 3 Hours.
Advanced methods and techniques of research and research design in criminology and criminal justice. Course will cover pure and applied research and expose students to contemporary methodological and analytical issues. Students will be instructed on the use of existing CRCJ databases as well as the collection of new data and particular aspects of SPSS (Statistical Package for the Social Sciences software) and advanced data analysis. Prerequisite: CRCJ 5309 or equivalent.

CRCJ 5318. CRIMINAL JUSTICE PERSONNEL ADMINISTRATION. 3 Hours.
Personnel administration and management in criminal justice agencies and institutions; analyzes functions of recruitment, selection, hiring, placement, evaluation, dismissal, benefits systems, minority recruitment, training, education, promotion, career development, and retirement.

CRCJ 5319. ISSUES IN POLICING. 3 Hours.
In-depth analysis of historical, current, and future issues in policing and police administration. Emphasis will be placed on the role of police in society, police-citizen relationships, and empirical evaluations of police effectiveness, police behavior, and programs and strategies.

CRCJ 5327. CONSTITUTIONAL ISSUES IN THE CRIMINAL JUSTICE SYSTEM. 3 Hours.
Examination of a variety of legal issues critical to a thorough understanding of the various aspects of the criminal justice system. Special attention is given to contemporary constitutional issues and court decisions that impact on the criminal justice process.

CRCJ 5332. CORRECTIONAL THEORY AND PRACTICE. 3 Hours.
Examination of social, psychological, political, and historical bases of interventions in the control and disposition of offenders. Emphasis on contemporary policies, practices, and problems in institutional, semi-institutional, and community-based corrections.

CRCJ 5342. ETHICS IN CRIMINAL JUSTICE. 3 Hours.
This course focuses on the ethical decisions and dilemmas encountered in the criminal justice system. Topics covered include criteria for ethical decision making, professional codes of ethics, and ethical and legal dilemmas faced by criminal justice professionals.

CRCJ 5350. THEORETICAL CRIMINOLOGY. 3 Hours.
Explores the etiology of crime, theory development and crime causation. Emphasis is on theoretical perspectives and policy implementation.

CRCJ 5351. TERRORISM AND CRIME. 3 Hours.
This course examines the origins, nature, and operational characteristics of terrorist groups. Students are exposed to topics ranging from the definition of "terrorism" to the unique characteristics of terrorist cells in the United States and abroad. Particular emphasis is on historical and contemporary terrorist attacks against the United States.
CRCJ 5352. WOMEN, CRIME & CRIMINAL JUSTICE. 3 Hours.
A summary of issues related to women as criminal offenders, victims of crime, and professionals in the criminal justice system. The course focuses on crimes women are most likely to commit and/or be processed through the criminal justice system for, the punishment of female offenders, the types of victimizations most often experienced by women, and employment issues unique to women employed in the criminal justice system. While the main emphasis of the course will be on the experiences of women in the U.S., attention will also be given to women on a global scale.

CRCJ 5353. CRIMINAL JUSTICE ORGANIZATIONAL THEORY & MANAGEMENT THOUGHT. 3 Hours.
An examination of organizational theory with specific application to the operation and management of criminal justice agencies. The historical precedents and emergence of contemporary perspectives are presented with their implication for effective functioning of the criminal justice system.

CRCJ 5354. COMPARATIVE CRIMINAL JUSTICE SYSTEMS. 3 Hours.
This course is an overview of crime, criminal behavior, and criminal justice systems throughout the world. This course includes an intensive study and analysis of materials on law enforcement, judicial, and corrections components; a review of comparative studies on a variety of criminal justice topics; and a basic worldwide understanding of philosophies of law and justice. This is a global learning course.

CRCJ 5356. RACE, CRIME JUSTICE & THE LAW. 3 Hours.
This course explores the role of race and ethnicity within the juvenile and criminal justice system. Emphasis is on the social construction of crime, racial and ethnic inequalities, the law and policies/practices that impact blacks and other racial minorities.

CRCJ 5364. CRIME AND THE MEDIA. 3 Hours.
Utilizing a social constructionist perspective, the course examines the mass media's role in engendering and cultivating American society's perception of crime. This course examines factors influencing the social reality of crime, and attempts to deconstruct perceptions of crime-related mass media events.

CRCJ 5366. JUVENILE DELINQUENCY AND JUVENILE CORRECTIONS. 3 Hours.
Correctional modes are discussed and applied to juvenile offenders. Theoretic approaches to causation, modification, and control of delinquent behaviors are presented, and policy implications and limitations are discussed. Historical and contemporary perspectives and approaches are presented in the context of evolving and emerging practices and procedures.

CRCJ 5368. CYBERCRIME AND CYBERSECURITY. 3 Hours.
The main objective of this course is to introduce students to the nature of cybercrime and cybersecurity in the field of criminal justice. Major topics include computing and networking systems, types of cybercrime and cybercriminals, theoretical explanations of cybercriminals, and cybersecurity.

CRCJ 5370. PRACTICUM. 3 Hours.
Professional or pre-professional experience in a criminal justice related agency or institution with the approval and direction of the student's supervising professor; intended for non-thesis option students who do not have professional experience related to criminal justice.

CRCJ 5373. WHITE-COLLAR AND CORPORATE CRIME. 3 Hours.
This course exposes students to the basic concepts associated with incorporation and corporate liability, the definitional complexity of white-collar crime and the idea of crime as a socially constructed phenomenon. The types of behaviors encompassed by the terms "white-collar crime" and "corporate crime", the similarities and differences between white-collar and street-level offenders, and various theoretical explanations for white-collar crime are explored. In addition, the course includes an examination of the physical and economic costs of white-collar crime, landmark cases and issues related to detection, enforcement, and sentencing of white-collar offenders. This course has been offered previously as CRCJ 5393-Special Topics. To be cross-listed with CRCJ 4373. White-Collar and Corporate Crime. Prerequisite: CRCJ 5301.

CRCJ 5380. CRIMINAL JUSTICE SEMINAR. 3 Hours.
Synthesis course for advanced graduate students. Special emphasis on examination of constructs of crime/criminals, justice and systems. Requires individual research in an area of particular concern to student.

CRCJ 5381. CRIME & PUBLIC POLICY. 3 Hours.
This course addresses crime and criminal justice policy. Emphasis is on the examination of media and political forces that shape criminal justice responses and policy initiatives. In the context of theoretical paradigms, the impact of race, class, economics, and gender on development of criminal justice public policy is examined.

CRCJ 5382. COMPREHENSIVE ISSUES IN CRIME AND JUSTICE. 3 Hours.
An advanced course covering a broad array of issues related to criminology, crime, and the justice system. This course is designed to review topics related to the comprehensive examination.

CRCJ 5393. TOPICS IN CRIME AND CRIMINOLOGY. 3 Hours.
May be repeated for credit as the topic changes.

CRCJ 5394. TOPICS IN JUSTICE ISSUES. 3 Hours.
May be repeated for credit as the topic changes.

CRCJ 5396. CONFERENCE COURSE IN CRIMINAL JUSTICE. 3 Hours.
Reading and research in a specialized area of criminal justice under the direction of a member of the graduate faculty.

CRCJ 5398. THESIS. 3 Hours.

CRCJ 5598. THESIS. 6 Hours.
Criminology & Criminal Justice - Graduate Program

Overview
The program leading to the MA degree in criminology and criminal justice offers a comprehensive examination of the criminal justice system, an exploration of criminal and delinquent behaviors, a foundation in research and statistics, and an opportunity to explore other relevant topics of interest to the student.

It is designed for:

a. Pre-professional students who wish to pursue a career in some aspect of criminal justice, or in a related field, and to develop the perspectives and knowledge appropriate to doing so;
b. In-service professionals who wish to enhance and broaden their knowledge in this and related areas of study;
c. Students pre-professional or in-service who wish to pursue further relevant post-graduate studies, whether academic or professional.

To meet these objectives, and to develop a broadly educated student, the program offers both thesis and non-thesis options. Both options require the student to complete 18 hours of core courses within the department.

The coursework (non-thesis) option is generally recommended for students who do not intend to pursue doctoral-level studies. It does not require applicants to have prior criminal justice employment and is designed to provide a base of knowledge and skills necessary to enter and/or administer criminal justice related programs.

The non-thesis option requires students to research, analyze, and present recommendations on a criminal justice related policy. Students must be enrolled in the semester in which they complete and present their policy research and recommendations. Student presentations to the faculty are scheduled once each long semester, typically in mid November and again in mid April.

The thesis option is generally recommended for students wishing to pursue further education in professional schools or doctoral level studies. It is designed to prepare students to conduct research in criminology and criminal justice and actively participate in the development of knowledge. Students choosing the thesis option are required to take a six-hour thesis course during the semester in which the thesis is defended. Non-thesis students take additional courses constituting six credit hours. Students are required to defend their thesis proposal at least one semester prior to defending their final thesis and before submission of materials to IRB.

With the approval of the Graduate Advisor, students may also use their elective hours to concentrate on a particular field of study, such as sociology, political science, corrections, policing, or a multidisciplinary approach to a particular focus, such as administration-or research. Thesis students take 12 hours of elective courses and non-thesis students take 18 hours.

Admission Requirements

The criminology and criminal justice graduate program adheres to the following admission criteria.

Unconditional Admission
In addition to having satisfied the basic graduate admission requirements of UT Arlington outlined in this Catalog in the Admissions section under University Requirements & Procedures, applicants seeking unconditional admission to the CRCJ graduate program are required to meet the following four criteria:

a. Must have successfully completed a baccalaureate degree in criminology/criminal justice or related discipline.
b. A minimum GPA of 3.0 in the last 60 hours of undergraduate work as calculated by the Graduate School.
c. A minimum of 149 on both verbal and quantitative subtests of the GRE (minimum of 440 on both verbal and quantitative subsets under old scoring system). The GRE is not required of an applicant who satisfies all of the following requirements:
   - Has three or more years of professional experience with increasing responsibility in a criminal justice (or closely related) occupation and provides a detailed work history documenting this experience.
   - Submits an acceptable sample of professional writing authored solely by the applicant. This will be evaluated to assess writing and analytical skills.
   - Successfully completes a personal interview with the graduate advisor, where credentials, goals and objectives of graduate studies, and views related to the study and profession of Criminology/Criminal Justice will be discussed.
d. Must submit three letters of recommendation addressing the applicant’s potential for success in the graduate program from persons knowledgeable of the applicant’s abilities.

Applicants meeting all four of the criteria will be granted unconditional admission into the CRCJ Graduate Program. Applicants who lack one of the above criteria may be considered for probationary admission.
Probationary Admission

Applicants who fail to meet the four criteria for unconditional admission may be considered for probationary admission. Applicants who fail to meet the GPA or GRE requirements for unconditional admission may be granted probationary admission if any of the following three conditions is met:

- a. the GPA falls between 2.5 and 3.0 and the remainder of the application package is satisfactory;
- b. the GPA falls between 2.25 and 2.49, the remainder of the application package is satisfactory, and the applicant has five years of professional experience in a criminal justice (or closely related) occupation and a detailed work history documenting this experience; or
- c. the GPA fall between 2.00 and 2.24, the remainder of the application package is satisfactory, and the applicant has 10 or more years of professional experience in a managerial or administrative position within a criminal justice (or closely related) occupation and a detailed work history documenting that experience.

In addition to providing a work history, applicants using their work history for admission must also provide a writing sample and complete a personal interview. Applicants admitted on probation will remain in that status until completing 12 hours of graduate coursework with no grade lower than a B.

Deferred Admission

In the event an applicant does not meet the minimum criteria established for unconditional or probationary admission, yet nonetheless is judged by the graduate advisor, in consultation with the CRCJ Graduate Studies Committee, to show promise, the admission decision may be deferred, with instructions provided to the student indicating the course of action to be taken prior to subsequent review. Admission decisions may also be deferred if the application package is incomplete.

Provisional Admission

An applicant unable to supply all required documentation prior to the admission deadline, but who otherwise appears to meet admission requirements may be granted provisional admission.

Denial

Applicants who do not satisfy all of the criteria for any of the above categories will be denied admission.

Fellowships

Fellowships, when available, will be awarded on a competitive basis. Nominees for the Graduate School Master's Fellowship in the criminology/criminal justice graduate program will be selected based on the following criteria:

- Candidates must be new students entering in the fall semester, with a minimum of 6 hours of enrollment in both long semesters to retain their fellowships.
- The minimum undergraduate GPA requirement is 3.00, as calculated by the Graduate School, plus a GPA of 3.0 for any graduate credit hours.
- Transcript of a completed bachelor's degree in criminology/criminal justice (or appropriate related field) from an accredited institution.
- Three letters of recommendation (may use the same letters submitted for consideration into the criminology/criminal justice graduate program).
- A written statement explaining the applicant's reasons for graduate study in criminology/criminal justice.

MA Degree Requirements

The MA degree in criminology and criminal justice requires a minimum of 36 semester hours, regardless of the option selected, and includes 18 semester hours of required core coursework.

Students opting for the Thesis track must take 6 hours of thesis credits the semester they plan to defend their thesis and graduate.
All candidates for the graduate degree must pass a final comprehensive examination, written, oral, or both written and oral. The scope, content, and form of this examination will be determined by the student’s supervising committee.

**Dual Degree Requirements**

The M.A. degree in criminology and criminal justice requires 36 semester hours and includes 18 semester hours of required core coursework. Up to 9 hours of courses outside of CRCJ may be allocated as electives for the CRCJ degree, with the prior approval of the graduate advisor.

Students opting for the thesis track within CRCJ must take 6 hours of thesis credits the semester they plan to defend their thesis and graduate.
Criminology and Criminal Justice - Undergraduate Programs

The Criminology and Criminal Justice Department provides students with an academically sound education in criminal justice and prepares them for management positions with municipal, state and federal agencies. Students who are new to the discipline have opportunities for internships with local criminal justice agencies and law offices.

The Department strives to achieve academic excellence through its outstanding faculty. Experts in areas such as corrections, criminological theory, victimology, management, strive to challenge students while caring for their academic formation. The criminal justice faculty helps students understand the etiology of crime who are then able to develop paradigms that are useful and beneficial in the understanding of crime.

This tradition of excellence serves to produce competitive criminal justice managers who are prepared for the challenges of employment with private, state, or federal agencies. The academic excellence of the UTA Department of Criminology and Criminal Justice is well known in the Dallas/Fort Worth metroplex

Requirements to Major in Criminology and Criminal Justice

Students admitted to UT Arlington from high school or transfer students who have completed less than 30 hours of transferable college credit will be admitted as Criminology and Criminal Justice (CRCJ)-intended majors, and will be allowed to declare CRCJ as their major based on the following criteria:

• Completed at least 15 hours of the University core courses with a minimum 2.0 GPA.
• Completed both CRCJ 2334 (Introduction to the Criminal Justice System) and one other CRCJ core course with at least a C, and earned at least 15 grade points in the two courses combined (2.5 GPA).

Students admitted to UT Arlington who have completed 30 or more hours of transferable college credit will be allowed to declare CRCJ as their major based on the following criteria:

• Achieved a minimum 2.25 GPA for all college credit earned, and
• Completed CRCJ 2334 (Introduction to the Criminal Justice System) or an equivalent course, and one other UT Arlington CRCJ core course, or equivalent course with at least a C, and earned at least 15 grade points in the two courses combined (2.5 GPA).

Students already admitted to UT Arlington, who previously declared a major other than CRCJ, who desire to change to CRCJ as their major will be accepted based on the following criteria:

• Completed at least 15 hours of the College of Liberal Arts core courses,
• Achieved a minimum 2.25 GPA in all hours completed at UT Arlington, and
• Completed both CRCJ 2334 (Introduction to the Criminal Justice System) and one other CRCJ core course with at least a C, and earned at least 15 grade points in the two courses combined (2.5 GPA).

CRCJ 4388 TOPICS IN LAW AND JUDICIAL PROCESSES
CRCJ 4389 TOPICS IN LAW ENFORCEMENT AND PRIVATE SECURITY
CRCJ 4390 INTERNSHIP IN CRIMINAL JUSTICE
CRCJ 4191 CONFERENCE COURSE
CRCJ 4291 CONFERENCE COURSE IN CRIMINAL JUSTICE
CRCJ 4391 CONFERENCE COURSE IN CRIMINAL JUSTICE
CRCJ 4394 HONORS THESIS/SENIOR PROJECT

To satisfy CRCJ Additional Electives, up to 9 hours of these courses may be used:
ECON 3302 THE ECONOMICS OF CRIME
HIST 3391 MOOT COURT 3
POL 3333 JURISPRUDENCE AND CONSTITUTIONAL CONFLICT
POL 4316 WOMEN IN THE POLITICAL PROCESS 3
POL 4331 U.S. CONSTITUTIONAL LAW: GOVERNMENT POWER 3
POL 4332 U.S. CONSTITUTIONAL LAW: FUNDAMENTAL RIGHTS
PSYC 3303 DRUGS AND BEHAVIOR 3
SOCI 3320 DEVIANCE: SOCIAL AND PERSONAL
SOCI 3336 SOCIAL INEQUALITY 3
Other courses may be used for elective credit with advisor approval.

Minor

A minor is not required, but is optional. A minor, if chosen, consists of 18 hours, with at least six hours at the 3000/4000 level.

Oral Proficiency and Computer Proficiency Required (COMS 1301)

<table>

Requirements for a Minor in Criminology and Criminal Justice

A minor in CRCJ consists of 18 semester hours, of which at least 12 must be 3000/4000 level. CRCJ 2334 INTRODUCTION TO THE CRIMINAL JUSTICE SYSTEM, and CRCJ 4301 THE AMERICAN JUDICIAL SYSTEM, are required courses for a CRCJ minor. Students must earn a 2.0 GPA in all CRCJ courses taken toward the minor.

Requirements for a Minor in Forensic Applications of Science and Technology

The CRCJ minor in Forensic Applications of Science and Technology (FAST) provides a multidisciplinary approach designed for criminology and criminal justice majors pursuing professional careers in non-laboratory-based areas of forensic science, such as crime scene investigation and where a working knowledge of the basic concepts of forensic science and technology would prove beneficial. Science majors pursuing laboratory-based careers in forensic science may also find this minor advantageous. Students must complete 18 credit hours from the courses listed below, with at least six hours at the 4000 level.

To earn a FAST minor students must earn a GPA of 3.0 or better in those courses. Courses required for the minor cannot be utilized for double credit in the student’s major. An academic minor may only be awarded upon current completion of a baccalaureate degree at the University of Texas at Arlington.

Required Entry Course:

CRCJ 3370 INTRODUCTION TO FORENSICS

Electives:

CRCJ 3371 CRIME SCENE INVESTIGATION (Prerequisite: 3370)

CRCJ 3320 CYBERCRIME

CRCJ 4357 FORENSIC FIREARMS IDENTIFICATION (CURRENTLY BEING TAUGHT AS CRCJ 4387. TOPICS IN CRIME AND CRIMINOLOGY) (Prerequisite: 3370)

CRCJ 4340 FORENSIC DEATH INVESTIGATION (Prerequisite: 3370)

CRCJ 4341 FORENSIC EXAMINATION OF IMPRESSION EVIDENCE (Prerequisite: 3370 AND 3371)

CRCJ 4342 FORENSIC HAIR AND FIBER IDENTIFICATION (Prerequisite: 3370)

CRCJ 4343 FORENSIC EXPERT TESTIMONY (Prerequisite: 3370)

CRCJ 4390 INTERNSHIP PRACTICUM IN A DEPARTMENT APPROVED FORENSIC, CRIME SCENE OR DIGITAL TECHNOLOGY SETTING (Participation in CRCJ 4390 requires a minimum GPA of 3.0 in both CRCJ courses and in all courses completed at UTA.)

With departmental approval, courses offered by other academic units that have an applied forensic focus may be considered for the FAST minor. Such courses could include:

BIOL 3352 INTRODUCTION TO FORENSIC LAB SCIENCE

BIOL 4352 FORENSIC BIOLOGY

BIOL 4406 HUMAN OSTEOLOGY (Also offered as ANTH 4406)

ANTH 3308 FORENSIC ANTHROPOLOGY

This minor would be appropriately combined with the following majors: Criminology and Criminal Justice, Biology, Chemistry, Nursing, Psychology, or Computer Science.

Minor in Legal Studies

Requirements (https://www.uta.edu/academics/schools-colleges/liberal-arts/departments/prelaw/academics/law-legal-studies-minor/)
Disability Studies

Minor in Disability Studies

The interdisciplinary field of disability studies explores the experiences of people with disabilities—one of the largest minorities in the United States and worldwide—as well as the ways in which conceptions and representations of disability and “the normal” have shaped human experiences more generally. Treating disability as a crucial element of human diversity, the Minor in Disability Studies approaches disability as a social, cultural, and political construct rather than just a medical condition (as it is commonly viewed). Taught by faculty from the Colleges of Liberal Arts, Nursing and Health Innovation, Business, and Education as well as the School of Social Work, this flexible and multidisciplinary minor prepares students for a variety of graduate programs and for careers in law, education, public health, engineering, nursing, architecture, medicine, social work, communication, public history and museums, and sports management and coaching, among other fields.

Students seeking to minor in Disability Studies should first consult with advisors in their major departments or programs for approval, then meet with the director and advisor of the Minor in Disability Studies. A minor in Disability Studies consists of 18 hours, including two required courses: U.S. Disability History (DS 3307/HIST 3307) and Disability Studies Internship (DS 4395). Students also take two to four core disability studies courses and can take up to two approved electives. No more than four courses may be completed in a single discipline.

The Disability Studies Internship (DS 4395) is a supervised internship/capstone course through which students apply the academic skills they have acquired in Disability Studies courses. Interns work at an approved business, academic, or non-profit site that focuses on adapted sports, disability history, assistive technology, disability rights and policy, or universal design and accessibility; they also complete a capstone essay. Students should complete DS 4395 as one of their final courses for the minor and must have already taken or be taking DS 3307/HIST 3307.

Some of the electives change focus from term to term and may therefore not be relevant to the minor during a particular semester. Credit will only be given when the topic of the course (or a substantial portion) focuses on issues related to disability. Other relevant courses not listed below may also be used to fulfill the minor, with approval from the director of the Minor in Disability Studies. For that reason and for the purposes of planning the internship, it is important that students consult with the advisor for the minor before registering each semester.

**COURSES**

**DS 2301. TOPICS IN DISABILITY STUDIES. 3 Hours.**

Special topics of interest in the field of Disability Studies. May be repeated for credit when the topic changes.
DS 3307. U.S. DISABILITY HISTORY. 3 Hours.
Examines the history of ideas about disability, the historical lives of people with disabilities, and the history of disability policy. The growth of asylums, the rise of the eugenics movement, a historical look at freak shows, the impact of industrialization on experiences of disability, the evolution of special education, the role of ideas about disability in colonialism, the historical treatment of disabled veterans, and the development of the disability rights movement. Offered as HIST 3307 and DS 3307; credit will only be granted once. Prerequisite: HIST 1301 and HIST 1302.

DS 3308. HISTORY OF MADNESS. 3 Hours.
Examines insanity in its social and historical contexts through the prisms of class, race, gender, and disability from the birth of the asylum in the eighteenth century to contemporary debates about depression and psychopharmacology. Focuses on madness and psychiatry in the Global North, with comparisons to the Global South. Offered as HIST 3308 and DS 3308; credit will be granted in only one department.

DS 3312. DISABILITY & SOCIAL WORK. 3 Hours.
Examines major themes in disability and social work. Topics include basic understandings of disability, lived experiences of people with disabilities, legal and policy perspectives, working with adults and children with a variety of disabilities, history of disability policy and disability rights, disability advocacy, and resources in the community, among others. Offered as DS 3312 and SOCW 3312; credit will only be granted in one department.

DS 3321. TOPICS IN DISABILITY STUDIES. 3 Hours.
Special topics of interest in the field of disability studies. May be repeated for credit when the topic changes.

DS 3322. DISABILITY ETHICS. 3 Hours.
Explores the philosophical literature pertaining to disability and disabled experiences. Topics include defining disability, healthcare allocation, deinstitutionalization, assisted dying and euthanasia, and the ethics of genetic and reproductive technologies. Offered as PHIL 3322 and DS 3322; credit will only be granted once.

DS 3327. CYBORGs AND PROSTHETICS. 3 Hours.
Explores the history, theories, and evolving representations of prosthetics, bionics, cyborgism, and the post-human. Investigates the origins and development of the prosthetics industry, historical experiences of prosthetics users, and cultural depictions and debates about human-technology interactions. Offered as DS 3327 and HIST 4327 and previously as DS 3321 and HIST 4388; credit will only be granted once.

DS 3331. RESEARCH IN DISABILITY STUDIES. 3 Hours.
Introduction to the theories and methods that disability studies scholars use to conduct research and present their findings in written and oral form. Recommended: HIST 3307 or DS 3321.

DS 3346. DISABILITY IN MASS MEDIA. 3 Hours.
Explores how mass media frames disability and neurodiversity for the general public. Focuses on issues related to disability and mass media representation, including journalism, TV, film, advertising, photography, documentary, video games, and the Internet. Topics may include media models of representation, inspiration porn, disability blogs, accessible media, and disabled mimicry in TV and film, among others. Offered as DS 3346 and COMM 3346; credit will be granted in only one department.

DS 3355. UNIVERSAL DESIGN & ACCESSIBILITY IN THE PERFORMING ARTS. 3 Hours.
Explores the principles of Universal Design using the performing arts as a case study: creating environments, events, buildings, and products to accommodate the broadest spectrum of human ability, size, age, and other characteristics. Investigates how to put into practice the accessibility guidelines of the Americans with Disabilities Act of 1990. Performing is not required. Offered as THEA 3355 and DS 3355; credit will only be granted in one department.

DS 3399. DISABILITY AND ART. 3 Hours.
Explores the many connections between disability and art, including both art created by people with disabilities and the wide variety of artistic representations about disability. Examines the purposes of art-making by people with disabilities: for therapeutic reasons, as a means of self-expression, to achieve professional goals, or as an act of activism. Investigates historical depictions of disability in art as well as art's role as a visual voice for the disability rights movement. Offered as DS 3399 and ART 3399; credit will only be granted once. Prerequisite: Any two of the three courses ART 1309, ART 1310, and ART 1317; or permission from the instructor or Disability Studies.

DS 4100. WHEELCHAIR BASKETBALL. 1 Hour.
Only open to adapted sports student athletes. May be repeated 10 times. Prerequisite: permission from the director of the Minor in Disability Studies.

DS 4191. CONFERENCE COURSE. 1 Hour.
Directed independent study for the advanced undergraduate. A close examination of a chosen topic through research and/or reading; format designed by instructor and student. Course may be repeated for credit once with a change in faculty. Prerequisite: Prior approval of the instructor and the director of the Disabilities Studies minor.

DS 4291. CONFERENCE COURSE. 2 Hours.
Directed independent study for the advanced undergraduate. A close examination of a chosen topic through research and/or reading; format designed by instructor and student. Course may be repeated for credit once with a change in faculty. Prerequisite: Prior approval of the instructor and the director of the Disabilities Studies minor.

DS 4326. TOPICS IN DISABILITY HISTORY. 3 Hours.
Special topics of interest in disability history, such as disability history in global perspective; hard-of-hearing histories, deaf histories, and Deaf History; or disability in the global South. May be repeated for credit when the topic changes. Offered as DS 4326 and HIST 4326; credit will be granted in only one department. Prerequisite: HIST 1301, HIST 1302.
DS 4329. DISABILITY & WORK. 3 Hours.
Explores the complex relationship between disability and work within the United States from a current and historical perspective. Topics include study of the Americans with Disabilities Act; research on the diversity, population, and changes in proportions of people with disabilities; employment rates and experiences of people with disabilities; attitudes and perspectives surrounding and affecting the employment opportunities and experiences of people with disabilities; and ways to provide inclusive, non-discriminatory workplaces. Offered as MANA 4329 and DS 4329; credit will only be granted once. Prerequisite: 60 hours or MANA 4326 or Disability Studies permission.

DS 4391. CONFERENCE COURSE. 3 Hours.
Directed independent study for the advanced undergraduate. A close examination of a chosen topic through research and/or reading; format designed by instructor and student. Course may be repeated for credit once with a change in faculty. Prerequisite: permission from the director of the Minor in Disability Studies.

DS 4395. DISABILITY STUDIES INTERNSHIP. 3 Hours.
Supervised internship in which students apply the academic skills they have acquired in Disability Studies courses by working in a related non-profit or business environment. Prerequisite: HIST 3307 or 3 hours of core disability studies courses; permission of the instructor.

DS 4491. CONFERENCE COURSE. 4 Hours.
Directed independent study for the advanced undergraduate. A close examination of a chosen topic through research and/or reading; format designed by instructor and student. Course may be repeated for credit once with a change in faculty. Prerequisite: Permission from the director of the Minor in Disability Studies.
Undergraduate Degrees, Minors, and Certificate Program

• Bachelor of Arts in English (http://catalog.uta.edu/liberalarts/english/undergraduate/#bachelorstext/#ba)

• PhD in English (p. 909)

COURSES

ENGL 0100. INTEGRATED READING AND WRITING WORKSHOP. 1 Hour.
A corequisite developmental course that focuses on the rhetorical knowledge, critical thinking skills, and writing and revising processes required in ENGL 1301. Students work with an instructor to review assigned readings and revise essays. This course fulfills Texas Success Initiative (TSI) requirements for reading and/or writing. This course may not substitute for any other English course, and credit in this course does not fulfill any degree requirements. Prerequisite: Concurrent enrollment in the associated section of ENGL 1301 required.

ENGL 0300. INTRODUCTION TO CRITICAL READING AND WRITING. 3 Hours.
Offers additional preparation in academic reading and writing. Focus is on comprehending college-level reading material and writing academic essays in standard written English. Fulfills Texas Success Initiative (TSI) requirements. This course may not substitute for any other English course, and credit in this course does not fulfill any degree requirement.

ENGL 0301. INTEGRATED READING AND WRITING FUNDAMENTALS. 3 Hours.
A corequisite developmental course that focuses on the rhetorical knowledge, critical thinking skills, and writing and revising processes required in ENGL 1301. Students work with an instructor to closely analyze assigned readings and assignment prompts, thoroughly revise and edit essays, and review ENGL 1301 lectures. This course fulfills Texas Success Initiative (TSI) requirements for reading and/or writing. This course may not substitute for any other English course, and credit in this course does not fulfill any degree requirements. Prerequisite: Concurrent enrollment in the associated section of ENGL 1301 required.

ENGL 1200. ENGLISH STUDIES PROFESSIONALIZATION AND STUDENT SUCCESS. 2 Hours.
Introduces students to the profession of English Studies at the college level. Teaches student success skills that will assist new students in their transition to college. Helps students identify their individual needs, determine what resources are appropriate to address those needs, recognize the role faculty play in their development, and formulate a plan for an actively engaged and enriched experience from campus to career. Will be taught by Peer Academic Leaders (PALS) and faculty, staff, and/or graduate students, who will provide guidance, raise awareness and understanding of the English and English with Teaching Certification majors and related minors, and help support collaborative and co-curricular opportunities available within the College of Liberal Arts. Reserved exclusively for students planning to major in the English BA or English BA with Teacher Certification degree tracks. Fulfills the University requirement for UNIV 1131.

ENGL 1301. RHETORIC AND COMPOSITION I. 3 Hours. (TCCN = ENGL 1301)
Introduction to college reading and writing. Emphasizes recursive writing processes, rhetorical analysis, synthesis of sources, and argument.

ENGL 1302. RHETORIC AND COMPOSITION II. 3 Hours. (TCCN = ENGL 1302)
Continues ENGL 1301, but with an emphasis on advanced techniques of academic argument. Includes issue identification, independent library research, analysis and evaluation of sources, and synthesis of sources with students’ own claims, reasons, and evidence. Prerequisite: Grade of C or better in ENGL 1301.

ENGL 1350. WRITING ABOUT FILM. 3 Hours.
Introduces students to the technical language and elements specific to film criticism. Develops appreciation of two artistic crafts: making film and writing about it. Considers how both professional critics and academics watch and write about what they see on their screens and fosters critical engagement with ethical and social issues by teaching students how to appraise and analyze film in innovative ways in order to communicate a specific argument or point of view.
ENGL 1375. INTRODUCTION TO CREATIVE WRITING. 3 Hours.
This course introduces students to genres of creative writing through modes that are common to all of them, including language, sound, character, setting, exposition, and voice. Students will learn to appreciate, synthesize, and analyze contemporary poetry, short fiction, and creative non-fiction essays, first by learning to closely read these works as writers and then by using these learned techniques to compose creative writings of their own in various genres. Individual and class criticism of these works in a workshop setting, as well as lecture on and discussion of literary forms and techniques, will allow students to more fully comprehend revision techniques. This course satisfies the University of Texas at Arlington core curriculum requirement in creative arts.

ENGL 2300. LITERATURE AND THE GOOD LIFE. 3 Hours.
Fosters a humanistic approach to literature that equips students to explore the moral, ethical, and social questions that have long defined the search for a good life. Emphasizes attentive reading practices, close textual analysis, and the application of literature to personal development. Prerequisite: C or better in ENGL 1301.

ENGL 2303. TOPICS IN LITERATURE. 3 Hours. (TCCN = ENGL 2341)
Focuses on a particular genre, theme, or issue to enable comparison and analysis of several texts. Emphasizes critical thinking, reading, and writing. Topics may include disability in comics, working-class literature, magical realism, or environmental literature and film. May be repeated for credit when course content changes. Satisfies the University of Texas at Arlington core curriculum requirement in Language, Philosophy, and Culture. Prerequisite: C or better in ENGL 1301.

ENGL 2309. WORLD LITERATURE. 3 Hours. (TCCN = ENGL 2331)
Covers significant works of world literature chosen from various national and cultural traditions, focusing on cross-cultural issues. Topics may include moral ambiguities across cultures, the transition from colonial to postcolonial literatures, or the nature of translation; the course may also be structured as a chronological survey. Examines at least three genres and six authors. Emphasizes critical thinking, reading, and writing. Satisfies the University of Texas at Arlington core curriculum requirement in Language, Philosophy, and Culture. Prerequisite: C or better in ENGL 1301.

ENGL 2319. BRITISH LITERATURE. 3 Hours. (TCCN = ENGL 2321)
Concentrates on how cultural, geographic, and political issues shape and are shaped by British literature. Topics may include the nature of empire, Romantic conceptions of heroism, or literary representations of the sciences; the course may also be structured as a chronological survey. Examines at least three genres and six authors. Emphasizes critical thinking, reading, and writing. Satisfies the University of Texas at Arlington core curriculum requirement in Language, Philosophy, and Culture. Prerequisite: C or better in ENGL 1301.

ENGL 2329. AMERICAN LITERATURE. 3 Hours. (TCCN = ENGL 2326)
Concentrates on how cultural, geographic, and political issues shape and are shaped by American literature. Topics may include the struggle to discover a national identity, the transition from war to postwar periods, or the tensions of a multicultural society; the course may also be structured as a chronological survey. Examines at least three genres and six authors. Emphasizes critical thinking, reading, and writing. Satisfies the University of Texas at Arlington core curriculum requirement in Language, Philosophy, and Culture. Prerequisite: C or better in ENGL 1301.

ENGL 2338. TECHNICAL WRITING. 3 Hours. (TCCN = ENGL 2311)
Covers the processes of researching, drafting, designing, editing, and revising technical reports, proposals, instructions, resumes, and professional correspondence for specific audiences. Prerequisites: C or better in ENGL 1301 and ENGL 1302.

ENGL 3300. TOPICS IN LITERATURE. 3 Hours.
May include such topics as Utopian literature, the American short story, literature and philosophy, introduction to theatre, and modern British fiction. May be repeated for credit when content changes. Prerequisites: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 3301. TOPICS IN RUSSIAN LITERATURE IN TRANSLATION. 3 Hours.
Covers the works of major Russian authors during the period from the beginning of Russian literature until the 1917 Revolution, focusing on the interrelationship of various literary movements and philosophies. Students receiving credit in Russian will complete a research project using the Russian language. May be repeated for credit as topics and periods vary. Offered as ENGL 3301 and RUSS 3301; credit will be granted in only one department. Prerequisites: English majors must have earned a C or better in ENGL 3333 and ENGL 3350. Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 3306. TOPICS IN SOVIET AND POST-SOVIET LITERATURE IN TRANSLATION. 3 Hours.
Covers the works of major Soviet and post-Soviet authors from 1917 to the present against the background of unfolding social and political development in the USSR and post-USSR. Students receiving credit in Russian will complete a research project using the Russian language. May be repeated for credit as topics and periods vary. Offered as ENGL 3306 and RUSS 3306; credit will be granted in only one department. Prerequisites: English majors must have earned a C or better in ENGL 3333 and ENGL 3350. Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 3333. DYNAMIC TRADITIONS IN LITERATURE. 3 Hours.
An introduction to literary study that focuses primarily on changes over time to a movement, genre, or motif, such as Romanticism, detective fiction, or animals. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).
ENGL 3339. CLASSICAL BACKGROUNDS. 3 Hours.
Literature of the Greco-Roman world including, but not limited to, The Odyssey, selected Greek tragedies, The Aeneid, Metamorphoses, and selected lyrics, epigrams, and satires. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 3340. HISTORY OF AMERICAN LITERATURE I. 3 Hours.
Surveys American literature from its origins up to the Civil War. Readings will include not only prose fiction, poetry, and essays, but also First People's narratives; letters and travel narratives; sermons; and narratives of enslaved people. Provides the historical context necessary to understand early American literature and the aesthetic, ideological, and intellectual debates central to early American culture. Prerequisite: English majors must have earned a C or better in ENGL 3350 or must be concurrently enrolled in ENGL 3350. Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 3341. HISTORY OF AMERICAN LITERATURE II. 3 Hours.
Surveys American literature from the Civil War to the present. Covers literary movements including realism, naturalism, modernism, and post-modernism with a focus on prose fiction, poetry, and drama. Provides the historical context necessary to understand modern American literature and the aesthetic, ideological, and intellectual debates central to American culture since the Civil War. Prerequisite: English majors must have earned a C or better in ENGL 3350 or must be enrolled concurrently in ENGL 3350. Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 3342. AMERICAN POETRY. 3 Hours.
Examines the forms, traditions, and cultural contexts of the poetry of the United States. May include the relationship between American poetry and poetry written in English elsewhere, and/or poetry written in other languages. Prerequisites: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 3343. LATINO/A LITERATURE. 3 Hours.
Explores Latino/a literature of the United States from the nineteenth century through the present as conditioned by the intersections of race, class, gender, sexuality, and regional variation. Texts may include novels, poetry, drama, short fiction, and non-fiction by and about peoples in the U.S. with heritage from South America, Central America, the Caribbean, and Mexico. Offered as ENGL 3343 and MAS 3343; credit will be granted in only one department. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 3344. NATIVE AMERICAN LITERATURES. 3 Hours.
Examines selected oral and written texts composed by Native peoples of North America. Includes selections of oral narratives, autobiography, fiction, and poetry, and may include drama and film. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 3345. AFRICAN-AMERICAN LITERATURE. 3 Hours.
Examines African-American literature in its various traditions, forms, and cultural and historical contexts. Offered as AAST 3345 and ENGL 3345; credit will be granted in only one department. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 3346. MEXICAN AMERICAN AND CHICANO/A LITERATURE. 3 Hours.
Surveys Mexican American literature from 1848 to the present, including literature of the Chicano movement, focusing on important genres, themes, and historical developments. Offered as ENGL 3346 and MAS 3346; credit will be granted in only one department. Prerequisites: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 3347. TOPICS IN MULTICULTURAL AMERICAN LITERATURES. 3 Hours.
Focuses on literature produced within one or more ethnic communities in the U.S. in order to trace a theme or to explore issues such as intersectionality, hybridity/mestizaje, diaspora, or immigrant experiences. Topics may include Afro-Latino poetry, third-world feminist writing, multicultural literature of the Southwest, cultural memory and the Jewish literary tradition, or Asian-American fiction. Offered as ENGL 3347, AAST 3347, and MAS 3347; credit will be granted in only one department, and credit for MAS 3347 will be granted only once. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 3350. ANALYSIS AND INTERPRETATION. 3 Hours.
Teaches students to identify characteristics of genres, to recognize and understand critical and literary terms, and to develop and use methods and strategies for analyzing and interpreting texts. Acquainting students with the unique characteristics of their discipline and reflecting on the significance of the discipline beyond the university, this course is required for English majors in their first semester of upper-division study and also satisfies the UNIV 1101 requirement. Prerequisite: C or better in ENGL 1301, ENGL 1302, and 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).
ENGL 3351. HISTORY OF BRITISH LITERATURE I. 3 Hours.
Examines British literature from its origins through the eighteenth century, focusing on the relationship between literature and its social and historical contexts. Covers the emergence of major genres and modes of the time period, which may include epic, pastoral, lyric, sonnets, drama, and satire. Prerequisite: English majors must have earned a C or better in ENGL 3350 or must be enrolled concurrently in ENGL 3350. Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 3352. HISTORY OF BRITISH LITERATURE II. 3 Hours.
Examines British literature from Romanticism to the present, focusing on the relationship between literature and its social and historical contexts. Texts may include poetry, novels, plays, essays, and short stories. Prerequisites: English majors must have earned a C or better in ENGL 3350 or must be enrolled concurrently in ENGL 3350. Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 3353. GOTHIC LITERATURE. 3 Hours.
Examines the established conventions, cultural contexts, and theoretical underpinnings of gothic literature. May focus on a particular region and/or time period, such as the gothic literature of the British Empire during the fin de siècle, or on a major theme, such as identity construction in gothic literature. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 3355. POST-COLONIAL LITERATURE IN ENGLISH. 3 Hours.
Examines twentieth and twenty-first-century literature produced in formerly colonized nations. May include literature from the Indian subcontinent; various countries in Africa; Korea; Australia; New Zealand; Canada; and/or Latin America. Emphasizes critical and theoretical methods, examining such themes as identity, belonging, exile, place, language, sovereignty, and hybridity, and considers the pervasive artistic, psychological, and political impacts of colonization. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 3361. HISTORY OF WORLD LITERATURE I. 3 Hours.
Examines major texts from early oral and manuscript traditions through the first centuries of printing. Texts and authors studied may include the Bible, Homer, the Greek dramatists, Vergil and other Roman poets, medieval epic and romance, Dante, Petrarach, Ariosto, Montaigne, and Cervantes. Prerequisites: English majors must have earned a C or better in ENGL 3350 or must be enrolled concurrently in ENGL 3350. Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 3362. HISTORY OF WORLD LITERATURE II. 3 Hours.
Examines major literary texts from the mid-seventeenth century to the present. Material might cover Neoclassicism, Romanticism, Realism, Modernism, Postcolonial literature, Magical Realism, and the literature of globalization, as well as various theoretical problems involved in such a study of world literature, including delimiting the field, translation, and English as a global language. Prerequisites: English majors must have earned a C or better in ENGL 3350 or must be enrolled concurrently in ENGL 3350. Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 3363. BOOK HISTORY AND PRINT CULTURE. 3 Hours.
Examines the creation, production, distribution, and reception of books, serials, and ephemera across history, with a focus on the shifts from orality to literacy, writing to printing, and analog to digital media. Draws upon theories and concepts from rhetoric, material culture, sociology, economics, and graphic design, as well as studies in reading, literacy, and the creation and transmission of meaning. Introduces students to principles of bibliographical description and analysis. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 3364. TOPICS IN LGBTQIA+ LITERATURE AND THEORY. 3 Hours.
Studies representations of the sexual and/or gender identities of LGBTQIA+ people and the intersectionality among them through a variety of texts. Specific topics may include the history of marginalized sexualities, crossdressing in literature, or transvestite saints; the texts may be philosophical, political, literary, and/or scientific. Offered as ENGL 3364 and GWSS 3364; credit will be granted in only one department. May be repeated for credit as course content changes. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 3365. POST-COLONIAL LITERATURE AND ENVIRONMENT. 3 Hours.
Examines twentieth and twenty-first-century literature produced in formerly colonized nations. May include literature from the Indian subcontinent; various countries in Africa; Korea; Australia; New Zealand; Canada; and/or Latin America. Emphasizes critical and theoretical methods, examining such themes as identity, belonging, exile, place, language, sovereignty, and hybridity, and considers the pervasive artistic, psychological, and political impacts of colonization. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).
ENGL 3368. TOPICS IN FEMINIST THEORY, GENDER, AND SEXUALITY. 3 Hours.
Examines issues of gender and sexuality through literary, theoretical, and philosophical texts that foreground questions feminist theory raises about desire, sexual identity, and gender asymmetry. Considers how gender and sexuality shape and are shaped by race, ethnicity, class, ability/disability, religion, and age. May be repeated for credit as course content changes. Offered as ENGL 3368 and GWSS 3368; credit will be granted in only one department. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 3369. TOPICS IN TECHNICAL WRITING AND PROFESSIONAL DESIGN. 3 Hours.
Examines a topic in the history, theory, or practice of technical writing. Topics may include copy writing, information architecture (IA), social justice in technical communication, user experience (UX), or audience-specific applications of technical writing. May be repeated for credit when content changes. Prerequisite: C or better in ENGL 2338 or concurrent enrollment in ENGL 2338.

ENGL 3370. HISTORY OF WOMEN'S WRITING. 3 Hours.
Examines women's writing in English from the Medieval period to the present. Offered as ENGL 3370 and GWSS 3370; credit will be granted in only one department. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 3371. ADVANCED EXPOSITION. 3 Hours.
An advanced writing course emphasizing writing that explains, demonstrates, or explores a subject. Attention given to audience, invention, arrangement, style, and revision. Prerequisite: C or better in ENGL 1301 and ENGL 1302.

ENGL 3372. COMPUTERS AND WRITING. 3 Hours.
An advanced writing course taught in a computer classroom. Emphasizes rhetorical analyses of electronic discourse and writing in electronic environments. Prerequisite: C or better in ENGL 1301 and ENGL 1302.

ENGL 3373. TECHNICAL WRITING AND PROFESSIONAL DESIGN. 3 Hours.
An advanced writing course, taught in a computer classroom, that focuses on writing in technical, scientific, and/or professional subject matters. Examines technical writing theory and style for producing documents for genre-specific audiences. Assignments may include the creation of a knowledge base, a data visualization, a reference guide, a usability testing report, and/or a video or multimedia tutorial. Prerequisite: C or better in ENGL 2338 or concurrent enrollment in ENGL 2338.

ENGL 3374. WRITING, RHETORIC, AND MULTIMODAL AUTHORING. 3 Hours.
Analyzes the rhetorical structure of multimodality (linguistic, visual, oral, gestural, and spatial modes of communication). Emphasizes composing writing-intensive and research-oriented projects for academic, business, and/or creative audiences. Prerequisite: C or better in ENGL 1301 and ENGL 1302.

ENGL 3375. CREATIVE WRITING. 3 Hours.
Covers the craft of creative writing in the genres of poetry, fiction, and creative non-fiction. Prerequisites: C or better in ENGL 1301 or ENGL 1375.

ENGL 3376. BUSINESS AND PROFESSIONAL WRITING. 3 Hours.
An advanced writing course, taught in a computer classroom, that focuses on writing in the workplace. Emphasizes producing business and professional documents based on current, standardized formats; considering the role of audience; writing in a clear, concise, and appropriate style; and revising texts to improve their effectiveness. Prerequisite: C or better in ENGL 2338 or concurrent enrollment in ENGL 2338.

ENGL 3377. TECHNICAL EDITING. 3 Hours.
Editing at different scales of document design, including copyediting, proofreading, and developmental editing. Editing and designing drafts of technical and professional documents. Applying rules and style guides governing technical writing for organizations. Prerequisite: C or better in ENGL 2338 or concurrent enrollment in ENGL 2338.

ENGL 3378. TECHNICAL PROCEDURES AND MANUALS. 3 Hours.
Principles of technical communications for developing procedural documentation and manuals. Extensive practice in writing technical procedures and manuals. Students are encouraged to take ENGL 2338: Technical Writing before enrolling. Prerequisite: C or better in ENGL 2338 or concurrent enrollment in ENGL 2338.

ENGL 3379. GRANT AND PROPOSAL WRITING. 3 Hours.
Explores how foundational principles of technical communication for user-centered design and document design may be applied to writing persuasive grant applications and proposals relevant for business, philanthropy, the humanities, and/or the sciences, including medicine. Individual and collaborative assignments may include identifying elements of successful and unsuccessful grant applications and proposals, creating a proposal for a client, writing a mock grant application, and/or engaging in service-learning for a local non-profit organization to assist its preparation of a grant application. Prerequisite: C or better in ENGL 2338 or concurrent enrollment in ENGL 2338.

ENGL 3380. RHETORIC AND WRITING WITH SOUND. 3 Hours.
An introduction to rhetorical engagement with recorded sound. Includes work with digital audio tools for writing with sound, critical writing about sound recordings, and readings in the interdisciplinary field of sound studies. May also consider histories and ethnographies of listening, studies of built and natural soundscapes, sound media, sound art, and the nature of listening. Prerequisite: English majors must have earned a C or better in ENGL 3350 or must be concurrently enrolled in ENGL 3350. Non-majors must have earned a C or better in ENGL 1301 and ENGL 1302.
ENGL 3381. RHETORICAL MAKING. 3 Hours.
Examines the rhetorical impact of designing and developing objects using makerspaces (collaborative technological workshops). Uses modern rhetorical theory to analyze the persuasive and communicative dimensions of fabrication and coding. Projects may include making objects using the university's FabLab, technical writing about and rhetorical analysis of those objects, and website coding and design. Emphasizes student-led collaboration throughout iterative design cycles. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 3382. LISTENING TO LITERATURE. 3 Hours.
Focuses on literary works in the form of audiobooks and podcasts. These increasingly popular and influential forms invite us to consider how the longstanding traditions of oral storytelling and performance are sustained and reimagined through new media. Whether written works of literature that are adapted to audio formats, in the case of audiobooks, or original audio productions, in the case of short- and longform fiction podcasts, this body of literature demands new interpretive strategies. In this course, we explore how listening to literature compares to reading literature, including learning and applying the analytical method of critical listening or close listening. Moreover, students will learn the skills of making audiobooks or podcasts, in order to produce their own audio interpretations or performances of literary texts. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in ENGL 1301 and ENGL 1302.

ENGL 3383. INFORMATION DESIGN. 3 Hours.
Covers the theory and practice of information design for professional and technical projects. Focuses on developing critical and rhetorical digital literacies in order to analyze and create effective information design. Students will analyze, design, and redesign print and web materials. Intermediate computer proficiency required for learning the basics of the industry standard software for desktop publishing. Prerequisite: C or better in ENGL 2338 or concurrent enrollment in ENGL 2338.

ENGL 3384. STRUCTURE OF MODERN ENGLISH. 3 Hours.
Examines the unique structure of the language. Required for English and English/Education majors. Prerequisites: C or better in ENGL 1301 and ENGL 1302.

ENGL 3385. TOPICS IN RHETORIC AND COMPOSITION. 3 Hours.
Examines a topic in the history, theory, and practice of rhetoric and composition, such as digital rhetoric and composition, environmental rhetoric, history of writing instruction, rhetoric of science, and rhetoric of sound. May be repeated for credit as course content changes. Prerequisites: C or better in ENGL 1301 and ENGL 1302.

ENGL 3386. WRITING ABOUT MUSIC. 3 Hours.
Provides a foundation in sound studies, lyric theory, and close-listening practices that students will use to analyze and produce various genres and modalities of writing about music, including music criticism, liner/album notes, and/or music in literature. Prerequisite: English majors must have earned a C or better in ENGL 3350 or must be concurrently enrolled in ENGL 3350. Non-majors must have earned a C or better in ENGL 1301 and ENGL 1302.

ENGL 3387. TUTORING WRITING. 3 Hours.
Explores practical approaches and techniques for tutoring writers and the theory that informs them. Will involve observing, recording, transcribing, and analyzing student-led tutoring sessions in the Writing Center. Prerequisite: B or better in ENGL 1301 or ENGL 1302.

ENGL 3388. THE EARLY HISTORY OF TECHNICAL WRITING. 3 Hours.
Focuses on writing in technical, scientific, and/or professional subject matters of the medieval or early modern periods to understand the relation between an earlier stage in the development of technical writing and current practices. Assignments may include transcription and coding from medieval or early modern texts to a searchable database; a comparison of a genre of medieval or early modern technical writing with a current genre; a rewriting of technical, scientific, and/or professional subject matters from the medieval or early modern texts into modern parlance; a user manual on how to code and upload manuscripts; and/or a Fab Lab, maker-space project based on early technical writing. Prerequisite: C or better in ENGL 2338 or concurrent enrollment in ENGL 2338.

ENGL 3389. WRITING WITH AI AND DIGITAL TOOLS. 3 Hours.
Teaches students to write with Artificial Intelligence (AI), positing AI as a technology to aid writers, not replace them. Equip students to critically assess the strengths and weaknesses of various AI writing tools, including the inherent biases in training corpora. Emphasizes critical reflection in the writing process and empowers students to demonstrate their value as writers in a rapidly evolving marketplace. Prerequisite: English majors must have earned a C or better in ENGL 3350 or must be concurrently enrolled in ENGL 3350. Non-majors must have earned a C or better in ENGL 1301 and ENGL 1302.

ENGL 3391. ENGLISH IN PROFESSIONAL AND PUBLIC LIFE. 3 Hours.
Explores of and initial practice in diverse applications of English Studies across academic, professional, and public life. Students will research career paths, plan future coursework to gain essential experience, begin professional profiles and portfolios, learn about resources and programs across campus, and engage in professional development activities. Prerequisite: English majors must have earned a C or better in ENGL 3350 or must be concurrently enrolled in ENGL 3350. Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 4191. LITERATURE CONFERENCE COURSE. 1 Hour.
Requires permission of the department chair and the instructor.

ENGL 4301. HISTORY OF THE ENGLISH LANGUAGE. 3 Hours.
Examines the sounds and structure of the English language from pre-history to the present. Prerequisite: C or better in ENGL 1301 and ENGL 1302.
ENGL 4311. EARLY AMERICAN LITERATURE. 3 Hours.
Investigates the earliest literature and cultures of the peoples inhabiting the North American continent from prehistory to the end of the eighteenth century. May focus on oral and written narratives by Native Americans, Puritans, and/or other non-indigenous settlers who colonized the North American continent. Genres may include oral tales, letters, autobiography, fiction, poetry, drama, journalism, and/or scientific writing. Prerequisites: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 4312. NINETEENTH-CENTURY AMERICAN LITERATURE. 3 Hours.
Covers American literature across the nineteenth century, including such literary topics as sentimental fiction, the American Renaissance, Gothic fiction, realism, and regionalism. The course may address various historical contexts, such as slavery and abolition, the Civil War, the women's rights movement, immigration and urbanization, and westward expansion and the frontier. Genres may include fiction, poetry, essays, autobiography, and letters. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 4313. TWENTIETH- AND TWENTY-FIRST-CENTURY AMERICAN LITERATURE. 3 Hours.
Examines literature written in the United States from the turn of the twentieth century to the present. Focuses on major figures and literary movements such as Realism, Modernism, and Postmodernism as they were shaped by historical, cultural, and political contexts including the World Wars, movements for civil rights, the Cold War, and globalization. Genres may include the novel, poetry, and drama, as well as emerging genres such as graphic fiction. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 4321. MEDIEVAL LITERATURE. 3 Hours.
Examines various aspects of Western literature from the fifth to the end of the fifteenth century. May focus on major figures and their cultural and historical contexts or on particular genres, themes, or topics. Prerequisite: English majors must have earned a C or better in 3 hours of sophomore literature (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 4322. EARLY MODERN LITERATURE. 3 Hours.
Investigates Western European literature and culture of the sixteenth and seventeenth centuries. May focus on Petrarchan and anti-Petrarchan, Platonic and anti-Platonic poetry and essays; meditative poetry; epic poetry; drama by Shakespeare or his contemporaries; manuscript or coterie writing; women's writing; early scientific writing; or the relationship between literature and the arts. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 4324. RESTORATION AND EIGHTEENTH-CENTURY LITERATURE. 3 Hours.
Examines literature from the 1660s through the end of the eighteenth century. Focuses on the tenets of Neoclassicism, the rise of the Enlightenment, and the emergence of Romanticism, expressed in genres that may include drama, coterie writing, satire, essays, journals and diaries, poetry, and epic works. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 4325. CHAUCER. 3 Hours.
Examines the works of the fourteenth-century English poet Geoffrey Chaucer, their historical and cultural contexts, and his literary influences. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 4326. SHAKESPEARE. 3 Hours.
Examines selected plays and poetry by Shakespeare in their historical, cultural, and literary contexts. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 4328. J. R. R. TOLKIEN. 3 Hours.
Examines the mythology created in the fantasy writings of J. R. R. Tolkien, especially The Lord of the Rings and The Silmarillion, along with its roots in culture, history, language, literature, and religion. May cover some of Tolkien's lesser-known creative or critical texts as well as recent appropriations of Tolkien's work, such as in film, music, fan fiction, and gaming. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 4330. TOPICS IN CREATIVE WRITING. 3 Hours.
A creative writing course that focuses on a topic spanning one or more literary genres. Topics may include flash fiction, memoir, narrative poetry, speculative fiction, or screenwriting. May be repeated for credit as course content changes. When the topic is screenwriting, 4330 will be cross-listed with ART 3350: Screenwriting I; credit will be granted in only one department. Prerequisite: C or better in ENGL 3375.
ENGL 4331. BRITISH ROMANTICISM. 3 Hours.
Covers the British Romantic period (roughly 1789-1837), with special attention to the relationship between literature and culture. Genres may include lyric and epic poetry; novels and romances; essays and journals; science fiction and the Gothic. Topics may include nature and the imagination, science and industry, travel and empire, and revolutions in politics, culture, and the arts. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 4332. THE VICTORIAN ERA. 3 Hours.
Covers the literature of Britain from 1837 to 1901, a period shaped by the literary movements of Realism and Naturalism. Genres may include the novel, poetry, drama, scientific writing, or essays. Focuses on major themes or issues in social, ethical, and aesthetic thought, such as Darwinism, democracy, class conflict, and empire. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 4333. LITERARY GENRES. 3 Hours.
Examines one or more literary genres, such as the epistolary novel, the epic, the diary, or historical fiction. May be repeated for credit as course content changes. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 4334. TOPICS IN BRITISH LITERATURE. 3 Hours.
Concentrates on a topic, on a particular historical era, or on significant British authors. May address important themes, movements, regions, genres, or cross-cultural comparisons. Examples include country and city, the Bloomsbury Group, and Jane Austen. May be repeated for credit as course content changes. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 4335. TOPICS IN NATIVE AMERICAN LITERATURES. 3 Hours.
May focus on a period, women writers, film studies, transnational indigenous comparative studies, or a genre of written or oral literature. Topics may include the challenges of translation and mediation, as well as the identity politics of "Indian" authorship. May be repeated for credit as course content changes. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 4336. TOPICS IN AMERICAN LITERATURE. 3 Hours.
Concentrates on a topic on a particular historical era, or on one to three significant American authors. May address important themes, movements, regions, genres, or cross-cultural comparisons. Examples include work and the workplace, the Beat Generation, and Henry James and Edith Wharton. May be repeated for credit as course content changes. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 4337. TOPICS IN COMPARATIVE LITERATURE. 3 Hours.
Concentrates on a topic, a genre, a particular historical era, a movement, or a group of significant authors in order to illuminate cross-cultural comparisons. May be repeated for credit as course content changes. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 4338. TWENTIETH- AND TWENTY-FIRST-CENTURY BRITISH LITERATURE. 3 Hours.
Covers the literature of Britain, and possibly the Republic of Ireland, from the turn of the twentieth century. Focuses on major figures, literary movements, and the social and political developments that continue to preoccupy writers, such as women's rights, class conflict, and postcolonialism. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 4339. TOPICS IN AFRICAN-AMERICAN LITERATURE. 3 Hours.
Concentrates on a topic or theme within the canon of African-American literature, such as a particular genre or era, significant authors, or a philosophical movement. Examples include the Harlem Renaissance, the Civil-Rights/Black-Power era, African-American autobiography, short fiction, and Afrofuturism. Offered as AAST 4339 and ENGL 4339; credit will be granted in only one department. May be repeated for credit as course content changes. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 4340. TOPICS IN WOMEN'S WRITING. 3 Hours.
Focuses on women's writing in a particular genre or historical period or on a concept or issue of importance to women writers. May be repeated for credit as course content changes. Offered as ENGL 4340 and GWSS 4340; credit will be granted in only one department. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).
ENGL 4341. RHETORIC AND COMPOSITION: HISTORY, THEORY, AND PRACTICE I. 3 Hours.
Surveys the history of rhetorical theory and practice from their earliest formulations in Greek and Roman antiquity to the early modern period. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 4342. RHETORIC AND COMPOSITION: HISTORY, THEORY AND PRACTICE II. 3 Hours.
Surveys the history of rhetorical theory and practice from the early modern period to the present. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 4343. TOPICS IN SOUND STUDIES. 3 Hours.
Investigates culture and the environment through sound. Topics may include histories and ethnographies of listening, studies of built and natural soundscapes, machine listening, sound media, sound art, and the nature of listening. Prerequisite: English majors must have earned a C or better in ENGL 3350 or must be concurrently enrolled in ENGL 3350. Non-majors must have earned a C or better in ENGL 1301 and ENGL 1302.

ENGL 4344. TOPICS IN ENGLISH LANGUAGE STUDY. 3 Hours.
Examines texts primarily for their use of language or their engagement with linguistic issues. May include such topics as Old English, the emergence of the vernacular, literature and dialect, global English, or slang. May be repeated for credit when course content changes. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 4345. TOPICS IN CRITICAL THEORY. 3 Hours.
May include the study of major figures (e.g., Agamben, Barthes, Derrida, Foucault, Heidegger, Levinas, Said, Spivak) or topics (e.g., aesthetics, digital technology, disability studies, feminist views of science, film theory). May be repeated for credit as course content changes. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 4346. TOPICS IN THEORIES OF LANGUAGE AND DISCOURSE. 3 Hours.
May include the study of a major theorist or a broader survey of related theories (e.g., discourse analysis; evolutionary theories of language and mind; integrational linguistics; speech-act theory) that investigate "language-in-general" and/or "language-in-use" and that question the limitations of these terms. May be repeated for credit as course content changes. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 4347. ADVANCED CREATIVE WRITING: FICTION. 3 Hours.
A workshop-intensive course on writing fiction. Prerequisite: C or better in ENGL 3375.

ENGL 4348. ADVANCED CREATIVE WRITING: POETRY. 3 Hours.
A workshop-intensive course on writing poetry. Prerequisite: C or better in ENGL 3375.

ENGL 4349. ADVANCED CREATIVE WRITING: CREATIVE NON-FICTION. 3 Hours.
A workshop-intensive course on writing creative non-fiction. Prerequisite: C or better in ENGL 3375.

ENGL 4350. TOPICS IN FILM AND LITERATURE. 3 Hours.
Studies film and the methods for comparing films to literary or other texts, considering them in relation to history, critical theory, and culture. May include such topics as ecohorror, adaptations of Shakespeare and/or Austen, or Native American cinema. May be repeated for credit as course content changes. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 4351. THE BUSINESS OF WRITING. 3 Hours.
Prepares students for the professional and practical aspects of being a creative writer, such as submitting work for publication, organizing and conducting public readings, and developing effective daily writing practices. Students must already have a preliminary portfolio of prose (a minimum of 30 pages) or poetry (a minimum of 15 pages) ready to be intensively workshopped and edited in small peer groups, culminating in the production of a polished final collection. Prerequisite: C or above in ENGL 3350 and in 6 hours of advanced creative writing (ENGL 4330, ENGL 4347, ENGL 4348, ENGL 4349, ENGL 4350) or permission of the Coordinator of Creative Writing.

ENGL 4352. ADVANCED CREATIVE WRITING: SCREENWRITING. 3 Hours.
Focuses on the format, styles, structures, and syntax of writing narrative film for television, online, and theatrical platforms. Students will study screenplays, analyze films, and learn about the conventions of various narrative film genres as well as principles for film adaptations. Students will complete one or more original screenplays, including at least one feature-length screenplay, as well as other assignments. Offered as ART 4378; credit will be granted in only one department. Prerequisite: C or better in ENGL 1301.

ENGL 4353. STRUCTURING YOUR NOVEL. 3 Hours.
Focuses on the structuring of a novel. Students will study various approaches to long-length storytelling, complete a detailed outline for a novel structured in three acts, and workshop drafted chapters. Prerequisite: C or better in ENGL 3375.
ENGL 4355. LITERARY CRITICISM AND THEORY I. 3 Hours.
Examines classics of literary criticism from Greek antiquity through the nineteenth century, focusing on the nature, function, and history of criticism. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 4356. LITERARY CRITICISM AND THEORY II. 3 Hours.
Examines twentieth-century and contemporary methodologies, such as New Criticism; formalism; structuralism; poststructuralism; hermeneutics; semiotics; reader response; psychoanalysis; Marxism; theories of gender, sexuality, and race; and cultural studies. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 4365. CHILDREN'S LITERATURE. 3 Hours.
Examines literature for children, with attention to theoretical perspectives and cultural contexts. May present a history of the genre or focus on specific issues, such as gender, social class, disability, or the environment. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 4366. YOUNG ADULT LITERATURE. 3 Hours.
Examines literature for young adults, with attention to theoretical perspectives and cultural contexts. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 4370. RHETORIC AND COMPOSITION FOR SECONDARY SCHOOL TEACHERS. 3 Hours.
Surveys recent scholarship in rhetoric and composition as it applies to middle school and high school settings. Focuses on the development of reading and writing assignments, formative response to student writing, and assessment of student writing. Prerequisite: English majors must have earned a C or better in ENGL 3350. Non-majors must have earned a C or better in 6 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329) or an A in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 4371. ADVANCED ARGUMENTATION. 3 Hours.
Examines classical and contemporary theories of argumentation and applies them to academic and nonacademic writing. Assignments focus on the analysis and production of argumentative discourse in various forms (e.g., academic essays, advertising, editorials, political speeches, etc.). Prerequisite: C or better in ENGL 1301 and ENGL 1302.

ENGL 4372. PROFESSIONAL PRACTICE IN TECHNICAL COMMUNICATION. 3 Hours.
Covers the professional practices of technical and professional writers and designers, as informed by histories, theories, and methods of the field. Addresses historical and current trends in technical communication, including communicating for transnational audiences, writing for social justice, and multimodal design. Includes professionalization for careers in the field of professional and technical communication. Assignments may include a professional portfolio, a professional development plan, or a case study of an historical or current issue relevant to the field. Prerequisite: C or better in ENGL 2338 or concurrent enrollment in ENGL 2338.

ENGL 4373. SOCIAL MEDIA TEAM. 3 Hours.
A writing-intensive experiential learning course in which students work in teams with English's Coordinator of Social Media to create content for the department's social media platforms and the online professional portfolios they will develop during the course. Includes Maverick Advantage distinguishing activities and requires active participation and weekly reflection. Experience with social media or graphic design is not required. Prerequisite: English majors: C or better in ENGL 3333, ENGL 3350, and ENGL 3384. Non-majors: C or better in ENGL 1301 and ENGL 1302 and 60 hours toward their degree.

ENGL 4375. LITERARY CRITICISM AND THEORY I. 3 Hours.
Examines classics of literary criticism from Greek antiquity through the nineteenth century, focusing on the nature, function, and history of criticism. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 4376. DESIGNING TECHNICAL DOCUMENTS. 3 Hours.
Builds on the topics of designing and creating effective technical documents as taught in Technical Writing (ENGL 2338). Covers foundations of user centered design, including both single and multipage design, using professional design software (e.g. Adobe InDesign, Photoshop), typography, color theory, basic information architecture (IA), and user experience (UX). Assignments could include identifying successful design elements in sample texts, selecting appropriate colors and typefaces to enhance document content and message, producing a single and multi-page redesign, editing raster graphics in an ethical manner, editing vector graphics for publication, and producing a professional portfolio. Prerequisite: C or better in ENGL 2338 or concurrent enrollment in ENGL 2338.

ENGL 4377. TOPICS IN SCIENCE AND TECHNOLOGY. 3 Hours.
Explores issues in the rhetorical, cultural, and aesthetic dimensions of science and technology. May include such topics as the medical humanities, speculative fiction, or theories of cultural spaces. May be repeated for credit as course content changes. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).
ENGL 4385. MODERNISM. 3 Hours.
Covers major works of the early and mid-twentieth century in Europe and/or the Americas that belong to the movement known as Modernism. May also include the study of Freud and literature, Impressionism, Surrealism, and Existentialism. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 4387. CONTEMPORARY LITERATURE. 3 Hours.
Examines contemporary literary movements and forms such as postmodernism, magical realism, dystopian fiction, and the graphic novel. Works may be from a single national tradition or several. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 4388. MAJOR AUTHORS. 3 Hours.
In-depth study of the works of one or two authors who had an enduring impact on literary history. Prerequisite: English majors must have earned a C or better in ENGL 3350. Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 4389. PROFESSIONAL PROJECTS IN ENGLISH STUDIES. 3 Hours.
Provides experiential learning opportunities to apply academic skills learned in English classes through semester-long team projects that culminate in products for publication, circulation, or other kinds of use beyond the course. Emphasizes career development, teamwork, and leadership; uses reflection to connect experiences to learning and professionalization; and generates content students can include in portfolios or on platforms like LinkedIn. May include such topics/projects as creating a YouTube channel for the Department of English, editing and publishing a journal or collection, or creating and running a conference. May be repeated for credit as course content changes. Prerequisite: English majors: C or better in ENGL 3333, ENGL 3350, and ENGL 3384. Non-majors: C or better in ENGL 1301 and ENGL 1302 and 60 hours toward their degree.

ENGL 4390. INTERNSHIP IN ENGLISH. 3 Hours.
Provides an opportunity to apply academic skills learned in English classes to practical situations by working in a business, government, or non-profit organization in a role related to the discipline. May be repeated once for credit if internship duties change. Prerequisite: English majors: C or better in ENGL 3350; C or better in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362); and permission of instructor. Non-majors: C or better in ENGL 1301 and ENGL 1302, 60 hours toward their degree, and permission of instructor.

ENGL 4391. ENGLISH CONFERENCE COURSE. 3 Hours.
An independent study of a topic not otherwise available. Requires permission of the department chair and the instructor. May be repeated once for credit as long as the topics differ. Prerequisites: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

ENGL 4394. HONORS THESIS/SENIOR PROJECT. 3 Hours.
Required of all students in the University Honors College. During the senior year, the student must complete a thesis or project of equivalent difficulty under the direction of a faculty member in the major department.

ENGL 4399. SENIOR SEMINAR. 3 Hours.
Capstone course for English majors. A writing-intensive, seminar-style, in-depth study of a topic. Content may consist of a figure or figures, a period, a literary movement, a theme, or a critical theory. Offerings have included “Data Storytelling and African American Literature,” “Diversity on Big and Small Screens,” “Early Modern Manuscripts and the Archive,” “Ecogothic and Environmental Apocalypse,” “Existentialism,” and “Rhetoric and the Future.” Prerequisite: C or better in ENGL 3350; C or better in two literature survey courses (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362); and completion of 18 hours of required 3000-4000 level English courses.

ENGL 5191. INDEPENDENT STUDY. 1 Hour.
Supervised independent study at the M.A. or Ph.D. level.

ENGL 5300. THE PROFESSION OF ENGLISH STUDIES. 3 Hours.
Core graduate course, introduction to graduate study in English. Covers major issues and debates within the field of English Studies, including an introduction to graduate-level research and writing methods and to professional development for diverse career paths. Enrollment requires the approval of the Graduate Advisor in English.

ENGL 5301. MEDIEVAL ENGLISH LITERATURE. 3 Hours.
English literature of the period before 1500. May include Old English poetry, Anglo-Latin prose, William Langland, the alliterative revival, romances, Malory, and Chaucer.

ENGL 5302. 16TH CENTURY BRITISH LITERATURE. 3 Hours.
Non-dramatic literature of the 16th century, including works by Thomas More, Sir Philip Sidney, Sir Walter Raleigh, John Skelton, Edmund Spenser, and Elizabeth I.

ENGL 5303. 17TH CENTURY ENGLISH LITERATURE. 3 Hours.
Poetry and prose of the 17th Century. May include a study of Milton and/or a study of writers and motifs of the period.

ENGL 5304. RESTORATION AND 18TH CENTURY BRITISH LITERATURE. 3 Hours.
Drama, poetry, fiction, and essays from 1660 to 1798. Includes writers such as John Dryden, Aphra Behn, Alexander Pope, Samuel Johnson, Henry Mackenzie, Ignatius Sancho, and Maria Edgeworth, as well as issues of the period such as the nature of reason.
ENGL 5305. ROMANTIC BRITISH LITERATURE. 3 Hours.
Poetry and fiction from 1798 to 1837. Includes writers such as William and Dorothy Wordsworth, Mary and Percy Shelley, Felicia Hemans, and Walter Scott, as well as issues such as the meaning of nature.

ENGL 5306. VICTORIAN ENGLISH LITERATURE. 3 Hours.
Concepts and problems in texts by Victorian novelists, poets, and essayists (writers will vary). Attention to historical and cultural as well as literary issues.

ENGL 5307. 19TH CENTURY BRITISH LITERATURE AND CULTURE. 3 Hours.
An overview of the writings and culture of the long 19th century in Britain from 1798 to 1914. Makes connections between Romantic and Victorian periods, covers literary and other relations with the empire, and includes significant non-literary figures such as Darwin and Freud.

ENGL 5308. STUDIES IN SHAKESPEARE. 3 Hours.
Representative works of Shakespeare and contemporary Shakespeare criticism. May vary from comprehensive readings in the dramatic literature to intensive examination of certain plays, or to other related topics and plays of the period.

ENGL 5309. INTRODUCTION TO CRITICAL THEORY. 3 Hours.
Core graduate course, introduction to critical theory. Covers a wide range of theoretical approaches to prepare students for graduate-level work in English Studies.

ENGL 5310. FOUNDATIONS OF RHETORIC AND COMPOSITION. 3 Hours.
An intellectual and institutional history of rhetoric and composition studies. Special attention will be given to the history and ethics of writing instruction; the importation of classical rhetoric into contemporary composition classrooms; the institutional formation of the field and its ambiguous status in the academy; and the major contemporary pedagogical approaches (e.g., expressivism, cognitivism, social constructionism). May also address recent topics that have attracted the attention of the field (e.g., dialogism, institutional critique, plagiarism, post-process theory, service learning, writing across and beyond the curriculum).

ENGL 5311. LITERATURE AND RELIGION. 3 Hours.
Explores the role of religion in literature, including the representation of religion in literature and the study of religious texts as literature. May focus on a single faith tradition such as Christianity or Judaism, or may present a comparative analysis of more than one faith tradition in literature. Various historical periods and literary traditions may be covered.

ENGL 5312. EARLY AMERICAN LITERATURE. 3 Hours.
Explores significant authors, texts, and movements within literary, historical, and cultural contexts. Writers examined may include established figures as well as noncanonical authors, and a range of topics and genres, such as Native American and comparative Indigenous literatures, Puritan writing, captivity narratives, early national literature, the rise of the novel, and autobiographical narrative.

ENGL 5313. 20TH CENTURY BRITISH LITERATURE. 3 Hours.
A study of English and Irish writing in the 20th Century; may focus on major authors, themes, or topics.

ENGL 5314. LITERATURE AND RELIGION. 3 Hours.
Explores the role of religion in literature, including the representation of religion in literature and the study of religious texts as literature. May focus on a single faith tradition such as Christianity or Judaism, or may present a comparative analysis of more than one faith tradition in literature. Various historical periods and literary traditions may be covered.

ENGL 5315. VICTORIAN ENGLISH LITERATURE. 3 Hours.
Considers significant authors, texts, and movements within literary, historical, and cultural contexts. Writers examined may include established figures as well as noncanonical authors, and a range of topics and genres, such as the domestic novel, nineteenth-century American poetry, the American Renaissance, slave narratives, realism, and naturalism.

ENGL 5316. 20TH CENTURY AMERICAN LITERATURE. 3 Hours.
Explores significant authors, texts, and movements within literary, historical, and cultural contexts. Writers examined may include established figures as well as noncanonical authors, and a range of topics and genres, such as modern American poetry and fiction, the Harlem Renaissance, regionalism, the Beats, and post-war fiction.

ENGL 5317. TOPICS IN AMERICAN LITERARY GENRES. 3 Hours.
Concentrates on a significant genre within American literary history. Genres examined may include, but are not limited to, poetry, fiction, autobiography, oral narratives, and American Gothic literature. May be repeated when content changes.

ENGL 5318. TOPICS IN AMERICAN LITERATURE BEFORE 1900. 3 Hours.
May focus on one to three writers such as Whitman and Dickinson, or Douglass, Stowe, and Melville, or a significant topic such as realism, African American literature, gender and sexuality, American literature and the environment, sentimental fiction, or women's writing. May be repeated when content changes.

ENGL 5319. TOPICS IN AMERICAN LITERATURE AFTER 1900. 3 Hours.
May focus on one to three writers such as Wharton, Faulkner, or Morrison, or a significant topic such as modernism and postmodernism, Mexican American literature, multicultural narrative, or feminist theory/feminist fiction. May be repeated when content changes.
ENGL 5331. TOPICS IN LANGUAGE OR DISCOURSE STUDIES. 3 Hours.
Concentration on historical and theoretical approaches to the study of language and the specific discursive practices of its users. May be repeated for credit when content changes.

ENGL 5333. TOPICS IN TECHNICAL AND PROFESSIONAL COMMUNICATION. 3 Hours.
Focused study of technical and professional communication theories and practices that are relevant to corporate, government, academic, or other specific contexts (e.g., healthcare, engineering, or software development). Course may focus on specific technical and professional documents (e.g., software documentation), TPC research methods and designs (e.g., usability and user experience), or movements within the scholarship and practice of the field (e.g., social justice in technical and professional communication). May be repeated when course content changes.

ENGL 5337. SEMINAR IN TEACHING LITERATURE. 3 Hours.
Study of recent scholarship in English Studies and other disciplines pertaining to the teaching of literature. Comparative analysis of methods and objectives for the teaching of literature. Course will include a practicum component in which students observe the teaching of experienced faculty, teach particular texts, design syllabi and write statements of teaching philosophy. The course is intended to prepare graduate students to teach literature courses at the university, college or community college level, and to provide a range of pedagogical models to enhance the skills of secondary school teachers.

ENGL 5340. CRITICAL THEORY: THE MAJOR TRADITIONAL TEXTS. 3 Hours.
A study of literary and cultural theory and practice from the Greco-Roman period to the early 20th Century. May include such theorists as Plato, Aristotle, Horace, Longinus, Dante, Sidney, B. Jonson, Dryden, Pope, Johnson, Coleridge, Arnold, Richards, Eliot, and others.

ENGL 5350. HISTORY OF RHETORIC I: CLASSICAL RHETORIC. 3 Hours.
A study of the theory and practice of Greco-Roman rhetoric from its pre-Socratic origins to the Second Sophistic. Attention will be given to major theorists, such as Gorgias, Protagoras, Plato, Aristotle, Isocrates, Hermagoras, Hermogenes, Cicero, Quintilian and the transitional figure of St. Augustine.

ENGL 5351. HISTORY OF RHETORIC II: MEDIEVAL AND RENAISSANCE RHETORIC. 3 Hours.
A study of the theory and practice of western rhetoric from the early medieval period through the Renaissance. Attention will be given to major theorists, such as St. Augustine, Geoffrey of Vinsauf, Robert of Basevorn, Christine de Pizan, Desiderius Erasmus, Baldesar Castiglione, Juan Luis Vives, Sir Philip Sidney, Peter Ramus and Francis Bacon.

ENGL 5352. HISTORY OF RHETORIC III: MODERN AND CONTEMPORARY RHETORIC. 3 Hours.
A study of the theory and practice of western rhetoric from the 18th century to the present. Attention will be given to major theorists, such as Whatley, Blair, Bain, Campbell, Spencer, Richards, Burke, Weaver, Toulmin, Perelman, Bitzer, Vatz, Harriman, Leff, Farrell, McGee, Gaonkar, Kinneavy, Scott, Crosswhite, Meyer, Gross, Miller, Fuller and Kent.

ENGL 5353. RHETORIC AND SOUND. 3 Hours.
An introduction to rhetorical engagement with recorded sound. Includes critical engagement with sound recordings (sonic data and archives, podcasting, field recording, etc.), work with digital audio tools for writing with sound, as well as studies in the interdisciplinary field of sound studies. May also consider work in areas that include histories and ethnographies of listening, studies of built and natural soundscapes, sound media, sound art, and the nature of listening.

ENGL 5355. STUDIES IN ENGLISH DISCOURSE. 3 Hours.
Analysis of English grammatical structures above the level of the clause, including the sentence, the paragraph, and the whole text; examination of the work of major discourse theorists Dik, Harris, Halliday, Longacre, Pike and van Dijk.

ENGL 5356. COMPOSING PROCESSES. 3 Hours.
Study of research about writing processes and examination of the available methods of conducting research; special attention given to major researchers and theorists.

ENGL 5357. READING PROCESSES. 3 Hours.
Contemporary theories of interpretation and empirical research into reading processes; special attention given to major researchers and theorists.

ENGL 5358. WRITING ASSESSMENT, EVALUATION, AND RESPONSE. 3 Hours.
Study of the methods and ethics of assessing, evaluating, and responding to the writing of students individually or collectively.

ENGL 5359. ARGUMENTATION THEORY. 3 Hours.
Emphasis on theories of argumentation and persuasion that further the rhetorical aims of convincing or achieving agreement through identification and consensus. Attention to classical and contemporary approaches to issue analysis, invention, audience analysis, building common ground, stasis theory, types of proofs and tests of validity, organizational strategies, and style. Special attention to argument on the Internet. Assignments may include constructing Web sites related to argument. Study of such theorists as Aristotle, Perelman, Toulmin, Ong, K. Burke, Brockriede and Ehninger, Bitzer, Young, Becker and Pike, and others.

ENGL 5360. CONTEMPORARY CRITICAL THEORY. 3 Hours.
Study of contemporary theories of interpretation, concentrating on one or more schools of critical and cultural theory may include, New Criticism, the Neo-Aristotelians, Marxist Critical Theory, Hermeneutics, psychoanalysis, Russian Formalism, semiotics, speech-act theory, phenomenology, structuralism, and post-structuralism. May be repeated when content changes.
ENGL 5361. TOPICS IN MEDIA STUDIES. 3 Hours.
Interdisciplinary examination of media representations and technologies that addresses the impact and affordances of emergent media technologies. Topics may include AI, digital media production, game studies, data mining, publics and counter-publics, race and technology, social media, and broadcast or electronic media.

ENGL 5365. JUVENILE LITERATURE. 3 Hours.
Examines the current state of the academic field of juvenile literature, which may be through attention to recent article-and book-length scholarship in the field and/or study of primary sources. Provides the opportunity to use the newest critical approaches to generate original scholarship on important works of juvenile literature, whether new or long-established.

ENGL 5370. WRITING FOR PUBLICATION IN THE HUMANITIES. 3 Hours.
Prepares students to transform academic writing in a variety of humanities fields into publishable scholarship. Covers the research, writing, revision, and proposal/submission skills necessary for scholarly publications. May also address adapting scholarly projects for general audiences or other media formats.

ENGL 5380. TEXTUAL THEORIES OF CULTURE. 3 Hours.
Study of the interpretations of culture yielded by the traditions of semiotics and hermeneutics and cultural studies may include works by the following: Lyotard, Foucault, Habermas, Derrida, Pierre, Barthes, Deleuze, Gadamer, Levi-Strauss, Butler, Haraway, and Hall.

ENGL 5388. GTA PREPARATION. 3 Hours.
ENGL 5389. TOPICS IN TEACHING COMPOSITION. 3 Hours.
Seminar for investigating problems of and approaches to teaching composition. Special attention given to current compositional theorists. May be repeated when content changes.

ENGL 5390. INTERNSHIP IN ENGLISH STUDIES. 3 Hours.
Provides an opportunity to apply academic skills learned in the English graduate program to practical situations by working in a business, governmental entity, or non-profit organization in a role related to the discipline. Prerequisite: MA students: At least 18 hours towards degree and permission of instructor. PhD students: At least 27 hours towards degree and permission of instructor.

ENGL 5391. INDEPENDENT STUDY. 3 Hours.
Supervised independent study at the M.A. or Ph.D. level.

ENGL 5396. THESIS. 3 Hours.
The graduate student must be registered for this course (a) when in consultation over the thesis with the supervisory committee, and (b) in the semester or term in which the Master of Arts degree will be conferred.

ENGL 5698. THESIS. 6 Hours.
The graduate student must be registered for this course (a) when in consultation over the thesis with the supervisory committee, and (b) in the semester or term in which the Master of Arts degree will be conferred.

ENGL 5998. THESIS. 9 Hours.
The graduate student must be registered for this course (a) when in consultation over the thesis with the supervisory committee, and (b) in the semester or term in which the Master of Arts degree will be conferred.

ENGL 6191. INDEPENDENT STUDY. 1 Hour.
Independent study at the M.A. or Ph.D. level. May be repeated as needed. Prerequisite: permission of instructor.

ENGL 6329. TOPICS AND THEMES IN COMPARATIVE LITERATURE. 3 Hours.
The study of a theme or topic, such as primitivism, utopianism, representations of the unconscious, or the quest, within different literary traditions. May be repeated as course content changes.

ENGL 6330. GENRE STUDIES IN BRITISH LITERATURE. 3 Hours.
Intensive study of a genre in any period(s) of British Literature; may focus on autobiography, history of the novel, Restoration and eighteenth-century drama, nineteenth-century British fiction, or other. May be repeated when course content changes.

ENGL 6333. GENRES IN COMPARATIVE LITERATURE. 3 Hours.
Theory of literary forms or types and the conventions they embody. May focus on the epic, the novel, lyric poetry, autobiography, drama, or magical realism, across different literary traditions. May be repeated as course content changes.

ENGL 6335. TOPICS IN ENGLISH LITERATURE. 3 Hours.
Focus on writers or issues in literature written in English, including colonial and postcolonial literatures. May include poetry, drama, fiction, or non-fiction. May be repeated when content changes.

ENGL 6339. TOPICS IN AMERICAN LITERATURE. 3 Hours.
Topics not bound by particular historical periods, for example, women's writing, canon formation, Native American and comparative Indigenous literatures, African American literature, Latina/o literature, utopian literature, science fiction, popular literature and culture, and queer literature. May be repeated when content changes.
ENGL 6340. METACRITICAL THEORY. 3 Hours.
A study of theories of literature from the point of view of their systems-theoretical character. Focuses on the writing of selected metatheorists such as Barbour, Braithwaite, Bruss, Harr, Lakatos, Popper, Rescher, and others, on questions of the genesis, nature, function, validity, and potential of literary theory. May be repeated for credit as course content changes.

ENGL 6350. TOPICS IN THE HISTORY AND THEORY OF RHETORIC. 3 Hours.
An intensive study of specific problems or issues in classical, medieval, Renaissance, modern, or contemporary rhetoric, (e.g., civic functions of rhetoric, logic and rhetoric, rhetoric of science, theories of invention), especially those that involve the connections and collisions between rhetorical and other intellectual traditions (e.g., critical theory, cultural studies, feminist theory, history, literary studies, non-western rhetoric, philosophy). May focus on the work of a major theorist. May be repeated for credit when content changes.

ENGL 6351. TOPICS IN COMPOSITION STUDIES. 3 Hours.
An intensive study of specific problems or issues in contemporary composition studies (e.g., authorship and intellectual property, computers and composition, the ideologies of writing instruction, the role of empirical research, service learning), especially those that involve connections and collisions between composition studies and other intellectual traditions (e.g., cognitive science, critical theory, cultural studies, feminist theory, hermeneutics, history, linguistics, literary study, rhetoric, philosophy, psychology, sociology). May focus on the work of a major researcher or theorist. May be repeated for credit when content changes.

ENGL 6360. TOPICS IN FEMINIST THEORY. 3 Hours.
Study of interdisciplinary feminist theories of language, power, knowledge, culture, identity, gender, and sexuality. Course may focus on Marxist feminism, postmodern/poststructuralist feminism, feminist cultural studies, postcolonial feminism, material feminisms, feminist science studies, queer theory, or other topics. Course may include such theorists as Wollstonecraft, Woolf, Beauvoir, Irigaray, Spillers, Spivak, Anzaldua, Bordo, Haraway, Butler, Grosz, Sedgwick, Wynter, and Halberstam.

ENGL 6361. TOPICS IN GENDER AND SEXUALITY STUDIES. 3 Hours.
Interdisciplinary study of a particular problem or research area within gender and sexuality studies from the perspective humanities, social sciences, and/or natural sciences. Topics may include LGBTQIA studies, masculinity studies, disability studies, and/or race and ethnicity studies.

ENGL 6362. CHICANA LITERATURE AND PRAXIS. 3 Hours.
Study of the fiction, drama, poetry, creative non-fiction, and scholarship of Mexican American women writers from the 19th to the 21st century with an emphasis on the interrelationship of Chicana feminist theory with praxis and literary form.

ENGL 6370. TOPICS IN LITERATURE AND THE ENVIRONMENT. 3 Hours.
Introduces interdisciplinary theories and methods of the environmental humanities while investigating how literature, film, and other cultural texts, media, and practices represent and engage with the natural world. Topics may include animal studies, plant studies, food studies, environmental science studies, science fiction, environmental justice, post-humanism, extinction, climate change, and the anthropocene. May be repeated for credit when course content changes.

ENGL 6371. TOPICS IN RACE, GENDER, AND POPULAR CULTURE. 3 Hours.
Critically examines popular culture texts and the messages and knowledge that popular culture employs, disseminates, and constructs about race and gender. Focuses on primary texts from popular or mass culture productions, such as advertising, television, music videos, popular music, and film, as well as on scholarly analysis of popular culture.

ENGL 6375. TOPICS IN CREATIVE WRITING. 3 Hours.
A workshop course in creative writing focusing on the study of craft, the works of published writers, and the production of original creative works. In addition, the course will cover pedagogical and professional concerns. The course may focus on a single genre, such as poetry, fiction, creative nonfiction or drama, or may be taught as a multi-genre course. May be repeated as content changes.

ENGL 6380. TOPICS IN THE HISTORY AND THEORY OF RHETORIC. 3 Hours.
An intensive study of specific problems or issues in classical, medieval, Renaissance, modern, or contemporary rhetoric, (e.g., civic functions of rhetoric, logic and rhetoric, rhetoric of science, theories of invention), especially those that involve the connections and collisions between rhetorical and other intellectual traditions (e.g., critical theory, cultural studies, feminist theory, history, literary studies, non-western rhetoric, philosophy). May focus on the work of a major theorist. May be repeated for credit when content changes.

ENGL 6398. TECHNICAL WRITING ACROSS THE DISCIPLINES. 3 Hours.
Offers an integrated-language approach to technical writing across the disciplines designed to improve critical reading, writing, and thinking skills. Provides ESL-integrated feedback for writing projects. Focuses on writing research or grant proposals, but may also include writing abstracts, summaries, reports, and/or literature reviews. ENGL 6398 cannot be counted toward completing the requirements of any graduate degree plan in English.

ENGL 6399. DISSERTATION. 3 Hours.
The graduate student must be registered for this course (a) when in consultation over the dissertation with the supervisory committee, and (b) in the semester or term in which the Ph.D. will be conferred. A minimum of 9 hours of dissertation credit is required for the Ph.D. Graduate teaching assistants must take ENGL 6699. ENGL 6999 must be taken during the final semester of the Ph.D.

ENGL 6691. GRADUATE READINGS. 3 Hours.
Supervised reading for the Ph.D. exam.

ENGL 6692. DISSERTATION. 3 Hours.
The graduate student must be registered for this course (a) when in consultation over the dissertation with the supervisory committee, and (b) in the semester or term in which the Ph.D. will be conferred. A minimum of 9 hours of dissertation credit is required for the Ph.D. Graduate teaching assistants must take ENGL 6699. ENGL 6999 must be taken during the final semester of the Ph.D.
ENGL 6991. GRADUATE READINGS. 9 Hours.
Independent Reading for the Comprehensive Examination.

ENGL 6999. DISSERTATION. 9 Hours.
The graduate student must be registered for this course (a) when in consultation over the dissertation with the supervisory committee, and (b) in the semester or term in which the Ph.D. will be conferred. A minimum of 9 hours of dissertation credit is required for the Ph.D. Graduate teaching assistants must take ENGL 6699. ENGL 6999 must be taken during the final semester of the Ph.D.

ENGL 7399. DOCTORAL DEGREE COMPLETION. 3 Hours.
This course may be taken during the semester in which a student expects to complete all requirements for the doctoral degree and graduate. Enrolling in this course meets minimum enrollment requirements for graduation, for holding fellowships awarded by The Office of Graduate Studies and for full-time GTA or GRA positions. Students should verify that enrollment in this course meets other applicable enrollment requirements. To remain eligible in their final semester of study for grants, loans or other forms of financial aid administered by the Financial Aid Office must enroll in a minimum of 5 hours as required by the Office of Financial Aid. Other funding sources may also require more than 3-hours of enrollment. Additional hours may also be required to meet to requirements set by immigration law or by the policies of the student's degree program. Students should contact the Financial Aid Office, other sources of funding, Office of International Education and/or their graduate advisor to verify enrollment requirements before registering for this course. This course may only be taken twice. Students who do not complete all graduation requirements while enrolled in this course must enroll in a minimum of 6 dissertation hours (6699 or 6999) in their graduation term. Graded P/F/R.
English - Graduate Programs

Objectives

The Department of English offers a wide variety of graduate courses to meet the needs of students with a diversity of interests and academic backgrounds who wish to enhance their awareness of their literary and cultural environment by additional formal instruction or to increase their professional competence.

The MA in English is designed to enable students to learn about, critique, and work in teaching, scholarship, writing, or other fields which value a strong background in language, rhetoric, and the study of culture through texts.

Early in the program, each student takes one core course that serves as an introduction to theory as it is currently used in English scholarship. Each student plans an individual program of coursework with the help of the Graduate Advisor (english.gradadvisor@uta.edu (matheson@uta.edu)). This program draws on the Department’s varied courses, which offer students ways to study literature, rhetoric, and criticism, as well as methods of studying culture through texts and traditions of discourse.

The MA in English provides a strong grounding in scholarly methods and in theory, making it an ideal preparation for doctoral study in disciplinary or interdisciplinary programs. MA graduates in English pursue careers in journalism, educational administration and services, publishing, and many business fields that demand writing and communication skills. The MA in English is also useful for prospective or experienced teachers who want both to sharpen their ability to teach literature and writing and to advance professionally.

The PhD in English prepares students at the most advanced stage in the interpretation and composition of texts. The program emphasizes rigorous critical study in the fields of rhetoric, composition, critical theory, cultural studies, pedagogy, and literary studies. Rather than offering separate tracks, the program allows students, in consultation with the Graduate Advisor and the dissertation committee, to design a program of work that best suits their particular scholarly interests and career goals. The combination of a diversity of course offerings, required and elected courses, and the requirement that each student define a focus that reflects his or her intellectual and career interests provides students with the flexibility to adapt to changes in English studies. Specifically, the PhD in English prepares students for careers in writing, including electronic and technical writing, as well as in teaching at community colleges, small colleges, or research universities. The Department trains students for college-level teaching in several ways, including graduate courses in the teaching of literature and of composition. Doctoral students in English present papers at scholarly conferences, publish essays in scholarly journals, and participate in other professional activities.

Graduate Teaching Assistantships

Please consult the Director of First Year Writing, Dr. Justin Lerberg (jlerberg@uta.edu), for more information on Graduate Teaching Assistantships.

Admissions Requirements

Admission Procedures

In addition to the basic graduate admission requirements of UT Arlington described in this Catalog in the Admission section under University Policies & Requirements, the Department of English requires all international students to have speaking, reading, and writing competence in English. For both the MA and the PhD, we consider four different admission criteria:

a. GPA
b. GRE
c. Writing sample
d. Letters of recommendation

Prospective students must submit all the required materials and scores—i.e., official transcripts, GRE scores, a writing sample, and recommendation letters—in order for their application to be processed. All criteria are considered together, in a holistic way, and no single factor will eliminate a prospective student from consideration. For unconditional admission, candidates must meet the following standards for at least three of the four criteria.

Criteria for Admission: MA Program

a. A minimum GPA of 3.0 in undergraduate work, with a minimum of 3.4 in the English major or upper-level English courses. Applicants who did not major in English should have at least 12 hours of upper-level undergraduate coursework in English. Non-majors who do not meet the upper-level English coursework requirement may still apply, but will likely need to take leveling courses (see below).

b. GRE scores: a minimum of 153 on the verbal scale and 4.5 on analytic writing. We will not consider the math scores. We do not require the English subject test.

c. A writing sample of 10 to 15 pages that demonstrates a sophisticated prose style and the ability to construct complex arguments.

d. Three letters of recommendation that attest to the prospective student’s intellectual and scholarly potential. At least two of these should be from former professors.
GRE Waiver
UT Arlington undergraduates whose GPA equals or exceeds the minimum described above and who have graduated in the last three years with a major in English (or closely related program) qualify for a waiver of the GRE admissions requirement.

Deferred Decision
A deferred decision may be granted when a file is incomplete or when a denial is not appropriate.

Provisional Admission
An applicant who is unable to supply all required documentation prior to the admission deadline but who otherwise appears to meet admission requirements may be granted provisional admission.

Probationary Admission
For both the MA and PhD programs, students may be admitted on probation under one of two scenarios:

a. The prospective student’s application materials do not meet two of the four standards, but are outstanding in the remaining two categories; or
b. The prospective student’s materials come extremely close to meeting the standards in at least three of the four areas.

Students on academic probation must make no grade lower than a B in the first 12 hours of their graduate work in order to remain in the program.

Denial
Admission will be denied if the application materials:

a. Do not meet the standards in three of the four categories; or
b. Do not meet the standards in two of the categories, and in the remaining two categories meet the standards but in an unexceptional manner.

Leveling Courses
Students who wish to pursue the MA but who do not have an undergraduate major in English may be required to take between 3 and 12 hours in specified advanced undergraduate courses and make no grade lower than a B. These courses will not be counted for graduate credit, but instead will provide the necessary background for pursuit of the advanced degree.

Degree Requirements
Master of Arts
a. ENGL 5300 THE PROFESSION OF ENGLISH STUDIES is required. It must be taken within a student’s first 12 hours of study.
b. ENGL 5310 INTRODUCTION TO CRITICAL THEORY is required. It must be taken within a student’s first 12 hours of study.
c. The program has thesis and non-thesis options.
d. The thesis option is a 30 credit-hour program and requires 24 hours of coursework and at least 6 hours of thesis. The degree culminates with defense of the thesis.
e. Students who would like to pursue the thesis option must apply for it no sooner than their 18th hour and no later than their 24th hour of coursework. A student who elects to write a thesis must select a topic in consultation with their thesis director. Before the student registers for thesis hours, a Thesis Committee (a director and two readers) must be established.
f. The non-thesis option is also a 30 credit-hour program and all 30 hours take the form of coursework. The final requirement for a non-thesis MA is submission of a portfolio. This will consist of a variety of writing assignments designed to prepare the student to enter the professional and/or academic workplace. The student will establish a Portfolio Committee (a director and two readers).
g. With approval of the Director of Graduate Studies or Graduate Coordinator, MA students may apply 3 credit hours of graduate coursework taken in other COLA departments to their MA degrees. Students may petition to take additional COLA graduate courses or to take graduate courses outside of COLA.

Admission Requirements
In addition to the basic graduate admission requirements of UT Arlington described in this Catalog in the Admission section under University Policies & Requirements, the Department of English requires all international students to have speaking, reading, and writing competence in English. For both the MA and the PhD, we consider four different admission criteria: (1) GPA; (2) GRE; (3) writing sample; and (4) letters of recommendation. Prospective students should submit all the required materials and scores—i.e. official transcripts, GRE scores, a writing sample, and recommendation letters—in order for their application to be processed. All criteria are considered together, in a holistic way. No single factor will eliminate a prospective student from consideration. For unconditional admission, candidates must meet the following standards for at least three of the four criteria.
Criteria for Admission: PhD Program
a. A minimum GPA of 3.5 in the student's MA in English or a very closely related field. (If the MA is not in English, we will consider the undergraduate GPA as well as that of the MA. Moreover, if the MA is not in a very closely related field, the prospective student will be admitted to the MA program in English, not the PhD.)
b. GRE scores: a minimum of 156 on the verbal scale and 4.5 on analytic writing. We will not consider the math scores. We do not require the English subject test.
c. A writing sample of 15 to 20 pages that demonstrates a sophisticated prose style, the ability to engage in intellectually rigorous modes of analysis, and a strong knowledge of rhetoric, composition studies, literary studies, cultural studies, or interdisciplinary critical theory.
d. Three letters of recommendation that attest to the student's intellectual and scholarly potential. At least two of these must be from former professors; at least one must be a professor from the student's MA program.

Deferred Decision
A deferred decision may be granted when a file is incomplete or when a denied decision is not appropriate.

Probationary Admission
For both MA and PhD, students may be admitted on probation under one of two scenarios: (1) if the prospective student's application materials do not meet two of the four standards, but are outstanding in the remaining two categories; or (2) if the prospective student's materials come extremely close to meeting the standards in at least three of the four areas. Students on academic probation must make no grade lower than a B in the first 12 hours of their graduate work in order to remain in the program.

Denial
Admission will be denied if the application materials (1) do not meet the standards in three of the four categories; or (2) if the materials do not meet the standards in two of the categories, and in the remaining two categories meet the standards but in an unexceptional manner.

Degree Requirements

Doctor of Philosophy
a. The PhD requires thirty semester hours of coursework beyond the MA, followed by a minimum of 9 hours of dissertation work.
b. ENGL 5300 THE PROFESSION OF ENGLISH STUDIES is required. It must be taken within a student's first 12 hours of study unless they have already taken ENGL 5300 while in the MA program.
c. ENGL 5310 INTRODUCTION TO CRITICAL THEORY is required. It must be taken within a student's first 12 hours of study unless they have already taken ENGL 5310 while in the MA program.
d. One course in Rhetorical Theory is required. May include: ENGL 5311 FOUNDATIONS OF RHETORIC AND COMPOSITION, ENGL 5350 HISTORY OF RHETORIC I: CLASSICAL RHETORIC, ENGL 5351 HISTORY OF RHETORIC II: MEDIEVAL AND RENAISSANCE RHETORIC, ENGL 5352 HISTORY OF RHETORIC III: MODERN AND CONTEMPORARY RHETORIC, ENGL 5353 RHETORIC AND SOUND, ENGL 5359 ARGUMENTATION THEORY, ENGL 6350 TOPICS IN THE HISTORY AND THEORY OF RHETORIC, or other special topics courses.
e. With approval of the Director of Graduate Studies or Graduate Coordinator, PhD students may apply up to 6 credit hours of graduate coursework taken in other departments in the College of Liberal Arts to their PhD degrees. Students may petition to take additional COLA graduate courses or to take graduate courses outside of COLA.
f. The PhD requires basic proficiency in translation in one natural language other than English.

Students are strongly encouraged to consult with the Director of Graduate Studies or Graduate Coordinator in planning their coursework, in order to develop a coherent focus and to ensure that they take all required courses. Near the end of coursework, students must establish a dissertation committee and identify the chair, who will become their primary advisor. The committee will help students develop three subject area reading lists for their written comprehensive examination, which will be taken after they complete their coursework and satisfy the foreign language requirement. While studying for the comprehensive exam, students may enroll in ENGL 6391 GRADUATE READINGS, supervised reading for the PhD exam, graded R. By the end of the first semester after successfully completing the comprehensive examination, the student must submit a dissertation prospectus to their committee. The dissertation must be an original, substantial and significant contribution to a scholarly field. Students should work closely with the chair of their committee while researching and writing their dissertation. While researching and writing their dissertation, students must enroll in dissertation hours (ENGL 6999 DISSERTATION, ENGL 6699 DISSERTATION or ENGL 6999 DISSERTATION). In the final semester of dissertation work, students may enroll in ENGL 7399 DOCTORAL DEGREE COMPLETION. Once the student, the chair of the committee, and the primary readers agree that the dissertation is sufficiently completed, the student may schedule the defense. The student must furnish each committee member with a copy of the dissertation, including notes and bibliography, at least three weeks prior to the defense date. The defense of the dissertation is oral. The defense is open to all members of the faculty, graduate students and invited guests of the university community. Questioning of the candidate will be directed by the student’s dissertation supervising committee, but any person attending the defense may participate. Committee members may request that the
dissertation be further revised and may withhold final approval of the dissertation until the revisions have been made. For more specific information regarding degree requirements, please consult the Graduate Handbook of the Department of English.
English - Undergraduate Programs

Overview

By majoring in English, students are involved simultaneously with two activities that are essentially and uniquely human: language and art. The mission of the Department of English in the College of Liberal Arts at UT Arlington is to educate students about the powers and pleasures of literary and other kinds of language.

The curriculum provides students with an understanding of theoretical and analytical processes that enable them to assimilate a variety of textual materials representing many cultures and historical periods. Students will learn to read closely, critically, and empathetically. In addition, students will learn to conduct scholarly research and to produce clear and cogent arguments in both written and oral form. These skills are widely applicable for English graduates who pursue careers in the arts, education, business, research and development, government, media, and publishing.

The Department of English offers two degree options: a BA in English and a BA in English with Teacher Certification (BATCH). The distribution requirements for both degree plans include courses in literature, rhetoric, theory, and writing. In addition to the majors, the Department of English offers minors in English, Creative Writing, Rhetoric and Writing Studies, Sound Studies, and Technical Writing and Professional Design, as well as a Certificate in Technical Writing and Professional Design for non-degree-seeking students. Furthermore, the Department of English frequently cross-lists courses with African American Studies; Disability Studies; Environmental and Sustainability Studies; Gender, Women, and Sexuality Studies; and Mexican American Studies.

Total Hours 111-113

1 In line with the College of Liberal Art's foreign language requirement, students are required to take a minimum of 6 hours of foreign language courses, even if they transfer in with a completed Core Curriculum and a completed Field of Study in English Language and Literature (but without 6 hours of foreign language courses) and even if they will, as a result, need more than 120 hours to graduate.

2 Students who take ENGL 1200 will need 2 credit hours; students who do not will need 4 credit hours.

3 Please keep in mind that the credit hours for ENGL 1301, ENGL 1302, and our sophomore literature requirement (ENGL 2303, ENGL 2309, ENGL 2319, or ENGL 2329), are also counted under the "General Core Requirements" category, giving the misleading impression that our degree plan requires 129 hours (111 + 18 hours for a minor) when, in fact, it requires only 120 hours (102 + 18 hours for minor).
This course is a pre- or co-requisite for all upper-level English courses. English majors must pass this course with a grade of C or better in order to receive credit toward the major for any 3000/4000-level English courses.

**Teacher Certification**

Students wishing to take a Bachelor of Arts Degree in English with Secondary Teacher Certification (BATCH) must complete the required core curriculum courses, ENGL 1200 (for true first-year students), eight hours of modern language courses, and the required elective hours necessary to complete the 120 credit hours required for the degree.

Beyond those pre-professional requirements, they must complete the required secondary certification courses, LIST 4343 CONTENT AREA READING AND WRITING, and 42 hours in English. To count toward the major, each English course must be completed with a grade of C or better. The required English courses are:

Diverse Perspectives

3000/4000-level Literature elective

3000/4000-level English elective

Total Hours 42

1 BATCH majors must pass this course with a C or better in order to receive credit toward the major for any 3000/4000-level English courses.

**Competence in Oral Presentations**

Students obtaining a BA in English can demonstrate oral proficiency by:

1. passing ENGL 4399 SENIOR SEMINAR; or

2. passing COMS 1301 FUNDAMENTALS OF PUBLIC SPEAKING, COMS 1302 VOICE AND DICTION, COMS 2305 BUSINESS AND PROFESSIONAL COMMUNICATION, or COMS 3315 COMMUNICATION FOR EDUCATORS (or equivalent).

**Competence in Computer Use**

Students obtaining a BA in English can demonstrate computer proficiency by:

1. passing ENGL 3350 ANALYSIS AND INTERPRETATION, ENGL 3372 COMPUTERS AND WRITING, or ENGL 3374 WRITING, RHETORIC, AND MULTIMODAL AUTHORING; or

2. passing ENGL 2350 INTRODUCTION TO ANALYSIS AND INTERPRETATION prior to Fall 2020; or

3. passing CSE 1301 COMPUTER LITERACY (or equivalent); or

4. passing the University computer literacy examination.

**Minors and Certificate Program**

The Department of English currently offers minors in English, Creative Writing, Rhetoric and Writing Studies, Sound Studies, and Technical Writing and Professional Design. We also offer a Certificate in Technical Writing and Professional Design.
MINOR IN ENGLISH
The minor in English may be achieved by completing 18 hours in English with a grade of C or better. At least six of the hours must be at the 3000- or 4000-level.

MINOR IN CREATIVE WRITING
The minor in Creative Writing is offered for students who wish to pursue advanced work in creative writing as a part of their undergraduate curriculum. Students selecting the Creative Writing minor should consult first with the undergraduate advisor in their department or program for approval of the minor and then with the undergraduate advisor in the Department of English. Working with advisors, students will select a sequence of advanced courses to fulfill their minor requirements. To count toward the minor, all English courses must be completed with a grade of C or better. This minor requires 18 hours.

Required Courses
Choose one of the following:

Total Hours: 21

MINOR IN RHETORIC AND WRITING STUDIES
The minor in Rhetoric and Writing Studies (RWS) focuses on the history, theory, and practice of rhetoric in order to hone students’ ability to craft persuasive and analytical prose and deepen their understanding of composition and the writing process. The minor is designed to meet the diverse needs of both English majors and students from other disciplines. Students selecting the RWS minor should consult first with the undergraduate advisor in their department or program for approval of the minor and then with an undergraduate advisor in the Department of English. Working with advisors, students will select a sequence of courses to fulfill the requirements of the minor. To count toward the minor, all courses must be completed with a grade of C or better. This minor requires 18 hours.

**MINOR IN TECHNICAL WRITING AND PROFESSIONAL DESIGN**

The minor in Technical Writing and Professional Design (TWPD) provides students with training in technical and professional writing, document design, visual communication, editing, and usability, and it helps students become more effective communicators in both traditional and new media environments. Students selecting the TWPD minor should consult first with the undergraduate advisor in their department or program for approval of the minor and then with an undergraduate advisor in the Department of English. Working with advisors, students will select a sequence of courses to fulfill the requirements of the minor. To count toward the minor, all courses must be completed with a grade of C or better. This minor requires 18 hours.

Global Studies

Charles T. McDowell Center for Global Studies – Minor and Certificate Program

Overview

The Global Studies Minor and Global Studies Certificate promote understanding of global processes and awareness of the responsibilities of global citizenship in order to prepare students to meet the challenges of the 21st century and achieve success in the complex social, political, economic, and cultural environment of the world today.

The interdisciplinary program combines courses from across College of Liberal Arts disciplines and beyond, with a focus on those courses that offer global perspectives on modern and contemporary issues. The Global Studies Certificate is similar to the Minor, but with fewer course credit hour requirements (18 for the Minor vs. 15 for the Certificate). Both the minor and the certificate are open to all students at UTA.

Global Studies Minor Requirements

The Global Studies Minor features one required course: ANTH 2322, GLOBAL 2301, GLOBAL 3310, POLS 3302, or POLS 3304; three credit hours are required at the 2000 level in a Modern Language discipline; three credit hours are required in interdisciplinary core electives; six credit hours in upper-level electives; and a capstone course.

Global Studies Certificate Requirements

The Global Studies Certificate features one required course: ANTH 2322, GLOBAL 2301, GLOBAL 3310, POLS 3302, or POLS 3304; three credit hours in interdisciplinary core electives; six credit hours in upper-level electives; and a capstone course.

Global Studies Minor Curriculum (18 SCHS)

The Global Studies Minor features one required course: 1) ANTH 2322, GLOBAL 2301, GLOBAL 3310, POLS 3302, or POLS 3304 (three credit hours); a further three credit hours are required at the 2000 level in a Modern Language discipline; three credit hours in interdisciplinary core electives; six credit hours in upper-level electives, with a focus on courses that offer global and international perspectives on modern and contemporary issues; and a capstone course chosen from among the various disciplines represented in the minor (three credit hours).

Global Studies Minor requirements:

- **Requirement 1:** Global core courses (3 credit hours)
  - ANTH 2322, GLOBAL 2301, GLOBAL 3310, POLS 3302, or POLS 3304

- **Requirement 2:** Language or culture course from a Modern Language discipline (3 credit hours)
  - Students choose one of the following:
    - ARAB 2310, 2314
    - CHIN 2310, 2314
    - FREN 2310, 2314
    - GERM 2310, 2314
    - GLOBAL 2315
    - KORE 2310, 2314
    - MODL 2301
    - RUSS 2310, 2314
    - SPAN 2310, 2314

- **Requirement 3:** Interdisciplinary core course (3 credit hours)
  - Students choose one of the following:
    - ART 1309. ART OF THE WESTERN WORLD I: GREECE THROUGH RENAISSANCE
    - ART 1310. ART OF THE WESTERN WORLD II: BAROQUE TO MODERN
    - ART 1317. THE ART OF NONWESTERN TRADITIONS
    - ECON 2305. PRINCIPLES OF MACROECONOMICS
    - ECON 2306. PRINCIPLES OF MICROECONOMICS
    - ENVR 1300/GEOL 1330. GLOBAL WARMING
    - ENVR 1301. INTRODUCTION TO ENVIRONMENTAL STUDIES
    - ENVR 2414. THE GLOBAL ENVIRONMENT AND HUMAN HEALTH
• GEOG 2302. HUMAN GEOGRAPHY
• GEOG 2303. WORLD REGIONAL GEOGRAPHY
• HIST 2377. FLIGHT CULTURE AND THE HUMAN EXPERIENCE
• KINE 2350. PUBLIC HEALTH: PRINCIPLES AND POPULATIONS
• LING 2371. LANGUAGE IN A MULTICULTURAL USA
• MUSI 2300. INTRODUCTION TO WORLD MUSIC
• PHIL 1304. CONTEMPORARY MORAL PROBLEMS
• THEA 1342. THEATRE AND FILM APPRECIATION

• Requirement 4: Advanced electives (3000- or 4000-level courses; 6 credit hours)
  • Students choose two of the following (must represent two different prefixes, or permission of the advisor):
    • ANTH 3325. ETHNOGRAPHY OF SOUTH AMERICA
    • ANTH 3329. CONTEMPORARY AFRICAN CULTURES
    • ANTH 3330. CULTURAL DIVERSITY AND IDENTITY
    • ANTH 3332. FOOD AND CULTURE
    • ANTH 3334. ANTHROPOLOGY OF SOUTH ASIA
    • ANTH 3335. GANDHI: CULTURE AND POLITICS IN A GLOBAL WORLD
    • ANTH 3345/COMM 3345. VISUALIZING CULTURE: MEDIA, IDENTITY AND POLITICS IN THE GLOBAL WORLD
    • ANTH 3346. ANTHROPOLOGY OF TOURISM
    • ANTH 3348. ANTHROPOLOGY OF MIGRATION
    • ANTH 3349. ANTHROPOLOGY OF GLOBALIZATION
    • ANTH 3352. ARCHAEOLOGY OF AFRICA
    • ANTH 4342. TOPICS IN CULTURAL ANTHROPOLOGY
    • ANTH 4348. POLITICAL ANTHROPOLOGY
    • ARAB 3303. ARABIC CONVERSATION & CULTURE
    • ARAB 3304. ARABIC CONVERSATION & CULTURE II
    • ARAB 3312. TOPICS IN ARABIC LITERATURE AND CULTURE
    • ART 3304. JAPANESE ART & ARCHITECTURE
    • ART 3317. ISLAMIC ART AND ARCHITECTURE
    • ART 3319. ART & ARCHITECTURE OF INDIA
    • ART 3321. CHINESE ART & ARCHITECTURE
    • ART 4307. SPECIAL TOPICS IN ASIAN ART
    • CHIN 4334. CONTEMPORARY CHINESE CULTURE
    • CHIN 4335. BUSINESS CHINESE
    • COMM 4305. COMMUNICATION & SOCIETY
    • COMM 4335. INTERCULTURAL COMMUNICATION
    • CRCJ 4380. COMPARATIVE CRIMINAL JUSTICE SYSTEMS
    • ECN 4306. Comparative Economic Systems
    • ENGL/RUSS 3301. TOPICS IN RUSSIAN LITERATURE IN TRANSLATION
    • ENGL/RUSS 3306. TOPICS IN SOVIET AND POST-SOVIET LITERATURE IN TRANSLATION
    • ENGL 3361. HISTORY OF WORLD LITERATURE
    • ENGL 3362. HISTORY OF WORLD LITERATURE II
    • ENVR 4303. Topics in Sustainability
    • ENVR 4313. Environmental Regulation of Chemical Hazards
    • FREN 3305. FRENCH CULTURE AND CIVILIZATION
    • FREN 3312. FRENCH LITERATURE AND CULTURE II
    • FREN 3316. TOPICS IN CITIES OF FRANCE
    • FREN 4328. TOPICS TWENTIETH-CENTURY FRENCH STUDIES

• THEA 4310. MUSICAL THEATRE HISTORY

• Requirement 4: Capstone course (3 credit hours)
  • GLOBAL 4301 or an upper-level Maverick Advantage course with a Global Connections activity.

COURSES

GLOBAL 2301. INTRODUCTION TO GLOBAL ISSUES. 3 Hours.
Comparative perspectives on a broad range of cultural, linguistic, economic, political, and social issues confronting a globalized world today. Designed to draw attention to the multifaceted connections among nation-states, nongovernmental organizations, diverse ethnic, cultural and religious groups, and populations around the world.

GLOBAL 2315. INTRODUCTION TO LOCALIZATION AND LANGUAGE TECHNOLOGY. 3 Hours.
An introduction to localization and computational approaches to language and culture. Topics will include: computer-aided translation, machine translation, natural language processing, mining and semantic analysis of language data, machine learning/AI with natural language.

GLOBAL 3301. TOPICS IN INTERNATIONAL CULTURES AND CIVILIZATIONS I. 3 Hours.
Intensive study of a particular world region and/or culture including, but not limited to, its language, geography, history, arts, commerce, politics, and government. Focus on its uniqueness as a culture and its integral place in global society. Repeatable for credit as topic varies. No prerequisite. Recommend enrollment in GLOBAL 2301 concurrently or previously.
GLOBAL 3302. TOPICS IN INTERNATIONAL CULTURES AND CIVILIZATIONS II. 3 Hours.
Advanced study of a particular world region and/or culture including, but not limited to, its language, geography, history, arts, commerce, politics, and government. Emphasis on film, media, international communication, or other subjects of global study. Repeatable for credit as topic changes. No prerequisite. Strongly recommended: GLOBAL 2301 and GLOBAL 3301, concurrently or previously.

GLOBAL 3303. PUTINISM AND THE CULTURE OF RUSSIAN POLITICS. 3 Hours.
A course on Putinism as a governing system and incipient ideology in Russia. The course focuses on the cultural, historical, and biographical roots of Putinism as well as its sociological, institutional, and ideological foundations. The course also examines aspects of Putinism in practice, with a specific focus on the role of the Russian security services and organized crime. Prerequisite: ENGL 1301 with a grade of C or better.

GLOBAL 3310. LOCALIZATION AND TRANSLATION. 3 Hours.
Introduction to cultural and linguistic issues in the translation of language texts. Students will explore current technologies used in various real-world translation contexts and how to adapt texts, products, and services to the locale for which they are intended. Prerequisite: GLOBAL 3301 in the language under study or permission of the instructor.

GLOBAL 4301. RESEARCH IN GLOBAL STUDIES. 3 Hours.
This course examines multidisciplinary problems that fall within the scope of human rights and the UN's Sustainable Development Goals (SDGs). Students complete coursework which culminates in an original research project on a topic of their choice, which might involve novel approaches toward sustainability, food security, infrastructure, health, water conservation, sanitation, ecosystem resilience, urbanization, recycling, or other issues related to globalization. Students will investigate and propose solutions in the form of a proposal to carry out active field work in partnership with a non-governmental agency or non-profit organization working to promote sustainable global development. For students pursuing a minor or certificate in Global Studies, this course serves as their Capstone. Prerequisite: ANTH 2322, GLOBAL 2301, GLOBAL 3310, POLS 3302, or POLS 3304.

GLOBAL 4312. INTERCULTURAL COMPETENCE FOR GLOBAL COMMUNICATION. 3 Hours.
A study of the differences between the U.S. and other cultures of the world with a focus on the development of intercultural competence: verbal and non-verbal communication, interpersonal skills, effective management strategies, and professional etiquette in multicultural settings.

GLOBAL 4393. INTERNSHIP. 3 Hours.
This course is a combination of field-related experience in the business or service sector with an academic component. Coursework may include journal writing, outside readings, and formal presentations. Prerequisite: Two GLOBAL 3000 level courses and/or permission of the instructor.
History and Geography

Undergraduate Degrees

- Bachelor of Arts in History (http://catalog.uta.edu/liberalarts/history/undergraduate/#bachelorstext/#ba)
- Bachelor of Arts in History (Pre-Law Option) (http://catalog.uta.edu/liberalarts/history/undergraduate/#bachelorstext/#baprelaw)
- Bachelor of Arts in History with Secondary Social Studies Teacher Certification (http://catalog.uta.edu/liberalarts/history/undergraduate/#bachelorstext/#bateachercertification)
- Geography Minor (p. 947)
- Minor in History (p. 947)
- Minor in Military History (p. 947)
- Minor in History of Technology and Science (p. 947)

Graduate Degrees

- History, M.A. (p. 937)
- History, Ph.D. (p. 940)

Certificates

- Archival Administration Certificate (p. 943) (Graduate studies)
- History of Technology and Science Certificate (p. 949) (Undergraduate studies)

COURSES

GEOG 2301. PHYSICAL GEOGRAPHY. 3 Hours. (TCCN = GEOG 1301)
Survey of geographies of the natural environment and human-environment interactions with an emphasis on spatial patterns and processes.

GEOG 2302. HUMAN GEOGRAPHY. 3 Hours. (TCCN = GEOG 1302)

GEOG 2303. WORLD REGIONAL GEOGRAPHY. 3 Hours. (TCCN = GEOG 1303)
Survey of the geography of major world regions. Introduces global issues from a regional perspective with an emphasis on developing an understanding of the connections between and differences among world regions.

GEOG 3300. RESEARCH METHODS IN GEOGRAPHY. 3 Hours.
An introduction to geographic research that includes generating research questions, research design, methods of quantitative and qualitative data collection and analysis, and communication of research results. Prerequisite: GEOG 2302.

GEOG 3305. MAPS AND MAPMAKERS. 3 Hours.
A history of geography and cartography with an emphasis on the development of geographical ideas and mapmaking from antiquity to the modern era. Offered as GEOG 3305 and HIST 3305; credit will be granted only once.

GEOG 3310. GEOGRAPHY OF THE UNITED STATES AND CANADA. 3 Hours.
A survey of the geography of the United States and Canada. Includes environmental, cultural, economic, and political geographies with an emphasis on spatial patterns and processes.

GEOG 3315. GEOGRAPHY OF LATIN AMERICA AND THE CARIBBEAN. 3 Hours.
A regional survey of Latin American geography including Mexico, the Caribbean, Central America, and South America. Focuses on environmental, cultural, economic, political, and urban geographies with an emphasis on spatial patterns and processes.

GEOG 3320. GEOGRAPHY OF AFRICA. 3 Hours.
A survey of the human and physical geography of the whole continent of Africa. It assesses environmental, demographic, cultural, economic, and political geographies with an emphasis on spatial patterns and processes.

GEOG 3327. CITIES AND SUBURBS IN THE UNITED STATES. 3 Hours.
Explores the urban and suburban development of the United States from pre-colonial indigenous settlements to the present with an emphasis on the transformation of urban and suburban spaces over time and across regions. Attention to population, migration, land use, economics, politics, social and cultural identities, nature, and sustainability as factors in urban growth and change. Course taught as HIST 3327 and GEOG 3327. Credit will be granted only once.

GEOG 3334. HISTORICAL GEOGRAPHY OF NORTH AMERICA. 3 Hours.
Examines the intersection of the disciplines of geography and history including the creation of cultural landscapes, the spatial organization of human activities over time, and the interaction of humans with their environment over time with an emphasis on North America. Course taught as HIST 3334 and GEOG 3334. Credit will be granted only once.
GEOG 3336. ENVIRONMENTAL HISTORY OF THE UNITED STATES. 3 Hours.
People and the natural environment from the colonial period to the present. Ecological change, conservation movements, and artistic and literary interpretations of landscape and nature. Listed as GEOG 3336 and HIST 3336; credit will be granted only once.

GEOG 3337. AMERICA’S BORDERS AND BORDERLANDS. 3 Hours.
Covers the historical evolution of U.S. borders from independence to the present, and of the hybrid societies that have emerged along with them. Examines how borders have changed over time, and the people, commodities, ideas, and cultures, etc. that have crossed or straddled them. Particular attention is given to changing patterns of migration, border enforcement, and cultural hybridization, and the impact these have had on American society and politics. Offered as GEOG 3337 and HIST 3337; credit will be granted only once.

GEOG 3380. THE SPATIAL HUMANITIES. 3 Hours.
Introduction to the Spatial Humanities, including theory and methods concerning deep mapping, sense of place, and online open-source geospatial technology. Helps to develop an understanding of spatial and "palatial" thought and practice, drawing on perspectives found in literary, cultural, social, philosophical, linguistic, historical, artistic, dramatic, cinematographic, and media studies.

GEOG 4191. CONFERENCE COURSE. 1 Hour.
Topics assigned on an individual basis covering personal research or study in designated areas. Prerequisite: permission of the instructor.

GEOG 4291. CONFERENCE COURSE. 2 Hours.
Topics assigned on an individual basis covering personal research or study in designated areas. Prerequisite: permission of the instructor.

GEOG 4330. UNDERSTANDING GEOGRAPHIC INFORMATION SYSTEMS. 3 Hours.
A practical introduction to GIS and methods of creating, maintaining and displaying spatial data using the ArcGIS software. This course is offered as GEOL 4330 and GEOG 4330; credit will not be granted for both. Prerequisite: Junior standing.

GEOG 4331. ANALYSIS OF SPATIAL DATA. 3 Hours.
Analyzing spatial data using ArcGIS, Spatial Analyst, and 3-D Analyst, topological surface analysis and modeling; 3-D visualization and viewscapes; spatial statistics and data quality management. Course taught as GEOL 4331 and GEOG 4331. Credit will be granted in only one department. Prerequisite: GEOL 4330 or GEOG 4330.

GEOG 4332. GLOBAL POSITIONING SYSTEM. 3 Hours.
Review of the NAVSTAR Global Positioning System and its segments: space, operational control, and GPS receivers. Mechanics of the satellite constellation; GPS signal structure; datums and coordinate systems; precision and accuracy; error factors; absolute (point) versus relative (differential) positioning. Various positioning techniques using several types of GPS receivers; field data collection and input into GIS programs for data analysis and presentation. Course taught as GEOL 4332 and GEOG 4332. Credit will be granted in only one department. Prerequisite: GEOL 4330 or GEOG 4330.

GEOG 4333. REMOTE SENSING FUNDAMENTALS. 3 Hours.
The electromagnetic spectrum and the interaction of EM waves with matter; various types of sensing devices; spectral and spatial resolution parameters; airborne and satellite sensor platforms; aerial photographs and false-color images. The sequence of data acquisition, computer processing, and interpretation; sources of data; the integration of remote sensing data with other data types in GIS. Course taught as GEOL 4333 and GEOG 4333. Credit will be granted in only one department. Prerequisite: GEOL 4330 or GEOG 4330.

GEOG 4334. GEOGRAPHIC DATA ANALYSIS. 3 Hours.
Acquisition, processing and analysis of a set of spatial data selected by the student with approval of the instructor. A written report of the results is required. Course taught as GEOL 4334 and GEOG 4334. Credit will be granted in only one department. Prerequisite: GEOL 4330 or GEOG 4330; or cons. inst.

GEOG 4340. GEOGRAPHIES OF FILM. 3 Hours.
An exploration of film geographies with a focus on cinema as both a topic and a method for geographical representation, analysis, and learning.

GEOG 4341. IMAGES OF THE SOUTHWEST BORDERLANDS. 3 Hours.
Examines the changing culture, architecture, and landscapes of the American Southwest as depicted in literature, art, film, television, and advertising, including the role of popular culture and commerce in creating and marketing a regional “Southwestern style.” Offered as GEOG 4341 and HIST 4341; credit will be granted only once.

GEOG 4350. SPECIAL TOPICS IN MODERN GEOGRAPHY. 3 Hours.
Selected topics in an identified area of geography. The course may be repeated for credit.

GEOG 4391. CONFERENCE COURSE. 3 Hours.
Topics assigned on an individual basis covering personal research or study in designated areas. Prerequisite: permission of the instructor.

GEOG 5330. UNDERSTANDING GEOGRAPHIC INFORMATION SYSTEMS. 3 Hours.
A practical introduction to GIS and methods of creating, maintaining and displaying spatial data using the ArcGIS software. This course is offered as GEOL 5330 and GEOG 5330; credit will not be granted for both.

GEOG 5331. ANALYSIS OF SPATIAL DATA. 3 Hours.
Analyzing spatial data using ArcGIS, Spatial Analyst, and 3-D Analyst, topological surface analysis and modeling; 3-D visualization and viewscapes; spatial statistics and data quality management. Course taught as GEOL 5331 and GEOG 5331. Credit will be granted in only one department.
GEOG 5334. GEOGRAPHIC DATA ANALYSIS PROJECT. 3 Hours.
Acquisition, processing and analysis of a set of spatial data selected by the student with the approval of the instructor. A written report of the results is required. Offered as GEOL 5324 and GEOG 5334. Credit will not be given for both. Prerequisite: GEOL 5320, or GEOL 4330 or GEOG 4330, or cons. inst.

COURSES

HIST 1301. HISTORY OF THE UNITED STATES TO 1865. 3 Hours. (TCCN = HIST 1301)
An introduction to the political, social, economic, and cultural history of the United States prior to 1865. This course is designed to help students understand and evaluate their society, comprehend the historical experience, and further develop reading and writing competencies and critical skills. Prerequisite: completion of or concurrent enrollment in ENGL 1301.

HIST 1302. HISTORY OF THE UNITED STATES, 1865 TO PRESENT. 3 Hours. (TCCN = HIST 1302)
An introduction to the political, social, economic, and cultural history of the United States since 1865. This course is designed to help students understand and evaluate their society, comprehend the historical experience, and further develop reading and writing competencies and critical skills. Prerequisite: completion of or concurrent enrollment in ENGL 1301.

HIST 1331. TECHNOLOGY AND SCIENCE IN AMERICAN SOCIETY, I. 3 Hours.
An introduction to the major scientific discoveries and technological innovations that influenced the development of American society and culture from the pre-colonial period to the Civil War era. This course satisfies the University of Texas at Arlington core curriculum requirement in U.S. History.

HIST 1332. TECHNOLOGY AND SCIENCE IN AMERICAN SOCIETY, II. 3 Hours.
An introduction to the major scientific discoveries and technological innovations that have influenced American society and culture from the era of the Civil War to the present. This course satisfies the University of Texas at Arlington core curriculum requirement in U.S. History.

HIST 2311. WESTERN CIVILIZATION TO 1500. 3 Hours. (TCCN = HIST 2311)
An introductory survey of the ideas, beliefs, cultures, and institutions that have influenced the development of Western civilization from the ancient world to the early sixteenth century. Examines achievements and experiences of great civilizations, emphasizing major historical figures and epochs, important ideas and religions, and factors of continuity and change.

HIST 2312. WESTERN CIVILIZATION, 1500 TO THE PRESENT. 3 Hours. (TCCN = HIST 2312)
An introductory survey of the ideas, beliefs, cultures, and institutions that have influenced the development of Western civilization from the early sixteenth century to the present day with a particular focus on major trends such as exploration, industrialization, nationalism, the rise of political ideologies, and the process of globalization.

HIST 2313. HISTORY OF ENGLAND. 3 Hours.
The history of Britain from prehistoric times to 1688. The development of English laws and institutions. Required of all pre-law majors.

HIST 2314. HISTORY OF ENGLAND. 3 Hours.
British history from 1688 to the present. The growth of English laws and institutions. Required of all pre-law majors. HIST 2313 is not a prerequisite for this course.

HIST 2321. WORLD HISTORY TO 1400. 3 Hours.
An introduction to World History from the first human settlements to the late fifteenth-century Age of Exploration and Encounters. Introduces students to the historical forces that shaped the pre-modern world.

HIST 2322. WORLD HISTORY, 1400 TO THE PRESENT. 3 Hours.
An introduction to World History from the late fifteenth century to the present with a particular focus on major trends such as industrialism, nationalism, imperialism, socialism, and the more complex problems and conflicts of the present. Introduces students to the historical forces that have shaped the modern world.

HIST 2377. FLIGHT CULTURE AND THE HUMAN EXPERIENCE. 3 Hours.
An interdisciplinary, cross-cultural survey of the origins, development, and representation of human flight from the ancient world to the present.

HIST 3300. INTRODUCTION TO HISTORICAL RESEARCH. 3 Hours.
Introduction to the methods that historians use to conduct research and present their findings in written and oral form. Required for history majors. This course also satisfies the requirements for UNIV 1101.

HIST 3301. TECHNOLOGY, CULTURE, & SOCIETY. 3 Hours.
An investigation of the interaction between technological development, social and cultural change between the eighteenth-century Industrial Revolution and the unfolding Information Revolution of the present day. History majors may use the course to meet either their US or non-US course requirements.

HIST 3303. HISTORY OF VIDEO GAMES. 3 Hours.
A wide-ranging investigation of the development and growth of video games and the gaming industry from the origins of electronic computing to the present day. Students will be expected to play classic games (in emulation) as part of their weekly course preparations.

HIST 3305. MAPS AND MAPMAKERS. 3 Hours.
A history of geography and cartography with an emphasis on the development of geographical ideas and mapmaking from antiquity to the modern era. Offered as GEOG 3305 and HIST 3305; credit will be granted only once.
HIST 3306. HISTORY AND FILM. 3 Hours.
Using historically-themed films, this course explores the ways in which the dramatic design of film can contribute to an understanding of history. Specific topic varies. May be repeated twice if topics differ.

HIST 3307. U.S. DISABILITY HISTORY. 3 Hours.
Examines the history of ideas about disability, the historical lives of people with disabilities, and the history of disability policy. The growth of asylums, the rise of the eugenics movement, a historical look at freak shows, the impact of industrialization on experiences of disability, the evolution of special education, the role of ideas about disability in colonialism, the historical treatment of disabled veterans, and the development of the disability rights movement. Offered as HIST 3307 and DS 3307; credit will only be granted once. Prerequisite: HIST 1301 and HIST 1302.

HIST 3308. HISTORY OF MADNESS. 3 Hours.
Examines insanity in its social and historical contexts through the prisms of class, race, gender, and disability from the birth of the asylum in the eighteenth century to contemporary debates about depression and psychopharmacology. Focuses on madness and psychiatry in the Global North, with comparisons to the Global South. Offered as HIST 3308 and DS 3308; credit will be granted in only one department.

HIST 3309. HEALTH AND INCARCERATION. 3 Hours.
Examines how health issues, broadly defined, have pervaded carceral institutions and experiences from the birth of the prison and rise of the modern penitentiary in the eighteenth and nineteenth centuries to contemporary debates about penal reforms and prison abolition. Focuses on incarceration in the Americas, and to a lesser extent Europe, with comparisons to Africa and Asia.

HIST 3310. AMERICAN COLONIAL ERA TO 1763. 3 Hours.
Considers early American history within a continental and an international perspective that emphasizes conflicts between colonists and Indian peoples, the relationship between American freedom and slavery, and the growth of the British Empire in North America. Topics include religion and culture, immigration and ethnicity, and government and politics. Students will read both recent historians' works and examine primary documents from the colonial era.

HIST 3311. THE AMERICAN REVOLUTION AND THE CONSTITUTION, 1763-1789. 3 Hours.
The origins of the American Revolution, the transformation of American politics and society during the Revolutionary era, and the establishment of the new national government under the Constitution. Special topics include the development of law, civilian-military relations, slavery and race relations, and women's social experience.

HIST 3312. DEMOCRACY IN AMERICA. 3 Hours.
Over the past two hundred years, the United States has experienced a steady increase in the democratization of its politics, society and culture. This course will trace the origins and development of the democratic movement, and examine the extent to which it has empowered American citizens from the Jacksonian Era to the 21st century's Information Age.

HIST 3314. CIVIL WAR AND RECONSTRUCTION. 3 Hours.
The background and causes of secession and the Civil War, the organization of the Confederate States of America, the progress of the war, and the attempts to solve the racial, social, political, and economic problems of the post-war period. Offered as AAST 3314 and HIST 3314; credit will be granted in only one department.

HIST 3316. TECHNOLOGY AND INNOVATION IN MODERN AMERICA. 3 Hours.
The technological revolutions of World War I, the 1920s, the Great Depression, and World War II.

HIST 3317. CONTEMPORARY AMERICA, 1945-PRESENT. 3 Hours.
An examination of American society, politics, and culture since the end of World War II. The origins, life, and legacy of the Cold War, the Vietnam conflict, the Civil Rights Movement, student unrest and the growth of the New Left, the impact of Richard Nixon and subsequent presidents on American politics, the rise and consequence of the internet, and America entering the 21st century.

HIST 3320. AMERICAN INDIAN HISTORY. 3 Hours.
Representative Indian tribes within the continental limits of the United States from pre-history to the contemporary period. Special topics: tribal cultures, the impact of European contact, and the colonial and United States Indian policies.

HIST 3321. MEXICAN-AMERICAN HISTORY. 3 Hours.
The role of the Mexican American in the cultural and historical development of the United States with special emphasis on the Southwest. Offered as HIST 3321 & MAS 3321; credit will be granted only once.

HIST 3322. AFRICAN AMERICAN HISTORY TO 1863. 3 Hours.
History of blacks in America from their African origins to 1863. Emphasis on early African society, American slavery, and the development of black institutions and culture in the U.S. Offered as AAST 3322 and HIST 3322; credit will be granted in only one department.

HIST 3323. AFRICAN AMERICAN HISTORY SINCE EMANCIPATION. 3 Hours.
Emphasis on the transition from slavery to freedom and the political, social, and economic status of blacks in the late 19th century, 20th century black institutions and culture, and the evolution of the civil rights movements. Offered as AAST 3323 and HIST 3323; credit will be granted in only one department.

HIST 3324. U.S. WOMEN'S HISTORY. 3 Hours.
An examination of women in US politics, work and society from the colonial era to the present. Offered as HIST 3324 and GWSS 3324; credit will be granted only once.
HIST 3325. IMMIGRATION IN UNITED STATES HISTORY. 3 Hours.
Immigration to the United States from the arrival of European colonists to the present. An examination of different forms of migration—voluntary and involuntary, temporary and permanent, legal and illegal. Explores the similarities and differences between the experiences of various immigrant groups. Particular attention to the shifting definitions of race, ethnicity, and citizenship, and the impact of immigrants on society and politics in the United States. Prerequisites: HIST 1301 and HIST 1302.

HIST 3326. TWENTIETH-CENTURY AMERICAN CULTURAL HISTORY. 3 Hours.
The development of mass culture in 20th century America. The rise and social effects of popular culture, especially radio, film, television, advertising, and popular music.

HIST 3327. CITIES AND SUBURBS IN THE UNITED STATES. 3 Hours.
Explores the urban and suburban development of the United States from pre-colonial indigenous settlements to the present with an emphasis on the transformation of urban and suburban spaces over time and across regions. Attention to population, migration, land use, economics, politics, social and cultural identities, nature, and sustainability as factors in urban growth and change. Course taught as HIST 3327 and GEOG 3327. Credit will be granted only once.

HIST 3328. RACE, REPRESENTATION, AND THE MOVIES. 3 Hours.
This course examines the history of race and representation among black Americans in the United States through films, short clips, and documentaries. Offered as HIST 3328 and AAST 3328; credit will be granted only once.

HIST 3330. U.S. LEGAL AND CONSTITUTIONAL HISTORY, COLONIAL TO 1877. 3 Hours.
Traces the adaptation of laws to changing social and economic needs with emphasis on the interrelations of law, public opinion, the legal profession, judiciary, and the political process. Topics include the transatlantic origins of American law, slavery and indentured servitude, poor laws and dependency, family law and gender, developments in criminal and civil law, and the failure of Reconstruction.

HIST 3331. U.S. LEGAL AND CONSTITUTIONAL HISTORY, 1877 TO PRESENT. 3 Hours.
Traces the adaptation of laws to changing social and economic needs with emphasis on the interrelations of law, public opinion, the legal profession, judiciary, and the political process. Topics include civil rights, disability and the law, education, abortion, the death penalty, healthcare and social welfare, gun rights, eugenics, family law, and the impact of personality on judicial decision-making.

HIST 3334. HISTORICAL GEOGRAPHY OF NORTH AMERICA. 3 Hours.
Examines the intersection of the disciplines of geography and history including the creation of cultural landscapes, the spatial organization of human activities over time, and the interaction of humans with their environment over time with an emphasis on North America. Course taught as HIST 3334 and GEOG 3334. Credit will be granted only once.

HIST 3336. ENVIRONMENTAL HISTORY OF THE UNITED STATES. 3 Hours.
People and the natural environment from the colonial period to the present. Ecological change, conservation movements, and artistic and literary interpretations of landscape and nature. Listed as GEOG 3336 and HIST 3336; credit will be granted only once.

HIST 3337. MILITARY HISTORY OF THE UNITED STATES. 3 Hours.
U.S. military history from the colonial period to the present. The role of the military establishment in the nation, the historical evolution of its organization, and the basic strategic and tactical concepts which it has employed.

HIST 3338. HISTORY OF AMERICAN CAPITALISM, 1607-PRESENT. 3 Hours.
Covers business and economic history in the North American colonies and the United States from 1607 to the present. Topics include slavery, trade, agriculture, industry, government actions and legislation, and the experiences of people from all walks of life. The course will also explore financial downturns and the causes of those so that students develop an understanding of what causes our economy to be “good” or “bad.” Previously offered as HIST 3372 and HIST 3373; credit will only be granted once.

HIST 3340. HISTORY OF THE NORTH AMERICAN WEST. 3 Hours.
An introduction to the history of the North American West and the unique migration patterns, cross-cultural interactions and conflicts, and human-environmental relationships that have defined life in this region over time.

HIST 3342. THE OLD SOUTH, 1607-1863. 3 Hours.
Colonial origins of plantation agriculture, slavery, economics, King Cotton, politics and secession. Other topics include slave cultures, religion, slave insurrections, plantation lifestyle, honor, dueling and southern belles. Offered as AAST 3341 and HIST 3342; credit will be granted in only one department.

HIST 3343. THE NEW SOUTH, 1863-PRESENT. 3 Hours.
From military defeat to Sun Belt growth. Topics include Reconstruction, segregation, migration of Southerners to the North and West, depressions, reforms, Civil Rights, Moral Majority, cultural expressions in literature and music. Offered as AAST 3343 and HIST 3343; credit will be granted in only one department.

HIST 3345. TEXAS TO 1850. 3 Hours.
Multicultural heritage of Texas from pre-Colombian period to early statehood. Cultural contact; social, economic, and political change. Completion of either HIST 3345 or HIST 3346 is recommended for those planning to teach in Texas schools. Offered as HIST 3345 and MAS 3363; credit will be granted in only one department.
HIST 3346. TEXAS SINCE 1845. 3 Hours.
Texas in the Mexican-American and Civil Wars. Political events and ethnic relations since annexation. Rise of cotton, cattle, and oil industries. Literature and music in the 20th century. Completion of either HIST 3345 or HIST 3346 is recommended for those planning to teach history in Texas secondary schools. Offered as HIST 3346 and MAS 3364; credit will be granted in only one department.

HIST 3347. AMERICA'S BORDERS AND BORDERLANDS. 3 Hours.
Covers the historical evolution of U.S. borders from independence to the present, and of the hybrid societies that have emerged along with them. Examines how borders have changed over time, and the people, commodities, ideas, and cultures, etc., that have crossed or straddled them. Particular attention is given to changing patterns of migration, border enforcement, and cultural hybridization, and the impact these have had on American society and politics. Offered as GEOG 3347 and HIST 3347; credit will be granted only once.

HIST 3348. HISTORY OF THE DALLAS-FORT WORTH METROPLEX. 3 Hours.
The growth and development of Dallas and Fort Worth from competitive 19th-century trade centers in a rural setting to cooperative high-tech cities in a rapidly urbanizing metropolis. Political, economic, cultural, and spatial changes of this area are explored within a national urban context.

HIST 3350. ANCIENT GREECE. 3 Hours.
The origins, development and diversity, successes and failures of Ancient Greece from around 1500 to 31 B.C. Near Eastern and Bronze Age background; Archaic Age and the City State; Sparta and Athens; war and imperialism; democracy and culture; Alexander the Great and the Hellenistic Era.

HIST 3351. ANCIENT ROME. 3 Hours.
The origin, development, expansion, problems, and achievements of the Roman Republic and Empire. Roots and rise of Rome; Roman Imperialism; Republic and Revolution; Roman Empire, Emperors, and Peace; Paganism and Christianity; Late Empire.

HIST 3352. MEDIEVAL EUROPE I. 3 Hours.
The rise of new states and cultures in western Europe and Byzantium after the Roman Empire's breakdown; institutional Christianity and the medieval papacy; foundation of the Holy Roman Empire; Islam at Europe's borders.

HIST 3353. MEDIEVAL EUROPE II. 3 Hours.
The formation of national, religious, and ethnic identities in Europe; intellectual developments associated with universities and new religious movements; the expansion of Europe's borders; and the confrontation of Western Christianity with Islam.

HIST 3354. THE RENAISSANCE. 3 Hours.
The political, social, and intellectual events of the Renaissance period. The rise of the modern state, the emergence of individualism, and the incipient secularization of politics, arts, and letters.

HIST 3355. EUROPE: THE REFORMATION AND COUNTER-REFORMATION. 3 Hours.
The religious reawakening and reform that swept Europe in the 16th century with its consequent religious wars. The political effects of religious reform in the remaking of European attitudes in regard to politics, society, and religion.

HIST 3356. EARLY MODERN EUROPE, 1560-1715. 3 Hours.
The major social, economic, cultural, and political developments that occurred in the major European countries from the end of the Counter-Reformation to the early eighteenth century.

HIST 3357. MILITARY REVOLUTION. 3 Hours.
Changes in European art of war from advent of gunpowder to American rebellion. Effects of these changes upon demography, political institutions, industrial production, social structure, and taxation patterns.

HIST 3360. NINETEENTH-CENTURY EUROPE, 1789-1914. 3 Hours.
This course focuses on the political, cultural, social, and intellectual developments that shaped the European continent's "long" nineteenth century. Beginning with the dawn of modern politics in the salons and streets of revolutionary Paris and concluding with cultural crises that prefigured War in the summer of 1914, it examines in detail how European political and cultural forms came to dominate the globe during the nineteenth century while setting the stage for European decline in the first decades of the twentieth.

HIST 3361. TWENTIETH-CENTURY EUROPE, 1914-1991. 3 Hours.
This course introduces students to major developments in continental European history from the outbreak of World War I to the present time. Topics include: the First and Second World Wars and the ensuing Cold War confrontation between Communism and Democracy; the mechanisms of differing forms of dictatorial rule including Fascism, Nazism, and Stalinism; recurrent waves of democratization; and more recent efforts toward European integration.

HIST 3362. TUDOR-STUART ENGLAND, 1485-1714. 3 Hours.
The legacy of the Wars of the Roses: the so-called new monarchy of the Tudors; The Protestant Reformation in England; constitutional implications of the controversy between crown and Parliament; changes in family and social structures; the emergence of England as a world power.

HIST 3363. EARLY MODERN BRITAIN. 3 Hours.
Survey of early modern British history from the rise of the Tudor dynasty in 1485 until the Glorious Revolution of 1688. Topics include the War of the Roses, the Tudor and Stuart eras, the Protestant Reformation, the English Renaissance, the age of exploration, the origins of the British Empire, the English Civil War, the Glorious Revolution, the social history of Britain, the history of gender and sexuality, as well as the ways in which the histories of England, Ireland, Scotland, and Wales were interconnected in the early modern period.
HIST 3364. MODERN BRITAIN. 3 Hours.
Survey of modern British history from the Glorious Revolution of 1688 until the present. Includes the Georgian era, the industrial revolution, the history of slavery and abolition, the Victorian period, the history of gender and sexuality, the expansion of the British Empire, the history of race and ethnicity, the history of Ireland, the outbreak and legacies of World War One and World War Two, the rise of the welfare state, decolonization, Thatcherism, as well as Brexit and the history of Britain's relationship with Europe.

HIST 3365. EARLY FRANCE: OLD REGIME AND REVOLUTION, 1610-1799. 3 Hours.
Society and politics from the assassination of Henry IV to Napoleon. The traditions of the French people and their kings, the splendor and misery of the Age of Louis XIV, the Enlightenment of Voltaire and Rousseau, the coming of the Revolution, the Reign of Terror, and the rise of Napoleon.

HIST 3366. MODERN FRANCE, 1799-PRESENT. 3 Hours.
From Napoleon to the emergence of a modern democratic state. Social and cultural trends together with the politics of two monarchies, two empires, five republics, and two German occupations. The acceleration of change in recent decades in contrast with earlier social patterns.

HIST 3367. GERMANY IN THE WORLD, 1815-1918. 3 Hours.
Prussian, German, and Hapsburg empires. Feudal society, absolutism, German romanticism, democratization, industrialization. The challenges of nationalism, colonialism, and the collapse of the empires.

HIST 3368. GERMANY AND THE WORLD, 1918-PRESENT. 3 Hours.
Social, political, and cultural history of Germany through World War I and II, division of Germany into East and West, and ultimate unification.

HIST 3369. HISTORY OF SPAIN AND PORTUGAL. 3 Hours.
Survey of the history of the Iberian peninsula from ancient times through the great upheavals of the 20th Century. Topics include paleolithic settlement, the arrival of new groups (Celts, Greeks, Phoenicians), the Roman imperium, Visigothic rule, Islamic conquest and Christian reconquest, the birth and death of religious toleration, medieval kingdoms and their unification, the rise and fall of Portuguese and Spanish global empires, and the troubled 20th Century (Portugal's authoritarian regime, Franco and fascism, the Spanish Civil War), and finally, the emergence of stable democratic societies.

HIST 3371. THE RUSSIAN EMPIRE 1552-1917. 3 Hours.
The political, social, and cultural impact of Russian imperial rule between the sixteenth and twentieth centuries; interactions between the Russian state and non-Russian nationalities during the successive stages of the Russian expansion; the Siberian frontier in the 16th and 17th centuries; the "Western Borderlands" (Eastern Europe) from the 18th century on; the Russian presence in the Caucasus and Central Asia in the 19th century. Special focus on the structure and functioning of Russian imperial institutions; types of contact between Russians and non-Russians (strategies of conquest, resistance, forms of collaboration); and the production of culture and knowledge in the service of the Russian empire.

HIST 3372. THE SOVIET UNION, 1917-1991. 3 Hours.
The history of the Soviet Union from its birth as a utopian experiment in October 1917 to its final collapse, under the weight of institutionalized corruption, bureaucratic inertia, and political repression, in December 1991. Incorporating original documents, creative works, and artifacts of popular culture, the course examines the nature and evolution of Soviet political life as well as the social structures and cultural forms that shaped the Soviet experience.

HIST 3374. EAST CENTRAL EUROPE AND THE MODERN WORLD. 3 Hours.
An examination of the eastern regions of the European continent and their relationship with the broader world between the eighteenth century and the present. Focus on ideological "making" of Eastern Europe in 18th century; the region's role in globalization; travels and exchanges between Eastern Europe and the rest of the world; imperial experiences and legacies; Eastern Europe's economic "catching up" with the West; the role of Eastern Europe in relations with Western Europe, USSR, US and the "Third World" during the Cold War and experiences behind the iron curtain.

HIST 3375. LATIN AMERICAN HISTORY: ORIGINS THROUGH INDEPENDENCE. 3 Hours.
Latin America during the colonial period of Spanish and Portuguese rule. Pre-European civilizations; Iberian backgrounds; conquest of indigenous peoples; development of colonial institutions, economic patterns, social structures, and race relations; independence from Europe. Offered as MAS 3375 and HIST 3375; credit will be granted in only one department.

HIST 3376. LATIN AMERICAN HISTORY: POST-INDEPENDENCE TO THE PRESENT. 3 Hours.
The evolution of six Latin American nations during the 19th and 20th centuries. The social, economic, and political development of three social groups in three regions: the Europeanized southern cone area of Argentina, Chile, and Uruguay; the indigenous culture of the Andean mountains in Peru; the African background of Brazil and Cuba. Offered as MAS 3376 and HIST 3376; credit will be granted in only one department.

HIST 3377. HISTORY OF MEXICO. 3 Hours.
Mexican history from its pre-Colonial indigenous foundation to the current situation. A social and economic analysis of the major events in Mexican history with emphasis on the 19th and 20th centuries. The major theme in this class is the growth of Mexican nationalism and its relation to region, religion, and ethnicity. Offered as HIST 3377 and MAS 3377; credit will only be granted in one department.

HIST 3378. HISTORY OF THE CARIBBEAN. 3 Hours.
A comparative history of the different societies in the Caribbean (including Cuba, Jamaica, and Haiti) with emphasis on the coming of slavery and the consequences of emancipation. Traces the development of emerging new societies from intermingling of Amerindian, African and European elements. Offered as AAST 3378 and HIST 3378; credit will be granted in only one department.

HIST 3385. AFRICAN HISTORY I. 3 Hours.
Examines African prehistory, ancient civilizations, religion, gender issues, slavery, and commerce in precolonial Africa. Offered as AAST 3385 and HIST 3385; credit will be granted in only one department.
HIST 3386. AFRICAN HISTORY II. 3 Hours.
Africa from the "Scramble for Africa" through the establishment of the various colonial systems, through the beginnings of African nationalism, to the contemporary period. The African Revolution and the development of the independent African states. Offered as AAST 3386 and HIST 3386; credit will be granted in only one department.

HIST 3390. HONORS COLLOQUIUM. 3 Hours.
A multidisciplinary course designed to meet the needs of advanced undergraduates in the Honors College.

HIST 3391. MOOT COURT. 3 Hours.
Students will develop an understanding of legal debate and legal history through the study of constitutional law and legal research methods in preparation for simulated oral arguments before the Supreme Court of the United States. Attendance at statewide competitions required. May be repeated for total of 6 hours credit. This course does not satisfy distribution requirements.

HIST 3392. ARCHIVES AND THE ARCHIVES PROFESSION. 3 Hours.
This course provides an overview of the archival profession and the work that archivists do. Students develop an understanding of the historical development of the field of archives and learn about current issues, trends, and theories that are shaping the profession. Students also study the role of the archivist and the use of archives and historical collections by a range of users and become familiar with the theoretical considerations that underlie the core functions of archival administration. The course explores the legal and ethical responsibilities of archivists, as well as the codes of conduct and ethics that have been developed and debated within the profession. Students gain an understanding of how new technologies and digital records are shaping the way that archivists do their work and the skills they must develop to perform core archival functions with digital records.

HIST 3395. SELECTED TOPICS IN HISTORY. 3 Hours.
Subjects of immediate interest in the various fields of history. May be repeated for credit when the topic changes.

HIST 4191. UNDERGRADUATE CONFERENCE COURSE. 1 Hour.
Topics assigned on an individual basis covering personal research or study in designated areas with tenure-track/tenured faculty. Course may be repeated for credit once with a change in faculty. Prerequisite: Prior completion of an organized course with the intended conference faculty member, plus prior approval of the instructor and the undergraduate advisor. The faculty member may petition for the student's exemption from these prerequisites.

HIST 4291. UNDERGRADUATE CONFERENCE COURSE. 2 Hours.
Topics assigned on an individual basis covering personal research or study in designated areas with tenure-track/tenured faculty. Course may be repeated for credit once with a change in faculty. Prerequisite: Prior completion of an organized course with the intended conference faculty member, plus prior approval of the instructor and the undergraduate advisor. The faculty member may petition for the student's exemption from these prerequisites.

HIST 4302. WOMEN AND WORK IN TRANSATLANTIC PERSPECTIVE. 3 Hours.
Examines the history of women and work, both waged and nonwaged, in Europe and the Americas, including the United States. Highlights differences within women's work cultures as well as variation in women's employment opportunities and their efforts to achieve equality with men in the workplace, by ethnicity, region, and nation. Offered as HIST 4302 and GWSS 4302; credit will be granted only once.

HIST 4303. HISTORY OF ENGINEERING. 3 Hours.
The history of engineering from the ancient world to the present including: ancient and medieval technology and machines, experimentation and machine building in the era of the Scientific Revolution and Enlightenment, revolutions in industry and the Age of Synergy, World War II and the Cold War, engineering the modern consumer society, and engineering in the age of Big Science. Particular focus is paid to the political and social contexts of the rise and development of professional engineering, the role of engineers and engineering in shaping the modern world, engineering ethics, and cultural representations of engineers and engineering projects.

HIST 4304. REVOLUTIONS AND REVOLUTIONARIES IN HISTORY. 3 Hours.
A historical examination of the world's major revolutions, from the 16th through the 20th centuries.

HIST 4306. INTERCULTURAL TRANSFERS IN HISTORY. 3 Hours.
Recognizing the interconnectedness of the human experience in history, this class focuses on the transfers that occurred between cultures and societies during the last three centuries. Transfers occurred in all spheres of public life and contributed to the formation of modern societies and states.

HIST 4307. HISTORY OF MEDICINE. 3 Hours.
The history of medicine from the eighteenth century to the present including: pre-scientific medical beliefs and practices, the germ theory of disease, medical institutions, and the rise of the modern health care industry.

HIST 4308. GLOBAL HISTORY OF PHILANTHROPY. 3 Hours.
An examination of the historical development and dominant institutional forms of philanthropy and non-profits across the globe including foundations, endowments, voluntary associations, limited dividend companies, and cooperatives.

HIST 4309. SOCIAL DARWINISM AND EUGENICS. 3 Hours.
Examines the history of Social Darwinism, global spread of eugenic theory and practice, and history of genetics and gene manipulation. Topics may include debates over assisted suicide as well as links to disability, race, and gender.
HIST 4311. CRIME, PUNISHMENT, AND EXILE. 3 Hours.
Examines the relationships among crime, punishment, and exile from cross-cultural and global perspectives from the eighteenth through the twentieth century. Focuses on penal colonies, the rise of the human sciences, prisons as sites of expulsion within countries, and interdisciplinary narratives in the Americas, Europe, Africa, Asia, and Australia.

HIST 4312. WAR & SOCIETY. 3 Hours.
Examination of the relationship between wars and the societies that fight them. Focuses on three elements: how societies mobilize for, fight, and remember wars. Course subject varies and could focus on specific wars, time periods and nations.

HIST 4313. SMALL WARS & INSURGENCIES. 3 Hours.
An investigation of the nature, evolution, execution, and consequences of small wars and insurgencies from the ancient world to modern day, this course utilizes historical case studies from global and US contexts to examine differing doctrinal approaches and strategic concepts regarding "special warfare".

HIST 4319. NATIVE AMERICANS, SCIENCE AND TECHNOLOGY. 3 Hours.
This course examines the relationship between Indigenous peoples, science, and technology from the pre-colonial period to the present. Case studies drawn from the Americas and Pacific Islands explore Native innovations and adaptations in agricultural engineering, transportation, weaponry, healing and medicine, and communication.

HIST 4320. RADICALISM IN MODERN AMERICA. 3 Hours.
An examination of the various movements that sought to radically alter the political and economic structure of the United States in the decades since the Civil War. This course examines the development of and differences between revolutionary movements such as anarchism, socialism, communism, and the New Left. Particular attention is given to the circumstances that gave rise to radical movements, the goals of these movements, how they attempted to achieve their goals, and the impact that they had on American society. Prerequisites: HIST 1301 and HIST 1302.

HIST 4321. WORK AND PLAY IN THE USA. 3 Hours.
Examines changing ideas and practices of work and leisure from colonial America to post-industrial society. Discusses how work and leisure rights developed according to social lines of class, gender, and race, and examines the impact of shifts in capitalist, industrial and consumer economies on those rights.

HIST 4324. NATIVE AMERICAN WOMEN. 3 Hours.
This course explores how settler colonialism affected Native women in particular ways from the late eighteenth century to the present. Topics include gender roles, kinship organization, women's work and economic activities, political and diplomatic roles, and everyday lives and relationships.

HIST 4325. HISTORY OF HIP HOP. 3 Hours.
Focused study of the origins and development of Hip Hop as an artistic genre and political and cultural movement. Topics include deejaying, emceeing, sampling and other musical techniques as well as issues of ethnic and other identities, commercialism, capitalism, cultural appropriation, and authenticity. Offered as HIST 4325 and AAST 4325; credit will be granted only once.

HIST 4326. TOPICS IN DISABILITY HISTORY. 3 Hours.
Special topics of interest in disability history, such as disability history in global perspective; hard-of-hearing histories, deaf histories, and Deaf History; or disability in the global South. May be repeated for credit when the topic changes. Offered as DS 4326 and HIST 4326; credit will be granted in only one department. Prerequisite: HIST 1301, HIST 1302.

HIST 4327. CYBORGS AND PROSTHETICS. 3 Hours.
Explores the history, theories, and evolving representations of prosthetics, bionics, cyborgism, and the post-human. Investigates the origins and development of the prosthetics industry, historical experiences of prosthetics users, and cultural depictions and debates about human-technology interactions. Offered as DS 3327 and HIST 4327 and previously as DS 3321 and HIST 4388; credit will only be granted once.

HIST 4328. NATIVE AMERICANS IN POPULAR CULTURE. 3 Hours.
An examination of popular stereotypes of Native Americans and the manner in which these images and portrayals have effected US policy and changing perceptions of Native Americans over time. The course explores a range of visual and written media including art, film, social media, comics, hip hop, super heroes, and sports mascots.

HIST 4330. GREAT ANGLO-AMERICAN TRIALS. 3 Hours.
The historical development of criminal trial procedure in Britain and the United States: arrest and detention procedures; the roles of judge and jury; press coverage; political implications of celebrated and notorious cases.

HIST 4331. U.S. CIVIL LIBERTIES. 3 Hours.
The historical origins of individual liberties in the United States. Topics include Bill of Rights freedoms and histories of case law relating to speech, privacy, and religion.

HIST 4332. PRESIDENTIAL PERSONALITY. 3 Hours.
This course will examine in their historical contexts the dynamics of presidential behavior, personality and leadership. A select number of chief executives will be reviewed, whose backgrounds, careers, and management styles will enable students to understand the extent and limits of presidential power.

HIST 4333. COMPARATIVE CIVIL RIGHTS HISTORY. 3 Hours.
Explores the U.S. civil rights movement from a comparative perspective, exploring the African American civil rights movement, Chicano movement, women's liberation movement, gay liberation, and disability rights movement. Offered as AAST 4333 and HIST 4333; credit will be granted in only one department.
HIST 4340. HOLLYWOOD AND THE WEST. 3 Hours.
The way the American West has been portrayed and the part the Western myth has played in search for a national identity. First impressions of the new world; the West in colonial literature; fiction in the 19th and 20th centuries; art, music and film; Western themes in politics; recent variations of the Western myth; the way such developments have reflected changes in popular values and a sense of national purpose.

HIST 4341. IMAGES OF THE SOUTHWEST BORDERLANDS. 3 Hours.
Examines the changing culture, architecture, and landscapes of the American Southwest as depicted in literature, art, film, television, and advertising, including the role of popular culture and commerce in creating and marketing a regional "Southwestern style." Offered as GEOG 4341 and HIST 4341; credit will be granted only once.

HIST 4342. HISTORY OF THE NORTH AMERICAN FUR TRADE. 3 Hours.
This course examines the social, cultural, economic, and environmental history of the fur trade between 1500 and 1800. The goal of the course is to consider one of the earliest global businesses as historical precedent for many global businesses of the present-day. The following themes will be addressed: local/global intersections, cultural conflict and collaboration, capitalism and empire, people and nature.

HIST 4350. HISTORY OF ANCIENT SPORT. 3 Hours.
The nature, variety, and role of sports in ancient history. The origin and development of sport in Greece and Rome, the Olympic Games, religious and political implications, the nature of events and contests, intellectual and popular attitudes, and sport in art and society.

HIST 4351. MEDIEVAL TECHNOLOGY AND SCIENTIFIC THOUGHT. 3 Hours.
An examination of medieval technology and scientific thought (c. 500 - c. 1500), with particular regard to cross-cultural influences, social context, and material culture.

HIST 4352. MEDIEVAL CRUSADE AND JIHAD. 3 Hours.
A history of the crusading movement of Western Europe, and the counter-crusades. This course will consider the events, ideas, and peoples involved, and their impacts on the civilizations of medieval Christendom, North Africa, and the Middle East.

HIST 4353. MEDIEVAL TRAVELERS. 3 Hours.
Medieval people traveled for a wide variety of reasons: exploration, survival, profit, belief. Students will study medieval travel accounts to understand how voyages and other travels illustrate cultural contact, communication, exchange, and diffusion of ideas.

HIST 4355. THE SCIENTIFIC REVOLUTION. 3 Hours.
An examination of the principal ideas, individuals, and institutions that contributed to the birth of "scientific" thinking between the mid-sixteenth and early eighteenth centuries.

HIST 4359. BRITISH CONSTITUTIONAL HISTORY. 3 Hours.
The development of the British constitution from its earliest beginnings to the present day, with special emphasis on the Anglo-Saxon institutions, the Norman constitutional development, the evolution of the major offices of the government, the development of Parliament, constitutional developments of the Stuarts, the Hanoverian constitution, the growth of democracy in the 19th and 20th centuries, and the imperial and commonwealth institutions.

HIST 4360. BRITISH EMPIRE. 3 Hours.
Examines the major parts of the empire--Ireland, Canada, West Indies, India, Australia/New Zealand, and South Africa--from 1600 to present. Also considers English attitudes and policies, and changing ideas of imperialism.

HIST 4361. THE GREAT WAR, 1914-1918. 3 Hours.
Beginning with a survey of the international Imperial order c. 1900 and concluding with an in-depth account of the human and economic costs of industrialized conflict, the course examines the fundamental global transformations wrought by history's first total war.

HIST 4362. WORLD WAR II, 1939-1945. 3 Hours.
Various aspects of the Second World War from American, European, and Asian perspectives. Origins of the conflict, national mobilization, the Holocaust, the Soviet-German confrontation, and the legacy of the most devastating conflict in modern history.

HIST 4366. HITLER'S GERMANY. 3 Hours.
A pivotal event in the history of the twentieth century, Hitler's Germany continues to elicit fascination, revulsion, and controversy. Dealing with this extraordinary and deeply disturbing historical phenomenon, the course explores the origin, nature, and demise of the Third Reich. Beginning with the rise of the National Socialism in Weimar Germany, it goes on to examine the Nazi seizure of power, the centrality of Hitler, the ideology and racial agenda of Nazism, and the destruction of the Reich in five years of war and genocide. These and other topics, such as popular opinion and everyday life, will be discussed from a variety of perspectives - cultural, political, and socioeconomic - to provide a broad interpretative framework for understanding the genesis, consolidation, and criminality of the Nazi State.

HIST 4367. HITLER: HISTORY AND IMAGE. 3 Hours.
Hitler has been vilified, ridiculed, idolized, and mythologized. This course examines Hitler, the historical figure, as well as the image of Hitler created through literature, theatre, and cinema.

HIST 4368. HISTORICAL MEMORIES OF RESISTANCE. 3 Hours.
This course focuses on the ways and methods in which Europeans chose to remember and to forget about those who resisted dictatorial rule. Students will be introduced to the processes and mechanisms that create and shape public memory.

HIST 4371. STALINISM: CULTURE & CIVILIZATION. 3 Hours.
This course examines the efforts of the Soviet state and society to build a civilization of a new type based upon the principles of Marxist-Leninist-Stalinist ideology. Emphasis on the period from 1924 through 1956.
HIST 4372. SOVIET UNION IN GLOBAL COLD WAR. 3 Hours.
The Cold War from Joseph Stalin to Mikhail Gorbachev. Themes may include: origins and end of the Cold War; roots and consequences of Soviet
decision-making; relationships between the USSR, its satellite states and competing great powers; culture and ideas in the Cold War; Soviet citizens'
experiences of the Cold War; legacies of the Cold War.

HIST 4373. PERESTROIKA AND THE COLLAPSE OF THE USSR. 3 Hours.
This course examines Mikhail Gorbachev's valiant yet unsuccessful efforts to "reconstruct" and modernize communism in the USSR by launching a
sweeping series of reforms that unintentionally destroyed the Soviet Union, gave birth to fifteen independent countries, and ended the Cold War. In
addition to covering these historic events, the course encourages students to explore critical subjects including the image and reality of socialism, the
relationship between democracy and capitalism, and the manner in which imperial collapse altered national identities while transforming society, politics,
culture, along with the daily life of ordinary men and women.

HIST 4374. EAST CENTRAL EUROPE IN THE AGE OF EXTREMES. 3 Hours.
Examination of political and social upheavals in East-Central Europe during the "short" twentieth century (1914-1991): Russian revolutions, left- and
right-wing dictatorships and mass murder; the two world wars, communist takeover and half-century-long struggle between societies and the party-states
culminating in the revolutions of 1989 and the breakup of the Soviet empire.

HIST 4376. AFRICAN DIASPORA I. 3 Hours.
The major developments which have shaped the history of Africans and their descendants in the Atlantic, Mediterranean, and Indian Ocean areas from
the earliest times to 1800. Emphasis on the comparative history of Black Diasporic communities; linkages between Africans and their descendants in the
Diaspora. Offered as AAST 4376 and HIST 4376; credit will be granted in only one department.

HIST 4377. AFRICAN DIASPORA II. 3 Hours.
The major developments which have shaped the history of Africans and their descendants in Latin America, the Caribbean, and North America since
1800. Emphasis on the comparative history of Black Diasporic communities; linkages between Africans and their descendants in the Atlantic Diaspora.
Offered as AAST 4377 and HIST 4377; credit will be granted in only one department.

HIST 4378. WEST AFRICA AND THE ATLANTIC DIASPORA. 3 Hours.
This course examines the history of West Africa and how this region was integrated into the Atlantic world through the Atlantic slave trade. The course
adopts an interdisciplinary approach that integrates traditional classroom instruction with field-based learning in West Africa. This learning method,
combined with cultural immersion, challenges students to develop their academic and cross-cultural knowledge and skills. Offered as AAST 4378 and
HIST 4378; credit will be granted in only one department.

HIST 4379. HISTORY OF MODERN CHINA. 3 Hours.
An overview of modern Chinese history focusing on late-imperial China, the emergence of the republican Chinese nation-state, and the rise of the
Chinese Communist Party. The course examines topics including imperialism and war, commercialization and urbanization, political and social
revolutions, and the contested and debated place of China in the world.

HIST 4380. AMERICA AND THE VIETNAM WARS. 3 Hours.
American involvement in the Indochinese conflict; the causes, outcome, and consequences of the war.

HIST 4383. FROM PHONOGRAPHS TO K-POP: A SONIC HISTORY OF EAST ASIA. 3 Hours.
This course examines East Asian media from the period shortly after World War I to the present day, through a particular channel: sound. How people
spoke, what they sang, what they listened to, and the auditory technologies they used are all questions that can bring us closer to everyday histories
of Asia. In addition, through our readings and primary sources, we will use sound analysis as our tool to explore major watershed events over the last
century including nationalist language movements in the 1920s, popular culture during World War II, the Cold War and political contestations over music
and listeners, cultural and technological innovations such as the Walkman in the 1980s, and consumer markets for K-Pop in the twenty-first century.

HIST 4385. DIGITAL HISTORY. 3 Hours.
This course offers a survey of how scholars can utilize digital tools and technologies to ask new questions and offer fresh insights within the discipline of
history. Potential topics covered in the course include websites, blogs, social media, Public History, search engines and keyword searching, Wikipedia,
open source and copyright, online digital databases, the digitization of archives, spatial history and digital mapping, podcasts, Big Data, virtual and
augmented reality, video games, and artificial intelligence, among other subjects. Prerequisite: HIST 3300 Historical Methods.

HIST 4390. HISTORY INTERNSHIP. 3 Hours.
Supervised internship providing hands-on experience working in archives, records centers, museums, or other history-oriented agencies or
organizations in the local community. Prerequisite: HIST 3300 with grade of C or better; permission of instructor.

HIST 4391. UNDERGRADUATE CONFERENCE COURSE. 3 Hours.
Topics assigned on an individual basis covering personal research or study in designated areas with tenure-track/tenured faculty. Course may
be repeated for credit once with a change in faculty. Prerequisite: Prior completion of an organized course with the intended conference faculty
member, plus prior approval of the instructor and the undergraduate advisor. The faculty member may petition for the student's exemption from these
prerequisites.

HIST 4394. HONORS THESIS/SENIOR PROJECT. 3 Hours.
Required of all students in the University Honors College. During the senior year, the student must complete a thesis or a project under the direction of a
faculty member in the major department.
HIST 4395. HISTORY SEMINAR. 3 Hours.
Topic varies. A reading and research course focusing on a specific subject, theme, or era in history. May be used to fulfill the History major research requirement. Prerequisite: HIST 3300 with grade of C or higher.

HIST 5191. INDEPENDENT STUDY. 1 Hour.
For masters students pursuing independent research or study under the supervision of a faculty member.

HIST 5291. INDEPENDENT STUDY. 2 Hours.
For masters students pursuing independent research or study under the supervision of a faculty member.

HIST 5391. HISTORICAL THEORY AND METHODOLOGY. 3 Hours.
An examination of theories of historical knowledge, the history of the discipline, various historical methodologies, and research techniques. Required for all history M.A. and Ph.D. students.

HIST 5340. ISSUES AND INTERPRETATIONS IN U.S. HISTORY. 3 Hours.
A critical survey of U.S. historical scholarship from colonial times to the present. Required for all history M.A. students who are emphasizing U.S. history.

HIST 5341. APPROACHES TO WORLD HISTORY. 3 Hours.
A critical survey of approaches to the study of global and comparative history.

HIST 5342. PRINCIPLES OF ARCHIVES AND MUSEUMS I. 3 Hours.
The historical evolution of archival science, emphasizing the development of the archives profession, archival principles and theories, appraisal and acquisition techniques, the laws affecting archives, programming and outreach, automation, conservation and preservation, and administration of collections.

HIST 5343. PRINCIPLES OF ARCHIVES AND MUSEUMS II. 3 Hours.
Training in the methods and techniques of processing archives and historical manuscripts. Focuses on the day-to-day responsibilities of archivists and curators, such as appraising, accessioning, arranging, and describing collections.

HIST 5345. INTRODUCTION TO PUBLIC HISTORY. 3 Hours.
An overview of the field of public history focusing on public historians, their work, their relationship to academic historians, their accomplishments, and the ethical principles under which they operate.

HIST 5347. INTRODUCTION TO TEACHING COLLEGE HISTORY. 3 Hours.
Course discusses teaching philosophies, techniques and technologies in order to help students become more effective college instructors.

HIST 5348. TOPICS IN PUBLIC HISTORY. 3 Hours.
A detailed examination of some aspect of public history (e.g. historical editing, oral history, historic preservation). The particular topic will vary with the instructor.

HIST 5349. INTRODUCTION TO TRANSatlANTIC HISTORY. 3 Hours.
Provides overview of the field of Transatlantic history and introduction to historiographical debates.

HIST 5350. HISTORY OF CARTOGRAPHY. 3 Hours.
A history of maps and their making and cartographic documentation as a source for understanding historical development. An aspect of the history of science and technology and the history of discovery and exploration.

HIST 5360. READING COLLOQUIUM IN EARLY TRANSatlANTIC HISTORY. 3 Hours.
Course topic varies; focuses on topics in transatlantic history prior to 1850.

HIST 5361. READING COLLOQUIUM IN LATE TRANSatlANTIC HISTORY. 3 Hours.
Course topic varies; focuses on topics in transatlantic history after 1850.

HIST 5363. READING COLLOQUIUM IN NATIONAL HISTORIES. 3 Hours.
Course topic varies; focuses on a chronological period or theme within the history of a single nation-state.

HIST 5364. READING COLLOQUIUM IN TRANSNATIONAL HISTORY. 3 Hours.
Course topic varies; focuses on topics in transnational history.

HIST 5365. READING COLLOQUIUM: TOPICS. 3 Hours.
Course topic varies; focuses on themes and topics in history.

HIST 5390. DIRECTED STUDIES FOR MASTERS STUDENTS. 3 Hours.
Directed study for masters students who have arranged to pursue specific topics of historical inquiry.

HIST 5391. INDEPENDENT STUDY. 3 Hours.
For masters students pursuing independent research or study under the supervision of a faculty member.

HIST 5392. HISTORICAL PERSPECTIVES ON THE HUMANITIES. 3 Hours.
An historical inquiry into problems and issues of contemporary relevance in the humanistic disciplines. The particular problems and issues investigated will vary with the instructor.

HIST 5395. NON-THESIS CAPSTONE. 3 Hours.
Readings in the non-thesis student's final semester, directed by the three-person faculty committee supervising the student's program of work. Required of all non-thesis history M.A. students.
HIST 5398. THESIS. 3 Hours.
For thesis history M.A. students.

HIST 5644. ARCHIVAL/PUBLIC HISTORY INTERNSHIP. 6 Hours.
Work experience for either Archival or Public History students. Archival Certification: Hands-on experience in archives, records centers, or historical manuscripts repositories. Public History: Placement in a history-oriented position in a private or public agency or organization in the community.

HIST 5655. PUBLIC HISTORY INTERNSHIP. 6 Hours.

HIST 5691. INDEPENDENT STUDY. 6 Hours.
For masters students pursuing independent research or study under the supervision of a faculty member.

HIST 5698. THESIS. 6 Hours.
For thesis history M.A. students.

HIST 5998. THESIS. 9 Hours.

HIST 6100. HISTORY AS A PROFESSION. 1 Hour.
This course introduces new PhD students in History to skills and information needed to succeed in both graduate school and as professional historians both within and outside of academia.

HIST 6190. DIRECTED STUDIES FOR PhD STUDENTS. 1 Hour.
Directed study for Ph.D. students who have arranged to pursue specific topics of historical inquiry.

HIST 6191. INDEPENDENT STUDY. 1 Hour.

HIST 6290. DIRECTED STUDIES FOR PhD STUDENTS. 2 Hours.
Directed study for PhD students who have arranged to pursue specific topics of historical inquiry.

HIST 6291. INDEPENDENT STUDY. 2 Hours.
For history PhD students.

HIST 6360. RESEARCH SEMINAR IN EARLY TRANSATLANTIC HISTORY. 3 Hours.
Research seminar focuses on primary source research on topics in transatlantic history prior to 1850.

HIST 6361. RESEARCH SEMINAR IN LATE TRANSATLANTIC HISTORY. 3 Hours.
Research course focuses on primary source research on topics in transatlantic history after 1850.

HIST 6363. SEMINAR IN NATIONAL HISTORIES. 3 Hours.
Topic varies; this is a research seminar that focuses on the history of a given nation-state.

HIST 6364. SEMINAR IN TRANSNATIONAL HISTORY. 3 Hours.
Topics vary; this is a research seminar focusing on some aspect of transnational history.

HIST 6365. SEMINAR: TOPICS. 3 Hours.
Topics vary; this is a research seminar that will focus on an historical theme or topic.

HIST 6390. DIRECTED STUDIES FOR PhD STUDENTS. 3 Hours.
Directed study for Ph.D. students who have arranged to pursue specific topics of historical inquiry.

HIST 6391. INDEPENDENT STUDY. 3 Hours.
For history Ph.D. students.

HIST 6399. DISSERTATION. 3 Hours.

HIST 6690. DIRECTED STUDIES FOR PhD STUDENTS. 6 Hours.
Directed study for Ph.D. students who have arranged to pursue specific topics of historical inquiry.

HIST 6691. INDEPENDENT STUDY. 6 Hours.
For history Ph.D. students.

HIST 6699. DISSERTATION. 6 Hours.
Dissertation research.

HIST 6990. DIRECTED STUDIES FOR PhD STUDENTS. 9 Hours.
Directed study for Ph.D. students who have arranged to pursue specific topics of historical inquiry.

HIST 6991. INDEPENDENT STUDY. 9 Hours.
For history Ph.D. students.
HIST 6999. DISSERTATION. 9 Hours.

HIST 7399. DOCTORAL DEGREE COMPLETION. 3 Hours.
This course may be taken during the semester in which a student expects to complete all requirements for the doctoral degree and graduate. Enrolling in this course meets minimum enrollment requirements for graduation, for holding fellowships awarded by The Office of Graduate Studies and for full-time GTA or GRA positions. Students should verify that enrollment in this course meets other applicable enrollment requirements. To remain eligible in their final semester of study for grants, loans or other forms of financial aid administered by the Financial Aid Office must enroll in a minimum of 5 hours as required by the Office of Financial Aid. Other funding sources may also require more than 3-hours of enrollment. Additional hours may also be required to meet to requirements set by immigration law or by the policies of the student's degree program. Students should contact the Financial Aid Office, other sources of funding, Office of International Education and/or their graduate advisor to verify enrollment requirements before registering for this course. This course may only be taken twice. Students who do not complete all graduation requirements while enrolled in this course must enroll in a minimum of 6 dissertation hours (6699 or 6999) in their graduation term. Graded P/F/R.

History - Graduate Programs

Objectives
Graduate study in history seeks not only to train students in historical methods and analysis but also to nurture in them a sense of the excitement and relevance of studying the past. Exploring the historical diversity of human experience broadens and deepens our understanding of both the past and the contemporary world. Students who complete graduate studies in history pursue careers in teaching, research and archival or museum administration, as well as in government and business.

The Master's Degree Program offers students a general graduate degree, with courses in a broad array of geographic and temporal topics, including U.S., European, African, Latin American, Transatlantic and Transnational histories. In the flexible Master's degree curriculum, apart from two required courses early in the program, students tailor their course of study among available course offerings to meet individual interests and career objectives. Students choose either Thesis or Non-Thesis programs. Coursework and internships in Archival Administration certification and/or Public History are also available as part of the Master's degree program.

The Doctoral Degree Program in Transatlantic History offers students comparative study of the historical development of peoples on the continents bordering the Atlantic Ocean. This exciting Ph.D. program is part of recent developments within the discipline of history that broaden the study of the past, transcend national histories, and contribute to a new transnational and comparative perspective. Utilizing specific research resources in the UT Arlington Libraries, the Ph.D. program in Transatlantic History (1492 to the present) offers a structured and focused curriculum of both required and elective courses. Prerequisite: B.A. or M.A. degree in history.

Admission Standards
In compliance with HB 1641, the History Department does not assign a specific weight to any one factor being considered, and does not use standardized tests (i.e., the GRE) in the admissions process as the sole criterion for consideration or as the primary criterion to end consideration of an applicant to either the M.A. or Ph.D. program. However, the GRE is required and used as a criterion, without specific weight, in the Department's evaluation of candidates for admission to programs at each of three levels: Unconditional, Provisional, and Probationary Admission.

The Department wishes to be as thorough and fair as possible in evaluating applicants for admission. It recognizes that some applicants may appear to be stronger according to some criteria than according to other criteria. When an applicant does not completely meet the minimum expectations for Unconditional Admission, the Department may consider the applicant for possible Provisional or Probationary Admission. When the applicant is not granted any of the three levels of admission, the decision may be deferred or the application is denied. We do not wish to exclude a qualified and potentially successful candidate who perhaps has approached but not met all the criteria completely. However, we do not wish to admit candidates who, based on the criteria, are deemed to have a poor chance of successfully completing the graduate program.

Admission Standards
Unconditional Admission
The criteria for admission below are used, without specific weights, as positive indicators of potential success in the program. In all but the most exceptional cases, all four criteria for unconditional admission must be met in order to receive unconditional admission.

- Undergraduate GPA of 3.0 (as calculated by Graduate Admissions) in the last 60 credit hours in the course of completing a B.A. degree in History (or an appropriate other field) from an accredited institution (verified by official transcripts from each college or university previously attended sent directly from the registrar of that institution to Graduate Admissions).
- A writing sample, sent to the Graduate Advisor. The Department prefers that applicants send a research paper written in an upper-division history course, but other examples are acceptable. The essay should demonstrate the applicant's writing, research, and analytical skills where possible. There is not a specific page minimum, but papers should not be over 25 pages.
- Three letters of recommendation (from faculty if possible) mailed directly from the recommenders to the History Graduate Advisor.
• A minimum score of 153 on the verbal section and a minimum score of 4 on the analytical writing section of the GRE aptitude test (verified by official GRE scores sent to Graduate Admissions). However, standardized test performance is not the sole criterion for admission or the primary criterion to end consideration for admission.

• UTA graduates who completed their B.A. with a grade point average of 3.3 or higher may be eligible to waive some admissions requirements including the GRE exam. For more information, please contact the M.A. Advisor.

**Provisional Admission**

An applicant unable to supply all required documentation (e.g. GRE scores have not yet arrived) prior to the admission deadline but who otherwise appears to meet admission requirements may be granted provisional admission. Provisionally admitted students must adequately satisfy any incomplete documentation by the end of the semester in which they are admitted. If the applicant fails to do so, the Department may then reclassify the applicant as Probationary, defer the decision, or ask the candidate to leave the program.

**Probationary Admission**

An applicant whose performance, according to the criteria, approximates but does not meet minimum admission standards may be granted Probationary Admission. Students admitted under this category must earn no grade lower than a B in his/her first 12 semester hours of graduate work taken at UT Arlington.

**Deferral or Denial**

If two or more of the criteria have not been met satisfactorily, the applicant will not be admitted on any of the three levels above but will receive deferral or denial. A deferred decision may be granted when a file is incomplete or when a denied decision is not appropriate. A deferred decision may also be granted when the student does not have adequate preparation in the discipline of history. In the latter case, students will be required to take “leveling” courses (make-up coursework) and earn a B or better before reapplying.

**M.A. Degree Requirements**

Courses taken toward a master's degree should fit into a unified program aimed at providing students with both a comprehensive background and a depth of understanding in U.S., European, African, Latin American, Transatlantic, or Transnational history. All students are required to take HIST 5339 and the Issues & Interpretations course corresponding to their major field (either HIST 5340 or HIST 5341 APPROACHES TO WORLD HISTORY). Except for those specializing in Public history, all students must take a minimum of six hours in both the Colloquium and the Seminar courses. Master’s students are eligible to take courses at the 6000 level as well as 5000 level, subject to any particular course prerequisites. Students may take upper-division undergraduate courses for graduate credit under certain conditions. In this case and others, students must consult with the Graduate Advisor to determine their program.

Competency in one foreign language is required to obtain the Master's degree. This may be demonstrated by one of three methods:

- four semesters of credit in an approved language verifiable in an official transcript
- successful completion of an examination administered by an approved UTA faculty member or by an approved outside source such as a CLEP test
- a passing grade in a graduate-level translation course (MODL 5301) offered by the Department of Modern Languages

The Thesis degree plan is designed for students who wish to research and write a substantial, original work on a historical topic of personal interest. The plan requires completion of 30 credit hours (24 hours of coursework, plus 6 hours of thesis preparation). With the approval of the Graduate Advisor, thesis students may have a minor of as many as six hours of graduate and/or advanced undergraduate courses in a discipline other than history. A maximum of six hours of advanced undergraduate history coursework may be taken for graduate credit. Thesis candidates should consult with the Graduate Advisor to form their thesis faculty committee, which consists of one supervising professor and two other professors.

The Non-Thesis degree plan requires completion of 36 credit hours of coursework. With the approval of the Graduate Advisor, non-thesis students may have a minor of as many as nine hours of graduate and/or advanced undergraduate courses in a discipline other than history. A maximum of nine hours of advanced undergraduate coursework may be taken for graduate credit. In the final semester, the non-thesis students are required to form a nonthesis faculty committee in consultation with the Graduate Advisor, consisting of three members of the graduate faculty. The student must submit to this committee a portfolio containing their seminar paper(s) and a selection of three papers that required an analysis of historiography. After reviewing the portfolio, the committee will devise a new assignment for the student to complete based on its determination of what best fits the needs of the student, keeping in mind that the assignment will constitute less than the equivalent of 3 credit hours of course work. The student will complete the assignment during his/her final semester and turn it into the faculty committee, where it must receive an evaluation of “adequate” or better. The committee will meet the student for a final oral exam, in which the student discusses his/her project.

**Non-thesis**

Students electing to complete an internship in archival management will also earn the certificate in archival administration (see Certificate section).

Students interested in either archival administration (see Certificate section) or public history as an area of study are encouraged to consult the Graduate Advisor to discuss a program of work.

**Master of Education in Teaching (M.Ed.T.)**

History may be chosen as an appropriate academic specialization or teaching field for students enrolled in the Master of Education in Teaching Degree Program. The History Department offers courses that qualify as an academic area or teaching field for elementary and secondary teachers. HIST 5340 and/or HIST 5341 are especially recommended for students in the M.Ed.T. program, and for others who wish to broaden their historical knowledge for classroom teaching. See Master of Education in Teaching Degree Program (p. 420).
Ph.D. Program

Unconditional Admission
The criteria for admission below are used, without specific weight, as positive indicators of potential success in the program.

• A prior academic degree (B.A. or M.A. in History or related fields) from an accredited institution (verified by transcripts from each college or university previously attended sent directly from the registrar of that institution to Graduate Admissions).
• A minimum undergraduate GPA of 3.0 in the course of completing a B.A. degree in History or a related field from an accredited institution (verified by official transcripts from each college or university previously attended sent directly from the registrar of that institution to Graduate Admissions).
• An academic writing sample (e.g. research essay) from a previous course assignment.
• A letter of intent, describing the student’s historical interests and how they intersect with the faculty and strengths of the Ph.D. program.
• Three letters of recommendation (from university or college professors) mailed directly from the recommenders to the History Ph.D. Advisor.
• A score of 156 or higher on the verbal section and a score of 5 or higher on the analytical writing section of the GRE aptitude test (verified by official GRE scores sent to Graduate Admissions). However standardized test performance is not the sole criterion for admission or the primary criterion to end consideration for admission.

Provisional Admission
An applicant unable to supply all required documentation prior to the admission deadline but who otherwise appears to meet admission requirements may be granted provisional admission. Provisionally admitted students must adequately satisfy any incomplete documentation by the end of the semester in which they are admitted. If the applicant fails to do so, the student will be dropped from the program. He or she may seek readmission when provisional requirements are complete.

Probationary Admission
An applicant whose credentials approximate but do not meet minimum admission standards, may be granted Probationary Admission subject to the condition that the candidate must earn no grade lower than a B in his/her first 12 semester hours of graduate work taken at UT Arlington.

Deferral or Denial
If two or more of the criteria have not been met satisfactorily, the applicant will not be admitted on any of the three levels above but will receive deferral or denial. A deferred decision may be granted when a file is incomplete or when a denied decision is not appropriate.

Application Deadline
The Ph.D. admissions committee will begin its evaluation of completed applications on February 15 and will continue to meet periodically until the Graduate School deadline of June 15.

Ph.D. Degree Requirements
Students accepted into the PhD program are expected to take a total of 46 semester credit hours in a three-year period: During the first or second year, full-time students take HIST 5339 HISTORICAL THEORY AND METHODOLOGY, HIST 6100 HISTORY AS A PROFESSION, and two of the following three courses: HIST 5340 ISSUES AND INTERPRETATIONS IN U.S. HISTORY, HIST 5341 APPROACHES TO WORLD HISTORY, or HIST 5350 HISTORY OF CARTOGRAPHY, as well as three colloquia (reading courses). During their second and third year, students take at least three seminars (research courses), as well as nine additional colloquia or seminars. The colloquia must include HIST 5363 READING COLLOQUIUM IN NATIONAL HISTORY and HIST 5364 READING COLLOQUIUM IN TRANSNATIONAL HISTORY. The seminars must include HIST 6363 SEMINAR IN NATIONAL HISTORY and HIST 6364 SEMINAR IN TRANSNATIONAL HISTORY. In their sixth semester, students commonly enroll in HIST 6690 DIRECTED STUDIES FOR PhD STUDENTS to prepare for the Comprehensive Exam.

**Total Hours: 91**

### Diagnostic Evaluation

At the end of the first academic year or after the student has completed the first 18 hours of coursework, each student will have to pass a diagnostic evaluation. History faculty with whom the student has worked will be asked to submit a written evaluation of the student's potential to continue in the program, using a form developed by the Graduate Advisor. The Graduate Studies Committee will review these evaluations and give each student one of four results:

a. approval to continue in the doctoral program;
b. approval to continue with specified remedial work;
c. failure, but with permission for assessment through a second diagnostic evaluation after no more than one year;
d. failure and referral of the student to the MA program, in which the student will be allowed to work towards a terminal MA degree.

### Language Requirement

If the student has not already fulfilled the foreign language requirement before entering the Ph.D. program, he/she is expected to use the first three years in the program to satisfy the foreign language requirement. The student is expected to choose a language that will be required to work on the Ph.D. topic of his/her choice. Each student is expected to have a solid reading knowledge in at least one language other than English. The language proficiency can be demonstrated in three different ways:

a. If the student has not already taken four semesters (from an accredited university) in a single foreign language with at least a B before being admitted to the Ph.D. program (within 10 years prior to admission), the student needs to complete four semesters in one foreign language with at least a grade of B prior to taking the Comprehensive Exam.
b. Demonstrating proficiency in a foreign language by taking the CLEP test and scoring 71-80 in German, 68-80 in French, and 67-80 in Spanish.
c. Taking the Reading Comprehension Exercise by an appropriate faculty member in which the student during one semester must read a source of
the faculty member’s choosing in a language other than English and submit a summary in English, which must include up to three pages of direct
translation.

The language requirement must be satisfied before the student can take the Comprehensive Exam. For the student at the dissertation stage, the
candidate’s doctoral committee may require that the student demonstrates competency in a second foreign language in the same fashion as the first
foreign language if that second language is judged essential for the student’s dissertation research.

B.A.-Ph.D. Track
Students in the B.A.-Ph.D. track will be awarded an M.A. degree after sitting for their comprehensive examination. Students who pass the oral
examination unconditionally will proceed to the dissertation (ABD) phase of the program.

Comprehensive Exam

Comprehensive Exam Committee

The student and each exam field supervisor will decide upon a book list of approximately 30-40 books, and choose whether the exam for that field will
be from outside the department or even from another university.

The student and each exam field supervisor will decide upon a book list of approximately 30-40 books, and choose whether the exam for that field will
be from outside the department or even from another university.

Comprehensive Exam

Timed essay exams must be taken on campus, seven hours each exam, from 9:00 a.m. to 4:00 p.m. Students may use a personal computer
available in the department to take their examination. They may not use texts or notes during the exam unless expressly permitted by that field’s
examiner. Chairs should ensure that time-limits for individual parts of the examination are observed.

Take-home essay exams will begin when a student is given the essay question by the field examiner. The student will hand in an essay responding
to the question (~15-20 pages) no earlier than 12 hours and no more than 72 hours later, as agreed upon with the field examiner. The student may
consult notes and readings during the writing process.

A member of the department’s office staff will email each field’s reading list, exam question, and completed written exam to the entire comps committee.
After the written exams are completed and the committee has read all three parts, students will take the oral exam (within one week of completion of the
third written exam).

Students must take both the written and oral exams or they will automatically fail the comprehensive exam. After the oral exam is over, the committee
members will discuss the exam as a whole (written and oral). Then the committee will decide on one of the four options listed below.

a. Passed, approval and recommendation to begin dissertation research under the supervision of the committee chair.
b. Passed, approval to remain in the program upon meeting certain specified additional requirements.
c. Failed, with permission to retake the examination after a certain period as specified by the examining committee.
d. Failed; Recommendation not to continue in the program.

Students are required to pass this examination before they proceed to the dissertation (ABD) phase of the program.
Dissertation Guidelines

By the end of the first semester after the successful completion of the Comprehensive Examination, the student should submit a dissertation proposal to the committee members and the Ph.D. Advisor who assures that it fulfills the expectations of a doctoral project. The dissertation committee ordinarily consists of three of the five professors involved in the Comprehensive Examination of the student. All three members of the dissertation committee must be members of the UT Arlington History Department. The student together with his/her primary supervisor may, if deemed necessary, invite outside readers to become additional members of the dissertation committee. Students should work closely with the chair of their committee while researching and writing their dissertation.

During the dissertation phase of the program, students enroll in HIST 6399, HIST 6699 or HIST 6999 and, in exceptional cases with prior approval of the Ph.D. Advisor, in HIST 6190. HIST 6190 may be taken by students following their Comprehensive Exams for a maximum of four semesters, if their dissertation chair concludes that in a given semester they are not engaged full-time in work on their dissertation. In the final semester of dissertation work, students must enroll in HIST 7399 to be in compliance with the requirement of the Graduate School. Students should be aware that the dissertation defense should occur after NO more than four years from the Comprehensive Examination. If the student takes more time to finish the doctoral dissertation, he/she has to file for an extension with the Graduate School.

Once the student, the chair of the committee, and the primary readers agree that the dissertation is ready to be defended, the student must schedule the dissertation defense. Before he/she applies for graduation, the student must receive approval from the Ph.D. Advisor. The student should furnish each committee member with a copy of the dissertation, including notes and bibliography, at least three weeks prior to the defense date. The oral defense of the dissertation generally lasts 1-2 hours. Questioning of the candidate will be supervised by the chair of the student's dissertation committee. Committee members may request that the dissertation be further revised and may withhold final approval of the dissertation until the revisions have been made. If the dissertation has been approved by the committee, the student has to submit the dissertation and the dissertation defense report to the Graduate School. The deadline dates for each semester are published in the Graduate School Calendar.

Certificate Requirements

These studies involve application of historical knowledge and methodology in non-academic settings such as private businesses or public historical agencies (e.g., archives, museums, preservation societies).

Students desiring a certificate of archival administration or a certificate in public history should consult course requirements (p. 937).

Students already holding a M.A. or Ph.D. degree in history or a related field, as well as students enrolled in graduate programs other than history, who desire only a certificate in archival administration should consult the Graduate Advisor.
History and Geography - Undergraduate Programs

Overview

The study of history explores the basic forces that have shaped human affairs and is therefore a means for dealing with present concerns and future problems. An appreciation of our heritage develops a sense of our identity. Historical inquiry also provides the necessary background for the study of other disciplines such as economics, literature, art, language, and the social as well as natural sciences.

Students of history develop important critical skills that are the hallmark of educated people: the ability to reason and analyze; the capacity to investigate problems and synthesize diverse information; facility in expressing ideas or data clearly and precisely. The History and Geography Department encourages an open and questioning attitude toward the diversity of human experiences and ideas. An awareness of cultural differences between various groups of people will provide insights concerning the basic issues of world civilization. Students of history are encouraged to read analytically, speak cogently, and write coherently.

Both the curriculum and the methodology of the History and Geography Department are multifaceted. The History and Geography Department, therefore, requires that students take courses in both chronological and topical areas in United States and world history. The history faculty specializes in such diverse methodologies as quantitative analysis and social and political history, as well as the more traditional biographical and narrative approaches. Thus, students are exposed to the many ways of studying the past and the present.

A degree in history prepares students for a variety of careers, including teaching, archival administration, business, journalism and communications, historical preservation, law, and public affairs. More importantly, by providing insight into the causes and effects of change in society, a knowledge of history prepares every individual for life in a complex world.

Admission to Department of History AND GEOGRAPHY Degree Programs

There are no special requirements that prospective majors in the Department of History and Geography must fulfill beyond entering with a minimum 2.25 GPA. In order to graduate students must have a 2.0 GPA overall and in history courses. Students are strongly encouraged to complete the core requirement before enrolling in upper level history courses.

Total Hours 120

It is strongly recommended that history majors complete the core requirements before enrolling in upper level history courses.

Note: Please see undergraduate advisor for up-to-date information on degree totals.

1 It is recommended that History majors complete the core requirement before enrolling in upper level History courses. Students are strongly advised to complete HIST 3300 as early as possible, preferably in their first semester after having declared a History major. Students may not enroll in the capstone HIST 4395 course until they have successfully completed HIST 3300 with a “C” or better.

2 Students with a satisfactory SAT achievement score in U.S. history or other proof of a strong background in U.S. History may wish to enroll in an honors section or opt to substitute six hours of advanced courses in U.S. History.

All history majors will design an appropriate course of upper level study in history in consultation with their advisor.

Legal History - Any four (4) from: HIST 3307, HIST 3311, HIST 3330, HIST 3331, HIST 3391, HIST 4330, HIST 4331, HIST 4333, HIST 4359

History electives - 3000-4000 level

HIST 4395 - HISTORY SEMINAR

Other pre-law requirements

Political Science - Any two (2) from: POLS 3330, POLS 3331, POLS 3333, POLS 3334, POLS 3335, POLS 3336, POLS 4331, POLS 4332

BLAW 3311 - LAW I

BLAW 3312 - LAW II

BLAW 4310 - BASIC INTERNATIONAL LAW FOR BUSINESS

CRCJ 2334 - INTRODUCTION TO THE CRIMINAL JUSTICE SYSTEM

ECON 2305 - PRINCIPLES OF MACROECONOMICS

or ECON 2306 - PRINCIPLES OF MICROECONOMICS

PHIL 1301 - FUNDAMENTALS OF REASONING

or PHIL 2311 - LOGIC

Sociology or Anthropology (one class 3000-4000 level)

Modern or Classical Language requirement (must be same language)

Minor (see minor advisor for details)

**Total hours 120**

**Note:** It is recommended that History majors complete the core requirement before enrolling in upper level History courses. **Students are strongly advised to complete HIST 3300 as early as possible, preferably in their first semester after having declared a History major.** Students may not enroll in the capstone HIST 4395 course until they have successfully completed HIST 3300 with a “C” or better.

**Note:** Please see undergraduate advisor for up-to-date information on degree totals.

### Teacher Certification

Students interested in Texas Teacher Certification at the elementary level should consult the College of Education section of this catalog for the most recent changes in requirements regarding admission to Teacher Education, completion of University programs in preparation for certification, and eligibility for certification after graduation. Students interested in secondary certification in social studies, including history, should see the History with Social Studies BA secondary certification plan below.

### Bachelor of Arts Degree in History with Secondary Level Teacher Certification for Social Studies

#### General Core Requirements

EDUC 4647  Clinical Teaching in Middle/Secondary School/All-Level Classrooms  6

Total hours 123

Note: Please see undergraduate advisor for up-to-date information on degree totals.

**ORAL COMMUNICATION COMPETENCY**

Students majoring in History demonstrate competency in oral communication by successfully completing HIST 3300. The department advisor must certify completion of this requirement.

**COMPUTER USE COMPETENCY**

Students majoring in History demonstrate competency in computer use by successfully completing the sophomore level of a Foreign Language course when taken at UT Arlington. If you satisfy your language requirement otherwise, consult the advisor for ways to satisfy this computer competency requirement. The department advisor must certify completion of this requirement.

**Minor in History**

Eighteen (18) hours of History courses, at least six (6) of which must be 3000/4000 level classes

**Minor in the History of Technology and Science**

The Department’s Minor in the History of Technology and Science (HoTS) provides students an opportunity to explore how technological development and scientific innovation have shaped societies, cultures, and institutions across time and place. While the Minor is open to all undergraduate students, those pursuing Majors in STEM-related disciplines will find it particularly valuable in advancing understanding of the historical origins and development of their vocational fields. Students fulfill the Minor requirements by successfully completing eighteen (18) hours of courses chosen from the list below.
Although not required, the Department recommends that students include three core curriculum courses HIST 1331, HIST 1332, and HIST 2377 as part of their program of study. When applicable, HIST 3395 Special Topics courses may be counted toward the Minor.

**Minor in Military History**

The Minor in Military History provides students an opportunity to undertake focused study of the origins, development, and influence of armed conflict in the human past. Students fulfill the program’s requirement by completing courses examining historical conflicts and/or military eras. Special Topics courses devoted to military subjects may be counted toward the Minor.

**Two of the following core curriculum courses (six hours)**

# Geography Minor

Geography is the study of humanity’s interaction with the physical environment. Geographic conditions have had significant effects on history as interrelationships between place and human activities have changed over time. The study of geographic spatial relationships has a major role in general education because it offers both theoretical and practical foundations for understanding contemporary problems, particularly those related to the environment, modernization, and technological progress. Students earn the Geography Minor by completing eighteen (18) hours of courses (at least six of which must be 3000/4000 level classes) from the list below.

# Certificate in the History of Technology and Science

The Department’s undergraduate Certificate in the History of Technology and Science (HoTS) provides students an opportunity to explore how technological development and scientific innovation have shaped societies, cultures, and institutions across time and place. While the Certificate is open to all undergraduate students, those pursuing Majors in STEM-related disciplines will find it particularly valuable in advancing understanding of the historical origins and development of their vocational fields. Students fulfill the Minor requirements by successfully completing twelve (12) hours of courses chosen from the list below. Although not required, the Department recommends that students include the three core curriculum courses HIST 1331, HIST 1332, and HIST 2377 as part of their program of study. When applicable, HIST 3395 Special Topics courses may be counted toward the Minor.

Interdisciplinary Studies

PROGRAM OVERVIEW (Catalog Description)

Interdisciplinary Studies (INTS) provides an individually crafted degree for the jobs of the future. The Interdisciplinary Studies Program (INTS) offers students the opportunity to create a truly customized degree plan. While traditional disciplines are slow to adjust to job demands, Interdisciplinary Studies allows students to build their degree to fit the job students want to be the leaders of tomorrow. Because of the flexibility of the degree, the Interdisciplinary Studies Program is intended to meet the needs of creative and intellectually curious students.

Both the Bachelor of Arts in Interdisciplinary Studies (BAIS) and Bachelor of Science in Interdisciplinary Studies (BSIS) provide students the opportunity to create the degrees that will provide access to new careers. Students pursuing the BAIS take more credit hours in foreign language while students pursuing the BSIS take more credit hours in mathematics.

Students in the program are expected to work closely with their adviser to develop an innovative program of study that draws on the rich academic resources of the University, including existing minors and certificates.

Requirements for the Bachelor of Arts and Bachelor of Science Degrees in Interdisciplinary Studies

TOTAL HOURS REQUIRED FOR GRADUATION FOR BAIS AND BSIS DEGREES: 120 HOURS

Of these, at least 36 hours must be at the 3000/4000 level, 24 hours of which must be from UT Arlington.

Program Requirements

INTS 2301 ENVISIONING INTERDISCIPLINARITY 3
INTS 4391 INTERDISCIPLINARY STUDIES SENIOR SEMINAR 3
Career Development Course from the following: SOCI 3351, ART 4382, BCOM 3360, NURS-HI 3360, MANA 3320, PCOM 4301 3
Theory course from the following: SOCI 3373, SOCI 3372, ENGL 4356, ANTH 3300, SOCW 3301, or INTS 3320 3
Research Class (Methodology): SOCI 3362, CRCJ 3350, POLS 3310, BIOL 4343, CHEM 4343, GEOL 4343, KINE 4352, MATH 4381, or PHYS 4343. 3

Total Hours 15

BACHELOR OF ARTS DEGREE IN INTERDISCIPLINARY STUDIES, GENERAL REQUIREMENTS

DEGREE REQUIREMENTS

General Core Requirements 42

UNIV 1131 (https://catalog.uta.edu/search/?P=UNIV%201131) STUDENT SUCCESS (or UNIV 1101 for transfer students)

Program Requirements 15

Modern and Classical Languages 8

TRACK ONE: Minor, or UTA Certificate Program, or Pre-defined INTS Track, or Custom INTS Track 18

TRACK TWO: Minor, or UTA Certificate Program, or Pre-defined INTS Track, or Custom INTS Track 18
ELECTIVES 18
Total Hours 120

TRACKS
Each Interdisciplinary Studies degree plan has two areas of concentration that, along with the core INTS courses, make up the course of study for the INTS degree. Each area of concentration may be constituted of one of the following options: a Minor, a Certificate program, a pre-defined INTS Track, or a Custom Track. Each Track requires a minimum of 18 hours and must include 9 hours of 3000/4000 level course work. Students must take at least one Methods Class (from approved list) within one of their tracks for at least 3 credit hours.

BACHELOR OF SCIENCE DEGREE IN INTERDISCIPLINARY STUDIES, GENERAL REQUIREMENTS

DEGREE REQUIREMENTS
General Core Requirements 42

UNIV 1131 (https://catalog.uta.edu/search/?P=UNIV%201131) STUDENT SUCCESS (or UNIV 1101 for transfer students)

Program Requirements 15
TRACK ONE: Minor, or UTA Certificate Program, or Pre-defined INTS Track, or Custom INTS Track 18
TRACK TWO: Another Department's Minor, or UTA Certificate Program, or Pre-defined INTS Track, or Custom INTS Track 18

Electives 26
Total Hours 120
For the Bachelor of Science degree, at least 18 hours in the two Tracks must be "science-for-science majors" course work; at least 12 of these must be at the 3000/4000 level.

TRACKS
Each Interdisciplinary Studies degree plan has two areas of concentration that, along with the core INTS courses, make up the course of study for the INTS degree. Each area of concentration may be constituted of one of the following options: a Minor, a Certificate program, a pre-defined INTS Track, or a Custom Track. Each Track requires a minimum of 18 hours and must include 9 hours of 3000/4000 level course work. Students must take at least one Methods Class (from approved list) within one of their tracks for at least 3 credit hours.

COURSES
INTS 1310. INTRODUCTION TO POPULAR CULTURE. 3 Hours.
This course will introduce students to the role of popular culture in American society. It examines culture as a process through which people make symbolic meaning out of the world. Since everyone has access to popular culture, it constructs the way that people think about the world around them. The course will explore the creation, production, dissemination, reception and consumption of popular culture.

INTS 2301. ENVISIONING INTERDISCIPLINARITY. 3 Hours.
This foundational course is designed to introduce students to a variety of academic discourses and modes of knowledge-making, and to present some of the key concepts and aims of interdisciplinary studies.

INTS 2388. SPECIAL TOPICS INTERDISCIPLINARY STUDIES. 3 Hours.
Special topics or problems that lend themselves to an interdisciplinary approach. May be repeated for credit when the topic changes.

INTS 3320. INTERDISCIPLINARY THEORY. 3 Hours.
This course examines the important theories that form the foundation for interdisciplinary studies. These theories are put into a historical context that not only covers the origins of the disciplines, but the theories and ideas that have come to dominate the 21st century outlook on knowledge and the world. Prerequisite: Junior Standing or Permission of the instructor.

INTS 4388. SPECIAL TOPICS INTERDISCIPLINARY STUDIES. 3 Hours.
Special topics or problems that lend themselves to an interdisciplinary approach. May be repeated for credit when the topic changes. Prerequisite: INTS 2301.
INTS 4391. INTERDISCIPLINARY STUDIES SENIOR SEMINAR. 3 Hours.
The purpose of this course is to allow students to develop their job applications in a way to explain interdisciplinary studies. The seminar includes both readings on a topic of general academic interest and guest speakers from across campus to engage topics from an interdisciplinary perspective. This will provide students the opportunity to reflect on their own interdisciplinary degrees and see how their peers envisioned interdisciplinarity. Students are encouraged to use the seminar as a foundation for their future careers. Prerequisite: Completion of INTS 2301.

INTS 4392. INTERDISCIPLINARY STUDIES SERVICE LEARNING. 3 Hours.
Students work with a UTA faculty mentor to produce a detailed, substantive written project that focuses on a disciplinary problem and documents how the community service learning project helped them in addressing and/or understanding the problem. May be repeated with permission. Prerequisite: Completion of INTS 2301.

INTS 4394. INTERDISCIPLINARY STUDIES SENIOR THESIS/PROJECT. 3 Hours.
Students complete sustained original research or creative activity under the guidance of a UTA faculty mentor in their area(s) of concentration. Prerequisite: Completion of INTS 2301.

INTS 4395. INTERDISCIPLINARY STUDIES INTERNSHIP. 3 Hours.
Students work with a UTA faculty mentor to produce a detailed, substantive written project that focuses on a disciplinary problem and documents how the internship helped them in addressing and/or understanding the problem. Prerequisites: Completion of INTS 2301.

INTS 4396. INTERDISCIPLINARY STUDIES STUDY ABROAD. 3 Hours.
Students work with a UTA faculty mentor to produce a detailed, substantive written project that focuses on a disciplinary problem and documents how a study abroad experience helped them in addressing and/or understanding the problem. Prerequisite: Completion of INTS 2301.
Law and Legal Studies

LAW AND LEGAL STUDIES MINOR AT A GLANCE

The minor in Law and Legal Studies offers an interdisciplinary, liberal arts approach to the study of law. This is an academic program, not a professional training program, emphasizing the social, cultural and philosophical foundations and impacts of law and legal systems. It is designed for Pre-Law students and for a broad array of students from across the UTA campus who are interested in the relationship of law to society and culture.

Upon completion of the Law & Legal Studies minor, students will have developed the following knowledge, skills, abilities and attitudes applicable towards the study and practice of law:

- Analyze judicial opinions and apply court precedent to new issues arising in both every day practical transactions and within the court system;
- Effectively and persuasively communicate simple and complex ideas at a level consistent with those attempting to pursue a law degree;
- Demonstrate logical and reasoning abilities consistent with that required by the Law School Admissions Test;
- Clearly define the role of attorneys within the American Judicial System and attorney interactions in society through various legal actions;
- Identify a legal issue, research judicial opinion and effectively identify a likely outcome in a court of law; and
- Communicate professionally and efficiently in writing in any corporate and legal professional setting.

For additional information, visit [https://www.uta.edu/prelaw/](https://www.uta.edu/prelaw/).

Linguistics

Undergraduate Degree

- Bachelor of Arts in Linguistics (p. 970)
- Minor in Linguistics (p. 971)
- Minor in TESOL (p. 971)

Graduate Degrees

- Linguistics, M.A. [link]
- Teaching English to Speakers of Other Languages, M.A. [link]
- Linguistics, B.A. to Ph.D.
- Linguistics, Ph.D. [link]

Certificates

- Undergraduate Certificate in Teaching English to Speakers of Other Languages (TESOL) (p. 971)
- Graduate Certificate in Teaching English to Speakers of Other Languages (TESOL) (p. 968)

COURSES

LING 2301. INTRODUCTION TO THE STUDY OF HUMAN LANGUAGE. 3 Hours.
An introduction to the scientific study of human language, using English as an example. Topics in the course include how sounds are produced, how words and sentences are structured, how and why language changes, how language is acquired by children and adults, how the brain processes language, and how language and society intersect.

LING 2321. CONSTRUCTED LANGUAGES. 3 Hours.
This course is an introduction to constructed languages. Presentation, examination, and analysis of constructed languages, such as Esperanto, Klingon, Dothraki, and many others.

LING 2351. LANGUAGE AND TECHNOLOGY. 3 Hours.
Fundamentals of how technology is used to represent, process, and organize human language. We will examine modern technologies such as autocorrect, speech synthesis, speech recognition, machine translation, and chatbots. Students will be able to describe fundamentals of how these technologies work, with a focus on the aspects of human language that present challenges for their development. We will also examine social and ethical considerations surrounding language technology, such as privacy, machine intelligence, and bias.

LING 2371. LANGUAGE IN A MULTICULTURAL USA. 3 Hours.
The relationship between language in the U.S. and social power. This course explores how negative attitudes toward some language varieties and languages spoken in the U.S. arise from social factors, rather than features of the languages themselves. In addition to studying language varieties, the course shows how American institutions such as the educational system and the media reinforce these negative attitudes and contribute to discrimination. Offered as AAST 2371 and LING 2371; credit will be granted in only one department.

LING 2391. CONFERENCE COURSE IN LINGUISTICS. 3 Hours.
Independent study in Linguistics and TESOL. Consultation with instructor on a regular basis. May be repeated for credit. Prerequisite: Permission of the instructor.

LING 3301. TOPICS IN LINGUISTICS. 3 Hours.
Covers issues related to language and linguistics. Topics may include language and film/literature/pop culture, endangered languages, speech synthesis, applied linguistics, or other topics determined by instructor. May be repeated for credit when content changes. No prerequisites.

LING 3309. LINGUISTICS FOR LANGUAGE TEACHERS. 3 Hours.
An examination and analysis of the linguistic structures of English, with a focus on how this knowledge can inform language teaching.

LING 3311. PRINCIPLES OF LINGUISTIC ANALYSIS. 3 Hours.
This course prepares students for the systematic study of human language. Drawing on data from a range of languages, it will examine the sound patterns of language (phonetics and phonology), words and word formation (morphology), sentence structure (syntax), meaning (semantics), and language in context (pragmatics). Emphasis will be placed on methods of linguistic analysis to solve problems in phonology, morphology, syntax, and semantics. Additional topics may include language acquisition; linguistic variation; and/or historical/comparative linguistics.

LING 3330. PHONETICS AND PHONOLOGY. 3 Hours.
Introduction to the scientific study of speech sounds and sound patterns in the world’s languages. We will explore how human speech sounds are produced, how to describe speech sounds, and the patterns in how sounds combine to make words in different languages. Prerequisite: LING 3311 with a grade of C or better.
LING 3340. SYNTAX I. 3 Hours.
An examination of syntactic investigation, developed primarily through the study of central aspects of English syntax. A major purpose is to introduce students to the study of language as an empirical science. Prerequisite: LING 3311 with a grade of C or better.

LING 3345. CRITICAL REASONING IN LINGUISTICS. 3 Hours.
A survey of formal logical approaches used to describe and explain natural language phenomena. Topics include the fundamentals of logical representation and argumentation, the effective use of inductive and deductive reasoning, and the construction of more complex linguistic arguments. Prerequisites: LING 3311 and either PHIL 1301 or PHIL 3321.

LING 3350. LEXICAL SEMANTICS. 3 Hours.
Examines meaning at the lexical level. Topics may include ways of describing meaning (sense and reference, componential analysis and prototype theory), organizing meaning (the mental lexicon, connotation and euphemism, linguistic relativity), and applying these concepts to analyzing word classes. Prerequisite: LING 3311 with a grade of C or better.

LING 3360. LANGUAGE ACQUISITION. 3 Hours.
An examination of the principles and patterns that underlie the acquisition of language, with a focus on child language acquisition. Prerequisite: LING 3311 or LING 3309, with a grade of C or better.

LING 3366. TOPICS IN RACE/ETHNICITY AND LANGUAGE IN THE U.S.. 3 Hours.
Either an intensive focus within one racial/ethnic group or a comparison between two or more groups. Focus may include language in the U.S. as it pertains to one (or more) of these communities: African Americans, Mexican Americans and Latinos/as, Native Americans, and/or Asian Americans. May be repeated for credit as course content changes.

LING 3370. PSYCHOLOGY OF LANGUAGE. 3 Hours.
An examination of psycholinguistics, or the cognitive processes involved in the acquisition, comprehension, and production of language. The class will focus mainly on language perception and production by native speakers, but will also address issues related to bilingual/second language processing. Prerequisite: LING 3311 with a grade of C or better, or instructor approval.

LING 3391. CONFERENCE COURSE IN LINGUISTICS. 3 Hours.
Independent study in Linguistics and TESOL. Consultation with instructor on a regular basis. May be repeated for credit. Prerequisite: Permission of the instructor.

LING 4301. PHONOLOGICAL THEORY I. 3 Hours.
Investigation of the sound systems of language with a focus on building analytical skills. Students will conduct hands-on phonological analysis with real language data and develop familiarity with common phonological patterns in the world's languages. Prerequisite: LING 3330 with a grade of C or better.

LING 4303. SYNTAX II. 3 Hours.
Continuation of LING 3340, which explores further aspects of English syntax; universal and language-particular constraints on syntactic structure and rules. Further development and extensions of the generative approach to syntactic investigation. Prerequisite: LING 3330 with a grade of C or better.

LING 4317. SOCIO LINGUISTICS. 3 Hours.
Language in its social context, including linguistic variation, address and reference, speech levels, bilingualism, code switching, speech acts, conversation analysis, and language and gender. Prerequisite: LING 3311.

LING 4318. LANGUAGE AND GENDER. 3 Hours.
The role of language in the expression and creation of gender identities. Gender differences in language structure and use, women's and men's language in other cultures, the acquisition of gendered ways of speaking, and sexism in language. Offered as LING 4318 and GWSS 4318; credit will be granted only once. Prerequisite: LING 3311.

LING 4320. HISTORICAL AND COMPARATIVE LINGUISTICS. 3 Hours.
(Also taught as LING 5314). Language development and change; the comparative method and its use in linguistic reconstruction; laws of language change. Prerequisite: LING 3311.

LING 4325. SLA THEORIES AND THE TEACHING OF LANGUAGE. 3 Hours.
An examination of a variety of theories in Second Language Acquisition, with a focus on how this knowledge informs classroom practice for teachers of ESL and other languages. Prerequisite: LING 3309 or LING 3311.

LING 4326. BILINGUALISM. 3 Hours.
An examination of issues related to bilinguals and bilingualism. The areas that will be covered include different types of bilinguals/bilingualism, bilingual education, the cognitive benefits or disadvantages of being a bilingual, and language processing in bilinguals. Prerequisite: LING 3311 with a grade of C or better.

LING 4327. SECOND LANGUAGE ACQUISITION. 3 Hours.
This course focuses on second language acquisition. Topics include the similarities and differences between first and second language acquisition, perception and production in native and non-native languages, and the implications of second language acquisition and processing research for theoretical linguistics and language teaching. Prerequisite: LING 2301, LING 2371, LING 3309, or LING 3311.

LING 4328. PSYCHOLINGUISTICS. 3 Hours.
This course will focus on the cognitive processes involved in the comprehension and production of language. The class will involve opportunities for hands-on experience using psycholinguistics research methods. Prerequisite: LING 3370 or LING 3311 with a grade of C or better, or instructor approval.
LING 4330. CORPUS LINGUISTICS. 3 Hours.
Applications of the ways computer science and linguistics inform each other. Corpus linguistics focuses on how computers can be used to both obtain the data that we examine and to provide the tools we use for analysis. Introduces practical experience with concordancing and OCR software, using regular expressions, and sources of online corpora. Prerequisite: LING 3311.

LING 4334. MORPHOLOGY. 3 Hours.
A theoretical and typological investigation into the nature of word-structure and word-formation processes in human languages. Prerequisite: LING 4301 or LING 4303.

LING 4335. LANGUAGE UNIVERSALS & LINGUISTIC TYPOLOGY. 3 Hours.
Consideration of universals in human language, their explanation and description, and language types. Prerequisite: LING 4301.

LING 4345. FORMAL SEMANTICS. 3 Hours.
Examination of empirical facts, fundamental goals, and current techniques of formal semantic theory with a goal toward independent research. Topics include basic tools of current semantic theory and various core topics concerning meaning in English and other languages. Prerequisite: LING 3311 with a grade of C or higher.

LING 4347. PRAGMATICS. 3 Hours.
Analysis of how context and form interact with meaning. Topics may include deixis, reference, speech acts, presupposition, implicature, information structure and intonation.

LING 4353. TEACHING ENGLISH AS A SECOND OR FOREIGN LANGUAGE. 3 Hours.
Presentation and critique of methodologies of teaching English to speakers of other languages, with emphasis on teaching techniques of aural comprehension; speaking, reading, and writing skills; testing, language laboratory, and linguistic-cultural differences.

LING 4354. METHODS AND MATERIALS TO TEACH ENGLISH AS A SECOND OR FOREIGN LANGUAGE. 3 Hours.
Systematic study of how to teach English to second/foreign language learners. Topics covered include the teaching of grammar, vocabulary, reading, writing, pronunciation, speaking, and listening. Prerequisite: LING 2301 or LING 2371; LING 4353.

LING 4360. NON-WESTERN LINGUISTIC STRUCTURES. 3 Hours.
Study of a selected non-Western language, language family or language area based on descriptive linguistic analysis. May be repeated once for credit as the topic varies. Prerequisite: LING 3330 and LING 3340.

LING 4362. LANGUAGE DOCUMENTATION. 3 Hours.
The course discusses fundamental issues that are part of language documenting and description. These include project design, research ethics and intellectual property, researcher and community rights and responsibilities, world language ecology, technology and software, archiving issues, grant-writing fundamentals, and related issues that form best practices for language documentation projects. (Also offered as LING 5362. Credit will be granted only once for LING 4362 or LING 5362.) Prerequisite: LING 3311.

LING 4363. LANGUAGE ENDANGERMENT AND REVITALIZATION. 3 Hours.
This course examines language endangerment and what it means for a language to become endangered, and studies language revitalization. Case studies are presented where communities seek to maintain the number of speakers or revive the language. (Also offered as LING 5363. Credit will be granted only once for LING 4363 or LING 5363.) Prerequisite: LING 3311.

LING 4370. HISTORY OF LINGUISTICS. 3 Hours.
Surveys the recent history of the field of linguistics and familiarizes students with the key figures and theories in recent linguistic history, with special attention to the development and emergence of generative theories of syntax, semantics, and phonology. Prerequisite: LING 3330 and LING 3340 and either LING 4301 or LING 4303.

LING 4389. TOPICS IN LINGUISTICS. 3 Hours.
Current topics in linguistics research. May be repeated if topic changes. Prerequisite: Either LING 3330, LING 3340, or LING 4317, and permission of undergraduate advisor.

LING 4391. CONFERENCE COURSE IN LINGUISTICS. 3 Hours.
Independent study in the preparation of a paper on a research topic; consultation with instructor on a regular basis. May be repeated for credit. Prerequisite: Either LING 3311, LING 3330, or LING 3340, and permission of undergraduate advisor.

LING 4393. INTERNSHIP IN LINGUISTICS. 3 Hours.
Internship (paid or unpaid) in Linguistics, supervised by a faculty internship coordinator, with the student performing duties related to the academic curriculum of Linguistics. Students are required to perform and report on designated career-related duties in a professional environment and submit assignments related to the work performed. May be repeated with the approval of the Undergraduate Advisor. May be repeated for credit once, as internship experience changes. Prerequisite: LING 3311 and permission of the instructor.

LING 4394. LING 4394 HONORS THESIS/SENIOR PROJECT. 3 Hours.
Required of all students in the University Honors College. During the senior year, the student must complete a thesis or project of equivalent difficulty under the direction of a faculty member in the major department. Approval of instructor required.
LING 4395. INTERNSHIP IN TESOL. 3 Hours.
Internship (paid or unpaid) in TESOL, supervised by a faculty internship coordinator, with the student performing duties related to the academic curriculum of TESOL and/or the application of this knowledge. Students are required to perform significant teaching-related duties in an ESL/EFL environment and submit assignments related to the work performed. May be repeated with the approval of the Undergraduate Advisor, as internship experience changes. Prerequisite: LING 4353 and LING 4354 (may be concurrently enrolled in 4354).

LING 5100. THESIS WRITING SEMINAR. 1 Hour.
Techniques for researching and writing a thesis/dissertation in linguistics. Required of all students who have elected the Thesis or Thesis Substitute degree option in Linguistics. Prerequisite: completion of at least 9 hours of LING courses.

LING 5110. TESOL PRACTICUM. 1 Hour.
In this class, students will apply the principles presented in the TESOL Certificate coursework through observing and teaching ESOL classes. Prerequisite: Permission of adviser.

LING 5190. CONFERENCE COURSE IN LINGUISTICS. 1 Hour.
Graded P/F. Prerequisite: Permission of instructor.

LING 5300. LINGUISTIC ANALYSIS. 3 Hours.
This course introduces students to the field of linguistics, the systematic study of human language. Drawing on data from a range of languages, it will examine the sound patterns of language (phonetics and phonology), words and word formation (morphology), sentence structure (syntax), meaning (semantics), and language in context (pragmatics). Emphasis will be placed on methods of linguistic analysis to solve problems in phonology, morphology, syntax, and semantics. May be repeated for credit as the focus of the course or instructor changes. May not be used to fulfill Ph.D. degree requirements in linguistics.

LING 5301. INTRO TO COMMUNICATIVE LANGUAGE TEACHING. 3 Hours.
Presentation and critique of methodologies of teaching English to speakers of other languages, with emphasis on techniques of teaching aural comprehension; speaking, reading, and writing skills; attention to testing, language laboratory, and linguistic-cultural differences. Course includes a practical teaching requirement.

LING 5302. METHODS IN TEACHING READING AND WRITING. 3 Hours.
This course is an in-depth study of how to design ESL/EFL reading and writing classes and how to create instruction and assessment materials for these classes based on sound pedagogical principles.

LING 5303. ERROR ANALYSIS IN THE TEACHING OF ENGLISH AS A SECOND OR FOREIGN LANGUAGE. 3 Hours.
A study of error analysis as a means to diagnose particular patterns in language production of ESL/EFL students. Emphasis on current research and application to specific problems and contexts. Prerequisite: LING 5300 or LING 5309.

LING 5304. PEDAGOGICAL GRAMMAR OF ENGLISH. 3 Hours.
This course is a study of English sentence structure. Topics include article use, phrase structure, verb tense, agreement, pronouns, question forms, and embedded clauses. The course will focus on the second-language acquisition and processing of these structures as well as on ways that they can be addressed during ES/FL grammar instruction. Prerequisite: LING 5300 or LING 5309; LING 5301 or LING 5302.

LING 5305. SECOND LANGUAGE ACQUISITION. 3 Hours.
This course is the study of the processes of first and second language acquisition, their similarities and differences, language disorders, language perception and production, and implications of language acquisition research for linguistic theory and language teaching. May be repeated for credit as topic changes. Prerequisite: LING 5300 or permission of instructor.

LING 5306. TESOL CURRICULUM DESIGN. 3 Hours.
Systematic presentation of elements in development, management and evaluation of TESOL programs. Attention to needs analysis, syllabus design, materials selection and adaptation, teaching and evaluation in language curriculum design. Prerequisite: LING 5301.

LING 5307. PEDAGOGICAL PHONOLOGY OF ENGLISH. 3 Hours.
A study of the sound system of English. Topics include segmental phonemes, stress, length, intonation and variation at the lexical and utterance levels. Application to teaching English as a second or foreign language. Problems of description; means of application; adaptation to current pedagogical methods. Prerequisite: LING 5300; LING 5301 or LING 5302.

LING 5308. LANGUAGE ASSESSMENT. 3 Hours.
This is an introductory testing course. Topics will include different types of language assessment, issues related to language testing, measurement and evaluation of achievement and proficiency in a second language, and developing language tests of various language skills. Prerequisite: LING 5301, LING 5302, or permission of the instructor.

LING 5309. LINGUISTICS FOR LANGUAGE PROFESSIONALS. 3 Hours.
This course is an introduction to Applied Linguistics. It includes examination and analysis of the linguistic structures of English, with a focus on how this knowledge can inform language teaching.

LING 5310. SOCIOLINGUISTICS. 3 Hours.
The study of language and social context (made up of society and individuals). Content includes language as a social phenomenon, theoretical perspectives on relationship between language, society and individuals, basic concepts in sociolinguistics; and may include topics in macro- and micro-sociolinguistics such as multilingualism, language planning and standardization, linguistic variation, code switching, conversational analysis, and language and gender. May be repeated for credit as the topic changes.
LING 5311. SOCIOLINGUISTICS OF SOCIETY. 3 Hours.
The study of macro-sociolinguistics, including topics such as multilingualism, language standardization and planning, literacy, language dominance, maintenance and death, language and identity, diglossia, and pidgins and creoles. May be repeated for credit as the topic changes. Prerequisite: LING 5310.

LING 5312. LANGUAGE AND GENDER. 3 Hours.
The role of language in the expression and creation of gender identities. Gender differences in language structure and use, men's and women's languages in other cultures, the acquisition of gendered ways of speaking, and sexism in language. May be repeated for credit as the topic changes. Prerequisite: LING 5310.

LING 5313. TOPICS IN SOCIOLINGUISTICS. 3 Hours.
Selected topics relating the scientific methodologies of linguistics to larger concerns of society and culture including cognition, motivation, description and analysis. May be repeated for credit when topic changes. Prerequisite: LING 5310.

LING 5314. HISTORICAL AND COMPARATIVE LINGUISTICS. 3 Hours.
The study of language development and change; comparative method and its use in linguistic reconstruction; laws of language change. May be repeated for credit as the topic changes. Prerequisite: LING 5330 or permission of instructor.

LING 5315. READINGS AND RESEARCH IN PEDAGOGY AND PRACTICE. 3 Hours.
This course focuses on selected readings for classroom practitioners, with a focus on work that connects current theory with classroom practice. Prerequisite: LING 5301 or LING 5302.

LING 5316. TEACHING WITH TECHNOLOGY. 3 Hours.
This course focuses on the integration of effective technology tools in linguistics and TESOL-focused courses and topics. Course topics will cover effectively and meaningfully incorporating a wide variety of digital platforms, communication channels, and tools to curate and create quality digital content and develop technology-focused lesson plans. Students will learn to use robust theoretical frameworks such as Open Educational Resources, open pedagogy, Community of Inquiry, networked and connected learning, and constructivist pedagogies to foster authentic student engagement and active learning with technology and course content. After the course, students will have created several concrete artifacts to add to their teaching dossier for future teaching, potentially adding to being more marketable in a dynamically changing world. Emerging tools such as virtual reality, augmented reality, automation, data analytics, and mobile learning will be also be explored.

LING 5318. APPLIED PSYCHOLINGUISTICS. 3 Hours.
This course examines the psychological processes involved in language development and language use in native and non-native speakers, as well as in those who have language disorders. It also covers how psycholinguistic tasks can be used for language teaching and assessment. Students will learn current theories and research methods related to this area through in-depth discussion of primary literature and by developing research projects based on this literature. Prerequisite: LING 5300 or LING 5309, or equivalent, or approval from the instructor.

LING 5319. PHONETICS AND PHONOLOGY. 3 Hours.
Human speech sounds from both physiological and cognitive perspectives; the range of speech sounds in language and the patterning of such sounds within particular language systems. This course does not fulfill core PHD requirements for phonology.

LING 5320. PHONOLOGICAL THEORY. 3 Hours.
LING 5320 is a foundations course for the study of the principles that govern sound systems in human languages. Students will work with sound patterns from a variety of languages in order to understand the fundamental aspects of phonological phenomena, and course assignments will require application of the descriptive and theoretical tools in working with sound pattern data. Lectures will further develop this description, analysis, and argumentation for phonological data. May be repeated for credit as the topic changes. Prerequisite: Permission of Advisor.

LING 5321. ADVANCED PHONOLOGICAL THEORY. 3 Hours.
A continuation of LING 5320. Topics include autosegmental analysis, lexical phonology, metrical phonology and phonological feature geometry. May be repeated for credit when topic changes. Prerequisite: LING 5320.

LING 5322. LABORATORY PHONOLOGY. 3 Hours.
An investigation into the physical properties of human speech. Students will gain hands-on experience with computer-assisted speech analysis. No prior computer experience is assumed. Prerequisite: LING 5320.

LING 5325. SLA AND CLASSROOM PRACTICE. 3 Hours.
An examination of a variety of theories in Second Language Acquisition, with a focus on how this knowledge informs classroom practice for teachers of ESL and other languages.

LING 5326. BILINGUALISM. 3 Hours.
This course introduces students to issues related to bilinguals and bilingualism. The areas that will be covered include different types of bilinguals/bilingualism, bilingual education, the cognitive benefits (or disadvantages) of being a bilingual, and language processing in bilinguals. May be repeated for credit as the topic changes. Prerequisite: LING 5300.

LING 5328. PSYCHOLINGUISTICS: SENTENCE PROCESSING. 3 Hours.
This course examines the cognitive processes involved in sentence comprehension. Students will learn current theories and research methods related to this area of psycholinguistics through in-depth discussion of the primary literature and by developing research projects based on this literature. May be repeated for credit as the specific topics dealt with in the course change. Prerequisite: LING 5300.
LING 5329. SYNTAX. 3 Hours.
An examination of syntactic investigation, developed primarily through the study of central aspects of English syntax. A major purpose is to introduce students to the study of language as an empirical science. This course does not fulfill core PHD requirements for syntax.

LING 5330. FORMAL SYNTAX. 3 Hours.
Introduction to syntactic theory. Major topics include phrase structure, subcategorization, lexical entries, and passive and infinitival constructions. May be repeated for credit as the topic changes. Prerequisite: Permission of advisor.

LING 5331. ADVANCED FORMAL SYNTAX. 3 Hours.
Continuation of Ling 5330. Topics may include the syntax of unbounded dependencies, constraints on extraction, unbounded versus successive cyclic movement, and the licensing of gaps. May be repeated for credit as the topics change. Prerequisite: LING 5330.

LING 5334. MORPHOLOGY. 3 Hours.
A theoretical and typological investigation into the nature of word-structure and word-formation processes in human languages. May be repeated for credit as the topics of focus change. Prerequisite: LING 5320 or LING 5330.

LING 5335. LANGUAGE UNIVERSALS AND LINGUISTIC TYPOLOGY. 3 Hours.
Consideration of universals in human language, their explanation and description, and language types. May be repeated for credit as the topics of focus change. Prerequisite: LING 5330.

LING 5338. PSYCHOLINGUISTICS: VISUAL WORD RECOGNITION. 3 Hours.
This course examines the cognitive processes involved in visual word recognition. Students will learn current theories and research methods related to this area of psycholinguistics through in-depth discussion of the primary literature and by developing research projects based on this literature. May be repeated for credit as the specific topics dealt with in the course change. Prerequisite: LING 5300.

LING 5345. SEMANTICS. 3 Hours.
Graduate-level introduction to formal semantics, designed to prepare students for research with basic tools in Model-theoretic semantics and compositionality, including core topics such as negation, quantification, mood and modality, noun phrases, indefinites, definiteness, tense, aspect, and events, from a semantic and cross-linguistic perspective. May be repeated for credit as the topics of focus change. Prerequisite: LING 3340 or permission of instructor.

LING 5346. TOPICS IN APPLIED LINGUISTICS. 3 Hours.
This is a special topics course in Applied Linguistics. Topics may change semester-by-semester, based on instructor and other factors; may be repeated for credit as the topics of focus change.

LING 5347. PRAGMATICS. 3 Hours.
Analysis of how context and form interact with meaning. Topics may include deixis, reference, speech acts, presupposition, implicature, information structure and intonation. May be repeated for credit as the topics of focus change.

LING 5350. TEXT ANALYSIS. 3 Hours.
Methods of charting and analyzing texts to reveal the systematic contributions of pragmatic choices to their organization and meaning. May be repeated for credit as the topics of focus change. Prerequisite: LING 3340.

LING 5353. TEACHING ENGLISH AS A SECOND OR FOREIGN LANGUAGE. 3 Hours.
Presentation and critique of methodologies of teaching English to speakers of other languages, with emphasis on techniques related to Communicative Language Teaching.

LING 5354. METHODS AND MATERIALS TO TEACH ENGLISH AS A SECOND OR FOREIGN LANGUAGE. 3 Hours.
Systematic study of how to teach English to second/foreign language learners. Topics covered include the teaching of grammar, vocabulary, reading, writing, pronunciation, speaking, and listening.

LING 5360. NON-WESTERN LINGUISTIC STRUCTURES. 3 Hours.
Study of a selected non-Western language, language family or language area based on descriptive linguistic analysis. May be repeated for credit as the topic varies. Prerequisite: LING 3330 and LING 3340.

LING 5361. READINGS IN NON-WESTERN LINGUISTIC STRUCTURES. 3 Hours.
Readings in the linguistic structures of non-Western languages. Enrollment in the course is not sufficient to fulfill the non-Western language requirement. May be repeated for credit as the readings and topics of focus change.

LING 5362. LANGUAGE DOCUMENTATION. 3 Hours.
The course discusses fundamental issues that are part of language documenting and description. These include project design, research ethics and intellectual property, researcher and community rights and responsibilities, world language ecology, technology and software, archiving issues, grant-writing fundamentals, and related issues that form best practices for language documentation projects. May be repeated for credit as the topics of focus change. Prerequisite: LING 5300.

LING 5363. LANGUAGE ENDANGERMENT AND REVITALIZATION. 3 Hours.
This course examines language endangerment and what it means for a language to become endangered, and studies language revitalization. Case studies are presented where communities seek to maintain the number of speakers or revive the language. May be repeated for credit as the topics of focus change. Prerequisite: LING 5300.
LING 5370. HISTORY OF LINGUISTICS. 3 Hours.
Surveys the recent history of the field of linguistics and familiarizes students with the key figures and theories in recent linguistic history, with special attention to the development and emergence of key generative theories such as those of syntax, semantics, and phonology. May be repeated for credit as the topics of focus change. Prerequisite: LING 5320 or LING 5330.

LING 5371. SURVEY OF THEORIES IN APPLIED LINGUISTICS. 3 Hours.
A comparison and contrast of various linguistic theories, with consideration of their implications for application to real-world problems involving language. May be repeated for credit as the topics of focus change. Prerequisite: LING 5305.

LING 5372. READING IN LINGUISTICS. 3 Hours.
Readings in linguistics, tailored to student's areas of interest and instructor's expertise. May be repeated for credit when topic changes. Prerequisite: LING 5330.

LING 5380. FIELD METHODS. 3 Hours.
The principles, techniques and practical aspects of linguistic field research. The course includes extensive practice in eliciting data (phonological, morpho-syntactic, textual and lexical) directly from a native speaker, as well as in managing, analyzing and describing the data obtained. Course may be repeated for credit when topic changes. Prerequisite: LING 5300. Permission of the Graduate Advisor.

LING 5381. CORPUS LINGUISTICS. 3 Hours.
Applications of ways in which computer science and linguistics inform each other. Corpus linguistics focuses on how computers can be used to both obtain the data that we examine and to provide the tools we use for analysis. Includes readings, practical experience with several different software programs, and using sources of online corpora. May be repeated for credit as the topics of focus change.

LING 5391. CONFERENCE COURSE IN LINGUISTICS. 3 Hours.

LING 5392. THESIS SUBSTITUTE. 3 Hours.

LING 5393. TESOL TEACHING AND OBSERVATION. 3 Hours.
In this course, students will work regularly and consistently with an organization where English is taught. Students will observe, teach, guide, and participate in activities in order to demonstrate ability to apply the principles of Communicative Language Teaching in an English Language Learning environment. Prerequisite: Permission of the graduate advisor.

LING 5395. GRADUATE INTERNSHIP. 3 Hours.
Employment (paid or unpaid) supervised by a faculty internship coordinator, with the student performing duties related to the academic curriculum of linguistics and/or TESOL. Students are required to submit an approved academic project related to the work performed. May be repeated with approval of Graduate Advisor.

LING 5398. THESIS. 3 Hours.

LING 5691. CONFERENCE COURSE IN LINGUISTICS. 6 Hours.
Independent study in the preparation of a paper on a research topic; consultation with instructor on a regular basis. May be repeated for credit.

LING 5698. THESIS. 6 Hours.

LING 5998. THESIS. 9 Hours.

LING 6100. LINGUISTICS GRADUATE PROGRAM SUCCESS. 1 Hour.
This course introduces PhD students in Linguistics to the expectations of graduate school, including being a good TA, recognizing the importance of research and revision, and general academic success skills to aid the transition into a graduate program.

LING 6191. RESEARCH IN LINGUISTICS. 1 Hour.
Prerequisite: permission of instructor.

LING 6199. DISSERTATION. 1 Hour.

LING 6291. RESEARCH IN LINGUISTICS. 2 Hours.
Prerequisite: permission of instructor.

LING 6300. PROFESSIONAL WRITING SEMINAR. 3 Hours.
Workshop in producing the writing genres expected of professional academic linguists. May be repeated for credit as the topics of focus change. Prerequisite: Completion of at least 9 hours of graduate LING courses.

LING 6360. DISCOURSE THEORY SEMINAR. 3 Hours.
Seminar on the theory of discourse in linguistics. May be repeated for credit as the instructor and topics of focus change. Prerequisite: permission of instructor.

LING 6380. FIELD METHODS SEMINAR. 3 Hours.
Second part of field methods sequence. May be repeated for credit as the student's topic of focus changes. Prerequisite: LING 5380.

LING 6381. STATISTICS FOR LINGUISTS. 3 Hours.
In this course, students learn the fundamentals of quantitative research in linguistics and language-related fields. Students learn how to develop viable research hypotheses, how to collect and manage the data necessary to evaluate these hypotheses, and how to analyze data using standard statistical tests. May be repeated for credit as the topics of focus change.
LING 6390. LINGUISTICS SEMINAR. 3 Hours.
Seminar in linguistics. Course may be repeated for credit when topic or instructor changes. Prerequisite: permission of instructor.

LING 6391. RESEARCH IN LINGUISTICS. 3 Hours.
Designed for doctoral students pursuing dissertation proposal research under the direction of a faculty supervisor. Prerequisite: Permission of instructor.

LING 6392. SEMINAR IN PHONETICS AND PHONOLOGY. 3 Hours.
In-depth investigation of research into a specialized area of phonetics and/or phonology. Course registrants will develop original research focusing on topic at-hand, with results exchanged through discussion, presentations/reports, and/or papers. Prerequisites: LING 5321 or permission of the instructor.

LING 6393. SEMINAR IN SYNTAX. 3 Hours.
In-depth investigation of research into a specialized area of syntax. Course registrants will develop original research focusing on topic at-hand, with results exchanged through discussion, presentations/reports, and/or papers. Prerequisites: LING 5331 or permission of instructor.

LING 6394. SEMINAR IN SEMANTICS AND PRAGMATICS. 3 Hours.
In-depth investigation of research into a specialized area of meaning: semantics and/or pragmatics. Course registrants will develop original research focusing on topic at-hand, with results exchanged through discussion, presentations/reports, and/or papers. Prerequisites: LING 5345 or LING 5347 or permission of instructor.

LING 6395. SEMINAR IN SECOND LANGUAGE ACQUISITION. 3 Hours.
In-depth investigation of research into a specialized area of second language acquisition. Course registrants will develop original research focusing on topic at-hand, with results exchanged through discussion, presentations/reports, and/or papers. Prerequisites: LING 5305 or permission of the instructor.

LING 6399. DISSERTATION. 3 Hours.

LING 6491. RESEARCH IN LINGUISTICS. 4 Hours.
Prerequisite: permission of instructor.

LING 6591. RESEARCH IN LINGUISTICS. 5 Hours.

LING 6691. RESEARCH IN LINGUISTICS. 6 Hours.
Designed for doctoral students pursuing dissertation proposal research under the direction of a faculty supervisor. Prerequisite: Permission of instructor.

LING 6699. DISSERTATION. 6 Hours.

LING 6991. RESEARCH IN LINGUISTICS. 9 Hours.
Designed for doctoral students pursuing dissertation proposal research under the direction of a faculty supervisor. Prerequisite: Permission of instructor.

LING 6999. DISSERTATION. 9 Hours.

LING 7399. DOCTORAL DEGREE COMPLETION. 3 Hours.
This course may be taken during the semester in which a student expects to complete all requirements for the doctoral degree and graduate. Enrolling in this course meets minimum enrollment requirements for graduation, for holding fellowships awarded by The Office of Graduate Studies and for full-time GTA or GRA positions. Students should verify that enrollment in this course meets other applicable enrollment requirements. To remain eligible in their final semester of study for grants, loans or other forms of financial aid administered by the Financial Aid Office must enroll in a minimum of 5 hours as required by the Office of Financial Aid. Other funding sources may also require more than 3-hours of enrollment. Additional hours may also be required to meet to requirements set by immigration law or by the policies of the student's degree program. Students should contact the Financial Aid Office, other sources of funding, Office of International Education and/or their graduate advisor to verify enrollment requirements before registering for this course. This course may only be taken twice. Students who do not complete all graduation requirements while enrolled in this course must enroll in a minimum of 6 dissertation hours (6699 or 6999) in their graduation term. Graded P/F/R.
Linguistics - Graduate Programs

Objectives

The Department of Linguistics and TESOL at the University of Texas at Arlington provides coursework in both linguistics and in TESOL. Department programs seek to deepen understanding of language by examining how it is represented, used, and processed. We work toward this goal through courses in theoretical linguistics, focusing on phonology, syntax, semantics, pragmatics, and psycholinguistics as well as the interfaces among these domains of inquiry. In order to explore questions in these areas, we provide training in multiple methods, including field methods, corpus-based methods, and experimental research methods, to collect and analyze data from a wide range of the world’s languages, and from both native and non-native speakers of these languages. This approach to the scientific study of language is the primary focus of our PhD, MA, and BA degrees in Linguistics.

In addition, the department has a separate track in the Teaching of English to Speakers of Other Languages (TESOL), offered through our MA in TESOL and TESOL certificates. Students may choose either online or on campus instruction for our graduate TESOL program offerings. This program trains professionals who will teach English to second and foreign-language learners. Our TESOL students build a strong foundation in teaching methodologies, language testing, second language acquisition, and other applied areas of linguistics.

For further information on the graduate degree programs in Linguistics or in TESOL, consult the program’s Web site at http://www.uta.edu/linguistics/current-students/degrees/index.php; or contact the Graduate Advisor for admissions; http://www.uta.edu/linguistics/current-students/advising/index.php.

Admission Requirements for MA Programs in Linguistics or in TESOL

In evaluating candidates for admissions to its graduate degree programs, the Linguistics & TESOL faculty have adopted a comprehensive approach that is sensitive to the diversity of backgrounds of its applicants. To this end, the following constellation of quantitative and qualitative factors has been established to make explicit the range of criteria upon which admissions decisions will be based. These factors are then applied to the Admission Metrics established for each degree program.

Admission Factors

Admission decisions into a degree program in the Department of Linguistics & TESOL are made on the basis of two types of factors, quantitative and qualitative.

a. Quantitative Factors
   i. Grade Point Average (GPA). For M.A. program applicants, undergraduate GPA is determined by the U.T. Arlington Graduate School.
   ii. Graduate Record Examination (GRE) Scores. All applicants are required to submit GRE scores. There are no exceptions. The Department of Linguistics & TESOL evaluates each applicant’s sub-scores separately: verbal, quantitative, and analytical.
   iii. TOEFL Scores (international applications only) Applicants for whom English is not their native language and who have not been granted either an undergraduate or graduate degree by an English-medium institution must also present a Test of English as a Foreign Language (TOEFL) or IELTS equivalent score. There are no exceptions.

b. Qualitative Factors
   i. Letters of Recommendation. Each applicant must present three (3) letters of recommendation that unequivocally indicate that the applicant is prepared for and capable of successful graduate study in linguistics or TESOL at U.T. Arlington. The letters should further indicate that the applicant is capable of completing the appropriate degree program.
   ii. Statement of intent for academic study in our department. Each applicant must write a statement that explains their plan of study and specialization in our department. The statement will be evaluated on the degree to which it is clear, reasonable, and consistent with the research and teaching agenda of the current faculty in Linguistics & TESOL at U.T. Arlington. The statement should also convey a level of commitment and maturity commensurate with the applicant’s desired degree goals.
   iii. Undergraduate Preparation. Applicants to the M.A. in TESOL program should have passed the following three courses or reasonable equivalents as determined by the TESOL graduate advisor (U.T. Arlington equivalents are noted in parentheses):
      1. English composition (ENGL 1302)
      2. A course on English-language literature (ENGL 2319, ENGL 2329)
      3. The equivalent of a fourth-semester course in a foreign language (SPAN 2314, FREN 2314, etc.). Students whose undergraduate education was delivered in a language other than English are exempt from this requirement.
   iv. Writing Sample (required for PhD applicants, optional for MA programs): Applicants must submit an academic writing sample (research paper) of 20 pages or less. The paper must be in an area of language, teaching, or linguistic study, and demonstrate a strong prose style, a solid handle on argumentation, and the ability to do academic research in linguistics or a closely related field.

Admission Metrics

In formulating a recommendation for admission, the graduate advisors will apply the following admission metrics to each applicant’s admission dossier.
a. M.A. in Linguistics
   i. Unconditional Admission. Typically, applicants for the M.A. in Linguistics will be offered unconditional admission if they meet either of the following sets of criteria:
      1. The applicant presents an undergraduate GPA of at least 3.0, a GRE Verbal score of at least 150 on, a GRE Quantitative score of at least 146, a GRE Analytical score of at least 4.5, and a full set of acceptable Qualitative Factors. In addition, applicants for whom English is not their native language and who have not been granted an undergraduate degree by an English-medium institution must also present a Test of English as a Foreign Language (TOEFL) score of at least 100 iBT or IELTS equivalent score.
      2. The applicant presents an undergraduate GPA of at least 3.5, a GRE Verbal score of at least 146, a GRE Analytical score of at least 4.0, and a full set of acceptable Qualitative Factors. In addition, applicants for whom English is not their native language and who have not been granted an undergraduate degree by an English-medium institution must also present a Test of English as a Foreign Language (TOEFL) score of at least 100 iBT or IELTS equivalent score.
   
   ii. Probationary Admission. Applicants for the M.A. in Linguistics typically present a complete application that has one of the following:
      1. includes a GRE Verbal score of less than 146; or
      2. includes a GRE Quantitative score of less than 144; or
      3. includes a GRE Analytical score of less than 4.0; or
      4. lacks the undergraduate preparation specified above, but who otherwise meet a majority of the remaining admission criteria (including a graduate GPA of at least 3.0), will be eligible for probationary admission. Students on probation must:
         • complete any undergraduate courses necessary for unconditional admission during their first two semesters of study; and
         • achieve a GPA of at least 3.3 in the first 9 graduate-level credit hours (in LING courses) as an M.A. Linguistics student.

b. M.A. in TESOL
   i. Unconditional Admission. Typically, applicants for the M.A. in TESOL will be offered unconditional admission if they meet either of the following two sets of criteria:
      1. The applicant presents an undergraduate GPA of at least 3.0, a GRE Verbal 156, a GRE Quantitative score of at least 141, a GRE Analytical score of at least 4.5, and a full set of Qualitative Factors. In addition, applicants for whom English is not their native language and who have not been granted an undergraduate degree by an English-medium institution must also present a Test of English as a Foreign Language (TOEFL) score of at least 100 iBT or IELTS equivalent score.
      2. The applicant presents an undergraduate GPA of at least 3.5, a GRE Verbal score of at least 153, a GRE Quantitative score of at least 140, a GRE Analytical score of at least 4.0, and a full set of Qualitative Factors. In addition, applicants for whom English is not their native language and who have not been granted an undergraduate degree by a English-medium institution must also present a Test of English as a Foreign Language (TOEFL) score of at least 100 iBT or IELTS equivalent score.
   
   ii. Probationary Admission. Applicants for the M.A. in TESOL typically present a complete application that has one of the following:
      1. includes a GRE Verbal score of less than 153; or
      2. includes a GRE Quantitative score of less than 140; or
      3. includes a GRE Analytical score of less than 4.0; or
      4. lacks the undergraduate preparation specified above but who otherwise meet a majority of the remaining admission criteria (including an undergraduate GPA of at least 3.0), will be eligible for probationary admission. Students on probation must:
         • complete any undergraduate courses necessary for unconditional admission during their first two semesters of study; and
         • achieve a GPA of at least 3.3 in the first 9 graduate-level courses taken as an M.A. TESOL student.

**Master’s Degree Requirements**

**LINGUISTICS**

Graduate programs in linguistics are primarily designed for those with a background in one or more foreign languages and/or a background in the linguistic aspects of the English language. A graduate career in linguistics may also be appropriate to those with undergraduate study in anthropology, psychology, computer science, philosophy, or religion. Applicants without formal training in linguistics are invited to apply, provided that they are prepared to meet the department’s requirements for leveling courses.

Requirements for master’s and doctoral degrees are given in the Advanced Degrees and Requirements section of this catalog. In addition, the following apply to those pursuing a graduate degree in linguistics:

All students pursing a graduate degree in linguistics must meet the degree prerequisites and must take the core courses appropriate to their degree as published on the department’s Web site, [http://www.uta.edu/linguistics/current-students/degrees/index.php](http://www.uta.edu/linguistics/current-students/degrees/index.php).

**Linguistics Degree Plan**

**M.A. Non-Thesis Degree Plan:** 36 hours of graduate-level coursework plus comprehensive examination on the coursework.
or LING 5322 LABORATORY PHONOLOGY
LING 5330 FORMAL SYNTAX
LING 5347 PRAGMATICS
or LING 5345 SEMANTICS
LING 5328 PSYCHOLINGUISTICS: SENTENCE PROCESSING
or LING 5318 APPLIED PSYCHOLINGUISTICS
or LING 5338 PSYCHOLINGUISTICS: VISUAL WORD RECOGNITION

Elective Courses ¹ 24

Total Hours 39

¹ Students with no prior study in linguistics (as indicated by an official transcript) will be encouraged to complete the following three leveling courses before enrolling in more advanced courses:
• LING 5300: Linguistic Analysis
• LING 3330: Phonetics and Phonology
• LING 3340: Grammar and Morphology

These leveling classes will be counted towards the 24 credit elective-course requirement. Please consult your Linguistics MA advisor before selecting electives.

TESOL Degree Plan

The graduate degree in TESOL is primarily designed for those intending to teach English to adult learners, either in US colleges, in conjunction with community groups, or by working abroad.

M.A. Non-Thesis Degree Plan: 36 hours of graduate-level coursework plus comprehensive examination on the coursework.

Core Linguistics Courses 6
LING 5309 LINGUISTICS FOR LANGUAGE PROFESSIONALS
LING 5305 SECOND LANGUAGE ACQUISITION

Core TESOL Courses 18
LING 5301 INTRO TO COMMUNICATIVE LANGUAGE TEACHING
LING 5302 METHODS IN TEACHING READING AND WRITING
LING 5304 PEDAGOGICAL GRAMMAR OF ENGLISH
or LING 5307 PEDAGOGICAL PHONOLOGY OF ENGLISH
LING 5315 READINGS AND RESEARCH IN PEDAGOGY AND PRACTICE
or LING 5308 LANGUAGE ASSESSMENT
or LING 5318 APPLIED PSYCHOLINGUISTICS
LING 5316 TEACHING WITH TECHNOLOGY
or LING 5310 SOCIOLINGUISTICS
or LING 5326 BILINGUALISM
LING 5393 TESOL TEACHING AND OBSERVATION

Electives ² 12

Total Hours 36

² Up to 2 elective courses (6 credits) may be taken from another department. Please consult your TESOL MA advisor before selecting electives.

All M.A. TESOL students must demonstrate knowledge of a foreign language prior to unconditional admission to the degree program. Those without such background may pursue study of a foreign language at U.T. Arlington concurrent with probationary enrollment in the M.A. TESOL program.

For additional information on prerequisites or degree requirements, consult the TESOL graduate advisor.

Admission Requirements for the PhD in Linguistics

In evaluating candidates for admissions to its graduate degree programs, the Linguistics & TESOL faculty have adopted a comprehensive approach that is sensitive to the diversity of backgrounds of its applicants. To this end, the following constellation of quantitative and qualitative factors has been established to make explicit the range of criteria upon which admissions decisions will be based. These factors are then applied to the Admission Metrics established for each degree program.
Admission Factors

Admission decisions into a degree program in the Department of Linguistics & TESOL are made on the basis of two types of factors, quantitative and qualitative. PhD applicants must include an academic writing sample.

a. Quantitative Factors
   i. Grade Point Average (GPA)
      1. For Ph.D. program applicants, GPA is based on all graduate work completed and recorded at the time the applicant submits an application for admission.
      2. For BA-to-PhD applicants, GPA is on the undergraduate GPA as determined by the UT Arlington Graduate School.
   ii. Graduate Record Examination (GRE) Scores. All applicants are required to submit GRE scores. There are no exceptions. The Department of Linguistics & TESOL evaluates each applicant’s sub-scores separately: verbal, quantitative, and analytical.
   iii. TOEFL Scores (international applications only) Applicants for whom English is not their native language must also present a Test of English as a Foreign Language (TOEFL) or IELTS equivalent score. There are no exceptions.

b. Qualitative Factors
   i. Letters of Recommendation. Each applicant must present three (3) letters of recommendation that unequivocally indicate that the applicant is prepared for and capable of successful graduate study in linguistics or TESOL at UT Arlington. The letters should further indicate that the applicant is capable of completing the appropriate degree program.
   ii. Statement of intent for academic study in our department. Each applicant must write a statement that explains their plan of study and specialization in our department. The statement will be evaluated on the degree to which it is clear, reasonable, and consistent with the research and teaching agenda of the current faculty in Linguistics & TESOL at UT Arlington. Prospective applicants should consider the departmental website and faculty research and teaching areas as they evaluate whether they would be able to accomplish their plan of study in our department, especially if they are applying to the doctoral program. Possible areas of specialization are those outlined at http://www.uta.edu/linguistics/current-students/degrees/phd-linguistics/index.php (http://www.uta.edu/linguistics/current-students/degrees/phd-linguistics/). The statement should also convey a level of commitment and maturity commensurate with the applicant’s desired degree goals.
   iii. Applicants to the Ph.D. in Linguistics programs should have passed the following three courses or reasonable equivalents as determined by the graduate advisor (UT Arlington equivalents are noted as in parentheses):
      1. English composition (ENGL 1302)
      2. College-level mathematics (MATH 1302)
      3. A laboratory science (any 1000-level course in BIOL, CHEM, GEOL or PHYS; LING 5322 may also be used to fulfill this requirement)
   iv. Applicants to the Ph.D. and the BA-to-Ph.D. in Linguistics programs should present all of the following: evidence of research activity during undergraduate studies; an undergraduate transcript showing coursework which demonstrates that the applicant has passed with a B or higher the following three courses or reasonable equivalents as determined by the graduate advisor (UT Arlington equivalents are noted as in parentheses):
      1. Introduction to linguistics (LING 3311/LING 5300)
      2. Phonetics and phonology (LING 3330)
      3. Morphology and syntax (LING 3340)
   v. Previous Graduate Work. Ph.D. applicants must present at least 30 semester credit hours of previous graduate-level coursework in any field (not necessarily linguistics) and must meet the linguistics course equivalents (LING 3311/LING 5300, LING 3330, LING 3340).
   vi. Ph.D. applicants who present fewer than 30 semester credit hours will be assessed based on whether they meet the criteria for unconditional admission for the accelerated Ph.D. in linguistics, and whether their coursework includes the linguistics course equivalents (LING 3311/LING 5300, LING 3330, LING 3340). Such candidates who meet the unconditional admission criterion and who also have passed the three linguistics course equivalents will be considered for the BA-to-PhD program (i.e., "doctoral-bound"). Ph.D. applicants who present fewer than 30 semester credit hours and do not meet the unconditional admission criterion AND also the criterion of passing the three linguistics course equivalents will automatically be considered as applicants to the M.A. Linguistics program.
   vii. Writing Sample (required for Ph.D. applicants): Applicants must submit an academic writing sample (research paper) of 20 pages or less. The paper must be in an area of language or linguistic study, and demonstrate a strong prose style, a solid handle on argumentation, and the ability to do academic research in linguistics or a closely related field.

Admission Metrics

In formulating a recommendation for admission, the graduate advisors will apply the following admission metrics to each applicant’s admission dossier.

a. BA-to-Ph.D. applicants in Linguistics
   i. Unconditional admission. Typically, applicants for the BA-to-Ph.D. in Linguistics program must be admitted unconditionally. Unconditional admission requirements are as follows. The applicant presents an undergraduate GPA of at least 3.6 (on a 4.0 scale) based on upper division course work (junior and senior level or equivalent) in a four year BA in linguistics program or a BA or BS in an allied field. Regardless of degree program, the coursework must include courses equivalent to LING 3330 and LING 3340. In addition, the applicant presents a GRE Verbal score of at least 150, a GRE Quantitative score of at least 146, a GRE Analytical score of at least 4.0, and a full set of excellent Qualitative Factors. In addition, applicants for whom English is not their native language and who have not been granted an undergraduate degree by an English-medium institution must also submit a Test of English as a Foreign Language (TOEFL) score of at least 100 iBT or its IELTS equivalent...
and also submit a score from the Speaking Section of the TOEFL iBT, or the Speaking Section of the IELTS that documents the applicant’s proficiency in spoken English. The speaking score is used for making determination for assistantships; applicants who wish to be considered for an assistantship must receive a score of 23 on the Speaking Section of the TOEFL iBT, or a score of 7 on the Speaking Section of the IELTS. This and other requirements for holding an assistantship are described in the Graduate Assistantship/Associateship Policy.

b. Ph.D. in Linguistics
   i. Unconditional Admission. Typically, applicants for the Ph.D. in Linguistics will be eligible for unconditional admission if they meet either of the following sets of criteria:
      1. The applicant presents a graduate GPA of at least 3.3, a GRE Verbal score of at least 500 (153 on the 2011 or later version), a GRE Quantitative score of at least 600 (148 on the 2011 or later version), a GRE Analytical score of at least 4.5, and a full set of excellent Qualitative Factors. In addition, applicants for whom English is not their native language and who have not been granted an undergraduate degree by an English-medium institution must also submit scores on the Speaking section of either the Test of English as a Foreign Language (TOEFL) or the IELTS. In addition, applicants for whom English is not their native language and who have not been granted an undergraduate degree by an English-medium institution must also submit a Test of English as a Foreign Language (TOEFL) score of at least 100 iBT, or 250 if computer based, or 600 if paper based (or its IELTS equivalent) and also submit a score from the Test of Spoken English, the Speaking Section of the TOEFL iBT, or the Speaking Section of the IELTS that documents the applicant’s proficiency in spoken English. The speaking score is used for making determinations for assistantships; applicants who wish to be considered for an assistantship must receive a score of 45 or higher on the TSE, a score of 23 on the Speaking Section of the TOEFL iBT, or a score of 7 on the Speaking Section of the IELTS. This and other requirements for holding an assistantship are described in the University’s Graduate Assistantship/Associateship Policy.
      2. The applicant presents an undergraduate GPA of at least 3.6, a GRE Verbal score of at least 150, a GRE Quantitative score of at least 146, a GRE Analytical score of at least 4.0, and a full set of excellent Qualitative Factors. In addition, applicants for whom English is not their native language and who have not been granted an undergraduate degree by an English-medium institution must also submit a Test of English as a Foreign Language (TOEFL) score of at least 100 iBT or its IELTS equivalent, and also submit a score from the Speaking Section of the TOEFL iBT or the Speaking Section of the IELTS that documents the applicants’ proficiency in spoken English. The speaking score is used for making determinations for assistantships; applicants who wish to be considered for an assistantship must receive a score of 23 on the Speaking Section of the TOEFL iBT, or a score of 7 on the Speaking Section of the IELTS. This and other requirements for holding an assistantship are described in the University’s Graduate Assistantship/Associateship Policy.
   ii. Probationary Admission. Applicants for the Ph.D. in Linguistics typically present a complete application that has one of the following:
      1. includes a GRE Verbal score of less than 150;
      2. or includes a GRE Quantitative score of less than 146; or
      3. includes a GRE Analytical score of less than 4.0
      4. lacks the undergraduate preparation specified above but who otherwise meet a majority of the remaining admission criteria (including a graduate GPA of at least 3.3 and for doctoral admissions, presents strong qualitative materials), will be considered for probationary admission. Students on probation must:
         • Deferred Admission Applicants for whom the admission file is incomplete will have a final decision admission deferred. In such cases, a final decision will be made only when the applicant presents a complete admission file.
         • Denial of Admission Applicants who do not meet a majority of the admission standards (both quantitative and qualitative) set forth above will be denied admission. For doctoral admission in particular, qualitative factors such as writing sample, statement of intent, or area of intended work may result in a student being denied admission even when quantitative factors are met.
         • Regarding Provisional Admission: The Department of Linguistics and TESOL does not permit Provisional Admission. All applicants must present a complete set of credentials before their application will be evaluated.

Doctoral Degree Requirements

LINGUISTICS

Graduate programs in linguistics are primarily designed for those with a background in one or more foreign languages and/or a background in the linguistic aspects of the English language. A graduate career in linguistics may also be appropriate to those with undergraduate study in anthropology, psychology, computer science, philosophy, or religion. Applicants without formal training in linguistics are invited to apply, provided that they are prepared to meet the department’s requirements for leveling courses.

Requirements for master’s and doctoral degrees are given in the Advanced Degrees and Requirements section of this catalog. In addition, the following apply to those pursuing a graduate degree in linguistics:

All students pursuing a graduate degree in linguistics must meet the degree prerequisites and must take the core courses appropriate to their degree as published on the department’s Web site, [http://www.uta.edu/linguistics/current-students/degrees/index.php](http://www.uta.edu/linguistics/current-students/degrees/index.php).

PH.D. DEGREE PLAN

Students entering the Ph.D. program (including those entering as doctoral-bound) must enter having the equivalent of LING 5300/LING 3311, LING 3330, and LING 3340. In the first two semesters of the program, students are expected to enroll in the core required classes. The doctoral degree...

requires graduate coursework as follows: 21 hours of linguistic core courses, 6 hours of methods courses, 3 hours of professional development, 15 hours of electives, 3 hours of dissertation proposal preparation (LING 6391) and a minimum of 9 hours of dissertation (LING 6999). Students entering with a M.A. in linguistics from UTA may be able to waive up to 15 hours, at the discretion of the department, for equivalent courses completed at a B or higher in their master’s program.

**Theoretical Core Courses**

All Ph.D. students must demonstrate knowledge of core areas in linguistics by passing the diagnostic examination requirement outlined on the departmental website.

Doctoral students must satisfy all the coursework requirements of the doctoral program prior to taking courses that do not fulfill the requirements. Any exception to this policy must be approved by a majority vote of the Graduate Studies Committee.

In addition, there are foreign language and professional activities requirements that must be met. Visit [http://www.uta.edu/linguistics/current-students/degrees/phd-linguistics/index.php](http://www.uta.edu/linguistics/current-students/degrees/phd-linguistics/index.php) for details.

**Admissions Requirements for the Graduate Certificate in TESOL**

Students wishing to apply to the UT Arlington Graduate School solely for the purpose of earning the Graduate Certificate in TESOL must have earned an undergraduate degree at an accredited institution and present an undergraduate GPA of at least 3.0 (as determined by the UT Arlington Graduate School). Applicants for whom English is not their native language and who have not been granted an undergraduate degree by an English-medium institution must also present an official Test of English as a Foreign Language (TOEFL) score of at least 100 iBT, or IELTS equivalent score.

Students seeking to transfer from Special Student or Certificate status into a graduate degree program at UT Arlington must re-apply to the U.T. Arlington Graduate School as degree-seeking students and meet all published admissions requirements, including those pertaining to standardized tests. No student will be “automatically” or “exceptionally” moved from Special Student or Certificate status into any graduate degree program.

The Web site for the UT Arlington Office of Graduate Studies provides additional information about graduate study at UT Arlington and about the admission process, including general testing requirements and other paperwork. Students may apply for admission online or request application materials be sent via post.
Certificate in Teaching English to Speakers of Other Languages (TESOL)

This program provides preparation through study and practice for the individual who wishes to teach English to speakers of other languages. It is available to any student who has been admitted to the Graduate School at UT Arlington.

The certificate requires:

Practicum

| LING 5110 TESOL PRACTICUM | 1     |

Total Hours 19

1. LING 5309 (or equivalent linguistics course work) is a prerequisite for LING 5305.
2. LING 5301 is a prerequisite for LING 5304 and LING 5307 PEDAGOGICAL PHONOLOGY OF ENGLISH.
3. Even if the student presents an equivalency of LING 5300, LING 5301, and/or other course work, the 18-hour requirement must be met.

A maximum of three credit hours of course work done at another institution can be transferred in and counted toward the certificate (with an official transcript submitted to show this course, and with approval of the graduate advisor.)

Upon beginning study for the certificate, the student should contact the Graduate Advisor in TESOL to declare the intention to earn the certificate.
# Linguistics and TESOL - Undergraduate Programs

## Overview

Linguistics is the discipline that studies the structures, acquisition, and histories of human languages around the world. Linguists are not, then, principally people who know many languages, but rather people who investigate how a language is organized and what features all languages exhibit.

The Department of Linguistics and TESOL seeks to deepen our understanding of language by examining how it is represented, used, and processed. Our faculty members work toward this goal through research and teaching in theoretical linguistics, focusing on phonology, syntax, semantics, pragmatics, and psycholinguistics as well as the interfaces among these domains of inquiry. In order to explore questions in these areas, we use multiple methods, including field methods, corpus-based methods, and experimental research methods, to collect and analyze data from a wide range of the world’s languages, and from both native and non-native speakers of these languages. This approach to the scientific study of language is the primary focus of our BA degree in Linguistics.

In addition, the department has a separate track in the Teaching of English to Speakers of Other Languages (TESOL) offered through our TESOL minor and certificate. These courses train professionals who will teach English to second and foreign-language learners. Our TESOL students build a strong foundation in teaching methodologies, language testing, second language acquisition, and other applied areas of linguistics.

The study of linguistics prepares students for a variety of careers, among them teaching English to speakers of other languages in the United States and abroad, brand naming (lexicon work), information and intelligence analyst, language policy, forensic linguistics and the law, computer analysis of language, language education, and graduate study in linguistics. Above all, students in the Department of Linguistics and TESOL are made especially aware of the complex world in which we live by studying a universal and most definitive human experience: language.

| **Linguistics Electives (3000 or 4000 level)** | 12 |
| **Enhanced Language Requirement** | 20 |
| **Total Hours** | 120 |

---

1 For a list of approved core courses, contact the University Advising Center or the student’s major department. Please note, UNIV 1131 (for Freshmen) or UNIV 1101 (for transfer students) is required of all majors.

2 Electives sufficient to complete the total number of hours required for the degree (120 hours) are required.

3 The enhanced language requirement consists of coursework that covers 3 years of foreign language study. Students must complete at least 2 years (14 hours) of coursework in a single language; the 3rd year may be upper-division courses in the same language, or courses in a different language (excluding MODL 2310). Classical, modern, signed or indigenous (for example, Native American) languages are all permissible languages to satisfy this requirement.
Requirements for a Minor in Linguistics

All undergraduate students who elect to minor in Linguistics must take:

- **LING 2301** INTRODUCTION TO THE STUDY OF HUMAN LANGUAGE 3
- **LING 3311** PRINCIPLES OF LINGUISTIC ANALYSIS 3
- **LING 3330** PHONETICS AND PHONOLOGY 3
  or **LING 3340** SYNTAX I
- One course at the 4000-level with a LING prefix 3
- Any other two undergraduate-level courses bearing the LING prefix 6
- **Total Hours**: 18

1 Students intending to pursue graduate study in linguistics should, however, follow a course program that includes these courses as part of their minor: LING 2301, LING 3311, LING 3330, and LING 3340.

Requirements for a Minor in TESOL

All undergraduates who elect to minor in TESOL must take:

- **LING 2371** LANGUAGE IN A MULTICULTURAL USA 3
- **LING 3309** LINGUISTICS FOR LANGUAGE TEACHERS 3
  or **LING 3311** PRINCIPLES OF LINGUISTIC ANALYSIS
- **LING 4325** SLA THEORIES AND THE TEACHING OF LANGUAGE 3
  or **LING 4327** SECOND LANGUAGE ACQUISITION
- **LING 4353** TEACHING ENGLISH AS A SECOND OR FOREIGN LANGUAGE 3
- **LING 4354** METHODS AND MATERIALS TO TEACH ENGLISH AS A SECOND OR FOREIGN LANGUAGE 3
- **LING 4395** INTERNSHIP IN TESOL 3
- **Total Hours**: 18

Requirements for an Alternate Minor

18 hours in an allied field (psychology, anthropology, philosophy, education, computer science, classical/modern languages) or another field approved by the undergraduate advisor.

A student may choose to use the same 18 hours to simultaneously satisfy the enhanced language requirement and the minor requirement. However, if language courses are used to fulfill both the Enhanced Language Requirement and the Minor Requirement, the student must complete the remaining 18 hrs with a second minor, to maintain a total of 120 hours for the degree.

Requirements for an Undergraduate Certificate in TESOL

Students interested in receiving theoretical and practical training in Teaching English to Speakers of Other Languages (TESOL) are encouraged to consider this five-course certificate program. The Undergraduate Certificate in TESOL offers a sequence of courses which introduces linguistics, second language acquisition, and methods and materials in TESOL instruction, paired with the an internship required to consist of 60 hours of volunteer ESL/literacy teaching in a local community service organization. Students take:

- **LING 2371** LANGUAGE IN A MULTICULTURAL USA 3
  or **LING 3309** LINGUISTICS FOR LANGUAGE TEACHERS
- **LING 4327** SECOND LANGUAGE ACQUISITION 3
- **LING 4353** TEACHING ENGLISH AS A SECOND OR FOREIGN LANGUAGE 3
- **LING 4354** METHODS AND MATERIALS TO TEACH ENGLISH AS A SECOND OR FOREIGN LANGUAGE 3
- **LING 4395** INTERNSHIP IN TESOL 3
- **Total Hours**: 15

Ideally, students should start the sequence with LING 2371 or LING 3309 and use LING 4395 as the final course in this sequence. This certificate is ideal for students interested in earning a credential to increase employment opportunities, such as teaching English abroad. This certificate can be paired with a bachelor's degree in another discipline. Students who are interested in earning the BA in Linguistics with the Undergraduate Certificate in TESOL may apply the 4000 level courses required by the certificate to the degree requirement of 12 hours at the 3000/4000 level. This optimal
seating will allow students to graduate with a BA in Linguistics and an Undergraduate Certificate in TESOL without adding additional hours to their degree requirements. Contact the Undergraduate Advisor for more information on this program.

COURSES

LING 2301. INTRODUCTION TO THE STUDY OF HUMAN LANGUAGE. 3 Hours.
An introduction to the scientific study of human language, using English as an example. Topics in the course include how sounds are produced, how words and sentences are structured, how and why language changes, how language is acquired by children and adults, how the brain processes language, and how language and society intersect.

LING 2321. CONSTRUCTED LANGUAGES. 3 Hours.
This course is an introduction to constructed languages. Presentation, examination, and analysis of constructed languages, such as Esperanto, Klingon, Dothraki, and many others.

LING 2351. LANGUAGE AND TECHNOLOGY. 3 Hours.
Fundamentals of how technology is used to represent, process, and organize human language. We will examine modern technologies such as autocorrect, speech synthesis, speech recognition, machine translation, and chatbots. Students will be able to describe fundamentals of how these technologies work, with a focus on the aspects of human language that present challenges for their development. We will also examine social and ethical considerations surrounding language technology, such as privacy, machine intelligence, and bias.

LING 2371. LANGUAGE IN A MULTICULTURAL USA. 3 Hours.
The relationship between language in the U.S. and social power. This course explores how negative attitudes toward some language varieties and languages spoken in the U.S. arise from social factors, rather than features of the languages themselves. In addition to studying language varieties, the course shows how American institutions such as the educational system and the media reinforce these negative attitudes and contribute to discrimination. Offered as AAST 2371 and LING 2371; credit will be granted in only one department.

LING 2391. CONFERENCE COURSE IN LINGUISTICS. 3 Hours.
Independent study in Linguistics and TESOL. Consultation with instructor on a regular basis. May be repeated for credit. Prerequisite: Permission of the instructor.

LING 3301. TOPICS IN LINGUISTICS. 3 Hours.
Covers issues related to language and linguistics. Topics may include language and film/literature/pop culture, endangered languages, speech synthesis, applied linguistics, or other topics determined by instructor. May be repeated for credit when content changes. No prerequisites.

LING 3309. LINGUISTICS FOR LANGUAGE TEACHERS. 3 Hours.
An examination and analysis of the linguistic structures of English, with a focus on how this knowledge can inform language teaching.

LING 3311. PRINCIPLES OF LINGUISTIC ANALYSIS. 3 Hours.
This course prepares students for the systematic study of human language. Drawing on data from a range of languages, it will examine the sound patterns of language (phonetics and phonology), words and word formation (morphology), sentence structure (syntax), meaning (semantics), and language in context (pragmatics). Emphasis will be placed on methods of linguistic analysis to solve problems in phonology, morphology, syntax, and semantics. Additional topics may include language acquisition; linguistic variation; and/or historical/comparative linguistics.

LING 3330. PHONETICS AND PHONOLOGY. 3 Hours.
Introduction to the scientific study of speech sounds and sound patterns in the world's languages. We will explore how human speech sounds are produced, how to describe speech sounds, and the patterns in how sounds combine to make words in different languages. Prerequisite: LING 3311 with a grade of C or better.

LING 3340. SYNTAX I. 3 Hours.
An examination of syntactic investigation, developed primarily through the study of central aspects of English syntax. A major purpose is to introduce students to the study of language as an empirical science. Prerequisite: LING 3311 with a grade of C or better.

LING 3345. CRITICAL REASONING IN LINGUISTICS. 3 Hours.
A survey of formal logical approaches used to describe and explain natural language phenomena. Topics include the fundamentals of logical representation and argumentation, the effective use of inductive and deductive reasoning, and the construction of more complex linguistic arguments. Prerequisites: LING 3311 and either PHIL 1301 or PHIL 3321.

LING 3350. LEXICAL SEMANTICS. 3 Hours.
Examines meaning at the lexical level. Topics may include ways of describing meaning (sense and reference, componential analysis and prototype theory), organizing meaning (the mental lexicon, connotation and euphemism, linguistic relativity), and applying these concepts to analyzing word classes. Prerequisite: LING 3311 with a grade of C or better.

LING 3360. LANGUAGE ACQUISITION. 3 Hours.
An examination of the principles and patterns that underlie the acquisition of language, with a focus on child language acquisition. Prerequisite: LING 3311 or LING 3309, with a grade of C or better.

LING 3366. TOPICS IN RACE/ETHNICITY AND LANGUAGE IN THE U.S. 3 Hours.
Either an intensive focus within one racial/ethnic group or a comparison between two or more groups. Focus may include language in the U.S. as it pertains to one (or more) of these communities: African Americans, Mexican Americans and Latinos/as, Native Americans, and/or Asian Americans. May be repeated for credit as course content changes.
LING 3370. PSYCHOLOGY OF LANGUAGE. 3 Hours.
An examination of psycholinguistics, or the cognitive processes involved in the acquisition, comprehension, and production of language. The class will focus mainly on language perception and production by native speakers, but will also address issues related to bilingual/second language processing. Prerequisite: LING 3311 with a grade of C or better, or instructor approval.

LING 3391. CONFERENCE COURSE IN LINGUISTICS. 3 Hours.
Independent study in Linguistics and TESOL. Consultation with instructor on a regular basis. May be repeated for credit. Prerequisite: Permission of the instructor.

LING 4301. PHONOLOGICAL THEORY I. 3 Hours.
Investigation of the sound systems of language with a focus on building analytical skills. Students will conduct hands-on phonological analysis with real language data and develop familiarity with common phonological patterns in the world's languages. Prerequisite: LING 3330 with a grade of C or better.

LING 4303. SYNTAX II. 3 Hours.
Continuation of LING 3340, which explores further aspects of English syntax; universal and language-particular constraints on syntactic structure and rules. Further development and extensions of the generative approach to syntactic investigation. Prerequisite: LING 3340 with a grade of C or better.

LING 4317. SOCIOLINGUISTICS. 3 Hours.
Language in its social context, including linguistic variation, address and reference, speech levels, bilingualism, code switching, speech acts, conversation analysis, and language and gender. Prerequisite: LING 3311.

LING 4318. LANGUAGE AND GENDER. 3 Hours.
The role of language in the expression and creation of gender identities. Gender differences in language structure and use, women's and men's language in other cultures, the acquisition of gendered ways of speaking, and sexism in language. Offered as LING 4318 and GWSS 4318; credit will be granted only once. Prerequisite: LING 3311.

LING 4320. HISTORICAL AND COMPARATIVE LINGUISTICS. 3 Hours.
(Also taught as LING 5314). Language development and change; the comparative method and its use in linguistic reconstruction; laws of language change. Prerequisite: LING 3311.

LING 4325. SLA THEORIES AND THE TEACHING OF LANGUAGE. 3 Hours.
An examination of a variety of theories in Second Language Acquisition, with a focus on how this knowledge informs classroom practice for teachers of ESL and other languages. Prerequisite: LING 3309 or LING 3311.

LING 4326. BILINGUALISM. 3 Hours.
An examination of issues related to bilinguals and bilingualism. The areas that will be covered include different types of bilingual/bilingualism, bilingual education, the cognitive benefits or disadvantages of being a bilingual, and language processing in bilinguals. Prerequisite: LING 3311 with a grade of C or better.

LING 4327. SECOND LANGUAGE ACQUISITION. 3 Hours.
This course focuses on second language acquisition. Topics include the similarities and differences between first and second language acquisition, perception and production in native and non-native languages, and the implications of second language acquisition and processing research for theoretical linguistics and language teaching. Prerequisite: LING 2301, LING 2371, LING 3309, or LING 3311.

LING 4328. PSYCHOLINGUISTICS. 3 Hours.
This course will focus on the cognitive processes involved in the comprehension and production of language. The class will involve opportunities for hands-on experience using psycholinguistics research methods. Prerequisite: LING 3370 or LING 3311 with a grade of C or better, or instructor approval.

LING 4330. CORPUS LINGUISTICS. 3 Hours.
Applications of the ways computer science and linguistics inform each other. Corpus linguistics focuses on how computers can be used to both obtain the data that we examine and to provide the tools we use for analysis. Introduces practical experience with concordancing and OCR software, using regular expressions, and sources of online corpora. Prerequisite: LING 3311.

LING 4334. MORPHOLOGY. 3 Hours.
A theoretical and typological investigation into the nature of word-structure and word-formation processes in human languages. Prerequisite: LING 4301 or LING 4303.

LING 4335. LANGUAGE UNIVERSALS & LINGUISTIC TYPOLOGY. 3 Hours.
Consideration of universals in human language, their explanation and description, and language types. Prerequisite: LING 4301.

LING 4345. FORMAL SEMANTICS. 3 Hours.
Examination of empirical facts, fundamental goals, and current techniques of formal semantic theory with a goal toward independent research. Topics include basic tools of current semantic theory and various core topics concerning meaning in English and other languages. Prerequisite: LING 3311 with a grade of C or higher.

LING 4347. PRAGMATICS. 3 Hours.
Analysis of how context and form interact with meaning. Topics may include deixis, reference, speech acts, presupposition, implicature, information structure and intonation.
LING 4353. TEACHING ENGLISH AS A SECOND OR FOREIGN LANGUAGE. 3 Hours.
Presentation and critique of methodologies of teaching English to speakers of other languages, with emphasis on teaching techniques of aural comprehension; speaking, reading, and writing skills; testing, language laboratory, and linguistic-cultural differences.

LING 4354. METHODS AND MATERIALS TO TEACH ENGLISH AS A SECOND OR FOREIGN LANGUAGE. 3 Hours.
Systematic study of how to teach English to second/foreign language learners. Topics covered include the teaching of grammar, vocabulary, reading, writing, pronunciation, speaking, and listening. Prerequisite: LING 2301 or LING 2371; LING 4353.

LING 4360. NON-WESTERN LINGUISTIC STRUCTURES. 3 Hours.
Study of a selected non-Western language, language family or language area based on descriptive linguistic analysis. May be repeated once for credit as the topic varies. Prerequisite: LING 3330 and LING 3340.

LING 4362. LANGUAGE DOCUMENTATION. 3 Hours.
The course discusses fundamental issues that are part of language documenting and description. These include project design, research ethics and intellectual property, researcher and community rights and responsibilities, world language ecology, technology and software, archiving issues, grant-writing fundamentals, and related issues that form best practices for language documentation projects. (Also offered as LING 5362. Credit will be granted only once for LING 4362 or LING 5362.) Prerequisite: LING 3311.

LING 4363. LANGUAGE ENDANGERMENT AND REVITALIZATION. 3 Hours.
This course examines language endangerment and what it means for a language to become endangered, and studies language revitalization. Case studies are presented where communities seek to maintain the number of speakers or revive the language. (Also offered as LING 5363. Credit will be granted only once for LING 4363 or LING 5363.) Prerequisite: LING 3311.

LING 4370. HISTORY OF LINGUISTICS. 3 Hours.
Surveys the recent history of the field of linguistics and familiarizes students with the key figures and theories in recent linguistic history, with special attention to the development and emergence of generative theories of syntax, semantics, and phonology. Prerequisite: LING 3330 and LING 3340 and either LING 4301 or LING 4303.

LING 4389. TOPICS IN LINGUISTICS. 3 Hours.
Current topics in linguistics research. May be repeated if topic changes. Prerequisite: Either LING 3330, LING 3340, or LING 4317, and permission of undergraduate advisor.

LING 4391. CONFERENCE COURSE IN LINGUISTICS. 3 Hours.
Independent study in the preparation of a paper on a research topic; consultation with instructor on a regular basis. May be repeated for credit. Prerequisite: Either LING 3311, LING 3330, or LING 3340, and permission of undergraduate advisor.

LING 4393. INTERNSHIP IN LINGUISTICS. 3 Hours.
Internship (paid or unpaid) in Linguistics, supervised by a faculty internship coordinator, with the student performing duties related to the academic curriculum of Linguistics. Students are required to perform and report on designated career-related duties in a professional environment and submit assignments related to the work performed. May be repeated with the approval of the Undergraduate Advisor. May be repeated for credit once, as internship experience changes. Prerequisite: LING 3311 and permission of the instructor.

LING 4394. LING 4394 HONORS THESIS/SENIOR PROJECT. 3 Hours.
Required of all students in the University Honors College. During the senior year, the student must complete a thesis or project of equivalent difficulty under the direction of a faculty member in the major department. Approval of instructor is required.

LING 4395. INTERNSHIP IN TESOL. 3 Hours.
Internship (paid or unpaid) in TESOL, supervised by a faculty internship coordinator, with the student performing duties related to the academic curriculum of TESOL and/or the application of this knowledge. Students are required to perform significant teaching-related duties in an ESL/EFL environment and submit assignments related to the work performed. May be repeated with the approval of the Undergraduate Advisor, as internship experience changes. Prerequisite: LING 4353 and LING 4354 (may be concurrently enrolled in 4354).

LING 5100. THESIS WRITING SEMINAR. 1 Hour.
Techniques for researching and writing a thesis/dissertation in linguistics. Required of all students who have elected the Thesis or Thesis Substitute degree option in Linguistics. Prerequisite: completion of at least 9 hours of LING courses.

LING 5110. TESOL PRACTICUM. 1 Hour.
In this class, students will apply the principles presented in the TESOL Certificate coursework through observing and teaching ESOL classes. Prerequisite: Permission of adviser.

LING 5190. CONFERENCE COURSE IN LINGUISTICS. 1 Hour.
Graded P/F. Prerequisite: Permission of instructor.

LING 5300. LINGUISTIC ANALYSIS. 3 Hours.
This course introduces students to the field of linguistics, the systematic study of human language. Drawing on data from a range of languages, it will examine the sound patterns of language (phonetics and phonology), words and word formation (morphology), sentence structure (syntax), meaning (semantics), and language in context (pragmatics). Emphasis will be placed on methods of linguistic analysis to solve problems in phonology, morphology, syntax, and semantics. May be repeated for credit as the focus of the course or instructor changes. May not be used to fulfill Ph.D. degree requirements in linguistics.
LING 5301. INTRO TO COMMUNICATIVE LANGUAGE TEACHING. 3 Hours.
Presentation and critique of methodologies of teaching English to speakers of other languages, with emphasis on techniques of teaching aural comprehension; speaking, reading, and writing skills; attention to testing, language laboratory, and linguistic-cultural differences. Course includes a practical teaching requirement.

LING 5302. METHODS IN TEACHING READING AND WRITING. 3 Hours.
This course is an in-depth study of how to design ESL/EFL reading and writing classes and how to create instruction and assessment materials for these classes based on sound pedagogical principles.

LING 5303. ERROR ANALYSIS IN THE TEACHING OF ENGLISH AS A SECOND OR FOREIGN LANGUAGE. 3 Hours.
A study of error analysis as a means to diagnose particular patterns in language production of ESL/EFL students. Emphasis on current research and application to specific problems and contexts. Prerequisite: LING 5300 or LING 5309.

LING 5304. PEDAGOGICAL GRAMMAR OF ENGLISH. 3 Hours.
This course is a study of English sentence structure. Topics include article use, phrase structure, verb tense, agreement, pronouns, question forms, and embedded clauses. The course will focus on the second-language acquisition and processing of these structures as well as on ways that they can be addressed during ES/FL grammar instruction. Prerequisite: LING 5300 or permission of instructor.

LING 5305. SECOND LANGUAGE ACQUISITION. 3 Hours.
This course is the study of the processes of first and second language acquisition, their similarities and differences, language disorders, language perception and production, and implications of language acquisition research for linguistic theory and language teaching. May be repeated for credit as topic changes. Prerequisite: LING 5300 or permission of instructor.

LING 5306. TESOL CURRICULUM DESIGN. 3 Hours.
Systematic presentation of elements in development, management and evaluation of TESOL programs. Attention to needs analysis, syllabus design, materials selection and adaptation, teaching and evaluation in language curriculum design. Prerequisite: LING 5301.

LING 5307. PEDAGOGICAL PHONOLOGY OF ENGLISH. 3 Hours.
A study of the sound system of English. Topics include segmental phonemes, stress, length, intonation and variation at the lexical and utterance levels. Application to teaching English as a second or foreign language. Problems of description; means of application; adaptation to current pedagogical methods. Prerequisite: LING 5300; LING 5301 or LING 5302.

LING 5308. LANGUAGE ASSESSMENT. 3 Hours.
This is an introductory testing course. Topics will include different types of language assessment, issues related to language testing, measurement and evaluation of achievement and proficiency in a second language, and developing language tests of various language skills. Prerequisite: LING 5301, LING 5302, or permission of the instructor.

LING 5309. LINGUISTICS FOR LANGUAGE PROFESSIONALS. 3 Hours.
This course is an introduction to Applied Linguistics. It includes examination and analysis of the linguistic structures of English, with a focus on how this knowledge can inform language teaching.

LING 5310. SOCIOLINGUISTICS. 3 Hours.
The study of language and social context (made up of society and individuals). Content includes language as a social phenomenon, theoretical perspectives on relationship between language, society and individuals, basic concepts in sociolinguistics; and may include topics in macro- and micro-sociolinguistics such as multilingualism, language planning and standardization, linguistic variation, code switching, conversational analysis, and language and gender. May be repeated for credit as the topic changes.

LING 5311. SOCIOLINGUISTICS OF SOCIETY. 3 Hours.
The study of macro-sociolinguistics, including topics such as multilingualism, language standardization and planning, literacy, language dominance, maintenance and death, language and identity, diglossia, and pidgins and creoles. May be repeated for credit as the topic changes. Prerequisite: LING 5310.

LING 5312. LANGUAGE AND GENDER. 3 Hours.
The role of language in the expression and creation of gender identities. Gender differences in language structure and use, men's and women's languages in other cultures, the acquisition of gendered ways of speaking, and sexism in language. May be repeated for credit as the topic changes. Prerequisite: LING 5310.

LING 5313. TOPICS IN SOCIOLINGUISTICS. 3 Hours.
Selected topics relating the scientific methodologies of linguistics to larger concerns of society and culture including cognition, motivation, description and analysis. May be repeated for credit when topic changes. Prerequisite: LING 5310.

LING 5314. HISTORICAL AND COMPARATIVE LINGUISTICS. 3 Hours.
The study of language development and change; comparative method and its use in linguistic reconstruction; laws of language change. May be repeated for credit as the topic changes. Prerequisite: LING 3330 or permission of instructor.

LING 5315. READINGS AND RESEARCH IN PEDAGOGY AND PRACTICE. 3 Hours.
This course focuses on selected readings for classroom practitioners, with a focus on work that connects current theory with classroom practice. Prerequisite: LING 5301 or LING 5302.
LING 5316. TEACHING WITH TECHNOLOGY. 3 Hours.
This course focuses on the integration of effective technology tools in linguistics and TESOL-focused courses and topics. Course topics will cover effectively and meaningfully incorporating a wide variety of digital platforms, communication channels, and tools to curate and create quality digital content and develop technology-focused lesson plans. Students will learn to use robust theoretical frameworks such as Open Educational Resources, open pedagogy, Community of Inquiry, networked and connected learning, and constructivist pedagogies to foster authentic student engagement and active learning with technology and course content. After the course, students will have created several concrete artifacts to add to their teaching dossier for future teaching, potentially adding to being more marketable in a dynamically changing world. Emerging tools such as virtual reality, augmented reality, automation, data analytics, and mobile learning will be also be explored.

LING 5318. APPLIED PSYCHOLINGUISTICS. 3 Hours.
This course examines the psychological processes involved in language development and language use in native and non-native speakers, as well as in those who have language disorders. It also covers how psycholinguistic tasks can be used for language teaching and assessment. Students will learn current theories and research methods related to this area through in-depth discussion of primary literature and by developing research projects based on this literature. Prerequisite: LING 5300 or LING 5309, or equivalent, or approval from the instructor.

LING 5319. PHONETICS AND PHONOLOGY. 3 Hours.
Human speech sounds from both physiological and cognitive perspectives; the range of speech sounds in language and the patterning of such sounds within particular language systems. This course does not fulfill core PHD requirements for phonology.

LING 5320. PHONOLOGICAL THEORY. 3 Hours.
Ling 5320 is a foundations course for the study of the principles that govern sound systems in human languages. Students will work with sound patterns from a variety of languages in order to understand the fundamental aspects of phonological phenomena, and course assignments will require application of the descriptive and theoretical tools in working with sound pattern data. Lectures will further develop this description, analysis, and argumentation for phonological data. May be repeated for credit as the topic changes. Prerequisite: Permission of Advisor.

LING 5321. ADVANCED PHONOLOGICAL THEORY. 3 Hours.
A continuation of LING 5320. Topics include autosegmental analysis, lexical phonology, metrical phonology and phonological feature geometry. May be repeated for credit when topic changes. Prerequisite: LING 5320.

LING 5322. LABORATORY PHONOLOGY. 3 Hours.
An investigation into the physical properties of human speech. Students will gain hands-on experience with computer-assisted speech analysis. No prior computer experience is assumed. Prerequisite: LING 5320.

LING 5325. SLA AND CLASSROOM PRACTICE. 3 Hours.
An examination of a variety of theories in Second Language Acquisition, with a focus on how this knowledge informs classroom practice for teachers of ESL and other languages.

LING 5326. BILINGUALISM. 3 Hours.
This course introduces students to issues related to bilinguals and bilingualism. The areas that will be covered include different types of bilinguals/ bilingualism, bilingual education, the cognitive benefits (or disadvantages) of being a bilingual, and language processing in bilinguals. May be repeated for credit as the topic changes. Prerequisite: LING 5320.

LING 5328. PSYCHOLINGUISTICS: SENTENCE PROCESSING. 3 Hours.
This course examines the cognitive processes involved in sentence comprehension. Students will learn current theories and research methods related to this area through in-depth discussion of the primary literature and by developing research projects based on this literature. May be repeated for credit as the specific topics dealt with in the course change. Prerequisite: LING 5300.

LING 5329. SYNTAX. 3 Hours.
An examination of syntactic investigation, developed primarily through the study of central aspects of English syntax. A major purpose is to introduce students to the study of language as an empirical science. This course does not fulfill core PHD requirements for syntax.

LING 5330. FORMAL SYNTAX. 3 Hours.
Introduction to syntactic theory. Major topics include phrase structure, subcategorization, lexical entries, and passive and infinitival constructions. May be repeated for credit as the topic changes. Prerequisite: Permission of advisor.

LING 5331. ADVANCED FORMAL SYNTAX. 3 Hours.
Continuation of Ling 5330. Topics may include the syntax of unbounded dependencies, constraints on extraction, unbounded versus successive cyclic movement, and the licensing of gaps. May be repeated for credit as the topics change. Prerequisite: LING 5330.

LING 5334. MORPHOLOGY. 3 Hours.
A theoretical and typological investigation into the nature of word-structure and word-formation processes in human languages. May be repeated for credit as the topics of focus change. Prerequisite: LING 5320 or LING 5330.

LING 5335. LANGUAGE UNIVERSALS AND LINGUISTIC TYPOLOGY. 3 Hours.
Consideration of universals in human language, their explanation and description, and language types. May be repeated for credit as the topics of focus change. Prerequisite: LING 5330.
LING 5338. PSYCHOLINGUISTICS: VISUAL WORD RECOGNITION. 3 Hours.
This course examines the cognitive processes involved in visual word recognition. Students will learn current theories and research methods related to this area of psycholinguistics through in-depth discussion of the primary literature and by developing research projects based on this literature. May be repeated for credit as the specific topics dealt with in the course change. Prerequisite: LING 5300.

LING 5345. SEMANTICS. 3 Hours.
Graduate-level introduction to formal semantics, designed to prepare students for research with basic tools in Model-theoretic semantics and compositionality, including core topics such as negation, quantification, mood and modality, noun phrases, indefinites, definiteness, tense, aspect, and events, from a semantic and cross-linguistic perspective. May be repeated for credit as the topics of focus change. Prerequisite: LING 3340 or permission of instructor.

LING 5346. TOPICS IN APPLIED LINGUISTICS. 3 Hours.
This is a special topics course in Applied Linguistics. Topics may change semester-by-semester, based on instructor and other factors; may be repeated for credit as the topics of focus change.

LING 5347. PRAGMATICS. 3 Hours.
Analysis of how context and form interact with meaning. Topics may include deixis, reference, speech acts, presupposition, implicature, information structure and intonation. May be repeated for credit as the topics of focus change.

LING 5350. TEXT ANALYSIS. 3 Hours.
Methods of charting and analyzing texts to reveal the systematic contributions of pragmatic choices to their organization and meaning. May be repeated for credit as the topics of focus change. Prerequisite: LING 3340.

LING 5353. TEACHING ENGLISH AS A SECOND OR FOREIGN LANGUAGE. 3 Hours.
Presentation and critique of methodologies of teaching English to speakers of other languages, with emphasis on techniques related to Communicative Language Teaching.

LING 5354. METHODS AND MATERIALS TO TEACH ENGLISH AS A SECOND OR FOREIGN LANGUAGE. 3 Hours.
Systematic study of how to teach English to second/foreign language learners. Topics covered include the teaching of grammar, vocabulary, reading, writing, pronunciation, speaking, and listening.

LING 5360. NON-WESTERN LINGUISTIC STRUCTURES. 3 Hours.
Study of a selected non-Western language, language family or language area based on descriptive linguistic analysis. May be repeated for credit as the topic varies. Prerequisite: LING 3330 and LING 3340.

LING 5361. READINGS IN NON-WESTERN LINGUISTIC STRUCTURES. 3 Hours.
Readings in the linguistic structures of non-Western languages. Enrollment in the course is not sufficient to fulfill the non-Western language requirement. May be repeated for credit as the readings and topics of focus change.

LING 5362. LANGUAGE DOCUMENTATION. 3 Hours.
The course discusses fundamental issues that are part of language documenting and description. These include project design, research ethics and intellectual property, researcher and community rights and responsibilities, world language ecology, technology and software, archiving issues, grant-writing fundamentals, and related issues that form best practices for language documentation projects. May be repeated for credit as the topics of focus change. Prerequisite: LING 5300.

LING 5363. LANGUAGE ENDANGERMENT AND REVITALIZATION. 3 Hours.
This course examines language endangerment and what it means for a language to become endangered, and studies language revitalization. Case studies are presented where communities seek to maintain the number of speakers or revive the language. May be repeated for credit as the topics of focus change. Prerequisite: LING 5300.

LING 5370. HISTORY OF LINGUISTICS. 3 Hours.
Surveys the recent history of the field of linguistics and familiarizes students with the key figures and theories in recent linguistic history, with special attention to the development and emergence of key generative theories such as those of syntax, semantics, and phonology. May be repeated for credit as the topics of focus change. Prerequisite: LING 5320 or LING 5330.

LING 5371. SURVEY OF THEORIES IN APPLIED LINGUISTICS. 3 Hours.
A comparison and contrast of various linguistic theories, with consideration of their implications for application to real-world problems involving language. May be repeated for credit as the topics of focus change. Prerequisite: LING 5305.

LING 5372. READINGS IN LINGUISTICS. 3 Hours.
Readings in linguistics, tailored to student's areas of interest and instructor's expertise. May be repeated for credit when topic changes. Prerequisite: LING 5330.

LING 5380. FIELD METHODS. 3 Hours.
The principles, techniques and practical aspects of linguistic field research. The course includes extensive practice in eliciting data (phonological, morpho-syntactic, textual and lexical) directly from a native speaker, as well as in managing, analyzing and describing the data obtained. Course may be repeated for credit when topic changes. Prerequisite: LING 5300. Permission of the Graduate Advisor.
LING 5381. CORPUS LINGUISTICS. 3 Hours.
Applications of ways in which computer science and linguistics inform each other. Corpus linguistics focuses on how computers can be used to both obtain the data that we examine and to provide the tools we use for analysis. Includes readings, practical experience with several different software programs, and using sources of online corpora. May be repeated for credit as the topics of focus change.

LING 5391. CONFERENCE COURSE IN LINGUISTICS. 3 Hours.

LING 5392. THESIS SUBSTITUTE. 3 Hours.

LING 5393. TESOL TEACHING AND OBSERVATION. 3 Hours.
In this course, students will work regularly and consistently with an organization where English is taught. Students will observe, teach, guide, and participate in activities in order to demonstrate ability to apply the principles of Communicative Language Teaching in an English Language Learning environment. Prerequisite: Permission of the graduate advisor.

LING 5395. GRADUATE INTERNSHIP. 3 Hours.
Employment (paid or unpaid) supervised by a faculty internship coordinator, with the student performing duties related to the academic curriculum of linguistics and/or TESOL. Students are required to submit an approved academic project related to the work performed. May be repeated with approval of Graduate Advisor.

LING 5398. THESIS. 3 Hours.

LING 5691. CONFERENCE COURSE IN LINGUISTICS. 6 Hours.
Independent study in the preparation of a paper on a research topic; consultation with instructor on a regular basis. May be repeated for credit.

LING 5698. THESIS. 6 Hours.

LING 5998. THESIS. 9 Hours.

LING 6100. LINGUISTICS GRADUATE PROGRAM SUCCESS. 1 Hour.
This course introduces PhD students in Linguistics to the expectations of graduate school, including being a good TA, recognizing the importance of research and revision, and general academic success skills to aid the transition into a graduate program.

LING 6191. RESEARCH IN LINGUISTICS. 1 Hour.
Prerequisite: permission of instructor.

LING 6199. DISSERTATION. 1 Hour.

LING 6291. RESEARCH IN LINGUISTICS. 2 Hours.
Prerequisite: permission of instructor.

LING 6300. PROFESSIONAL WRITING SEMINAR. 3 Hours.
Workshop in producing the writing genres expected of professional academic linguists. May be repeated for credit as the topics of focus change. Prerequisite: Completion of at least 9 hours of graduate LING courses.

LING 6360. DISCOURSE THEORY SEMINAR. 3 Hours.
Seminar on the theory of discourse in linguistics. May be repeated for credit as the instructor and topics of focus change. Prerequisite: permission of instructor.

LING 6380. FIELD METHODS SEMINAR. 3 Hours.
Second part of field methods sequence. May be repeated for credit as the student's topic of focus changes. Prerequisite: LING 5380.

LING 6381. STATISTICS FOR LINGUISTS. 3 Hours.
In this course, students learn the fundamentals of quantitative research in linguistics and language-related fields. Students learn how to develop viable research hypotheses, how to collect and manage the data necessary to evaluate these hypotheses, and how to analyze data using standard statistical tests. May be repeated for credit as the topics of focus change.

LING 6390. LINGUISTICS SEMINAR. 3 Hours.
Seminar in linguistics. Course may be repeated for credit when topic or instructor changes. Prerequisite: permission of instructor.

LING 6391. RESEARCH IN LINGUISTICS. 3 Hours.
Designed for doctoral students pursuing dissertation proposal research under the direction of a faculty supervisor. Prerequisite: Permission of instructor.

LING 6392. SEMINAR IN PHONETICS AND PHONOLOGY. 3 Hours.
In-depth investigation of research into a specialized area of phonetics and/or phonology. Course registrants will develop original research focusing on topic at-hand, with results exchanged through discussion, presentations/reports, and/or papers. Prerequisites: LING 5321 or permission of the instructor.

LING 6393. SEMINAR IN SYNTAX. 3 Hours.
In-depth investigation of research into a specialized area of syntax. Course registrants will develop original research focusing on topic at-hand, with results exchanged through discussion, presentations/reports, and/or papers. Prerequisites: LING 5331 or permission of instructor.

LING 6394. SEMINAR IN SEMANTICS AND PRAGMATICS. 3 Hours.
In-depth investigation of research into a specialized area of meaning: semantics and/or pragmatics. Course registrants will develop original research focusing on topic at-hand, with results exchanged through discussion, presentations/reports, and/or papers. Prerequisites: LING 5345 or LING 5347 or permission of instructor.
LING 6395. SEMINAR IN SECOND LANGUAGE ACQUISITION. 3 Hours.
In-depth investigation of research into a specialized area of second language acquisition. Course registrants will develop original research focusing on topic at-hand, with results exchanged through discussion, presentations/reports, and/or papers. Prerequisites: LING 5305 or permission of the instructor.

LING 6399. DISSERTATION. 3 Hours.

LING 6491. RESEARCH IN LINGUISTICS. 4 Hours.
Prerequisite: permission of instructor.

LING 6591. RESEARCH IN LINGUISTICS. 5 Hours.

LING 6691. RESEARCH IN LINGUISTICS. 6 Hours.
Designed for doctoral students pursuing dissertation proposal research under the direction of a faculty supervisor. Prerequisite: Permission of instructor.

LING 6699. DISSERTATION. 6 Hours.

LING 6991. RESEARCH IN LINGUISTICS. 9 Hours.
Designed for doctoral students pursuing dissertation proposal research under the direction of a faculty supervisor. Prerequisite: Permission of instructor.

LING 6999. DISSERTATION. 9 Hours.

LING 7399. DOCTORAL DEGREE COMPLETION. 3 Hours.
This course may be taken during the semester in which a student expects to complete all requirements for the doctoral degree and graduate. Enrolling in this course meets minimum enrollment requirements for graduation, for holding fellowships awarded by The Office of Graduate Studies and for full-time GTA or GRA positions. Students should verify that enrollment in this course meets other applicable enrollment requirements. To remain eligible in their final semester of study for grants, loans or other forms of financial aid administered by the Financial Aid Office must enroll in a minimum of 5 hours as required by the Office of Financial Aid. Other funding sources may also require more than 3-hours of enrollment. Additional hours may also be required to meet to requirements set by immigration law or by the policies of the student's degree program. Students should contact the Financial Aid Office, other sources of funding, Office of International Education and/or their graduate advisor to verify enrollment requirements before registering for this course. This course may only be taken twice. Students who do not complete all graduation requirements while enrolled in this course must enroll in a minimum of 6 dissertation hours (6699 or 6999) in their graduation term. Graded P/F/R.
Medical Humanities and Bioethics

Overview

Medical humanities is an interdisciplinary program that explores the historical, literary, philosophical, ethical, and spiritual dimensions of medicine and health. It includes instruction in the visual arts, social sciences, narrative medicine, cultural studies, and clinical practice. There is a common focus on creative and compassionate approaches to professional relationships and patient care.

Bioethics focuses on the ethical dimensions of medical practice and research. It includes instruction in applying philosophical ethics, policy analysis, and decision theory to real-world issues in healthcare. Topics include end of life care, disability, resource allocation, organ transplantation, research on human and animal subjects, reproduction and fertility, health care justice, and other topics relevant to clinical practice.

Combining approaches from the medical humanities and bioethics, students are encouraged to take a humanistic perspective on the practice of medicine, using methods from philosophy, the social sciences, and the arts. This program provides students with an opportunity to earn a Certificate in Medical Humanities (12 hours) or a Minor in Medical Humanities and Bioethics (18 hours) and is relevant to a wide range of fields including healthcare, disability studies, public health, social work, and biomedical engineering.

Minor

The Minor in Medical Humanities and Bioethics requires 18 hours. There are three required courses: HUMA 3300, PHIL 3319, and the student's choice from the listed Disability Studies courses. This minor offers independent study and internship opportunities.

Required core courses (two courses)

Other courses as approved by the program coordinator.

**Certificate**

To receive the certificate, a student must complete HUMA 3300 and three courses from the following list. Students can count toward the certificate no more than two courses from a single department. At least two courses must be from the College of Liberal Arts.

**Elective courses (3 courses)**

Military Science - Undergraduate Program

Purpose

The ROTC program at The University of Texas at Arlington offers a unique opportunity for quality students to assess and develop their leadership skills. A wide variety of settings are provided to expose students to the styles, techniques, and tools of leadership. It also develops college-educated officers for the active Army and the reserve components (U.S. Army Reserve and Army National Guard). This affords the student the opportunity to pursue either a civilian or a military career after completing college.

Programs Available

General Information

Classroom: Examine theory, principles and techniques. Review leadership from a historical perspective through case studies and presentations. Communications skills emphasized.

Lab: Practical application of theory and opportunity for each student to be assessed. Immediate feedback provided enabling students to build on the experience gained. Individual skills and team-building emphasized.

Corps of Cadets: Leadership positions assigned according to demonstrated individual progress. Provides a forum for individual growth by working within a structured organization. Emphasis on counseling, coaching, mentorship, and coordination.

Field Training: A unique opportunity to gain experience under stressful and challenging situations. Students are placed in environments to test their abilities and reactions in leading small groups. Emphasis on decision-making, endurance, and reaction under stress to build self-confidence.

Simultaneous Membership Program: An opportunity to serve in a National Guard or Reserve unit as an officer trainee while participating in ROTC and attending UT Arlington. Emphasis on planning and organizing. Programs tailored to meet individual needs.

Army Schools: Develop skills through exposure to other students and soldiers from around the country by attending Airborne, Air Assault, or other schools. Emphasis on increased experience.

Leadership Development Assessment Course: Five weeks of high-intensity training with students from across the nation, designed to evaluate individual leadership potential. Emphasis placed on evaluation/development of the individual. Student receives pay. Travel, lodging and most meal costs are paid for by the Army.

Leadership Training Camp: A five-week summer camp conducted at an Army post. The environment is rigorous and stresses leadership, initiative and self-discipline. No military obligation incurred. The student receives pay. Travel, lodging and most meal costs are paid for by the Army.

Four-Year Program: The traditional program of Army ROTC is a program of instruction which extends over four years of college. The four-year program is divided into two phases—a two-year basic course and a two-year advanced course. The basic course is normally taken by students during their freshman and sophomore years. The purpose of the basic course is to introduce students to general military subjects and leadership principles. There is no military obligation incurred for attending the basic course.

The student who wishes to enter the advanced course, normally taken during the junior and senior years, must apply for it; must meet eligibility requirements including a physical examination; and must sign an agreement to complete the last two years of Army ROTC and accept a commission as a U.S. Army Officer. Students auditing courses or students not eligible for commissioning into the Army will receive P/F grades only.

Two-Year Program: This program is offered for students who have had two years of college remaining to graduate. Students must meet ROTC advanced course eligibility requirements. Prior military service, JROTC experience, and attendance at the Leadership Training Camp (LTC) are some of the ways to meet ROTC advanced course enrollment eligibility.

Scholarships

The U.S. Army Scholarship Program provides an excellent way for young men and young women to obtain assistance in financing a college education. Every scholarship provides for payment of all expenses incurred for fees and tuition, an allowance for books and supplies, and up to $400 a month for up to 10 months per year. There are scholarships offered in all four years with payments ranging from one to four years. Initial application may be made during the student’s senior year in high school or freshman year in college. Each year more scholarships are added to the program. These scholarships are merit based and are not contingent on financial need. All students are encouraged to make application through the Military Science Department.

Minor in Military Science

Military science may be used as a minor course of study in many degree programs at The University of Texas at Arlington.

To be eligible, the student must:
MILS 0180. LEADERSHIP LAB. 1 Hour.
A practical laboratory of applied leadership and skills. Student-planned, organized and conducted training, oriented toward leadership development. Laboratory topics include marksmanship, small unit tactics, multi-tiered programs focused on individual skill levels. Uniform and equipment provided. Concurrent enrollment in appropriate Military Science course (MILS 1141, MILS 1142, MILS 2251, MILS 2252, MILS 3341, MILS 3342, MILS 4341, MILS 4342, MILS 2291 and/or MILS 4391) required. Prerequisite: permission from the Professor of Military Science (PMS). May be repeated for credit.

MILS 1111. MILITARY PHYSICAL CONDITIONING I-A. 1 Hour.
This course is designed for beginners, emphasizing the Army components of physical fitness; cardiorespiratory endurance, muscular strength, muscular endurance, flexibility and body composition. Students are oriented to Army programs, planning, and training methodologies focused around functional fitness. An essential objective for each student is to achieve a minimum score in the Army Fitness test for record.

MILS 1112. MILITARY PHYSICAL CONDITIONING I-B. 1 Hour.
This course serves as a continuation of MILS 1111, emphasizing the Army components of physical fitness; cardiorespiratory endurance, muscular strength, muscular endurance, flexibility and body composition. Students continue to develop their understanding of Army programs, planning, and training methodologies focused around functional fitness to include leading small group practical exercises and developing small group fitness plans. An essential objective for each student is to achieve a minimum score in the Army Fitness test for record. Prerequisite: MILS 1111.

MILS 1141. FOUNDATIONS OF LEADERSHIP. 1 Hour.
Fundamental concepts of leadership in a profession in both classroom and outdoor laboratory environments. The study of time management skills, basic drill and ceremony, physical fitness, repelling, leadership reaction course, first aid, making presentations and marksmanship. Concurrent enrollment in MILS 0180 leadership lab and mandatory participation in independent physical fitness training, plus optional participation in a weekend field training exercise.

MILS 1142. INTRODUCTION TO LEADERSHIP. 1 Hour.
Application of principles of leadership through participation in physically and mentally challenging exercises with upper division ROTC students. Course focuses on communication skills, organizational ethics, and study and time management techniques. Concurrent enrollment in MILS 0180 leadership lab and mandatory participation in individual physical fitness training, plus optional participation in a weekend field training exercise.

MILS 2121. MILITARY PHYSICAL CONDITIONING II-A. 1 Hour.
This course implements the Army's holistic and fitness models by improving student's physical and mental well-being by utilizing Army Physical Readiness Training (PRT). Building on concepts of the 100 level class, emphasizing on the Army components of physical fitness; cardiorespiratory endurance, muscular strength, muscular endurance, flexibility and body composition. An essential objective for each student is to achieve a minimum score in the Army fitness test for record. Prerequisite: MILS 1111, MILS 1112.

MILS 2122. MILITARY PHYSICAL CONDITIONING II-B. 1 Hour.
This course implements the Army's holistic and fitness models by improving student's physical and mental well-being by utilizing Army Physical Readiness Training (PRT). Continuation of MILS 2121 with emphasis on leadership of a small group or squad during physical training, supervising each individual's correct performance of stretching and calisthenics, as well as following assigned student's progress and taking responsibility for mentoring subordinates. An essential objective for each student is to achieve a minimum score in the Army fitness test for record. Prerequisite: MILS 1111, MILS 1112, MILS 2121.

MILS 2251. INDIVIDUAL/TEAM DEVELOPMENT. 2 Hours.
Application of ethics-based leadership skills and fundamentals of ROTC's Leadership Development Program. Develop skills in oral presentations, concise writing, event planning, coordination of group efforts, advanced first aid, land navigation, and military tactics. Concurrent enrollment in MILS 0180 leadership lab and mandatory participation in individual physical fitness training, plus optional participation in a weekend field training exercise.

MILS 2252. INDIVIDUAL/TEAM MILITARY TACTICS. 2 Hours.
Introduction to individual and team aspects of military tactics in small unit operations. Includes use of radio communications, making safety assessments, movement techniques, planning for team safety/security, and pre-execution checks. Concurrent enrollment in MILS 0180 leadership lab and mandatory participation in individual physical fitness training, plus optional participation in a weekend field training exercise.
MILS 2291. CONFERENCE COURSE. 2 Hours.
Independent study. Designed to supplement the military science curricula by a student's concentrated study in a narrower field of military skill or subject matter. May be repeated for credit. Does not count for PE credit. Prerequisite: permission of the Professor of Military Science (PMS).

MILS 2343. LEADERSHIP TRAINING CAMP (LTC). 3 Hours.
A rigorous five-week summer camp conducted at an Army post, stresses leadership, initiative and self-discipline. No military obligation incurred. Completion of MILS 2343 qualifies a student for entry into the Advanced Course. Three different cycles offered during the summer, but spaces are limited by the Army. Candidates can apply for a space any time during the school year prior to the summer. Open only to students who have not taken all four of MILS 1141, MILS 1142, MILS 2251, and MILS 2252, and who pass an ROTC physical examination. P/F grade only.

MILS 3131. MILITARY PHYSICAL CONDITIONING III-A. 1 Hour.
This course is a continuation of MILS 3131 to improve on existing previous levels of physical fitness and to develop the ability to design/implement physical fitness regiments structured for large groups or company sized elements. Focus is on achieving Army combat fitness standard and maintaining tactical readiness in dynamic environments in preparation for Army field training exercises. An essential objective for each student is to achieve a minimum score in the Army Fitness test for record and meet contracting standards. Prerequisite: MILS 1111, MILS 1112, MILS 2121, MILS 2122, MILS 2131.

MILS 3132. MILITARY PHYSICAL CONDITIONING III-B. 1 Hour.
This course is a continuation of MILS 3131 to improve on existing previous levels of physical fitness and to develop the ability to design/implement physical fitness regiments structured for large groups or company sized elements. Focus is on achieving Army combat fitness standard and maintaining tactical readiness in dynamic environments in preparation for Army field training exercises. An essential objective for each student is to achieve a minimum score in the Army Fitness test for record and meet contracting standards. Prerequisite: MILS 1111, MILS 1112, MILS 2121, MILS 2122, MILS 3131.

MILS 3333. SMALL UNIT TACTICS AND LEADERSHIP. 3 Hours.
A study of military tactics and leadership at squad, platoon, and company level in both classroom and outdoor laboratory environments. Includes mission planning; movement and maneuver formations and techniques; offensive operations, defensive operations, patrolling, and convoy movement; indirect fires planning; terrain analysis, route selection, danger areas, and security measures; risk management; and motivating subordinates.

MILS 3341. LEADERSHIP I. 3 Hours.
Development of ability to evaluate situations, plan and organize training, learn military tactics, review case studies in leadership management and develop teaching and briefing skills. Concurrent enrollment in MILS 0180 mandatory. Prerequisite: permission of the Professor of Military Science (PMS).

MILS 3342. LEADERSHIP II. 3 Hours.
Practical application of squad and platoon leadership in tactical situations; operation of small unit communications systems. Development of the leaders' ability to express themselves, analyze military problems, and prepare and deliver logical solutions. Demanding physical fitness training and performance-oriented instruction, in preparation for Summer Field Training. Concurrent enrollment in MILS 0180 mandatory. Prerequisite: permission of the Professor of Military Science (PMS).

MILS 3370. MILITARY HISTORY. 3 Hours.
Surveys and analyzes the American military experience from its colonial origins through the present and from a comparative and multinational perspective. Involves reading and writing about American military history, as well as staging simulations and visiting museums and/or battlefields. Prerequisite: Permission of the Professor of Military Science (PMS).

MILS 3443. LEADER DEVELOPMENT AND ASSESSMENT COURSE. 4 Hours.
A five-week off-campus field training course stressing the practical application of leadership management, with emphasis on tactical and technical military field skills. Open only to students who have successfully completed MILS 3341 and MILS 3342, P/F grade only.

MILS 3495. NURSING ADVANCED SUMMER TRAINING. 4 Hours.
Seven-week off-campus internship at a major U.S. Army hospital for ROTC nursing students. A nursing practicum with the focus on providing the student with hands-on experience which integrates clinical, interpersonal, and leadership knowledge and skills. Practical experience and familiarization with Army nursing in a variety of clinical tasks in the areas of medical-surgical nursing, pediatrics, obstetrics, and, in some cases, intensive care in ICUs. May be used for partial credit for NURS 3647 or NURS 3347 with prior arrangement and approval of the Dean of Nursing.

MILS 4141. MILITARY PHYSICAL CONDITIONING IV-A. 1 Hour.
Putting together all of the personal fitness concepts learned in the previous classes with emphasis on leadership of large groups or a battalion sized organization, including planning and coordination of all physical fitness for the ROTC Battalion and evaluation of the personal fitness training and trainers. Coordination of individual training specific to fitness ends. An essential objective for each student is to achieve a minimum score in the Army Fitness test for record. Prerequisite: MILS 1111, MILS 1112, MILS 2121, MILS 2122, MILS 3131, MILS 3132.

MILS 4142. MILITARY PHYSICAL CONDITIONING IV-B. 1 Hour.
Continuation of 4141 with emphasis on grasping the Army's policy on physical fitness, fitness maintenance, and safety. Students hone their mastery with Army regulations and forms pertaining to physical fitness. Responsible for planning, documentation, testing and briefing of the ROTC Battalion's Physical Fitness Program. An essential objective for each student is to achieve a minimum score in the Army. Prerequisite: MILS 1111, MILS 1112, MILS 2121, MILS 2122, MILS 3131, MILS 3132, MILS 4141.
MILS 4341. ADVANCED LEADERSHIP I. 3 Hours.
Stresses leadership qualities necessary for Command and Staff functions and operations. Plan and conduct meetings, briefings and conferences. Introduction to the Army Logistical System and the Personnel Management System. Preparation of after-action reports. Plan and conduct physical training programs. Concurrent enrollment in MILS 0180 mandatory. Prerequisite: permission of the Professor of Military Science (PMS).

MILS 4342. ADVANCED LEADERSHIP II. 3 Hours.
Provides students with a basic working knowledge of the Military Justice System with emphasis on company-level actions and requirements, including Law of Land Warfare. Examines the ethical standards, professional roles, responsibilities, and uniqueness of the profession of officership. Concurrent enrollment in MILS 0180 mandatory. Prerequisite: permission of the Professor of Military Science (PMS).

MILS 4391. CONFERENCE COURSE. 3 Hours.
Independent study on an individual basis on current topics in military science. Performance will be assessed by oral examination, written test, or research paper as arranged. May be repeated for credit. Prerequisite: permission of the Professor of Military Science (PMS).

COURSES

ARAB 1441. BEGINNING ARABIC I. 4 Hours. (TCCN = ARAB 1411)
Multimedia Immersion in the culture and language of Arabic-speaking countries. Designed to enable students to understand and communicate effectively in Arabic at the beginning level.

ARAB 1442. BEGINNING ARABIC II. 4 Hours. (TCCN = ARAB 1412)
Continuation of beginning Arabic. Prerequisite: ARAB 1441 with a grade of C or better.

ARAB 1491. CONFERENCE COURSE. 4 Hours.
Independent study; consultation with instructor on a regular basis. May be repeated for credit. Prerequisite: Permission of the instructor.
ARAB 2301. LITERATURE IN TRANSLATION. 3 Hours.
The works of major authors and intellectual trends of a given period or periods. May be repeated for credit as topics or periods vary. ARAB 2301 may be taken to fulfill the foreign language requirement. Prerequisite: ENGL 1301 and ENGL 1302.

ARAB 2310. ARABIC CULTURE IN THE WORLD. 3 Hours.
An overview of the cultures of the Arabic-speaking world in a global context, examining cultural products such as food, art, music, popular culture, literature, and/or film. Taught in English.

ARAB 2313. INTERMEDIATE ARABIC I. 3 Hours. (TCCN = ARAB 2311)
Continued immersion in the culture and language of Arabic-speaking countries. Application of strategies and technology in mastering listening, speaking, reading, and writing at the intermediate level. Prerequisite: ARAB 1442 with a grade of C or better.

ARAB 2314. INTERMEDIATE ARABIC II. 3 Hours. (TCCN = ARAB 2312)
Continuation of intermediate Arabic. Prerequisite: ARAB 2313 with a grade of C or better.

ARAB 2391. CONFERENCE COURSE. 3 Hours.
Independent study; consultation with instructor on a regular basis. May be repeated for credit. Prerequisite: Permission of the instructor.

ARAB 3303. ARABIC CONVERSATION & CULTURE. 3 Hours.
Practice in oral expression with an emphasis on developing conversational skills and improving language proficiency in reading and writing. This course looks at the differences between classical and regional colloquialisms as well as elements of Middle Eastern culture. Prerequisite: ARAB 2314 with a grade of C or better.

ARAB 3304. ARABIC CONVERSATION & CULTURE II. 3 Hours.
Students continue to develop conversational skills and cultural knowledge through the use of readings, film, and other media. Extensive conversation practice allows students to develop intermediate high level oral skills in a broad range of communicative and cultural contexts. Students learn to express more abstract ideas through description, comparison, and narration. Prerequisite: ARAB 2314 with a grade of C or better.

ARAB 3305. ARABIC READING AND COMPOSITION. 3 Hours.
The analysis of Arabic texts and composition with emphasis on reading comprehension, grammar, writing skills, and compositional techniques. Readings may include newspaper articles, short stories, and essays on various topics of Arabic culture. Prerequisite: ARAB 2314 with a grade of C or better.

ARAB 3310. ARABIC LOCALIZATION AND TRANSLATION. 3 Hours.
Introduction to cultural and linguistic issues in the translation of Arabic language texts. Students will explore current technologies used in various real-world translation contexts and how to adapt texts, products, and services to the locale for which they are intended. Prerequisite: ARAB 2314 or the equivalent with a grade of B or better. May not be repeated for credit.

ARAB 3311. ARABIC LOCALIZATION AND TRANSLATION II. 3 Hours.
Continued study of cultural and linguistic issues in the translation of Arabic and English language texts. Systematic development of advanced skills in localization and computer-aided translation and in using TMX/TBX (international standards for translation memory and terminology exchange) tools. Translation practice, individually and in translation teams, with increasingly longer and more specialized texts. Prepares localization and translation specialists for real-world careers in the language-services industry. May not be repeated for credit. Prerequisite: ARAB 3310 with a grade of B or better.

ARAB 3312. TOPICS IN ARABIC LITERATURE AND CULTURE. 3 Hours.
Multimedia immersion in the language and culture of Arabic speaking countries through the study of selected literary texts in various genres and literary structures, with an emphasis on developing language skills of reading, writing, and oral communication. May be repeated for credit as topic changes. Prerequisite: ARAB 1442 with a grade of C or better.

ARAB 3345. INTRODUCTION TO COMPUTER-ASSISTED TRANSLATION. 3 Hours.
Introduction to computer-assisted translation (CAT), machine translation (MT), translation memory (TM) and terminology management tools in modern translation and localization workflows. Prepares students for real-world careers in the language services industry. Exclusively for students pursuing a minor in Localization and Translation-Arabic. ARAB 3310 is strongly recommended before ARAB 3345.

ARAB 3391. CONFERENCE COURSE. 3 Hours.
Independent study; consultation with instructor on a regular basis. May be repeated for credit. Prerequisite: Permission of Instructor.

ARAB 3393. ARABIC INTERNSHIP. 3 Hours.
A combination of field-related experience in the business or service sector with an academic component. Coursework may include journal writing, outside readings, reflection papers, and formal presentations. Prerequisite: Permission of Instructor.

ARAB 4393. ARABIC INTERNSHIP. 3 Hours.
This course is a combination of field-related experience in the business or service sector with an academic component. Coursework may include journal writing in Arabic, outside readings, and formal presentations. Prerequisite: Two ARAB 3000 level courses and permission of the instructor.

COURSES

CHIN 1441. BEGINNING CHINESE I. 4 Hours. (TCCN = CHIN 1411)
Multimedia immersion in the culture and language of China. Designed to enable students to understand and communicate effectively in Chinese at the beginning level. No prerequisites.

CHIN 1442. BEGINNING CHINESE II. 4 Hours. (TCCN = CHIN 1412)
Continuation of beginning Chinese. Prerequisite: CHIN 1441 with a grade of C or better.
CHIN 1491. CONFERENCE COURSE. 4 Hours.
Independent study; consultation with instructor on a regular basis. May be repeated for credit. Prerequisite: Permission of the instructor.

CHIN 2301. LITERATURE IN TRANSLATION. 3 Hours.
The works of major authors and intellectual trends of a given period or periods. May be repeated for credit as topics or periods vary. CHIN 2301 may be taken to fulfill the foreign language requirement. Prerequisite: ENGL 1301 and ENGL 1302.

CHIN 2310. CHINESE CULTURE IN THE WORLD. 3 Hours.
An overview of the cultures of the Chinese-speaking world in a global context, examining cultural products such as food, art, music, popular culture, literature, and/or film. Taught in English.

CHIN 2313. INTERMEDIATE CHINESE I. 3 Hours. (TCCN = CHIN 2311)
Continued immersion in the culture and language of China. Application of strategies and technology in mastering listening, speaking, reading, and writing at the intermediate level. Prerequisite: CHIN 1442 with a grade of C or better.

CHIN 2314. INTERMEDIATE CHINESE II. 3 Hours. (TCCN = CHIN 2312)
Continuation of intermediate Chinese. Prerequisite: CHIN 2313 with a grade of C or better.

CHIN 2391. CONFERENCE COURSE. 3 Hours.
Independent study; consultation with instructor on a regular basis. May be repeated for credit. Prerequisite: Permission of the instructor.

CHIN 3303. CHINESE CONVERSATION. 3 Hours.
Practice in oral expression with an emphasis on vocabulary building, listening comprehension, and speaking skills. Of special interest to students who wish to improve their skills in pronunciation, comprehension, and oral expression. Credit will not be granted to native speakers of Mandarin Chinese. However, heritage students may register for this course when they pass the Chinese CLEP test administered by the instructor. Prerequisite: CHIN 2314 with a grade of C or better.

CHIN 3304. CHINESE CONVERSATION AND CULTURE II. 3 Hours.
Students continue to develop conversational skills and cultural knowledge through the use of readings, film, and other media. Extensive conversation practice allows students to develop advanced-intermediate level oral skills in a broad range of communicative and cultural contexts. Students learn to express abstract ideas through description, comparison, and narration. Credit will not be granted to native speakers of Mandarin Chinese. Heritage speakers may register for the course with consent of the department. Prerequisite: CHIN 2314 with a grade of C or better.

CHIN 3305. CHINESE READING AND COMPOSITION. 3 Hours.
Analysis of Chinese texts and composition with emphasis on reading comprehension, grammar and vocabulary, and writing techniques. Readings may include newspaper/website articles and short stories, online postings, text messages, comic books, print advertisements, and essays on various topics of Chinese culture. Prerequisite: CHIN 2314 with a grade of C or better.

CHIN 3310. CHINESE LOCALIZATION AND TRANSLATION. 3 Hours.
Introduction to cultural and linguistic issues in the translation of Chinese language texts. Students will explore current technologies used in various real-world translation contexts and how to adapt texts, products, and services to the locale for which they are intended. Prerequisite: CHIN 2314 or the equivalent with a grade of B or better. May not be repeated for credit.

CHIN 3311. CHINESE LOCALIZATION AND TRANSLATION II. 3 Hours.
Continued study of cultural and linguistic issues in the translation of Chinese and English language texts. Systematic development of advanced skills in localization and computer-aided translation and in using TMX/TBX (international standards for translation memory and terminology exchange) tools. Translation practice, individually and in translation teams, with increasingly longer and more specialized texts. Prepares localization and translation specialists for real-world careers in the language-services industry. May not be repeated. Prerequisite: CHIN 3310 with a grade of B or better.

CHIN 3345. INTRODUCTION TO COMPUTER-ASSISTED TRANSLATION. 3 Hours.
Introduction to computer-assisted translation (CAT), machine translation (MT), translation memory (TM) and terminology management tools in modern translation and localization workflows. Prepares students for real-world careers in the language services industry. Exclusively for students pursuing a minor in Localization and Translation-Chinese. CHIN 3310 is strongly recommended before CHIN 3345.

CHIN 3391. CONFERENCE COURSE. 3 Hours.
Independent study; consultation with instructor on a regular basis. May be repeated for credit. Prerequisite: Permission of Instructor.

CHIN 3393. CHINESE INTERNSHIP. 3 Hours.
A combination of field-related experience in the business or service sector with an academic component. Coursework may include journal writing, outside readings, reflection papers, and formal presentations. Prerequisite: Permission of Instructor.

CHIN 4334. CONTEMPORARY CHINESE CULTURE. 3 Hours.
Examination of contemporary Chinese culture, with a focus on current events relevant to the Chinese-speaking world. Topics may include: language and culture, literature, film, business culture, and traditions. Students may take the course in English or in Chinese.

CHIN 4335. BUSINESS CHINESE. 3 Hours.
Study of skills and etiquette vital to functioning in business environments using Chinese. Emphasis is placed on Chinese cultural traditions including traditions of Chinese philosophy and major differences in ideological perspectives between the East and West. Business etiquette and terminology for use in business environments are introduced and practiced. Vocabulary and cultural knowledge are reinforced through lecture, translation, peer discussion, readings, and digital media. Taught in English. No prior Chinese language background is required.
CHIN 4336. CLASSICAL CHINESE THOUGHT: THE ART OF WAR BY SUN TZU. 3 Hours.
This course examines the world renowned Chinese classical book The Art of War by Sun Tzu, a highly recommended reading among generals, political 
strategists, and business leaders worldwide for two millennia. May include textual analysis and discussion of conflict management strategies and their 
application from ancient to modern times. Students of Chinese can read the material in Chinese. No prior Chinese language background required.

CHIN 4391. CONFERENCE COURSE. 3 Hours.
Independent study in the preparation of a paper or a translation on a research topic; consultation with instructor on a regular basis. May be repeated for 
credit.

CHIN 4393. CHINESE INTERNSHIP. 3 Hours.
This course is a combination of field-related experience in the business or service sector with an academic component. Coursework may include journal 
writing in Chinese, outside readings, and formal presentations. Prerequisite: Two CHIN 3000 level courses and permission of the instructor.

COURSES

FREN 1441. BEGINNING FRENCH I. 4 Hours. (TCCN = FREN 1411)
Multimedia immersion in the culture and language of French-speaking countries. Designed to enable students to understand and communicate 
effectively in French at the beginning level. No prerequisites.

FREN 1442. BEGINNING FRENCH II. 4 Hours. (TCCN = FREN 1412)
Continuation of beginning French. Prerequisite: FREN 1441 with a grade of C or better.

FREN 1491. CONFERENCE COURSE. 4 Hours.
Independent study; consultation with instructor on a regular basis. May be repeated for credit. Prerequisite: Permission of the instructor.

FREN 2301. TOPICS IN FRENCH LITERATURE IN TRANSLATION. 3 Hours.
Study of the works of major authors and intellectual trends of a given period or periods. May be repeated for credit as topics or periods vary. FREN 2301 
may be taken to fulfill the foreign language literature requirement. Prerequisite: ENGL 1301 and ENGL 1302 with a grade of C or better.

FREN 2310. FRENCH AND FRANCOPHONE CULTURES IN THE WORLD. 3 Hours.
An overview of the cultures of the French-speaking world in a global context, examining cultural products such as food, art, music, popular culture, 
literature, and/or film. Taught in English.

FREN 2313. INTERMEDIATE FRENCH I. 3 Hours. (TCCN = FREN 2311)
Continued immersion in the culture and language of French -speaking countries. Application of strategies and technology in mastering listening, 
speaking, reading, and writing at the intermediate level. Prerequisite: FREN 1442 with a grade of C or better.

FREN 2314. INTERMEDIATE FRENCH II. 3 Hours. (TCCN = FREN 2312)
Continuation of intermediate French. Prerequisite: FREN 2313 with a grade of C or better.

FREN 2391. CONFERENCE COURSE. 3 Hours.
Independent study; consultation with instructor on a regular basis. May be repeated for credit. Prerequisite: Permission of the instructor.

FREN 3300. FRENCH PRONUNCIATION. 3 Hours.
This course is designed for students who have taken a year or more of French. Emphasis is on speaking skills, pronunciation, and vocabulary. This 
class prepares you to have a conversation with native speakers of French about everyday life. Students will also be introduced to French phonetics and 
phonology. Not open to native and heritage speakers of French. Prerequisite: FREN 1442 with a grade of C or better.

FREN 3303. FRENCH CONVERSATION. 3 Hours.
French Conversation aims to refine the skills learned during the first years of language study and to develop fluency and confidence in speaking at the 
intermediate level. The focus will be on developing oral proficiency and listening comprehension while reinforcing the mastery of basic grammatical 
forms and structures. Special emphasis will be placed on vocabulary building and on producing longer and more complex sentences. Using films, songs, 
and games as content, students will learn to carry on conversations with greater sophistication and authenticity. Credit will not be granted to native or 
heritage speakers of French. Prerequisite: FREN 1442 with a grade of C or better.

FREN 3304. READINGS AND WRITING IN FRENCH. 3 Hours.
This course emphasizes reading comprehension, writing skills, and compositional techniques. Grammar is reviewed. Short stories, essays, movies, and 
social media provide content material. Credit will not be granted to native or heritage speakers of French. Prerequisite: FREN 2314 with a grade of C or 
better.

FREN 3305. FRENCH CULTURE AND CIVILIZATION. 3 Hours.
Historical development of the social, institutional, intellectual, and artistic life of France from inception to the present. Credit will not be granted to native or 
heritage speakers of French. Prerequisite: FREN 2314 with a grade of C or better.

FREN 3309. FRENCH FILM: ART, TECHNOLOGY AND SOCIETY. 3 Hours.
The course is an overview of major movements in French film from the Lumière brothers and Méliès to the contemporary cinema of Leconte, Varda, 
Bonello, and Denis. It introduces students to the technologies that helped shape French films and uses film to raise important issues about national 
identity, politics, and gender in France and in the wider Francophone world. Prerequisite: FREN 2314 or equivalent with a grade of C or better.

FREN 3310. INTRODUCTION TO LITERATURE. 3 Hours.
Principles of literary analysis pertaining to genre, concepts of literary structure, language, and criticism through examination of selected works. 
Prerequisite: FREN 2314 with a grade of C or better.
FREN 3311. CATHEDRALS, CASTLES, AND REVOLUTIONS. 3 Hours.
This course examines the conditions that shaped France from medieval times to the Renaissance, and onward to the Enlightenment and the Revolution of 1789. The course explores main currents of French literature, art, and thought. Prerequisite: FREN 2314 or equivalent with a grade of C or better.

FREN 3312. FRENCH LITERATURE AND CULTURE 19th to 21st CENTURIES. 3 Hours.
This course examines the conditions that shaped French culture from Napoleon I to modern times by exploring main currents of French literature, art, film, and thought. Prerequisite: FREN 2314 or equivalent with a grade of C or better.

FREN 3316. TOPICS IN CITIES OF FRANCE AND THE FRENCH-SPEAKING WORLD. 3 Hours.
The course explores cities and other places as geographical and cultural constructs in literature, the visual arts (including film), and the media. Topics may include large cities like Paris, Lyon, Montréal, Cairo, and Algiers, for example, as well as museums, metros, parks, and other public spaces in France, the Middle East, North Africa, Africa, the Americas, and Asia. FREN 3316 may be repeated for credit when content changes. Prerequisite: FREN 2314 or equivalent with a grade of C or better.

FREN 3318. TOPICS OF IDENTITY IN FRANCE AND THE FRENCH-SPEAKING WORLD. 3 Hours.
This course is a study of places, periods, persons, or questions that helped define French and French-speaking cultural identity, from its origins to the present. Issues studied include linguistic choice, immigration, citizenship, religion, schools, and the representation of women and other groups. No prior knowledge of French language or culture is necessary. Taught in English. May be repeated as the topic changes. Offered as MODL 3318 and FREN 3318; credit will be granted for either MODL or FREN. Students who are working toward a major or minor in French will be required to take FREN 3318.

FREN 3320. LOCALIZATION AND TRANSLATION I. 3 Hours.
Introduction to cultural and linguistic issues in the translation of French language texts. Students will explore current technologies used in various real-world translation contexts and how to adapt texts, products, and services to the locale for which they are intended. May be repeated for credit as focus of course changes. Exclusively for students pursuing a minor in Localization and Translation-French. Prerequisite: FREN 2314 with a grade of B or better.

FREN 3321. LOCALIZATION AND TRANSLATION II. 3 Hours.
Continued study of cultural and linguistic issues in the translation of French and English language texts. Systematic development of advanced skills in localization and computer-aided translation and in using TMX/TBX (international standards for translation memory and terminology exchange) tools. Translation practice, individually and in translation teams, with increasingly longer and more specialized texts. Prepares localization and translation specialists for real-world careers in the language-services industry. Exclusively for students pursuing a minor in Localization and Translation-French. Prerequisite: FREN 3320 with a grade of B or better.

FREN 3345. INTRODUCTION TO COMPUTER-ASSISTED TRANSLATION. 3 Hours.
Introduction to computer-assisted translation (CAT), machine translation (MT), translation memory (TM), and terminology management tools in modern translation and localization workflows. Prepares students for real-world careers in the language services industry. Exclusively for students pursuing a minor in Localization and Translation-French. FREN 3345 cannot be applied toward the minor in French. FREN 3320 is strongly recommended before FREN 3345.

FREN 3391. CONFERENCE COURSE. 3 Hours.
Independent study; consultation with instructor on a regular basis. May be repeated for credit. Prerequisite: Permission of instructor.

FREN 3393. FRENCH INTERNSHIP. 3 Hours.
A combination of field-related experience in the business or service sector with an academic component. Coursework may include journal writing, outside readings, reflection papers, and formal presentations. Prerequisite: Permission of Instructor.

FREN 4310. GRAPHIC NOVELS AND THE MEDICAL WORLD. 3 Hours.
This course examines the ways in which the comic book medium can bring new insights to patient, healthcare, and clinical experiences. Students will become familiar with both major works of graphic medicine and key theoretical texts related to sequential art and to pathographies (autobiographies that revolve particularly around health issues). Includes a cultural comparison component through patient and practitioner stories from an American and from a French perspective. Taught in English. Students in French can read the material in French and write assignments in French with permission of the instructor. Prerequisite: FREN 3318.

FREN 4314. IMPROVING FRENCH GRAMMAR AND WRITING. 3 Hours.
A detailed study of French grammar with practice in composition requiring original themes, essays, and research papers. An overview of the history of the French language and the influences of other languages and cultures on its evolution. Recommended for senior French majors. Prerequisite: FREN 2314 with a grade of C or better.

FREN 4316. GLOBAL FRENCH CUISINES. 3 Hours.
This course examines the history and culture of French cuisines across the globe from the Metropole (France) to its colonies, protectorates, and spheres of influence in the Middle East, North Africa, West Africa, Asia, North America, Central America, and other geographic spaces across time. Topics include North African and Middle Eastern Cuisines, The Culinary Traditions of Provence, Caribbean Cuisine: History and Cultures, West African Cuisine: Colonial and Postcolonial Encounters, French Foods and Revolutions: The Socialist Baguette and the Bourgeois Croissant, Street Food and the Rise of Café and Bistro Cultures, and others. Prerequisite: FREN 2314 with a grade of C or better or permission of the instructor.

FREN 4318. INTRODUCTION TO FRENCH LINGUISTICS. 3 Hours.
An introductory course on the linguistic structure of modern standard French, including phonology, morphology and syntax. Prerequisite: Any two 3000 level French courses with a grade of C or better. FREN 3300 is strongly recommended before taking FREN 4318.
FREN 4322. TOPICS IN 17TH-CENTURY FRANCE. 3 Hours.
This course takes a close look at the political and artistic climate of a defining period in French culture. Prerequisite: FREN 2314 or equivalent with a grade of C or better.

FREN 4324. TOPICS IN 19TH-CENTURY FRANCE. 3 Hours.
The course surveys major currents like Romanticism, Realism, Impressionism, and Orientalism in literature and art. Strong emphasis on the possibilities of leisure (theatre, travel, the phenomena that are department stores, trains, cameras, moving pictures, and high fashion), bourgeois tastes and institutions, the role of Capitalism, and the Alliance network in empire building. FREN 4324 may be repeated for credit when the content changes. Prerequisite: FREN 2314 or equivalent with a grade of C or better.

FREN 4325. TOPICS IN 18TH-CENTURY FRANCE. 3 Hours.
Major currents such as Sensibility, Libertinism, the Republic of Letters, Exoticism, and Orientalism in literature and art. Patterns of French thought comprising the Enlightenment leading to the Revolution. May be repeated for credit when content changes. Prerequisite: FREN 2314 or equivalent with a grade of C or better.

FREN 4328. TOPICS IN GLOBAL FRENCH IN THE 20TH-21ST CENTURIES. 3 Hours.
Cultural and literary output of France, the Middle East, North Africa, Africa, the Americas, and Asia before and after the Second World War. Patterns of French thought, writing, and self-representation, New Europe, decolonization, and nationalism through various media. May be repeated for credit when content changes. Prerequisite: FREN 2314 or equivalent with a grade of C or better.

FREN 4332. MEDIEVAL AND RENAISSANCE CULTURES. 3 Hours.
Readings in modern French of Medieval and Renaissance French literature. Works include the adventures of King Arthur and the Knights of the Round Table, Gargantua, reflections on the self, friendship, education, and the "Other" in Montaigne's Essais, and the love poems of Ronsard. Emphasis on the importance of religion, the evolution and the meaning of cathedrals and monasteries, and the effect of the discovery of the "New World" on perceptions of self and of community. Prerequisite: FREN 2314 or equivalent with a grade of C or better.

FREN 4334. GLOBAL FRENCH CULTURES TODAY. 3 Hours.
This course examines French media, advertisement, journalism, and business culture. It explores the historical context and the social, political, and economic environment that informs these activities. Prerequisite: FREN 2314 or equivalent with a grade of C or better.

FREN 4335. BUSINESS FRENCH. 3 Hours.
Students learn to function in French in business environments, with emphasis on writing business letters, conducting telephone conversations and business meetings, using terminology for transactions in places such as banks, post offices, airports, and hotels. Video segments and interactive computer packages are used extensively to reinforce vocabulary and knowledge acquired through lectures, translations, and readings. Preparation for the DFP (Diplôme de Français Professionnel). Prerequisite: FREN 2314 or equivalent with a grade of C or better.

FREN 4338. GLOBAL FRENCH LITERATURES AND CULTURES. 3 Hours.
This course focuses on French-speaking cultures in Europe, the Middle East, North Africa, West Africa, the Americas, and Asia from the 17th century to the present through literature, music, film, and other forms of expression. Topics include The French Caribbean Novel, World War II in French Literature and Film, Colonial and Postcolonial Experience, French Canada: History and Culture, Mediterranean Readings, The Maghreb and the Levant. May be repeated for credit when topic changes. Prerequisite: FREN 2314 or equivalent with a grade of C or better.

FREN 4339. ACQUISITION OF FRENCH. 3 Hours.
Theory and practice of language acquisition. Techniques needed to understand and analyze the sounds, vocabulary, and grammar of the French language. Primarily for students seeking teacher certification. Prerequisite: FREN 2314 or equivalent with a grade of C or better.

FREN 4341. TRANSLATION: FRENCH & ENGLISH. 3 Hours.
Techniques of translation using different types of texts explore the special difficulties inherent in the translation process. Students will compare French and English grammars and explore the role culture plays in translation. Special emphasis on how ideas, words, and sentences are transposed across cultures, languages, and contexts. Prerequisite: FREN 3304 or FREN 4314 with a grade of C or better.

FREN 4342. TOPICS IN TRANSLATION. 3 Hours.
This course provides additional practice translating texts, comparing and evaluating professional or amateur translations, and/or post-editing machine translations. May be repeated for credit when topic changes. Prerequisite: FREN 3304 or FREN 4314 with a grade of C or better, or permission of the instructor.

FREN 4391. CONFERENCE COURSE. 3 Hours.
Independent study in the preparation of a paper on a research topic and consultation with instructor on a regular basis. May be repeated for credit. Prerequisite: Permission.

FREN 4393. FRENCH INTERNSHIP. 3 Hours.
This course is a combination of field-related experience in the business or service sector with an academic component. Coursework may include journal writing in French, outside readings, and formal presentations. Prerequisite: Two FREN 3000 level courses and permission of the instructor.

FREN 4394. HONORS THESIS / SENIOR PROJECT. 3 Hours.
Required of all students in the University Honors College. During the senior year, the student must complete a thesis or a project under the direction of a faculty member in the major department. May not be repeated for credit.

FREN 5101. TEACHING PRACTICUM I. 1 Hour.
Required of all teaching assistants in French in their first semester. May not be counted toward a master's degree. Graded P/F/R.
FREN 5102. TEACHING PRACTICUM II. 1 Hour.
Required of all teaching assistants in French in their second semester. May not be counted toward a master's degree. Graded P/F/R.

FREN 5314. ADVANCED STYLISTICS. 3 Hours.
Focuses on advanced problems of grammar and style, including syntax, morphology, semantics and stylistics. Surveys the history of the French language, including influences of other languages and cultures on its evolution. Attention given to pedagogical models and approaches as well as intensive composition practices.

FREN 5316. MEDIEVAL AND RENAISSANCE LITERATURE AND CULTURE. 3 Hours.
A study of the main currents of French literature and culture in their social, economic and political context through the representative genres of the period: epic verse, poetry, tales, fabliaux, comic narrative, and theatre to name a few.

FREN 5317. 17TH AND 18TH CENTURY LITERATURE AND CULTURE. 3 Hours.
A study of the main currents of French literature and culture in their social, economic and political context through the representative genres of the period: theatre, the romance, the novel, the portrait and maxim, the philosophic dialogue and tale, among others.

FREN 5318. 19TH AND 20TH CENTURY LITERATURE AND CULTURE. 3 Hours.
A study of the main currents of French literature and culture in their social, economic and political context through the representative genres of the period: theatre, the nouvelle, poetry, the novel, the anti-novel, etc.

FREN 5320. TOPICS IN FRENCH LANGUAGE & LINGUISTICS. 3 Hours.
Special studies in French language and linguistics not ordinarily covered by regular course offerings. Topics may include "Socio-Phonetics," French Phonetics and Phonology," and "History of the French Language." May be repeated for credit when content changes.

FREN 5321. TOPICS IN GENRES OF THE 17TH CENTURY. 3 Hours.
Investigates ideology and practice through literature, the visual arts, music and other cultural "texts." Major topics may include "Versailles: Architecture, Literature, and Politics,"; "Jansenism and its Discontents: Pascal, Racine, de Lafayette,"; "Libertins: Masks and Counter Masks." May be repeated for credit when topic changes.

FREN 5325. TOPICS IN GENRES OF THE 18TH CENTURY. 3 Hours.
Studies oppositional discourse as expressed through the different genres (theatre, poetry, fiction, political and philosophical writings) popular in the 18th century as well as the role and the effect of these works in constituting the Republic of Letters. May be repeated for credit when topic changes.

FREN 5330. TOPICS IN GENRES OF THE 19TH CENTURY. 3 Hours.
Concentrates on literature, the visual arts, entertainment, and fashion as expressions of popular culture. The rise of the "petite bourgeoisie;" social utopias, the rebuilding of Paris, and responses to modernity will be studied in such courses as "Paris and Its Subcultures," Impressionism and the Bourgeoisie," "The Novel and the Body." May be repeated for credit when topic changes.

FREN 5331. TOPICS IN GENRES OF THE 20TH CENTURY. 3 Hours.
Focuses on the work of French and Francophone writers in the light of modernist and post-modernist aesthetics. Literature, art, architecture, music, film, video, television, and other forms of popular production are studied as reflections of an era in crisis. May be repeated for credit when topic changes.

FREN 5338. TOPICS IN FRENCH CULTURE. 3 Hours.
Survey of themes and structures on a range of topics such as "Women in/as Fiction," "Self and Society," & "Revolutions," "French Film." May be repeated for credit when topic changes.

FREN 5391. CONFERENCE COURSE IN FRENCH LINGUISTICS, CULTURE, OR LITERATURE. 3 Hours.
Graded R. Prerequisite: permission of Graduate Advisor. Course may be repeated for credit when the topic changes.

FREN 5398. THESIS. 3 Hours.
FREN 5698. THESIS. 6 Hours.
FREN 5998. THESIS. 9 Hours.
FREN 6310. FRENCH STUDIES. 3 Hours.

COURSES

GERM 1441. BEGINNING GERMAN I. 4 Hours. (TCCN = GERM 1411)
Multimedia immersion in the culture and language of German-speaking countries. Designed to enable students to understand and communicate effectively in German at the beginning level.

GERM 1442. BEGINNING GERMAN II. 4 Hours. (TCCN = GERM 1412)
Continuation of beginning German. Prerequisite: GERM 1441 with a grade of C or better.

GERM 1491. CONFERENCE COURSE. 4 Hours.
Independent study; consultation with instructor on a regular basis. May be repeated for credit. Prerequisite: Permission of the instructor.

GERM 2301. TOPICS IN GERMAN LITERATURE IN TRANSLATION. 3 Hours.
Study of the works of major authors and intellectual trends of a given period or periods. May be repeated for credit as topics or periods vary. GERM 2301 may be taken to fulfill the foreign language literature requirement. Prerequisite: ENGL 1301 and ENGL 1302.
GERM 2310. GERMAN CULTURE IN THE WORLD. 3 Hours.
An overview of the cultures of the German-speaking world in a global context, examining cultural products such as food, art, music, popular culture, literature, and/or film. Taught in English.

GERM 2313. INTERMEDIATE GERMAN I. 3 Hours. (TCCN = GERM 2311)
Continued immersion in the culture and language of German-speaking countries. Application of strategies and technology in mastering listening, speaking, reading, and writing at the intermediate level. Prerequisite: GERM 1442 with a grade of C or better.

GERM 2314. INTERMEDIATE GERMAN II. 3 Hours. (TCCN = GERM 2312)
Continuation of intermediate German. Prerequisite: GERM 2313 with a grade of C or better.

GERM 2391. CONFERENCE COURSE. 3 Hours.
Independent study; consultation with instructor on a regular basis. May be repeated for credit. Prerequisite: Permission of the instructor.

GERM 3301. TOPICS IN GERMAN LITERATURE AND CULTURE IN TRANSLATION. 3 Hours.
Intellectual and literary trends in life and literature of German-speaking countries as reflected in text, film, and video. Topics: 20th century cinema, the Holocaust experience in literature and culture, women writers from the Enlightenment to the present, postwar in two Germanies, among others. May be repeated as topic varies. The course will be count only once, however, toward a minor in German. Prerequisite: GERM 2314 with a grade of C or better.

GERM 3310. LOCALIZATION AND TRANSLATION I. 3 Hours.
Introduction to cultural and linguistic issues in the translation of German language texts. Students will explore current technologies used in various real-world translation contexts and how to adapt texts, products, and services to the locale for which they are intended. May be repeated once. Prerequisite: GERM 2314 with a grade of B or better.

GERM 3311. LOCALIZATION AND TRANSLATION II. 3 Hours.
Continued study of cultural and linguistic issues in the translation of German and English language texts. Systematic development of advanced skills in localization and computer-aided translation and in using TMX/TBX (international standards for translation memory and terminology exchange) tools. Translation practice, individually and in translation teams, with increasingly longer and more specialized texts. Prepares localization and translation specialists for real-world careers in the language-services industry. May not be repeated for credit. Prerequisite: GERM 3310 with a grade of B or better.

GERM 3312. ADVANCED GERMAN GRAMMAR. 3 Hours.
A detailed study of German grammar. Prerequisite: GERM 2314 with a grade of C or better.

GERM 3313. TOPICS IN GERMAN CULTURE & CONVERSATION. 3 Hours.
Topics in German culture with emphasis on conversation and reading skills in German with grammar review. Course may be repeated for credit with departmental permission as topic varies. Credit will not be given to native speakers of German, except with permission of the department. Prerequisite: GERM 2314 with a grade of C or better.

GERM 3314. INTRODUCTION TO COMPUTER-ASSISTED TRANSLATION. 3 Hours.
Introduction to computer-assisted translation (CAT), machine translation (MT), translation memory (TM), and terminology management tools in modern translation and localization workflows. Prepares students for real-world careers in the language services industry. Exclusively for students pursuing a minor in Localization and Translation-German. GERM 3310 or GERM 4334 is strongly recommended before GERM 3345.

GERM 3315. LOCALIZATION AND TRANSLATION III. 3 Hours.
Continuation of intermediate German. Prerequisite: GERM 2313 with a grade of C or better.

GERM 3316. GERMAN COMPOSITION & GRAMMAR. 3 Hours.
Introduction to the analysis of literary texts with emphasis on reading comprehension, grammar, writing skills and compositional techniques. Prerequisite: GERM 2314, or the equivalent, with a grade of C or better.

GERM 3317. INTRODUCTION TO LITERATURE AND CULTURE STUDIES. 3 Hours.
Introduction to the study of literature and culture including approaches to texts, basic theoretical considerations, fundamentals of scholarship. Prerequisite: GERM 2314 with a grade of C or better.

GERM 3318. SPECIAL TOPICS IN GERMAN STUDIES I. 3 Hours.
German courses that may be cross-period or thematically oriented like Kinderliteratur or Film but also those courses targeted at specific groups (e.g. Business, Science, etc.). Course may be repeated for credit with departmental permission as topic varies.

GERM 3319. CONFERENCE COURSE. 3 Hours.
Independent study; consultation with instructor on a regular basis. May be repeated for credit. Prerequisite: consent of the department.

GERM 3320. GERMAN INTERNSHIP. 3 Hours.
A combination of field-related experience in the business or service sector with an academic component. Coursework may include journal writing, outside readings, reflection papers, and formal presentations. Prerequisite: Permission of Instructor.

GERM 4313. GERMAN LITERATURE AND CULTURE I. 3 Hours.
Literary and cultural history from the Renaissance to Romanticism. The course focuses on the history of cultural (including literary) texts and surveys the history of written texts in German-speaking Europe. Course is taught in German. Students may elect to read some of the texts in German. Prerequisite: GERM 2314 with a grade of B or better.

GERM 4314. GERMAN LITERATURE AND CULTURE II. 3 Hours.
Literary and cultural history from Romanticism to the present. Course focuses on the history of cultural (including literary) texts and surveys the history of written texts in German-speaking Europe. Course is taught in German. Students will read texts in German. Prerequisite: GERM 2314 with a grade of B or better.
GERM 4317. TOPICS IN GERMAN TRANSLATION. 3 Hours.
Introduction to the theory and practice of translation. Examples will cover a wide range of texts including literature, business, newspapers, etc. (May substitute for GERM 4335). May be repeated for credit when subject changes up to 3 times total. Prerequisite: One GERM 3000-level course with a grade of C or better, or permission of the instructor.

GERM 4321. TOPICS IN LITERATURE & CULTURE. 3 Hours.
Literary periods, genres, authors, and research themes from German speaking countries. May include literature and thought from the Enlightenment and Classical period; Romanticism; the German Novelle and drama; German opera; banned books and postwar works from modern Germany. May be repeated as topics and texts vary. Prerequisite: GERM 2314 with a grade of B or better.

GERM 4322. SPECIAL TOPICS IN GERMAN STUDIES II. 3 Hours.
German courses that may be cross-period or thematically oriented, such as Culture of Obedience, Classical Tradition, or Women Writers, as well as specific time periods. Course may be repeated for credit with departmental permission as topic varies. Prerequisite: GERM 2314 with a grade of C or better.

GERM 4334. THE CULTURE OF BUSINESS. 3 Hours.
The relationship of culture, language, and meaning to issues affecting business and e-commerce in the German-speaking world, with emphasis on intercultural communication in an international business environment. Web-based media segments about international business in German-speaking Europe and the United States are used as an aid in the acquisition of pertinent cultural knowledge, as well as vocabulary. Prerequisite: GERM 2314 with a grade of B or better.

GERM 4335. BUSINESS GERMAN. 3 Hours.
Students learn to function in business environments, with emphasis on the skills needed for conducting e-commerce. Web-based media segments from the United States and German-speaking Europe are used to reinforce vocabulary and other linguistic knowledge. Prerequisite: GERM 4334 with a grade of B or better.

GERM 4339. THE ACQUISITION OF GERMAN. 3 Hours.
Theory and practice of acquisition of German. Techniques needed to understand and analyze the sounds, vocabulary, and grammar of the German language. Introduction to reading strategies, the development of oral communication skills, and writing strategies.

GERM 4391. CONFERENCE COURSE. 3 Hours.
Independent study in the preparation of a paper on a research topic; consultation with instructor on a regular basis. May be repeated for credit. Prerequisite: Permission.

GERM 4393. GERMAN INTERNSHIP. 3 Hours.
This course is a combination of field-related experience in the business or service sector with an academic component. Coursework may include journal writing in German, outside readings, and formal presentations. Prerequisite: Two GERM 3000 level courses and permission of the instructor.

GERM 4394. HONORS THESIS / SENIOR PROJECT. 3 Hours.
Required of all students in the University Honors College. During the senior year, the student must complete a thesis or a project under the direction of a faculty member in the major department. May not be repeated for credit.

COURSES

GLOBAL 2301. INTRODUCTION TO GLOBAL ISSUES. 3 Hours.
Comparative perspectives on a broad range of cultural, linguistic, economic, political, and social issues confronting a globalized world today. Designed to draw attention to the multifaceted connections among nation-states, nongovernmental organizations, diverse ethnic, cultural and religious groups, and populations around the world.

GLOBAL 2315. INTRODUCTION TO LOCALIZATION AND LANGUAGE TECHNOLOGY. 3 Hours.
An introduction to localization and computational approaches to language and culture. Topics will include: computer-aided translation, machine translation, natural language processing, mining and semantic analysis of language data, machine learning/AI with natural language.

GLOBAL 3301. TOPICS IN INTERNATIONAL CULTURES AND CIVILIZATIONS I. 3 Hours.
Intensive study of a particular world region and/or culture including, but not limited to, its language, geography, history, arts, commerce, politics, and government. Focus on its uniqueness as a culture and its integral place in global society. Repeatable for credit as topic varies. No prerequisite. Recommend enrollment in GLOBAL 2301 concurrently or previously.

GLOBAL 3302. TOPICS IN INTERNATIONAL CULTURES AND CIVILIZATIONS II. 3 Hours.
Advanced study of a particular world region and/or culture including, but not limited to, its language, geography, history, arts, commerce, politics, and government. Emphasis on film, media, international communication, or other subjects of global study. Repeatable for credit as topic changes. No prerequisite. Strongly recommended: GLOBAL 2301 and GLOBAL 3301, concurrently or previously.

GLOBAL 3303. PUTINISM AND THE CULTURE OF RUSSIAN POLITICS. 3 Hours.
A course on Putinism as a governing system and incipient ideology in Russia. The course focuses on the cultural, historical, and biographical roots of Putinism as well as its sociological, institutional, and ideological foundations. The course also examines aspects of Putinism in practice, with a specific focus on the role of the Russian security services and organized crime. Prerequisite: ENGL 1301 with a grade of C or better.
GLOBAL 3310. LOCALIZATION AND TRANSLATION. 3 Hours.
Introduction to cultural and linguistic issues in the translation of language texts. Students will explore current technologies used in various real-world translation contexts and how to adapt texts, products, and services to the locale for which they are intended. Prerequisite: GLOBAL 3301 in the language under study or permission of the instructor.

GLOBAL 4301. RESEARCH IN GLOBAL STUDIES. 3 Hours.
This course examines multidisciplinary problems that fall within the scope of human rights and the UN's Sustainable Development Goals (SDGs). Students complete coursework which culminates in an original research project on a topic of their choice, which might involve novel approaches toward sustainability, food security, infrastructure, health, water conservation, sanitation, ecosystem resilience, urbanization, recycling, or other issues related to globalization. Students will investigate and propose solutions in the form of a proposal to carry out active field work in partnership with a non-governmental agency or non-profit organization working to promote sustainable global development. For students pursuing a minor or certificate in Global Studies, this course serves as their Capstone. Prerequisite: ANTH 2322, GLOBAL 2301, GLOBAL 3310, POLS 3302, or POLS 3304.

GLOBAL 4312. INTERCULTURAL COMPETENCE FOR GLOBAL COMMUNICATION. 3 Hours.
A study of the differences between the U.S. and other cultures of the world with a focus on the development of intercultural competence: verbal and non-verbal communication, interpersonal skills, effective management strategies, and professional etiquette in multicultural settings.

GLOBAL 4393. INTERNSHIP. 3 Hours.
This course is a combination of field-related experience in the business or service sector with an academic component. Coursework may include journal writing, outside readings, and formal presentations. Prerequisite: Two GLOBAL 3000 level courses and/or permission of the instructor.

COURSES
KORE 1441. BEGINNING KOREAN I. 4 Hours. (TCCN = KORE 1411)
Multimedia immersion in the culture and language of Korea. Designed to enable students to understand and communicate effectively in Korean at the beginning level.

KORE 1442. BEGINNING KOREAN II. 4 Hours. (TCCN = KORE 1412)
Continuation of Beginning Korean I. Prerequisite: KORE 1441 with a grade of C or better.

KORE 1491. CONFERENCE COURSE. 4 Hours.
Independent study; consultation with instructor on a regular basis. May be repeated for credit. Prerequisite: Permission of the instructor.

KORE 2301. TOPICS IN LITERATURE IN TRANSLATION. 3 Hours.
Study of the works of major authors and intellectual trends of a given period or periods. May be repeated for credit as topics or periods vary. KORE 2301 may be taken to fulfill the foreign language literature requirement. Prerequisite: ENGL 1301 and ENGL 1302.

KORE 2310. KOREAN CULTURE IN THE WORLD. 3 Hours.
An overview of the cultures of the Korean-speaking world in a global context, examining cultural products such as food, art, music, popular culture, literature, and/or film. Taught in English.

KORE 2313. INTERMEDIATE KOREAN I. 3 Hours. (TCCN = KORE 2311)
Continued immersion in the culture and language of Korea. Application of strategies and technology in mastering listening, speaking, reading, and writing at the intermediate level. Prerequisite: KORE 1442 with a grade of C or better.

KORE 2314. INTERMEDIATE KOREAN II. 3 Hours. (TCCN = KORE 2312)
Continuation of Intermediate Korean I. Prerequisite: KORE 2313 with a grade of C or better.

KORE 2391. CONFERENCE COURSE. 3 Hours.
Independent study; consultation with instructor on a regular basis. May be repeated for credit. Prerequisite: Permission of the instructor.

KORE 3301. TOPICS IN KOREAN LITERATURE AND CULTURE IN TRANSLATION. 3 Hours.
Main currents in contemporary Korean literature, art, film, and thought in relation to Korean political and social history. May be repeated for credit as topics or periods vary. May be taken to fulfill the foreign language literature requirement.

KORE 3303. KOREAN CONVERSATION AND CULTURE I. 3 Hours.
Practice in oral expression with an emphasis on vocabulary building, developing conversational skills, and cultural knowledge through the use of readings, film, and other media. Of special interest to students who wish to improve their skills in oral expression, reading comprehension, and writing. Credit will not be granted to native speakers of Korean. However, heritage speakers of Korean may register for the course when they pass the Korean Placement Test administered by the instructor. Prerequisite: KORE 2314 with a grade of C or better.

KORE 3304. KOREAN CONVERSATION AND CULTURE II. 3 Hours.
Students continue to develop conversational skills and cultural knowledge through the use of readings, film, and other media. Extensive conversation practice allows students to develop advanced-intermediate level oral skills in a broad range of communicative and cultural contexts. Students learn to express more abstract ideas through description, comparison, and narration. Credit will not be granted to native speakers of Korean. Heritage speakers of Korean may register for the course when they pass the Korean Placement Test administered by the instructor. Prerequisite: KORE 2314 with a grade of C or better.

KORE 3305. KOREAN READING AND COMPOSITION. 3 Hours.
An analysis of Korean texts and composition with emphasis on reading comprehension, grammar, writing skills, and compositional techniques. Readings may include newspaper articles, short stories, and essays on various topics of Korean culture. Prerequisite: KORE 2314 with a grade of C or better.
KORE 3310. KOREAN LOCALIZATION AND TRANSLATION I. 3 Hours.
Introduction to cultural and linguistic issues in the translation of Korean language texts. Students will explore current technologies used in various real-world translation contexts and how to adapt texts, products, and services to the locale for which they are intended. May not be repeated for credit. Prerequisite: KORE 2314 or the equivalent with a grade of B or better.

KORE 3311. KOREAN LOCALIZATION AND TRANSLATION II. 3 Hours.
Continued study of cultural and linguistic issues in the translation of Korean and English language texts. Systematic development of advanced skills in localization and computer-aided translation and in using TMX/TBX (international standards for translation memory and terminology exchange) tools. Translation practice, individually and in translation teams, with increasingly longer and more specialized texts. Prepares localization and translation specialists for real-world careers in the language-services industry. May not be repeated for credit. Prerequisite: KORE 3310 with a grade of B or better.

KORE 3345. INTRODUCTION TO COMPUTER-ASSISTED TRANSLATION. 3 Hours.
Introduction to computer-assisted translation (CAT), machine translation (MT), translation memory (TM) and terminology management tools in modern translation and localization workflows. Prepares students for real-world careers in the language services industry. Exclusively for students pursuing a minor in Localization and Translation-Korean. KORE 3345 is strongly recommended before KORE 3345.

KORE 3391. CONFERENCE COURSE. 3 Hours.
Independent study; consultation with instructor on a regular basis. May be repeated for credit. Prerequisite: Permission of Instructor.

KORE 3393. KOREAN INTERNSHIP. 3 Hours.
A combination of field-related experience in the business or service sector with an academic component. Coursework may include journal writing, outside readings, reflection papers, and formal presentations. Prerequisite: Permission of Instructor.

KORE 4321. TOPICS IN KOREAN LINGUISTICS. 3 Hours.
Topics may include fundamentals of the linguistic structure of modern Korean, including phonology, morphology, syntax, and semantics, as well as pragmatics and typology. Focus on linguistic applications to the problems of learning Korean. Taught in English. Students who are working toward a major or minor in Korean will be required to complete some assignments in the target language. May be repeated for credit as topics may change. Prerequisite: KORE 1442 with a grade of C or better.

KORE 4331. TOPICS IN KOREAN CULTURE AND CIVILIZATION. 3 Hours.
Historical survey of the social, political, and economic aspects of Korean culture. Topics may include language, culture, history, literature, art, music, film, and other means of mass communication. No prior knowledge of Korean language or culture is necessary. Taught in English. Students who are working toward a major or minor in Korean will be required to complete some assignments in the target language. May be repeated as the topic changes.

KORE 4332. CONTEMPORARY KOREAN CULTURE. 3 Hours.
Study of the social, political, and economic aspects of Korean culture with focus on current events relevant to Korea. The course also explores language, literature, art, film, food, and music, including K-pop. No prior knowledge of Korean language or culture is necessary. Taught in English. Students who are working toward a major or minor in Korean will be required to complete some assignments in the target language.

KORE 4334. THE CULTURE OF BUSINESS. 3 Hours.
The relationship of culture, language, and meaning to issues affecting business and e-commerce in the Korean-speaking world, with emphasis on intercultural communication in an international business environment. Web-based media segments about international business in Korea and North America are used as an aid in the acquisition of pertinent cultural knowledge, as well as vocabulary. Prerequisite: KORE 2314 with a grade of B or better.

KORE 4335. BUSINESS KOREAN. 3 Hours.
Students learn to function in business environments, with emphasis on the skills needed for conducting e-commerce. Web-based media segments from Korea and North America are used to reinforce vocabulary, as well as cultural, and other linguistic knowledge. Prerequisite: KORE 2314 with a grade of B or better.

KORE 4391. CONFERENCE COURSE. 3 Hours.
Independent study in the preparation of a paper or a translation on a research topic; consultation with instructor on a regular basis. May be repeated for credit.

KORE 4393. KOREAN INTERNSHIP. 3 Hours.
This course is a combination of field-related experience in the business or service sector with an academic component. Coursework may include journal writing in Korean, outside readings, and formal presentations. Prerequisite: Two KORE 3000 level courses and permission of the instructor.

COURSES

MODL 1441. TOPICS IN MODERN LANGUAGE LEVEL I. 4 Hours.
(Chinese, etc.). This course parallels the 1441 courses in FREN 1441, GERM 1441, RUSS 1441, and SPAN 1441.

MODL 1442. TOPICS IN MODERN LANGUAGE LEVEL II. 4 Hours.
(Chinese, etc.). This course parallels the 1442 courses in FREN 1442, GERM 1442, RUSS 1442, and SPAN 1442.

MODL 1491. CONFERENCE COURSE. 4 Hours.
Independent study; consultation with instructor on a regular basis. May be repeated for credit. Prerequisite: Permission of the instructor.
MODL 2301. INTRODUCTION TO WORLD LANGUAGES. 3 Hours.
An overview of the linguistic features of some of the world's most widely spoken languages, as well as issues affecting languages in a globalized world. Topics include language families; global distribution; writing systems and vocabulary; language and society; languages and globalization. This course satisfies the University of Texas at Arlington core curriculum requirement in social and behavioral sciences. Taught in English.

MODL 2313. TOPICS IN MODERN LANGUAGE LEVEL III. 3 Hours.
(Chinese, etc.). This course parallels the 2313 courses in FREN 2313, GERM 2313, RUSS 2313, and SPAN 2313.

MODL 2314. TOPICS IN MODERN LANGUAGE LEVEL IV. 3 Hours.
(Chinese, etc.). This course parallels the 2314 courses in FREN 2314, GERM 2314, RUSS 2314, and SPAN 2314.

MODL 2391. CONFERENCE COURSE. 3 Hours.
Independent study; consultation with instructor on a regular basis. May be repeated for credit. Prerequisite: Permission of the instructor.

MODL 3301. TOPICS IN COMPARATIVE LANGUAGES, CULTURE, AND LITERATURES. 3 Hours.
Comparisons of language and language/culture issues across languages and/or time. Topics may include folklore across cultures, comparison of language and cultural production (e.g., international film and international feminism). May be counted toward fulfilling core curriculum requirement in literature or culture. May be repeated for credit when content changes. No prerequisites.

MODL 3310. LOCALIZATION & TRANSLATION I. 3 Hours.
Introduction to cultural and linguistic issues in the translation of language texts. Students will explore current technologies used in various real-world translation contexts and how to adapt texts, products, and services to the locale for which they are intended. Prerequisite: ARAB 2314, CHIN 2314, PORT 2314, or MODL 2314 with a grade of C or better.

MODL 3311. LOCALIZATION & TRANSLATION II. 3 Hours.
Continued study of cultural and linguistic issues in the translation of foreign language and English language texts. Systematic development of advanced skills in localization and computer-aided translation and in using TMX/TBX (international standards for translation memory and terminology exchange) tools. Translation practice, individually and in translation teams, with increasingly longer and more specialized texts. Prepares localization and translation specialists for real-world careers in the language-services industry. May be repeated once. Prerequisites: MODL 3310 with a grade of B or better.

MODL 3318. TOPICS OF IDENTITY IN FRANCE AND THE FRENCH-SPEAKING WORLD. 3 Hours.
This course is a study of places, periods, persons, or questions that helped define French and French-speaking cultural identity, from its origins to the present. Issues studied include linguistic choice, immigration, citizenship, religion, schools, and the representation of women and other groups. No prior knowledge of French language or culture is necessary. Taught in English. May be repeated as the topic changes. Offered as MODL 3318 and FREN 3318; credit will be granted for either MODL or FREN. Students who are working toward a major or minor in French will be required to take FREN 3318.

MODL 3346. BUSINESS OF LOCALIZATION AND TRANSLATION. 3 Hours.
This course examines the business of localization with an emphasis on translation relevance, speed, and quality. This course will address the art of machine translation as well as the areas of cost and metrics. Students will undertake two real-world case studies and will end the course with a final project and/or exam addressing the management of translations in a major industry. Exclusively for students pursuing a minor or major in Localization and Translation. Prerequisite: ENGL 1302.

MODL 3347. LANGUAGE SERVICES INDUSTRY. 3 Hours.
This course will focus on the language services industry and language services for the modern enterprise, including website globalization, transcreation, video localization, multilingual Search Engine Optimization (SEO), International testing and machine translation. It will also provide an overview of industry best practices for tools that automate and streamline localization, translation, and global content creation and use. Exclusively for students pursuing a minor or major in Localization and Translation. Prerequisite: ENGL 1302.

MODL 3391. INDEPENDENT STUDY. 3 Hours.
Independent study; consultation with instructor on a regular basis. May be repeated for credit.

MODL 3393. MODERN LANGUAGE INTERNSHIP. 3 Hours.
A combination of field-related experience in the business or service sector with an academic component. Coursework may include journal writing, outside readings, reflection papers, and formal presentations. Prerequisite: Permission of Instructor.

MODL 4305. METHODS OF MODERN LANGUAGE TEACHING. 3 Hours.
An applied linguistics course for modern language professionals, focusing on the application of research and theory in linguistics and second language acquisition to the classroom setting. May include specific methods, language learning strategies, cooperative language learning, component and performance skills, lesson planning, and intercultural communication. Prerequisite: Two language courses at the 3000 level with a grade of C or better, or consent of the instructor.

MODL 4310. GRAPHIC NOVELS AND THE MEDICAL WORLD. 3 Hours.
This course examines the ways in which the comic book medium can bring new insights to patient, healthcare, and clinical experiences. Students will become familiar with both major works of graphic medicine and key theoretical texts related to sequential art and to pathographies (autobiographies that revolve particularly around health issues). Includes a cultural comparison component through patient and practitioner stories from an American and from a French perspective. Taught in English. Students in French can read the material in French and write assignments in French with permission of the instructor.
MODL 4316. TOPICS IN GLOBAL FRENCH CUISINES. 3 Hours.
The course examines the history and culture of French cuisines across the globe from France to its former colonies and spheres of influence in the Middle East, North Africa, West Africa, Canada, Louisiana, and the Caribbean across history. Topics include North African and Middle Eastern Cuisines, the Culinary Traditions of Provence, Caribbean Cuisines, West African Cuisines, and the Rise of Café and Bistro Cultures. No prior knowledge of French language or culture is necessary. Taught in English. May be repeated as the topic changes. Offered as MODL 4316 and FREN 4316; credit will be granted for either MODL or FREN. Students who are working toward a major or minor in French will be required to take FREN 4316.

MODL 4338. TOPICS IN GLOBAL FRENCH LITERATURES AND CULTURES. 3 Hours.
This course focuses on French-speaking cultures in Europe, the Middle East, North Africa, West Africa, the Americas, and Asia from the 17th century to the present through literature, music, film, and other forms of expression. Topics include the French Caribbean Novel, French Canada, the Mediterranean in the Maghreb and the Middle East. No prior knowledge of French language or culture is necessary. Taught in English. May be repeated as the topic changes. Offered as MODL 4338 and FREN 4338; credit will be granted for either MODL or FREN. Students who are working toward a major or minor in French will be required to take FREN 4338.

MODL 4339. LANGUAGE ACQUISITION. 3 Hours.
Theory and practice of language acquisition. Techniques needed to understand and analyze the sounds, vocabulary, and grammar of the target language and how this knowledge informs classroom practice. Prerequisite: Completion of two 3000 level courses in the same language (Arabic, Chinese, French, German, Korean, Russian, or Spanish) with a grade of C or better, or consent of the instructor.

MODL 4340. TOPICS IN MODERN LANGUAGE PEDAGOGY. 3 Hours.
Topics, methods, and techniques specific to the teaching of modern languages and the creation of an effective and communicative language classroom. Recommended for students seeking teacher certification. May be repeated for credit as topic changes. Prerequisite: Completion of one 4000-level class or two 3000-level classes in the same language (Arabic, Chinese, French, German, Korean, Russian, or Spanish) with a grade of B or better.

MODL 4347. RESEARCH IN LOCALIZATION AND TRANSLATION. 3 Hours.
Overview of research and practice in localization and translation. Topics to include: emerging research frameworks and tools; ethics and risk in applied research for localization and translation settings. Prerequisite: FREN 3320, GERM 3310, GERM 4334, RUSS 3310, RUSS 4334, SPAN 3310, ARAB 3310, CHIN 3310, KORE 3310, or KORE 4334.

MODL 4348. NATURAL LANGUAGE PROCESSING AND UNDERSTANDING. 3 Hours.
Overview of research and practice in natural language processing and natural language understanding. Topics to include: emerging research; identification, planning, and implementation of natural language technologies for the language setting; machine learning; human and machine roles in machine learning; ethics and risks in the natural language processing context. Prerequisite: FREN 3320, GERM 3310, GERM 4334, RUSS 3310, RUSS 4334, SPAN 3310, ARAB 3310, CHIN 3310, KORE 3310, or KORE 4334.

MODL 4349. MACHINE TRANSLATION AND EMERGING LANGUAGE TECHNOLOGIES. 3 Hours.
Overview of machine translation and emerging technologies in language services and their application in real-world settings. Topics to include: history of machine translation; identification, planning, and implementation of automated translation use cases; human and machine roles in translation automation; ethics and risk in emerging language technologies. Prerequisite: FREN 3320, GERM 3310, GERM 4334, RUSS 3310, RUSS 4334, SPAN 3310, ARAB 3310, CHIN 3310, KORE 3310, or KORE 4334.

MODL 4391. INDEPENDENT STUDY. 3 Hours.
Independent study; consultation with instructor on a regular basis. May be repeated for credit.

MODL 4393. MODERN LANGUAGE INTERNSHIP. 3 Hours.
A combination of field-related experience in the business or service sector with an academic component. Coursework may include journal writing in Spanish, outside readings, and formal presentations. Prerequisite: Two 3000-level courses and permission of the instructor.

MODL 5300. HISTORY OF THE FRENCH LANGUAGE. 3 Hours.
Development of the French language from its earliest forms to the present. Required for the MA in MODL with French concentration.

MODL 5301. MODERN LANGUAGES FOR GRADUATE READING. 3 Hours.
An intensive one-semester course designed for Ph.D. candidates and other graduate students to fulfill departmental foreign language requirements. Sections may be offered in French, German, Russian, or other applicable or appropriate languages. Does not fulfill any graduate degree requirements.

MODL 5302. TOPICS ACROSS THE LANGUAGES. 3 Hours.
This topic course varies in focus and will be taught by in-house faculty or visiting scholars. Taught in English, it will consider issues to cultural and literary concerns across the languages. Possible course offerings include: From Novel to Film, History and/as Literature, Propaganda as Literature, The History and Aesthetics of Film, The Other in Literature and Culture, Freud and the Literary Imagination, and Modernism.

MODL 5304. CURRENTS IN EUROPEAN AND LATIN AMERICAN LITERATURES AND THOUGHT. 3 Hours.
An examination of the mainstream genres and movements in European and Latin American literatures from 1600 to the present. Taught in English. Required for MA students in Modern Languages. May not be repeated for credit.

MODL 5305. METHODS OF MODERN LANGUAGE TEACHING. 3 Hours.
Methods of Modern Language Teaching is an applied linguistics course for modern language professionals, focusing on the application of research and theory in linguistics and second language acquisition to the classroom setting. May include specific methods, language learning strategies, cooperative language learning, component and performance skills, and intercultural communication.
MODL 5306. L2 ACQUISITION. 3 Hours.

MODL 5307. TOPICS IN SECOND LANGUAGE ACQUISITION. 3 Hours.
May include topics in the areas of second language acquisition, methodologies, culture, and disciplines related to second language acquisition. May be repeated for credit as topics change.

MODL 5308. TECHNOLOGY AND LANGUAGE INSTRUCTION. 3 Hours.
Presentation and critique of research regarding the use of electronic media in language instruction; emphasis on computer and video, with attention to the application of research findings to the language classroom.

MODL 5309. TRANSLATION THEORY. 3 Hours.
Provides an introduction to basic concepts and offers a general conceptual framework for the study of translation theory. Students acquire the tools to identify, analyze and resolve translation problems while developing a rational approach to translation. (Following the completion of this course, students are encouraged to enroll in FREN 5309, GERM 5309 or SPAN 5309, Practicum in Translation.).

MODL 5310. THEORIES OF LITERATURE AND CULTURE. 3 Hours.
Readings, analyses, and applications of recent literary and cultural theories. Particular attention to how such theories may serve to focus or refocus literature as cultural production. Required for the M.A. in French, German, and Spanish.

MODL 5391. CONFERENCE. 3 Hours.

MODL 5393. MODL GRADUATE INTERNSHIP. 3 Hours.
Graduate internship in the Department of Modern Languages with the student performing duties related to the field of modern languages. A combination of field-related experience at the graduate level with an academic component. Students are required to submit an approved academic project related to the work performed. May be repeated with approval of Graduate Advisor.

COURSES

PORT 1441. BEGINNING PORTUGUESE I. 4 Hours. (TCCN = PORT 1411)
Multimedia immersion in the culture and language of Portuguese-speaking countries. Designed to enable students to understand and communicate effectively in Portuguese at the beginning level. No prerequisites.

PORT 1442. BEGINNING PORTUGUESE II. 4 Hours. (TCCN = PORT 1412)
Continuation of beginning Portuguese. Prerequisite: PORT 1441 with a grade of C or better.

PORT 2301. TOPICS IN LITERATURE IN TRANSLATION. 3 Hours.
Study of the works of major authors and intellectual trends of a given period of periods. May be repeated for credit as topics or periods vary. PORT 2301 may be taken to fulfill the foreign language literature requirement. Prerequisite: ENGL 1301 and ENGL 1302.

PORT 2313. INTERMEDIATE PORTUGUESE I. 3 Hours. (TCCN = PORT 2311)
Continued immersion in the culture and language of Portuguese-speaking countries. Application of strategies and technology in mastering listening, speaking, reading, and writing at the intermediate level. Prerequisite: PORT 1442 with a grade of C or better.

PORT 2314. INTERMEDIATE PORTUGUESE II. 3 Hours. (TCCN = PORT 2312)
Continuation of intermediate Portuguese. Prerequisite: PORT 2313 with a grade of C or better.

PORT 3303. PORTUGUESE CONVERSATION AND CULTURE. 3 Hours.
Practice in oral expression with an emphasis on developing conversational skills and cultural knowledge. Of special interest to students who wish to improve their skills in pronunciation, comprehension, and oral expression. Prerequisite: PORT 2314 with a grade of C or better. Credit will not be granted to native speakers of Portuguese. Heritage speakers of Portuguese need the consent of the instructor to register.

PORT 3304. PORTUGUESE CONVERSATION AND CULTURE II. 3 Hours.
Students continue to develop conversational skills and cultural knowledge. Emphasis on speaking, listening, building vocabulary, and providing practice in a broad range of communicative and cultural contexts. Credit will not be granted to native speakers of Portuguese. Heritage speakers of Portuguese need the consent of the instructor to register. Prerequisite: PORT 3303 with a grade of C or better.

PORT 3310. PORTUGUESE LOCALIZATION AND TRANSLATION. 3 Hours.
Introduction to cultural and linguistic issues in the translation of Portuguese language texts. Students will explore current technologies used in various real-world translation contexts and how to adapt texts, products, and services to the locale for which they are intended. Prerequisite: PORT 2314 or the equivalent with a grade of B or better. May not be repeated for credit.

PORT 3311. PORTUGUESE LOCALIZATION AND TRANSLATION II. 3 Hours.
Continued study of cultural and linguistic issues in the translation of Portuguese and English language texts. Systematic development of advanced skills in localization and computer-aided translation and in using TMX/TBX (international standards for translation memory and terminology exchange) tools. Translation practice, individually and in translation teams, with increasingly longer and more specialized texts. Prepares localization and translation specialists for real-world careers in the language-services industry. May not be repeated for credit. Prerequisite: PORT 3310 with a grade of B or better.

PORT 3345. INTRODUCTION TO COMPUTER-ASSISTED TRANSLATION. 3 Hours.
Introduction to computer-assisted translation (CAT), machine translation (MT), translation memory (TM) and terminology management tools in modern translation and localization workflows. Prepares students for real-world careers in the language services industry. Exclusively for students pursuing a minor in Localization and Translation-Arabic. ARAB 3310 is strongly recommended before ARAB 3345.
PORT 3391. CONFERENCE COURSE. 3 Hours.
Independent study; consultation with instructor on a regular basis. May be repeated for credit. Prerequisite: consent of the department.

PORT 4334. CONTEMPORARY BRAZILIAN CULTURE. 3 Hours.
Examination of contemporary Brazilian culture, with a focus on current events relevant to the Portuguese-speaking world. Topics may include: language and culture, literature, film, business culture, and traditions. Students may take the course in English or in Portuguese.

PORT 4393. PORTUGUESE INTERNSHIP. 3 Hours.
This course is a combination of field-related experience in the business or service sector with an academic component. Coursework may include journal writing in Portuguese, outside readings, and formal presentations. May be repeated once for credit if student undertakes a different internship. Prerequisite: Two PORT 3000 level courses and/or permission of the instructor.

COURSES

RUSS 1441. BEGINNING RUSSIAN I. 4 Hours. (TCCN = RUSS 1411)
Multimedia immersion in the culture and language of Russian-speaking countries. Designed to enable students to understand and communicate effectively in Russian at the beginning level. No prerequisites.

RUSS 1442. BEGINNING RUSSIAN II. 4 Hours. (TCCN = RUSS 1412)
Continuation of beginning Russian. Prerequisite: RUSS 1441 with a grade of C or better.

RUSS 1491. CONFERENCE COURSE. 4 Hours.
Independent study; consultation with instructor on a regular basis. May be repeated for credit. Prerequisite: Permission of the instructor.

RUSS 2301. TOPICS IN RUSSIAN LITERATURE IN TRANSLATION. 3 Hours.
Study of the works of major authors and intellectual trends of a given period or periods. May be repeated for credit as topics or periods vary. RUSS 2301 may be taken to fulfill the foreign language literature requirement. Prerequisite: ENGL 1301 and ENGL 1302.

RUSS 2310. RUSSIAN CULTURE IN THE WORLD. 3 Hours.
An overview of the cultures of the Russian-speaking world in a global context, examining cultural products such as food, art, music, popular culture, literature, and/or film. Taught in English.

RUSS 2313. INTERMEDIATE RUSSIAN I. 3 Hours. (TCCN = RUSS 2311)
Continued immersion in the culture and language of Russian-speaking countries. Application of strategies and technology in mastering listening, speaking, reading, and writing at the intermediate level. Prerequisite: RUSS 1442 with a grade of C or better.

RUSS 2314. INTERMEDIATE RUSSIAN II. 3 Hours. (TCCN = RUSS 2312)
Continuation of intermediate Russian. Prerequisite: RUSS 2313 with a grade of C or better.

RUSS 2315. INTRODUCTION TO RUSSIAN LANGUAGE AND CULTURE. 3 Hours.
A fully online course devoted to immersion in Russian culture through print and digital media as well as conversation and collaboration with native speakers of Russian. Students will gain broad exposure to social and historical contexts of Russian culture as well as reading ability of the Russian Cyrillic alphabet, and practice in basic reading, writing and speaking skills in Russian. No prerequisites. Prior knowledge of Russian is useful but not required. Credit will not be granted to native or heritage speakers of Russian.

RUSS 2391. CONFERENCE COURSE. 3 Hours.
Independent study; consultation with instructor on a regular basis. May be repeated for credit. Prerequisite: Permission of the instructor.

RUSS 3301. TOPICS IN RUSSIAN LITERATURE IN TRANSLATION. 3 Hours.
Covers the works of major Russian authors during the period from the beginning of Russian literature until the 1917 Revolution, focusing on the interrelationship of various literary movements and philosophies. Students receiving credit in Russian will complete a research project using the Russian language. May be repeated for credit as topics and periods vary. Offered as ENGL 3301 and RUSS 3301; credit will be granted in only one department. Prerequisites: English majors must have earned a C or better in ENGL 3333 and ENGL 3350. Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

RUSS 3304. TOPICS IN RUSSIAN LANGUAGE STUDY. 3 Hours.
Study of Modern Russian with a focus on pronunciation, word formation, and syntax. Students develop advanced listening, reading, speaking, and writing skills through cultural analysis. Cultural topics come from linguistics, literature, music, film, visual and performing arts, sports, and science. Repeatable for credit when the topic changes.

RUSS 3305. TOPICS IN RUSSIAN POETRY. 3 Hours.
Literary analysis of selected works of Russian poetry in the original Russian. Topics will come from different periods of Russian literary and cultural history. Students develop reading, writing, and language skills at an advanced level. Repeatable for credit when the topic changes.

RUSS 3306. TOPICS IN SOVIET AND POST-SOVIET LITERATURE IN TRANSLATION. 3 Hours.
Covers the works of major Soviet and post-Soviet authors from 1917 to the present against the background of unfolding social and political development in the USSR and post-USSR. Students receiving credit in Russian will complete a research project using the Russian language. May be repeated for credit as topics and periods vary. Offered as ENGL 3306 and RUSS 3306; credit will be granted in only one department. Prerequisites: English majors must have earned a C or better in ENGL 3333 and ENGL 3350. Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).
RUSS 3310. LOCALIZATION AND TRANSLATION I. 3 Hours.
Introduction to cultural and linguistic issues in the translation of Russian language texts. Students will explore current technologies used in various real-world translation contexts and how to adapt texts, products, and services to the locale for which they are intended. May be repeated once. Prerequisite: RUSS 2314 with a grade of B or better.

RUSS 3311. LOCALIZATION AND TRANSLATION II. 3 Hours.
Continued study of cultural and linguistic issues in the translation of Russian and English language texts. Systematic development of advanced skills in localization and computer-aided translation and in using TMX/TBX (international standards for translation memory and terminology exchange) tools. Translation practice, individually and in translation teams, with increasingly longer and more specialized texts. Prepares localization and translation specialists for real-world careers in the language-services industry. May not be repeated for credit. Prerequisite: RUSS 3310 with a grade of B or better.

RUSS 3314. POLITICAL SYSTEMS OF EASTERN AND CENTRAL EUROPE. 3 Hours.
POLS 3314 or RUSS 3314. Examination of the political institutions and processes of the former communist systems of Eastern Europe and the Baltics, as well as selected Central European states. Credit will be given in only one department. Students receiving credit in Russian will complete projects using the Russian language.

RUSS 3333. CONVERSATION AND TOPICS IN RUSSIAN CULTURE. 3 Hours.
Intermediate practice in spoken Russian using print and media resources on a range of cultural topics. Students actively master the discourse of the source media through dialogue, debate, and short presentations in Russian. May be repeated as topic varies. Prerequisite: RUSS 1442 with a grade of C or better.

RUSS 3334. RUSSIAN COMPOSITION AND GRAMMAR. 3 Hours.
Introduction to the analysis of texts with emphasis on reading comprehension, grammar, writing skills and compositional techniques. Prerequisite: RUSS 1442 with a grade of C or better.

RUSS 3343. RUSSIAN PHONETICS. 3 Hours.
Introduction to the articulatory phonetics of Russian. Of special interest to students who wish to improve their pronunciation, comprehension, and oral expression. Prerequisite: RUSS 1442 with a grade of C or better.

RUSS 3345. INTRODUCTION TO COMPUTER-ASSISTED TRANSLATION. 3 Hours.
Introduction to computer-assisted translation (CAT), machine translation (MT), translation memory (TM) and terminology management tools in modern translation and localization workflows. Prepares students for real-world careers in the language services industry. Exclusively for students pursuing a minor in Localization and Translation-Russian. RUSS 4334 or RUSS 3310 is strongly recommended before RUSS 3345.

RUSS 3391. CONFERENCE COURSE. 3 Hours.
Independent study; consultation with instructor on a regular basis. May be repeated for credit. Prerequisite: Permission.

RUSS 3393. RUSSIAN INTERNSHIP. 3 Hours.
A combination of field-related experience in the business or service sector with an academic component. Coursework may include journal writing, outside readings, reflection papers, and formal presentations. Prerequisite: Permission of the instructor.

RUSS 4301. SELECTED AUTHORS AND TOPICS. 3 Hours.
Detailed reading and analysis of selected Russian writers such as Alexander Pushkin, Nikolai Gogol, Fyodor Dostoevsky, Leo Tolstoy, Ivan Turgenev and Anton Chekhov. Their works are compared in the light of urgent social, political, literary and philosophical questions of their day. May be repeated as topic varies. No prerequisites. Students majoring in Russian read some texts in the original. Taught in English. Satisfies the core curriculum requirement for literature.

RUSS 4302. RUSSIAN AND SOVIET CINEMA. 3 Hours.
A survey of Russian and Soviet cinema since their beginnings to the present. Special attention is paid to film theory and formal analysis, the ideological uses of film art, and cinema as a medium of cultural dissent and witness to social change. No prerequisites. May also be offered as ENGL 3300; credit will be granted in only one department. Taught in English.

RUSS 4303. PROPAGANDA AND IDEOLOGY IN SOVIET ART AND LITERATURE. 3 Hours.
An examination of the purpose, value and influence of the arts in revolutionary Russia with the aid of diverse source documents and artistic media. Focus is on the symbols, stories, rituals and ideologies that defined the Russian experience of 'building socialism' in the early decades of the Soviet Union. No prerequisites. Students majoring in Russian read some texts in the original. Taught in English. Satisfies the core curriculum requirement for literature.

RUSS 4304. BANNED AND CENSORED WORKS OF RUSSIAN LITERATURE. 3 Hours.
An examination of selected works of Russian literature that were censored, banned or otherwise prohibited, from tsarist Russia through the Soviet period. The role of censorship in Russian cultural life, and the great works of literature that flourished in spite of it. No prerequisites. Students majoring in Russian read some texts in the original. Taught in English. Satisfies the core curriculum requirement for literature.

RUSS 4334. THE CULTURE OF BUSINESS. 3 Hours.
The relationship of culture, language, and meaning to issues affecting business and e-commerce in the Russian-speaking world, with emphasis on intercultural communication in an international business environment. Web-based media segments about international business in Russia, Europe, and North America are used as an aid in the acquisition of pertinent cultural knowledge, as well as vocabulary and other linguistic knowledge. Prerequisite: RUSS 2314 with a grade of B or better.
RUSS 4335. BUSINESS RUSSIAN. 3 Hours.
Students learn to function in business environments, with emphasis on the skills needed for conducting e-commerce. Web-based media segments from Russia, Europe, and North America are used to reinforce vocabulary and other linguistic knowledge. Prerequisite: RUSS 4334 with a grade of B or better.

RUSS 4338. TOPICS IN INTERCULTURAL COMMUNICATION AND COLLABORATION. 3 Hours.
This course is devoted to intercultural communication and collaboration. Through telecollaboration with native speakers of Russian, students will gain active practice in listening comprehension and spoken and written Russian. Active learning tasks employing multimedia in collaboration with language partners will contribute to a broadening of knowledge in the social and historical contexts of Russian culture and media, increased ability to express ideas in everyday contexts in spoken and written Russian, and advancement of strategies for autonomous learning. May be repeated for credit as topic changes. Prerequisite: RUSS 1442 with a grade of C or better.

RUSS 4342. TOPICS IN SIMULTANEOUS INTERPRETING: THEORY AND PRACTICE. 3 Hours.
This fully online course focuses on the theory and practice of simultaneous interpreting through active translation and interpreting tasks. Through telecollaboration with native speakers of Russian, students will gain active practice in listening comprehension and spoken and written Russian. A major focus is on translation and simultaneous interpreting in a variety of professional contexts including health and legal settings, politics and media, and business negotiations. Active learning projects will involve role-play, simultaneous interpreting tasks, and creating audio/visual presentations. Prerequisite: RUSS 2314 or equivalent.

RUSS 4361. WAR, PEACE, AND POLITICS IN THE FORMER SOVIET UNION. 3 Hours.
Since the breakup of the Soviet Union in December 1991, the 15 newly independent states have taken divergent paths, while Russia has attempted to restore its dominance over its former empire. This course examines the different paths taken by the former Soviet states and the historical and cultural forces that have driven the transitions, with a specific focus on Russia, Ukraine, Belarus, Moldova, and the South Caucasus. Offered as POLS 4361 and RUSS 4361; credit will be given in only one department. Taught in English. For Russian language credit, some research will be done in Russian. Prerequisite: POLS 2311 and POLS 2312.

RUSS 4362. RUSSIA AND THE POST-SOVIET STATES TODAY. 3 Hours.
An interdisciplinary overview of Russia and Russian area studies. This course provides students with a broad understanding of Russia today through the lenses of its geography and demographics, forms of government, and the themes and tendencies that run throughout Russian history and culture, including their impact on neighboring post-Soviet states. Offered as POLS 4362 and RUSS 4362; credit will be given in only one department. Taught in English. RUSS 4362 students complete some assignments in Russian, while POLS 4362 students do all assignments in English. Prerequisite: For POLS: POLS 2311 and POLS 2312.

RUSS 4365. RUSSIAN FOREIGN POLICY. 3 Hours.
The foreign policy of Russia with an emphasis on its historical, cultural, and political roots, and policymaking structures. Through lectures, seminars, meetings, and assignments, students will gain an understanding of the historical, cultural, and political sources of Russian foreign policy behavior, the actors that implement it, and the tactics deployed. Offered as POLS 4365 and RUSS 4365; credit will be given in only one department. Taught in English. For Russian language credit, some research will be done in Russian. Prerequisite: For POLS: POLS 2311 and POLS 2312.

RUSS 4391. CONFERENCE COURSE. 3 Hours.
Independent study in the preparation of a paper or a translation on a research topic; consultation with instructor on a regular basis. May be repeated for credit.

RUSS 4393. RUSSIAN INTERNSHIP. 3 Hours.
This course is a combination of field-related experience in the business or service sector with an academic component. Coursework may include journal writing in Russian, outside readings, and formal presentations. Prerequisite: Two RUSS 3000 level courses and permission of the instructor.

RUSS 4394. HONORS THESIS/SENIOR PROJECT. 3 Hours.
Required of all students in the University Honors College. During the senior year, the student must complete a thesis or a project under the direction of a faculty member in the major department. May not be repeated for credit.

COURSES

SPAN 1441. BEGINNING SPANISH I. 4 Hours. (TCCN = SPAN 1411)
Beginning study of Spanish language with emphasis on speaking, listening, reading, and writing. No prerequisites. Native or heritage speakers of Spanish may not take this course.

SPAN 1442. BEGINNING SPANISH II. 4 Hours. (TCCN = SPAN 1412)
Continuation of beginning Spanish. Prerequisite: SPAN 1441 with a grade of C or better. Native or heritage speakers of Spanish may not take this course.

SPAN 1491. CONFERENCE COURSE. 4 Hours.
Independent study; consultation with instructor on a regular basis. May be repeated for credit. Prerequisite: Permission of the instructor.

SPAN 2300. SPANISH IN THE UNITED STATES. 3 Hours.
An overview of the historical, social, and cultural issues related to the use of Spanish in the United States alongside other languages, mainly English. Explores topics such as bilingualism, code-switching, Spanglish, and language maintenance vs. loss. Taught in English.
SPAN 2301. TOPICS IN SPANISH LITERATURE IN TRANSLATION. 3 Hours.
Study of the works of major authors and intellectual trends of a given period or periods. May be repeated for credit as topics or periods vary. SPAN 2301 may be taken to fulfill the foreign language literature requirement. Prerequisite: ENGL 1301 and ENGL 1302.

SPAN 2310. HISPANIC CULTURE IN THE WORLD. 3 Hours.
An overview of the cultures of the Spanish-speaking world in a global context, examining cultural products such as food, art, music, popular culture, literature, and/or film. Taught in English.

SPAN 2313. INTERMEDIATE SPANISH I. 3 Hours. (TCCN = SPAN 2311)
Intermediate study of Spanish language with emphasis on speaking, listening, reading, and writing. Prerequisite: SPAN 1442 with a grade of C or better. Native or heritage speakers of Spanish may not take this course.

SPAN 2314. INTERMEDIATE SPANISH II. 3 Hours. (TCCN = SPAN 2312)
Continuation of intermediate Spanish. Prerequisite: SPAN 2313 with a grade of C or better. Native or heritage speakers of Spanish may not take this course.

SPAN 2315. INTERM SPAN HERITAGE SPEAKERS. 3 Hours. (TCCN = SPAN 2315)
This course focuses on the development of reading, writing, speaking and listening skills in Spanish, as well as an understanding of Hispanic cultures and issues of identity of heritage speakers in the United States. This course is intended for heritage speakers of Spanish and is the equivalent of SPAN 2314. This course satisfies the University of Texas at Arlington core curriculum requirement in language, philosophy and culture. Prerequisite: SPAN 2313 with a Grade of C or better or the equivalent, or consent of the department.

SPAN 2391. CONFERENCE COURSE. 3 Hours.
Independent study; consultation with instructor on a regular basis. Prerequisite: Permission of the instructor.

SPAN 3302. TOPICS IN HISPANIC LITERATURE IN TRANSLATION. 3 Hours.
The works of major authors and intellectual trends of a given period. May be repeated for credit as topics or periods vary. Taught in English.

SPAN 3303. ADVANCED SPANISH CONVERSATION. 3 Hours.
Practice in oral expression with an emphasis on vocabulary building and grammar review. Of special interest to students who wish to improve their skills in pronunciation, comprehension, and oral expression. Credit will not be granted to native or heritage speakers of Spanish. Prerequisite: SPAN 2314 with a grade of C or better.

SPAN 3304. LANGUAGE IN MEXICO. 3 Hours.
An analysis of language in Mexico. Topics may include language variation, language and society, languages in contact, indigenous languages, or the history of Spanish in Mexico. Prerequisite: SPAN 2314 or SPAN 2315 with a grade of C or better.

SPAN 3305. ADVANCED SPANISH FOR HERITAGE SPEAKERS. 3 Hours.
A detailed study of Spanish grammar for heritage speakers. Capitalizes upon students’ existing language skills, expands their knowledge base, and develops their ability to read, write, and communicate more effectively. Special attention is given to regional and dialectal differences. Prerequisite: SPAN 2315, or the equivalent, with a grade of C or better.

SPAN 3308. SPANISH FOR HEALTH AND HUMAN SERVICES. 3 Hours.
Practice in Spanish-language skills needed in the fields of healthcare, social work, and other human services. Emphasis on specialized vocabulary building, grammar, role play, and an understanding of Hispanic/Latino culture. For students interested in working with Spanish-speaking clients in nursing/medicine, translation/interpreting, social work, or mental health settings. Prerequisite: SPAN 2314 or SPAN 2315 with a grade of C or better or consent of instructor.

SPAN 3309. SPANISH FOR THE PROFESSIONS. 3 Hours.
Practice in Spanish-language skills needed in the professional fields in order to communicate with Spanish-speaking individuals. Emphasis on specialized vocabulary building, role play, and an understanding of Hispanic culture. Topics may include Spanish for law enforcement, social services, education, medicine, business, and communications. Prerequisite: SPAN 2314 or SPAN 2315, or the equivalent, with a grade of C or better.

SPAN 3310. SPANISH LOCALIZATION AND TRANSLATION I. 3 Hours.
Introduction to linguistic and cultural issues in the translation of Spanish language texts. Students will explore current technologies used in various real-world localization and translation contexts and how to adapt texts, products, and services to the locale for which they are intended. Exclusively for students pursuing a minor in Localization and Translation-Spanish. Prerequisite: SPAN 2314 or SPAN 2315 or the equivalent with a grade of B or better.

SPAN 3311. SPANISH CULTURE AND CIVILIZATION. 3 Hours.
Spanish history with emphasis on cultural, intellectual, and artistic trends and existing social institutions. Prerequisite: SPAN 2314 or SPAN 2315 with a grade of C or better.

SPAN 3312. LATIN AMERICAN CULTURE AND CIVILIZATION. 3 Hours.
An interdisciplinary introduction to Latin American society, history and culture. Offered as MAS 3312 and SPAN 3312; credit will be granted for either MAS or SPAN. Prerequisite: SPAN 2314 or SPAN 2315 with a grade of C or better.

SPAN 3313. TOPICS IN HISPANIC LANGUAGE, LITERATURE & CULTURE. 3 Hours.
Topics may include Peninsular or Latin American film, music, radio, politics, human rights movements, literature, language or Hispanic linguistics. May be repeated as the topic changes. Prerequisite: SPAN 2314 or SPAN 2315 with a grade of C or better.
**SPAN 3314. ADVANCED SPANISH GRAMMAR. 3 Hours.**
A detailed study of Spanish grammar for non-native speakers. Credit will not be granted to native or heritage speakers of Spanish. Prerequisite: SPAN 2314 with a grade of C or better.

**SPAN 3315. SPANISH COMPOSITION. 3 Hours.**
Practice in writing and original composition in Spanish, including the study of a variety of texts. Of special interest to students who wish to improve their reading comprehension and their writing skills. Prerequisite: SPAN 3305 or SPAN 3314, with grade C or better.

**SPAN 3316. EXPLORING THE SPANISH LANGUAGE. 3 Hours.**
An overview of the history and diversity of the Spanish language, as well as a study of its structure. Topics include sounds and spelling, word and sentence formation, varieties of Spanish, and bilingualism. Application of course content to the use of Spanish in professional settings is explored. Prerequisite: SPAN 3305 or SPAN 3314, with a grade of C or better.

**SPAN 3317. MEXICAN CULTURE AND CIVILIZATION. 3 Hours.**
An examination of Mexican society, history, and culture with emphasis on intellectual and artistic trends. Prerequisite: SPAN 2314 or SPAN 2315 with a grade of C or better.

**SPAN 3318. MEXICAN POPULAR CULTURE. 3 Hours.**
An interdisciplinary examination of Mexican popular culture. Topics include: Mexican popular literature, film, comics, television, music, mass media, and the internet. Prerequisite: SPAN 2314 or SPAN 2315 with a grade of C or better.

**SPAN 3320. INTRODUCTION TO HISPANIC LITERATURE AND CULTURE. 3 Hours.**
An introduction to the tools of literary and cultural criticism as well as Spanish and Latin American literary history. Study of representative literary texts with the object of developing students' understanding of historical change and cultural crosscurrents. Prerequisite: SPAN 3315 with a grade of C or better.

**SPAN 3321. SPANISH LOCALIZATION AND TRANSLATION II. 3 Hours.**
Continued study of linguistic and cultural issues in the translation of Spanish and English language texts. Systematic development of advanced skills in localization and computer-aided translation tools. Students will build and train machine translation engines and explore text analytics in modern research and the enterprise. Prepares localization and translation specialists for real-world careers in the language-services industry of the 21st Century. Exclusively for students pursuing a minor in Localization and Translation-Spanish. Prerequisite: SPAN 3310 with a grade of B or better.

**SPAN 3322. THE SOUNDS OF SPANISH. 3 Hours.**
An examination of the sound system of Spanish. Topics include the articulatory system, characteristics and description of speech sounds, pronunciation, dialectal variation, and differences between speech sounds in English and Spanish. Students receive hands-on training in acoustic analysis in order to describe both the patterns observed in their own speech as well as speech patterns of Spanish speakers from different regions. Prerequisite: SPAN 3305 or SPAN 3314 with a grade of C or better.

**SPAN 3323. MULTIMEDIA TRANSLATION, TRANSCREATION, AND SOFTWARE LOCALIZATION. 3 Hours.**
An overview of the theoretical, methodological, and practical aspects of English to Spanish and Spanish to English multimedia translation. Topics include dubbing, subtitling, transcreation, media accessibility, and video game and software localization. Students will learn strategies to address linguistic and cultural translation problems, as well as techniques to address the specific problems in this field of translation. Students will also explore subtitling software, and software to increase translators' productivity. Prerequisite: SPAN 2314 or SPAN 2315 with a grade of C or better, or Avant Spanish placement test score of 6.00+ (PLACE) or 7.00+ (STAMP).

**SPAN 3324. INTRODUCTION TO CREATIVE WRITING. 3 Hours.**
An introductory course to the craft of creative writing through short-story, nouvelle, novel, poetry, flash fiction, memoir, and screenwriting. Prerequisite: SPAN 3305 or SPAN 3314, with grade C or better.

**SPAN 3340. COMMUNITY TRANSLATION. 3 Hours.**
This course is an introduction to the theory, methods and practice of community translation. The student will learn how to address translation problems related to culture and language as well as the fundamentals of translating general material from different fields such as journalism, tourism, health, business, law, education, etc. The student will also learn about sight translation. Non-native/heritage speakers are encouraged to take SPAN 3303 prior to enrolling in SPAN 3341. Prerequisite: SPAN 3314 or SPAN 3315 with a grade of C or better, or Avant Spanish placement test score of 6.00+ (PLACE) or 7.00+ (STAMP).

**SPAN 3341. COMMUNITY INTERPRETING. 3 Hours.**
Introduction to the theory, methods, and practice of community interpreting. The student will become familiar with community interpreting (interpreting in school, medical, social services, and legal settings) and interpreting theory. The student will begin to interpret in the simultaneous and consecutive (bilateral) modes. The student will also learn about sight translation. Non-native/heritage speakers are encouraged to take SPAN 3303 prior to enrolling in SPAN 3341. Prerequisite: SPAN 3314 or SPAN 3315 with a grade of C or better, or Avant Spanish placement test score of 6.00+ (PLACE) or 7.00+ (STAMP).

**SPAN 3345. INTRODUCTION TO COMPUTER-ASSISTED TRANSLATION. 3 Hours.**
Introduction to computer-assisted translation (CAT), machine translation (MT), translation memory (TM) and terminology management tools in modern translation and localization workflows. Prepares students for real-world careers in the language services industry. For students enrolled in Localization and Translation/Interpreting programs only. Exclusively for students pursuing a minor in Localization and Translation-Spanish. SPAN 3310 is strongly recommended before SPAN 3345.

**SPAN 3391. CONFERENCE COURSE. 3 Hours.**
Independent study; consultation with instructor on a regular basis. May be repeated for credit. Prerequisite: Permission of Instructor.
SPAN 4310. TOPICS IN PENINSULAR SPANISH LITERATURE AND CULTURE TO THE EIGHTEENTH CENTURY. 3 Hours.
Topics may include: Medieval Spanish literature and culture, Golden Age Spanish literature and culture, or any particular movement, genre, work or author prior to the eighteenth century. May be repeated for credit when content changes. Prerequisite: SPAN 3315 with a grade of C or better.

SPAN 4311. TOPICS IN PENINSULAR SPANISH LITERATURE AND CULTURE, EIGHTEENTH CENTURY TO THE PRESENT. 3 Hours.
Topics may include: Neoclassical peninsular Spanish literature and culture, peninsular Spanish literature and culture of the Romantic period, Realist or Naturalist Spanish literature and culture, peninsular Spanish literature and culture since 1900, as well as any particular movement, genre, work or author from the eighteenth century to the present. May be repeated for credit when content changes. Prerequisite: SPAN 3315 with a grade of C or better.

SPAN 4312. INTERCULTURAL COMPETENCE FOR GLOBAL COMMUNICATION. 3 Hours.
A study of the cultural differences between the U.S. and the Hispanic world with a focus on the development of intercultural competence: verbal and non-verbal communication, interpersonal skills, effective management strategies, and professional etiquette in multicultural settings. Prerequisite: SPAN 3315 with a grade of C or better.

SPAN 4313. TOPICS IN HISPANIC CULTURE. 3 Hours.
Among the topics are Spanish or Latin American music, television, radio, film, and literature as culture. May be repeated for credit as topic changes. Prerequisite: SPAN 3315 with a grade of C or better. Offered as MAS 4313 and SPAN 4313; credit will be given for MAS 4313 or SPAN 4313 but not both in a given semester.

SPAN 4314. TOPICS IN LATIN-AMERICAN LITERATURE AND CULTURE TO MODERNISM. 3 Hours.
Topics may include: Colonial Latin-American literature and culture, pre-modern Latin-American literature and culture, Latin-American literature and culture of the Enlightenment, or any particular movement, genre, work or author prior to Modernism. May be repeated for credit when content changes. Prerequisite: SPAN 3315 with a grade of C or better.

SPAN 4315. TOPICS IN CONTEMPORARY LATIN-AMERICAN LITERATURE AND CULTURE, MODERNISM TO THE PRESENT. 3 Hours.
Topics may include: Latin-American literature and culture of Modernism, modern Latin-American literature and culture, or any particular movement, genre, work or author from Modernism to the present. May be repeated for credit when content changes. Offered as MAS 4315 and SPAN 4315; credit will be given for MAS 4315 or SPAN 4315 but not both in a given semester. Prerequisite: SPAN 3315 with a grade of C or better.

SPAN 4316. ADVANCED SPANISH LANGUAGE STUDY. 3 Hours.
Study of the structure of the Spanish language including phonology, morphology, and syntax, as well as historical, regional, and social variation. Prerequisite: SPAN 3314 or SPAN 3305 with a grade of C or better.

SPAN 4317. U.S.-MEXICO LITERATURE & CULTURE. 3 Hours.
U.S.-Mexico cultural manifestations with particular attention to music, television, radio, film, performance art, and literature as culture. Cross-listed with MAS 4317. Prerequisite: SPAN 3315 with a grade of C or better.

SPAN 4318. MEXICAN LITERATURE. 3 Hours.
Studies in Mexican fiction, poetry, drama, and literary essay. Offered as MAS 4318 and SPAN 4318; credit will be given for MAS 4318 or SPAN 4318 but not both in a given semester. Prerequisite: SPAN 3315 with a grade of C or better.

SPAN 4320. TOPICS IN SPANISH LANGUAGE, WRITING AND THEORY. 3 Hours.
Review of advanced research methods and topics in Spanish, Latino and Latin American literature, culture and linguistics. Topics may include: literary and cultural theory in relation to Hispanic literature and culture, research trends, and methods in Spanish linguistics. Students conduct original research or writing projects in relation to the course topic. May be repeated for credit as topic changes. Prerequisite: SPAN 3315 with a grade of C or better.

SPAN 4321. TOPICS IN PROFESSIONAL WRITING. 3 Hours.
An integrated language approach to Professional Writing across disciplines and professions. Topics may include writing, editing, and publishing in various workplace environments and sectors such as the mass media, the internet, business, education, health, government, and the arts, among others. May be repeated for credit as topics vary. Prerequisite: SPAN 3315 with grade of B or better.

SPAN 4322. TOPICS IN CREATIVE WRITING. 3 Hours.
A creative writing course on topics that may include short story, poetry, novel, nouvelle, flash fiction, memoir, and non-fiction. May be repeated for credit as topics vary. Prerequisite: SPAN 3315 with grade of B or better.

SPAN 4327. WOMEN IN HISPANIC LITERATURE. 3 Hours.
Considers women as characters in and writers of Hispanic literature. Includes the analysis of themes, language, and how the writings of women often give voice to lesser known aspects of culture. Offered as SPAN 4327, MAS 4327, and GWSS 4327; credit will be granted only once. Prerequisite: SPAN 3315 with a grade of C or better.
SPAN 4330. TOPICS IN SPANISH LINGUISTICS. 3 Hours.
Topics may include: Spanish phonetics and phonology, morphology, syntax, semantics, lexicography, history of the Spanish language, Old Spanish, Spanish sociolinguistics, as well as the application of any theoretical approach to the study of the Spanish language, excluding the study of either peninsular or American Spanish dialectology. May be repeated for credit when content changes. Prerequisite: SPAN 3305 or SPAN 3314 with a grade of C or better.

SPAN 4332. TOPICS IN SPANISH DIALECTOLOGY. 3 Hours.
Topics may include: Modern peninsular Spanish dialectology, modern Spanish-American dialectology, Old Spanish dialectology, early American Spanish dialectology, as well as a detailed study of any one dialect or regional dialect of Spanish from either a synchronic or a diachronic perspective. Emphasis may be given to phonetics, phonology, morphology, syntax, semantics, or lexicon, as applied to the study of peninsular or American Spanish dialectology. May be repeated for credit when content changes. Prerequisite: SPAN 3305 or SPAN 3314 with a grade of C or better.

SPAN 4334. CONTEMPORARY HISPANIC CULTURE. 3 Hours.
An introduction to contemporary Spanish and/or Latin American culture, with special emphasis on globalization and current events affecting the Spanish-speaking world. Prerequisite: SPAN 3315 with a grade of C or better.

SPAN 4335. BUSINESS SPANISH. 3 Hours.
The study of business terminology and skills needed for writing business letters, conducting telephone conversations, engaging in commercial transactions, and understanding international procedures. Emphasis on reading and formal communication, including technical papers, letters, reports, proposals, and presentations. Topics may include Spanish for legal, medical, educational, or communications fields. May be repeated for credit when content changes. Prerequisite: SPAN 3315 with a grade of C or better.

SPAN 4336. TOPICS IN SPANISH FOR THE PROFESSIONS. 3 Hours.
Development of Spanish-language skills needed to work in a specific profession. Emphasis on reading and formal communication, including technical papers, letters, reports, proposals, and presentations. Topics may include Spanish for legal, medical, educational, or communications fields. May be repeated for credit when content changes. Prerequisite: SPAN 3315 with a grade of C or better. Exclusively for International Business Spanish students, or students pursuing a Certificate in Spanish for the Professions.

SPAN 4339. THE ACQUISITION OF SPANISH. 3 Hours.
Topics, methods, and techniques specific to the teaching of the Spanish language. Prerequisite: SPAN 3305 or SPAN 3314 with a grade of C or better.

SPAN 4341. BUSINESS AND LEGAL TRANSLATION. 3 Hours.
An advanced course in translation with a focus on business and legal texts. Students deepen their knowledge of translation theory and are trained to build and consolidate their skills in specialized translation. May be taken concurrently with SPAN 4342. SPAN 4341 cannot be applied toward the B.A. in Spanish for Global Competence. Prerequisite: SPAN 2314 or SPAN 2315 with a grade of C or better, or Avant Spanish placement test score of 6.00+ (PLACE) or 7.00+ (STAMP).

SPAN 4342. TRANSLATION IN HEALTHCARE SETTINGS. 3 Hours.
An advanced course in translation with a focus on healthcare translation. Particular attention will be paid to healthcare terminology in English and Spanish, text types, and cultural elements. Students deepen their knowledge of translation theory and are trained to build and consolidate their skills in specialized translation. May be taken concurrently with SPAN 4341. SPAN 4342 cannot be applied toward the B.A. in Spanish for Global Competence. Prerequisite: SPAN 2314 or SPAN 2315 with a grade of C or better, or Avant Spanish placement test score of 6.00+ (PLACE) or 7.00+ (STAMP).

SPAN 4343. INTERPRETING IN HEALTHCARE SETTINGS. 3 Hours.
A study of different types of interpretation. Healthcare terminology in English and Spanish will be addressed with a special emphasis on the diverse roles of healthcare interpreters as well as various locations where they are needed, such as hospital clinics, doctors' offices, and hearings that deal with medical issues. Ethical standards of practice in healthcare interpreting will be examined. SPAN 4343 cannot be applied toward the B.A. in Spanish for Global Competence. Prerequisite: SPAN 2314 or SPAN 2315 with a grade of C or better, or Avant Spanish placement test score of 6.00+ (PLACE) or 7.00+ (STAMP).

SPAN 4344. INTERPRETING IN LEGAL SETTINGS. 3 Hours.
A study of different types of interpretation. Legal terminology in English and Spanish will be addressed with special emphasis on the diverse roles of legal interpreters as well as various locations where they are needed, such as courtrooms, lawyer's offices, and state, federal, or local law-enforcement facilities. Ethical standards of practice in legal interpreting will be examined. SPAN 4344 cannot be applied toward the B.A. in Spanish for Global Competence. Prerequisite: SPAN 2314 or SPAN 2315 with a grade of C or better, or Avant Spanish placement test score of 6.00+ (PLACE) or 7.00+ (STAMP).

SPAN 4391. CONFERENCE COURSE. 3 Hours.
Independent study in the preparation of a paper on a research topic; consultation with instructor on a regular basis. May be repeated for credit. Prerequisite: two 3000 level courses and permission of the instructor.

SPAN 4392. SPANISH TRANSLATION AND INTERPRETING INTERNSHIP. 3 Hours.
A combination of field-related experience in the business or service sector with an academic component. Coursework may include journal writing in Spanish, outside readings, and formal presentations. Prerequisite: Two Spanish 3000 level courses and permission of the instructor.

SPAN 4393. SPANISH INTERNSHIP. 3 Hours.
A combination of field-related experience in the business or service sector with an academic component. Coursework may include journal writing in Spanish, outside readings, and formal presentations. Prerequisite: Two SPAN 3000 level courses and permission of the instructor.
SPAN 4394. HONORS THESIS / SENIOR PROJECT. 3 Hours.
Required of all students in the University Honors College. During the senior year, the student must complete a thesis or a project under the direction of a faculty member in the major department. May not be repeated for credit. Prerequisite: two 3000 level courses and permission of the instructor.

SPAN 5101. TEACHING PRACTICUM I. 1 Hour.
Required of all teaching assistants in Spanish in their first semester. May not be counted toward a master's degree. Graded P/F/R.

SPAN 5102. TEACHING PRACTICUM II. 1 Hour.
Required of all teaching assistants in Spanish in their second semester. May not be counted toward a master's degree. Graded P/F/R.

SPAN 5190. CONFERENCE COURSE IN SPANISH LANGUAGE AND LITERATURE. 1 Hour.
Graded P/F/R.

SPAN 5300. HISTORY OF THE SPANISH LANGUAGE. 3 Hours.
Study in topics related to the development of the Spanish language, from its earliest forms to the present.

SPAN 5302. SPANISH DIALECTOLOGY. 3 Hours.
Phonological, grammatical, and lexical features of Spanish dialects worldwide.

SPAN 5303. APPLIED SPANISH LINGUISTICS. 3 Hours.
Pedagogy, pronunciation and orthography, morphology, syntax, semantics, and culture.

SPAN 5310. TOPICS IN PENINSULAR SPANISH LITERATURE AND CULTURE TO THE EIGHTEENTH CENTURY. 3 Hours.
Topics may include: Medieval Spanish literature and culture, Golden Age Spanish literature and culture, or any particular movement, genre, work or author prior to the eighteenth century. May be repeated for credit when content changes.

SPAN 5311. TOPICS IN PENINSULAR SPANISH LITERATURE AND CULTURE, EIGHTEENTH CENTURY TO THE PRESENT. 3 Hours.
Topics may include: Neoclassic peninsular Spanish literature and culture, peninsular Spanish literature and culture of the Romantic period, Realist or Naturalist Spanish literature and culture, peninsular Spanish literature and culture since 1900, as well as any particular movement, genre, work or author from the eighteenth century to the present. May be repeated for credit when content changes.

SPAN 5313. TOPICS IN HISPANIC LITERATURE AND CULTURE. 3 Hours.
Special studies in areas not ordinarily covered by regular course offerings. Different topics may be repeated for credit.

SPAN 5314. TOPICS IN SPANISH-AMERICAN LITERATURE AND CULTURE TO MODERNISM. 3 Hours.
Topics may include: Colonial Spanish-American literature and culture, pre-modern Spanish-American literature and culture, Spanish-American literature and culture of the Enlightenment, or any particular movement, genre, work or author prior to Modernism. May be repeated for credit when content changes.

SPAN 5315. TOPICS IN CONTEMPORARY SPANISH-AMERICAN LITERATURE AND CULTURE, MODERNISM TO THE PRESENT. 3 Hours.
Topics may include: Spanish-American literature and culture of Modernism, modern Spanish-American literature and culture, or any particular movement, genre, work or author from Modernism to the present. May be repeated for credit when content changes.

SPAN 5317. U.S. LATINO LITERATURE AND CULTURE. 3 Hours.

SPAN 5318. MEXICAN LITERATURE AND CULTURE. 3 Hours.
Readings in all Mexican literary genres from various critical perspectives. Particular attention given to the novel, poetry, and essay of the 20th Century and to interrelationships between text and culture.

SPAN 5320. TOPICS IN SPANISH LINGUISTICS. 3 Hours.
Special studies in linguistics not ordinarily covered by regular course offerings. May be repeated for credit when content changes.

SPAN 5327. WOMEN IN HISPANIC LITERATURE. 3 Hours.
Readings of literary texts by women writers from medieval Spain to contemporary Spanish America. Attention to recurrent motifs as well as to the literary expression of historical and cultural transformation.

SPAN 5330. ADVANCED STUDIES IN SPANISH LINGUISTICS I. 3 Hours.
Topics may include: sociolinguistics, bilingualism, modern Spanish dialectology, as well as a detailed study on any one dialect or regional dialect of contemporary Spanish. May be repeated for credit when content changes.

SPAN 5332. ADVANCED STUDIES IN SPANISH LINGUISTICS II. 3 Hours.
Topics may include: Old Spanish, Spanish philology, Spanish text linguistics, and Old Spanish dialectology, as well as a detailed study of any one dialect or regional dialect of Spanish. May be repeated for credit when content changes.

SPAN 5366. SPANISH FOR SCHOOL ADMINISTRATORS AND TEACHERS. 3 Hours.
Development of Spanish proficiency for teachers and administrators through an immersion approach. Emphasis on concepts and terminology related to education, program administration, community involvement and communication with Spanish-speaking parents. This course can be repeated.

SPAN 5391. CONFERENCE COURSE IN SPANISH LINGUISTICS AND LITERATURE. 3 Hours.
Graded R.
SPAN 5393. GRADUATE SPANISH INTERNSHIP. 3 Hours.
Graduate internship with the student performing duties within the field of Spanish. A combination of field-related experience at the graduate level with an academic component. Students are required to submit an approved academic project related to the work performed. May be repeated with approval of Graduate Advisor.

SPAN 5398. THESIS. 3 Hours.
SPAN 5698. THESIS. 6 Hours.
SPAN 5998. THESIS. 9 Hours.
Modern Languages - Graduate Program

Objectives
Graduate programs in modern languages are designed to enhance students’ competence in the language and literature of their major language field. Specific objectives are to prepare students for a career in teaching or in any area in private or public life in which knowledge of a modern language is essential and to help them develop the techniques of independent research necessary for work beyond the master’s level.

Fellowships
Fellowships, when available, will be awarded on a competitive basis. Nominees for the Graduate School Master's Fellowship in Modern Languages will be selected based on the following criteria:

• Candidates must be new students entering in the fall semester, with a minimum of 6 hours of enrollment in both long semesters to retain their fellowships.
• The minimum undergraduate GPA requirement is 3.0, as calculated by the Graduate School, plus as GPA of 3.0 for any graduate credit hours.
• Transcript of a completed bachelor's degree in French or Spanish (or appropriate related field) from an accredited institution.
• Three letters of recommendation.
• A written statement explaining the applicant's reasons for graduate study in Spanish.

Teaching Assistantships
Teaching assistantships are available for graduate students in the Department of Modern Languages. Graduate students who obtain teaching assistantships are urged to take MODL 5305.

Admission Standards
In compliance with HB 1641, the UT Arlington Department of Modern Languages does not use unwritten criteria, it does not assign a specific weight to any one factor being considered, and it does not use standardized tests (i.e., the GRE) in the admissions or competitive fellowship or scholarship process as the sole criterion for consideration or as the primary criterion to end consideration of an applicant to the M.A. program. However, the GRE is required and it is used as a criterion, without specific weight, in the Department’s evaluation of candidates for admission to programs at each of three levels: Unconditional, Provisional, and Probationary Admission.

The Department wishes to be as thorough and fair as possible in evaluating applicants for admission. It recognizes that some applicants may appear to be stronger according to some criteria than according to other criteria. When an applicant does not completely meet the minimum expectations for Unconditional Admission, the Department considers the applicant for possible Provisional or Probationary Admission. When the applicant is not granted any of the three levels of admission, the decision may be deferred or the application is denied. We do not wish to exclude a qualified and potentially successful candidate who perhaps has approached but not met all the criteria completely. However, we do not wish to admit candidates who, based on the criteria, are deemed to have a poor chance of successfully completing the graduate program.

Unconditional Admission
The criteria for admission below are used, without specific weights, as positive indicators of potential success in the program. All four criteria for unconditional admission must be met in order to receive unconditional admission.

• degree in the language to be studied of 18 upper level hours in the language or equivalent
• 3.0 undergraduate GPA (last 60 hours)
• submission of GRE scores
• 3 letters of recommendation (from faculty if possible) sent to the Department of Modern Languages Graduate Advisor.

A student with a bachelor's degree in a field other than French or Spanish may become an unconditionally admitted graduate student after fulfilling the upper level requirements in the language:
• 18 hours of upper level Spanish, or French or
• a combination of coursework and testing.

(A person with a bachelor's degree in a major other than French or Spanish must have the equivalent of 18 hours of upper level French or Spanish in order to become a master's student. The equivalency may take one of the following forms: A student may obtain 18 hours at the 3000 and 4000 level, or s/he may attempt to test out of nine hours of grammar, composition, and conversation. If a student tests out of grammar, composition, and conversation, s/he must take nine hours of literature, in order to demonstrate ability to do literary studies).

Under specific circumstances the GRE may be waived for those who received their B.A. from UT Arlington or have already earned an advanced graduate degree. See GRE Waiver or Advanced Admission. International students must also take the TOEFL test and score 550 on the paper-and-pencil test or 213 on the computerized test, in order to qualify for unconditional admission.
Provisional Admission
An applicant unable to supply all required documentation prior to the admission deadline but who otherwise appears to meet admission requirements may be granted provisional admission.

Deferred Admission
A deferred decision may be granted when a file is incomplete or when a denied decision is not appropriate.

Fast Track Program in Modern Languages
The Fast Track Program allows outstanding undergraduate students in French or Spanish at UT Arlington to take up to three graduate seminars in Spanish or French that will earn credit toward both the Bachelor's degree and the Master's degree in Modern Languages. It is designed to encourage high standards of performance, to facilitate the transition from undergraduate to graduate study, and to reduce time needed to complete the M.A.
Interested undergraduate students should apply for the Fast Track Program when they are within 30 hours of completing the Bachelor's degree. To qualify, students must have completed at least 30 hours at UTA with a GPA of 3.0 in all courses and 3.25 in the last 30 hours. Before entering the Fast Track, students must also have completed the required core courses in the French or Spanish major with a GPA of at least 3.50. Additionally, they must have already completed at least two additional 3000/4000-level courses in either French or Spanish, excluding International Business, interpreting, and/or translation courses, with a GPA of 3.5 or higher.

Students who successfully complete the Fast Track Program will be admitted automatically to the Graduate School to continue their graduate work in the Modern Languages M.A. Program once the Bachelor's degree is awarded. They will not be required to take the GRE, complete an additional application for admission to the Graduate School, supply letters of recommendation, or pay an application fee. An undergraduate student completing the maximum of nine graduate hours would be admitted to the Modern Languages M.A. Program with only nine additional courses and a comprehensive written examination remaining to complete the requirements for the M.A. in Modern Languages, non-thesis option.

To remain in the Fast Track Program, students must receive no grade lower than B in any graduate seminars taken as an undergraduate, selected with the advice and approval of the Modern Languages Graduate Advisor. Undergraduate students who do not maintain grades of B or better in the graduate courses taken will be unable to continue in the Fast Track Program but, if the courses are completed with a passing grade, will still receive credit toward their undergraduate degree requirements. Students originally denied entry into the Fast Track Program, discontinued after provisional admission, subsequently dropped or opting out are still welcome to apply to the Modern Languages M.A. Program in the usual way and will be considered without prejudice.

For an application form or to obtain more details about this program, contact the Modern Languages Graduate Advisor.

Master's Degree Requirements
Master's Degree Requirements:

In addition to the Graduate School requirements for Master's degree programs, the following exit requirements apply in the Department of Modern Languages:

Comprehensive Examination: Students specializing in French or Spanish are examined on their coursework and their respective M.A. reading lists. An additional oral defense may be required at the discretion of the student's supervising committee. At least 30 hours must be in coursework.

Portfolio: Students specializing in Spanish may instead elect to develop a portfolio of original research and other special projects under the supervision of a committee of graduate faculty. At least 30 hours must be in coursework.

Thesis: Subject to the approval of the graduate faculty, students specializing in French or Spanish may elect to research and write a substantial and original work of scholarly significance. At least 30 hours must be in coursework.

Modern Languages (French; Spanish)
Those wishing to major in a modern language or literature must upon admission have a baccalaureate degree with a major in that modern language or have a minimum of 18 advanced hours, or the equivalent in language proficiency and course content.

Students pursuing the M.A. in Modern Languages with concentration in French are required to take a minimum of 9 hours in the core MODL courses, along with 27 hours in their concentration or, alternatively, a maximum of 12 hours in the core MODL courses and 24 hours in their concentration. All French students are required to take MODL 5304 CURRENTS IN EUROPEAN AND LATIN AMERICAN LITERATURES AND THOUGHT.

Students pursuing the M.A. in Modern Languages with concentration in Spanish will take a maximum of 6 hours in the core MODL courses, along with 30 hours in their concentration. All Spanish students are required to take two of the following three courses: SPAN 5300: HISTORY OF THE SPANISH LANGUAGE, SPAN 5302: SPANISH DIALECTOLOGY, SPAN 5303: APPLIED SPANISH LINGUISTICS.

A knowledge of a second foreign language will be required, including listening, speaking, reading and writing skills as demonstrated by the successful completion of two semesters of coursework at the second-year level, MODL 5301, or by an appropriate examination.
Modern Languages - Undergraduate Programs

The Department of Modern Languages (MODL) offers courses in American Sign Language (https://www.uta.edu/modl/asl/), Arabic (http://www.uta.edu/modl/arabic/), Chinese (http://www.uta.edu/modl/chinese/), French (http://www.uta.edu/modl/french/), German (http://www.uta.edu/modl/german/), Korean (https://www.uta.edu/academics/schools-colleges/liberal-arts/departments/modern-languages/academics/undergraduate/korean/), Russian (http://www.uta.edu/modl/russian/), and Spanish (http://www.uta.edu/modl/spanish/).

MODL offers a Bachelor of Arts in French (http://www.uta.edu/modl/french/), Global Studies (http://catalog.uta.edu/liberalarts/languages/undergraduate/#bachelorstext/#bachelorstext), Spanish for Global Competence (http://www.uta.edu/modl/spanish/), Spanish Translation and Interpreting (http://www.uta.edu/modl/spanish/), Modern Languages (https://www.uta.edu/academics/schools-colleges/liberal-arts/departments/modern-languages/academics/undergraduate/localization-and-translation/), and a Bachelor of Arts with major in Critical Languages and International Studies (http://www.uta.edu/modl/clis/) (Chinese, German, Korean, and Russian), as well as minors and certificate programs in Translation (French (http://catalog.uta.edu/liberalarts/languages/undergraduate/#bachelorstext/#certificatestext)), Translation (Spanish) (http://www.uta.edu/modl/spanish/), Interpreting (Spanish) (http://www.uta.edu/modl/spanish/), Spanish for the Professions (https://www.uta.edu/modl/spanish/), Spanish for Global Health and Human Services (http://catalog.uta.edu/liberalarts/languages/undergraduate/#bachelorstext/#certificatestext), Spanish Linguistics (http://catalog.uta.edu/liberalarts/languages/undergraduate/#bachelorstext/#certificatestext), and Localization and Translation (http://www.uta.edu/modl/spanish/) (Arabic, Chinese, French, German, Korean, Russian, and Spanish). At the graduate level, MODL offers a Master of Arts in Modern Languages with concentrations in French (http://www.uta.edu/modl/french/) or Spanish (http://www.uta.edu/modl/spanish/). The department also offers minors in Arabic, Chinese, French, German, Korean, Russian, Spanish for Global Competence, Spanish Translation, Spanish Interpreting, Spanish Linguistics, and Localization and Translation, as well as area studies and other options.

Learning other languages has always formed a critical part of a well-rounded education. In today's global economy, the ability to communicate in languages other than one's own has become an increasingly valuable asset sought after by employers across the public and private sectors. Our substantive programs prepare students for success in an increasingly interconnected world, in fields such as the language services industry—interpreting, localization, and translation; education; research; writing, publishing, and the media; health, legal, and social services; business; government; international relations; the cultural heritage sector—museums, libraries, and archives.

The goal of language study is to develop deep translingual and transcultural competence. In view of these aims, MODL provides a full range of language offerings from beginning to advanced courses in a variety of world languages. In addition to development in the four basic language skills—speaking, listening, reading, and writing—a major aim is to gain understanding of the diversity of human culture as represented in several of the world’s languages, literatures, and other cultural media.

Ultimately, these aims contribute to the development of well-rounded and well-informed 21st-century global citizens who are not only able to communicate and interact with others locally, nationally, and internationally, but who are also able to reflect on the world and themselves through the lens of other languages and cultures.

Criteria for Admission to a Major in the Department of Modern Languages

In addition to satisfying the entrance requirements for the College of Liberal Arts, prospective majors in the Department of Modern Languages must meet the following criteria:

- A 3.0 GPA is required in the 1441-2314 Modern Language sequence, or an equivalent score on the Modern Language testing instrument, or approval of the departmental advisor.
- After admission to the Modern Language major, students must maintain a 2.00 GPA in major classes.

Accelerated Language Program

Students with no previous experience or courses in a modern language may choose to begin by enrolling in one of our Accelerated Programs, i.e. completing Levels I and II (8 credit hours) of a language in one semester, or Levels III and IV (6 credit hours) in one semester.

These classes may not be offered every semester. Check with the Department of Modern Languages for available courses.

Students are cautioned to take these courses prior to their senior year because of the possibility of enrollment limitations.

Language Acquisition Center

The Department of Modern Languages maintains a fully equipped computer lab on the third floor of Trimble Hall, the Language Acquisition Center (LAC). The LAC has an extensive collection of analog and digital media for student use, as well as course-related software and self-study software.
LANGUAGE PROFICIENCY TESTING: PLACEMENT AND Credit by Examination

PROFICIENCY TESTING OVERVIEW

The Department of Modern Language recommends that students with previous experience in American Sign Language, Arabic, Chinese, French, German, Korean, Russian, or Spanish take a proficiency test prior to enrolling in lower-division language courses. Avant tests are used to test proficiency for placement and credit by examination. There are two test types: Avant STAMP and Avant PLACE. Testing fees apply.

POLICIES AND DEADLINES

The Avant test is used to grant credit by examination up to the Intermediate II level (2314/2315) based on the student’s test score. Students taking the Avant test to fulfill a language requirement must take it before the end of their junior year to allow enough time to take any future courses that may be needed to satisfy a language requirement and/or to have their credits posted in time for graduation application reviews. There are no retakes for the Avant test.

If grades or credits have already been posted to a UTA transcript via transfer, exam credit, or having completed a language course at UTA, taking the Avant test cannot override the existing grades or credits. If a student is enrolled in a language course past the Census Date, they cannot test out of this course via Avant test and must finish the course to receive credit.

For more information, contact the Department of Modern Languages (https://www.uta.edu/academics/schools-colleges/liberal-arts/departments/modern-languages/testing-and-student-resources/testing/).

AVANT STAMP TEST

Students wishing to test out of language courses and not continue their language studies at UTA must take the Avant STAMP test. In this case, they receive credits only (no letter grades) for the courses they test out of depending on their test score. The credits received through the Avant STAMP test will only be applied to UTA transcripts if the administration fee is paid before the last semester prior to graduation.

Students wishing to receive letter grades (A’s) for the courses they test out of must take the Avant STAMP test and plan to enroll in the next-level language course in the upcoming semester. The credits received through the Avant STAMP test with a letter grade will only be applied to UTA transcripts if the following conditions are met: 1) the examinee enrolls in the next appropriate language course in the sequence at UTA and remains enrolled in the course past Census Date, and 2) the administration fee is paid before the last semester prior to graduation.

Students admitted to UTA before the upcoming fall/spring semester begins, who are planning to take the next-level language course, must take the Avant STAMP test at least two weeks before the first day of classes. The American Sign Language STAMP test must be completed at least four weeks before the first day of classes, as it takes longer to process. For late registration, students cannot take the Avant STAMP test, but must take the Avant PLACE test instead.

AVANT PLACE TEST

Students wishing to receive credit only for the courses they test out of must take the Avant PLACE test and plan to enroll in the next-level language course in the upcoming semester. The credits received through the Avant PLACE test will only be applied to UTA transcripts if the following conditions are met: 1) the examinee enrolls in the next appropriate language course in the sequence at UTA and remains enrolled in the course past Census Date, and 2) the administration fee is paid before the last semester prior to graduation.

Students admitted to UTA before the upcoming fall/spring semester begins who are planning to take the next-level language course must take the Avant PLACE test before the first day of classes. For late registration, students must take the Avant PLACE test no later than the university’s official second day of classes to allow sufficient time for scores to post and to enroll in the appropriate course in the sequence.

OTHER EXAMS AND CREDENTIALS

The following exams are also accepted by UTA for credit by examination, if they were taken prior to enrolling at UTA: the Advanced Placement Examination (AP) of the College Board, the College-Level Examination Program (CLEP) of the College Board, and the International Baccalaureate (IB) Examination. For more information, contact Testing Services.

A Global Seal of Biliteracy (https://theglobalseal.com/) or Avant STAMP certificate received outside of UTA may be also accepted for credit by examination. For more information, contact the Department of Modern Languages (https://www.uta.edu/academics/schools-colleges/liberal-arts/departments/modern-languages/testing-and-student-resources/testing/). Processing fee applies.

Study Abroad

Students should give serious consideration to the unique learning experience of studying abroad. Students wishing to study for a summer, a semester, or a year may obtain UT Arlington credit, continue with their financial aid, and receive scholarship aid to attend any UT Arlington-approved program for Arabic, Chinese, French, German, Korean, Russian, or Spanish.
Summer Study: The department offers several opportunities for gaining credit while studying abroad. Regular programs are offered which provide opportunities for summer study in various countries, including China, France, Germany, Mexico, Russia, Spain, and Taiwan. All arrangements must be made through the department.

**Competence in Computer Use**

Students majoring in French, Spanish for Global Competence, Spanish Translation and Interpreting, or Critical Languages and International Studies may demonstrate competency in computer use by:

- passing CSE 1301 (or equivalent); or
- passing any 1441, 1442, 2313 or 2314 CHIN, FREN, GERM, KORE, RUSS or SPAN course(s) in residence at UT Arlington; or
- passing the University computer competency examination; or
- passing any other course approved by the Undergraduate Assembly for this purpose.

**Competence in Oral Presentations**

Students majoring in French, Spanish for Global Competence, Spanish Translation and Interpreting, or Critical Languages and International Studies may demonstrate competence in oral presentations by one of the following:

<table>

- Or passing any other course approved by the Undergraduate Assembly for this purpose

**Critical Cultures Summer Institute**

The Critical Cultures Summer Institute (CCSI) highlights a different, less commonly taught cultural area of the globe each summer, providing up to 9 credits of upper-division coursework, along with GLOBAL 2301, the anchor course of UTA's Critical Languages and International Studies (CLIS) major.

GLOBAL 2301 will provide an introduction to global studies and couple with GLOBAL 3301 and GLOBAL 3302 in such areas as language and civilization, film, media, or other subjects of global study. An introductory class in Localization and Translation will also be offered under the aegis of the Summer Institute as GLOBAL 3310. GLOBAL 3301, 3302, and 3310 will fulfill three of the four international studies courses required for the BA in Critical Languages and International Studies. GLOBAL 2301 is also a requirement for the degree. GLOBAL 2301 and GLOBAL 3301 will be offered during Summer Session I, and GLOBAL 3302 and 3310 will be offered during Summer Session II. Students at any level of language study may take these courses.

**Requirements for a Bachelor of Arts Degree in French Global Studies, Spanish for Global Competence, Spanish Translation and Interpreting, Critical Languages & International Studies, and Modern Languages**

**General Core Requirements (P. 47)**

Student Success Requirement: UNIV 1101 or UNIV 1131

**Major**

GLOBAL 2301

1441, 1442, 2313, 2314, or equivalent; plus 27 hours at 3000/4000 level in the major language field, at least nine of which must be at the 4000 level. Of these 27 hours, specific course requirements by language are listed below.
Electives

Sufficient number of hours to complete the total hours required for a degree.

Total

120 hours, at least 36 of which must be 3000/4000 level.

Bachelor of Arts in French Global Studies

</table>

or equivalent; plus 27 hours at 3000/4000 level in Spanish, at least nine of which must be at the 4000 level. Of these 27 hours, specific course requirements by language are listed below:

All Spanish majors must take SPAN 3315 and SPAN 3316

• For Non-heritage speakers: SPAN 3314
• For Native or Heritage speakers: SPAN 3305. Native or heritage speakers of a language may not enroll in courses below 3000, with the exception of SPAN 2315.

BACHELOR OF ARTS IN CRITICAL LANGUAGES AND INTERNATIONAL STUDIES

GLOBAL 2301 as well as 15 advanced hours in the chosen language and 12 hours in international studies from the 3 categories: International Issues (Business, Ethics, and Sustainability), Humanities (Culture, History, and Literature), Socio-Cultural Perspectives (Social, Political, and Cultural Studies). See advisor for a complete listing of relevant courses.

All students who wish to earn a Bachelor of Arts degree in Critical Languages and International Studies must complete the following coursework in language and allied fields:

Select one of the following languages:

**Chinese**

### German

Students in **German** can choose between two different tracks:

**Track A (Global):**

**Course Requirements:**
- Five 3000 or 4000 level courses in German including GERM 3313 and GERM 3316
- Four 3000 or 4000 level courses in International Studies (see above)

**Track B (Professional Track):**

**Course Requirements:**
- Five 3000 or 4000 level courses in German: GERM 3312, GERM 3313, GERM 3316, GERM 3318, GERM 4322
- Four 3000 or 4000 level courses in International Studies in the Humanities category: GERM 3317, GERM 4313, GERM 4314, GERM 4321

### Bachelor of Arts in Spanish Translation and Interpreting

All Spanish Translation and Interpreting majors must take:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPAN 1441</td>
<td>BEGINNING SPANISH I</td>
</tr>
<tr>
<td>SPAN 1442</td>

</tr>
</tbody>
</table>

For Non-Heritage Speakers

- SPAN 3314 ADVANCED SPANISH GRAMMAR

For Heritage Speakers

- SPAN 3305 ADVANCED SPANISH FOR HERITAGE SPEAKERS

For All Students

- SPAN 3315 SPANISH COMPOSITION
- SPAN 3316 EXPLORING THE SPANISH LANGUAGE
- SPAN 3340 COMMUNITY TRANSLATION
- SPAN 3341 COMMUNITY INTERPRETING
- SPAN 4341 BUSINESS AND LEGAL TRANSLATION
- SPAN 4342 TRANSLATION IN HEALTHCARE SETTINGS
- SPAN 4343 INTERPRETING IN HEALTHCARE SETTINGS
- SPAN 4344 INTERPRETING IN LEGAL SETTINGS

Non-Heritage Speakers are strongly recommended to take SPAN 3303 before enrolling in SPAN 3341. Heritage Speakers are strongly recommended to take SPAN 3312

### Bachelor of Arts in Modern Languages

All students majoring in the B.A. in Modern Languages must take:

<table>
<thead>
<tr>

All students who wish to earn a Bachelor of Arts degree in Modern Languages must complete the following coursework in one specific language:

**Arabic**
- ARAB 1441 BEGINNING ARABIC I
- ARAB 1442 BEGINNING ARABIC II
- ARAB 2313 INTERMEDIATE ARABIC I
- ARAB 2314 INTERMEDIATE ARABIC II
- ARAB 3305 ARABIC READING AND COMPOSITION
- ARAB 3310 ARABIC LOCALIZATION AND TRANSLATION
- ARAB 3311 ARABIC LOCALIZATION AND TRANSLATION II
- ARAB 3345 INTRODUCTION TO COMPUTER-ASSISTED TRANSLATION

Two upper-level MODL courses at the 4000 level and one upper-level ARAB course at the 4000 level.

**Chinese**
- CHIN 1441 BEGINNING CHINESE I
- CHIN 1442 BEGINNING CHINESE II
- CHIN 2313 INTERMEDIATE CHINESE I
- CHIN 2314 INTERMEDIATE CHINESE II
- CHIN 3305 CHINESE READING AND COMPOSITION
- CHIN 3310 CHINESE LOCALIZATION AND TRANSLATION
- CHIN 3311 CHINESE LOCALIZATION AND TRANSLATION II
- CHIN 3345 INTRODUCTION TO COMPUTER-ASSISTED TRANSLATION

Two upper-level MODL courses at the 4000 level and one upper-level CHIN course at the 4000 level.

**French**
- FREN 1441 BEGINNING FRENCH I
- FREN 1442 BEGINNING FRENCH II
- FREN 2313 INTERMEDIATE FRENCH I
- FREN 2314 INTERMEDIATE FRENCH II
- FREN 3304 READINGS AND WRITING IN FRENCH
- FREN 3320 LOCALIZATION AND TRANSLATION I
- FREN 3321 LOCALIZATION AND TRANSLATION II
- FREN 3345 INTRODUCTION TO COMPUTER-ASSISTED TRANSLATION

Two upper-level MODL courses at the 4000 level and one upper-level FREN course at the 4000 level.

**German**
- GERM 1441 BEGINNING GERMAN I
- GERM 1442 BEGINNING GERMAN II
- GERM 2313 INTERMEDIATE GERMAN I
- GERM 2314 INTERMEDIATE GERMAN II
- GERM 3316 GERMAN COMPOSITION & GRAMMAR
- GERM 3310 LOCALIZATION AND TRANSLATION I
- OR
- GERM 4334 THE CULTURE OF BUSINESS
- GERM 3311 LOCALIZATION AND TRANSLATION II
- OR
- GERM 4335 BUSINESS GERMAN
- GERM 3345 INTRODUCTION TO COMPUTER-ASSISTED TRANSLATION

Two upper-level MODL courses at the 4000 level and one upper-level GERM course at the 4000 level.

**Korean**
- KORE 1441 BEGINNING KOREAN I
- KORE 1442 BEGINNING KOREAN II
- KORE 2313 INTERMEDIATE KOREAN I
- KORE 2314 INTERMEDIATE KOREAN II
KORE 3305  KOREAN READING AND COMPOSITION
KORE 3310  KOREAN LOCALIZATION AND TRANSLATION I
OR
KORE 4334  THE CULTURE OF BUSINESS
KORE 3311  KOREAN LOCALIZATION AND TRANSLATION II
OR
KORE 4335  BUSINESS KOREAN
KORE 3345  INTRODUCTION TO COMPUTER-ASSISTED TRANSLATION

Two upper-level MODL courses at the 4000 level and one upper-level KORE course at the 4000 level.

**Russian**

RUSS 1441  BEGINNING RUSSIAN I
RUSS 1442  BEGINNING RUSSIAN II
RUSS 2313  INTERMEDIATE RUSSIAN I
RUSS 2314  INTERMEDIATE RUSSIAN II
RUSS 3304  TOPICS IN RUSSIAN LANGUAGE STUDY
RUSS 3310  LOCALIZATION AND TRANSLATION I
OR
RUSS 4334  THE CULTURE OF BUSINESS
RUSS 3311  LOCALIZATION AND TRANSLATION II
OR
RUSS 4335  BUSINESS RUSSIAN
RUSS 3345  INTRODUCTION TO COMPUTER-ASSISTED TRANSLATION

Two upper-level MODL courses at the 4000 level and one upper-level RUSS course at the 4000 level.

**Spanish**

SPAN 1441  BEGINNING SPANISH I
SPAN 1442  BEGINNING SPANISH II
SPAN 2313  INTERMEDIATE SPANISH I
SPAN 2314  INTERMEDIATE SPANISH II
OR
SPAN 2315  INTERM SPAN HERITAGE SPEAKERS
SPAN 3314  ADVANCED SPANISH GRAMMAR
OR
SPAN 3315  SPANISH COMPOSITION
SPAN 3310  SPANISH LOCALIZATION AND TRANSLATION I
SPAN 3321  SPANISH LOCALIZATION AND TRANSLATION II
SPAN 3345  INTRODUCTION TO COMPUTER-ASSISTED TRANSLATION

Two upper-level MODL courses at the 4000 level and one upper-level SPAN course at the 4000 level.

**Options**

The following options may be selected, but courses listed under options do not substitute for courses specified by number in the basic degree plan above.

**Fast Track Program in Modern Languages**

The Fast Track Program allows outstanding undergraduate students in French or Spanish at UT Arlington to take up to three graduate seminars in Spanish or French that will earn credit toward both the Bachelor's degree and the Master's degree in Modern Languages. It is designed to encourage high standards of performance, to facilitate the transition from undergraduate to graduate study, and to reduce time needed to complete the MA. Interested undergraduate students should apply for the Fast Track Program when they are within 30 hours of completing the Bachelor's degree. To qualify, students must have completed at least 30 hours at UTA with a GPA of 3.0 in all courses and 3.25 in the last 30 hours. Before entering the Fast Track, students must also have completed the four required core courses in the French or Spanish major with a GPA of at least 3.50. Additionally, they must have already completed at least two additional 3000-4000 level courses in either French or Spanish, excluding International Business and/or translation courses, with a GPA of 3.5 or higher.

Students who successfully complete the Fast Track Program will be admitted automatically to the Graduate School to continue their graduate work in the Modern Languages MA Program once the Bachelor's degree is awarded. They will not be required to take the GRE, complete an additional application...
Modern Languages - Undergraduate Programs

for admission to the Graduate School, supply letters of recommendation, or pay an application fee. An undergraduate student completing the maximum of nine graduate hours would be admitted to the Modern Languages MA Program with only five additional courses and a thesis remaining to complete the requirements for the thesis option.

To remain in the Fast Track Program, students must receive no grade lower than a B in any graduate seminars taken as an undergraduate, selected with the advice and approval of the Modern Languages Graduate Advisor. Undergraduate students who do not maintain grades of B or A in the graduate courses taken will be unable to continue in the Fast Track Program but, if the courses are completed passing, will still receive credit toward their undergraduate degree requirements. Students originally denied entry into the Fast Track Program, discontinued after provisional admission, subsequently dropped or opting out are still welcome to apply to the Modern Languages MA Program in the usual way and will be considered without prejudice.

For an application form or to obtain more details about this program, contact the Modern Languages Graduate Advisor.

BBA in International Business/Modern Language

In cooperation with the Department of Modern Languages, the School of Business Administration offers a Bachelor of Business Administration with dual concentrations in international business and a modern language. The BBA in International Business offers concentrations in Chinese, French, German, Korean, Russian, or Spanish. In addition to 26 hours in a modern language with an additional six hours of modern language electives highly recommended, students in this program get a solid foundation in business courses, including accounting, economics, finance, management, marketing, and information systems. Students are encouraged to include six hours of degree specific language electives.

Requirements for a Minor in Arabic, Chinese, German, Korean, and Russian

A minor consists of 19 semester hours (excluding 1441 Language Level I), at least nine of which must be 3000/4000 level including six credit hours taught in the target language.

Requirements for a Minor in French Global Studies, Spanish for Global Competence, Spanish Translation, and Spanish Interpreting

A minor consists of 19 semester hours (excluding 1441 Language Level I), at least nine of which must be 3000/4000 level.

• For a minor in Spanish Translation students need to take the 3 following courses:
  SPAN 3340, SPAN 4341, and SPAN 4342

• For a minor in Spanish Interpreting students need to take the 3 following courses:
  SPAN 3341, SPAN 4343, and SPAN 4344

• The following courses do not count towards the Minor in French Global Studies:
  FREN 3320, FREN 3321, and FREN 3345

Minor in Spanish for Global Health and Human Services

Students interested in receiving theoretical and practical training in Spanish for Global Health and Human Services are eligible to apply to the Department of Modern Languages for this 18-hour minor, which will prepare them to work with Spanish-speaking clients and in Spanish-language contexts. This minor will train future health care providers to demonstrate linguistic and intercultural competence to be respectful and responsive to the needs, practices, and health beliefs of the diverse Latinx population. Students in this certificate, will understand the need for medical Spanish to improve patient outcomes and reduce health disparities and risks, the importance of medical Spanish in providing safe and appropriate health care, and the critical need to increase the number of Spanish-speaking health care professionals. This program prepares students to understand the differences between the U.S. and Hispanic healthcare systems and beliefs, and comprehend and produce written and oral texts in Spanish in the fields of healthcare and human services.

Required courses:

1. Spanish language and culture courses (9 credits)

   a. Choose one:

   SPAN 2300
   SPAN 2310
   SPAN 3312
   SPAN 3316
b. Choose one:
SPAN 2314
SPAN 2315
c. Choose one:
SPAN 3305
SPAN 3314

2. Specialized courses in Spanish (6 credits)
a. Required:
SPAN 3308
b. Choose one:
SPAN 3313*
SPAN 4313*
SPAN 3309
SPAN 3312
SPAN 4336
SPAN 4342
SPAN 4343
*These courses fulfill the requirements for the program only when offered with health and/or human services topics.

3. Interdisciplinary course (3 credits)
Students must complete one (1) three-hour interdisciplinary course in the fields of Anthropology, Communication, Disability Studies, Kinesiology, Medical Humanities, Nursing, Philosophy, Political Science, Psychology, or Social Work, etc. See advisor for a complete listing of relevant courses.

Minor in Spanish Linguistics

Requirements for a Minor in Spanish Linguistics:
The Minor in Spanish Linguistics includes foundational courses that provide students with a solid background in the core areas of Spanish linguistics, as well as elective options that allow students to tailor their program of study to meet their interests and academic and professional goals. Students will learn about modern linguistic theory and the application of those theories to teaching, research, translation and interpreting, as well as other professions in the healthcare, business, and government sectors. The minor consists of 18 semester hours.

For a minor in Spanish Linguistics students need to take the following courses:

Prerequisite courses: SPAN 2313, and SPAN 2314 or SPAN 2315. Required courses: SPAN 3305 or SPAN 3314, SPAN 3316. Elective courses: any two of the following: SPAN 3300, SPAN 3304, SPAN 3322, SPAN 4316, SPAN 4330, SPAN 4332 or SPAN 4339.

Minor in Mexican Culture

The Minor in Mexican Culture includes foundational courses that provide students with a solid background in the core areas of Mexican culture, as well as elective options at the 4000 level that allow students to tailor their program of study to meet their interests and academic and professional goals. Students will learn about some of the most important characteristics of Mexican culture (literature, comics, film, food, art, music, popular culture, literary journalism, feminism, Colonial documents and texts, the study and conservation of endangered Mexican indigenous languages, etc.), and the relations between cultural production and the society, and the application of that knowledge to teaching, research, translation and interpreting, as well as other professions in the healthcare, business, and government sectors. The minor consists of 18 semester hours.

For a Minor in Mexican Culture students need to take the following courses:

The Mexican Culture Certificate program will consist of the following courses for a total of 18 semester credit hours: Required courses: SPAN 2313, and SPAN 2314 or SPAN 2315. Prescribed Elective Courses: Any 2 of the following courses: SPAN 3304, SPAN 3317, SPAN 3318, SPAN 4317, and SPAN 4318. Elective Courses: Any 2 of the following courses: SPAN 3312, SPAN 3313, SPAN 4313, SPAN 4315, SPAN 4332, and SPAN 4334.

Minor in Localization and Translation with options in Arabic, Chinese, French German, Korean, Russian, Spanish and Dual-Language

Students pursuing the minor in localization and translation study the processes of localization and develop specialized skills in translation for future employment in the language services industry. Localization adapts language, texts, products, software and websites to the locale for which they are intended. By using specialized computer-assisted translation workflow software and simulating a collaborative work environment, students become conversant with the tools and procedures required for twenty-first century localization and translation work. Extensive practice in translating a variety of oral and written documents in the target language provides the skills to work in business, non-profit, and academic contexts. Three required translation and localization courses and two upper-level elective courses comprise the minor. It is strongly recommended that students take ARAB 3310, CHIN 3310, FREN 3320, GERM 3310, KORE 3310, RUSS 3310, or SPAN 3310 prior to taking ARAB 3345, CHIN 3345, FREN 3345, GERM 3345, KORE 3345, RUSS 3345, or SPAN 3345.
The minor consists of the following courses, including ARAB, CHIN, FREN, GERM, KORE, RUSS 2314, SPAN 2314 (or SPAN 2315 for heritage speakers) which must be completed with the grade of B or better.

**Arabic Option (18 hours)**
- ARAB 2314
- ARAB 3310
- ARAB 3311
- ARAB 3345
- ARAB 3XXX or 4XXX  Upper-level Elective
- ARAB 3XXX or 4XXX  Upper-level Elective

**Chinese Option (18 hours)**
- CHIN 2314
- CHIN 3310
- CHIN 3311
- CHIN 3345
- CHIN 3XXX or 4XXX  Upper-level Elective
- CHIN 3XXX or 4XXX  Upper-level Elective

**French Option (18 hours)**
- FREN 2314
- FREN 3320*
- FREN 3321*
- FREN 3345*
- FREN 3XXX or 4XXX  Upper-level Elective
- FREN 3XXX or 4XXX  Upper-level Elective

*These courses cannot be applied toward the minor in French*

**German Option (18 hours)**
- GERM 2314
- GERM 3310 or GERM 4334
- GERM 3311 or GERM 4335
- GERM 3345
- GERM 3XXX or 4XXX  Upper-level Elective
- GERM 3XXX or 4XXX  Upper-level Elective

**Korean Option (18 hours)**
- KORE 2314
- KORE 3310
- KORE 3311
- KORE 3345
- KORE 3XXX or 4XXX  Upper-level Elective
- KORE 3XXX or 4XXX  Upper-level Elective

**Russian Option (18 hours)**
- RUSS 2314
- RUSS 3310 or RUSS 4334
- RUSS 3311 or RUSS 4335
- RUSS 3345
- RUSS 3XXX or 4XXX  Upper-level Elective
- RUSS 3XXX or 4XXX  Upper-level Elective
Spanish Option (18 hours)
• SPAN 2314 or SPAN 2315
• SPAN 3310
• SPAN 3321
• SPAN 3345
• SPAN 3XXX or 4XXX Upper-level Elective
• SPAN 3XXX or 4XXX Upper-level Elective

Minor in Localization and Translation with a Dual Language Option (24 hours)
The minor with the dual language option consists of two localization/translation courses and two upper-level language courses in each language, as follows:

One Localization and Translation I Course in Language 1: (3 hours)
• ARAB 3310
• CHIN 3310
• FREN 3320
• GERM 3310 or GERM 4334
• KORE 3310
• RUSS 3310 or RUSS 4334
• SPAN 3310

One Localization and Translation II Course in Language 1: (3 hours)
• ARAB 3311
• CHIN 3311
• FREN 3321
• GERM 3311 or GERM 4335
• KORE 3311
• RUSS 3311 or RUSS 4335
• SPAN 3321

One Introduction to Computer-Assisted Translation Course in Language 2: (3 hours)
• ARAB 3345
• CHIN 3345
• FREN 3345
• GERM 3345
• KORE 3345
• RUSS 3345
• SPAN 3345

One Localization and Translation II Course in Language 2: (3 hours)
• ARAB 3311
• CHIN 3311
• FREN 3321
• GERM 3311 or GERM 4335
• KORE 3311
• RUSS 3311 or RUSS 4335
• SPAN 3321

Four Additional Upper-Level Courses (Two in Each Language) Are Also Required. (12 hours)
• STUDENTS MAY SELECT FROM:
  • Arabic (two 3000 or 4000 level courses)
  • Chinese (two 3000 or 4000 level courses)
  • French (two 3000 or 4000 level courses)
Modern Languages - Undergraduate Programs

- German (two 3000 or 4000 level courses)
- Korean (two 3000 or 4000 level courses)
- Russian (two 3000 or 4000 level courses)
- Spanish (two 3000 or 4000 level courses)

Minor in Modern Language Teaching

The Minor in Modern Language Teaching provides foundational academic and professional preparation for students interested in teaching modern languages, as well as a framework for students wishing to pursue alternative certification after graduation. The program includes language and culture courses at the intermediate and advanced levels, as well as foreign language pedagogy courses. These are complemented by an internship component that provides hands-on training to pre-service teacher candidates.

Required courses:

1. Prerequisite Course (3 credits)

Choose one of the following:

ARAB 2314
CHIN 2314
FREN 2314
GERM 2314
KORE 2314
RUSS 2314

or

SPAN 2314 or SPAN 2315

2. Upper-division language and culture courses (6 credits):

Choose two of the following (in the same language prefix):

ARAB 3303 or ARAB 3304; ARAB 3305; ARAB 3312
CHIN 3303; CHIN 3304; CHIN 3305
FREN 3303; FREN 3304; FREN 3305; FREN 3312
GERM 3312; GERM 3313; GERM 3316; GERM 3318
KORE 3303; KORE 3304; KORE 3305

or

RUSS 3304; RUSS 3333

or

SPAN 3303; SPAN 3305 or SPAN 3314; SPAN 3311 or SPAN 3312; SPAN 3315

3. Pedagogy, Methods, or Second Language Acquisition (3 credits):

Choose one of the following:

MODL 4305
MODL 4340
MODL 4339, FREN 4339, GERM 4339, or SPAN 4339

4. EDUC 2302 (3 credits)

5. Internship (3 credits):

Choose one of the following:

ARAB 4393
CHIN 4393
FREN 4393
GERM 4393
KORE 4393
Certificate in Spanish Translation

Students interested in receiving theoretical and practical training in Spanish-English and English-Spanish translation are eligible to apply to the Department of Modern Languages for this 12-hour certificate program in translation and translation theory. Topics to be covered by coursework in the Certificate Program include medical, business, technical, scientific, legal, and literary translation. This Certificate Program, which can be paired with a bachelor’s degree in any discipline, provides students multiple career prospects in the language-services industry or in other professional areas requiring advanced use and translation of Spanish such as health, business, education, advertising, criminal justice, media communication, and social services. During enrollment in the program, students have the opportunity to gain professional experience at non-profit organizations through service learning. To be admitted to the program, students must demonstrate writing proficiency in both Spanish and English. Students should also have completed SPAN 3305 (https://catalog.uta.edu/search/?P=SPAN%203305) or SPAN 3314 (https://catalog.uta.edu/search/?P=SPAN%203314), or have consent of the department. Once in the program, students begin by taking SPAN 3340 (https://catalog.uta.edu/search/?P=SPAN%203340) (Introduction to Translation). After completing this class with a grade of B or better, students must take SPAN 4341 (https://catalog.uta.edu/search/?P=SPAN%204341) (Business and Legal Translation) and SPAN 4342 (https://catalog.uta.edu/search/?P=SPAN%204342) (Translation in Healthcare Settings). SPAN 4341 and 4342 cannot be applied toward the B.A. in Spanish for Global Competence. To receive the certificate, students are also required to pass an Exit Examination in translation. In order to be eligible to take the Exit Examination, students must pass SPAN 4341 and 4342 with a grade of C or better. The Exit Examination in translation may only be taken once.

Certificate in Spanish interpreting

Students interested in receiving theoretical and practical training in Spanish-English and English-Spanish interpreting are eligible to apply to the Department of Modern Languages for this 12-hour certificate program in interpreting. Topics to be covered by coursework in the Certificate Program include interpreting in school, legal and medical settings. This Certificate Program, which can be paired with a bachelor’s degree in any discipline, trains students to maximize their bilingual speaking and listening abilities, and develop their linguistic flexibility to manipulate various language registers to become professional interpreters or effective communicators in multiple career fields such as health, business, education, criminal justice, media communication, social services, immigration, government, and non-profit. During enrollment in the program, students have the opportunity to gain professional experience at non-profit organizations through service learning. To enter the program, students must demonstrate oral proficiency in both Spanish and English. Students should also have completed SPAN 3305 (https://catalog.uta.edu/search/?P=SPAN%203305) or SPAN 3314 (https://catalog.uta.edu/search/?P=SPAN%203314). Once in the program, students begin by taking SPAN 3341 (https://catalog.uta.edu/search/?P=SPAN%203341) (Introduction to Interpreting). After completing this class with a grade of B or better, students must take SPAN 4343 (https://catalog.uta.edu/search/?P=SPAN%204343) (Interpreting in Medical Settings) and SPAN 4344 (https://catalog.uta.edu/search/?P=SPAN%204344) (Interpreting in Legal Settings). SPAN 4343 and 4344 cannot be applied toward the B.A. in Spanish for Global Competence. To receive the certificate, students are also required to pass an Exit Examination in interpreting. In order to be eligible to take the Exit Examination, students must pass SPAN 4343 and 4344 with a grade of C or better. The Exit Examination in interpreting may only be taken once.

Certificate in Spanish for the Professions

Students interested in receiving theoretical and practical training in Spanish for the Professions are eligible to apply to the Department of Modern Languages for this 12-hour certificate program, which will prepare them to work with Spanish-speaking individuals and in Spanish-language contexts. Topics to be covered by coursework in the Certificate Program include Spanish for law enforcement, social services, education, medical professions, business, communications; Hispanic culture; and intercultural competence.

Required courses:

- SPAN 3309 Spanish for the Professions
- SPAN 3314 Advanced Spanish Grammar or SPAN 3305 Advanced Spanish for Heritage Speakers
- SPAN 3315 Spanish Composition
- One (1) 4000-level courses from the following:
  - SPAN 4312 Intercultural Competence for Global Communication
  - SPAN 4334 Contemporary Hispanic Culture
  - SPAN 4335 Business Spanish
  - SPAN 4336 Topics in Spanish for the Professions

Certificate in Spanish for Global Health and Human Services

Students interested in receiving theoretical and practical training in Spanish for Global Health and Human Services are eligible to apply to the Department of Modern Languages for this 12-hour certificate program, which will prepare them to work with Spanish-speaking clients and in Spanish-language contexts. This innovative certificate will train future health care providers to demonstrate linguistic and intercultural competence to be respectful and responsive to the needs, practices, and health beliefs of the diverse Latinx population. Students in this certificate, will understand the need for medical Spanish to improve patient outcomes and reduce health disparities and risks, the importance of medical Spanish in providing safe and
appropriate health care, and the critical need to increase the number of Spanish-speaking health care professionals. This program prepares students to understand the differences between the U.S. and Hispanic healthcare systems and beliefs, and comprehend and produce written and oral texts in Spanish in the fields of healthcare and human services.

**Required courses:**

1. **Spanish language courses (6 credits)**
   
a. Choose one:
   
   SPAN 2314
   
   SPAN 2315
   
b. Choose one:
   
   SPAN 3305
   
   SPAN 3314

2. **Specialized courses in Spanish (6 credits)**
   
a. Required:
   
   SPAN 3308
   
   b. Choose one:
   
   SPAN 3309
   
   SPAN 4312
   
   SPAN 4336
   
   SPAN 4342
   
   SPAN 4343
   
   SPAN 3313*
   
   SPAN 4313*

   *These courses fulfill the requirements for the program only when offered with health and/or human services topics.

**Certificate in Spanish Linguistics**

**Requirements for a Certificate in Spanish Linguistics**

The Spanish Linguistics Certificate program will consist of the following courses for a total of 12 semester credit hours: **Prerequisite course:** SPAN 2314 or SPAN 2315. **Required courses:** SPAN 3305 or SPAN 3314, SPAN 3316. **Elective course:** any one of the following Spanish Linguistics courses at the 3000/4000 level: SPAN 3304, SPAN 3322, SPAN 4316, SPAN 4330, SPAN 4332 or SPAN 4339.

**Certificate in Mexican Culture**

The Certificate in Mexican Culture includes foundational courses that provide students with a solid background in the core areas of Mexican culture, as well as elective options at the 4000 level that allow students to tailor their program of study to meet their interests and academic and professional goals. Students will learn about some of the most important characteristics of Mexican culture (literature, comics, film, food, art, music, popular culture, literary journalism, feminism, Colonial documents and texts, the study and conservation of endangered Mexican indigenous languages, etc.), and the relations between cultural production and the society, and the application of that knowledge to teaching, research, translation and interpreting, as well as other professions in the healthcare, business, and government sectors. The certificate consists of 12 semester hours.

**Requirements for a Certificate in Mexican Culture**

The Mexican Culture Certificate program will consist of the following courses for a total of 12 semester credit hours: **Required courses:** SPAN 2313, and SPAN 2314 or SPAN 2315. **Prescribed Elective Courses:** Any two of the following courses: SPAN 3304, SPAN 3317, SPAN 3318, SPAN 4317, and SPAN 4318. Student may also take any of the following courses when offered with a topic related to Mexican culture: SPAN 3313, SPAN 4313, SPAN 4315, SPAN 4332, and SPAN 4334.
Certificate in French Translation

The 15-credit hour Certificate in French Translation meets the increasing demands of local, national, and international organizations for professionals who can address the challenges of modern multicultural societies. The program is designed for students that have an interest in pursuing careers in translation, localization, business, marketing, human resources, health care, law, and linguistics. The certificate gives students conceptual tools and hands-on practice for written translation. The 15-credit hour undergraduate Certificate in French Translation will include: FREN 3320, FREN 4314, FREN 4335, FREN 4341, and FREN 4342. Relevant special topics courses can be substituted with the approval of the advisor in consultation with the Section Head of French. A Certificate in French Translation would be awarded upon successful completion of the program and demonstration of excellence by successfully presenting a Portfolio.

Certificate in Localization and Translation with options in Arabic, Chinese, French, German, Korean, Russian, Spanish, and Dual-Language

In this five-course certificate program students study the processes of localization and develop specialized skills in translation for future employment in the language services industry. Localization adapts language, texts, products, software and websites to the locale for which they are intended. By using specialized computer-assisted translation workflow software and simulating a collaborative work environment, students become conversant with the tools and procedures required for twenty-first century localization and translation work. Extensive practice in translating a variety of oral and written documents in the target language provides the skills to work in business, non-profit, and academic situations.

In order to enter the program, students must receive a grade of B in ARAB 2314, CHIN 2314, FREN 2314, GERM 2314, KORE 2314, RUSS 2314, or SPAN 2314/SPAN 2315. Students wishing to pursue the dual language option must receive a grade of B in level 2314/2315 for both the selected languages.

Three required translation and localization courses (ARAB/CHIN/GERM/KORE/ RUSS 3310, 3311, FREN 3320, 3321, SPAN 3310, 3321 and ARAB/CHIN/GERM/KORE/ RUSS/SPAN 3345) and two culture courses comprise the certificate. ARAB 3310, CHIN 3310, FREN 3320, GERM 3310, KORE 3310, RUSS 3310, and SPAN 3310 are strongly recommended before taking ARAB 3345, CHIN 3345, FREN 3345, GERM 3345, KORE 3345, RUSS 3345, or SPAN 3345.

- Students in Arabic
  o ARAB 3310, ARAB 3311, and ARAB 3345
  o Two ARAB 3000 or 4000-level courses

- Students in Chinese
  o CHIN 3310, CHIN 3311, and CHIN 3345
  o Two CHIN 3000 or 4000-level courses

- Students in French
  o FREN 3320, FREN 3321, and FREN 3345
  o Two FREN 3000 or 4000-level courses

- Students in German
  o GERM 3310 or GERM 4334, GERM 3311 or GERM 4335, and GERM 3345
  o Two GERM 3000 or 4000-level courses

- Students in Korean
  o KORE 3310 or KORE 4334, KORE 3311 or KORE 4335, and KORE 3345
  o Two KORE 3000 or 4000-level courses

- Students in Russian
  o RUSS 3310 or RUSS 4334, RUSS 3311 or RUSS 4335, and RUSS 3345
  o Two RUSS 3000 or 4000-level courses

- Students in Spanish
  o SPAN 3310, SPAN 3321 and SPAN 3345
  o Two SPAN 3000 or 4000-level courses

Certificate in Localization and Translation Dual Language Option

Students seeking the certificate in localization and translation with a dual language option must take nine courses according to the following plan:
• One beginning course in **language one**:
  • ARAB 3310
  • CHIN 3310
  • FREN 3320
  • GERM 3310 or GERM 4334
  • KORE 3310 or GERM 4334
  • RUSS 3310 or RUSS 4334
  • SPAN 3310

• One advanced course in **each language**:
  • ARAB 3311
  • CHIN 3311
  • FREN 3321
  • GERM 3311 or GERM 4335
  • KORE 3311 or KORE 4335
  • RUSS 3311 or RUSS 4335
  • SPAN 3311

• One Introduction to Computer-Assisted Translation Course in **language two**:
  • ARAB 3345
  • CHIN 3345
  • FREN 3345
  • GERM 3345
  • KORE 3345
  • RUSS 3345
  • SPAN 3345

• **Four additional courses (two in each language)** are also required. Students may select from:
  • Arabic (two ARAB 3000 or 4000- level courses)
  • Chinese (two CHIN 3000 or 4000- level courses)
  • French (two FREN 3000 or 4000- level courses)
  • German (two GERM 3000 or 4000- level courses)
  • Korean (two KORE 3000 or 4000- level courses)
  • Russian (two RUSS 3000 or 4000- level courses)
  • Spanish (two SPAN 3000 or 4000- level courses)

• A minimum of two years (four semesters) of beginning and intermediate level language study for each selected language is required for the dual-language certificate program.

• For more information on this option, please see the Modern Language Undergraduate Advisor.
Music

Undergraduate Degrees

- Bachelor of Music (Performance, Theory, or Composition) (http://catalog.uta.edu/liberalarts/music/undergraduate/#bachelorstext/#baperformance)
- Bachelor of Music (Music/Business, Music/Theatre, or Audio Production) (http://catalog.uta.edu/liberalarts/music/undergraduate/#bachelorstext/#babusiness)
- Bachelor of Music (Jazz Studies Option) (http://catalog.uta.edu/liberalarts/music/undergraduate/#bachelorstext/#bajazz)
- Bachelor of Music (preparation for Teacher Certification) (http://catalog.uta.edu/liberalarts/music/undergraduate/#bachelorstext/#bateacher)
- Bachelor of Arts (Music Industry Studies) (http://catalog.uta.edu/liberalarts/music/undergraduate/#bachelorstext/#bachelorstext)
- Minor in Music (p. 1074)

Graduate Degrees

- Master of Music (Music Education) (http://catalog.uta.edu/liberalarts/music/graduate/#masterstext/#masterstext)
- Master of Music (Music Performance) (http://catalog.uta.edu/liberalarts/music/graduate/#masterstext/#masterstext)
- Master of Music (Music Theory) (http://catalog.uta.edu/liberalarts/music/graduate/#masterstext/#masterstext)
- Master of Music (Conducting) (http://catalog.uta.edu/liberalarts/music/graduate/#masterstext/#masterstext)
- Master of Music (Jazz Studies) (http://catalog.uta.edu/liberalarts/music/graduate/#masterstext/#masterstext)
- Master of Music (Jazz Composition) (http://catalog.uta.edu/liberalarts/music/graduate/#masterstext/#masterstext)

Certificate

- Performance Certificate (p. 1059)

COURSES

MUSI 0010. STUDIO CLASS. 0 Hours.
Departmental performance classes, master classes, guest artist performances and lectures related to performance specializations. Students enroll concurrently with private lesson in specialization.

MUSI 0101. MARCHING BAND. 1 Hour.
The music major must receive credit for the ensembles required in his/her option. The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

MUSI 0102. WIND SYMPHONY. 1 Hour.
The music major must receive credit for the ensembles required in his/her option. The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

MUSI 0103. SYMPHONIC WINDS. 1 Hour.
The music major must receive credit for the ensembles required in his/her option. The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

MUSI 0104. A CAPPELLA CHOIR. 1 Hour.
The music major must receive credit for the ensembles required in his/her option. The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

MUSI 0105. WOMEN'S CHORUS. 1 Hour.
The music major must receive credit for the ensembles required in his/her option. The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

MUSI 0106. CHAMBER SINGERS. 1 Hour.
The music major must receive credit for the ensembles required in his/her option. The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

MUSI 0108. UNIVERSITY SINGERS. 1 Hour.
The music major must receive credit for the ensembles required in his/her option. The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

MUSI 0109. KEYBOARD ENSEMBLE. 1 Hour.
The music major must receive credit for the ensembles required in his/her option. The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

MUSI 0110. WOODWIND ENSEMBLE. 1 Hour.
The music major must receive credit for the ensembles required in his/her option. The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.
MUSI 0111. BRASS CHOIR. 1 Hour.
The music major must receive credit for the ensembles required in his/her option. The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

MUSI 0112. JAZZ ORCHESTRA. 1 Hour.
The music major must receive credit for the ensembles required in his/her option. The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

MUSI 0113. ELECTRIC GUITAR ENSEMBLE. 1 Hour.
The music major must receive credit for the ensembles required in his/her option. The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

MUSI 0114. PERCUSSION ENSEMBLE. 1 Hour.
The music major must receive credit for the ensembles required in his/her option. The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

MUSI 0115. MUSICAL THEATRE / OPERA LAB. 1 Hour.
The music major must receive credit for the ensembles required in his/her option. The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director. By audition only.

MUSI 0116. JAZZ ENSEMBLE. 1 Hour.
The music major must receive credit for the ensembles required in his/her option. The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

MUSI 0117. TROMBONE CHOIR. 1 Hour.
The music major must receive credit for the ensembles required in his/her option. The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

MUSI 0118. MARCHING PERCUSSION. 1 Hour.
The music major must receive credit for the ensembles required in his/her option. The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

MUSI 0119. TRUMPET ENSEMBLE. 1 Hour.
The music major must receive credit for the ensembles required in his/her option. The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

MUSI 0120. FRENCH HORN ENSEMBLE. 1 Hour.
The music major must receive credit for the ensembles required in his/her option. The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

MUSI 0121. COLOR GUARD. 1 Hour.
The music major must receive credit for the ensembles required in his/her option. The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

MUSI 0122. JAZZ COMBO. 1 Hour.
The music major must receive credit for the ensembles required in his/her option. The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

MUSI 0123. VOCAL JAZZ. 1 Hour.
The music major must receive credit for the ensembles required in his/her option. The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

MUSI 0124. FLUTE CHOIR. 1 Hour.
The music major must receive credit for the ensembles required in his/her option. The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

MUSI 0125. SAX CHOIR. 1 Hour.
The music major must receive credit for the ensembles required in his/her option. The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

MUSI 0126. CHAMBER MUSIC. 1 Hour.
The music major must receive credit for the ensembles required in his/her option. The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

MUSI 0127. TUBA ENSEMBLE. 1 Hour.
The music major must receive credit for the ensembles required in his/her option. The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

MUSI 0128. ORCHESTRA. 1 Hour.
The music major must receive credit for the ensembles required in his/her option. The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.
MUSI 0129. EARLY MUSIC PERFORMANCE PRACTICE. 1 Hour.
Study of early music for individual instruments. Topics will vary by semester. May be repeated for credit. Prerequisite: Permission of instructor.

MUSI 0130. SYMPHONIC BAND. 1 Hour.
The music major must receive credit for the ensembles required in his/her option. The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

MUSI 0131. COMMERCIAL MUSIC ENSEMBLE. 1 Hour.
This course is open to Music Industry Studies students. This ensemble provides practical and artistic experience in ensembles rooted in commercial and popular music styles. Prerequisite: Approval of the ensemble director.

MUSI 0132. MAVBRASS. 1 Hour.
The UTA Basketball Band ("MavBrass") is open through an audition to students enrolled in marching band or a concert band. Does not fulfill the Department of Music large ensemble requirement. Prerequisite: Permission of instructor.

MUSI 0171. ELECTIVE PERFORMANCE. 1 Hour.
For students who desire elective private instruction in strings, woodwinds, brass, keyboard, voice, or percussion. May be repeated eight times for credit.

MUSI 0174. SECONDARY KEYBOARD. 1 Hour.
For music majors whose degree option requires secondary piano, organ, or harpsichord. A jury is required to receive credit. May be repeated for credit. Prerequisite: C or better in MUSI 2181 or faculty approval.

MUSI 0175. SECONDARY VOICE. 1 Hour.
For music majors whose degree option requires secondary voice. A jury is required to receive credit. May be repeated for credit.

MUSI 1101. JAZZ LISTENING. 1 Hour.
Jazz listening from a historical perspective. Students will develop intelligent listening habits with regard to genres and their innovators. Open to all students; required of jazz studies majors. May be repeated for credit as topic changes.

MUSI 1103. HIGH BRASS CLASS. 1 Hour.
Open to music majors only. Emphasis on pedagogical techniques for teaching the trumpet and French horn. Lectures and playing opportunities will provide information concerning the teaching of embouchure, tonguing, tonal and technical development to beginning students.

MUSI 1104. WOODWIND CLASS I. 1 Hour.
Open to music majors only. Emphasis on pedagogical techniques for teaching the clarinet and flute. Lectures and playing opportunities will provide information concerning the teaching of embouchure, tonguing, tonal and technical development to beginning students.

MUSI 1105. VOICE CLASS. 1 Hour. (TCCN = MUSI 1183)
Open to music majors only. A practical study of the physiology of the voice with emphasis on vocal technique, sound production, the changing voice, and limited repertoire.

MUSI 1106. LOW BRASS CLASS. 1 Hour.
Open to music majors only. Emphasis on pedagogical techniques for teaching the trombone and euphonium/tuba. Lectures and playing opportunities will provide information concerning the teaching of embouchure, tonguing, tonal and technical development to beginning students.

MUSI 1107. WOODWIND CLASS II. 1 Hour.
Open to music majors only. Emphasis on pedagogical techniques for teaching the saxophone, oboe and bassoon. Lectures and playing opportunities will provide information concerning the teaching of embouchure, tonguing, tonal and technical development to beginning students.

MUSI 1140. PRIVATE LESSONS IN VOICE-MUSICAL THEATRE. 1 Hour.
This sequence of courses is required of students who are pursuing the BFA in Musical Theatre. These courses may not be used as substitute voice lessons for those students pursuing a Bachelor of Music degree. Offered as MUSI 1140 and THEA 1140; credit will be granted only in one department. Prerequisite: Open to Musical Theatre majors only or by permission of the Department Chair.

MUSI 1141. PRIVATE LESSONS IN VOICE-MUSICAL THEATRE. 1 Hour.
This sequence of courses is required of students who are pursuing the BFA in Musical Theatre. These courses may not be used as substitute voice lessons for those students pursuing a Bachelor of Music degree. Offered as MUSI 1141 and THEA 1141; credit will be granted only in one department. Prerequisite: C or better in MUSI 1140 or THEA 1140. Open to Musical Theatre majors only or by permission of the Department Chair.

MUSI 1142. PRIVATE LESSONS IN PIANO. 1 Hour.
This sequence of courses is required of and limited to music majors with jazz option for whom the principal instrument is piano.

MUSI 1143. PRIVATE LESSONS IN PIANO. 1 Hour.
This sequence of courses is required of and limited to music majors with jazz option for whom the principal instrument is piano. Prerequisite: C or better in MUSI 1142.

MUSI 1144. PRIVATE LESSONS IN DOUBLE BASS. 1 Hour.
This sequence of courses is required of and limited to music majors with jazz option for whom the principal instrument is bass.
MUSI 1145. PRIVATE LESSONS IN DOUBLE BASS. 1 Hour.
This sequence of courses is required of and limited to music majors with jazz option for whom the principal instrument is bass. Prerequisite: C or better in MUSI 1144.

MUSI 1146. PRIVATE LESSONS IN JAZZ BASS. 1 Hour.
This sequence of courses is required of and limited to music majors with jazz option for whom the principal instrument is bass.

MUSI 1147. PRIVATE LESSONS IN JAZZ BASS. 1 Hour.
This sequence of courses is required of and limited to music majors with jazz option for whom the principal instrument is bass. Prerequisite: C or better in MUSI 1146.

MUSI 1154. PRIVATE LESSONS IN JAZZ PIANO. 1 Hour.
This sequence of courses is required of and limited to music majors with jazz option for whom the principal instrument is piano.

MUSI 1155. PRIVATE LESSONS IN JAZZ PIANO. 1 Hour.
This sequence of courses is required of and limited to music majors with jazz option for whom the principal instrument is piano. Prerequisite: C or better in MUSI 1154.

MUSI 1180. FUNCTIONAL PIANO I. 1 Hour. (TCCN = MUSI 1181)
Required of and limited to music majors who are not piano majors or concentrates. The aim is to develop keyboard skills necessary to use the piano as a tool in teaching, composing, improvising, and performing.

MUSI 1181. FUNCTIONAL PIANO II. 1 Hour. (TCCN = MUSI 1182)
Required of and limited to music majors who are not piano majors or concentrates. The aim is to develop keyboard skills necessary to use the piano as a tool in teaching, composing, improvising, and performing. Prerequisite: C or better in MUSI 1180.

MUSI 1182. CLASS PIANO FOR NON-MUSIC MAJORS I. 1 Hour.
Limited to non-music majors. The purpose of this class is to help UTA students learn piano in a group setting and facilitate their involvement with Music Department activities.

MUSI 1183. CLASS PIANO FOR NON-MUSIC MAJORS II. 1 Hour.
The purpose of this class is to help UTA students learn piano in a group setting and facilitate their involvement with Music Department activities. Prerequisite: C or better in MUSI 1182 or passing grade on proficiency exam.

MUSI 1185. SIGHTSINGING AND EAR TRAINING I. 1 Hour. (TCCN = MUSI 1116)
This sequence of courses is required of music majors. Develops skills in aural skills and melodic sight-singing.

MUSI 1186. SIGHTSINGING AND EAR TRAINING II. 1 Hour. (TCCN = MUSI 1117)
This sequence of courses is required of music majors. Develops skills in aural skills and melodic sight-singing. Prerequisite: C or better in MUSI 1185 and MUSI 1325.

MUSI 1236. PRIVATE LESSONS IN JAZZ GUITAR. 2 Hours.
This sequence of courses meets the requirements of music majors whose concentration is jazz guitar.

MUSI 1237. PRIVATE LESSONS IN JAZZ GUITAR. 2 Hours.
This sequence of courses meets the requirements of music majors whose concentration is jazz guitar. Prerequisite: C or better in MUSI 1236.

MUSI 1238. PRIVATE LESSONS IN JAZZ DRUMSET. 2 Hours.
This sequence of courses meets the requirements of music majors whose concentration is jazz drumset.

MUSI 1239. PRIVATE LESSONS IN JAZZ DRUMSET. 2 Hours.
This sequence of courses meets the requirements of music majors whose concentration is jazz drumset. Prerequisite: C or better in MUSI 1238.

MUSI 1240. PRIVATE LESSONS IN VOICE. 2 Hours.
This sequence of courses is required of music majors whose concentration is voice.

MUSI 1241. PRIVATE LESSONS IN VOICE. 2 Hours.
This sequence of courses is required of music majors whose concentration is voice.

MUSI 1242. PRIVATE LESSONS IN PIANO. 2 Hours.
This sequence of courses is required of music majors whose concentration is piano.

MUSI 1243. PRIVATE LESSONS IN PIANO. 2 Hours.
This sequence of courses is required of music majors whose concentration is piano. Prerequisite: C or better in MUSI 1242.

MUSI 1244. PRIVATE LESSONS IN STRINGS. 2 Hours.
This sequence of courses meets the requirements of music majors whose concentration is strings.

MUSI 1245. PRIVATE LESSONS IN STRINGS. 2 Hours.
This sequence of courses meets the requirements of music majors whose concentration is strings. Prerequisite: C or better in MUSI 1244.

MUSI 1246. PRIVATE LESSONS IN WOODWINDS. 2 Hours.
This sequence of courses is required of music majors whose concentration is woodwinds.
MUSI 1247. PRIVATE LESSONS IN WOODWINDS. 2 Hours.
This sequence of courses is required of music majors whose concentration is woodwinds.

MUSI 1248. PRIVATE LESSONS IN BRASS. 2 Hours.
This sequence of courses is required of music majors whose concentration is brass.

MUSI 1249. PRIVATE LESSONS IN BRASS. 2 Hours.
This sequence of courses is required of music majors whose concentration is brass. Prerequisite: C or better in MUSI 1248.

MUSI 1250. PRIVATE LESSONS IN PERCUSSION. 2 Hours.
This sequence of courses is required of music majors whose concentration is percussion.

MUSI 1251. PRIVATE LESSONS IN PERCUSSION. 2 Hours.
This sequence of courses is required of music majors whose concentration is percussion. Prerequisite: C or better in MUSI 1250.

MUSI 1252. PRIVATE LESSONS IN JAZZ BASS. 2 Hours.
This sequence of courses meets the requirements of jazz studies majors whose concentration is jazz bass.

MUSI 1253. PRIVATE LESSONS IN JAZZ BASS. 2 Hours.
This sequence of courses meets the requirements of jazz studies majors whose concentration is jazz bass. Prerequisite: C or better in MUSI 1252.

MUSI 1254. PRIVATE LESSONS FOR B.A. STUDENTS. 2 Hours.
Students complete four semesters of these lessons within one of the following 3 tracks: Commercial, Jazz, or Classical. These courses are open to non-music majors only with written permission of the Music Department Chair. Prerequisite: C or better in MUSI 1301.

MUSI 1255. PRIVATE LESSONS FOR B.A. STUDENTS. 2 Hours.
Students complete four semesters of these lessons within one of the following 3 tracks: Commercial, Jazz, or Classical. These courses are open to non-music majors only with written permission of the Music Department Chair. Prerequisite: C or better in MUSI 1254.

MUSI 1257. PRIVATE LESSONS IN ORGAN. 2 Hours.
This sequence of courses is required of music majors whose concentration is organ.

MUSI 1258. PRIVATE LESSONS IN ORGAN. 2 Hours.
This sequence of courses is required of music majors whose concentration is organ. Prerequisite: C or better in MUSI 1257.

MUSI 1267. PRIVATE LESSONS IN HARPSICHORD. 2 Hours.
This sequence is required of music majors whose concentration is harpsichord.

MUSI 1268. PRIVATE LESSONS IN HARPSICHORD. 2 Hours.
This sequence is required of music majors whose concentration is harpsichord. Prerequisite: C or better in MUSI 1267.

MUSI 1300. MUSIC APPRECIATION. 3 Hours. (TCCN = MUSI 1306)
Course designed to develop intelligent listening and enjoyment of music. Provides an opportunity to increase the student's cultural experience and vocabulary. This course satisfies the University of Texas at Arlington's core curriculum requirement in Creative Arts.

MUSI 1301. ELEMENTS OF MUSIC. 3 Hours. (TCCN = MUSI 1303)
Basic musical notation, harmony, and theory for students who are pursuing the BA in Music Industry Studies and the non-music major.

MUSI 1302. JAZZ APPRECIATION. 3 Hours.
The development of American jazz from its African and European roots to the present. This course satisfies the University of Texas at Arlington Core Curriculum requirement in Creative Arts.

MUSI 1303. HISTORY AND APPRECIATION OF HIP HOP AND R&B MUSIC. 3 Hours.
Explores the history and evolution of Hip Hop and modern urban music, emphasizing musical style and social context, from rhythm and blues through the present. Offered as AAST 2303 and MUSI 1303; credit will be granted in only one department.

MUSI 1304. HISTORY OF ROCK MUSIC. 3 Hours.
Open to all students as fine arts elective. Explores the history and evolution of rock music emphasizing musical style and social context, from rhythm and blues through the present. This course satisfies the University of Texas at Arlington core curriculum requirement in creative arts.

MUSI 1324. EXPLORATIONS IN MUSIC THEORY. 3 Hours.
A study of music skills necessary for the Music Industry Studies and Music Theatre majors involving written and analytical perspectives. Prerequisite: C or better in MUSI 1301.

MUSI 1325. THEORY AND HARMONY I. 3 Hours. (TCCN = MUSI 1311)
Scales, intervals, triads, and part writing with primary triads. Prerequisite: For B.A. Music Industry students, C or better in MUSI 1301; For all other degrees, open to music majors or faculty approval.

MUSI 1326. THEORY AND HARMONY II. 3 Hours. (TCCN = MUSI 1312)
Part writing including all diatonic triads, seventh chords, and traditional non-chord tones. Prerequisite: C or better in MUSI 1325.

MUSI 2101. BRASS SURVEY. 1 Hour.
Open to music majors in the All-level Instrumental Option (orchestra emphasis) and All-level Choral Option only. Emphasis on pedagogical techniques for teaching brass instruments. Lectures and playing opportunities will provide information concerning the teaching of embouchure, tonguing, tonal and technical development to beginning students.
MUSI 2102. WOODWIND SURVEY. 1 Hour.
Open to music majors in the All-level Instrumental Option (orchestra emphasis) and All-level Choral Option only. Emphasis on pedagogical techniques for teaching woodwind instruments. Lectures and playing opportunities will provide information concerning the teaching of embouchure, tonguing, tonal and technical development to beginning students.

MUSI 2103. STRING CLASS. 1 Hour.
Open to music majors only. A practical study of the string instruments of the orchestra with emphasis on bowing techniques, articulation, performance of scales, and limited repertoire.

MUSI 2104. PERCUSSION CLASS. 1 Hour. (TCCN = MUSI 1188)
(MUSI 1188). Open to music majors only. A practical study of the percussion instruments of the band and orchestra with emphasis on rudimental techniques and performance of limited repertoire.

MUSI 2112. INTRODUCTION TO MUSIC EDUCATION. 1 Hour.
Comprehensive survey of instrumental, choral and elementary music through lecture and research pertaining to professional responsibilities and career opportunities.

MUSI 2140. PRIVATE LESSONS IN VOICE-MUSICAL THEATRE. 1 Hour.
This sequence of courses is required of students who are pursuing the BFA in Musical Theatre. These courses may not be used as substitute voice lessons for those students pursuing a Bachelor of Music degree. Offered as MUSI 2140 and THEA 2140; credit will be granted only in one department. Prerequisite: C or better in MUSI 1141 or THEA 1141. Open to Musical Theatre majors only or by permission of the Department Chair.

MUSI 2141. PRIVATE LESSONS IN VOICE-MUSICAL THEATRE. 1 Hour.
This sequence of courses is required of students who are pursuing the BFA in Musical Theatre. These courses may not be used as substitute voice lessons for those students pursuing a Bachelor of Music degree. Offered as MUSI 2141 and THEA 2141; credit will be granted only in one department. Prerequisite: C or better in MUSI 2140 or THEA 2140. Open to Musical Theatre majors only or by permission of the Department Chair.

MUSI 2142. PRIVATE LESSONS IN PIANO. 1 Hour.
This sequence of courses is required of and limited to music majors with jazz option for whom the principal instrument is piano. Prerequisite: C or better in MUSI 1143.

MUSI 2143. PRIVATE LESSONS IN PIANO. 1 Hour.
This sequence of courses is required of and limited to music majors with jazz option for whom the principal instrument is piano. Prerequisite: C or better in MUSI 2142.

MUSI 2144. PRIVATE LESSONS IN DOUBLE BASS. 1 Hour.
This sequence of courses is required of and limited to music majors with jazz option for whom the principal instrument is bass. Prerequisite: C or better in MUSI 1145.

MUSI 2145. PRIVATE LESSONS IN DOUBLE BASS. 1 Hour.
This sequence of courses is required of and limited to music majors with jazz option for whom the principal instrument is bass. Prerequisite: C or better in MUSI 2144.

MUSI 2146. PRIVATE LESSONS IN JAZZ BASS. 1 Hour.
This sequence of courses is required of and limited to music majors with jazz option for whom the principal instrument is bass. Prerequisite: C or better in MUSI 1147.

MUSI 2147. PRIVATE LESSONS IN JAZZ BASS. 1 Hour.
This sequence of courses is required of and limited to music majors with jazz option for whom the principal instrument is bass. Prerequisite: C or better in MUSI 2146.

MUSI 2154. PRIVATE LESSONS IN JAZZ PIANO. 1 Hour.
This sequence of courses is required of and limited to music majors with jazz option for whom the principal instrument is piano. Prerequisite: C or better in MUSI 1155.

MUSI 2155. PRIVATE LESSONS IN JAZZ PIANO. 1 Hour.
This sequence of courses is required of and limited to music majors with jazz option for whom the principal instrument is piano. Prerequisite: C or better in MUSI 2154.

MUSI 2180. FUNCTIONAL PIANO III. 1 Hour. (TCCN = MUSI 2181)
Required of and limited to music majors who are not piano majors or concentrates. The aim is to develop keyboard skills necessary to use the piano as a tool in teaching, composing, improvising, and performing. Prerequisite: C or better in MUSI 1181.

MUSI 2181. FUNCTIONAL PIANO IV. 1 Hour. (TCCN = MUSI 2182)
Required of and limited to music majors who are not piano majors or concentrates. The aim is to develop keyboard skills necessary to use the piano as a tool in teaching, composing, improvising, and performing. Prerequisite: C or better in MUSI 2180.

MUSI 2185. SIGHTSINGING AND EAR TRAINING III. 1 Hour. (TCCN = MUSI 2116)
This sequence of courses is required of music majors. Develops skills in aural skills and melodic sight-singing. Prerequisite: C or better in MUSI 1186 and MUSI 1326.
MUSI 2186. SIGHTSING AND EAR TRAINING IV. 1 Hour. (TCCN = MUSI 2117)
This sequence of courses is required of music majors. Develops skills in aural skills and melodic sight-singing. Prerequisite: C or better in MUSI 2185 and MUSI 2325.

MUSI 2190. BODY AND BREATHING FOR FITNESS. 1 Hour.
Course designed to improve a singer's total body engagement in producing a healthy vocal tone. Prerequisite: Requires concurrent enrollment in voice lessons or permission of instructor.

MUSI 2222. DEVELOPMENTAL PRIVATE LESSONS. 2 Hours.
Continued work in technique and repertoire to meet the requirements of the sophomore barrier.

MUSI 2223. PREPARATORY PRIVATE LESSONS. 2 Hours.
Private instruction on technique and repertoire in preparation for the sophomore proficiency exam. May be repeated up to four times for credit.

MUSI 2227. COMPOSITION TECHNIQUES. 2 Hours.
An introduction to contemporary music designed to acquaint students with composition styles and techniques through written assignments. Required for music majors with emphasis in Composition, Theory, and Music/Media. Prerequisite: C or better in MUSI 2325.

MUSI 2236. PRIVATE LESSONS IN JAZZ GUITAR. 2 Hours.
This sequence of courses meets the requirements of music majors whose concentration is jazz guitar. Prerequisite: C or better in MUSI 1237.

MUSI 2237. PRIVATE LESSONS IN JAZZ GUITAR. 2 Hours.
This sequence of courses meets the requirements of music majors whose concentration is jazz guitar. Prerequisite: C or better in MUSI 2236.

MUSI 2238. PRIVATE LESSONS IN JAZZ DRUMSET. 2 Hours.
This sequence of courses meets the requirements of music majors whose concentration is jazz drumset. Prerequisite: C or better in MUSI 1239.

MUSI 2239. PRIVATE LESSONS IN JAZZ DRUMSET. 2 Hours.
This sequence of courses meets the requirements of music majors whose concentration is jazz drumset. Prerequisite: C or better in MUSI 2238.

MUSI 2240. PRIVATE LESSONS IN VOICE. 2 Hours.
This sequence of courses is required of music majors whose concentration is voice. Prerequisite: C or better in MUSI 1241.

MUSI 2241. PRIVATE LESSONS IN VOICE. 2 Hours.
This sequence of courses is required of music majors whose concentration is voice. Prerequisite: C or better in MUSI 2240.

MUSI 2242. PRIVATE LESSONS IN PIANO. 2 Hours.
This sequence of courses is required of music majors whose concentration is piano. Prerequisite: C or better in MUSI 1243.

MUSI 2243. PRIVATE LESSONS IN PIANO. 2 Hours.
This sequence of courses is required of music majors whose concentration is piano. Prerequisite: C or better in MUSI 2242.

MUSI 2244. PRIVATE LESSONS IN STRINGS. 2 Hours.
This sequence of courses meets the requirements of music majors whose concentration is strings. Prerequisite: C or better in MUSI 1245.

MUSI 2245. PRIVATE LESSONS IN STRINGS. 2 Hours.
This sequence of courses meets the requirements of music majors whose concentration is strings. Prerequisite: C or better in MUSI 2244.

MUSI 2246. PRIVATE LESSONS IN WOODWINDS. 2 Hours.
This sequence of courses is required of music majors whose concentration is woodwinds. Prerequisite: C or better in MUSI 1247.

MUSI 2247. PRIVATE LESSONS IN WOODWINDS. 2 Hours.
This sequence of courses is required of music majors whose concentration is woodwinds. Prerequisite: C or better in MUSI 2246.

MUSI 2248. PRIVATE LESSONS IN BRASS. 2 Hours.
This sequence of courses is required of music majors whose concentration is brass. Prerequisite: C or better in MUSI 1249.

MUSI 2249. PRIVATE LESSONS IN BRASS. 2 Hours.
This sequence of courses is required of music majors whose concentration is brass. Prerequisite: C or better in MUSI 2248.

MUSI 2250. PRIVATE LESSONS IN PERCUSSION. 2 Hours.
This sequence of courses is required of music majors whose concentration is percussion. Prerequisite: C or better in MUSI 1251.

MUSI 2251. PRIVATE LESSONS IN PERCUSSION. 2 Hours.
This sequence of courses is required of music majors whose concentration is percussion. Prerequisite: C or better in MUSI 2250.

MUSI 2252. PRIVATE LESSONS IN JAZZ BASS. 2 Hours.
This sequence of courses meets the requirements of jazz studies majors whose concentration is jazz bass. Prerequisite: C or better in MUSI 1253.

MUSI 2253. PRIVATE LESSONS IN JAZZ BASS. 2 Hours.
This sequence of courses meets the requirements of jazz studies majors whose concentration is jazz bass. Prerequisite: C or better in MUSI 2252.

MUSI 2254. PRIVATE LESSONS FOR B.A. STUDENTS. 2 Hours.
Students complete four semesters of these lessons within one of the following 3 tracks: Commercial, Jazz, or Classical. These courses are open to non-music majors only with written permission of the Music Department Chair. Prerequisite: C or better in MUSI 1255.
MUSI 2255. PRIVATE LESSONS FOR B.A. STUDENTS. 2 Hours.
Students complete four semesters of these lessons within one of the following 3 tracks: Commercial, Jazz, or Classical. These courses are open to non-music majors only with written permission of the Music Department Chair. Prerequisite: C or better in MUSI 2254.

MUSI 2257. PRIVATE LESSONS IN ORGAN. 2 Hours.
This sequence of courses is required of music majors whose concentration is organ. Prerequisite: C or better in MUSI 1258.

MUSI 2258. PRIVATE LESSONS IN ORGAN. 2 Hours.
This sequence of courses is required of music majors whose concentration is organ. Prerequisite: C or better in MUSI 2257.

MUSI 2267. PRIVATE LESSONS IN HARPSICHORD. 2 Hours.
This sequence of courses is required of music majors whose concentration is harpsichord. Prerequisite: C or better in MUSI 1268.

MUSI 2268. PRIVATE LESSONS IN HARPSICHORD. 2 Hours.
This sequence of courses is required of music majors whose concentration is harpsichord. Prerequisite: C or better in MUSI 2267.

MUSI 2300. INTRODUCTION TO WORLD MUSIC. 3 Hours.
The music of Asia, Africa, and Oceania and the native traditions of the Americas; the role of music in the world's societies and non-Western music systems. This course satisfies the University of Texas at Arlington Core Curriculum Requirement in Creative Arts.

MUSI 2301. APPRECIATION OF MUSIC IN FILM. 3 Hours.
A study of the history, compositional styles and impact of music in films during the 20th century. This course satisfies the University of Texas at Arlington Core Curriculum requirement in Creative Arts.

MUSI 2302. MUSIC LITERATURE. 3 Hours. (TCCN = MUSI 1307)
An introduction to music literature of various style periods with an emphasis on reading orchestral scores.

MUSI 2325. THEORY AND HARMONY III. 3 Hours. (TCCN = MUSI 2311)
Modulation, chromatic part writing, and harmonic analysis. Prerequisite: C or better in MUSI 1326.

MUSI 2326. THEORY AND HARMONY IV. 3 Hours. (TCCN = MUSI 2312)
Harmonic, linear, and formal analysis of 19th- and 20th-century compositional techniques. Prerequisite: C or better in MUSI 2325.

MUSI 3101. ITALIAN AND FRENCH DICTION. 1 Hour.
A guide to correct pronunciation of Italian and French in vocal music.

MUSI 3103. VOCAL PEDAGOGY. 1 Hour.
A basic survey of the science of voice culture and the skills and knowledge needed to teach healthy, effective vocal production in school and/or private studio. Prerequisite: C or better in MUSI 2241.

MUSI 3104. VOCAL COACHING. 1 Hour.
Advanced instruction in diction, interpretation, and style for singers and collaborative instrumentalists. This course is designed as a supplement to applied lessons for advanced students. Permission of instructor required.

MUSI 3125. JAZZ THEORY & KEYBOARD FUNDAMENTALS I. 1 Hour.
Basic-to-intermediate jazz concepts including modes, harmony, chord progressions, and their keyboard applications. Prerequisite: C or better in MUSI 1325 (B.M. Music majors), MUSI 1324 (B.A. Music majors), or faculty approval, and C or better in MUSI 1180 or passing grade on basic piano proficiency exam.

MUSI 3126. JAZZ THEORY & KEYBOARD FUNDAMENTALS II. 1 Hour.
Intermediate-to-advanced jazz concepts including modes, harmony, chord progressions, and their keyboard applications. Prerequisite: C or better in MUSI 3125 or faculty approval.

MUSI 3127. COMPUTER COMPOSITION I. 1 Hour.
Course designed to meet the needs of students desiring to become composers or teachers of composition. Prerequisite: C or better in MUSI 1326 and MUSI 3394.

MUSI 3128. COMPUTER COMPOSITION II. 1 Hour.
Course designed to meet the needs of students desiring to become composers or teachers of composition. Prerequisite: C or better in MUSI 3127.

MUSI 3140. PRIVATE LESSONS IN VOICE-MUSICAL THEATRE. 1 Hour.
This sequence of courses is required of students who are pursuing the BFA in Musical Theatre. These courses may not be used as substitute voice lessons for those students pursing a Bachelor of Music degree. Offered as MUSI 3140 and THEA 3140; credit will be granted only in one department. Prerequisite: C or better in MUSI 2141 or THEA 2141. Open to Musical Theatre majors only or by permission of the Department Chair.

MUSI 3141. PRIVATE LESSONS IN VOICE-MUSICAL THEATRE. 1 Hour.
This sequence of courses is required of students who are pursuing the BFA in Musical Theatre. These courses may not be used as substitute voice lessons for those students pursing a Bachelor of Music degree. Offered as MUSI 3141 and THEA 3141; credit will be granted only in one department. Prerequisite: C or better in MUSI 3140 or THEA 3140. Open to Musical Theatre majors only or by permission of the Department Chair.

MUSI 3191. SECONDARY LESSONS IN STRINGS. 1 Hour.
Open only to music majors in the All-Level Instrumental (Orchestra Emphasis) Program. Applied instruction in the fundamentals and techniques specific to string instruments. Taken twice; may not repeat study in any one instrument.
MUSI 3200. MARCHING BAND TECHNIQUES. 2 Hours.
Open to music majors only. A detailed study of the theory and history of marching band presentations.

MUSI 3211. EARLY CHILDHOOD MUSIC. 2 Hours.
Musical characteristics of children, folksong and composed literature, performance activities, song analysis, and techniques for reading and writing music. Open to music majors only. Prerequisite: C or better in MUSI 2186, MUSI 2326, and MUSI 3316.

MUSI 3212. JAZZ TECHNIQUES. 2 Hours.
A study of jazz techniques as they apply to solo and ensemble performance.

MUSI 3213. INSTRUMENTAL MATERIALS AND TECHNIQUES I. 2 Hours.
A study of literature, music selection, rehearsal planning, sound production, and performance practices for beginning and intermediate instrumental ensembles. Prerequisite: C or better in MUSI 4211.

MUSI 3214. CHORAL MATERIALS AND TECHNIQUES I. 2 Hours.
A study of literature, music selection, rehearsal planning, vocal production, and performance practices for beginning and intermediate choral ensembles. Prerequisite: C or better in MUSI 4211 and MUSI 4309.

MUSI 3225. JAZZ IMPROVISATION I. 2 Hours.
The melodic and harmonic foundations of contemporary jazz solo performance. May be repeated for credit as topics change. Prerequisite: C or better in MUSI 3125 or approval of instructor.

MUSI 3226. JAZZ IMPROVISATION II. 2 Hours.
A continuation of Jazz Improvisation I. This course explores advanced techniques of contemporary jazz solo performance. Prerequisite: C or better in MUSI 3225 and MUSI 3126 or faculty approval.

MUSI 3236. PRIVATE LESSONS IN JAZZ GUITAR. 2 Hours.
This sequence of courses meets the requirements of music majors whose concentration is jazz guitar. Prerequisite: C or better in MUSI 2237 and passing grade on the Sophomore Proficiency exam.

MUSI 3237. PRIVATE LESSONS IN JAZZ GUITAR. 2 Hours.
This sequence of courses meets the requirements of music majors whose concentration is jazz guitar. Prerequisite: C or better in MUSI 3236.

MUSI 3238. PRIVATE LESSONS IN JAZZ DRUMSET. 2 Hours.
This sequence of courses meets the requirements of music majors whose concentration is jazz drumset. Prerequisite: C or better in MUSI 2239 and passing grade on Sophomore Proficiency exam.

MUSI 3239. APPLIED INSTRUCTION ON A SECONDARY INSTRUMENT. 2 Hours.
Open to music majors only. Applied instruction that covers the fundamentals and techniques specific to a secondary instrument.

MUSI 3240. PRIVATE LESSONS IN VOICE. 2 Hours.
This sequence of courses is required of music majors whose concentration is voice. Prerequisite: C or better in MUSI 2241 and Passing Grade on Sophomore Proficiency Exam.

MUSI 3241. PRIVATE LESSONS IN VOICE. 2 Hours.
This sequence of courses is required of music majors whose concentration is voice. Prerequisite: C or better in MUSI 3240.

MUSI 3242. PRIVATE LESSONS IN PIANO. 2 Hours.
This sequence of courses is required of music majors whose concentration is piano. Prerequisite: C or better in MUSI 2243 and Passing Grade on Sophomore Proficiency Exam.

MUSI 3243. PRIVATE LESSONS IN PIANO. 2 Hours.
This sequence of courses is required of music majors whose concentration is piano. Prerequisite: C or better in MUSI 3242.

MUSI 3244. PRIVATE LESSONS IN STRINGS. 2 Hours.
This sequence of courses meets the requirements of music majors whose concentration is strings. Prerequisite: C or better in MUSI 2245 and Passing Grade on Sophomore Proficiency Exam.

MUSI 3245. PRIVATE LESSONS IN STRINGS. 2 Hours.
This sequence of courses meets the requirements of music majors whose concentration is strings. Prerequisite: C or better in MUSI 3244.

MUSI 3246. PRIVATE LESSONS IN WOODWINDS. 2 Hours.
This sequence of courses is required of music majors whose concentration is woodwinds. Prerequisite: C or better in MUSI 2247 and Passing Grade on Sophomore Proficiency Exam.

MUSI 3247. PRIVATE LESSONS IN WOODWINDS. 2 Hours.
This sequence of courses is required of music majors whose concentration is woodwinds. Prerequisite: C or better in MUSI 3246.

MUSI 3248. PRIVATE LESSONS IN BRASS. 2 Hours.
This sequence of courses is required of music majors whose concentration is brass. Prerequisite: C or better in MUSI 2249 and Passing Grade on Sophomore Proficiency Exam.

MUSI 3249. PRIVATE LESSONS IN BRASS. 2 Hours.
This sequence of courses is required of music majors whose concentration is brass. Prerequisite: C or better in MUSI 3248.
MUSI 3250. PRIVATE LESSONS IN PERCUSSION. 2 Hours.
This sequence of courses is required of music majors whose concentration is percussion. Prerequisite: C or better in MUSI 2251 and passing grade on Sophomore Proficiency Exam.

MUSI 3251. PRIVATE LESSONS IN PERCUSSION. 2 Hours.
This sequence of courses is required of music majors whose concentration is percussion. Prerequisite: C or better in MUSI 3250.

MUSI 3252. PRIVATE LESSONS IN JAZZ BASS. 2 Hours.
This sequence of courses meets the requirements of jazz studies majors whose concentration is jazz bass. Prerequisite: C or better in MUSI 2253 or MUSI 2145 and MUSI 2147, and passing grade on Sophomore Proficiency Exam.

MUSI 3253. PRIVATE LESSONS IN JAZZ BASS. 2 Hours.
This sequence of courses meets the requirements of jazz studies majors whose concentration is jazz bass. Prerequisite: C or better in MUSI 3252.

MUSI 3254. PRIVATE LESSONS IN JAZZ PIANO. 2 Hours.
This sequence of courses is required of and limited to music majors with jazz option for whom the principal instrument is piano. Prerequisite: C or better in MUSI 2143 and MUSI 2155 and passing grade on Sophomore Proficiency Exam.

MUSI 3255. PRIVATE LESSONS IN JAZZ PIANO. 2 Hours.
This sequence of courses is required of and limited to music majors with jazz option for whom the principal instrument is piano. Prerequisite: C or better in MUSI 3254.

MUSI 3257. PRIVATE LESSONS IN ORGAN. 2 Hours.
This sequence of courses is required of music majors whose concentration is organ. Prerequisite: C or better in MUSI 2258 and passing grade on Sophomore Proficiency Exam.

MUSI 3258. PRIVATE LESSONS IN ORGAN. 2 Hours.
This sequence of courses is required of music majors whose concentration is organ. Prerequisite: C or better in MUSI 3257.

MUSI 3259. PRIVATE LESSONS IN JAZZ DRUMSET. 2 Hours.
This sequence of courses meets the requirements of music majors whose concentration is jazz drumset. Prerequisite: C or better in MUSI 3238.

MUSI 3267. PRIVATE LESSONS IN HARPSCIORD. 2 Hours.
This sequence is required of music majors whose concentration is harpsichord. Prerequisite: C or better in MUSI 2268 and passing grade on Sophomore Proficiency Exam.

MUSI 3268. PRIVATE LESSONS IN HARPSCIORD. 2 Hours.
This sequence is required of music majors whose concentration is harpsichord. Prerequisite: C or better in MUSI 3267.

MUSI 3294. APPLIED PEDAGOGY. 2 Hours.
A study of teaching techniques as they apply to studio or class instruction in applied music. Specific areas of study will change from semester to semester. May be repeated for credit. Prerequisite: Faculty approval.

MUSI 3295. PIANO PEDAGOGY. 2 Hours.
Open to music majors only. Teaching methods of beginning level private and class instruction. Prerequisite: Faculty approval.

MUSI 3300. MUSIC HISTORY I. 3 Hours.
The music of western civilization from ancient times to 1750. Prerequisite: C or better in MUSI 2326 or faculty approval.

MUSI 3301. MUSIC HISTORY II. 3 Hours.
The music of western civilization from 1750 to the present. Prerequisite: C or better in MUSI 2326 or faculty approval.

MUSI 3302. FORM AND ANALYSIS. 3 Hours.
Structure and analysis of the major forms of music literature. Prerequisite: C or better in MUSI 2326 and a passing grade on the Music Theory Proficiency Exam.

MUSI 3303. COUNTERPOINT. 3 Hours.
Overview of modal counterpoint; detailed study of harmonic counterpoint including canon, invention, and fugue. Prerequisite: C or better in MUSI 2326 and a passing grade on the Music Theory Proficiency Exam.

MUSI 3305. MUSIC FOR CHILDREN. 3 Hours.
A study of musical activities and the role of music in childhood. Includes music fundamentals, folk song literature, and musical characteristics of children. Cannot be counted toward a Bachelor of Music Degree.

MUSI 3308. INSTRUMENTAL CONDUCTING I. 3 Hours.
A practical study of basic instrumental conducting and score reading techniques. Open to music majors only. Prerequisites: C or better in MUSI 2186, MUSI 2326 and successful completion of the second semester lessons or above.

MUSI 3309. CHORAL CONDUCTING I. 3 Hours.
A practical study of the technical and expressive skills required of choral conductors, as well as the development of score study techniques and error detection skills necessary to successfully conduct choral ensembles. Open to music majors only. Prerequisites: C or better in MUSI 2186, MUSI 2326 and successful completion of the Sophomore Proficiency Exam.
MUSI 3316. STRATEGIES AND ASSESSMENT IN MUSIC EDUCATION. 3 Hours.
Open to music education majors only. Current trends in music education will be examined. Topics include effective differentiated instruction, positive classroom management, strategies for working with diverse learners, and examination of major learning theories and principles of cognitive, social, emotional, physical and aesthetic development. This course will also examine a variety of assessment techniques that are used in a music classroom. Assessment tools such as rubrics, rating scales, National Standards, TEKS, STAAR, and TEExES will be examined and implemented into lesson planning. Prerequisite: C or better in MUSI 2112.

MUSI 3317. SINGING FOR THE ACTOR. 3 Hours.
An applied study of the vocal apparatus, vocal placement, the voice/body relationship, character, working with text, phrasing, and auditioning as they relate to singing in musical theatre for the Broadway or West End theatre. Emphasis is placed on integrating singing and acting skills. Prerequisites: THEA 1307, THEA 2352 and permission of faculty. Same as offering THEA 3317; may not be repeated and credit will only be granted in one department.

MUSI 3320. MUSIC AND TECHNOLOGY IN GAME AUDIO. 3 Hours.
Explores basics of music and audio for computer games, including composition, workflow, working with animation, and dialog/non-music sound. May be repeated for credit as topics change. Prerequisite: C or better in MUSI 3394 or permission of instructor.

MUSI 3321. KEYBOARD SYNTHESIZER PROGRAMMING AND TECHNIQUES. 3 Hours.
Explores the framework, process, and implementation of electronic music synthesis in composition and performance idioms. Topics covered are electronic sound design, hardware and soft synths.

MUSI 3322. INTRODUCTION TO SONGWRITING. 3 Hours.
Open to music majors only. Addresses strategies, techniques, and the craft of composing popular song. Prerequisite: MUSI 3126 or MUSI 1326.

MUSI 3323. BUSINESS OF MUSIC. 3 Hours.
A study of the structure of the music business and relationships among occupations in the industry. Topics include publishing, copyright licensing, artist management, the record industry, music in film and broadcasting, and career development and planning.

MUSI 3326. POST-TONAL ANALYSIS. 3 Hours.
Study of pitch, harmony, rhythm, & form in music from Debussy to the present. Prerequisite:C or better in MUSI 2186 and MUSI 2326 and passing grade on the Music Theory Proficiency Exam.

MUSI 3350. PRIVATE LESSONS IN VOICE. 3 Hours.
Courses meet the requirements of performance majors in voice. Performance of a junior (half) recital must be completed prior to the end of the 3351 semester. Prerequisite: C or better in MUSI 2241 and passing grade on Sophomore Proficiency exam.

MUSI 3351. PRIVATE LESSONS IN VOICE. 3 Hours.
Courses meet the requirements of performance majors in voice. Performance of a junior (half) recital must be completed prior to the end of the 3351 semester. Prerequisite: C or better in MUSI 3350.

MUSI 3352. PRIVATE LESSONS IN PIANO. 3 Hours.
Courses meet the requirements of performance majors in piano. Performance of a junior (half) recital must be completed prior to the end of the 3353 semester. Prerequisite: C or better in MUSI 2243 and passing grade on Sophomore Proficiency exam.

MUSI 3353. PRIVATE LESSONS IN PIANO. 3 Hours.
Courses meet the requirements of performance majors in piano. Performance of a junior (half) recital must be completed prior to the end of the 3353 semester. Prerequisite: C or better in MUSI 3352.

MUSI 3354. PRIVATE LESSONS IN STRINGS. 3 Hours.
These courses meet the requirements of performance majors in strings. Performance of a junior (half) recital must be completed prior to the end of the 3355 semester. Prerequisite: C or better in MUSI 2245 and passing grade on Sophomore Proficiency exam.

MUSI 3355. PRIVATE LESSONS IN STRINGS. 3 Hours.
These courses meet the requirements of performance majors in strings. Performance of a junior (half) recital is required prior to the end of the 3355 semester. Prerequisite: C or better in MUSI 3354.

MUSI 3356. PRIVATE LESSONS IN WOODWINDS. 3 Hours.
Courses meet the requirements of performance majors in woodwinds. Performance of a junior (half) recital must be completed prior to the end of the 3357 semester. Prerequisite: C or better in MUSI 2247 and passing grade on Sophomore Proficiency Exam.

MUSI 3357. PRIVATE LESSONS IN WOODWINDS. 3 Hours.
Courses meet the requirements of performance majors in woodwinds. Performance of a junior (half) recital must be completed prior to the end of the 3357 semester. Prerequisite: C or better in MUSI 3356.

MUSI 3358. PRIVATE LESSONS IN BRASS. 3 Hours.
Courses meet the requirements of performance majors in brass. Performance of a junior (half) recital must be completed prior to the end of the 3359 semester. Prerequisite: C or better in MUSI 2249 and passing grade on Sophomore Proficiency exam.

MUSI 3359. PRIVATE LESSONS IN BRASS. 3 Hours.
Courses meet the requirements of performance majors in brass. Performance of a junior (half) recital must be completed prior to the end of the 3359 semester. Prerequisite: C or better in MUSI 3358.
MUSI 3360. PRIVATE LESSONS IN PERCUSSION. 3 Hours.
Courses meet the requirements of performance majors in percussion. Performance of a junior (half) recital must be completed prior to the end of the 3361 semester. Prerequisite: C or better in MUSI 2251 and passing grade on Sophomore Proficiency exam.

MUSI 3361. PRIVATE LESSONS IN PERCUSSION. 3 Hours.
Courses meet the requirements of performance majors in percussion. Performance of a junior (half) recital must be completed prior to the end of the 3361 semester. Prerequisite: C or better in MUSI 3360.

MUSI 3367. PRIVATE LESSONS IN ORGAN. 3 Hours.
Courses meet the requirements of performance majors in organ. Performance of a junior (half) recital must be completed prior to the end of the 3368 semester. Prerequisite: C or better in MUSI 2258 and passing grade on Sophomore Proficiency Exam.

MUSI 3368. PRIVATE LESSONS IN ORGAN. 3 Hours.
Courses meet the requirements of performance majors in organ. Performance of a junior (half) recital must be completed prior to the end of the 3368 semester. Prerequisite: C or better in MUSI 3367.

MUSI 3377. PRIVATE LESSONS IN HARPSICHORD. 3 Hours.
Courses meet the requirements of performance majors in harpsichord. Performance of a junior (half) recital must be completed prior to the end of the 3378 semester. Prerequisite: C or better in MUSI 3377.

MUSI 3378. PRIVATE LESSONS IN HARPSICHORD. 3 Hours.
Courses meet the requirements of performance majors in harpsichord. Performance of a junior (half) recital must be completed prior to the end of the 3378 semester. Prerequisite: C or better in MUSI 3377.

MUSI 3390. LINEAR ANALYSIS. 3 Hours.
An introduction to the methods of linear analysis and harmonic reduction. Seminar designed to meet the needs of students desiring to become theorists or teachers of theory. Prerequisite: C or better in MUSI 2186, MUSI 2326, and a passing grade on the Music Theory Proficiency Exam.

MUSI 3391. ADVANCED SONATA THEORY. 3 Hours.
An in-depth examination of sonata form drawing on the concepts of Caplin's formal functions and Hepokoski and Darcy’s sonata theory, including intensive writing and analysis assignments. Seminar designed to meet the needs of students desiring to become theorists or teachers of theory. Prerequisite: C or better in MUSI 2186 and MUSI 2326 and passing grade on the Music Theory Proficiency Exam.

MUSI 3392. COMPOSITION I. 3 Hours.
Individual instruction designed to meet the needs of students desiring to become composers or teachers of composition. Prerequisite: B or better in MUSI 2227, MUSI 2325, MUSI 2326, and MUSI 2186 and a passing grade on the Music Theory Proficiency Exam.

MUSI 3393. COMPOSITION II. 3 Hours.
Individual instruction designed to meet the needs of students desiring to become composers or teachers of composition. Prerequisite: C or better in MUSI 3392.

MUSI 3394. DIGITAL MUSIC TECHNOLOGY. 3 Hours.
An introduction to the computer and to its use in the field of music. Topics include basic computer operation, information-management software, computer-assisted instruction in music, and music notation and sequencing software, MIDI (Musical Instrument Digital Interface).

MUSI 3395. JAZZ COMPOSITION. 3 Hours.
An introduction to jazz composition, focusing on no more than four distinct melodic voices plus rhythm section. Functional and non-functional harmonic and melodic techniques are explored. Prerequisite: C or better in MUSI 3226 or permission of instructor and successful completion of the Jazz Proficiency Exam.

MUSI 3396. TOPICS IN RECORD LABEL AND STUDIO MANAGEMENT I. 3 Hours.
Practical experience in the operations of a functioning record label (UTA Records). Topics include Copyright Law, Music Distribution, and Music Publishing. Prerequisite: Permission of instructor required.

MUSI 3397. TOPICS IN RECORD LABEL AND ARTIST MANAGEMENT II. 3 Hours.
Practical experience in the operations of a functioning record label (UTA Records). Topics include Music Licensing, Artist Management, Music Curation, and Content Creation. Prerequisite: Permission of instructor.

MUSI 4101. GERMAN AND ENGLISH DICTION. 1 Hour.
A guide to correct pronunciation of German and English in vocal music.

MUSI 4102. VOCAL LITERATURE. 1 Hour.
Survey of major solo vocal works from the Classical Era to the present. Prerequisite: C or better in MUSI 2241 or permission of instructor.

MUSI 4111. ORCHESTRAL EXCERPTS. 1 Hour.
Study of orchestral excerpts for individual instruments. Topics will vary by semester. May be repeated for credit. Permission of instructor required.

MUSI 4117. MUSIC EDUCATION FIELD-BASED EXPERIENCE. 1 Hour.
Supervised and directed professional practice in local schools. Weekly seminars are required. Field-based experience must be taken the semester immediately preceding student teaching residency.
MUSI 4128. ADVANCED AUDIO RECORDING. 1 Hour.
Further study and practical studio work for students who have successfully completed the required recording techniques sequence utilizing Studio 301 in an independent study format. Prerequisite: C or better in MUSI 4326.

MUSI 4129. RECORDING ENSEMBLE. 1 Hour.
This course is open to Music Industry Studies students. This ensemble provides practical and artistic experience in a frequently encountered recording studio setting. Prerequisite: C or better in MUSI 4390 or Approval of the ensemble director.

MUSI 4140. PRIVATE LESSONS IN VOICE-MUSICAL THEATRE. 1 Hour.
This sequence of courses is required of students who are pursuing the BFA in Musical Theatre. These courses may not be used as substitute voice lessons for those students pursuing a Bachelor of Music degree. Offered as MUSI 4140 and THEA 4140; credit will be granted only in one department. Prerequisite: C or better in MUSI 3141 or THEA 3141. Open to Musical Theatre majors only or by permission of the Department Chair.

MUSI 4141. PRIVATE LESSONS IN VOICE-MUSICAL THEATRE. 1 Hour.
This sequence of courses is required of students who are pursuing the BFA in Musical Theatre. These courses may not be used as substitute voice lessons for those students pursuing a Bachelor of Music degree. Offered as MUSI 4140 and THEA 4141; credit will be granted only in one department. Prerequisite: C or better in MUSI 4140 or THEA 4140. Open to Musical Theatre majors only or by permission of the Department Chair.

MUSI 4188. ADVANCED CONDUCTING. 1 Hour.
Open to music majors only. An intensive study of conducting that will include score-study techniques, left and right hand independence, video analysis, rehearsal observation, and other topics related to the art of conducting. Can fulfill one of the 3 elective hours for Performance majors. Prerequisite: MUSI 3308 or MUSI 3309, and permission of instructor.

MUSI 4190. KEYBOARD ACCOMPANIMENT. 1 Hour.
This course entails the student accompanying performances as specified and supervised by the instructor.

MUSI 4191. CONFERENCE COURSE. 1 Hour.
Special problems in music. Topic may change from semester to semester. May be repeated for credit. Prerequisite: Consent of the instructor or chair of the department.

MUSI 4205. ADVANCED FUNCTIONAL PIANO. 2 Hours.
Concentrated study of keyboard skills which include: sight reading, transposition, harmonization, and open score reading. Prerequisite: C or better in MUSI 2181 or faculty approval.

MUSI 4211. ELEMENTARY MUSIC. 2 Hours.
Focus on perception as it relates to children's development and participation in music through singing and playing instruments. Prerequisite: C or better in MUSI 3211.

MUSI 4213. INSTRUMENTAL MATERIALS AND TECHNIQUES II. 2 Hours.
A study of literature, music selection, rehearsal planning, sound production, and performance practices for intermediate and advanced instrumental ensembles. Prerequisite: C or better in MUSI 3213.

MUSI 4214. CHORAL MATERIALS AND TECHNIQUES II. 2 Hours.
A study of literature, music selection, rehearsal planning, vocal production, and performance practices for intermediate and advanced choral ensembles. Prerequisite: C or better in MUSI 3214.

MUSI 4225. JAZZ IMPROVISATION III - ADVANCED. 2 Hours.
A continuation of Jazz Improvisation II. This course explores advanced techniques of contemporary jazz solo performance. Prerequisite: C or better in MUSI 3226 and successful completion of the Jazz Proficiency Exam.

MUSI 4236. PRIVATE LESSONS IN JAZZ GUITAR. 2 Hours.
This sequence of courses meets the requirements of music majors whose concentration is jazz guitar. Prerequisite: C or better in MUSI 3237.

MUSI 4238. PRIVATE LESSONS IN JAZZ DRUMSET. 2 Hours.
This sequence of courses meets the requirements of music majors whose concentration is jazz drumset. Prerequisite: C or better in MUSI 3259.

MUSI 4240. PRIVATE LESSONS IN VOICE. 2 Hours.
This sequence of courses is required of music majors whose concentration is voice. Performance of a senior (half) recital is required for completion of this course for all students in the concentration Bachelor of Music in Preparation for Teacher Certification. Prerequisite: C or better in MUSI 3241.

MUSI 4241. PRIVATE LESSONS IN VOICE. 2 Hours.
This sequence of courses is required of music majors whose concentration is voice. Prerequisite: C or better in MUSI 4240.

MUSI 4242. PRIVATE LESSONS IN PIANO. 2 Hours.
This sequence of courses is required of music majors whose concentration is piano. Performance of a senior (half) recital is required for completion of this course for all students in the concentration Bachelor of Music in Preparation for Teacher Certification. Prerequisite: C or better in MUSI 3243.

MUSI 4243. PRIVATE LESSONS IN PIANO. 2 Hours.
This sequence of courses is required of music majors whose concentration is piano. Prerequisite: C or better in MUSI 4242.
MUSI 4244. PRIVATE LESSONS IN STRINGS. 2 Hours.
This sequence of courses meets the requirements of music majors whose concentration is strings. Performance of a senior (half) recital is required for completion of this course for all students in the concentration Bachelor of Music in Preparation for Teacher Certification. Prerequisite: C or better in MUSI 4244.

MUSI 4245. PRIVATE LESSONS IN STRINGS. 2 Hours.
This sequence of courses meets the requirements of music majors whose concentration is strings. Prerequisite: C or better in MUSI 4244.

MUSI 4246. PRIVATE LESSONS IN WOODWINDS. 2 Hours.
This sequence of courses is required of music majors whose concentration is woodwinds. Performance of a senior (half) recital is required for completion of this course for all students in the concentration Bachelor of Music in Preparation for Teacher Certification. Prerequisite: C or better in MUSI 4244.

MUSI 4247. PRIVATE LESSONS IN WOODWINDS. 2 Hours.
This sequence of courses is required of music majors whose concentration is woodwinds. Prerequisite: C or better in MUSI 4246.

MUSI 4248. PRIVATE LESSONS IN BRASS. 2 Hours.
This sequence of courses is required of music majors whose concentration is brass. Performance of a senior (half) recital is required for completion of this course for all students in the concentration Bachelor of Music in Preparation for Teacher Certification. Prerequisite: C or better in MUSI 4247.

MUSI 4249. PRIVATE LESSONS IN BRASS. 2 Hours.
This sequence of courses is required of music majors whose concentration is brass. Prerequisite: C or better in MUSI 4248.

MUSI 4250. PRIVATE LESSONS IN PERCUSSION. 2 Hours.
This sequence of courses is required of music majors whose concentration is percussion. Performance of a senior (half) recital is required for completion of this course for all students in the concentration Bachelor of Music in Preparation for Teacher Certification. Prerequisite: C or better in MUSI 3251.

MUSI 4251. PRIVATE LESSONS IN PERCUSSION. 2 Hours.
This sequence of courses is required of music majors whose concentration is percussion. Prerequisite: C or better in MUSI 4250.

MUSI 4252. PRIVATE LESSONS IN JAZZ BASS. 2 Hours.
This sequence of courses meets the requirements of jazz studies majors whose concentration is jazz bass. Performance of a senior (half) recital is required for completion of this course for all students in the concentration Bachelor of Music in Preparation for Teacher Certification. Prerequisite: C or better in MUSI 3253.

MUSI 4253. PRIVATE LESSONS IN JAZZ BASS. 2 Hours.
This sequence of courses meets the requirements of jazz studies majors whose concentration is jazz bass. Prerequisite: C or better in MUSI 4252.

MUSI 4254. PRIVATE LESSONS IN JAZZ PIANO. 2 Hours.
This sequence of courses is required of and limited to music majors with jazz option for whom the principal instrument is piano. Prerequisite: C or better in MUSI 3255.

MUSI 4257. PRIVATE LESSONS IN ORGAN. 2 Hours.
This sequence of courses is required of music majors whose concentration is organ. Performance of a senior (half) recital is required for completion of this course for all students in the concentration Bachelor of Music in Preparation for Teacher Certification. Prerequisite: C or better in MUSI 4257.

MUSI 4258. PRIVATE LESSONS IN ORGAN. 2 Hours.
This sequence of courses is required of music majors whose concentration is organ. Prerequisite: C or better in MUSI 4257.

MUSI 4267. PRIVATE LESSONS IN HARPSICHORD. 2 Hours.
This sequence is required of music majors whose concentration is harpsichord. Performance of a senior (half) recital is required for completion of this course for all students in the concentration Bachelor of Music in Preparation for Teacher Certification. Prerequisite: C or better in MUSI 3258.

MUSI 4268. PRIVATE LESSONS IN HARPSICHORD. 2 Hours.
This sequence is required of music majors whose concentration is harpsichord. Prerequisite: C or better in MUSI 4267.

MUSI 4270. PRIVATE LESSONS IN VOICE-MUSICAL THEATRE. 2 Hours.
This sequence of courses is required of students who are pursuing the BFA in Musical Theatre. These courses may not be used as substitute voice lessons for those students pursuing a Bachelor of Music Degree. Prerequisite: Permission of advisor.

MUSI 4271. PRIVATE LESSONS IN VOICE-MUSICAL THEATRE. 2 Hours.
This sequence of courses is required of students who are pursuing the BFA in Musical Theatre. These courses may not be used as substitute voice lessons for those students pursuing a Bachelor of Music Degree. Prerequisite: Permission of advisor.

MUSI 4280. SPECIAL TOPICS IN MUSIC. 2 Hours.
Special studies in music. Topics may vary from semester to semester. May be repeated for credit when topics vary.

MUSI 4291. CONFERENCE COURSE. 2 Hours.
Special problems in music. Topic may change from semester to semester. May be repeated for credit. Prerequisite: Consent of the instructor or chair of the department.
MUSI 4300. JAZZ PERSPECTIVES. 3 Hours.
An in-depth study of the history, literature, and styles of the jazz idiom. Open to music majors only. Prerequisite: Successful completion of the Jazz Proficiency Exam.

MUSI 4301. ORCHESTRATION. 3 Hours.
Scoring for strings, woodwinds, brass, percussion, and voice as related to orchestra, band, and choir. Prerequisite: C or better in MUSI 2186, MUSI 2326 and a passing grade on the Music Theory Proficiency Exam.

MUSI 4302. JAZZ ARRANGING. 3 Hours.
Arranging in the jazz and commercial idioms with emphasis on the large jazz ensemble. Prerequisite: C or better in MUSI 3125, MUSI 3225, and MUSI 3395, or consent of the instructor, and successful completion of the Jazz Proficiency Exam.

MUSI 4303. ADVANCED STRING CLASS. 3 Hours.
Open to music majors only. An advanced study of orchestral string instruments with emphasis on advanced technique and pedagogy. Prerequisite: C or better in MUSI 3191.

MUSI 4305. HISTORY OF MUSIC THEORY. 3 Hours.
Theorists and theoretical tracts from the ancient Greeks to the present day. Prerequisite: C or better in MUSI 2186, MUSI 2326, and a passing grade on the Music Theory Proficiency exam.

MUSI 4308. INSTRUMENTAL CONDUCTING II. 3 Hours.
Open to music majors only. A study of advanced conducting techniques, including score reading, rehearsal techniques, ensemble concepts, articulations and musical style. Prerequisite: C or better in MUSI 3308.

MUSI 4309. CHORAL CONDUCTING II. 3 Hours.
Open to music majors only. Application of the technical and expressive aspects of choral conducting, score study techniques, error detection skills, and rehearsal planning and implementation techniques in a laboratory-conducting situation. Offered every spring odd year. Prerequisite: C or better in MUSI 3309.

MUSI 4322. ARTS MANAGEMENT AND ENTREPRENEURSHIP. 3 Hours.
This course is designed as an introduction in arts entrepreneurship and explore creating an artist-based business. Students will examine the breadth of professional opportunities and explore strategies for pursuing them. Prerequisite: MUSI 3323.

MUSI 4324. HISTORY OF MUSICAL THEATRE. 3 Hours.
A historical survey of American theatre music from the colonial period to the present. Open to all students as a fine arts elective.

MUSI 4325. RECORDING TECHNIQUES II. 3 Hours.
Students will continue to learn recording engineering through audio analysis, recording practice, and audio theory. Signal processing, analog tape techniques, mastering, and studio business will be discussed. Students will work independently on jazz and pop/rock recording projects in Studio 301. Prerequisite: C or better in MUSI 4390.

MUSI 4326. RECORDING TECHNIQUES III. 3 Hours.
This course builds upon the previous two courses by introducing students to more advanced aspects of audio engineering, such as combining MIDI and audio, syncing audio to video, advanced aural skills, and mixing automation. Students will be able to utilize Studio 301 and Irons Hall in order to pursue their recording work in a more independent fashion. Prerequisite: C or better in MUSI 4325.

MUSI 4327. TECHNIQUES AND TECHNOLOGY IN FILM COMPOSITION. 3 Hours.
Study in the technical and artistic requirements of film composition and the realization of film scores. Prerequisite: C or better in MUSI 3394.

MUSI 4328. ELECTRONIC MUSIC COMPOSITION AND PERFORMANCE. 3 Hours.
An exploration of strategies for composing electronic music that apply to a broad range of contemporary styles and genres. Through a series of guided exercises and projects, the class provides an opportunity for students to explore compositional approaches using electronic instruments and digital audio technologies. Prerequisite: C or better in MUSI 4325.

MUSI 4329. SOUND FOR NEW MEDIA. 3 Hours.
Explores the techniques and application of audio integration within media-centered environments, focusing on live broadcast audio applications over internet and other mediums for broadcast. Prerequisite: C or better in MUSI 4325.

MUSI 4349. FORMAL-FUNCTION THEORY. 3 Hours.
Introduction to William Caplin's Formal-Function Theory, including mastery of formal functions, harmonic progressions, the principal theme types, and full-movement forms. Seminar designed to meet the needs of students desiring to become theorists or teachers of theory. Prerequisites: C or better in MUSI 2186, MUSI 2326, and a passing grade on the Music Theory Proficiency exam.

MUSI 4350. 20TH CENTURY FORM & TECHNIQUE. 3 Hours.
Introduction to twentieth-century form and techniques, as well as relevant analytical methods and compositional strategies. Seminar designed to meet the needs of students desiring to become theorists or teacher of theory. This course formerly MUSI 4490. Prerequisite: C or better in MUSI 2186 and MUSI 2326 and passing grade on the Music Theory Proficiency Exam.

MUSI 4351. MUSIC THEORY CAPSTONE/SEMINAR. 3 Hours.
Seminar designed to meet the needs of students desiring to become theorists or teachers of theory; includes preparation and presentation of a senior research project in music theory in a conference setting. This course formerly MUSI 4491. Prerequisite: Grade of C or better in MUSI 4390 (formerly MUSI 4490).
MUSI 4387. ANALYSIS OF POPULAR MUSIC. 3 Hours.
This course will explore form, melody, harmony, and voice-leading in a variety of popular styles since the early 20th century. Prerequisite: C or better in MUSI 2326 and a passing grade on the Theory Proficiency exam.

MUSI 4390. RECORDING TECHNIQUES I. 3 Hours.
Live performance and studio recording techniques. Topics include microphone selection and placement, equalization techniques, overdubbing, console-mixing, sound synchronization, and related recording techniques. Prerequisite: C or better in MUSI 3394.

MUSI 4391. CONFERENCE COURSE. 3 Hours.
Special problems in music. Topic may change from semester to semester. May be repeated for credit. Prerequisite: Consent of the instructor or chair of the department.

MUSI 4392. JAZZ STUDIES SENIOR RECITAL/PROJECT. 3 Hours.
Senior recital or project for jazz studies majors. Designed in consultation with the Director of Jazz Studies. Prerequisites: completion of performance lesson requirements; consent of instructor or music department chair.

MUSI 4393. CAPSTONE IN MUSIC THEORY. 3 Hours.
Senior project in music theory, culminating in a professional presentation on a selected topic in music theory. Prerequisite: MUSI 4490.

MUSI 4394. HONORS THESIS/SENIOR PROJECT. 3 Hours.
Required of all students in the University Honors College. During the senior year, the student must complete a thesis or a project under the direction of a faculty member in the major department.

MUSI 4395. INTERNSHIP. 3 Hours.
The Internship course is designed to give students practical experience in a variety of music media and music business settings. The student must work with a local business for at least ten hours per week (140 hours total).

MUSI 4450. PRIVATE LESSONS IN VOICE. 4 Hours.
These courses meet the requirements of performance majors in voice. Performance of a senior (full) recital must be completed prior to the end of the 4451 semester. Prerequisite: C or better in MUSI 3351.

MUSI 4451. PRIVATE LESSONS IN VOICE. 4 Hours.
These courses meet the requirements of performance majors in voice. Performance of a senior (full) recital must be completed prior to the end of the 4451 semester. Prerequisite: C or better in MUSI 4450.

MUSI 4452. PRIVATE LESSONS IN PIANO. 4 Hours.
These courses meet the requirements of performance majors in piano. Performance of a senior (full) recital must be completed prior to the end of the 4453 semester. Prerequisite: C or better in MUSI 3353.

MUSI 4453. PRIVATE LESSONS IN PIANO. 4 Hours.
These courses meet the requirements of performance majors in piano. Performance of a senior (full) recital must be completed prior to the end of the 4453 semester. Prerequisite: C or better in MUSI 4452.

MUSI 4454. PRIVATE LESSONS IN STRINGS. 4 Hours.
These courses meet the requirements of performance majors in strings. Performance of a senior (full) recital must be completed prior to the end of the 4455 semester. Prerequisite: C or better in MUSI 3355.

MUSI 4455. PRIVATE LESSONS IN STRINGS. 4 Hours.
These courses meet the requirements of performance majors in strings. Performance of a senior (full) recital must be completed prior to the end of the 4455 semester. Prerequisite: C or better in MUSI 4454.

MUSI 4456. PRIVATE LESSONS IN WOODWINDS. 4 Hours.
These courses meet the requirements of performance majors in woodwinds. Performance of a senior (full) recital must be completed prior to the end of the 4457 semester. Prerequisite: C or better in MUSI 3357.

MUSI 4457. PRIVATE LESSONS IN WOODWINDS. 4 Hours.
These courses meet the requirements of performance majors in woodwinds. Performance of a senior (full) recital must be completed prior to the end of the 4457 semester. Prerequisite: C or better in MUSI 4456.

MUSI 4458. PRIVATE LESSONS IN BRASS. 4 Hours.
These courses meet the requirements of performance majors in brass. Performance of a senior (full) recital must be completed prior to the end of the 4459 semester. Prerequisite: C or better in MUSI 3359.

MUSI 4459. PRIVATE LESSONS IN BRASS. 4 Hours.
These courses meet the requirements of performance majors in brass. Performance of a senior (full) recital must be completed prior to the end of the 4459 semester. Prerequisite: C or better in MUSI 4458.

MUSI 4460. PRIVATE LESSONS IN PERCUSSION. 4 Hours.
These courses meet the requirements of performance majors in percussion. Performance of a senior (full) recital must be completed prior to the end of the 4461 semester. Prerequisite: C or better in MUSI 3361.
MUSI 4461. PRIVATE LESSONS IN PERCUSSION. 4 Hours.
These courses meet the requirements of performance majors in percussion. Performance of a senior (full) recital must be completed prior to the end of the 4461 semester. Prerequisite: C or better in MUSI 4460.

MUSI 4467. PRIVATE LESSONS IN ORGAN. 4 Hours.
These courses meet the requirements of performance majors in organ. Performance of a senior (full) recital must be completed prior to the end of the 4468 semester. Prerequisite: C or better in MUSI 3368.

MUSI 4468. PRIVATE LESSONS IN ORGAN. 4 Hours.
These courses meet the requirements of performance majors in organ. Performance of a senior (full) recital must be completed prior to the end of the 4468 semester. Prerequisite: C or better in MUSI 4467.

MUSI 4469. PRIVATE LESSONS IN HARPSICHORD. 4 Hours.
This course meets the requirements of performance majors in harpsichord. Performance of a senior (full) recital must be completed prior to the end of the 4478. Prerequisite: C or better in MUSI 4477.

MUSI 4478. PRIVATE LESSONS IN HARPSICHORD. 4 Hours.
These courses meet the requirements of performance majors in harpsichord. Performance of a senior (full) recital must be completed prior to the end of the 4478 semester. Prerequisite: C or better in MUSI 4477.

MUSI 4492. COMPOSITION III. 4 Hours.
Individual instruction designed to meet the needs of students desiring to become composers or teachers of composition. Prerequisite: C or better in MUSI 3393.

MUSI 4493. COMPOSITION IV. 4 Hours.
Individual instruction designed to meet the needs of students desiring to become composers or teachers of composition. Prerequisite: C or better in MUSI 4492.

MUSI 5000. WIND SYMPHONY. 0 Hours.
The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director and the graduate advisor.

MUSI 5001. SYMPHONIC WINDS. 0 Hours.
The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director and the graduate advisor.

MUSI 5002. A CAPPELLA CHOIR. 0 Hours.
The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director and the graduate advisor.

MUSI 5004. UNIVERSITY SINGERS. 0 Hours.
The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

MUSI 5005. MUSICAL THEATRE/OPERA LAB. 0 Hours.
Exploration of opera roles, staging techniques, and repertoire. Prerequisite: Approval of the ensemble director and the graduate advisor.

MUSI 5007. JAZZ ORCHESTRA. 0 Hours.
The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director and the graduate advisor.

MUSI 5008. JAZZ ENSEMBLE. 0 Hours.
The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director and the graduate advisor.

MUSI 5010. STUDIO CLASS. 0 Hours.
Departmental performance classes, master classes, guest artist performances and lectures related to performance specializations. Students enroll concurrently with private lesson in specialization.

MUSI 5011. ORCHESTRA. 0 Hours.
The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director and the graduate advisor.

MUSI 5012. CHAMBER MUSIC. 0 Hours.
This course is an in-depth study of the repertoire of standard chamber ensembles such as string quartets and piano trios, woodwind quintets and brass quintets. Weekly coaching with professors culminates in a public performance where students demonstrate skills in music performance. Prerequisite: Approval of Ensemble Director and Graduate Advisor.

MUSI 5013. ORCHESTRAL EXCERPTS. 0 Hours.
Study of orchestral excerpts for individual instruments. Topics will vary by semester. May be repeated for credit. Permission of instructor required.

MUSI 5022. JAZZ COMBO. 0 Hours.
The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director and the graduate advisor.
MUSI 5100. WIND SYMPHONY. 1 Hour.
The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

MUSI 5101. SYMPHONIC WINDS. 1 Hour.
The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

MUSI 5102. A CAPPELLA CHOIR. 1 Hour.
The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

MUSI 5103. CHAMBER SINGERS. 1 Hour.
The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

MUSI 5104. UNIVERSITY SINGERS. 1 Hour.
The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

MUSI 5106. KEYBOARD ENSEMBLE. 1 Hour.
The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

MUSI 5107. JAZZ ORCHESTRA. 1 Hour.
The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

MUSI 5108. JAZZ ENSEMBLE. 1 Hour.
The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

MUSI 5109. VOCAL JAZZ. 1 Hour.
The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

MUSI 5110. JAZZ COMBO. 1 Hour.
The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

MUSI 5111. ORCHESTRA. 1 Hour.
The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

MUSI 5112. CHAMBER MUSIC. 1 Hour.
This course is an in-depth study of the repertoire of standard chamber ensembles such as string quartets and piano trios, woodwind quintets and brass quintets. Weekly coaching with professors culminates in a public performance where students demonstrate skills in music performance. Prerequisite: Approval of Ensemble Director.

MUSI 5113. ORCHESTRAL EXCERPTS. 1 Hour.
Study of orchestral excerpts for individual instruments. Topics will vary by semester. May be repeated for credit. Permission of instructor required.

MUSI 5114. SAX CHOIR. 1 Hour.
The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Permission of Instructor.

MUSI 5115. VOCAL COACHING. 1 Hour.
Advanced instruction in diction, interpretation, and style for singers and collaborative instrumentalists. By permission of instructor.

MUSI 5116. ELECTRIC GUITAR ENSEMBLE. 1 Hour.
The music major must receive credit for the ensembles required in his/her option. The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

MUSI 5117. MUSIC EDUCATION FIELD-BASED EXPERIENCE. 1 Hour.
Supervised and directed professional practice in local schools. The student will be assigned to a public school site for five hours per week. Weekly seminars are required. This course must be taken the semester immediately preceding clinical student teaching.

MUSI 5118. PERCUSSION ENSEMBLE. 1 Hour.
The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Permission of Instructor.

MUSI 5120. PRIVATE LESSONS IN VOICE. 1 Hour.
This course provides private instruction in voice. This course may be repeated for credit as often as course content changes.

MUSI 5121. PRIVATE LESSONS IN PIANO. 1 Hour.
This course provides private instruction in piano. This course may be repeated for credit as often as course content changes.

MUSI 5122. PRIVATE LESSONS IN ORGAN. 1 Hour.
This course provides private instruction in organ. This course may be repeated for credit as often as course content changes.

MUSI 5123. PRIVATE LESSONS IN HARPSTICHORD. 1 Hour.
This course provides private instruction in harpsichord. This course may be repeated for credit as often as course content changes.

MUSI 5124. PRIVATE LESSONS IN JAZZ PIANO. 1 Hour.
This course provides private instruction in jazz piano. This course may be repeated for credit as often as course content changes.

MUSI 5125. PRIVATE LESSONS IN VIOLIN. 1 Hour.
This course provides private instruction in violin. This course may be repeated for credit as often as course content changes.
MUSI 5126. PRIVATE LESSONS IN VIOLA. 1 Hour.
This course provides private instruction in violin. This course may be repeated for credit as often as course content changes.

MUSI 5127. PRIVATE LESSONS IN CELLO. 1 Hour.
This course provides private instruction in cello. This course may be repeated for credit as often as course content changes.

MUSI 5128. PRIVATE LESSONS IN BASS. 1 Hour.
This course provides private instruction in bass. This course may be repeated for credit as often as course content changes.

MUSI 5129. PRIVATE LESSONS IN JAZZ BASS. 1 Hour.
This course provides private instruction in jazz bass. This course may be repeated for credit as often as course content changes.

MUSI 5130. PRIVATE LESSONS IN GUITAR. 1 Hour.
This course provides private instruction in guitar. This course may be repeated for credit as often as course content changes.

MUSI 5131. PRIVATE LESSONS IN CLARINET. 1 Hour.
This course provides private instruction in clarinet. This course may be repeated for credit as often as course content changes.

MUSI 5132. PRIVATE LESSONS IN OBOE. 1 Hour.
This course provides private instruction in oboe. This course may be repeated for credit as often as course content changes.

MUSI 5133. PRIVATE LESSONS IN FLUTE. 1 Hour.
This course provides private instruction in flute. This course may be repeated for credit as often as course content changes.

MUSI 5134. PRIVATE LESSONS IN SAXOPHONE. 1 Hour.
This course provides private instruction in saxophone. This course may be repeated for credit as often as course content changes.

MUSI 5135. PRIVATE LESSONS IN BASSOON. 1 Hour.
This course provides private instruction in bassoon. This course may be repeated for credit as often as course content changes.

MUSI 5136. PRIVATE LESSONS IN TRUMPET. 1 Hour.
This course provides private instruction in trumpet. This course may be repeated for credit as often as course content changes.

MUSI 5137. PRIVATE LESSONS IN FRENCH HORN. 1 Hour.
This course provides private instruction in trumpet. This course may be repeated for credit as often as course content changes.

MUSI 5138. PRIVATE LESSONS IN TROMBONE. 1 Hour.
This course provides private instruction in trombone. This course may be repeated for credit as often as course content changes.

MUSI 5139. PRIVATE LESSONS IN TUBA. 1 Hour.
This course provides private instruction in tuba. This course may be repeated for credit as often as course content changes.

MUSI 5140. PRIVATE LESSONS IN EUPHONIUM. 1 Hour.
This course provides private instruction in euphonium. This course may be repeated for credit as often as course content changes.

MUSI 5145. PRIVATE LESSONS IN JAZZ DRUMSET. 1 Hour.
This course provides private instruction in jazz drumset. This course may be repeated for credit as often as course content changes.

MUSI 5150. PEDAGOGY IN MUSIC THEORY. 1 Hour.
Survey of materials and methods for teaching music theory at the undergraduate level. Observation of teaching methods and supervision of undergraduate teaching.

MUSI 5160. FLUTE CHOIR. 1 Hour.
The music major must receive credit for the ensembles required in his/her option. The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

MUSI 5161. WOODWIND ENSEMBLE. 1 Hour.
The music major must receive credit for the ensembles required in his/her option. The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

MUSI 5171. ELECTIVE PERFORMANCE. 1 Hour.
For students who desire elective private instruction in string, woodwinds, brass, keyboard, voice, or percussion.

MUSI 5188. ADVANCED CONDUCTING. 1 Hour.
Open to music majors only. An intensive study of conducting that will include score-study techniques, left and right hand independence, video analysis, rehearsal observation, and other topics related to the art of conducting. Permission of instructor required. Prerequisite: Permission of instructor.

MUSI 5190. KEYBOARD ACCOMPANIMENT. 1 Hour.
This course entails the student accompanying performances as specified and supervised by the instructor.

MUSI 5191. CONFERENCE COURSE IN MUSIC. 1 Hour.
Special problems in music. Topic may change from semester to semester. May be repeated for credit. Prerequisite: permission of instructor and Graduate Advisor.

MUSI 5205. MUSIC THEATRE/OPERA LAB. 2 Hours.
Exploration of opera roles, staging techniques, and repertoire. Prerequisite: Approval of the ensemble director.
MUSI 5211. EARLY CHILDHOOD MUSIC. 2 Hours.
Musical characteristics of children, folksong and composed literature, performance activities, song analysis, and techniques for reading and writing music.

MUSI 5212. ELEMENTARY MUSIC. 2 Hours.
Focus on perception as it relates to children's development and participation in music through singing and playing instruments.

MUSI 5213. CHORAL MATERIALS AND TECHNIQUES I. 2 Hours.
A study of literature, music selection, rehearsal planning, vocal production, and performance practices for beginning and intermediate choral ensembles.

MUSI 5214. CHORAL MATERIALS AND TECHNIQUES II. 2 Hours.
A study of literature, music selection, rehearsal planning, vocal production, and performance practices for intermediate and advanced choral ensembles.

MUSI 5215. INSTRUMENTAL MATERIALS AND TECHNIQUES I. 2 Hours.
A study of literature, music selection, rehearsal planning, sound production, and performance practices for beginning and intermediate instrumental ensembles.

MUSI 5216. INSTRUMENTAL MATERIALS AND TECHNIQUES II. 2 Hours.
A study of literature, music selection, rehearsal planning, sound production, and performance practices for intermediate and advanced instrumental ensembles.

MUSI 5220. PRIVATE LESSONS IN VOICE. 2 Hours.
This course provides private instruction in voice. This course may be repeated for credit as often as course content changes.

MUSI 5221. PRIVATE LESSONS IN PIANO. 2 Hours.
This course provides private instruction in piano. This course may be repeated for credit as often as course content changes.

MUSI 5222. PRIVATE LESSONS IN ORGAN. 2 Hours.
This course provides private instruction in organ. This course may be repeated for credit as often as course content changes.

MUSI 5223. PRIVATE LESSONS IN HARPSICHORD. 2 Hours.
This course provides private instruction in harpsichord. This course may be repeated for credit as often as course content changes.

MUSI 5224. PRIVATE LESSONS IN JAZZ PIANO. 2 Hours.
This course provides private instruction in jazz piano. This course may be repeated for credit as often as course content changes.

MUSI 5225. PRIVATE LESSONS IN VIOLIN. 2 Hours.
This course provides private instruction in violin. This course may be repeated for credit as often as course content changes.

MUSI 5226. PRIVATE LESSONS IN VIOLA. 2 Hours.
This course provides private instruction in viola. This course may be repeated for credit as often as course content changes.

MUSI 5227. PRIVATE LESSONS IN CELLO. 2 Hours.
This course provides private instruction in cello. This course may be repeated for credit as often as course content changes.

MUSI 5228. PRIVATE LESSONS IN BASS. 2 Hours.
This course provides private instruction in bass. This course may be repeated for credit as often as course content changes.

MUSI 5229. PRIVATE LESSONS IN JAZZ BASS. 2 Hours.
This course provides private instruction in jazz bass. This course may be repeated for credit as often as course content changes.

MUSI 5230. PRIVATE LESSONS IN GUITAR. 2 Hours.
This course provides private instruction in guitar. This course may be repeated for credit as often as course content changes.

MUSI 5231. PRIVATE LESSONS IN CLARINET. 2 Hours.
This course provides private instruction in clarinet. This course may be repeated for credit as often as course content changes.

MUSI 5232. PRIVATE LESSONS IN OBOE. 2 Hours.
This course provides private instruction in oboe. This course may be repeated for credit as often as course content changes.

MUSI 5233. PRIVATE LESSONS IN FLUTE. 2 Hours.
This course provides private instruction in flute. This course may be repeated for credit as often as course content changes.

MUSI 5234. PRIVATE LESSONS IN SAXOPHONE. 2 Hours.
This course provides private instruction in saxophone. This course may be repeated for credit as often as course content changes.

MUSI 5235. PRIVATE LESSONS IN BASSOON. 2 Hours.
This course provides private instruction in bassoon. This course may be repeated for credit as often as course content changes.

MUSI 5236. PRIVATE LESSONS IN TRUMPET. 2 Hours.
This course provides private instruction in trumpet. This course may be repeated for credit as often as course content changes.

MUSI 5237. PRIVATE LESSONS IN FRENCH HORN. 2 Hours.
This course provides private instruction in French horn. This course may be repeated for credit as often as course content changes.

MUSI 5238. PRIVATE LESSONS IN TROMBONE. 2 Hours.
This course provides private instruction in trombone. This course may be repeated for credit as often as course content changes.
MUSI 5239. PRIVATE LESSONS IN TUBA. 2 Hours.
This course provides private instruction in tuba. This course may be repeated for credit as often as course content changes.

MUSI 5240. PRIVATE LESSONS IN EUPHONIUM. 2 Hours.
This course provides private instruction in euphonium. This course may be repeated for credit as often as course content changes.

MUSI 5241. PRIVATE LESSONS IN PERCUSSION. 2 Hours.
This course provides private instruction in percussion. This course may be repeated for credit as often as course content changes.

MUSI 5242. PRIVATE LESSONS IN IMPROVISATION. 2 Hours.
This course provides private instruction in improvisation. This course may be repeated for credit as often as course content changes.

MUSI 5245. PRIVATE LESSONS IN JAZZ DRUMSET. 2 Hours.
This course provides private instruction in jazz drumset. This course may be repeated for credit as often as course content changes.

MUSI 5271. ELECTIVE LESSONS. 2 Hours.
For students who desire elective private instruction in strings, woodwinds, brass, keyboard, voice, or percussion. May be repeated eight times for credit.

MUSI 5291. CONFERENCE COURSE IN MUSIC. 2 Hours.
Special problems in music. Topic may change from semester to semester. May be repeated for credit. Prerequisite: permission of instructor and Graduate Advisor.

MUSI 5301. FORM AND STYLE ANALYSIS. 3 Hours.
A survey of the forms and styles of Western art music employing relevant analytical techniques.

MUSI 5302. THEORY & COMPOSITION SPECIAL TOPICS. 3 Hours.
This course covers topics which vary from semester to semester, and includes in-depth study of selected topics in music theory. This course may be repeated for credit as often as the content changes. (Formerly MUSI 5330.)

MUSI 5303. ADVANCED COUNTERPOINT. 3 Hours.
Advanced work in specialized areas of counterpoint.

MUSI 5305. HISTORY OF MUSIC THEORY. 3 Hours.
Theorists and theoretical tracts from the ancient Greeks to the present day.

MUSI 5308. MUSIC HISTORY SELECTED TOPICS. 3 Hours.
This course will consist of an in-depth study of a particular genre, composer, or period. It may be repeated as the course content changes.

MUSI 5316. STRATEGIES AND ASSESSMENT IN MUSIC EDUCATION. 3 Hours.
Open to music education majors only. Current trends in music education will be examined. Topics include effective differentiated instruction, positive classroom management, strategies for working with diverse learners, and examination of major learning theories and principles of cognitive, social, emotional, physical and aesthetic development. This course will also examine a variety of assessment techniques that are used in a music classroom. Assessment tools such as rubrics, rating scales, National Standards, TEKS, STAAR, and TExES will be examined and implemented into lesson planning.

MUSI 5320. PRIVATE LESSONS IN VOICE. 3 Hours.
This course provides private instruction in voice. This course may be repeated for credit as often as course content changes.

MUSI 5321. PRIVATE LESSONS IN PIANO. 3 Hours.
This course provides private instruction in piano. This course may be repeated for credit as often as course content changes.

MUSI 5322. PRIVATE LESSONS IN ORGAN. 3 Hours.
This course provides private instruction in organ. This course may be repeated for credit as often as course content changes.

MUSI 5323. PRIVATE LESSONS IN HARPSCICHORD. 3 Hours.
This course provides private instruction in harpsichord. This course may be repeated for credit as often as course content changes.

MUSI 5324. PRIVATE LESSONS IN JAZZ PIANO. 3 Hours.
This course provides private instruction in jazz piano. This course may be repeated for credit as often as course content changes.

MUSI 5325. PRIVATE LESSONS IN VIOLIN. 3 Hours.
This course provides private instruction in violin. This course may be repeated for credit as often as course content changes.

MUSI 5326. PRIVATE LESSONS IN VIOLA. 3 Hours.
This course provides private instruction in viola. This course may be repeated for credit as often as course content changes.

MUSI 5327. PRIVATE LESSONS IN CELLO. 3 Hours.
This course provides private instruction in cello. This course may be repeated for credit as often as course content changes.

MUSI 5328. PRIVATE LESSONS IN BASS. 3 Hours.
This course provides private instruction in bass. This course may be repeated for credit as often as course content changes.

MUSI 5329. PRIVATE LESSONS IN JAZZ BASS. 3 Hours.
This course provides private instruction in jazz bass. This course may be repeated for credit as often as course content changes.
MUSI 5332. PRIVATE LESSONS IN OBOE. 3 Hours.
This course provides private instruction in oboe. This course may be repeated for credit as often as course content changes.

MUSI 5333. PRIVATE LESSONS IN FLUTE. 3 Hours.
This course provides private instruction in flute. This course may be repeated for credit as often as course content changes.

MUSI 5334. PRIVATE LESSONS IN SAXOPHONE. 3 Hours.
This course provides private instruction in saxophone. This course may be repeated for credit as often as course content changes.

MUSI 5335. PRIVATE LESSONS IN BASSOON. 3 Hours.
This course provides private instruction in bassoon. This course may be repeated for credit as often as course content changes.

MUSI 5336. PRIVATE LESSONS IN TRUMPET. 3 Hours.
This course provides private instruction in trumpet. This course may be repeated for credit as often as course content changes.

MUSI 5337. PRIVATE LESSONS IN FRENCH HORN. 3 Hours.
This course provides private instruction in French Horn. This course may be repeated for credit as often as course content changes.

MUSI 5338. PRIVATE LESSONS IN TROMBONE. 3 Hours.
This course provides private instruction in trombone. This course may be repeated for credit as often as course content changes.

MUSI 5339. PRIVATE LESSONS IN TUBA. 3 Hours.
This course provides private instruction in tuba. This course may be repeated for credit as often as course content changes.

MUSI 5340. PRIVATE LESSONS IN EUPHONIUM. 3 Hours.
This course provides private instruction in euphonium. This course may be repeated for credit as often as course content changes.

MUSI 5341. PRIVATE LESSONS IN PERCUSSION. 3 Hours.
This course provides private instruction in percussion. This course may be repeated for credit as often as course content changes.

MUSI 5342. PRIVATE LESSONS IN IMPROVISATION. 3 Hours.
This course provides private instruction in improvisation. This course may be repeated for credit as often as course content changes.

MUSI 5343. PRIVATE LESSONS IN GUITAR. 3 Hours.
This course provides private instruction in guitar. This course may be repeated for credit as often as course content changes.

MUSI 5344. PRIVATE LESSONS IN CLARINET. 3 Hours.
This course provides private instruction in clarinet. This course may be repeated for credit as often as course content changes.

MUSI 5345. PRIVATE LESSONS IN JAZZ DRUMSET. 3 Hours.
This course provides private instruction in jazz drumset. This course may be repeated for credit as often as course content changes.

MUSI 5347. PRIVATE LESSONS IN COMPOSITION. 3 Hours.
Individual instruction designed to meet the needs of students desiring to become composers or teachers of composition.

MUSI 5348. PRIVATE LESSONS IN JAZZ COMPOSITION. 3 Hours.
This course provides private instruction in jazz composition and/or arranging. This course may be repeated for credit as often as course content changes.

MUSI 5349. FORMAL-FUNCTION THEORY. 3 Hours.
Introduction to William Caplin's Formal-Function Theory, including mastery of formal functions, harmonic progressions, the principal theme types, and full-movement forms.

MUSI 5350. SELECTED TOPICS IN MUSIC PEDAGOGY. 3 Hours.
This course covers topics which vary from semester to semester and includes studies of teaching techniques applied to pre-K, elementary grades, the junior high school, the high school, the junior college, and the college or university. This course may be repeated for credit as often as the content changes.

MUSI 5351. PHILOSOPHY, HISTORY, AND CURRICULAR TRENDS IN MUSIC EDUCATION. 3 Hours.
A study of philosophy and history of music education and how curricular trends provide the context for contemporary music education.

MUSI 5352. PSYCHOLOGICAL FOUNDATIONS OF MUSIC EDUCATION. 3 Hours.
A study of the psychological foundations of music education. An investigation of topics such as perception of and responses to music, the nature of musical attributes, music learning, and the measurement of musical behavior.

MUSI 5353. PROJECT IN MUSIC EDUCATION. 3 Hours.
For students enrolled in the non-thesis option. Offers the opportunity to complete a professional project in music education relevant to the student's background, interest, and/or needs. The project should include, but not necessarily be limited to, appropriate written documentation. May be repeated for credit, but not more than 3 hours will apply to the Master of Music degree. Enrollment is required each term in which the project is in progress.

MUSI 5354. SELECTED TOPICS IN MUSIC LITERATURE. 3 Hours.
This course covers topics which vary from semester to semester and includes studies in musical literature for the following: 1) Wind Band Literature; 2) Orchestral Literature; 3) Choral Literature; 4) World Music Literature; 5) Jazz Literature. This course may be repeated for credit as often as the content changes.
MUSI 5355. REHEARSAL TECHNIQUES. 3 Hours.
A study of rehearsal techniques, including tone development, phrasing, rehearsal score study, and rehearsal organization. Topics, which may vary by semester, are 1) Choral; 2) Instrumental; 3) Jazz. May be repeated for credit when topics vary. Topics may be taken concurrently.

MUSI 5356. ORCHESTRAL EXCERPTS. 3 Hours.
Study of orchestral excerpts for individual instruments. Topics will vary by semester. May be repeated for credit. Permission of instructor required.

MUSI 5357. CURRENT TRENDS IN MUSIC EDUCATION. 3 Hours.
Current trends, social foundations and issues in music education.

MUSI 5358. TEACHING MUSIC IN HIGHER EDUCATION. 3 Hours.
Components of successful teaching in higher education will be explored. Topics will include developing a syllabus, creating a vitae, and preparing a lecture.

MUSI 5359. ADVANCED DICTION FOR SINGERS. 3 Hours.
A study of performance diction for singers and the pronunciation of the language as it applies to public performance. Topics include English, French, Italian, and German. May be repeated for credit when topics vary.

MUSI 5360. ADVANCED TECHNOLOGY FOR MUSICIANS. 3 Hours.
Intensive and extensive student-centered study topics to be selected from MIDI sequencing, multimedia development, advanced music notation and digital sampling and synthesis.

MUSI 5361. EARLY CHILDHOOD MUSIC. 3 Hours.
Practical application in authentic early childhood experiences.

MUSI 5362. INTRODUCTION TO RESEARCH IN MUSIC. 3 Hours.
An introduction to the methods and materials of research in music, including instruction on appropriate style formats for papers and theses.

MUSI 5363. RESEARCH IN MUSIC EDUCATION. 3 Hours.
An introduction to historical, philosophical, descriptive, and experimental research in music education and present research practices in music education.

MUSI 5364. ASSESSMENT IN MUSIC EDUCATION. 3 Hours.
Assessment techniques that are appropriate to music study will be reviewed and examined. The focus will include interpreting standardized test results and the development of appropriate and effective measurement tools to use in music classrooms.

MUSI 5365. MEANING & REPRESENTATION IN MUSIC. 3 Hours.
This course will explore the basic questions of meaning in music, including the question of whether or not music can truly have meaning at all. Students will explore various philosophical, scientific, and musical (i.e. from composers and performers) viewpoints through readings, discussion, and writing.

MUSI 5366. JAZZ STYLE AND ANALYSIS. 3 Hours.
An in depth examination of the improvisational techniques used by prominent jazz musicians. Topics will include transcription and theoretical analysis over different periods and styles in jazz.

MUSI 5371. PEDAGOGY OF MUSIC HISTORY. 3 Hours.
Survey and practice materials and methods for teaching music history at the K-12 level.

MUSI 5387. ANALYSIS OF POPULAR MUSIC. 3 Hours.
This course will explore form, melody, harmony, and voice-leading in a variety of popular styles since the early 20th century.

MUSI 5388. 20TH CENTURY FORM & TECHNIQUE. 3 Hours.
Introduction to twentieth-century form and techniques, as well as relevant analytical methods and compositional strategies.

MUSI 5389. POST-TONAL ANALYSIS. 3 Hours.
Study of pitch, harmony, rhythm, & form in music from Debussy to the present.

MUSI 5390. LINEAR ANALYSIS. 3 Hours.
An introduction to the methods of linear analysis and harmonic reduction. Seminar designed to meet the needs of students desiring to become theorists or teachers of theory.

MUSI 5391. CONFERENCE COURSE IN MUSIC. 3 Hours.
Special problems in music. Topic may change from semester to semester. May be repeated for credit. Prerequisite: Permission of instructor and Graduate Advisor.

MUSI 5392. ADVANCED SONATA THEORY. 3 Hours.
An in-depth examination of sonata form drawing on the concepts of Caplin's formal functions and Hepokoski and Darcy's sonata theory, including intensive writing and analysis assignments.

MUSI 5393. CONDUCTING. 3 Hours.
Applied lessons in conducting. This course is an in-depth study of conducting technique as applied to choral or instrumental ensembles. It may be repeated for credit as the content changes.

MUSI 5398. THESIS. 3 Hours.
The graduate student must be registered for MUSI 5398 when in consultation over the thesis with the advisor or supervisory committee. Prerequisite: MUSI 5363 or MUSI 5362.
MUSI 5698. THESIS. 6 Hours.
The graduate student must be registered for MUSI 5698 in the semester or term in which the Master of Music degree will be conferred. Prerequisite: MUSI 5398.
Music - Graduate Programs

Graduate Programs in Music

The University of Texas at Arlington Department of Music features intensive programs in Music Education, Music Performance, Conducting, Jazz Studies, Jazz Composition, and Music Theory as well as a Performance Certificate in all instruments, conducting, and voice types. Located in the heart of a culturally vibrant metropolitan area, UT Arlington is perfectly situated to help students realize their educational and career goals. Large enough to offer a broad range of opportunities, but small enough to value you as an individual, we're sure you'll find UT Arlington the right place to study your craft.

Fellowships

Fellowships, when available, will be awarded on a competitive basis. The Graduate Advisor should be notified of your interest in these fellowships at the time of your application. Nominees for the Graduate School Master’s Fellowship in Music will be selected based on the following criteria:

• Candidates must be new students entering in the fall semester, with a minimum of 9 hours of enrollment in both long semesters to retain their fellowships.
• The minimum undergraduate GPA requirement is 3.00, as calculated by the Graduate School, plus a GPA of 3.0 for any graduate credit hours.
• Transcript of a completed bachelor’s degree in music from an accredited institution (or its demonstrated equivalent).
• Three letters of recommendation

Master of Music in Music Education

ADMISSION REQUIREMENTS

The Department of Music has the following requirements for entry into the Master of Music in Music Education degree program.

Unconditional Admission

Requirements for unconditional admission into the program are:

a. Three letters of recommendation speaking to the student’s potential for success from references familiar with the student’s academic background.
b. Philosophy of Music Education (no more than 2 pages-typed).
c. A minimum 3.0 GPA in the last 60 hours of undergraduate work as calculated by Graduate Admissions.
d. Bachelor’s degree in music or its demonstrated equivalent.
e. Submitted application to the Department of Music (see the departmental website (https://www.uta.edu/music/) for more information).

Probationary Status

A student showing a deficiency in any of the above criteria and showing promise for successful graduate study may still be admitted on a probationary basis upon the recommendation of the Graduate Studies Committee. The conditions of the probation will be outlined in the letter of admission. (The Music Department does not have the authority to lower University TOEFL score requirements for any student.)

Provisional Admission

An applicant unable to supply all required documentation prior to the admission deadline but who otherwise appears to meet admission requirements may be granted provisional admission.

Denied Admission

An applicant can be denied admission based on the recommendation of the Graduate Studies Committee. Applicants may reapply for admission if the deficiencies in credentials that led to denial are remedied.

Deferred Admission

A deferred decision may be granted when a file is incomplete or when a denied decision is not appropriate.

TOEFL Requirement

Applicants whose native language is not English must demonstrate proficiency in English by earning a total score of at least 79 on the internet-based Test of English as a Foreign Language examination (TOEFL iBT).

Those who do not meet the English proficiency requirement must satisfactorily complete courses in the ESOL area, as approved by the program and the Graduate Admissions.
DEGREE REQUIREMENTS

The program is designed for the student who has a Bachelor’s degree in music. A minimum of 30 semester hours is required if the student chooses to write a thesis. If the student chooses not to write a thesis, a minimum of 36 semester hours is required. Advisory examinations in music history and written theory may be administered to all students prior to enrollment or during their first semester as a degree-seeking student.

Non-Thesis Option

Coursework for the program includes:

No more than two (2) semester hours of music ensembles may be counted toward the degree.

Total Hours 30

*Students who write a thesis will work closely with one or more members of the graduate faculty from the Department of Music on a research project in a specialized area of interest within the music education field. The student must register for MUSI 5398 when in consultation over the thesis with the advisor or supervisory committee. Students will receive a grade of R (Research in Progress), F (Fail), or W (Withdrawn). These hours do not count towards the degree hours.

Master of Music

ADMISSION REQUIREMENTS

The Department of Music has the following requirements for entry into the Master of Music degree program.

Unconditional Admission

a. Bachelor’s degree in music or its demonstrated equivalent (such as a music conservatory degree).
b. Three letters of recommendation are required, speaking to the student’s potential for success from references familiar with the student’s academic background.
c. A minimum 3.0 GPA in the last 60 hours of undergraduate work as calculated by the Graduate Admissions.
d. Submitted application to the Department of Music (see the departmental website for more information).

All admission criteria will be considered equally. Students meeting all the criteria, plus any track-specific requirements, will be granted unconditional admission.

Probationary Status

A student showing a deficiency in any of the above criteria and showing promise for successful graduate study may still be admitted on a probationary basis upon the recommendation of the Graduate Studies Committee. The conditions of the probation will be outlined in the letter of admission. (The Music Department does not have the authority to lower University TOEFL score requirements for any student.)

Provisional Admission

An applicant unable to supply all required documentation prior to the admission deadline but who otherwise appears to meet admission requirements may be granted provisional admission.

Denied Admission

An applicant can be denied admission based on the recommendation of the Graduate Studies Committee. Applicants may reapply for admission if the deficiencies in credentials that led to denial are remedied.

Deferred Admission

A deferred decision may be granted when a file is incomplete or when a denied decision is not appropriate.

Tracks are offered in Music Performance, Jazz Studies, Jazz Composition, Music Theory, and Conducting. The program is designed for the student who has a Bachelor’s degree in music.

TOEFL Requirement

Applicants whose native language is not English must demonstrate proficiency in English by earning a total score of at least 79 on the Test of English as a Foreign Language internet-based examination (TOEFL iBT).

Those who do not meet the English proficiency requirement must satisfactorily complete courses in the ESOL area, as approved by the program and Graduate Admissions.

Advisory examinations in music history and written theory may be administered to all students prior to enrollment or during their first semester as a degree-seeking student.

MUSIC PERFORMANCE TRACK (INSTRUMENTAL AND VOCAL)

In addition to the general admission requirements, applicants for the Music Performance Track must perform the following:

a. Applicants must audition (in person or by submitting a tape or video link) with repertoire of at least college senior recital level. A repertoire list must be submitted for evaluation at the time of the audition. For further information, contact the Graduate Advisor.

Total Hours 34

Jazz Composition Track

In addition, to the general admission requirements, applicants for the Jazz Composition Track must submit the following:

a. A portfolio of works, to include at least two (2) but not more than four (4) scores and recordings representing the applicant’s best work. At least two of these should be in the jazz genre. Live recordings are preferred: MIDI recordings are discouraged but will be accepted as a last resort. At least one of the works should be scored for a large jazz ensemble (ten or more performers). Links to both scores and audio files housed online for the included pieces (via SoundCloud, DropBox, etc.) should be sent in an email to the graduate advisor. Please do not attach the files in the email.

b. A performance audition is also required on your primary jazz instrument. Applicants should prepare two jazz pieces in contrasting styles and tempos, with at least one jazz standard included. A pianist will be available to accompany you, or you may arrange for your own accompaniment (such as a play-along recording). Stereo equipment may be provided but only upon advance notice by the applicant.

Coursework for the program includes:

Required Courses

MUSI 5308  Music history selected topics 3
MUSI 5366  Jazz style and analysis 3
MUSI 5362  Introduction to research in music 3
MUSI 5355  Rehearsal techniques 3
4 semesters of Applied Study (MUSI 5348) with the last semester including a full length public performance/recital, which may serve as a thesis. 12

Electives

Select 6 credit hours from the following:

MUSI 3394  Digital music technology
MUSI 4327  Techniques and technology in film composition
MUSI 5112  Chamber music (maximum of 3 repeats)
MUSI 5308  Music history selected topics (may be counted once as an elective if core requirement is met and the course is taken with a different emphasis)
MUSI 5350  Selected topics in music pedagogy
MUSI 5360  Advanced technology for musicians (MUSI 53XX (Applied lessons on a Jazz Instrument))
MUSI 5365  Meaning & representation in music
MUSI 5388  20th century form & technique
MUSI 53XX (Applied lessons on a Jazz Instrument)

Choose 3 credit hours from the following (may be repeated):

MUSI 5107  Jazz orchestra
MUSI 5108  Jazz ensemble
MUSI 5110  Jazz combo

Total Hours 33

Music Theory Track

In addition, to the general admission requirements, applicants for the Music Theory Track must submit the following:

a. Samples of writing (minimum 2; at least 1 should have substantial analytical content).

b. Statement of purpose (max. 250 words).
c. Applicants must take Theory and History Proficiency exams upon admission. Students needing remedial work will be required to enroll in MUSI 5301 FORM AND STYLE ANALYSIS and/or MUSI 5354 SELECTED TOPICS IN MUSIC LITERATURE, as appropriate.*

* Piano Proficiency exam will be administered before, and as a condition of, graduation from the Masters program. Students are encouraged to enroll in Keyboard lessons as appropriate to prepare for these.

Coursework for the program includes:

Total Hours 34

Final Master’s Examination

A final program examination is required of all Master of Music degree candidates. A final Master’s examination may result in:

a. An unconditional pass with a recommendation to the Graduate Dean that the candidate be certified to receive the degree.
b. A conditional pass with the requirement that additional conditions be met, which may include further work on the thesis or thesis substitute, additional coursework with a minimum specified grade point average or both (in all cases the final master’s examination must be repeated within a specified period).
c. Failure, with permission to be re-examined within a specified period; or
d. Failure, with recommendation to the Dean of Graduate Studies that the candidate be dismissed from the program. The Music Department limits to 2 the number of times the examination can be taken.

Admission Requirements

Certificate Admission Requirements

Students wishing to enroll only in the certificate program but not a graduate degree program may apply for admission to UT Arlington as a special student (non-degree seeking). Admission requires an undergraduate degree in music or its demonstrated equivalent and would be contingent upon an audition for a minimum of two faculty members. Students in this certificate program who later seek graduate degrees at UT Arlington may apply 12 hours of certificate coursework within six years of completion and award of the certificate, if they meet the admission requirements for the graduate degree and receive approval from the appropriate Graduate Studies Committee and the Dean of Graduate Studies. Admission as a special student in no way guarantees subsequent unconditional admission into a graduate program or into the Graduate School.
TOEFL Requirement
Applications whose native language is not English must demonstrate proficiency in English by earning a total score of at least 79 on the Test of English as a Foreign Language internet-based test (TOEFL iBT).

Certificate in Performance
The Certificate in Performance requires 15 hours of coursework, including 4 semesters of lessons with the last semester including a full-length recital, and three semesters of a Major Ensemble or a combination of a Major Ensemble or Keyboard Accompaniment (for Keyboard Players only). It is currently available for all instruments and voice types:

<table>

**Total Hours** 15
Music - Undergraduate Programs

Overview

The University of Texas at Arlington is a member of the National Association of Schools of Music.

The Department of Music offers the Bachelor of Music degree (1) in preparation for E.C.-12 teacher certification; (2) in Performance (woodwind, brass, percussion, keyboard, strings, or voice); (3) in Theory; (4) in Composition; (5) in Jazz Studies; (6) in Music/Business; and (7) in Audio Production and a Bachelor of Arts degree in Music Industry Studies. Music students must meet all the requirements of one of these specializations to receive the Bachelor of Music degree. All degree plans leading to a Bachelor of Music degree include offerings which provide a solid foundation in music theory, history, and literature and require a concentration in a specific instrument/voice. The music department also offers a Bachelor of Arts in Music Industry Studies that requires the student to meet all of the requirements for that specialization.

The mission of the UT Arlington Department of Music is to create an environment in which individuals are inspired to become innovative and creative musical leaders by offering integrated curricular content, skill development, and exceptional programming relevant to a culturally diverse urban community.

The Music Department's goals and objectives for academic and artistic enrichment of the university and the extended community include: (1) offering curricula leading to a baccalaureate degree and graduate programs that provide students with the opportunity to realize their inherent musical potential, (2) offering degree options that recognize and nurture students' abilities and talents to make contributions of excellence in the fields of music, and (3) preparing students for further graduate study and/or professional careers in music by meeting curricula criteria, performance standards, and academic expectations.

All prospective music majors must audition for proper placement in their respective performance areas and take a music theory placement test. Information concerning auditions and placement tests is available in the Music Office. Students returning after two long semesters away from University must re-audition and be re-admitted to the department. Exceptions are if student has previously completed all required private lessons and recitals.

All Bachelor of Music majors are required to pass the sophomore proficiency exam on their major instrument. For transfer students who transfer in at least four semesters of lessons and meet the proficiency requirements, the audition may serve as the proficiency exam. For transfer students who do not meet the necessary proficiency requirements, they will be enrolled in MUSI 2223 for applied lessons. Transfer students may take MUSI 2223 for as many semesters as they have transfer credits from another institution.

For example, if a student transfers in four semesters of lessons, they may take MUSI 2223 up to four times, but they may attempt the proficiency exam at the end of any semester if they are ready. If a transfer student transfers in three semesters of lessons, they may be placed in the fourth semester of the lesson sequence or in MUSI 2223. The lesson sequence is defined as the required list of applied lessons required under an individual student's degree plan. That student could take MUSI 2223 a total of three times or, with instructor approval, could move to the fourth semester of lessons after one or two semester(s) of MUSI 2223. Once a transfer student enters the lesson sequence, they are no longer eligible for placement in MUSI 2223.

Students can only attempt the proficiency exam two times. If they fail the sophomore proficiency exam the first time (either in MUSI 2223 or MUSI 22XX), they will receive a grade of Incomplete (I) for the semester, and they will be required to enroll in MUSI 2222 the following semester. At the end of MUSI 2222, students will be required to attempt the proficiency exam for a last time. If students do not successfully pass the proficiency exam, they will not be allowed to remain a Bachelor of Music major. If they pass the second attempt at the sophomore proficiency, their grade for fourth-semester lessons (MUSI 22XX) or preparatory lessons (MUSI 2223) will be changed to the grade earned in their first attempt at 22XX/2223. If the student fails their second attempt at the sophomore proficiency, their grade for fourth-semester lessons (MUSI 22XX) or preparatory lessons (MUSI 2223) will automatically be changed to “F.”

All students wishing to pursue the Bachelor of Music Degree with the Jazz Studies Option must pass the jazz performance proficiency exam upon completion of MUSI 3226. Students can attempt the proficiency exam two times. Students failing to pass the jazz proficiency exam on the second attempt will not be permitted to continue in the Jazz Studies Option. Successful completion of the jazz proficiency exam is a prerequisite for enrollment in:

<table>

</tr>
</tbody>
</table>
An audition or permission of the instructor is required for all large ensembles. All University students, regardless of major, are permitted to audition for and participate in all music department ensembles: concert bands, marching band, jazz ensembles, choirs, and orchestra.

All Bachelor of Music students are required to pass the Theory Proficiency exam.

All Bachelor of Music students are required to enroll in a large ensemble each semester in residence. Any student not enrolled in a large ensemble by the end of Late Registration will be given a warning and advised to do so, and students that are still not registered in a large ensemble after Census date may be removed from the music program and required to re-audition in a subsequent semester in order to be re-admitted. Ensembles that meet this requirement, as well as any minimum requirements for number(s) of semester in specific ensembles, are determined by each degree plan. Residence is defined as any semester that a student is enrolled in any private lesson section or enrolled in 6 or more semester hours at the university, except during student teaching or music industry studies internship.

All students are strongly urged to refer to the sections on Academic Regulations and Degree Programs in the current UT Arlington Undergraduate Catalog. Students seeking teacher certification should read the College of Education section of this catalog concerning admission to teacher education programs and state requirements for certification.

In addition to fulfilling University and the College of Liberal Arts requirements for admission to a degree program, students planning to be music majors must also fulfill the listed Music Department requirements.

Students must receive a C or better in all music courses in order to graduate. If a student does not earn a C or better, it may not count as a prerequisite for any other course.

If a student fails the same music degree-required course three times (making a D or F), the student must receive a C or better in their fourth attempt of the class or be dismissed from the Music program. They will not be permitted to take the course for credit at UT Arlington in subsequent semesters.

Students should expect, in addition to attending weekly private lessons, a minimum preparation (individual practice) of five hours per week in courses granting two hours credit, 10 hours per week in courses granting three hours credit, and 12 hours per week in courses granting four hours credit.

Bachelor of Music Students must complete their lesson sequence before they can take elective lessons (MUSI 0171 or MUSI 0271) on their primary instrument.

All private instruction, except MUSI 0171 or MUSI 0271, requires a jury.

Music majors must complete a minimum of 36 hours at the 3000/4000 level, at least 24 of which must be in music.

Those music courses available to non-music majors are indicated in the course description. Individual instruction courses are open in limited numbers to all University students.

### Oral Communication and Computer Use Competence Requirements

Students majoring in music are required to demonstrate computer use and oral communication competencies.

Computer use proficiency can be demonstrated by:

a. successful completion of MUSI 3394; or

b. successful completion of CSE 1301 or INSY 2303 INTRODUCTION TO M.I.S. AND DATA PROCESSING; or

c. passing the University computer use competency exam.

Oral communication proficiency can be demonstrated by:

a. successful completion of MUSI 3308 or MUSI 3309; or

b. successful completion of one of the following:

Students should discuss these options with their undergraduate advisor who may also provide a list of other courses approved by the University of meet these requirements.

### Requirements for a Minor in Music

Eighteen hours of music, six hours of which must be 3000/4000 level.
Philosophy, Classics, and Humanities

Undergraduate Degrees

- Bachelor of Arts in Philosophy. (http://catalog.uta.edu/liberalarts/philosophy/undergraduate/#bachelorstext/#bageneral)
- Bachelor of Arts in Philosophy (Pre-Law Option). (http://catalog.uta.edu/liberalarts/philosophy/undergraduate/#bachelorstext/#baprelaw)
- Bachelor of Arts in Philosophy (Mind, Language, and Cognition Option). (http://catalog.uta.edu/liberalarts/philosophy/undergraduate/#bachelorstext/#bamind)
- Bachelor of Arts in Philosophy (Philosophy and Classics Option). (http://catalog.uta.edu/liberalarts/philosophy/undergraduate/#bachelorstext/#baphilosophy)
- Minor in Philosophy (p. 1080), Minor in Classical Studies (p. 854), or Minor in Medical Humanities and Bioethics (p. 980)

COURSES

PHIL 1301. FUNDAMENTALS OF REASONING. 3 Hours.
This course is an introduction to critical thinking, which is a process of identifying, analyzing, evaluating, and constructing reasoning as found in texts, media, politics, and everyday personal interactions. Students will be introduced to what constitutes good reasoning through a range of topics including: formal logic; fallacious reasoning; cognitive biases; reasoning with probability, statistics, and numbers; and guarding against disinformation.

PHIL 1304. CONTEMPORARY MORAL PROBLEMS. 3 Hours. (TCCN = PHIL 2306)
Examination of ethical problems and theories which have a bearing on contemporary life. Texts may include both classical and contemporary ethical writings and deal with problems such as the conditions under which life may be taken (abortion, capital punishment, medical ethics), business ethics, social justice, and individual rights.

PHIL 2300. INTRODUCTION TO PHILOSOPHY. 3 Hours. (TCCN = PHIL 1301)
An examination of one or more basic problems of lasting interest to philosophers. Typical problems may include human nature and limits of knowledge. Formerly listed as PHIL 1300. Credit cannot be received for both PHIL 1300 and PHIL 2300.

PHIL 2311. LOGIC. 3 Hours. (TCCN = PHIL 2303)
The development of formal and symbolic systems (categorical, propositional, and predicate) for the analysis of arguments.

PHIL 2312. ETHICS. 3 Hours.
Ethics is the philosophical study of morality. This course is an introduction to the main normative ethical theories, such as theological voluntarism, utilitarianism, and Kantianism. A normative ethical theory provides an answer to the question, "What is it that makes right acts right?.

PHIL 2313. PHILOSOPHY OF THE ARTS. 3 Hours.
Problems in the philosophy of art and art criticism; the history of aesthetic theory.

PHIL 2314. PERSPECTIVES ON SCIENCE AND MATHEMATICS. 3 Hours.
Topics and episodes in the history of science and mathematics from a philosophical point of view. Students are brought to understand that science has a fascinating history, is underpinned by deep philosophical presuppositions, and depends upon special social and cultural factors for its continued growth and revision.

PHIL 2315. TOPICS IN PHILOSOPHY. 3 Hours.
In-depth treatment of philosophical topics or movements, such as Existentialism, Philosophy of Science Fiction, Brain and Mind, Asian Philosophy. May be repeated for credit as content changes.

PHIL 2316. COMPUTATION, MIND, AND PARADOX. 3 Hours.
A philosophical and historical introduction to the foundations of logic and mathematics, the psychology of reasoning, and the computational theory of mind. Topics may include: logic, set theory, axiom systems; number and infinity; fallacies of deductive and probabilistic reasoning; Bayesian epistemology; algorithms; artificial intelligence, computational theories of mind and brain.

PHIL 3301. HISTORY OF PHILOSOPHY: ANCIENT PHILOSOPHY. 3 Hours.
The beginning and the early developments of the western philosophical tradition. Ancient Greek philosophy, basically the Pre-Socratics, Socrates, Plato and Aristotle.

PHIL 3302. HISTORY OF PHILOSOPHY: ROMAN AND MEDIEVAL PHILOSOPHY. 3 Hours.
Post-Aristotelians (e.g., the later Stoics, the Epicureans, Neo-Platonists); philosophy of the early Church Fathers through Aquinas and later Scholastics.

PHIL 3303. HISTORY OF PHILOSOPHY: RENAISSANCE AND EARLY MODERN EUROPEAN PHILOSOPHY. 3 Hours.
The philosophical views of Galileo, Newton, Bacon, and Hobbes, the Continental Rationalists and British Empiricists, and a brief introduction to the philosophy of Immanuel Kant.

PHIL 3304. HISTORY OF PHILOSOPHY: NINETEENTH AND EARLY TWENTIETH CENTURY PHILOSOPHY. 3 Hours.
Major philosophers from Kant to the early 20th century.

PHIL 3307. SEMINAR IN RESEARCH METHODS AND PHILOSOPHICAL WRITING. 3 Hours.
Examination of philosophical methodology; philosophical analysis, philosophical writing, discipline-specific bibliographic tools, etc. Students write a series of short papers on topics of interest. Prerequisite: PHIL 2311 and one other PHIL course.
PHIL 3315. EXISTENTIALISM. 3 Hours.
Readings in existentialist philosophy and literature with a special emphasis on such themes as alienation, anxiety, the self, absurdity, value, freedom, and responsibility. Texts may include writings from Kierkegaard, Nietzsche, Heidegger, Sartre, Camus, de Beauvoir, Jaspers, and others.

PHIL 3316. PHILOSOPHY OF RELIGION. 3 Hours.
Problems that engage philosophy of religion (e.g., the existence of God, theodicy, religious language) and the way these problems have been treated by some outstanding Western thinkers.

PHIL 3317. PHILOSOPHICAL LOGIC. 3 Hours.
Beginning with predicate calculus and includes such topics as definite descriptions, identity, modal logic, second-order logic, set theory, philosophy of logic and mathematics, and philosophical applications of logic. Prerequisite: PHIL 2311 or consent of the instructor.

PHIL 3318. THE PHILOSOPHY OF SCIENCE AND TECHNOLOGY. 3 Hours.
The method and goals of scientific scholars and inquiry. The distinction between formal and empirical sciences, laws and theories, measurement, the role of observation and experiment, and probability. Formerly listed as PHIL 4315. Credit cannot be received for both PHIL 4315 and PHIL 3318.

PHIL 3319. BIOMEDICAL ETHICS. 3 Hours.
Major ethical problems which arise in modern medicine and in medical/biological research (euthanasia, abortion, patient-physician relations, allocations of medical resources, genetic research, etc.).

PHIL 3320. PHILOSOPHY OF LAW. 3 Hours.
Examination of the types of law, legal concepts, legal reasoning, and the legal process. Topics may include the nature of law; the moral limits of the criminal law; legal rights; liberty, justice, and equality; punishment; responsibility; the private law (property, contract, and tort); constitutional law; and feminist jurisprudence.

PHIL 3321. PHILOSOPHY OF LANGUAGE. 3 Hours.
Topics to be investigated include the nature of language and communication; the distinction between natural and artificial language; the traditional division of the field into syntax, semantics, and pragmatics; and such specialized subtopics as meaning, reference, truth, and speech acts. Completion of PHIL 2311 is recommended, but not required.

PHIL 3322. DISABILITY ETHICS. 3 Hours.
Explores the philosophical literature pertaining to disability and disabled experiences. Topics include defining disability, healthcare allocation, de-institutionalization, assisted dying and euthanasia, and the ethics of genetic and reproductive technologies. Offered as PHIL 3322 and DS 3322; credit will only be granted once.

PHIL 3324. BUSINESS ETHICS. 3 Hours.
Selected ethical issues in business, such as the nature and moral status of capitalism; corporate moral agency and responsibility; issues and challenges in the workplace (e.g., civil liberties, personnel policies, unionization, privacy, and safety); moral choices facing employees (e.g., loyalty, insider trading, and whistleblowing); job discrimination (e.g., affirmative action, comparable worth, and sexual harassment); consumer protection; environmental protection; and globalization.

PHIL 3330. SOCIAL AND POLITICAL PHILOSOPHY. 3 Hours.
Investigation of the basis (if any) of political obligation. Analysis of social and political concepts, such as equality, liberty, rights, and justice. Discussion of social and political theories, such as anarchism, contractarianism, Marxism, and conservatism.

PHIL 3340. TOPICS IN APPLIED ETHICS. 3 Hours.
Investigation of a single moral issue or a cluster of issues that arise in the context of a particular profession. Examples of the former are abortion, punishment, freedom of speech, the environment, and the moral status of animals. Examples of the latter are business ethics, legal ethics, engineering ethics, nursing ethics, and computer ethics. May be repeated for credit as content changes.

PHIL 3341. TOPICS IN BIOETHICS. 3 Hours.
Investigation of a single moral issue or a cluster of issues that arise in the context of the medical profession. Examples of possible topics are resource allocation, surrogate decision-making, the philosophy of mental illness, research ethics, reproductive ethics, and end of life care. May be repeated for credit as content changes. Prior completion of PHIL 3319 (Biomedical Ethics) is strongly recommended, but not required.

PHIL 3350. TOPICS IN ANCIENT GREEK PHILOSOPHY. 3 Hours.
An in-depth examination of a particular figure or topic in the field of ancient Greek philosophy. Works studied may include those of the Pre-Socratics, Plato, Aristotle, Hellenistic, and Neoplatonic philosophers.

PHIL 3390. HONORS COLLOQUIUM. 3 Hours.
An interdisciplinary course designed to meet the needs of advanced undergraduates in the Honors College.

PHIL 4191. UNDERGRADUATE CONFERENCE COURSE. 1 Hour.
Topics assigned on an individual basis covering research of individual students or study in designated areas. May be repeated for credit.

PHIL 4192. CONFERENCE COURSE IN BIOETHICS. 1 Hour.
This course is an independent study offering students an opportunity for in-depth study of a specific topic in bioethics. Requires permission of the department chair and the instructor.

PHIL 4291. UNDERGRADUATE CONFERENCE COURSE. 2 Hours.
Topics assigned on an individual basis covering research of individual students or study in designated areas. May be repeated for credit.
PHIL 4292. CONFERENCE COURSE IN BIOETHICS. 2 Hours.
This course is an independent study offering students an opportunity for in-depth study of a specific topic in bioethics. Requires permission of the department chair and the instructor.

PHIL 4318. PHILOSOPHY AND LITERATURE. 3 Hours.
The role of ideas in literature and an analysis of the actual contacts between philosophy and the dominant world views of the great writers of literature.

PHIL 4380. PHENOMENOLOGY. 3 Hours.
Phenomenology is a major philosophical movement based on the methodically controlled description of conscious experience, as uncovered at first introspectively. This course focuses on (1) the origin of the movement in common epistemological problems arising in philosophy, psychology, mathematics, and the natural sciences, (2) the development of the movement's method, and (3) a close study of some influential phenomenologists, including Husserl, Sartre, and Merleau-Ponty. Contemporary connections to the neuroscientific study of consciousness are also explored.

PHIL 4383. PHILOSOPHY OF MIND. 3 Hours.
This course is a non-exhaustive survey of topics central to contemporary analytic philosophy of mind: the mind/body problem, functionalism, consciousness, intentionality, mental causation, and perception. Readings include work by figures such as Smart, Armstrong, Putnam, Block, Kripke, Chalmers, and Siegel. Evaluation will likely involve some subset of: a midterm examination, short papers, a more substantial research project, and a final examination, on each of which students will be assessed for conceptual clarity, communicative economy, and critical reasoning.

PHIL 4385. THEORY OF KNOWLEDGE. 3 Hours.
Problems which arise from attempts to give an account of human knowledge. Skepticism, perception, induction, or the nature of truth. Note: Although there are no prerequisites for this course, students who have had no previous philosophy courses may find the material difficult.

PHIL 4386. METAPHYSICS. 3 Hours.
Problems which arise from attempts to give an account of reality and its manifestations. Possibility and necessity, causality, the nature of events, mind-body, and universals. Note: Although there are no prerequisites for this course, students who have had no previous philosophy courses may find the material difficult.

PHIL 4387. TOPICS IN VALUE THEORY. 3 Hours.
In-depth treatment of an issue or topic within value theory, which is broadly construed to include moral philosophy (and its subfields, such as moral epistemology and moral psychology), social philosophy, political philosophy, philosophy of law, aesthetics, philosophy of religion, and feminist philosophy. May be repeated for credit with permission of the department.

PHIL 4388. TOPICS IN THE HISTORY OF PHILOSOPHY. 3 Hours.
In-depth treatment of a single important philosophical writer, a related group of writers, or an extended tradition. May be repeated for credit with permission of the department.

PHIL 4389. TOPICS IN PHILOSOPHY AND THE SOCIAL SCIENCES. 3 Hours.
In-depth treatment of one or more of the social sciences from a philosophical perspective: may include the philosophy of history, social philosophy, political philosophy, philosophy of the social sciences, or any specific subject therein. Credit may not be granted for PHIL 4311 or PHIL 4317 (no longer offered) and PHIL 4389. May be repeated for credit with permission of the department.

PHIL 4391. UNDERGRADUATE CONFERENCE COURSE. 3 Hours.
Topics assigned on an individual basis covering research of individual students or study in designated areas. May be repeated for credit.

PHIL 4392. CONFERENCE COURSE IN BIOETHICS. 3 Hours.
This course is an independent study offering students an opportunity for in-depth study of a specific topic in bioethics. Requires permission of the department chair and the instructor.

PHIL 4394. SENIOR THESIS. 3 Hours.
During the senior year, the student completes a thesis under the direction of a faculty member in the major department. Required of all pre-professional track philosophy majors and of all philosophy majors who are members of the University Honors College.

PHIL 5391. CONFERENCE COURSE IN PHILOSOPHY. 3 Hours.
May be taken only with the permission of the instructor and Graduate Advisor.

PHIL 5392. TOPICS IN THE HISTORY OF PHILOSOPHY. 3 Hours.
Consideration in depth of the work of a single philosopher or a related philosophical school against the background of the development of philosophy. May be repeated for credit as the topic changes.

PHIL 5393. PHILOSOPHICAL PERSPECTIVES ON THE HUMANITIES. 3 Hours.
A philosophical inquiry into problems and issues of relevance in humanistic disciplines. May be repeated for credit as the topic changes.

PHIL 6389. SEMINAR IN PHILOSOPHICAL ANALYSIS. 3 Hours.
Seminar-style treatment of some major problem in contemporary philosophy. May be repeated for credit as the topic changes.

PHIL 6394. TOPICS IN SYSTEMATIC PHILOSOPHY. 3 Hours.
In-depth treatment of an issue or issues in metaphysics, epistemology, ethics, aesthetics or related subdisciplinary areas. May be repeated for credit as the topic changes.
Philosophy, Classics, and Humanities - Undergraduate and Certificate Programs

Overview

A major in philosophy is built on the central texts in the history of Western thought. Philosophy focuses on the perennial problems raised by the encounter of human beings with their history, culture, and the world. It emphasizes methods of analysis and clarity of argumentation. Students who major in philosophy have the broadest possible preparation in the liberal arts.

Students who complete a major in philosophy are prepared to enter either graduate programs or the world of work. In addition to providing vocational skills and a solid foundation for graduate work in the discipline, a major in philosophy constitutes appropriate and strong preparation for graduate work in other academic disciplines as well as in professional programs in a broad variety of fields. The Department of Philosophy and Humanities is prepared to work with students who are interested in postgraduate professional education to assure that their preparation meets disciplinary and/or professional criteria and expectations in areas including law, business administration, and theology. The faculty of the Department of Philosophy and Humanities also work with advisors in the Health Professions Advising Office of the College of Science to ensure that philosophy majors pursuing a pre-medical curriculum are kept abreast of required and recommended courses outside the major.

Requirements for Admission to a Major in Philosophy

Students should have completed 30 hours of core with 30 hours at UT Arlington, or 40 hours of core with 12 hours at UT Arlington with an overall GPA greater than 2.0. Before being accepted into the major in philosophy, students must also have passed a course in symbolic logic (PHIL 2311 LOGIC or the equivalent). Students may be accepted as pre-philosophy majors if the above standards are not met.

Requirements for a Minor in Philosophy

A minor in philosophy requires 18 semester hours, at least six of which must be 3000/4000 level.

Requirements for a Minor in Classical Studies

A minor in classical studies requires at least 18 semester hours, at least six of which must be 3000/4000 level, in approved classical studies courses. There are three options for the classical studies minor: Greek Language, Latin Language, Classical Civilization, and Ancient Studies.

Requirements for a Minor in Medical Humanities and Bioethics

A minor in medical humanities and bioethics requires 18 hours. There are three required courses: HUMA 3300, PHIL 3319, and the student's choice from a list of Disability Studies courses.

Requirements for the Certificate in Ethics

The certificate in ethics requires at least 15 semester hours in approved ethics courses.

Requirements for the Certificate in Medical Humanities

The certificate in medical humanities requires at least 12 semester hours in approved courses.

Undergraduate Advising

All philosophy majors are directed in their program by a designated undergraduate advisor. In addition, the following special advisors are available:

Graduate Work in Philosophy: Majors who are interested in graduate work in philosophy should consult the departmental graduate advisor during their junior year.

Pre-Law: Majors who intend to apply to law school will find courses in logic, philosophy of law, political philosophy, and ethics particularly useful. Interested students should consult the Philosophy/Pre-law faculty advisor for assistance in course selection and application procedures.

Philosophy/Business Administration Minor: It is possible to combine the philosophy major with a business administration minor in preparation for admission to the UT Arlington MBA program. (See Liberal Arts Major/Business Administration Minor section in the introduction of the College of Liberal Arts.) The Philosophy/Business Administration faculty advisor will assist students in coordinating their program and meeting admissions requirements either at UT Arlington or other schools.

Pre-Theological: Majors who plan to enter a school of theology should consider a minor in classics and foreign language preparation in Greek and/ or Latin. Electives in ethics and philosophy of religion are particularly recommended. Interested students should consult the Philosophy/Pre-ministerial faculty advisor for additional assistance.
**Pre-Medical:** A departmental faculty advisor is available to assist majors who intend to apply to medical school. The major program will be coordinated with the Health Professions Advising Office of the College of Science.

**Oral Communication Competency**

Students majoring in philosophy may demonstrate competency in oral communication by

a. successful completion of a specific course approved by the Department of Philosophy and Humanities for this purpose, or
b. successful completion of any course from among those approved by the Undergraduate Assembly.

**Computer Use Competency**

Students majoring in philosophy may demonstrate competency in computer use by

a. successful completion of PHIL 3307 SEMINAR IN RESEARCH METHODS AND PHILOSOPHICAL WRITING, or
b. successful completion of any course from among those approved by the Undergraduate Assembly for this purpose, or

c. passing the University proficiency examination in computer use.

**REQUIREMENTS FOR A BACHELOR OF ARTS DEGREE IN PHILOSOPHY**

**Pre-Professional Courses**

- **General Core Requirements** (p. 47)
- **Core Courses Required for this Major**
  - UNIV 1131 STUDENT SUCCESS 1
  - ENGL 1301 RHETORIC AND COMPOSITION I 3
  - ENGL 1302 RHETORIC AND COMPOSITION II 3

**Program Requirements**

- Modern and Classical Languages: 1441 and 1442 8
- Electives sufficient to complete the 120 credit hours required for the degree. 30

**Professional Courses**

- **Major**
  - PHIL 2300 INTRODUCTION TO PHILOSOPHY 3
  - PHIL 2311 LOGIC 3
  - PHIL 3301 HISTORY OF PHILOSOPHY: ANCIENT PHILOSOPHY (Students may substitute PHIL 3302 or PHIL 3350) 3
  - PHIL 3303 HISTORY OF PHILOSOPHY: RENAISSANCE AND EARLY MODERN EUROPEAN PHILOSOPHY (Students may substitute PHIL 3304 or PHIL 4388) 3
  - PHIL 3307 SEMINAR IN RESEARCH METHODS AND PHILOSOPHICAL WRITING 3
  - Additional PHIL hours (18 hours, with at least twelve hours at the 3000 or 4000 level) 18

**Total Hours** 120

* In consultation with the undergraduate philosophy advisor and in light of individual aims and interests, students are to select electives concentrated primarily in one or two areas of secondary emphasis—for example, business, classical studies, cognitive science, computer science engineering, history, humanities/liberal arts, mathematics, or political science.

**Requirements for a Bachelor of Arts Degree in Philosophy (Pre-Law Option)**

Students interested in the Pre-Law Option must complete the requirements for the Bachelor of Arts degree in philosophy, while selecting their elective course work in consultation with the Philosophy/Pre-Law faculty advisor. Recommended philosophy courses for the Pre-Law Option include

- PHIL 1301 FUNDAMENTALS OF REASONING 3
- PHIL 1304 CONTEMPORARY MORAL PROBLEMS 3
- PHIL 2312 ETHICS 3
- PHIL 3317 PHILOSOPHICAL LOGIC 3
- PHIL 3318 THE PHILOSOPHY OF SCIENCE AND TECHNOLOGY 3
- PHIL 3319 BIOMEDICAL ETHICS 3
- PHIL 3320 PHILOSOPHY OF LAW 3

(Students who intend to apply to graduate school may elect to complete the requirements for the Bachelor of Arts degree in philosophy, with the minor in linguistics and elective course work in psychology.)

**Requirements for a Bachelor of Arts Degree in Philosophy (Philosophy and Classics Option)**

Students interested in the Philosophy and Classics Option typically complete the requirements for the Bachelor of Arts degree in Philosophy, with a minor in Classical Studies, and are required to fulfill their language requirement with Latin; with advisors' approval, students may choose to substitute Greek, French or German. Specific major, minor and elective courses should be selected in consultation with the philosophy undergraduate advisor and the director of Classical Studies.

**Minor in Philosophy**

18 hours, at least six of which must be 3000/4000 level.

**Minor in Classical Studies**

The Minor in Classical Studies (p. 854) requires 18 hours, at least six of which must be 3000/4000 level. There are four options for the classical studies minor: Greek Language, Latin Language, Classical Civilization, and Ancient Studies. Interested students must consult with the advisor to determine which courses are required for each option.
Minor in Medical Humanities and Bioethics

The Minor in Medical Humanities and Bioethics requires 18 hours. There are three required courses: HUMA 3300, PHIL 3319, and the student's choice from the listed Disability Studies courses.

Certificate in Ethics

To receive the certificate, a student must complete five courses from the following list:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHIL 1304</td>
<td>CONTEMPORARY MORAL PROBLEMS</td>
<td>3</td>

</table>

Certificate in Medical Humanities

To receive the certificate, a student must complete HUMA 3300 and three courses from an approved list. Students can count toward the certificate no more than two courses from a single department. At least two courses must be from the College of Liberal Arts.
Political Science

Undergraduate Degrees

• Bachelor of Arts in Political Science (p. 1095)
• Minor in Political Science (p. 1097)
• Fast Track Program

Graduate Degree

• Political Science, M.A. (p. 1090)

COURSES

POLS 2311. GOVERNMENT OF THE UNITED STATES. 3 Hours. (TCCN = GOVT 2305)
( GOVT 2305). The Constitution and government of the United States. The organization, procedures, and duties of the branches of the government, together with their accomplishments and defects.

POLS 2312. STATE AND LOCAL GOVERNMENT. 3 Hours. (TCCN = GOVT 2306)
( GOVT 2306). The principles and organization of American state, county, and municipal government, together with current problems and the Constitution and government of Texas.

POLS 3301. INTRODUCTION TO GLOBAL ISSUES. 3 Hours.
Comparative perspectives on a broad range of cultural, linguistic, economic, political, and social issues confronting a globalized world today. Designed to draw attention to the multifaceted connections among nation-states, nongovernmental organizations, diverse ethnic, cultural, and religious groups, and populations around the world. Course taught as POLS 3301 and GLOBAL 2301. Credit will be granted in only one department.

POLS 3302. INTRODUCTION TO INTERNATIONAL RELATIONS. 3 Hours.
Introduction to the interplay between states, international organizations, multinational corporations, and popular or militant movements within the international system and to their continued search for wealth, power, and security.

POLS 3303. BUREAUCRATIC POLITICS. 3 Hours.
Overview of social science research on bureaucratic organizations, including hierarchical power structures, collective action problems, organizational decline, pluralism, and the United States rulemaking process. Prerequisite: POLS 2311 and POLS 2312.

POLS 3304. INTRODUCTION TO COMPARATIVE POLITICS. 3 Hours.
Cross-national and cross-cultural comparisons of political systems. Institutional structure, political process, dynamics of change, and ideology. Prerequisite: POLS 2311 and POLS 2312.

POLS 3305. GOVERNMENT IN URBAN AMERICA. 3 Hours.
Problems associated with the growth, diversity, and complexity of urban areas and governmental solutions. Urban regimes, neighborhood governments, electoral politics, and intergovernmental relations. Useful for students interested in urban management.

POLS 3306. LEGISLATIVE ORGANIZATION AND PROCEDURE. 3 Hours.
Internal and external influences on the U.S. Congress: rules, norms, committees, seniority, political parties, presidents, media, constituents and interest groups. Prerequisite: POLS 2311 and POLS 2312.

POLS 3307. COMPARATIVE STATE AND LOCAL POLITICS. 3 Hours.
Comparison of state and local political institutions and policy choices in the United States. Useful for students interested in state and local government policy innovations.

POLS 3309. HEALTH POLITICS, POLICY, AND ADVOCACY. 3 Hours.
Explores health politics, policy, and advocacy in modern American politics in areas such as health care costs, the opioid epidemic, natural disasters, smoking and vaping, vaccines, and scooters. Considers how stakeholders such as patients, advocacy groups, hospitals, medical professionals, and insurance companies influence policy-making, and how health care policies shape patient care.

POLS 3310. RESEARCH METHODS AND POLITICAL ANALYSIS. 3 Hours.
The systematic investigation of political phenomena through theory building, appropriate research design, statistical inference, and hypothesis testing. Students will learn to analyze political data and use statistical packages to present and discern significant relationships between variables, fulfilling the computer competency requirement. Prerequisite: POLS 2311, POLS 2312, MATH 1301 or MATH 1302, and MATH 1308 or MATH 1309. Exceptions as approved by the Department.

POLS 3311. PUBLIC OPINION. 3 Hours.
Measurement of attitudes, public opinion and ideology, the learning and influencing of public opinion, and expression of public opinion in elections and mass political movements. The logic and practice of survey research. Prerequisite: POLS 2311 and POLS 2312.

POLS 3312. INTRODUCTION TO PUBLIC POLICY ANALYSIS. 3 Hours.
The American policymaking process from issue creation to program administration and evaluation. Policy models and methods of policy analysis. Oriented toward providing students with skills as a professional policy analyst. Prerequisite: POLS 2311 and POLS 2312.
POLS 3313. MODERN CRITICS OF SOCIETY AND POLITICS. 3 Hours.
Designed for both political science and other majors. Focus on writers like Banfield, Galbraith, Marcuse, Reich, Revel, Skinner, and Toffler. Prerequisite: POLS 2311 and POLS 2312.

POLS 3315. VIOLENCE & REPRESSION IN THE AMERICAS. 3 Hours.
Examination of extra-legal behavior in the Americas (particularly Latin America). Topics include human rights violations, repression, insurrection, terrorism, and revolution. Analysis of different causes and outcomes of such political participation. Prerequisite: POLS 2311 and POLS 2312.

POLS 3317. MEXICAN POLITICS AND U.S.-MEXICO RELATIONS. 3 Hours.
Current economic and political systems of Mexico and relevant issues in U.S.-Mexico relations. Trade, immigration, economic dependency, energy, contraband, and other topics. Offered as MAS 3317 and POLS 3317; credit will be given in only one department. Prerequisite: POLS 2311 and POLS 2312.

POLS 3319. CAUSES OF WAR. 3 Hours.
Introduces students to the causes of war including rationalist explanations, genetic and evolutionary impulses, psychological motivations, and group and structural incentives.

POLS 3328. INTRODUCTION TO MIDDLE EAST POLITICS. 3 Hours.
The historical developments that have led to the current political, social, economic, and security order of the Middle East, as well as the contemporary challenges facing the region and its inhabitants. Prerequisites: POLS 2311 and POLS 2312.

POLS 3330. THE JUDICIAL PROCESS. 3 Hours.
Examines the structure, function, and politics of the federal judiciary with an emphasis on the U.S. Supreme Court. Examines selection of judges, theories of judicial decision-making, external political influences on the courts, and impact of decisions. Especially recommended for pre-law majors. Prerequisite: POLS 2311 and POLS 2312.

POLS 3331. CONTEMPORARY ISSUES IN CIVIL LIBERTIES. 3 Hours.
Conflicts over civil liberties in American law focusing on classic and contemporary debates over race, gender, sexual identity, religion, and freedom of thought. Especially recommended for pre-law students. Prerequisite: POLS 2311 and POLS 2312.

POLS 3333. JURISPRUDENCE AND CONSTITUTIONAL CONFLICT. 3 Hours.
Competing theories of law, especially in American constitutional politics. Examines disagreements over the meaning and application of the U.S. Constitution focusing on debates over living constitutionalism versus originalism and the Supreme Court's recent controversial rulings on abortion, guns, race, and religion. Especially recommended for pre-law students. Prerequisite: POLS 2311 and POLS 2312.

POLS 3336. STATE COURTS. 3 Hours.
An examination of state judicial institutions emphasizing the role of processes in determining judicial behavior and the composition of state courts. Examines the role of law and courts, judicial system structures, and judicial policy-making in state government. Prerequisite: POLS 2311 and POLS 2312.

POLS 3337. LAW AND LAWYERS IN POPULAR CULTURE AND REALITY. 3 Hours.
Examines the role of law and lawyers in American society by contrasting popular culture views to ethical constraints imposed upon lawyers by the justice system and realities of how lawyers operate within that system. Prerequisite: POLS 2311, POLS 2312.

POLS 3378. LATINO POLITICS. 3 Hours.
An overview of Latino/Hispanic political behavior, identity, and power that analyzes the social, economic, and political issues impacting the Latino/Hispanic community in the United States. To be offered as POLS 3378 and MAS 3378. Credit will be granted only once.

POLS 3379. LATINO POLITICAL THOUGHT. 3 Hours.
An overview of the development of Latino/Hispanic political thought from Iberian and Latin American political culture and philosophy to contemporary North American Latino/Hispanic political ideology and political thought. To be offered as POLS 3379 and MAS 3379. Credit will be granted only once.

POLS 3390. HONORS COLLOQUIUM. 3 Hours.
An interdisciplinary course designed to meet the needs of advanced undergraduates in the honors program. Prerequisite: POLS 2311 and POLS 2312.

POLS 4102. POLITICAL SCIENCE SERVICE LEARNING. 1 Hour.
Students will engage in service learning placements to supplement political science course work with the goal of civic education and community involvement. Placements will be coordinated with the Center for Community Service Learning and students will be required to fulfill not only placement hours, but also additional reflection in writing in consultation with the faculty advisor. This course does not satisfy area distribution requirements. Prerequisite: POLS 2311 and POLS 2312.

POLS 4300. POLITICS IN POPULAR CULTURE. 3 Hours.
Use of film and video film, video television, novels, music, or other social media in the presentation of political ideas, opinions, and facts. Techniques, subject matter, and alternative forms of presentation. This course does not satisfy area distribution requirements.

POLS 4301. ENTERTAINMENT AND MEDIA LAW. 3 Hours.
Addresses fundamental issues in entertainment and media law such as copyright, first amendment protections, defamation, privacy rights, film and publishing contracts, idea protection, music rights, and rights of publicity. Focuses on developments of political and legal concern to those interested in an entertainment career.
POLS 4303. PUBLIC ADMINISTRATION AND THE POLITICAL PROCESS. 3 Hours.
The relationships of public administration at all levels with democratic institutions, including its interactions in the formulation and execution of public policies with the chief executive, the legislative and judicial branches, political parties, clientele groups, and the public at large. Prerequisite: POLS 2311 and POLS 2312.

POLS 4310. ANALYZING AND VISUALIZING POLITICAL DATA. 3 Hours.
Provides hands-on instruction on dissecting complex political trends and transforming raw data into compelling visual narratives with real-world datasets. Focuses on skills required to communicate findings effectively in a data-centric society. No prior data experience required. Prior or concurrent enrollment in POLS 3310 required. Prerequisite: previous or concurrent enrollment in POLS 3310.

POLS 4311. INTERNATIONAL RELATIONS AND POLITICAL PSYCHOLOGY. 3 Hours.
Examines psychological approaches to international politics. Topics may include personality and leadership traits, cognitive and emotional approaches, genetic characteristics and evolution, group decision-making, elite attitudes, public opinion, and social identity.

POLS 4312. INTERNATIONAL ORGANIZATIONS. 3 Hours.
This course introduces students to the institutions, decision-making, and activities of the world's leading multilateral organizations. Examples include the United Nations, NATO, the African Union, and the European Union. Students will focus on how organizations respond to contemporary global challenges such as civil wars, terrorism, human rights abuses, and economic crises. The course also teaches students how to apply theories of international relations to real-world policy problems.

POLS 4316. WOMEN IN THE POLITICAL PROCESS. 3 Hours.
This course introduces students to the unique experiences of women in the political process, the impact of these experiences on the political system, and theories of gender and politics. Offered as POLS 4316 and GWSS 4316; credit will be granted only once.

POLS 4317. ETHNIC GROUP POLITICS IN THE UNITED STATES. 3 Hours.
The influence of selected major ethnic groups with special attention given to organizational development, participation in political parties, leadership, ideology, immigration policy, current issues, and relations with the dominant culture and other ethnic groups. Offered as AAST 4317 and POLS 4317; credit will be granted in only one department. Prerequisite: POLS 2311 and POLS 2312.

POLS 4318. POLITICS OF AFRICAN AMERICANS. 3 Hours.
The influence of African-American politics on United States government and policies with special attention given to organizational development, participation in political parties, leadership, ideology, the Civil Rights movement, current issues, and relations with other ethnic groups. Offered as AAST 4318 and POLS 4318; credit will be granted in only one department. Prerequisite: POLS 2311 and POLS 2312.

POLS 4319. POLITICS OF MEXICAN AMERICANS. 3 Hours.
The influence of Mexican-American politics on United States government and policies with special attention given to organizational development, participation in political parties, leadership, ideology, the Chicano Movement, current issues, and relations with other ethnic groups. Offered as MAS 4319 and POLS 4319; credit will be granted in only one department. Prerequisite: POLS 2311 and POLS 2312.

POLS 4320. CIVIC ENGAGEMENT, CIVIL SOCIETY, AND COMMUNITY. 3 Hours.
The study of civic engagement, leadership, and political participation. The relationship of community to public policy, political elites and disenfranchised groups. May employ service learning.

POLS 4321. POLICY ENTREPRENEURSHIP. 3 Hours.
Examines why some ideas become policy while others get stuck in the process. Explores major theories of the policy process and how thinking like an entrepreneur helps drive policy change. Focuses on how knowledge, skills, and confidence is necessary to tackle complex policy questions through an entrepreneurial mindset.

POLS 4322. ISSUES IN POLITICAL THEORY. 3 Hours.
Each time this course is offered it will focus on one particular issue central to the study of political theory for example, authority, justice, citizenship, methodology of the social sciences. May be repeated for credit when content varies. Prerequisite: POLS 2311 and POLS 2312.

POLS 4323. FEMINIST POLITICAL THOUGHT. 3 Hours.
Issues raised by the feminist critique of political theory; the exclusion of women from the political sphere until the 20th century; Marxist, liberal, and radical feminist political thought; alternative feminist conceptions of the political. Offered as POLS 4323 and GWSS 4323; credit will be granted only once. Prerequisite: POLS 2311 and POLS 2312.

POLS 4326. ELECTION STRATEGY AND CAMPAIGN MANAGEMENT. 3 Hours.
Strategies relating to elections and various aspects of managing campaigns, including the techniques of demographic survey, voting behavior analysis, opinion survey, issue research, and candidate research. Prerequisite: POLS 2311 and POLS 2312.

POLS 4327. POLITICAL IDEAS OF THE ANCIENT WORLD. 3 Hours.
Principal theorists and schools of political thought prior to 1500, with emphasis upon those making significant contributions to the political heritage of Western Europe. Prerequisite: POLS 2311 and POLS 2312.

POLS 4328. MODERN POLITICAL IDEAS. 3 Hours.
The development of political thought from Machiavelli to Marx. Emphasis on the Renaissance, Classical Liberalism, French Radicalism and Marxism. Prerequisite: POLS 2311 and POLS 2312.
POLS 4329. CONTEMPORARY CONTROVERSIES IN POLITICAL THEORY. 3 Hours.
Examination of twentieth-century approaches to political thought and central controversies in the field. Topics may include: liberal, conservative, and socialist theories; critical theory; communitarianism; postmodernism; feminism; and identity politics. Prerequisite: POLS 2311 and POLS 2312.

POLS 4330. THE U.S. PRESIDENCY. 3 Hours.
The U.S. Presidency, including sources of power, changes in the office over time, and the relationship between the individual and the institution. Prerequisite: POLS 2311 and POLS 2312.

POLS 4331. U.S. CONSTITUTIONAL LAW: GOVERNMENT POWER. 3 Hours.
U.S. Supreme Court decisions regarding the structure of government in the United States. Focus on Congress, the President, Federalism, and the relation of the judicial process to these topics. Recommended for pre-law majors. Prerequisite: POLS 2311 and POLS 2312.

POLS 4332. U.S. CONSTITUTIONAL LAW: FUNDAMENTAL RIGHTS. 3 Hours.
U.S. Supreme Court decision making involving the Bill of Rights and other fundamental rights. Especially recommended for pre-law majors. Prerequisite: POLS 2311 and POLS 2312.

POLS 4333. PRESIDENTIAL LEADERSHIP IN DOMESTIC POLICY MAKING. 3 Hours.
Explores the policy process from the perspective of the U.S. president, examining the president's influence through the policy stages. Prerequisite: POLS 2311 and POLS 2312.

POLS 4336. CONTEMPORARY UNITED STATES FOREIGN POLICY. 3 Hours.
Theories and analytical structure for understanding United States foreign policy. Policy examined from theoretical, structural, regional, and topical perspectives. Prerequisite: POLS 2311 and POLS 2312.

POLS 4340. FEDERAL SOCIAL POLICY. 3 Hours.
This course examines public policies, including Social Security, Medicare, Medicaid, and various public assistance programs that emerged from the federal government's attempts to create a "safety net" for American citizens beginning in the 1930s, and from attempts to confront poverty during the 1960s. This course also considers the importance of federal "tax expenditures" in prompting private actors to provide services, such as employer-sponsored health insurance. The course also examines attempts to alter, roll back, or expand the federal role in social policy over recent decades.

POLS 4350. HEALTH POLITICS AND POLICY. 3 Hours.
Debates over the role of government in providing access to health care have been a prominent feature of American politics for the past century. This course examines the politics of health care debates in America as well as major features of federal health policy. Prerequisite: POLS 2311 and POLS 2312.

POLS 4359. CITIZENSHIP IN THE AMERICAS. 3 Hours.
Evaluates contemporary citizenship through political and social action movements in the Americas with particular attention to Latin America.

POLS 4360. THEORIES OF INTERNATIONAL RELATIONS. 3 Hours.
Evaluates major theories, methodologies, and approaches to international relations in order to understand contemporary world affairs.

POLS 4361. WAR, PEACE, AND POLITICS IN THE FORMER SOVIET UNION. 3 Hours.
Since the breakup of the Soviet Union in December 1991, the 15 newly independent states have taken divergent paths, while Russia has attempted to restore its dominance over its former empire. This course examines the different paths taken by the former Soviet states and the historical and cultural forces that have driven the transitions, with a specific focus on Russia, Ukraine, Belarus, Moldova, and the South Caucasus. Offered as POLS 4361 and RUSS 4361; credit will be given in only one department. Taught in English. For Russian language credit, some research will be done in Russian. Prerequisite: POLS 2311 and POLS 2312.

POLS 4362. RUSSIA AND THE POST-SOVIET STATES TODAY. 3 Hours.
An interdisciplinary overview of Russia and Russian area studies. This course provides students with a broad understanding of Russia today through the lenses of its geography and demographics, forms of government, and the themes and tendencies that run throughout Russian history and culture, including their impact on neighboring post-Soviet states. Offered as POLS 4362 and RUSS 4362; credit will be given in only one department. Taught in English. RUSS 4362 students complete some assignments in Russian, while POLS 4362 students do all assignments in English. Prerequisite: For POLS: POLS 2311 and POLS 2312.

POLS 4365. RUSSIAN FOREIGN POLICY. 3 Hours.
The foreign policy of Russia with an emphasis on its historical, cultural, and political roots, and policymaking structures. Through lectures, seminars, meetings, and assignments, students will gain an understanding of the historical, cultural, and political sources of Russian foreign policy behavior, the actors that implement it, and the tactics deployed. Offered as POLS 4365 and RUSS 4365; credit will be given in only one department. Taught in English. For Russian language credit, some research will be done in Russian. Prerequisite: For POLS: POLS 2311 and POLS 2312.

POLS 4369. THE ARAB-ISRAELI CONFLICT. 3 Hours.
Explores the origins, development, and continuation of the Arab-Israeli and Israeli-Palestinian conflicts through personal stories, national narratives, public images, and popular discourses.

POLS 4370. INTERNATIONAL RELATIONS OF THE MIDDLE EAST. 3 Hours.
This course will focus on the international interactions among actors in the Middle East. Topics to be covered include: theoretical and conceptual approaches to understanding regional politics; main conflicts in the region; contemporary challenges and issues; and a survey examination of the foreign policies of select countries. Prerequisite: POLS 2311 and POLS 2312.
POLS 4371. THE POLITICS AND FOREIGN POLICY OF ISRAEL. 3 Hours.
This course will examine the domestic politics and foreign policies of Israel. The course will be divided into two sections. The first section will focus on the domestic institutions and politics of Israel, while the second section will focus on Israel's foreign policies and the impact of domestic politics on them. Topics to be covered include: the rise of Zionism; the pre-state period in Palestine; efforts at state-building and institutional development; domestic politics (including institutions, parties, electoral system); divisions in Israeli society; and determinants and examples of foreign policy. Prerequisite: POLS 2311 and POLS 2312.

POLS 4372. VIOLENCE AND SCARCITY IN WORLD POLITICS. 3 Hours.
This course explores patterns of violence and scarcity in world politics, particularly as they pertain to the emerging paradigm of human security. This approach calls into question conventional notions of national and international security by focusing on the security of people rather than states. It explores challenges to basic human needs and desires which undermine the ability to be safe, free, and secure -- such as infectious disease, genocide, environmental degradation, migration, and transnational crime. It also examines international responses to such problems.

POLS 4373. POLITICS OF INTERNATIONAL LAW. 3 Hours.
Examines the role of law in the international system including international treaties and agreements, states' compliance with international law, non-governmental actors, international courts. Topics include force, human rights, crimes against humanity, protection of the environment, and terrorism.

POLS 4375. SCIENCE FICTION AND INTERNATIONAL RELATIONS. 3 Hours.
Examines science fiction novels and films to explore themes in international relations such as political authority, nationalism, xenophobia, political violence, and gendered security.

POLS 4389. THE POLITICS OF NATIONAL MEMORY. 3 Hours.
An examination of power in Washington, focusing on what lies outside the Executive and Legislative branches. Students visit and study significant institutions and monuments in the city as windows into complex political and social issues. Enrollment is restricted to designated Archer Fellows.

POLS 4389. POLICYMAKING IN WASHINGTON. 3 Hours.
An analysis of the central role of Congress in shaping public policy. Emphasis on real-world policymaking. Students play the role of legislative assistants to members of Congress and produce analyses of the public policy issues. Enrollment is restricted to designated Archer Fellows. Prerequisite: POLS 2311 and POLS 2312.

POLS 4390. SPECIAL TOPICS IN POLITICAL SCIENCE. 3 Hours.
May be repeated for credit as topics change. Prerequisite: POLS 2311 and POLS 2312.

POLS 4392. SPECIAL TOPICS IN POLITICAL SCIENCE. 3 Hours.
Supervised employment in a government or government-related organization with the student performing duties related to the academic curricula of political science. Students are required to submit a term paper, case study, or an approved academic project related to the work performed. Work is generally graded pass/fail. A maximum of six semester hours of credit in Political Science Internship may be used to satisfy a political science elective requirement for graduation. Students must be classified as juniors or seniors, be political science majors or minors, and have a minimum 3.0 GPA in their major and overall. Majors must have completed 21 hours of political science; minors must have completed 12 hours of political science. Contact the Department for a complete description of requirements. Departmental consent required before enrollment. Prerequisite: POLS 2311 and POLS 2312.

POLS 4393. PREPARING FOR CAREERS IN POLITICAL SCIENCE. 3 Hours.
Required of all students in the University Honors College. During the senior year, the student must complete a thesis or a project under the direction of a faculty member in the major department. Prerequisite: POLS 2311 and POLS 2312.

POLS 4395. CONFERENCE COURSE READINGS IN POLITICAL SCIENCE. 3 Hours.
Designed for the advanced undergraduate student who is capable of independent study. An in-depth examination of one area of political science not necessarily covered in regular course work. May be repeated for credit when the subject matter varies, but only with permission of the department. Only two such courses will be counted on a student's degree plan. Prerequisites: permission of the undergraduate advisor; appropriate previous coursework; written consent of the instructor. Students must be Political Science majors or minors, have a minimum of 60 credit hours/junior status, have a 3.0 grade point average, and have completed at least 9 hours of Political Science.

POLS 4691. ARCHER PROGRAM INTERNSHIP. 6 Hours.
One-semester work experience in Washington, DC carried out during the student's tenure of an Archer Fellowship. The internship is custom-designed with the assistance of the director of the Archer Program based on the student's academic and professional goals. Enrollment is restricted to designated Archer Fellows. Prerequisite: POLS 2311 and POLS 2312.

POLS 5197. MASTER'S COMPREHENSIVE EXAMINATION. 1 Hour.
Required of all non-thesis Master of Arts students in the semester of their graduation. Graded P/F/R.

POLS 5300. AMERICAN GOVERNMENT AND POLITICS. 3 Hours.
A survey of the major theories and subfields in the study of American politics. Readings comprise a representation of scholarship illustrating a variety of substantive and methodological approaches.

POLS 5301. JUDICIAL POLITICS AND THE U.S. SUPREME COURT. 3 Hours.
This course focuses on judicial decision-making and behavior. While the entire American court system will be considered, primary attention will be given to the U.S. Supreme Court and constitutional issues.

POLS 5302. BUREAUCRATIC LEADERSHIP. 3 Hours.
Recent literature in organizational theory, government restructuring, and policy management problems.
POLS 5303. COMPARATIVE POLITICAL SYSTEMS. 3 Hours.
Theories, concepts, and methods that dominate modern comparative political analysis. The state of the discipline and controversies in the comparative method are evaluated.

POLS 5305. TOPICS IN POLITICAL THEORY. 3 Hours.
This course will cover both historical and contemporary topics central to the discipline of political theory. It will consider the major figures in the field as well as themes such as citizenship, democracy, freedom, and authority. May be repeated for credit as the topic changes.

POLS 5310. ANALYZING POLITICS: RESEARCH DESIGN AND METHODS. 3 Hours.
This course introduces students to the practice of analyzing politics. It begins with a foundation in research design, covering topics such as how to develop testable hypotheses, measure concepts, and identify causal relationships. The course then takes a hands-on review of a range of tools used by political scientists-from basic data analysis and statistics, to experiments, elite interviews, content analysis, surveys, and the study of networks.

POLS 5311. CAMPAIGNS AND ELECTIONS. 3 Hours.
Describes important trends in modern campaigns and elections practices, focusing on contemporary American elections, including campaign finance, voter turnout, campaign advertising, and voter choices. Class presentations, a short research paper, and journal article readings.

POLS 5312. MAKING PUBLIC POLICY. 3 Hours.
This course examines how ideas, self-interest, and institutions weave together into the complex process of policymaking. Students will analyze influential policy theories, dissect real-world case studies, and engage in thought-provoking debates as they learn the theory, art, and science of the public policy process. This course will prepare students how to be discerning policy practitioners and scholars, and adept at deciphering the complexities of the policy landscape.

POLS 5315. PUBLIC OPINION. 3 Hours.
Describes the development of survey research and commonly-encountered problems in surveys. Focuses most heavily on the contemporary practice of public opinion research, particularly in the American setting. Class presentations, a short research paper, and journal article readings.

POLS 5316. PUBLIC LEADERSHIP: RACE, ETHNICITY, & GENDER. 3 Hours.
Study of leadership theories, skills and traits, with focus on the intersections of race, ethnicity, and gender on public leadership in the public arena.

POLS 5317. RACE AND ETHNICITY IN AMERICAN POLITICS. 3 Hours.
Explores the political behavior of racial and ethnic groups in the U.S. as well as the contemporary influence of race and ethnicity on American political institutions and public policy debates.

POLS 5318. WOMEN IN THE POLITICAL PROCESS. 3 Hours.
This course examines women and gender in the political process, exploring various theoretical and methodological approaches helpful in studying gender and politics.

POLS 5319. CONGRESSIONAL BEHAVIOR. 3 Hours.
This course addresses several major questions regarding the nature of Congress as an institution, the behaviors of its members, and the role Congress plays in shaping public policy and the general nature of a representative democracy. Students are expected to have the ability to comprehend readings that are heavily quantitative. Course requirements will include weekly writings, a research paper and exams.

POLS 5320. THE AMERICAN PRESIDENCY. 3 Hours.
An overview course on the U.S. Presidency, exploring the institution as well as its relationship to other branches and political actors.

POLS 5321. THE PRESIDENCY AND DOMESTIC POLICY. 3 Hours.
This course examines presidential and domestic policy making, exploring how the president makes policy, focusing on theories of presidential leadership, White House organization and presidential-congressional interactions.

POLS 5323. STATE COURT SYSTEMS. 3 Hours.
Examination of the major theories of judicial politics and public law applied to the state court level. Topics include attention to the institutional, strategic, and attitudinal perspectives of judicial behavior.

POLS 5324. PUBLIC POLICY: ISSUES AND ANALYSIS. 3 Hours.
This course examines the important role of analysis in the policy process. It provides an understanding of the major actors and institutions involved in policymaking, explores major theories of policy change, and equips students with the skills necessary to conduct effective public policy analysis.

POLS 5325. STATE POLITICS. 3 Hours.
This course surveys the substantial literature and research programs in the study of state politics and policy.

POLS 5327. URBAN POLICYMAKING AND ADMINISTRATION. 3 Hours.
Focus on the influence of economic, political, institutional, and organizational factors on urban policymaking and administration. A variety of regime and power structure models facilitate the analysis of urban policymaking.

POLS 5328. PUBLIC POLICY AND MEXICAN AMERICAN COMMUNITIES. 3 Hours.
Focus on the public policy process and the limited role Mexican Americans have had in national and state (TX) policymaking. Select topic areas are utilized to focus on state actors, issues, allocation of resources, and the power structure for analytical purposes.

POLS 5329. PUBLIC BUDGETING. 3 Hours.
The concepts, processes, and policy impacts of taxation and public budgeting. Introduction to current research techniques, budgetary issues, and the relevant political economy literature.
POLS 5332. PARADIGMS AND PROBLEMS IN INTERNATIONAL RELATIONS. 3 Hours.
This course surveys the major theoretical approaches in the field of International Relations. Students will learn to apply these paradigms to contemporary global issues such as conflict, trade, nuclear proliferation, terrorism, and protection of human rights.

POLS 5333. IDENTITY AND POLITICS IN THE MIDDLE EAST. 3 Hours.
Deeper examination of processes of state building and political development; state-society relations; Arabism; authoritarianism and democratization; oil and economic issues; Islamist politics; the role of transnational ideas.

POLS 5334. VIOLENCE AND DEPRIVATION IN WORLD POLITICS. 3 Hours.
Focuses on theoretical frameworks, empirical analysis, and policy relevance of myriad threats to individuals and communal groups. Examples include: human rights, failed states, violence, health issues, slavery and migration, environmental security.

POLS 5335. LATIN AMERICAN POLITICS. 3 Hours.
Designed to give students knowledge of the political development of Latin America by first examining general topics and then analyzing events in specific countries. Utilizes themes and concepts that are universal to all Latin American nations, but also stresses the different paths to political development that have been taken in each of these countries.

POLS 5337. THE POLITICAL SYSTEM OF THE RUSSIAN FEDERATION. 3 Hours.
This course emphasizes the analytical means by which researchers approach the Russian Federation in the post-Soviet period. Russia is considered from institutional, cultural, rationalist, and economic perspectives to develop a comprehensive orientation about the nature and scope of Russian politics.

POLS 5338. AMERICAN FOREIGN POLICY. 3 Hours.
Evaluation of some of the primary theories and models used in explaining American Foreign Policy. The course attempts to bridge the gaps that exist between theory and reality through approaches such as realism, neo-realism, deterrence, and others.

POLS 5339. ISRAELI IDENTITY AND THE ARAB-ISRAELI CONFLICT. 3 Hours.
This course will explore the deeper threads of Israeli identity, and how these impact Israeli policy toward the Arab-Israeli conflict. Topics to be covered include: diverse and clashing identities (e.g., Jewish, democratic, Middle Eastern, Israeli); how identity clashes have played out in politics; outlines of Israeli foreign policy; specific policies toward the Palestinians.

POLS 5340. INTERNATIONAL SECURITY. 3 Hours.
This course explores some of the major concepts in the theory and practice of international security, with a focus on military-related events, processes, and issue-areas.

POLS 5341. COGNITION, EMOTION, AND EVOLUTION IN INTERNATIONAL RELATIONS. 3 Hours.
This course focuses on psychological approaches to international relations and examines how these perspectives advance the study of world politics. Approaches to be studied include: behavioral traits, trust, risk, values, personality, leadership, group decision-making, emotions, and evolutionary dynamics. These will be applied to different policy areas, including U.S. foreign policy, the use of force, and international cooperation.

POLS 5342. INTERNATIONAL ORGANIZATIONS. 3 Hours.
This course describes the institutions, decision-making and activities of the world’s leading international organizations to establish an understanding of the role of international organizations in managing contemporary global problems.

POLS 5343. PUBLIC PERCEPTIONS OF LAW AND COURTS. 3 Hours.
Examination of the theories and methodological practices used to determine how the public evaluates law and courts in the United States. Topics include perceptions of the Supreme Court and its policies, civil liberties, lower courts, and judges.

POLS 5347. POLITICS OF MEXICO. 3 Hours.
Course will survey the political history of Mexico, and look at essential questions of revolution, authoritarianism, democratization, and democratic governance.

POLS 5348. IMMIGRATION AND INTEGRATION IN GLOBAL POLITICS. 3 Hours.
An overview of historical foundations and theories of international immigration, implications for Western democracies, and a comparison of immigration and immigration policies from around the world.

POLS 5368. Health Politics and Policy. 3 Hours.
Course will survey the political history of the health care debate in the United States as well as major features of federal health policy.

POLS 5369. SOCIAL POLICY. 3 Hours.
This course examines the role of the federal government relating to social policy as a central theme of contemporary American politics. Issues surrounding the federal government’s attempt to create a social safety net and issues such as poverty will be confronted, as well as the central role of tax expenditures and attempts to roll back social policies.

POLS 5380. TOPICS IN U.S. POLITICS. 3 Hours.
This course will focus on the specific aspects of U.S. governing institutions, processes, and behavior. A single aspect of U.S. politics will be examined in a given semester. (May be repeated for credit when topics vary.).

POLS 5381. TOPICS IN COMPARATIVE POLITICS. 3 Hours.
This course will focus on the specific aspects of comparative politics. (May be repeated for credit when topics vary.).
POLS 5382. TOPICS IN PUBLIC LAW AND JURISPRUDENCE. 3 Hours.
The role of U.S. national and state courts in policy making, constitutional law, and the examination of the evolution and nature of law in the United States. (May be repeated for credit when topics vary.).

POLS 5383. TOPICS IN PUBLIC ADMINISTRATION AND POLICY MAKING. 3 Hours.
U.S. national policy making and program management, state and urban policy making and administration. (May be repeated for credit when topics vary.).

POLS 5384. TOPICS IN INTERNATIONAL RELATIONS. 3 Hours.
This course will focus on a specific issue-area of international relations and world politics. (May be repeated for credit when topics vary.).

POLS 5391. CONFERENCE COURSE IN POLITICAL SCIENCE. 3 Hours.
Research and reading in a specialized field under the direction of a member of the graduate faculty. Graded P/F/W.

POLS 5392. INSIDE WASHINGTON: POLICYMAKING FROM THE GROUND UP. 3 Hours.
This course provides students with an overview of the U.S. federal policymaking process and the various public/private stakeholders and institutions that participate in this process. Specifically, the course focuses on three key elements of federal policymaking: separation of powers and original constitutional intent, influencing federal policy, and creating effective advocacy strategies. Students will examine a sampling of the extensive literature on political theory/philosophy, political institutions, political behavior, public policy and public administration. Students will also meet regularly with practitioners, such as officials from Congress, the White House, executive branch agencies, think tanks, organized interest groups, media/communications, and lobbying firms.

POLS 5393. ARCHER CENTER WASHINGTON INTERNSHIP. 3 Hours.
This course consists of an internship in a governmental or non-governmental organization in Washington, D.C. The student is expected to work full-time (40 hours a week) at the internship, which may be paid or unpaid. Students are responsible for seeking and selecting their internships. The Archer Center does not guarantee any internship placements, but Archer Center faculty and staff will provide students with information about internship opportunities and advice about placements. The Archer Center faculty meet regularly with students to debrief and to integrate this practical training with other lessons in professional development.

POLS 5394. ARCHER CENTER INDEPENDENT STUDY AND RESEARCH. 3 Hours.
This course is tailored to each student's graduate program of study. An Archer Center faculty member will work independently with each student to develop a research project that is designed to advance the student's academic and research goals. The project will align with the requirements of the student's graduate degree.

POLS 5398. THESIS. 3 Hours.
Original research designed to augment existing studies of problems or topics related to one of the major fields of study.

POLS 5698. THESIS. 6 Hours.
Original research designed to augment existing studies of problems or topics related to one of the major fields of study. POLS 5398 graded R/F only; POLS 5698 graded P/F/R.
Political Science - Graduate Programs

Overview

The program leading to a Master of Arts degree in Political Science emphasizes a variety of skills in preparation for many different types of employment. Students develop the ability to conduct research and critically analyze complex information, understand decision-making processes, present their findings and conclusions in a succinct and easily-understood manner, think creatively to resolve problems and concerns, and communicate information clearly. These skills are considered valuable in a wide range of jobs and careers, including in: the private sector, non-profit and non-governmental organizations, education, government, research and policy analysis, media, and international affairs. In addition, the Political Science MA is often used as a stepping stone for enrollment in business and law degrees. Finally, the Department of Political Science also endeavors to equip students with the research techniques and substantive background for coursework undertaken beyond the master’s level.

Admissions

The program is committed to a holistic admissions approach. As a result, decisions on whether to admit or deny an application include: grade point averages, letters of recommendation, personal statements, advanced degrees, graduate courses taken as a degreed student or in another program, and professional work experience. The major purpose of the admissions criteria is to promote access to our program, but maintain standards that will enable the department to determine if the applicant demonstrates the requisite skill level to master the requirements of the program.

Admission to the MA program in political science is based upon the completion of the general admission requirements of the Graduate School. Applicants are required to submit all official transcripts, a personal statement, and three (3) letters of recommendation. The department will review the application package in its entirety. The package is evaluated to determine if a student has achieved a 3.00 grade point average (GPA) in the last 60 hours of their undergraduate work as calculated by the Graduate School, and meets other admission requirements. If a student has already earned an advanced degree, the department will evaluate the student’s academic performance in obtaining that degree equally with the undergraduate performance. International students must meet or exceed the minimum university standard on the TOEFL (550 for paper examination, 213 for computer examination), TOEFL iBT (total score of 79 with sectional scores that meet or exceed 22 for the writing section, 21 for the speaking section, 20 for the reading section, and 16 for the listening section), TSE (40), or the IELTS (6.5).

Several factors matter for a decision to accept or deny an applicant. To this end the department has three categories of acceptance: unconditional admission, probationary admission, and provisional admission.

Application Requirements

All applications must include the following four components. All four will be considered, without specific weights, in the decision to accept or deny.

1. A bachelor’s degree from an accredited general or specific program. A bachelor’s degree in political science, however, is not required.

2. A copy of all university and college transcripts.

3. A written personal statement (200 words) explaining the applicant's interest and motivation in studying for a graduate degree in political science.

4. Three letters of recommendation (including at least two from university/college faculty) that favorably assess the applicant’s potential success in a graduate program and in the field of political science. Letters must be mailed directly from the recommenders to the Graduate Adviser of political science.

Unconditional Admission

An applicant may be accepted for unconditional admission if all of the above components of the application package are properly submitted, and all three of the following criteria are met and all three give strong indication of likely success in the program.

1. An undergraduate GPA of 3.00 or greater (as calculated by the Graduate School) in the last 60 credit hours of completing an undergraduate B.A. or B.S. degree from an accredited institution (verified by the Graduate School from official transcripts from each college or university previously attended).

2. Adequate preparation and satisfactory performance in political science courses or courses in related disciplines.

3. Three letters of recommendation (including at least two from university/college faculty) that indicate satisfaction with the applicant's work and demonstrate a strong likelihood for success in the program and in the field of political science.

Probationary Admission

Students who do not qualify for unconditional admission may be considered for probationary admission if they satisfy any two of the three requirements for unconditional admission listed above as well as demonstrate potential for success in line with the necessary application materials. Students with a reported grade point average below 2.70, however, will not be eligible for probationary admission. Being admitted on probationary status means that the student will be able to take graduate level classes, but the student must earn a B or better in the first 12 hours of graduate coursework at UT Arlington. This regulation will be strictly enforced.
Provisional Admission
An applicant unable to supply all required documentation prior to the admission deadline, but otherwise appears to meet admission requirements, may be granted provisional admission. Provisionally admitted students must adequately satisfy any incomplete documentation by the end of the semester in which they are admitted. If the applicant fails to do so, the department may then reclassify the applicant’s admission status as probationary or ask the student to leave the program.

Deferral
A deferred decision may be granted when a file is incomplete or when a denial decision is not appropriate.

Denial
An application will be denied if it does not meet the criteria listed above, does not demonstrate potential for success, or the applicant’s grade point average is below 2.70.

Fast Track Program
The Fast Track program allows outstanding senior undergraduate Political Science (POLS) students to take two or three graduate courses (5000-level courses) to replace six or nine credit hours of advanced POLS undergraduate courses (3000- or 4000-level courses). The credit hours earned in these graduate courses can then be applied to both the Bachelor of Arts (BA) and to the Master of Arts (MA) in Political Science. Those who successfully complete the program will be automatically admitted to the Graduate School. They will not be required to take any qualifying test, complete an application for admission to the Graduate School, arrange for letters of reference, or pay an application fee. This enables students to complete their MA degree in a shorter time period.

Applying to the POLS Fast Track Program
Undergraduate students apply to the Department of Political Science by completing a Fast Track application form available from the POLS academic adviser. Students will be notified by the Department of their acceptance into the Fast Track program.

Unconditional Admission
1. The student must be within 30 hours of completing a BA in Political Science at UTA.
2. The student must have completed 30 hours of coursework at UTA.
3. The student must have an overall GPA of at least 3.3 in all coursework at all schools and an overall GPA of at least 3.3 in all coursework completed at UTA.
4. The student must have an overall GPA of at least 3.5 in all POLS courses completed at UTA.
5. The student must have completed 12 credit hours of the following specific undergraduate POLS courses, with a GPA of at least 3.5 in these courses. (Courses from other universities or colleges that cover the same or similar material cannot replace any of these specific UTA courses.)
   • POLS 2312 State and Local Government or its equivalent from another institution
   • POLS 3310 Analyzing Politics
   • POLS 3302 Introduction to International Relations, POLS 3303 Introduction to Public Administration, POLS 3304 Introduction to Comparative Politics, POLS 3305 Government in Urban America, POLS 3307 Comparative State and Local Politics, POLS 3311 Public Opinion, POLS 3312 Introduction to Public Policy Analysis, OR POLS 3333 Jurisprudence
   • One substantive 4000-level POLS course from any of the area concentrations (excluding internships and conference or directed readings courses).

Provisional Admission
A student may gain provisional admission if, by the semester in which application is made, he or she has already completed 3 out of the 4 required POLS courses (listed above) with a GPA of at least 3.5 in them, with the 4th course to be completed in the semester of application. All other requirements above must be met. Provisional admission will be changed to unconditional admission upon satisfactory completion of remaining requirements. Students failing to meet all requirements at the end of their semester of application will be removed from the Fast Track program. Any credits earned prior to removal from the program will be applied to the undergraduate degree only. None of the other benefits of the Fast Track program will apply. Provisionally admitted students who have been removed from the program may subsequently apply to graduate programs via the normal application process, paying all fees and meeting all relevant admission criteria. Admission will not be automatic as it will be subject to the normal admission practices of the Department of Political Science and of the Office of Graduate Studies.
Denial

Students who do not meet the requirements set out shall be denied admission to the Fast Track program. They may still apply to the graduate program through the regular application process. Admission will not be automatic as it will be subject to the normal admission practices of the Department of Political Science and of the Office of Graduate Studies.

Good Standing

In order to remain in the Fast Track program, students must meet the following requirements:

1. Students must maintain an overall GPA of at least 3.0 and must earn grades of B or better in all Fast Track-approved graduate courses that will be used to satisfy undergraduate and graduate degree requirements of the Fast Track program.

2. Students must enroll in at least 2 graduate courses prior to receiving their bachelor's degree, and receive at least a B in each course.

Students who, at any time, do not meet these requirements will be obliged to leave the Fast Track program. Any graduate credits earned will be applied only to the undergraduate degree, and none of the other benefits of participation in the Fast Track program will apply. They may apply to the MA program as a regular student after receiving their BA.

Fellowships

Fellowships, when available, will be awarded on a competitive basis. Fellowships are selected on the basis of the following criteria. Please see the Graduate Adviser for more information.

- Candidates must be enrolled full time in the department of political science (at least 9 hours of courses per semester).
- A minimum undergraduate GPA of 3.00 in the last 60 undergraduate hours, as calculated by the Graduate School, and unconditional admission status, or a minimum GPA of 3.25 in political science graduate hours completed.
- Transcript of a completed bachelor's degree in political science (or appropriate related field) from an accredited institution.
- Three letters of recommendation. These letters may be the same submitted for admission.
- A written statement explaining the applicant's reasons for graduate study in political science.

Master's Degree Requirements

The non-thesis degree plan requires 36 hours of coursework, including three hours of POLS 5310 ANALYZING POLITICS: RESEARCH DESIGN AND METHODS, and a minimum of two courses in each of the first two area concentrations: American Politics and Policymaking, and International Studies.

The thesis degree plan requires 24 hours of coursework, including three hours of POLS 5310 ANALYZING POLITICS: RESEARCH DESIGN AND METHODS. Of the remaining 21 hours, a minimum of one course must be taken in each of the first two area concentrations: American Politics and Policymaking, and International Studies.

Students should consult the Political Science Graduate Student Handbook for regulations on transfer courses, undergraduate courses, conferences, internships, and special courses. It is recommended that students complete at least one general field seminar (POLS 5300, POLS 5301, POLS 5302, POLS 5303, POLS 5332) prior to taking the topics courses. See the Graduate Advisor for more detail.

All candidates for the degree of Master of Arts with a major in political science must pass a final examination, written, oral, or both written and oral. See the Department of Political Science Graduate Student Handbook or the Graduate Adviser for more details. In the event of failure of the final examination, the student may petition the Committee on Graduate Studies to retake the examination on a date no sooner than 60 days after the first examination. Students will not be permitted more than one reexamination after failure of the initial examination.

**International Studies Option**

The International Studies option of the Master of Arts program in political science emphasizes the study of comparative politics and international relations within the framework of political science. This option requires 12 hours of coursework in International Studies. Upon satisfying the requirements for this option, students will receive a letter of completion. Completion will not be reflected on student transcripts.

**U.S. Political Institutions and Processes Option**

The U.S. Political Institutions and Processes option of the Master of Arts program in political science emphasizes political behavior and processes and public law and jurisprudence within the framework of political science. This option requires 12 hours of coursework focused on American politics and/or public law and jurisprudence. Upon satisfying the requirements for this option, students will receive a letter of completion. Completion will not be reflected on student transcripts.

**Dual Degree Program**

Students in political science may participate in a dual degree program whereby they can earn a Master of Arts in political science and a Master of Arts in another program, such as criminal justice or sociology. By participating in a dual degree program, students can apply a number of semester hours jointly to meet the requirements of both degrees, thus reducing the total number of hours which would be required to earn both degrees separately. The number of hours which may be jointly applied ranges from nine to 18 hours, subject to the approval of Graduate Advisers from both programs. To participate in the dual degree program, students must make separate application to each program and must submit a separate program of work for each degree. Those interested in a dual degree program should consult the appropriate Graduate Adviser(s) for further information on course requirements. See also the statement on “Dual Degree Programs” in the general information section of this catalog.
Political Science - Undergraduate Programs

Overview

The goal of the political science undergraduate curriculum is to maximize students’ capacities to analyze and interpret political events and governmental processes. In addition to acquiring general knowledge about government and political behavior, students also learn the analytical skills relevant to particular political systems (their own and others’), and to problems of most immediate consequence and concern to them.

The four major objectives of the department's curriculum are to:

• Identify and describe political structures, rules, behaviors and environments which shape political action.
• Explain and employ statistical and methodological techniques to analyze information.
• Identify, comprehend, and apply comparative, theoretical, or conceptual approaches to actors and their policies.
• Develop the ability to analyze, synthesize, and evaluate political phenomena.

The major courses are designed to present a coherent portrait of the discipline. Students begin with a general introduction to national, state, and local politics followed by required courses in political methodology. Finally, students are exposed to four major areas of the discipline. The department also offers options for students who desire a concentration in law and courts, public policy, American politics, or international studies. Students may choose any 18 hours (6 advanced) for a minor. Those who want a specialization may concentrate courses in areas of public law; policy and administration; comparative and international politics; American national government; political parties, group politics, and elections. To graduate a student must earn a 2.0 GPA.

The political science student is exposed to a multifaceted and highly regarded faculty, many of whom have received regional and national honors for teaching, service, and research. Upon graduation, UT Arlington political science majors are prepared to compete for a wide variety of jobs in both the private and public sectors.

Admission to Department of Political Science Degree Programs

Students should have completed 30 hours of core with 30 hours at UT Arlington, or 40 hours of core with 12 hours at UT Arlington with an overall GPA greater than 2.0. Students may be accepted as pre-political science majors if the above standards are not met.

Teacher Certification

Students interested in Texas Teacher Certification should consult the College of Education section of this catalog for the most recent changes in requirements regarding admission to Teacher Education, completion of University programs in preparation for certification, and eligibility for certification after graduation.

Oral Communication and Computer Use Competencies

Students majoring in political science are required to demonstrate computer use and oral communication competencies. Computer use proficiency can be demonstrated by one of the following:

a. successful completion of POLS 3310 RESEARCH METHODS AND POLITICAL ANALYSIS; or
b. successful completion of CSE 1301 COMPUTER LITERACY or INSY 2303 INTRODUCTION TO M.I.S. AND DATA PROCESSING; or
c. successful completion of other courses approved by the Undergraduate Assembly; or
d. passing the University computer use competency exam.

Oral communication proficiency can be demonstrated by one of the following:

COMS 1301 FUNDAMENTALS OF PUBLIC SPEAKING 3
COMS 2305 BUSINESS AND PROFESSIONAL COMMUNICATION 3
COMS 3315 COMMUNICATION FOR EDUCATORS 3

a. successful completion of specific political science courses approved by the department; or
b. successful completion of one of the following:
c. successful completion of other courses approved by the Undergraduate Assembly.

Students should discuss these options with their undergraduate advisor who may also provide a list of other courses approved by the University to meet these requirements.
Requirements for a Bachelor of Arts Degree in Political Science

All students who wish to earn a Bachelor of Arts degree in Political Science must complete the following coursework. In completing this coursework, they will satisfy the University's core curriculum requirements.

**Pre-Professional Courses**

Area III Law & Courts:
- POLS 3330 THE JUDICIAL PROCESS
- POLS 3331 CONTEMPORARY ISSUES IN CIVIL LIBERTIES
- POLS 3333 JURISPRUDENCE AND CONSTITUTIONAL CONFLICT
- POLS 3336 STATE COURTS 3
- POLS 4331 U.S. CONSTITUTIONAL LAW: GOVERNMENT POWER
- POLS 4332 U.S. CONSTITUTIONAL LAW: FUNDAMENTAL RIGHTS

Area IV Public Policy:
- POLS 3303 BUREAUCRATIC POLITICS
- POLS 3305 GOVERNMENT IN URBAN AMERICA
- POLS 3309 HEALTH POLITICS, POLICY, AND ADVOCACY 3
- POLS 3312 INTRODUCTION TO PUBLIC POLICY ANALYSIS
- POLS 4303 PUBLIC ADMINISTRATION AND THE POLITICAL PROCESS
- POLS 4321 POLICY ENTREPRENEURSHIP 3
- POLS 4340 FEDERAL SOCIAL POLICY 3
- POLS 4350 HEALTH POLITICS AND POLICY 3

Students have the option of completing a departmental specialization (between Law & Courts, Public Policy, International Studies, and American Politics).

Law & Courts:
Requiring a minimum of 9 hours in the Law & Courts area of Political Science, plus 9 hours of courses to be chosen from the following:
- COMS 3310 GROUP COMMUNICATION THEORY
- CRCJ 4301 THE AMERICAN JUDICIAL SYSTEM
- ENGL 4371 ADVANCED ARGUMENTATION
- HIST 3330 U.S. LEGAL AND CONSTITUTIONAL HISTORY, COLONIAL TO 1877 3
- HIST 3331 U.S. LEGAL AND CONSTITUTIONAL HISTORY, 1877 TO PRESENT 3
- HIST 4330 GREAT ANGLO-AMERICAN TRIALS 3
- HIST 4331 U.S. CIVIL LIBERTIES 3
- HIST 4359 BRITISH CONSTITUTIONAL HISTORY 3
- PHIL 1301 FUNDAMENTALS OF REASONING
- PHIL 2311 LOGIC
- PHIL 3320 PHILOSOPHY OF LAW
- SOCI 3313 CRIMINOLOGY
- SOCI 3357 LAW AND SOCIETY
- BLAW 3311 LAW I
- BLAW 3312 LAW II

Public Policy:
Requiring a minimum of 12 hours in the Public Policy area of Political Science

International Studies:
Requiring a minimum of 12 hours in the International Studies area of Political Science

American Politics
Requiring a minimum of 12 hours in the American Politics area of Political Science

Total Hours 120
Students are required to complete 12 hrs of 3000/4000 level POLS coursework to bring their total number of POLS coursework hours to 36. The 36 hours to include POLS 2311 and POLS 2312.

Students majoring in Political Science will pursue this general course of study in the discipline AND they may declare a specific area of concentration by filing a statement of intent with the Political Science Department. The area of concentration will require that the student complete the requirements for the general degree plan while also fulfilling certain requirements for the concentration. All students will receive the B.A. in Political Science. Those completing the selected specialization will also receive recognition of completion.

The purpose of the specializations is to provide the student with a focused, systematic, and in-depth educational experience in the context of a broad liberal arts education.

Political Science classes may be used toward the major requirements or minor requirements (at the discretion of the department offering the minor), but not both.

**Oral Communication and Computer Use Competencies**

Students majoring in political science are required to demonstrate computer use and oral communication competencies. Computer use proficiency can be demonstrated by one of the following:

a. successful completion of POLS 3310 RESEARCH METHODS AND POLITICAL ANALYSIS; or
b. successful completion of CSE 1301 COMPUTER LITERACY or INSY 2303 INTRODUCTION TO M.I.S. AND DATA PROCESSING; or
c. successful completion of other courses approved by the Undergraduate Assembly; or
d. passing the University computer use competency exam.

Oral communication proficiency can be demonstrated by one of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMS 1301</td>
<td>FUNDAMENTALS OF PUBLIC SPEAKING</td>
<td>3</td>
</tr>
<tr>
<td>COMS 2305</td>
<td>BUSINESS AND PROFESSIONAL COMMUNICATION</td>
<td>3</td>
</tr>
<tr>
<td>COMS 3315</td>
<td>COMMUNICATION FOR EDUCATORS</td>
<td>3</td>
</tr>
</tbody>
</table>

a. successful completion of specific political science courses approved by the department; or
b. successful completion of one of the following:
c. successful completion of other courses approved by the Undergraduate Assembly.

Students should discuss these options with their undergraduate advisor who may also provide a list of other courses approved by the University to meet these requirements.

**Requirement for a Minor in Political Science**

A minor in political science requires 18 semester hours, at least twelve of which must be 3000/4000 level.

Political Science classes may be used toward the major requirements or minor requirements (at the discretion of the department offering the minor), but not both.

**Fast Track Program in Political Science** The Fast Track program allows outstanding senior undergraduate Political Science (POLS) students to take up to three graduate courses (5000-level courses) to replace up to nine credit hours of advanced POLS undergraduate courses (3000- or 4000-level courses); the credit hours earned in these graduate courses can then be applied to both the Bachelor of Arts (BA) and to the Master of Arts (MA) in Political Science. Those who successfully complete the program will be automatically admitted to the Graduate School. They will not be required to take any qualifying test, complete an application for admission to the Graduate School, arrange for letters of reference, or pay an application fee. This enables students to complete their MA degree in a shorter time period.

**Applying to the POLS Fast Track Program** Undergraduate students apply to the Department of Political Science by completing a Fast Track application form available from the POLS academic advisor. Students will be notified by the Department of their acceptance into the Fast Track program.

**Unconditional Admission**

1. The student must be within 30 hours of completing a BA in Political Science at UTA.
2. The student must have completed 30 hours of coursework at UTA.
3. The student must have an overall GPA of at least 3.3 in all coursework at all schools and an overall GPA of at least 3.3 in all coursework completed at UTA.
4. The student must have an overall GPA of at least 3.5 in all POLS courses completed at UTA.

5. The student must have completed 12 credit hours of the following specific undergraduate POLS courses, with a GPA of at least 3.5 in these courses. (Courses from other universities or colleges that cover the same or similar material cannot replace any of these specific UTA courses.)

- POLS 2312 State and Local Government or its equivalent from another institution
- POLS 3310 Analyzing Politics
- POLS 3302 Introduction to International Relations, POLS 3303 Introduction to Public Administration, POLS 3304 Introduction to Comparative Politics, POLS 3305 Government in Urban America, POLS 3307 Comparative State and Local Politics, POLS 3311 Public Opinion, POLS 3312 Introduction to Public Policy Analysis, OR POLS 3333 Jurisprudence
- One substantive 4000-level POLS course from any of the area concentrations (excluding internships and conference or directed readings courses).

Provisional Admission

A student may gain provisional admission if, by the semester in which application is made, he or she has already completed 3 out of the 4 required POLS courses (listed above) with a GPA of at least 3.5 in them, with the 4th course to be completed in the semester of application. All other requirements above must be met. Provisional admission will be changed to unconditional admission upon satisfactory completion of remaining requirements. Students failing to meet all requirements at the end of their semester of application will be removed from the Fast Track program. Any credits earned prior to removal from the program will be applied to the undergraduate degree only. None of the other benefits of the Fast Track program will apply. Provisionally admitted students who have been removed from the program may subsequently apply to graduate programs via the normal application process, paying all fees and meeting all relevant admission criteria. Admission will not be automatic as it will be subject to the normal admission practices of the Department of Political Science and of the Office of Graduate Studies.

Denial

Students who do not meet the requirements set out shall be denied admission to the Fast Track program. They may still apply to the graduate program through the regular application process. Admission will not be automatic as it will be subject to the normal admission practices of the Department of Political Science and of the Office of Graduate Studies.

Good Standing

In order to remain in the Fast Track program, students must meet the following requirements:

1. Students must maintain an overall GPA of at least 3.0 and must earn grades of B or better in all Fast Track-approved graduate courses that will be used to satisfy undergraduate and graduate degree requirements of the Fast Track program.

2. Students must enroll in at least 2 graduate courses prior to receiving their bachelor's degree, and receive at least a B in each course.

Students who, at any time, do not meet these requirements will be obliged to leave the Fast Track program. Any graduate credits earned will be applied only to the undergraduate degree, and none of the other benefits of participation in the Fast Track program will apply. They may apply to the MA program as a regular student after receiving their BA.

For more information about the POLS Fast Track Program, please contact the undergraduate advisor in the Department of Political Science.
Sociology and Anthropology

Undergraduate Degrees

- Bachelor of Arts in Sociology (p. 1114)
- Bachelor of Science in Applied Sociology (p. 1114)
- Bachelor of Arts in Anthropology (p. 1125)
- Minor in Sociology (p. 1117)
- Minor in Anthropology (p. 1126)
- Minor in Popular Culture (p. 1117)

Graduate Degrees

- Sociology, M.A. (http://catalog.uta.edu/liberalarts/sociology/graduate/#masterstext/#masociology)

COURSES

ANTH 1200. PERSONAL AND PROFESSIONAL SUCCESS IN THE SOCIAL SCIENCES. 2 Hours.
A first year experience course for new students and new transfer students interested in a career in the social sciences. Provides the necessary foundation for success in a college environment while balancing personal and/or work obligations. Orient students to life on campus, demonstrates how to leverage campus resources to achieve career and academic goals, and emphasizes engagement outside the classroom through collaborative and co-curricular opportunities. Fulfills the University requirement for either UNIV 1101 or UNIV 1131. Offered as SOCI 1200 and ANTH 1200; credit will be granted only once.

ANTH 1306. INTRODUCTION TO ANTHROPOLOGY. 3 Hours. (TCCN = ANTH 2346)
This course, primarily intended for non-majors and as a first course for students considering majoring in anthropology, provides an overview of the subdisciplines of anthropology: ethnology (cultural anthropology), archaeology, physical (biological) anthropology, and linguistic anthropology.

ANTH 1310. GREAT DISCOVERIES IN ARCHAEOLOGY. 3 Hours.
A survey of some of the most spectacular and otherwise significant archaeological discoveries worldwide over the past three centuries. Consideration of particular archaeological sites as case studies to illustrate cultural development from the Stone Age to Medieval times.

ANTH 2307. BIOLOGICAL ANTHROPOLOGY. 3 Hours. (TCCN = ANTH 2301)
Human variation and human evolution. Genetics, living and fossil nonhuman primates, the human skeleton, the fossil record of human evolution, modern human variation and biological adaptation.

ANTH 2322. GLOBAL CULTURES. 3 Hours. (TCCN = ANTH 2351)
Methods and theories of sociocultural anthropology. Examines systems of social organization and cultural meaning in contemporary human societies. Topics include fieldwork, cross-cultural analysis, applied anthropology, and global perspectives on political, economic, and social institutions.

ANTH 2339. INTRODUCTION TO ARCHAEOLOGY. 3 Hours. (TCCN = ANTH 2302)
Archaeology is the study of the human past through physical evidence and material remains. This evidence ranges from entire landscapes to small objects. Students learn how archaeological sites are discovered, investigated, and interpreted, and how this knowledge contributes to our understanding of human society.

ANTH 2349. HONORS PRINCIPLES OF ARCHAEOLOGY. 3 Hours.
Methods and theories of prehistoric archaeology. Techniques and approaches employed in recovering, dating and interpreting prehistoric cultural materials. Writing-intensive course including group and individual projects and oral presentations. Prerequisite: Membership in the Honors College or permission of instructor.

ANTH 2357. ANTHROPOLOGY IN ACTION. 3 Hours.
Anthropological examination of a particular culture, region or cultural industry. Topics include identity, heritage, commoditization, historical and cultural representation, and authenticity. May be offered on campus or as a field course or study abroad course.

ANTH 2358. ARCHAEOLOGICAL CULTURES. 3 Hours.
Survey of a particular archaeological culture, region, or period. Can be offered on campus or as a field course or study abroad course.

ANTH 2359. MYTHS AND MYSTERIES IN ARCHAEOLOGY. 3 Hours.
This course will critically examine pseudoscience, cult archaeology and creationism from a scientific perspective. Through the close examination of case studies we will dispel archaeological myths and mysteries which are often depicted as fantastic or cult archaeology. This course will demonstrate that a strong adherence to scientific investigation can uncover facts about prehistory that are as interesting as the myths.

ANTH 2370. ASIAN AMERICAN EXPERIENCE. 3 Hours.
Examines the lived experiences and diverse histories of Asian Americans. Various aspects of the Asian American experience are addressed, including, but not limited to, immigration; citizenship; civic engagement, including alliances with Mexican American and African American social movements; health; and creative expressions in art, film, literature, and music. Themes related to the Asian American diaspora such as imagination, authenticity, identity, representation, stereotypes, consumption, ritual, and borders will also be discussed.
ANTH 3300. DEBATES IN CULTURAL ANTHROPOLOGY. 3 Hours.
Explores core concepts, critiques of past applications, and current challenges of theory and practice in cultural anthropology.

ANTH 3301. ARCHAEOLOGICAL METHOD AND THEORY. 3 Hours.
Explores core concepts, critiques of past applications, and current challenges of theory and practice in archaeology. Topics include history of archaeological thought, processual and actualistic approaches, ethnoarchaeology, evolutionary archaeology, stewardship of the archaeological past, and post-processual critiques. Prerequisite: ANTH 2339 or permission of instructor.

ANTH 3307. EVOLUTIONARY MEDICINE. 3 Hours.
The application of evolutionary theory to the practice of medicine from an anthropological perspective. Topics include diet/paleo diets, sleep habits, infectious diseases, the developmental origins of health and disease, mental health, women’s health and reproduction, and aging/senescence, among others. Offered as BIOL 3307 and ANTH 3307; credit will only be granted in one department.

ANTH 3308. FORENSIC ANTHROPOLOGY. 3 Hours.
Explores the role of skeletal biology and physical anthropology in criminal investigation. Topics include determination of victim identity and context of death. Case studies will be used to demonstrate application of the methods studied.

ANTH 3310. LATINOS IN THE U.S.. 3 Hours.
Examines the Latino experience in the U.S. from an interdisciplinary perspective. Discusses the commonalities and cultural differences among various Latino groups, and focuses on important contemporary Latino issues such as education, employment, family and gender, identity, immigration, and politics. May receive credit for either MAS 3310 or ANTH 3310.

ANTH 3311. HUMAN ADAPTATION AND THE CONCEPT OF RACE. 3 Hours.
The study of modern human biological variation in the context of the history of the concept of race. Detailed historical review explores changing perspectives on variation within our species. Course examines physiological adaptations to environmental stress among a variety of human populations and implications of recent genetic research. Offered as BIOL 3311 and ANTH 3311; credit will only be granted in one department.

ANTH 3313. PRIMATE EVOLUTION AND BEHAVIOR. 3 Hours.
An overview of the Primate Order covering primate origins, evolution, ecology, adaptation, and behavior. Examination of the environmental context within which primates live, how the form of their bodies reflects their activities, and how they relate behaviorally to their environments and to one another. Offered as BIOL 3313 and ANTH 3313; credit will only be granted in one department.

ANTH 3316. LATINO HEALTH ISSUES. 3 Hours.
A cross-cultural examination of issues in Latino health and relevant health practices in the United States through the lenses of social sciences. Themes include the Latino Threat Narrative, acculturation histories and health care status of major Latino ethnic enclaves in the U.S. Listed as SOCI 3316, MAS 3316, and ANTH 3316; may receive credit for either SOCI 3316, MAS 3316, or ANTH 3316.

ANTH 3318. BORDERS, CULTURES, AND CARTELS. 3 Hours.
Critically examines life on the Mexico-U.S. border through ethnography, taking into account the impact of the U.S. war on drugs and the influence of cartels on the lives of those living in the southern border region. Topics may include impacts and influences of drugs and narco life on religion, crime, music, and daily life at the nexus of US-Mexico relations. Listed as ANTH 3318 and MAS 3318; may receive credit for either ANTH 3318 or MAS 3318.

ANTH 3325. ETHNOGRAPHY OF SOUTH AMERICA. 3 Hours.
The indigenous groups of South America, with emphasis on the Aymara and Quechua of the Andes. Topics include culture change, environmental destruction, and preservation of cultural heritage.

ANTH 3328. CIVILIZATIONS OF SOUTH AMERICA. 3 Hours.
Complex agrarian civilizations in South America, concentrating on political, social, and cultural developments of the Chavin, Nazca, Moche, Tiahuanaco, Wari-Tiahuanaco, Inca, and Conquest periods. Formerly listed as ANTH 4328. Credit cannot be given for both ANTH 3328 and ANTH 4328.

ANTH 3329. CONTEMPORARY AFRICAN CULTURES. 3 Hours.
A comparative study of African communities with an emphasis on sub-Saharan Africa. Covers regional cultural geography and history as well as ethnography of specific communities. Explores both the challenges facing contemporary African nations as well as emerging solutions. Includes exposure to African art, literature, music, cinema, and food. Offered as AAST 3329 and ANTH 3329; credit will be granted in only one department.

ANTH 3330. CULTURAL DIVERSITY AND IDENTITY. 3 Hours.
The ways identity is constructed in contemporary societies in an increasingly complex and multicultural world. Ethnic, racial, gender, and class identities. How and when identity is asserted and assigned, and how it can both draw boundaries and forge ties between peoples. Formerly listed as ANTH 2350. Credit cannot be given for both ANTH 2350 and ANTH 3330. Also listed as MAS 3330; credit cannot be granted for both ANTH 3330 and MAS 3330. Offered as AAST 3330 and ANTH 3330; credit will be granted in only one department.

ANTH 3331. CULTURE AND PERSONALITY. 3 Hours.
The interplay of culture and personality in various Western and non-Western societies. The relationship of specific practices to the development of personality and the psychological effects of colonization, modernization, and economic development of traditional societies.

ANTH 3332. FOOD AND CULTURE. 3 Hours.
Considers food systems from biological, ecological, and political-economic perspectives. May include food history, cuisines, food preferences, and other areas of anthropological scholarship on food and culture. May cover food and economic development, hunger and overnutrition, food and religion, and the globalization of foods and food systems.
ANTH 3333. NORTH AMERICAN INDIANS. 3 Hours.
North American Indian cultures and their development both before and after European contact.

ANTH 3334. ANTHROPOLOGY OF SOUTH ASIA. 3 Hours.
With a focus on the Indian subcontinent, this course introduces students to the culture, history and politics of South Asia. Drawing upon anthropological studies and a range of materials, including Bollywood films, music, tourist brochures, advertisements, Gandhi’s writings, and South Asian literature, students will gain an increased understanding of the region’s past and present.

ANTH 3335. GANDHI: CULTURE AND POLITICS IN A GLOBAL WORLD. 3 Hours.
Introduction to the life and times of Mahatma Gandhi in order to explore the cultural politics of religion, food, animal welfare, sexuality, social movements, and globalization processes. Students gain understanding of Gandhi’s enduring significance in the contemporary world.

ANTH 3336. ANTHROPOLOGY OF RELIGION. 3 Hours.
A crosscultural study of magic and religion. Theories of the origin and function of magic and religion in pre-industrial societies.

ANTH 3337. COMPARATIVE KINSHIP AND FAMILY SYSTEMS. 3 Hours.
Variation in kinship and family systems from crosscultural and evolutionary perspectives. Structure, function, and dynamics of kinship and family systems as adaptations to diverse ecological, social, and historical circumstances. Implications of this approach for understanding kinship and family in American society also addressed. Formerly listed as ANTH 4338. Credit cannot be given for both ANTH 3338 and ANTH 4338. Also offered as GWSS 3338; credit will be granted only once. Offered as AAST 3332 and ANTH 3338; credit will be granted in only one department.

ANTH 3338. NORTH AMERICAN ARCHAEOLOGY. 3 Hours.
This course investigates the peoples and places of the prehistoric North American Southwest. The focus is on the period of increasing settlement, diversity, movement, and change from 500 to 1500 C.E. Focuses on the archaeological record, ethnographies and comparative research to understand the past and present peoples of the Southwest.
ANTH 3352. ARCHAEOLOGY OF AFRICA. 3 Hours.
Course follows the African archaeological record from earliest evidence for human behavior through beginnings of state society. Topics may include stone tool technologies, forager strategies, agricultural systems, early iron technology, and trade and social networks. This is a lecture course, with an emphasis on student research. No prerequisites required, but ANTH 2339 is recommended preparation.

ANTH 3353. STONE AGE HUNTERS AND FARMERS. 3 Hours.
Human adaptations and cultural evolution in the Old World from the earliest African sites over two million years ago to the domestication of plants and animals about ten thousand years ago. Formerly ANTH 2353; credit cannot be granted for both ANTH 2353 and ANTH 3353.

ANTH 3354. ANTHROPOLOGY OF HUNTING. 3 Hours.
Covers a broad range of topics exploring hunting through time, from the prehistoric to the present. Topics include cross-cultural issues of meat and diet, hunter-gatherer subsistence behavior, overkill and animal extinction, and sport hunting. Course is relevant to environmental studies and sustainability studies.

ANTH 3355. THE RISE OF CIVILIZATION. 3 Hours.
The development of complex cultures from village farming societies in various regions of the Old and New Worlds. The civilizations of Mesopotamia, Egypt, and Mesoamerica, among others, will be treated, along with general questions concerning the rise, development, and collapse of early civilizations. Formerly ANTH 2355; credit will not be granted for both ANTH 2355 and ANTH 3355.

ANTH 3356. MESOAMERICAN ARCHAEOLOGY. 3 Hours.
Covers cultural developments in Mesoamerica through the rise of complex societies and the Spanish conquest. Topics include the emergence of Olmecs, Zapotecs, Maya, Toltecs, and the Aztecs, and explore the factors that contributed to their appearance and decline. New discoveries within the field of Mesoamerican archaeology will be examined.

ANTH 3357. COLLAPSE AND SUSTAINABILITY OF SOCIETIES. 3 Hours.
This course investigates the collapse of past societies. Understanding why and how archaeologically-known societies collapsed may provide insights to help us understand contemporary social and environmental sustainability problems.

ANTH 3358. UNDERWATER ARCHAEOLOGY. 3 Hours.
Explores the field of underwater archaeology and research methods. Topics include shipwrecks, submerged terrestrial sites, the use of scuba diving, robots, and sonar in excavation and survey, and the history and development of the discipline.

ANTH 3359. STONE TOOLS. 3 Hours.
Covers the evolution of stone tools from the first modified stone objects to the use of stone tools in complex societies such as the ancient Maya and Egyptians. Introduces students to lithic analysis and manufacture, emphasizing hands-on learning.

ANTH 3360. ARCHAEOLOGY IN PRACTICE. 3 Hours.
Covers the practical aspects of archaeology with a focus on hands-on activities and experiential learning. Students learn archaeological skills and understand the life and research of archaeologists. Topics may include research design, survey, and the laws protecting archaeological sites.

ANTH 3366. SEX, GENDER, AND CULTURE. 3 Hours.
The ways gender and sexuality are culturally constructed. Readings include ethnographies, life histories, and fiction. Debates within anthropology and within specific cultures over maleness and femaleness. Offered as ANTH 3366 and GWSS 3366; credit will be granted only once.

ANTH 3369. MEDICAL ANTHROPOLOGY. 3 Hours.
Medical systems studied cross-culturally to understand how environmental, biological, social, and cultural factors affect disease and health. The cultural dynamics of traditional practitioners and rituals within the health care system. Methods of articulating modern medicine with traditional medicine are discussed.

ANTH 3370. ARCHAEOLOGY OF THE PREHISTORIC AEGEAN. 3 Hours.
Origin, evolution and decline of the first high civilizations in Europe, namely the Minoans on the island of Crete and the Mycenaeans in Greece. Stone Age background and Early Bronze Age seafaring in the Cycladic Islands; Late Bronze Age society, economy, and religion; art and architecture of the Minoan and Mycenaean palaces; Linear A and B tablets; Mycenaean collapse and the beginning of the Iron Age; Homer's Iliad, archaeology and the Trojan War.

ANTH 3371. ARCHAEOLOGY OF GREECE. 3 Hours.
Material evidence relevant to our understanding of classical Greek culture and society from the collapse of the Mycenaean Empire through the Hellenistic Period (ca. 1200-31 B.C.). Examination of the magnificent (temples, sculpture, athletic monuments, ships) and the mundane (domestic architecture, pottery, crafts, coinage, inscriptions, architecture and artifacts of civic life, burials). Archaeological evidence will be considered in light of contemporary historical sources.

ANTH 3372. ARCHAEOLOGY OF THE ANCIENT NEAR EAST. 3 Hours.
Survey of the cultures of Mesopotamia, Syria, Palestine, and Anatolia from the earliest agricultural settlements to the late first millennium B.C. based on the surviving archaeological remains. Among the topics covered: Nature of early urbanism; development of religious and economic hierarchies; origins and impact of writing; interrelationships among early states.
ANTH 3373. ARCHAEOLOGY OF EGYPT. 3 Hours.
The culture of ancient Egypt from its earliest occupation until the Arab invasion (7th century A.C.), with emphasis on the first 20 pharaonic dynasties (third and second millennium B.C.). Egyptian social, religious, economic and political development traced through the surviving material culture (architecture, art, industries, artifacts of daily life, funerary remains, etc.) supplemented by historical and literary evidence as pertinent. Egypt's relations with neighboring regions (Crete, Anatolia, Palestine, Nubia and Libya) considered. Offered as AAST 3373 and ANTH 3373; credit will be granted in only one department.

ANTH 3374. ARCHAEOLOGY OF EUROPE. 3 Hours.
Ancient Europe is a mosaic of archaeological regionalism whose complexity is arguably unparalleled elsewhere in the world. This course surveys the material remains of several prominent ancient cultures from Iberia to the Danube, from Scandinavia to Greece, dating from stone age to medieval times. Emphasis will be on understanding the various regional traditions and their interactions, and on explicating trends in technology, economy and religion in European society during this long period. Among the topics to be examined: Paleolithic hunters and artists; agricultural origins; megalithic monuments; bronze metallurgy and its ramifications; the first high civilizations in the Mediterranean; the rise of the Celts; the coming of iron; impact of Romanization; the nature of Viking exploration and expansion.

ANTH 3375. NEANDERTHALS AND THE ICE AGE WORLD. 3 Hours.
Explores the archaeological record of Neanderthals, early modern humans, and their contemporaries. Topics include new genetic and isotopic analyses, ancient environments, early art and symbolism, and how the Paleolithic is imagined in modern society.

ANTH 3390. SPECIAL TOPICS IN ANTHROPOLOGY. 3 Hours.
Selected, specialized topics in anthropology. These may be cultural, archaeological, or biological in focus, and vary each semester. Contact the department or click on the course link to find current course title and description. May be repeated for credit with departmental permission as topics vary.

ANTH 3409. PALEOANTHROPOLOGY. 4 Hours.
Paleoanthropology: an exploration of fossil evidence for human origins and human evolution. Course focuses on the evolution of humans and our close relatives, from our origins as a distinct lineage to "anatomically modern" Homo sapiens, including the relationship between biological and cultural/behavioral evolution. Offered as BIOL 3409 and ANTH 3409; credit will be granted only once.

ANTH 4191. CONFERENCE COURSE. 1 Hour.
Topics assigned on an individual basis covering personal research or study in the designated area. Topics assigned on an individual basis covering personal research or study in the designated area. Prerequisite: permission of the instructor.

ANTH 4291. CONFERENCE COURSE. 2 Hours.
Topics assigned on an individual basis covering personal research or study in the designated area. Topics assigned on an individual basis covering personal research or study in the designated area. Prerequisite: permission of the instructor.

ANTH 4315. GROWTH, DEVELOPMENT, AND EVOLUTION. 3 Hours.
A survey of topics at the nexus of modern human biological research in growth and development and the evolutionary record of hominid subadults. Offered as BIOL 4316 and ANTH 4315; credit will be granted only in one department. Prerequisite is only required for students registering for ANTH 4315. Prerequisite: ANTH 2307 or permission of the instructor.

ANTH 4322. PROBLEMS IN ANTHROPOLOGY. 3 Hours.
Intensive examination of an important problem in anthropological research selected by the instructor. May be repeated for credit whenever the topic varies.

ANTH 4342. TOPICS IN CULTURAL ANTHROPOLOGY. 3 Hours.
Selected topics, to include anthropological theory, population and cultural ecology, semiotics, and humanistic anthropology. May be repeated for credit with departmental permission. Also offered as ANTH 4342. Credit will be granted in only one department.

ANTH 4358. TOPICS IN ARCHAEOLOGY. 3 Hours.
Selected topics, to include examination of specific archaeological cultures of the Old World, archaeological theory, and archaeology and pseudoscience. May be taken up to four times for a total of 12 hours credit.

ANTH 4391. CONFERENCE COURSE. 3 Hours.
Topics assigned on an individual basis covering personal research or study in the designated area. Topics assigned on an individual basis covering personal research or study in the designated area. Prerequisite: permission of the instructor.

ANTH 4392. PRACTICUM IN ANTHROPOLOGY. 3 Hours.
Supervised practicum with anthropology faculty in which students apply practical, career-oriented anthropological skills in archaeology, biological anthropology, or cultural anthropology. Prerequisite: ANTH 2307, ANTH 2322, OR ANTH 2339; permission of the instructor; and junior standing.
ANTH 4393. INTERNSHIP IN ANTHROPOLOGY. 3 Hours.
Supervised internship program, in which students intern at various companies, non-profit and governmental agencies, and museums in the Metroplex. Applied use of anthropology in a non-academic setting. Students will learn skills of career development in anthropology. Requirements include several short assignments and a final report to the instructor. Prerequisite: ANTH 2307, ANTH 2322, OR ANTH 2339; permission of the instructor; and junior standing.

ANTH 4394. HONORS THESIS/SENIOR PROJECT. 3 Hours.
Required of all students in the University Honors College. During the senior year, the student must complete a thesis or project of equivalent difficulty under the direction of a faculty member in the major department.

ANTH 4398. SUMMER FIELD SCHOOL IN ANTHROPOLOGY. 3 Hours.
(3 or 6 hours credit). Offered only during the summer session. Experience in methods of field research in ethnography or archaeology. May be repeated for credit if research topic changes.

ANTH 4406. HUMAN OSTEOLOGY. 4 Hours.
Detailed examination of human skeletal morphology. Topics include form and function of all skeletal elements in the human body, differentiation of each bone, left and right side identification, identification or fragmented remains, and muscle attachments and articulations. Content useful in forensic anthropology, archaeology, and hominid paleontology. Offered as BIOL 4406 and ANTH 4446; credit will be granted only in one department.

ANTH 4459. BIOARCHAEOLOGY. 4 Hours.
The study of human remains in archaeological contexts in order to reconstruct individual identity, life history, and past population characteristics. No formal prerequisites, but familiarity with the human skeleton is helpful. Lab component is required. Offered as BIOL 4459 and ANTH 4445; credit will be granted only in one department.

ANTH 4460. ZOOARCHAEOLOGY. 4 Hours.
The study of faunal remains from archaeological contexts to understand past human economic strategies and ecological circumstances. Topics include skeletal and taxonomic identification, taphonomic processes, mortality profiles, biometric analyses, and human behavioral ecology. Lab component is required. Offered as BIOL 4460 and ANTH 4445; credit will be granted only once.

ANTH 4498. SUMMER FIELD SCHOOL IN ANTHROPOLOGY. 6 Hours.
(3 or 6 hours credit). Offered only during the summer session. Experience in methods of field research in ethnography or archaeology. May be repeated for credit if research topic changes.

ANTH 5191. CONFERENCE COURSE. 1 Hour.

ANTH 5307. FORENSIC ANTHROPOLOGY. 3 Hours.
Estimating age, sex, race, stature, pathology, cause of death, and time since death from human remains. The role of skeletal biology and physical anthropology in criminal investigation. Case studies will be used to demonstrate application of the methods studied. Requires enrollment in the undergraduate lab section.

ANTH 5310. HISTORY OF ANTHROPOLOGICAL THEORY. 3 Hours.
This course is a critical examination of major theoretical trends in ethnological theory, from mid-19th century to the present.

ANTH 5315. ARCHAEOLOGICAL METHODS. 3 Hours.
An examination of research methods and underlying theory in archaeology and their evolution since the era of European antiquarianism. Origins and development of archaeology as a scholarly discipline. Emphasis on the period 1960-present; consideration of recent trends in analysis and reporting.

ANTH 5317. ARCHAEOLOGY OF EXPLORATION. 3 Hours.
Archaeological evidence for travel in antiquity. Technology of travel (horse/camel, wheeled vehicles, boats) and related topics (navigation; development of trade and trade routes; nature of discovery, settlement and colonization in antiquity). Case studies drawn from ancient cultures of the Old World from the Stone Age through Medieval times.

ANTH 5320. METHODS IN BIOLOGICAL ANTHROPOLOGY. 3 Hours.
This course covers several topical areas relevant to biological anthropologists specializing in human biology, including osteology and skeletal biology, skeletal maturation (both postcranial and craniofacial), growth and development from birth to biological maturity, and selected topics in forensics, anthropometry, physiology, nutrition, genetics, epidemiology, and demography.

ANTH 5325. QUALITATIVE METHODS. 3 Hours.
Students do fieldwork in anthropology. Students practice participant observation, conduct an interview, collect a kinship chart, map blocks, collect life histories and participate in rituals. Course emphasizes methods of data collection, analysis/interpretation of data, and critical writing.

ANTH 5341. POSTCOLONIAL SOUTH ASIA. 3 Hours.
It approaches the competing and complementary claims on postcolonial theory by mapping the intersections in historical anthropology, literary theory, and cultural analysis. More broadly it brings to focus the shifts from Marxist to Poststructuralist directions. Though the regional focus is on India, the endeavor is also to assess dialogues among varying strands of cultural perspectives and its impact in other postcolonial contexts, both within and beyond the South Asian subcontinent.

ANTH 5342. ADVANCED ETHNOLOGY. 3 Hours.
Seminar based on student reports and critiques of assigned readings. Major emphasis on the areas of ethnology and social anthropology.

ANTH 5344. CULTURES OF LATIN AMERICA. 3 Hours.
An ethnological comparison of societies and cultures in Central and South America. Emphasis on gender, ethnicity, and political economy.
ANTH 5345. RELIGION AND CULTURE. 3 Hours.
An ethnological comparison of native religions to understand non-western belief systems. Emphasis on rituals, myths, totemic systems, taboos, and cosmology.

ANTH 5346. MESOAMERICAN ARCHAEOLOGY. 3 Hours.
An examination of the diversities of several prehistoric Mesoamerican cultures including the Olmec, Maya, Teotihuacan, Zapotec, and the Aztec. Current issues including the beginnings of agriculture, early village life, the rise of complexity and the institution of kingship, warfare, and Mesoamerican ideology and cosmology will be addressed.

ANTH 5349. TOPICS IN ANTHROPOLOGY. 3 Hours.
May be repeated for credit as the topic changes.

ANTH 5351. EMERGENCE OF HUMANKIND. 3 Hours.
An intensive review of the evidence for, and main outlines of, human biological and cultural evolution up to agricultural origins.

ANTH 5353. MEDICAL ANTHROPOLOGY. 3 Hours.
An examination of anthropological concepts for understanding curing practices and attitudes toward health programs in various cultures.

ANTH 5355. HUNTERS AND GATHERERS. 3 Hours.
Cross-cultural approach to the ecological, social, and historical contexts of hunters, gatherers, and foragers.

ANTH 5363. ETHNOGRAPHY AND PERSONAL NARRATIVE. 3 Hours.
Focus is on anthropology and autobiography, autoethnography, life history, and narrative constructions of selfhood in different cultural contexts. Development of the life history approach in ethnographic research. Methods in the collections and analysis of life stories.

ANTH 5365. GLOBALIZATION AND INTERNATIONAL MIGRATION. 3 Hours.
Examines how the expansion of global capitalist economy has contributed to the growth of international migration around the world. Focuses on how transnational migration affects the economic, social, political, and cultural practices of immigrants in both their countries of origin and destination.

ANTH 5369. FOLKLORE AND MYTHOLOGY. 3 Hours.
Function, forms, and interpretation of folklore and myth in traditional societies; examination of oral literature as an expression of continuity and change; emphasis on a structural analysis of myth.

ANTH 5370. APPLIED ANTHROPOLOGY. 3 Hours.
Examines the application of anthropological knowledge to solve practical problems in today's global world. We learn how anthropological concepts, methods, and insights are applied to understand and solve important problems related to economic development, health, environmental issues, immigration, international business, and others.

ANTH 5371. RESEARCH PRACTICUM / INTERNSHIP. 3 Hours.

ANTH 5373. ARCHAEOLOGY FIELD SCHOOL. 3 Hours.
This course, conducted during the summer sessions, consists of on-site and classroom instruction in techniques of archaeological survey, excavation, laboratory, processing, and analysis. Students can receive either three or six hours of credit. Enrollment by permission of instructor only. Prior coursework in anthropology desirable but not necessary.

ANTH 5389. TEACHING ANTHROPOLOGY. 3 Hours.
To learn strategies of coping with practical problems of teaching undergraduate anthropology, students confer with one or more professors to discuss preparing syllabi and lectures, constructing and evaluating examinations, etc. Not to be counted toward the degree requirement.

ANTH 5392. CONFERENCE COURSE IN ANTHROPOLOGY. 3 Hours.

ANTH 5398. THESIS. 3 Hours.

ANTH 5406. HUMAN OSTEOLOGY. 4 Hours.
Detailed examination of human skeletal morphology. Topics include form and function of all skeletal elements in the human body, differentiation of each bone, left and right side identification, identification of fragmented remains, and muscle attachments and articulations. Content useful in forensic anthropology, archaeology, and hominid paleontology. If taken for undergraduate credit either as ANTH 4306 or ANTH 4406, cannot be repeated for graduate credit.

ANTH 5673. ARCHAEOLOGY FIELD SCHOOL. 6 Hours.
This course, conducted during the summer sessions, consists of on-site and classroom instruction in techniques of archaeological survey, excavation, laboratory, processing, and analysis. Students can receive either three or six hours of credit. Enrollment by permission of instructor only. Prior coursework in anthropology desirable but not necessary.
ANTH 5698. THESIS. 6 Hours.

COURSES

SOCI 1200. PERSONAL AND PROFESSIONAL SUCCESS IN THE SOCIAL SCIENCES. 2 Hours.
A first year experience course for new students and new transfer students interested in a career in the social sciences. Provides the necessary foundation for success in a college environment while balancing personal and/or work obligations. Orient's students to life on campus, demonstrates how to leverage campus resources to achieve career and academic goals, and emphasizes engagement outside the classroom through collaborative and co-curricular opportunities. Fulfills the University requirement for either UNIV 1101 or UNIV 1131. Offered as SOCI 1200 and ANTH 1200; credit will be granted only once.

SOCI 1310. INTRODUCTION TO POPULAR CULTURE. 3 Hours.
This course will introduce students to the role of popular culture in American society. It examines culture as a process through which people make symbolic meaning out of the world. Since everyone has access to popular culture, it constructs the way that people think about the world around them. The course will explore the creation, production, dissemination, reception and consumption of popular culture.

SOCI 1311. INTRODUCTION TO SOCIOLOGY. 3 Hours. (TCCN = SOCI 1301)
(SOCI 1301). A scientific approach to the analysis and explanation of culture, personality, and social organization. The social processes and mechanisms of interaction involved in the natural process of cultural development, dissemination, assimilation, and the institutions of the group. This course satisfies the University of Texas at Arlington core curriculum requirement in Social and Behavioral Sciences.

SOCI 2312. SOCIAL PROBLEMS. 3 Hours. (TCCN = SOCI 1306)
A survey of contemporary social problems in the United States. Emphasis is on applying different theoretical perspectives and systematic procedures to understand social problems as public issues rather than personal problems. This course satisfies the University of Texas at Arlington core curriculum requirement in Social and Behavioral Sciences.

SOCI 3312. JUVENILE DELINQUENCY. 3 Hours.
The delinquent as a person and delinquency as a social problem, theories of delinquency, and methods of correctional treatment and preventive programs.

SOCI 3313. CRIMINOLOGY. 3 Hours.
Crime-related social issues. Defining and measuring crime, surveying major theoretical explanations of criminal behavior, and society's formal responses to crime and criminals.

SOCI 3314. THE LATINA EXPERIENCE. 3 Hours.
Examines the social, cultural and economic experiences of Latin American women in the United States, with particular emphasis on Mexican-origin women. The course surveys the historical and contemporary experiences of Latinas in the United States with respect to family dynamics, religion, education, politics, health and illness, the labor market, mass media, and the arts. Offered as MAS 3314, SOCI 3314, SOCW 3314, GWSS 3314, and AAST 3321. Credit will be granted in only one department.

SOCI 3315. SOCIAL PSYCHOLOGY OF CRIME. 3 Hours.
Selected concepts in social psychology applied to issues in crime and justice, such as the actions of victims, criminals, and criminal justice professionals. Topics include aggression, social perception, cognitions, conformity, obedience, and deviance.

SOCI 3316. LATINO HEALTH ISSUES. 3 Hours.
A cross-cultural examination of issues in Latino health and relevant health practices in the United States through the lenses of social sciences. Themes include the Latino Threat Narrative, acculturation histories and health care status of major Latino ethnic enclaves in the U.S. Listed as SOCI 3316, MAS 3316, and ANTH 3316; may receive credit for either SOCI 3316, MAS 3316, or ANTH 3316.

SOCI 3317. INDIVIDUAL AND SOCIETY. 3 Hours.
How society influences individual thought, feeling, and behavior. Includes interpersonal perception, attitudes, norms, roles, conformity, and such social issues as aggression, helping behavior, prejudice, and interpersonal attraction.

SOCI 3318. SELF AND SOCIAL IDENTITY. 3 Hours.
The social self. Topics include factors in the development, organization, evaluation and presentation of self in everyday life and processes by which social categories and roles influence self concept.

SOCI 3319. SMALL GROUPS. 3 Hours.
The process and structures of small-scale interaction systems, including an analysis of the process of leadership, the exercise of influence, the effect of groups on individuals and of individuals on groups, the relation and function of the small group as a part of a larger whole, and the process of group formation, development, and disintegration.

SOCI 3320. DEVIANCE: SOCIAL AND PERSONAL. 3 Hours.
Theoretical perspectives on societal definitions of behavior as deviant or disorganized. Selected studies, representative of current problems, examined critically in terms of the structural-cultural conditions of contemporary society.

SOCI 3321. SOCIALIZATION AND SOCIAL CONTROL. 3 Hours.
The relationship between social structure and the individual. The influence of social factors on cognitive development, personality formation, and the behavior of individuals throughout the lifecycle. The effect of socialization on conformity and deviance. Prerequisite: sophomore standing or permission of the instructor.
SOCI 3322. RACE, LATINOS, AND THE AMERICAN NARRATIVE. 3 Hours.
Adopts race and ethnicity as a central platform to examine how sociocultural and structural processes intersect to shape an American narrative of Latinos in the United States. Assesses topics like ethnic capital, socioeconomic mobility, and the digital age to broaden a sociological understanding of Latino group progress in relation to widening inequality gaps. Offered as SOCI 3322 and MAS 3322; credit will be granted in only one department.

SOCI 3323. COLLECTIVE BEHAVIOR. 3 Hours.
Provides an overview of the elementary forms of collective behavior including riots, panics, fads, fashion, cults and crazes. Explanatory theories and specific instances of the different forms of collective behavior are examined. Prerequisite: SOCI 1311.

SOCI 3324. SOCIAL MOVEMENTS. 3 Hours.
Focuses on twentieth and twenty-first century social movements, including the U.S. civil rights movement, the student and anti-war movements of the 1960s, the women's movement, the environmental movement, and anti-globalization movements. Status politics movements, such as pro-choice/pro-life and gay rights movements, are also explored. Compares these movements with their counterparts in other countries and identifies the reasons for their successes and failures.

SOCI 3327. INTERCULTURAL INTERACTION. 3 Hours.
Patterns and variations in interactions involving people from different cultures and subcultures. Intercultural interaction, both within multicultural societies and between persons from different societies.

SOCI 3328. MARITAL AND SEXUAL LIFESTYLES. 3 Hours.
Contemporary American lifestyles selected from: singles, traditional marriage, homosexuals, single-parent families, open marriage, non-marital sexuality, cohabitation, dual-career marriage, childless couples, egalitarian marriage, families in later life. Offered as DIVR 3328, SOCI 3328 and GWSS 3328; credit will be granted only once.

SOCI 3331. SOCIOLOGY OF THE FAMILY. 3 Hours.
The family's role in American society and in other cultures past, present, and future. Family research methods, comparative family systems, child development/parenting, culture and personality, minority families, social class variation in families, work and family. Offered as SOCI 3331 and GWSS 3331; credit will be granted only once. Prerequisite: sophomore standing or permission of the instructor.

SOCI 3332. SOCIOLOGY OF REPRODUCTION. 3 Hours.
Investigates historical and contemporary cultural customs, social institutions, and personal experiences related to reproduction. Topics may include assisted reproduction, pregnancy loss, living "child-free," sperm/egg donation, and surrogacy. Examines how changing economic conditions, technologies, and social norms shape the meaning of children, childbirth education, infertility, and the experience of birth for both men and women.

SOCI 3333. SOCIOLOGY OF GENDER. 3 Hours.
Examination of theoretical and empirical approaches to understanding the formation of gender. Assesses individual and structural dimensions of gender in various social institutions including work, education, and families. Offered as SOCI 3334 and GWSS 3334; credit will be granted only once.

SOCI 3336. SOCIAL INEQUALITY. 3 Hours.
Examines the processes, characteristics, and consequences of social inequality in society. Topics include the social class structure, status groups, and elite power structure as they influence people's life chances. Offered as AAST 3336 and SOCI 3336; credit will be granted in only one department.

SOCI 3337. RACIAL & ETHNIC GROUPS IN US. 3 Hours.
Compares the immigration, acculturation, and adjustment processes of various racial/ethnic groups in the U.S. Examines historical and contemporary discrimination in relation to the social conditions of racial/ethnic minority groups in the U.S. Topics include classical and contemporary theory; individualistic, cultural, and structural arguments about social arrangements; and conflict among majority and minority groups. Offered as AAST 3337, MAS 3337, and SOCI 3337; credit will be granted in only one department. Credit will not be granted for both SOCI 3337 and SOCI 4310 or for MAS 3337 and MAS 4310.

SOCI 3338. CONTEMPORARY BLACK EXPERIENCE. 3 Hours.
An overview of recent research concerning the African American experience in the post-civil rights era. Topics include explanations for racial differences across spheres of society such as income, education, and occupation; the debate over race versus social class; the persistence of racial discrimination; and emerging disputes within the black community regarding "what it means to be black." Offered as AAST 3338 and SOCI 3338; credit will be granted in only one department.

SOCI 3339. RACE, SPORT AND MEDIA. 3 Hours.
The media, including television, film, print, audio, and online outlets, influence how we view the world. This course analyzes overt, subtle and subliminal messages about culture, race, ethnicity, and sport as presented to us through various forms of the media. Through examinations of media portrayals of race, both past and present, students will analyze media artifacts, identify recurring themes, and examine research focused on the societal effects of stereotypical media portrayals. Offered as AAST 3339 and SOCI 3339; credit will be granted in only one department.

SOCI 3340. SOCIOLOGY OF EDUCATION. 3 Hours.
This course examines the sociocultural processes involved in the production of academic inequalities. It assesses how families shape students' opportunity structures and explores how factors like teacher influences, neighborhood environments, peer groups, and cultural resources shape students' educational trajectories. The course emphasizes college and university settings to further understandings of the disparate academic experiences of marginalized student groups. Prerequisite: sophomore standing or permission of the instructor.
SOCI 3341. SOCIOLOGY OF SPORT. 3 Hours.
Sociological examination of the institution of sport in U.S. society. By examining selected topics such as sport and socialization, sport and politics, sport and education, the Olympics, race and sport, violence in sport, women in sport, and the business of sport, this course will address the social significance of sport and its function as a major social institution.

SO CI 3342. SOCIOLOGY OF THE HUMAN BODY. 3 Hours.
Drawing from the social sciences, cultural and gender studies, and exercise physiology, this course in body sociology addresses several contemporary issues relating to diet, nutrition and exercise. Specific topics include eating disorders, factory farming, and “body industries” involving weight-loss diets, gyms, fashion, and cosmetic and bariatric surgery. The medical model of bodies is also examined. Also listed as KINE 3342; credit will not be granted for both.

SO CI 3343. RELIGION IN MODERN AMERICA. 3 Hours.
This course provides an overview of the scientific study of religion from a sociological perspective. The focus is on theories, research and trends relevant to religion in the contemporary United States. Topics include, but are not limited to, religious traditions, practices, and beliefs; declining religious participation; and religion and social change. The relationship between religion, politics, race relations, sex and gender will also be examined. Offered as SOCI 3343 and AAST 3342; credit will be granted in only one department.

SO CI 3344. SOCIOLOGY OF THE 1960S. 3 Hours.
This course presents a sociological analysis of the sixties, stressing the connection between grassroots mobilization and large structures of power, war, race and gender. The legacy of the sixties is examined through stories told by and about activists of the period. Parallels between the sixties and the present are identified. Movements covered may include civil rights, black power, anti-war and women’s rights. Offered as AAST 3344 and SO CI 3345; credit will be granted in only one department.

SO CI 3345. U.S. INTO THE TWENTY-FIRST CENTURY. 3 Hours.
Selected problems, prospects, and dilemmas examined in the context of contemporary perspectives in sociology as the United States enters the new millennium as a global actor.

SO CI 3346. ENVIRONMENT AND SOCIETY. 3 Hours.
Explores the causes, consequences, and potential resolutions of environmental issues as they relate to human society. Topics include the social roots of environmental problems, inequalities in the distribution of environmental risks and harms, and new directions in sustainable development.

SO CI 3347. SOCIAL ASPECTS OF RISK. 3 Hours.
An examination of the social aspects of risk in everyday life. The course covers the relationship between risk and thrill-seeking behavior, risk assessment and the management of risk by technical experts, risk perceptions among the general public, and how technology and culture change the nature and meaning of risk over time.

SO CI 3351. WORK, OCCUPATIONS, AND CAREER DEVELOPMENT. 3 Hours.
Combines applied information on career development with a sociological perspective on work and occupations. Career development topics may include academic majors and career options, networking, career mentorship and sponsorship, job searches, resume writing, and interviewing. Other topics may include the historical development of work, occupational structures (professional, managerial, service, and blue-collar occupations), inequalities, work satisfaction, work-life balance, and the future of work.

SO CI 3352. SOCIAL STATISTICS. 3 Hours.
Descriptive statistics including measures of central tendency, measures of dispersion, and measures of association. Emphasis is on probability theory and testing hypotheses. Specific models include T-Test, chi-square, gamma, lambda, theta, analysis of variance and covariance, regression and correlation analysis. Prerequisite: sophomore standing or permission of the instructor.

SO CI 3353. SOCIAL CLIMATE OF CITIES. 3 Hours.
A comparative study of urban communities and metropolitan areas in terms of their distinctive social life and culture. Topics touching on power and urban politics, race and ethnic relations, poverty, and leisure and lifestyles will be examined in terms of their contribution to the unique social climate of cities. Offered as AAST 3353 and SO CI 3353; credit will be granted in only one department.

SO CI 3355. APPS AND TOOLS FOR SOCIAL RESEARCH. 3 Hours.
A hands-on course in which students learn to use the apps and tools commonly used in qualitative and quantitative social research to collect, manage, analyze, and present different types of information, such as numeric data, pictures, audio, video, and text. Satisfies the university requirements for computer literacy and oral communication.

SO CI 3356. WOMEN, WORK AND SOCIAL CHANGE. 3 Hours.
Women’s work experiences, how these experiences are changing, and relationship between paid employment and non-wage household labor. Paid and unpaid work experiences are empirically examined in terms of a variety of theoretical perspectives. Offered as DIVR 3356, SO CI 3356 and GWSS 3356; credit will be granted only once.

SO CI 3357. LAW AND SOCIETY. 3 Hours.
Law as a social institution. The processes of defining criminal conduct and the social functions of law and of legal processes and systems. Prerequisite: sophomore standing or permission of the instructor.

SO CI 3360. TOPICS IN SOCIOLOGY. 3 Hours.
Selected topics in social issues, policy, processes and/or structure. May be repeated for credit with departmental permission.
SOCI 3362. SOCIAL RESEARCH. 3 Hours.
Students examine quantitative and qualitative research designs, such as experiments, survey research, and intensive interviewing. Additional topics including research ethics, literature reviews, measurement, sampling, and causation. Required of all sociology majors.

SOCI 3365. PROGRAM EVALUATION & NEEDS ASSESSMENT. 3 Hours.
Introduces basic concepts in evaluation research addressing the need for and implementation, effectiveness, and efficiency of social intervention efforts. Students will advance their skills in quantitative and qualitative research in partnership with community organizations. The course provides an opportunity to learn about and apply techniques for needs assessment, formative and summative program evaluation, developing and testing social impact models, examining costs and benefits, and communicating findings. Prerequisite: SOCI 3462.

SOCI 3366. POPULATION TRENDS AND PROCESSES. 3 Hours.
Examines the fact that all people are born, usually move from one place to another, and inevitably die. Societal patterns in human fertility, migration and mortality contribute to widely varied life-chances for people over time and across the planet. This course explores theories and research on demographic dimensions of human behavior as they affect social and economic issues. The course provides an understanding of how vital population trends and processes are for assessing social problems and offering solutions. Credit will not be granted for both SOCI 4325 and SOCI 3366.

SOCI 3372. SOCIOLOGICAL THEORY. 3 Hours.
This course introduces students to major theories and figures who have provided sociology with interpretations of the social world. Students will consider how sociologists use theoretical concepts to understand social interactions, social problems, and social change. Students will apply sociological theories to social phenomena. Prerequisite: junior standing or permission of the instructor.

SOCI 3373. SOCIAL THEORY THROUGH POPULAR CULTURE. 3 Hours.
This course examines major theories and figures who have provided sociology with interpretations of the social world. Students will read major social, cultural, and political theories through popular culture texts (including movies, television, music, video games, and comic books) in order to interpret sociological theory. The course is designed to demonstrate the relevance of social theory in students' everyday lives.

SOCI 3380. SCIENCE AND TECHNOLOGY IN SOCIETY. 3 Hours.
Explores the complex relationship between society, science, and technology. Themes include historical perspectives on the production and deployment of scientific knowledge, critical approaches to the social, cultural, and ethical impacts of scientific and technological developments, and the role of democracy in the advancement of science and technology.

SOCI 3381. GIG WORKERS. 3 Hours.
This course examines the way employers increasingly rely on temporary flexible labor, and what it feels like to be employed precariously. Themes may include creative labor, cultural production, automation, algorithmic hiring, labor contracts, and exploitation.

SOCI 3390. HONORS COLLOQUIUM. 3 Hours.
An interdisciplinary course designed to meet the needs of advanced undergraduates in the Honors College. Prerequisite: participation in the Honors College and/or permission of the instructor.

SOCI 4191. CONFERENCE COURSE. 1 Hour.
Topics assigned on an individual basis covering personal research or study in the designated areas. Prerequisite: permission of the instructor.

SOCI 4193. INTERNSHIP IN SOCIOLOGY. 1 Hour.
Supervised internship program in which a student interns at a company, non-profit organization, or governmental agency. Involves the application of sociology in a non-academic setting. Students may complete a maximum of 6 hours in any combination of SOCI 4193, SOCI 4293, and SOCI 4393. Prerequisite: SOCI 1311 or SOCI 2313; permission of the instructor; and junior standing.

SOCI 4195. SERVICE LEARNING INDEPENDENT STUDY. 1 Hour.
This course involves the investigation and application of sociological knowledge through community based service. Involves structured academic analysis of service experiences. The student and supervising faculty will identify the partner agency and social issue to be addressed. Prerequisite: permission of the instructor.

SOCI 4291. CONFERENCE COURSE. 2 Hours.
Topics assigned on an individual basis covering personal research or study in the designated areas. Prerequisite: permission of the instructor.

SOCI 4293. INTERNSHIP IN SOCIOLOGY. 2 Hours.
Supervised internship program in which a student interns at a company, non-profit organization, or governmental agency. Involves the application of sociology in a non-academic setting. Students may complete a maximum of 6 hours in any combination of SOCI 4193, SOCI 4293 and SOCI 4393. Prerequisite: SOCI 1311 or SOCI 2312; permission of the instructor; and junior standing.

SOCI 4295. SERVICE LEARNING INDEPENDENT STUDY. 2 Hours.
This course involves the investigation of sociological knowledge through community based service. Involves structured academic analysis of service experiences. The student and supervising faculty will identify the partner agency and social issue to be addressed. Prerequisite: permission of the instructor.

SOCI 4303. WOMEN IN SOCIETY. 3 Hours.
Women's status in contemporary American society, including the family, workplace, and politics. Women's status will also be examined in historical and crosscultural perspectives. Offered as SOCI 4303 and GWSS 4303; credit will be granted only once.
SOCI 4306. QUALITATIVE RESEARCH METHODS. 3 Hours.
Conceptual frameworks and techniques for planning, conducting, analyzing, reporting and evaluating qualitative research. Topics include interviewing, participant observation, coding, case studies and focus groups. Prerequisite: sophomore standing or permission of the instructor.

SOCI 4309. WRITING FOR THE SOCIAL SCIENCES. 3 Hours.
This course blends the theory and practice of social science writing in order to teach students how to move from the first draft to the final draft of term papers, theses, dissertations, and articles. The primary skill taught is self-editing --appraising one's work from the outside. The goal is to learn how to write for publication, drawing from postmodern perspectives on writing. Prerequisite: SOCI 1311 or permission of instructor.

SOCI 4315. VIOLENCE IN SOCIETY. 3 Hours.
Violence as a group process directed toward social change. Historical perspectives, current events, preventive and control techniques, public reaction, and individual behavior. Prerequisite: sophomore standing or permission of the instructor.

SOCI 4320. MEDICAL SOCIOLOGY. 3 Hours.
The relationships between different societies and social groups and their incidence of disease and mortality. Also examines culture-related causes of disease and treatment approaches, medicine as an occupation, healer-patient relationships, and the modern hospital as a bureaucratic organization.

SOCI 4331. RACE, ETHNICITY & FAMILY FORMATION. 3 Hours.
Investigates the ways in which cultural understandings of race and ethnicity have shaped historical and contemporary variations in family structure, familial experiences, and the legal possibilities for family formation. Junior standing (60 hours) or permission of the instructor required to enroll in this course. Offered as AAST 4331 and SOCI 4331; credit will be granted in only one department.

SOCI 4341. INEQUALITIES IN PUBLIC EDUCATION. 3 Hours.
This course examines the manner in which race, ethnicity, and class affect the quality of education in the public schools. Topics include the resegregation of schools, class and race based achievement and funding gaps, and the role the schools play in reproducing inequality. This course has a service learning component and requires volunteering in programs designed to reduce inequality in the schools. Offered as AAST 4341 and SOCI 4341; credit will be granted in only one department.

SOCI 4365. TOPICS IN SOCIOLOGY. 3 Hours.
Selected topics in social issues, policy, processes and/or structure. Prerequisite: junior standing or permission of the instructor. May be repeated for credit with departmental permission.

SOCI 4370. SENIOR RESEARCH SEMINAR. 3 Hours.
Provides sociology majors with an opportunity to gain practical experience in social research through in-depth participation in a cooperative research project. Integrates substantive knowledge with methodological skills. Oral, written, and computer application components are included. Prerequisite: SOCI 3362 or permission of the instructor.

SOCI 4391. CONFERENCE COURSE. 3 Hours.
Topics assigned on an individual basis covering personal research or study in the designated areas. Prerequisite: permission of the instructor.

SOCI 4393. INTERNSHIP IN SOCIOLOGY. 3 Hours.
Supervised internship program in which a student interns at a company, non-profit organization, or governmental agency. Involves the application of sociology in a non-academic setting. Students may complete a maximum of 6 hours in any combination of SOCI 4193, SOCI 4293, and SOCI 4393. Prerequisite: SOCI 1311 or SOCI 2312; permission of instructor; and junior standing.

SOCI 4394. HONORS THESIS/SENIOR PROJECT. 3 Hours.
Required of all students in the University Honors College. During the senior year, the student must complete a thesis or project of equivalent difficulty under the direction of a faculty member in the major department.

SOCI 4395. SERVICE LEARNING INDEPENDENT STUDY. 3 Hours.
This course involves the investigation and application of sociological knowledge through community based service. Involves structured academic analysis of service experiences. The student and supervising faculty will identify the partner agency and social issue to be addressed. Prerequisite: Permission of the Instructor.

SOCI 4396. INTERNSHIP IN POPULAR CULTURE. 3 Hours.
Supervised internship program in which a student interns at a company, non-profit organization, or governmental agency. Involves the application of popular culture knowledge in a non-academic setting. Prerequisite: SOCI 1310; permission of instructor; and junior standing.

SOCI 5191. CONFERENCE COURSE. 1 Hour.

SOCI 5301. SOCIOLOGICAL THEORY. 3 Hours.
A comprehensive review, analysis, and evaluation of the dominant conceptual perspectives, and their proponents, in sociological theory.

SOCI 5303. RESEARCH DESIGN. 3 Hours.
This seminar course overviews the process of designing, conducting, and presenting research. Topics include writing literature reviews, formulating research questions and hypotheses, designing measures for concepts, crafting research instruments, collecting data, analyzing data, and reporting the results. The course examines both quantitative methods, such as surveys and experiments, as well as qualitative methods, such as interviews and ethnographic observation.
SOCI 5304. SOCIAL STATISTICS I. 3 Hours.
This course reviews univariate and bivariate descriptive and inferential statistics, focuses on ordinary least squares multivariate regression (including statistical control, path analysis, dummy variables, interaction effects, nonlinear relationships, and regression assumptions), and introduces the generalized linear model (binary logistic regression). Emphasis is on the application of these methods to social science data.

SOCI 5305. RACIAL AND ETHNIC GROUPS IN THE UNITED STATES. 3 Hours.
This seminar course compares and contrasts the immigration, acculturation, and adjustment processes of various racial and ethnic groups in the United States. We will examine conventional and controversial arguments, as well as classical and contemporary theories concerning the dynamics of inter-group relations in America. Some of the more controversial topics in sociology-such as debates over assimilation, Americanization, and enduring conflicts between groups-are the foremost intellectual topics to be addressed. The reading list includes a diverse group of scholars who advance relevant research on race and ethnic relations.

SOCI 5306. SEMINAR IN RACE AND ETHNICITY. 3 Hours.
An advanced seminar on Race and Ethnicity in the United States. Past and present discrimination will be examined in relation to the current social conditions of minority groups living in the United States. A sociological approach to the topic begins with the assumption that race and ethnicity are socially and politically constructed phenomena. Race/ethnic categories within the United States have varied significantly across time and place. Sociology connects the concepts of race and ethnicity to social structures of inequality, power, and stratification. Scholarship on race and ethnicity is central to American sociology. We will empirically and theoretically explore: 1) the social, political and historical conditions under which segregation, racial hierarchies and racial conflict emerge, and 2) the institutions through which racial boundaries and hierarchies are produced and reproduced in the United States.

SOCI 5307. INEQUALITY, POVERTY, AND MOBILITY. 3 Hours.
This seminar course provides a graduate-level introduction to inequality, poverty, and mobility. We will focus on the United States, exploring the contemporary structure as well as long term trends in the distribution of material and nonmaterial resources and the economic, social, and cultural forces that generate and perpetuate the unequal distribution of resources. Our focus will be on inequalities in the areas and intersections of social class, gender, and race.

SOCI 5308. COMPARATIVE ETHNIC AND RACIAL CONFLICT. 3 Hours.
This seminar course provides a graduate-level introduction to ethnic and racial conflict from a comparative perspective. The course will focus on topics, such as the creation and maintenance of ethnic, racial, and national identities; the sources of conflict; the consequences of conflict; conflict prevention and resolution; and attaining justice. We will use a variety of cases to examine conflict, such as former Yugoslavia and Rwanda.

SOCI 5309. CONTEMPORARY BLACK EXPERIENCE. 3 Hours.
This seminar course is an overview of the contemporary sociological literature on the black experience in America. Some of the topics to be addressed include (but are not limited to) the debate over the "significance of race," tensions over the cultural/attitudinal adaptation to inequality, and emerging disputes within the black community regarding what it "means to be black" in the post-Civil Rights Era. By the end of this course, students should be more aware of the important role that class position plays in shaping African-American identities and ideologies.

SOCI 5310. SEMINARS IN SOCIAL PSYCHOLOGY. 3 Hours.
Introduction and discussion of theoretical and methodological perspectives in social psychology. Focusing on particular domains of social life, these seminars examine fundamental processes of social interaction and the influence of social situations and social experience on the thought, feeling, and behavior of individuals. (May be repeated for credit when topics vary.).

SOCI 5311. SOCIOLOGY OF FAMILIES. 3 Hours.
This seminar course explores major areas of inquiry in the sociological study of families in the contemporary U.S. We will examine the evolution of American families and the historical processes that have shaped them. Throughout the course, the interconnections between families and social structures will be emphasized. Particular attention will be given to the ways in which gender, class, race and ethnicity influence families.

SOCI 5312. SOCIOLOGY OF REPRODUCTION. 3 Hours.
This seminar course investigates the history and sociology of reproduction in the United States. We examine the history of reproductive politics, the changing meaning of children, childbirth education, the experience of birth for both men and women, pre-natal diagnostic testing, pregnancy loss, adoption, infertility, living "child-free," new reproductive technologies, sperm/egg donation, surrogacy, and the burgeoning "baby business." The course explores the cultural norms, social institutions, and experiences of women and men as they navigate contemporary reproduction, mindful of variations by race, class, and gender.

SOCI 5313. RACE AND FAMILY. 3 Hours.
Who can become a family? This seminar course investigates this question from a socio-historical perspective, focusing on the ways in which dominant cultural understandings of race and ethnicity have shaped the legal possibilities for family formation, family structure, and the experiences of families in the U.S. The course inspects historical and contemporary families, looking at the intersection of race and family formation.

SOCI 5314. GENDER AND FAMILY. 3 Hours.
This seminar course focuses on current issues in the sociology of families, focusing on the intersection of gender and family. The course is organized to provide an overview of the issues of particular interest to contemporary scholars, with theoretical, conceptual and empirical research/work included in the readings. We focus particularly on how gender affects how family is experienced.

SOCI 5315. WOMEN AND WORK. 3 Hours.
This seminar course focuses on current issues in the sociology of women and work. We address contemporary and historical patterns of women's paid and unpaid work focusing on theoretical, conceptual and empirical research.
SOCI 5316. THE SOCIAL MIND AND INTERPERSONAL PROCESSES. 3 Hours.
This seminar course is a study of the influence of the social context on human thoughts, feelings and actions, and on the processes that constitute social interaction. Relevant theories in social psychology and microsociology and original-source readings will be covered.

SOCI 5317. CULTURAL SOCIOLOGY. 3 Hours.
This seminar course examines the relationship between culture and society. Students will study contemporary debates around culture. Students will pay special attention to the use and experience of popular symbols for the ways that their use involves the creation of meanings.

SOCI 5318. MEDIA, CULTURE, AND SOCIETY. 3 Hours.
Media saturate our everyday lives. As such, they have a tremendous impact on the way we understand and interact with society. This seminar course will take a critical approach to the study of culture in order to examine the fundamental role of media in society. We will pay particular attention to the influence of the Culture Industry.

SOCI 5319. SEMINARS IN SOCIAL INSTITUTIONS AND CHANGE. 3 Hours.
Seminars in this area are concerned with the structure and change of the basic elements of society that represent ordered and regulated aspects of social life. Also examined are collective behavior and social movements which result from instability in institutional arrangements and represent efforts to enact social change. (May be repeated for credit when topics vary.)

SOCI 5320. SOCIOLOGY OF EDUCATION. 3 Hours.
This seminar course will examine the relationships between U.S. education institutions and society by reviewing a variety of sociological theories and empirical studies. A primary area of focus will be on the relationship between formal education and class, race/ethnicity, and gender-based inequality. Topics will include, but are not limited to, the following: the history and development of U.S. educational institutions, social mobility and stratification, social reproduction, the dynamics of race, class and gender in education, student-teacher relationships, teaching as a profession, higher education, and an exploration of educational reforms.

SOCI 5321. ENVIRONMENTAL SOCIOLOGY. 3 Hours.
This seminar course covers advanced topics in environmental sociology. We will investigate how human social organization affects environmental problems and responses. Specifically, we will explore topics such as environmental inequality, the social construction of nature, risk assessment, consumption and materialism, environmental values and identities, and environmental social movements. We will also look at social problems tied to environmental issues, such as those stemming from disasters, climate change, and food production. We will conclude with new directions in sustainable development.

SOCI 5322. SOCIOLOGY OF SPORT. 3 Hours.
An advanced seminar on the Sociology of Sport. This course is a sociological examination of the institution of sport in American society. By examining selected topics (such as sport and socialization, sport and politics, sport and education, race and sport, violence in sport, women in sport, and the business of sport) this course will address the social significance of sport and its function as a major social institution. We will examine the manner in which society has been shaped by the institution of sport and how sport has been shaped by society.

SOCI 5323. SOCIOLOGY OF RELIGION. 3 Hours.
This seminar course provides an overview of the scientific study of religion from a sociological perspective. The focus in the course will be on theories, research, and trends concerning religion in the contemporary United States. Some of the topics to be addressed include (but are not limited to) understanding the rich variety of religious traditions and affiliations, religious practices and beliefs, as well as the role that religion plays in facilitating and limiting social change as well as conflict in society. We will also examine differences across various religious traditions such as "mainline" and "fundamentalist" believers, secularization, and the often-controversial ways that religion intersects with other spheres of society such as morality, politics, race and ethnic relations, sex and gender.

SOCI 5324. QUALITATIVE RESEARCH METHODS. 3 Hours.
This seminar course introduces students to the qualitative tradition in sociology. We will study the assumptions underlying qualitative methods and important ethical and theoretical issues in field work. Students will become familiar with ethnographic research techniques (participant-observation and in-depth interviewing) and implement those methods in an individual small-scale research project.

SOCI 5325. READING THE QUALITATIVE CLASSICS. 3 Hours.
What makes a classic a classic? In this seminar course we will sample-read, examine, and analyze-the wealth of "classic" ethnographies within the field of Sociology. We will study the classics with an eye to exploring the qualities that make these exemplary texts which often connect people to and excite them about the field of Sociology.

SOCI 5326. SOCIAL MOVEMENTS. 3 Hours.
Examines core concepts and theoretical perspectives in social movements. Topics include recruitment and participation, tactics in activism, countermobilization, repression, and the effectiveness of movements in changing both policy and cultural norms.

SOCI 5330. SEMINARS IN SOCIAL DIFFERENTIATION. 3 Hours.
In all human societies, perceptions of differences in individuals, social positions and groups arise and form a basis for social evaluation. Seminars in this area examine the processes involved in social differentiation, social evaluation, and resulting forms of social inequality. (May be repeated for credit when topics vary.)

SOCI 5331. SEMINARS IN THEORY AND RESEARCH METHODS. 3 Hours.
Research courses offer extended treatment of topics in theory and theory construction, reflecting systematic efforts to understand the nature and operation of human society and social behavior. (May be repeated for credit when topics vary.)
SOCI 5385. NON-THESIS PROJECT. 3 Hours.
A written essay synthesizing the students’ coursework in response to one of two supplied prompts. The topic and scope of the written project must be approved by the non-thesis committee chair. A final presentation of the project to the non-thesis committee, composed of the non-thesis committee chair and two additional members of the graduate faculty, is required.

SOCI 5388. RESEARCH PRACTICUM / INTERNSHIP. 3 Hours.

SOCI 5389. TEACHING SOCIOLOGY. 3 Hours.
To learn strategies of coping with practical problems of teaching undergraduate sociology, students assist one or more professors in lecture preparation, grading, and examination construction. Not to be counted toward the degree requirement.

SOCI 5392. CONFERENCE COURSE IN SOCIOLOGY. 3 Hours.
There is not currently a description listed for this course since the content varies.

SOCI 5393. THESIS SUBSTITUTE. 3 Hours.
An academic literature review, research design, or an internship report on a selected sociological topic of individual interest. The topic and scope of the written project must be approved by the final thesis committee, which is composed of three graduate faculty members. A proposal defense and a final oral defense of the project is required.

SOCI 5398. THESIS. 3 Hours.

SOCI 5698. THESIS. 6 Hours.
Substantial original empirical or theoretical research project on a sociological topic of individual interest. The topic and scope of the written project must be approved by the final thesis committee, which is composed of three graduate faculty members. A proposal defense and a final oral defense of the project is required.
Sociology - Undergraduate Programs

Overview

The principal common educational objective in the Department of Sociology and Anthropology is to develop a systematic understanding of social behavior, human culture, and social institutions. Knowledge of human social and cultural relationships is vital to a meaningful perspective on and understanding of the society in which we live. Contemporary societies are characterized by diversity, rapid change, complex organization, and extensive specialization. Programs of study in the Department of Sociology and Anthropology pursue the challenge of:

a. creating and disseminating general knowledge that will render this world more understandable and
b. providing an educational base for more effective and humane planning and social intervention in society.

Each of the programs of study relates to this general objective in a somewhat different manner. Students are encouraged to visit with the faculty and learn more about the programs offered in the department.

Sociology

A program of study in sociology has three principle objectives: to foster the ability to analyze human relationships from a sociological perspective, to develop the theoretical, methodological, and statistical skills necessary for asking and answering sociological questions, and to enhance individuals' awareness of the relationship between events in their own lives and the structure of the society in which they live. The program is designed to prepare students both to pursue graduate work in sociology and to seek a career in a variety of private and public settings where knowledge of human relationships and/or social research skills is particularly useful. Students seeking certification to teach in the public schools can use sociology as a teaching area.

Popular Culture Minor

The Popular Culture Minor allows students from across campus to develop important skills no matter their major. Students in the Popular Culture Minor prepare themselves to 1) work in the entertainment industry; and/or 2) understand the role and power of popular culture in their everyday lives. Whether students seek employment in the creative industries (video games, music, film, social media, etc.) or other employment areas, they will be able to look at complex problems and develop innovative solutions. Students will have the opportunity to analyze popular culture, its production, consumption, and reception. The minor mixes a classic approach to a liberal arts education with opportunities to prepare for real-world employment.

Fast Track Program

The Fast Track Program in Sociology allows outstanding seniors in sociology to take up to three graduate seminars for credit toward both the Bachelor's degree and the Master's degree in Sociology. Interested undergraduate students should apply for the Fast Track Program when they are within 30 hours of completing the Bachelor's Degree. Students who successfully complete the Fast Track Program will be admitted automatically to Graduate Studies. They will not be required to take the Graduate Record Examination, complete an application for admission to Graduate Studies, supply letters of recommendation, or pay an application fee. An undergraduate student completing the maximum of nine graduate hours with a grade of B or better would be admitted to the Sociology MA program with only five additional courses and a thesis remaining to complete the requirements for thesis option. For more details about the program contact the Undergraduate Advisor for the Department of Sociology and Anthropology and consult the on-line catalog.

SOCI MAJOR ELECTIVES (SOCI prefix courses) at least 12 hours of which must be at the 3000 or 4000 level: at least 12 hours

One course in Anthropology

TOTAL (At least 36 of the 120 hours required must be at the 3000/4000 level)

#### Optional Concentrations in Sociology

Students majoring in Sociology may pursue a general course of study in the discipline or concentrate in a specific area or areas. The purpose of specialization is to provide the student with a focused, systematic, and in-depth educational experience in the context of a broad liberal arts education. These specializations are also related to different career paths. Please see the Sociology academic advisor for more information on completing an area concentration.

**General Requirements:**

- Completing four courses in any area fulfills requirements for the concentration. See the Sociology academic advisor for more information.

The areas of specialization are:

#### Human Capital and Work

• Note: Special Topics courses will be considered on a course-by-course basis. Approval will be made by the advisor of the Popular Culture Minor.

Fast Track Program in Sociology

ABOUT

The Fast Track Program allows outstanding undergraduate students in sociology at UT Arlington to take up to three graduate seminars in sociology that will earn credit toward both the Bachelor’s degree and the Master’s degree in Sociology. It is designed to encourage high standards of performance, to facilitate the transition from undergraduate to graduate study, and to reduce time needed to complete the MA.

Students who successfully complete the Fast Track Program will be admitted automatically to Graduate Studies to continue their graduate work in the Sociology MA Program once the Bachelor’s degree is awarded. They will not be required to take the GRE, complete an additional application for admission to Graduate Studies, supply letters of recommendation, or pay an application fee. An undergraduate student completing the maximum of nine graduate hours would be admitted to the Sociology MA Program with only five additional courses and a thesis remaining to complete the requirements for the thesis option (requirements for other degree tracks will vary).
APPLYING TO THE FAST TRACK PROGRAM

Undergraduate students can apply to the Department of Sociology and Anthropology by completing a Fast Track application form available from the Sociology academic advisor. Students will be notified by the Department of their acceptance into the Fast Track program.

UNCONDITIONAL ADMISSION

1. The student must be within 30 hours of completing a BA in Sociology or a BS in Applied Sociology at UTA.

2. The student must have completed 30 hours of coursework at UTA.

3. The student must have an overall GPA of at least 3.3 in all coursework at all schools and an overall GPA of at least 3.3 in all coursework completed at UTA.

4. Before entering the Fast Track, students must have already taken at least two additional 3000-4000 level sociology courses with a GPA of 3.5 or higher.

5. Before entering the Fast Track, students must also have completed four required core courses in the Sociology major with a GPA of at least 3.5.

For the B.A. in Sociology the required courses for Fast Track admission are:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOCI 1311</td>

</tbody>
</table>

PROVISIONAL ADMISSION

A student may gain provisional admission if, by the semester in which application is made, they have already completed three required Sociology courses (listed above) with a GPA of at least 3.66 in those courses, and with a fourth required course to be completed in the semester of application. All other requirements above must be met.

Provisional admission will be changed to unconditional admission upon satisfactory completion of remaining requirements. Students failing to meet all requirements at the end of their semester of application will be removed from the Fast Track program. Any credits earned prior to removal from the program will be applied to the undergraduate degree only. Provisionally admitted students who have been removed from the program may subsequently apply to graduate programs via the normal application process, paying all fees and meeting all relevant admission criteria.

DENIAL

Students who do not meet the requirements set out shall be denied admission to the Fast Track program. They may still apply to the graduate program through the regular application process.

GOOD STANDING

In the Fast Track Program, students will choose to enroll in up to three sociology graduate electives, selected with the advice and approval of the Sociology Graduate Advisor. To remain in the Fast Track Program, students must maintain an overall GPA of at least 3.0 and must earn grades of B or better in all Fast Track-approved courses that will be used to satisfy undergraduate and graduate degree requirements. Students must enroll in at least two sociology graduate courses and earn a B or better in all graduate courses taken prior to receiving their bachelor’s degree. If a student does not complete the two graduate courses or fails to make adequate grades, she or he will be unable to continue in the Fast Track Program but, if the courses are completed with a passing grade, will still receive credit toward their undergraduate degree requirements.
Students who, at any time, do not meet these requirements will be obliged to leave the Fast Track program. If a student opts out or does not meet the requirements of the Fast Track Program, any graduate credits earned will be applied only to the undergraduate degree, and none of the other benefits of participation in the Fast Track program will apply. Additionally, graduate courses already taken for undergraduate credit may not be repeated for graduate credit. Students may still apply to the Sociology MA Program via the normal application process, paying all fees and meeting all relevant admission criteria.

A Fast Track student in good standing may skip one Fall or Spring semester (and contiguous summer) after being awarded the BA degree before continuing in the MA program. Further delay will result in losing Fast Track status, after which the regular application process for admission must be followed and no graduate credits will be retained.

**ADDITIONAL INFORMATION**

For an application form or to obtain more details about this program, please contact the Sociology Undergraduate Advisor.
Sociology - Graduate Programs

Objectives: M.A. in Sociology

The Master of Arts program in sociology is designed to provide students with a firm substantive background in sociological theory and in the techniques of contemporary research methodology and statistical analyses. In addition to these core concerns, the program offers a variety of seminars, as well as practicum opportunities, to help prepare students for a wide range of professional careers in both the private and public sectors or continued graduate education at the Ph.D. level.

Graduate Assistantships and Fellowships in Sociology

Graduate teaching and research assistantships and other forms of financial support will be awarded on a competitive basis. In addition to performance in any graduate courses the student may have taken, the same criteria used to determine admission status will be used in evaluating applications for such awards. No single factor, including standardized test scores, will be used to end consideration of any graduate assistantships.

Admissions Requirements: Sociology

All successful applicants must satisfy the basic graduate admission requirements of UT Arlington as outlined in the University Catalog in the Admissions section. The Sociology graduate program makes admission decisions based on several factors, including grade point averages, preparation in the field of Sociology or related disciplines, letters of recommendation, and statements of interest. There are four categories for acceptance: Facilitated Admission, Unconditional Admission, Probationary Admission, and Provisional Admission.

Facilitated Admission

Available to UTA graduates who have completed their bachelor's degree from UTA within one year prior to admission. Applicants admitted through Facilitated Admission meet the following three criteria:

1) Overall UTA GPA of 3.5, as calculated by Graduate Studies.
2) Minimum GPA of 3.5 in last 60 hours, as calculated by Graduate Studies.
3) A grade B or better in the following courses:
   1) SOCI 3372 SOCIOLOGICAL THEORY or SOCI 3373 SOCIAL THEORY THROUGH POPULAR CULTURE
   2) SOCI 3352 SOCIAL STATISTICS or SOCI 4306 QUALITATIVE RESEARCH METHODS
   3) SOCI 3362 SOCIAL RESEARCH

To apply for Facilitated Admission, contact the Director of Graduate Studies for Sociology.

Applicants who do not qualify for Facilitated Admission must apply on-line at www.applytexas.org

Letters of Recommendation must be mailed directly from recommenders to the Director of Graduate Studies for Sociology. Statements of Interest must be mailed directly from the applicant to the Director of Graduate Studies for Sociology. Statements of Interest must be written solely by the applicant without the use of generative AI (artificial intelligence).

Unconditional Admission

Unconditional Admission is available to applicants who have completed a BA or BS in Sociology or a related discipline from an accredited institution.

Applicants with undergraduate degrees from UTA admitted on Unconditional Admission meet the following three criteria:

1) Minimum GPA of 3.0, as calculated by Graduate Studies.
2) Two letters of recommendation that favorably assess the applicant's potential for success in a graduate program in Sociology.
3) A satisfactory 2-3 page statement of interest describing the applicant's academic background, research or study interests, and professional goals as they relate to the field of Sociology.

Applicants with an undergraduate degree from an institution other than UTA meet the three conditions above for Unconditional Admission plus the following condition:

1) GRE scores of at least 150 on the verbal sub-test (500 on the prior scale) and 144 on the quantitative sub-test (500 on the prior scale).
Probationary Admission

Probationary Admission is available to applicants who have completed a BA or BS in Sociology or a related discipline from an accredited institution but who do not qualify for Unconditional Admission due to a GPA below 3.0, as calculated by Graduate Studies. Applicants admitted on probationary admission meet the following three criteria:

1) GRE scores of at least 150 on the verbal sub-test (500 on the prior scale) and 144 on the quantitative sub-test (500 on the prior scale).

2) Two letters of recommendation that favorably assess the applicant's potential for success in a graduate program in Sociology.

3) A satisfactory 2-3 page statement of interest describing the applicant's academic background, research or study interests, and professional goals as they relate to the field of Sociology.

Provisional Admission

Provisional Admission is available to applicants unable to supply all required documentation prior to the admission deadline, but who otherwise appear to meet admission requirements. Provisionally admitted students must satisfy any incomplete documentation by the end of the semester in which they are admitted.

Deferral

An applicant may be deferred when a file is incomplete or when a denial decision is not appropriate.

International Students

To qualify for admission, international students must score 550 or above on the TOEFL.

Degree Requirements: Sociology

Students may select from three options: the non-thesis, thesis substitute, or thesis degree plan.

The Non-Thesis degree plan is designed for students who wish to complete a written essay synthesizing their coursework in response to one of two supplied prompts. The non-thesis degree plan requires satisfactory completion of a minimum of 36 hours of coursework, including core courses in theory, methods, and statistics, and the three hour non-thesis course SOCI 5385. Non-thesis students must form a non-thesis faculty committee, consisting of a non-thesis chair and two additional members of the graduate faculty. Non-thesis degree seeking students are required to give a presentation on their written essay to their non-thesis faculty committee. The scope, content, and form of the non-thesis document must be approved by the student’s non-thesis committee chair. SOCI 5385.

The Thesis-substitute degree plan is designed for students who wish to complete an academic literature review, research design, or an internship report on a selected sociological topic of personal interest. The thesis-substitute degree plan requires satisfactory completion of a minimum of 33 hours of coursework, including core courses in theory, methods, and statistics, and the three hour thesis substitute course SOCI 5393. Thesis-substitute degree students are required to write and orally defend a proposal for their thesis-substitute project in addition to writing and orally defending their thesis-substitute document. Thesis-substitute students must form a thesis-substitute faculty committee, consisting of a thesis-substitute chair and two additional members of the graduate faculty. The scope, content, and form of the thesis-substitute document shall be determined by the student’s thesis committee. SOCI 5393.

The Thesis degree plan is designed for students who wish to research and write a substantial, original empirical or theoretical work on a sociological topic of personal interest. The thesis degree plan requires satisfactory completion of a minimum of 30 hours of coursework, including core courses in theory, methods, and statistics, and the six hour thesis course SOCI 5698. Thesis degree students are required to write and orally defend a proposal for their research project in addition to completing original research and writing and orally defending their thesis. Thesis students must form a thesis faculty committee, consisting of a thesis chair and two additional members of the graduate faculty. The scope, content, and form of the thesis shall be determined by the student’s thesis committee. SOCI 5698.

Dual Degree Program

Students in sociology may participate in a dual degree program where by they can earn a Master of Arts in Sociology and another field, such as Master of Public Administration or Master of Science in Social Work. By participating in a dual degree program, students can apply a number of semester hours jointly to meet the requirements of both degrees, thus reducing the total number of hours which would be required to earn both degrees separately. Six or more hours may be jointly applied depending on the total number of hours required for both degrees, and subject to the approval of graduate advisors from both programs.

To participate in the dual degree option, students must make separate application to each program and must submit a separate Program of Work for each program. Admission to and enrollment in the two programs must be concurrent (admitted to the second program before completing more than 24 hours in the first). Those interested should consult each of the appropriate graduate advisors for coursework requirements and refer to Graduate Studies catalog entry on Dual Degree Program in the Advanced Degrees and Requirements section for further details.
Fast Track Program in Sociology

ABOUT
The Fast Track Program allows outstanding undergraduate students in sociology at UT Arlington to take up to three graduate seminars in sociology that will earn credit toward both the Bachelor’s degree and the Master’s degree in Sociology. It is designed to encourage high standards of performance, to facilitate the transition from undergraduate to graduate study, and to reduce time needed to complete the MA.

Students who successfully complete the Fast Track Program will be admitted automatically to Graduate Studies to continue their graduate work in the Sociology MA Program once the Bachelor’s degree is awarded. They will not be required to take the GRE, complete an additional application for admission to Graduate Studies, supply letters of recommendation, or pay an application fee. An undergraduate student completing the maximum of nine graduate hours would be admitted to the Sociology MA Program with only five additional courses and a thesis remaining to complete the requirements for the thesis option (requirements for other degree tracks will vary).

APPLYING TO THE FAST TRACK PROGRAM
Undergraduate students can apply to the Department of Sociology and Anthropology by completing a Fast Track application form available from the Sociology academic advisor. Students will be notified by the Department of their acceptance into the Fast Track program.

UNCONDITIONAL ADMISSION
1. The student must be within 30 hours of completing a BA in Sociology or a BS in Applied Sociology at UTA.
2. The student must have completed 30 hours of coursework at UTA.
3. The student must have an overall GPA of at least 3.3 in all coursework at all schools and an overall GPA of at least 3.3 in all coursework completed at UTA.
4. Before entering the Fast Track, students must have already taken at least two additional 3000-4000 level sociology courses with a GPA of 3.5 or higher.
5. Before entering the Fast Track, students must also have completed four required core courses in the Sociology major with a GPA of at least 3.5.

For the B.A. in Sociology the required courses for Fast Track admission are:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOCI 1311</td>
<td>INTRODUCTION TO SOCIOLOGY</td>
<td>3</td>

</tr>
</tbody>
</table>

PROVISIONAL ADMISSION
A student may gain provisional admission if, by the semester in which application is made, they have already completed three required Sociology courses (listed above) with a GPA of at least 3.66 in those courses, and with a fourth required course to be completed in the semester of application. All other requirements above must be met.

Provisional admission will be changed to unconditional admission upon satisfactory completion of remaining requirements. Students failing to meet all requirements at the end of their semester of application will be removed from the Fast Track program. Any credits earned prior to removal from the program will be applied to the undergraduate degree only. Provisionally admitted students who have been removed from the program may subsequently apply to graduate programs via the normal application process, paying all fees and meeting all relevant admission criteria.
DENIAL
Students who do not meet the requirements set out shall be denied admission to the Fast Track program. They may still apply to the graduate program through the regular application process.

GOOD STANDING
In the Fast Track Program, students will choose to enroll in up to three sociology graduate electives, selected with the advice and approval of the Sociology Graduate Advisor. To remain in the Fast Track Program, students must maintain an overall GPA of at least 3.0 and must earn grades of B or better in all Fast Track-approved courses that will be used to satisfy undergraduate and graduate degree requirements. Students must enroll in at least two sociology graduate courses and earn a B or better in all graduate courses taken prior to receiving their bachelor’s degree. If a student does not complete the two graduate courses or fails to make adequate grades, she or he will be unable to continue in the Fast Track Program but, if the courses are completed with a passing grade, will still receive credit toward their undergraduate degree requirements.

Students who, at any time, do not meet these requirements will be obliged to leave the Fast Track program. If a student opts out or does not meet the requirements of the Fast Track Program, any graduate credits earned will be applied only to the undergraduate degree, and none of the other benefits of participation in the Fast Track program will apply. Additionally, graduate courses already taken for undergraduate credit may not be repeated for graduate credit. Students may still apply to the Sociology MA Program via the normal application process, paying all fees and meeting all relevant admission criteria.

A Fast Track student in good standing may skip one Fall or Spring semester (and contiguous summer) after being awarded the BA degree before continuing in the MA program. Further delay will result in losing Fast Track status, after which the regular application process for admission must be followed and no graduate credits will be retained.

ADDITIONAL INFORMATION
For an application form or to obtain more details about this program, please contact the Sociology Undergraduate Advisor.
Anthropology Undergraduate Programs

Overview
The principal common educational objective in the Department of Sociology and Anthropology is to develop a systematic understanding of social behavior, human culture, and social institutions. Knowledge of human social and cultural relationships is vital to a meaningful perspective on and understanding of the society in which we live. Contemporary societies are characterized by diversity, rapid change, complex organization, and extensive specialization. Programs of study in the Department of Sociology and Anthropology pursue the challenge of:

a. creating and disseminating general knowledge that will render this world more understandable and
b. providing an educational base for more effective and humane planning and social intervention in society.

Each of the programs of study relates to this general objective in a somewhat different manner. Students are encouraged to visit with the faculty and learn more about the programs offered in the department.

Anthropology
A program of study in anthropology has the objective of grounding students in three main subfields of anthropology: cultural anthropology (the comparative analysis of human lifeways around the world), archaeology (the systematic analysis of the material remains of past cultures), and physical anthropology (the study of humans as a biological species). The program prepares students both for graduate work in anthropology and for many careers in which anthropological perspectives and training are useful.

Requirements for a Bachelor of Arts Degree in Anthropology

UNIVERSITY CORE REQUIREMENTS (HTTPS://CATALOG.UTA.EDU/ACADEMICREGULATIONS/DEGREEEREQUIREMENTS/GENERALCOREREQUIREMENTS/)

College of Liberal Arts Requirements
8 hours in the same modern or classical language (first-year college-level: 1441, 1442)

Anthropology Program Requirements
BIOLOGICAL ANTHROPOLOGY (ANTH 2307)
GLOBAL CULTURES (ANTH 2322)
INTRODUCTION TO ARCHAEOLOGY (ANTH 2339)

One approved ANTH method course
One approved ANTH theory course
One advanced (3000/4000 level) elective in Sociology (SOCI)
6 hours of modern or classical languages
24 additional hours of approved ANTH electives

Summary: 40 hours, including ANTH 2307, 2322, and 2339; one approved ANTH course in Methods; one approved ANTH course in Theory; one advanced (3000/4000 level) SOCI elective; 6 hours of modern or classical languages, and 24 additional hours of approved ANTH electives. Contact the department advisor for the list of approved courses for method, theory, and electives.

Additional University Requirements
UNIV 1131 STUDENT SUCCESS or UNIV 1101 STUDENT SUCCESS (for transfer students) which may also be met by completing ANTH 1200 PERSONAL AND PROFESSIONAL SUCCESS IN THE SOCIAL SCIENCES.
Additional elective hours sufficient to reach 120 total credit hours, with 36 advanced (3000/4000) hours; may include an optional minor.

**Requirement for a Minor in Anthropology**

The Anthropology minor (6 courses/18 hours total) can be fulfilled by successfully completing:

Select two of the following:

- ANTH 2307 BIOLOGICAL ANTHROPOLOGY
- ANTH 2322 GLOBAL CULTURES
- ANTH 2339 INTRODUCTION TO ARCHAEOLOGY

Any other four ANTH courses, at least two of which must be at the advanced level (3000 or above)

Questions about the Anthropology minor may be directed to the department advisor.
Theatre Arts and Dance

Undergraduate Degrees

Bachelor of Arts in Theatre Arts (p. 1135)
Bachelor of Fine Arts in Theatre Arts (p. 1135)

- DESIGN AND TECHNOLOGY CONCENTRATION
- MUSICAL THEATRE CONCENTRATION
- ACTING CONCENTRATION

Minors

- Minor in Theatre Arts (p. 1145)
- Minor in Dance (p. 1145)

COURSES

THEA 0010. BFA STUDIO. 0 Hours.
BFA course offering master classes, guest artists, and lectures related to concentration specializations along with concentration-specific practice. Students enroll concurrently with foundational concentration course in BFA concentrations. Prerequisite: Permission of advisor.

THEA 0181. THEATRE PRACTICUM. 1 Hour. (TCCN = DRAM 1120)
Open to all students interested in participating in dramatic productions on-stage, backstage, or front of house. Considers aspects of play production which may include scenery construction, publicity, costumes, and lighting. Practicum students participate in auditions and are assigned to production crews. May be repeated for credit. All Theatre Arts majors register for THEA 0181 each semester. Prerequisite: Permission of advisor.

THEA 0182. THEATRE ARTS TEACHING LAB. 1 Hour.
The Theatre Arts Teaching Lab (TATL) is open to students interested in participating in theatre education and educational theatrical production. TATL is an experiential laboratory and training ground for future theatre teachers. Through immersion and training in creative and collaborative educational theatre-making processes, TATL students will be encouraged to experiment, collaborate, and adventure as they lead the production of several laboratory performances each semester; all the while honing skills that will foster their ability to become successful theatre teachers, directors, administrators, and leaders, as well as UIL directors, managers, and adjudicators in the classroom.

THEA 1101. THEATRE ARTS SYMPOSIUM. 1 Hour.
An orientation to academic and professional theatre skills and resources. Prerequisite: Permission of advisor.

THEA 1140. PRIVATE LESSONS IN VOICE-MUSICAL THEATRE. 1 Hour.
This sequence of courses is required of students who are pursuing the BFA in Musical Theatre. These courses may not be used as substitute voice lessons for those students pursuing a Bachelor of Music degree. Offered as MUSI 1140 and THEA 1140; credit will be granted only in one department. Prerequisite: Open to Musical Theatre majors only or by permission of the Department Chair.

THEA 1141. PRIVATE LESSONS IN VOICE-MUSICAL THEATRE. 1 Hour.
This sequence of courses is required of students who are pursuing the BFA in Musical Theatre. These courses may not be used as substitute voice lessons for those students pursuing a Bachelor of Music degree. Offered as MUSI 1141 and THEA 1141; credit will be granted only in one department. Prerequisite: C or better in MUSI 1140 or THEA 1140. Open to Musical Theatre majors only or by permission of the Department Chair.

THEA 1303. FUNDAMENTALS OF PRESENTATION. 3 Hours.
The fundamentals of vocal performance as it relates to effective oral communication. Students develop ideas for the purpose of communication and learn effective techniques for clarity of expression, ideas, and message while considering the effect on an audience. Theatrical communication techniques are one of several skill sets taught. Oral, aural, written, and visual literacy are all explored, with intense focus on oral presentation. This course satisfies the University of Texas at Arlington core curriculum requirement in Communication.

THEA 1304. STAGECRAFT I. 3 Hours. (TCCN = DRAM 1330)
An introduction to all areas of theatre craft, technology, and production. The development and application of technical skills, production organization, and an orientation to production facilities, equipment, and materials. Prerequisite: Permission of Advisor.

THEA 1305. INTRODUCTION TO THEATRICAL DESIGN. 3 Hours.
Fundamentals of design elements, theory and practice as applied to costume, scenic, properties, lighting, and sound design. Prerequisite: Permission of advisor.

THEA 1307. ACTING: FUNDAMENTALS. 3 Hours. (TCCN = DRAM 1351)
Study and exercise in fundamentals of the actor's craft utilizing the Stanislavsky Method. Emphasis on the development of basic acting techniques including characterization, objectives, beats, action, and script analysis. Performance requirements include improvisation and monologues. Attendance at productions outside of the classroom may be required. Prerequisite: Permission of advisor.
THEA 1310. MUSICAL THEATRE MUSICIANSHIP I. 3 Hours.
An introduction to music theory, sight-singing, and keyboard skills. This course is tailored to the BFA in Musical Theatre concentration and uses material from the American musical theater canon. Prerequisite: Only Musical Theatre majors may enroll, and permission of advisor.

THEA 1315. THEATRICAL MAKEUP. 3 Hours.
Types, styles, and techniques of make-up application for the stage. Prerequisite: Permission of advisor.

THEA 1342. THEATRE AND FILM APPRECIATION. 3 Hours. (TCCN = DRAM 2366)
Develops awareness of and appreciation for dramatic art as reflected in theatre and film. Designed to increase the student's enjoyment and knowledge of drama and its historical, social and cultural contexts. Students may be required to attend plays. Theatre Arts BFA and BA majors and minors may not use this course in place of THEA 1343. This course satisfies the University of Texas at Arlington core curriculum requirement in Creative Arts.

THEA 1343. INTRODUCTION TO THEATRE. 3 Hours. (TCCN = DRAM 1310)
Acquaints the student with major phases of theatrical activity and production research. Considers the duties and contributions of director, actor, scene designer, costume, and others involved in play production. Students may be required to attend and review productions. This course satisfies the University of Texas at Arlington core curriculum requirement in Creative Arts.

THEA 2140. PRIVATE LESSONS IN VOICE-MUSICAL THEATRE. 1 Hour.
This sequence of courses is required of students who are pursuing the BFA in Musical Theatre. These courses may not be used as substitute voice lessons for those students pursuing a Bachelor of Music degree. Offered as MUSI 2140 and THEA 2140; credit will be granted only in one department. Prerequisite: C or better in MUSI 1141 or THEA 1141. Open to Musical Theatre majors only or by permission of the Department Chair.

THEA 2141. PRIVATE LESSONS IN VOICE-MUSICAL THEATRE. 1 Hour.
This sequence of courses is required of students who are pursuing the BFA in Musical Theatre. These courses may not be used as substitute voice lessons for those students pursuing a Bachelor of Music degree. Offered as MUSI 2141 and THEA 2141; credit will be granted only in one department. Prerequisite: C or better in MUSI 2140 or THEA 2140. Open to Musical Theatre majors only or by permission of the Department Chair.

THEA 2302. VOCAL PRODUCTION. 3 Hours. (TCCN = DRAM 2336)
Intermediate exploration of vocal production for the stage, including interaction in the studio setting to meet the needs of performance. Emphasis on relaxation, breathing techniques, the creation of vocal sound, and the interconnection of voice and body in performance. Prerequisite: THEA 1303 and permission of advisor.

THEA 2306. COSTUME TECHNOLOGY. 3 Hours. (TCCN = DRAM 1342)
Introduction to the process and application of the fundamental skills of costuming and costume design preparation methods. Prerequisite: Permission of advisor.

THEA 2309. SCRIPT ANALYSIS. 3 Hours. (TCCN = DRAM 2355)
An investigation of dramatic structure from the points of view of the director, actor, and designer. Elements of dramatic theory are included. Prerequisite: Permission of advisor.

THEA 2310. DRAWING AND RENDERING FOR THE THEATRE. 3 Hours.
The practical application of conventional and digital drawing and rendering principles, techniques, and materials as applied to theatrical design. Students will study and practice drawing techniques, including highlight and shadow, proportion, and perspective. Additionally, the course will explore the use of common rendering media used in theatre, such as watercolor, markers, and digital technology.

THEA 2311. MUSICAL THEATRE MUSICIANSHIP II. 3 Hours.
A continuation of music theory, sight-singing, and keyboard skills that builds on THEA 1310 Musical Theatre Musicianship I. This course is tailored to the BFA in Musical Theatre concentration and uses material from the American musical theater canon. Prerequisite: THEA 1310, and Permission of Advisor.

THEA 2337. IMPROVISATION: SHORT FORM. 3 Hours.
The study of modern improvisational skills and techniques for the performer, director, playwright, and instructor. This course focuses on short form improv, defined as unrelated games, scenes, and exercises that encourage spontaneity and group cohesion.

THEA 2340. MOVEMENT PERFORMANCE: FUNDAMENTALS. 3 Hours.
Development of movement techniques and movement performances. Freeing the body through exercises and experiences in relaxation, physical awareness, and movement through space. Focus on body awareness and the release of habitual patterns that restrict the body. Prerequisite: permission of advisor.

THEA 2352. SCENE STUDY. 3 Hours. (TCCN = DRAM 1352)
Acting technique exercise to enhance and develop acting skills through scene study. Methods of characterization, research, and role preparation. Prerequisite: THEA 1307 and permission of advisor.

THEA 3140. PRIVATE LESSONS IN VOICE-MUSICAL THEATRE. 1 Hour.
This sequence of courses is required of students who are pursuing the BFA in Musical Theatre. These courses may not be used as substitute voice lessons for those students pursuing a Bachelor of Music degree. Offered as MUSI 3140 and THEA 3140; credit will be granted only in one department. Prerequisite: C or better in MUSI 2141 or THEA 2141. Open to Musical Theatre majors only or by permission of the Department Chair.

THEA 3141. PRIVATE LESSONS IN VOICE-MUSICAL THEATRE. 1 Hour.
This sequence of courses is required of students who are pursuing the BFA in Musical Theatre. These courses may not be used as substitute voice lessons for those students pursuing a Bachelor of Music degree. Offered as MUSI 3141 and THEA 3141; credit will be granted only in one department. Prerequisite: C or better in MUSI 3140 or THEA 3140. Open to Musical Theatre majors only or by permission of the Department Chair.
THEA 3300. DIRECTING I. 3 Hours.
The techniques of staging plays. Play interpretation, casting, rehearsal procedure, staging, and the role of the director in character analysis and creation. Prerequisite: THEA 1305, THEA 1307, THEA 1343, and THEA 2309 or permission of advisor.

THEA 3301. SCENE DESIGN I. 3 Hours.
History, theory, and basic concepts of design methods with application for stage, television, and film. Aesthetic skills of color, line, texture, and form, and the interactions of these elements. Mechanics and techniques of illustration and rendering of design ideas. Prerequisites: THEA 1304, THEA 1305, THEA 1343, THEA 3309, THEA 3318, and permission of advisor.

THEA 3302. FILM STUDIES. 3 Hours.
Principles of film study, including history, genre, aesthetics, theory, and criticism of U.S. and international films. Lecture and discussion, including the viewing of selected films.

THEA 3303. SOUND DESIGN. 3 Hours.
The study of the fundamentals of sound design as related to the theatrical production environment. The study of basic sound design tools and the practical application of these tools through project work. Prerequisites: THEA 1305, THEA 3316, or permission of advisor.

THEA 3304. SCENIC TECHNOLOGY. 3 Hours.
An overview of and hands-on training in advanced production techniques, including metalworking and welding, theatrical rigging, automation principles, advanced wood joinery, and fabrication utilizing new materials, as well as an in-depth study of theatrical safety practices. Prerequisites: THEA 1304 or permission of advisor.

THEA 3305. LIGHTING DESIGN I. 3 Hours.
The study of basic design principles and techniques and their application in theatrical lighting design. The practical application of computer-aided design tools and the use of theatrical lighting equipment in realized design projects. Prerequisites: THEA 1305, THEA 3316, and THEA 3318 or permission of advisor.

THEA 3306. SCENE PAINTING FOR THE STAGE. 3 Hours.
Instructional and demonstrative approaches to scenic painting for the stage. Prerequisite: THEA 1304 or permission of advisor.

THEA 3307. COSTUME HISTORY. 3 Hours.
Historical styles and trends of fashion to the present as applied to stage, television, and film. Prerequisite: Permission of advisor.

THEA 3308. ACTING FOR THE CAMERA AND DIGITAL MEDIA. 3 Hours.
An intermediate acting course for the camera covering basic technique, terminology, and industry standards, as well as other digital media. Prerequisite: THEA 2352, and permission of advisor.

THEA 3309. DRAMATURGY. 3 Hours.
The examination of methods for experiencing, analyzing, and writing about theatre, dance, and other performing arts forms though the lenses of class, race, gender, nationalism, and disability/ability. Students will apply concepts of critical theory from its historical precedents to its contemporary forms. Attendance at fee-based arts events may be required. Prerequisite: THEA 2309 and permission of the advisor.

THEA 3310. CREATIVE DRAMA. 3 Hours.
The theory and practice of creative dramatics exercises and activities. The application of the artistic elements in creative drama and interdisciplinary applications of creative drama activities.

THEA 3311. DIALECTS IN PERFORMANCE. 3 Hours.
The study and application of selected dialects for performance. Prerequisite: THEA 1303 and Permission of advisor.

THEA 3312. THEATRE FOR YOUNG AUDIENCES. 3 Hours.
The theory and practice of creating and producing plays for young audiences. Students shall be required to act in selected works. Prerequisite: Permission of advisor.

THEA 3313. PERIOD STYLES. 3 Hours.
Survey of architectural elements, fashion, and decorations throughout history and their relationship to theatrical design. Provides a foundation in visual history and an historical framework in which to develop inspiration for visual ideas and needs for stage design.

THEA 3314. VOICE AND MOVEMENT. 3 Hours.
An intermediate course in vocal production and its integration with movement. Primarily focuses on articulation, breath support, and voice/movement interaction. Only Theatre Arts majors or minors may enroll. Prerequisite: Must be a Theatre Arts major or minor; THEA 1303, THEA 2340, and permission of advisor.

THEA 3316. LIGHTING AND SOUND TECHNOLOGY. 3 Hours.
An introduction to the equipment, technologies, terminology, and careers in the theatrical areas of lighting and sound. Examines the theories and application of optical control and distribution, the physics of audio, distribution of acoustical energy, and lighting color theory. Prerequisite: Permission of advisor.

THEA 3317. SINGING FOR THE ACTOR I. 3 Hours.
An applied study of the vocal apparatus, vocal placement, the voice/body relationship, character, working with text, phrasing, and auditioning as they relate to singing in musical theatre for the Broadway or West End theatre. Emphasis is placed on integrating singing and acting skills. Same as offering MUSI 3317; may not be repeated and credit will only be granted in one department. Prerequisites: THEA 1307 or permission of advisor.
THEA 3318. DRAFTING FOR THE ARTS. 3 Hours.
The principles and application of computer-aided drafting techniques for the entertainment industry. Prerequisite: Permission of advisor.

THEA 3320. PLAYWRITING I. 3 Hours.
The art and craft of constructing a play. Students write playlets, scenes, and one-act plays for in-house performance and/or instructor evaluation.

THEA 3321. PERFORMANCE DEVISING. 3 Hours.
Students will engage in a collaborative, devised process in an ensemble. Various methodologies and languages of the stage will be utilized, which may include, but is not limited to, acting, movement, dance, and design, thereby creating new works in performance. Prerequisite: THEA 2309 and permission of advisor.

THEA 3337. IMPROVISATION: LONG FORM. 3 Hours.
Revisits concepts learned from Improvisation: Short Form and applies them to an advanced structure of interrelated scenes, monologues, and stories based on a theme or idea. The students will explore this long-form structure as it applies to playwriting, acting, and directing.

THEA 3342. COSPLAY COSTUME FABRICATION. 3 Hours.
Exploration and practice of theatrical construction and fabrication techniques used in the cosplay industry.

THEA 3343. MAKEUP FOR THE CAMERA. 3 Hours.
Exploration and practice of styles, techniques, and types of make-up and make-up application for film, photography and fashion.

THEA 3346. STAGE COMBAT. 3 Hours.
An introduction to stage combat. Students will safely explore the choreographed illusion of stage violence through the skills of unarmed and armed combat. Prerequisite: Permission of advisor.

THEA 3350. FABRIC MODIFICATION AND COSTUME CRAFTS. 3 Hours.
Exploration and practice of the process and application of techniques in fabric modification and costume crafts. Prerequisite: Permission of advisor.

THEA 3351. ROBOTS, DIGITAL HUMANITIES, AND THEATRE. 3 Hours.
Lecture and applied practices of the emerging emotional interaction between robots and humans utilizing theatrical methodologies. Course will emphasize human and robot interactions from interdisciplinary approaches including cultural, historical, sociological, health-care, disability studies, and performing arts frameworks.

THEA 3352. STAGE MANAGEMENT & THEATRE ADMINISTRATION. 3 Hours.
Managerial activities and responsibilities as applicable to community or professional theatre. Prerequisite: THEA 1343 or permission of advisor.

THEA 3355. UNIVERSAL DESIGN & ACCESSIBILITY IN THE PERFORMING ARTS. 3 Hours.
Explores the principles of Universal Design using the performing arts as a case study: creating environments, events, buildings, and products to accommodate the broadest spectrum of human ability, size, age, and other characteristics. Investigates how to put into practice the accessibility guidelines of the Americans with Disabilities Act of 1990. Performing is not required. Offered as THEA 3355 and DS 3355; credit will only be granted in one department.

THEA 3360. GENDER AND THE PERFORMING ARTS. 3 Hours.
Examines the role of gender in the performing arts, including theory and practice focused on gender. Additional topics may include female pioneers in the performing arts, the image of gender in different media, the way gender affects actors and artists, and the effect of cultural definitions of gender on audience reception. Offered as THEA 3360 and GWSS 3360. Credit will be granted only once.

THEA 3361. WOMEN IN THEATRE. 3 Hours.
Examines the history, theory, and practice of women in theatre. Pioneering female writers, directors, producers, actors, designers, and activists will be explored as well as their influence upon drama in its historical, social, and cultural contexts. Students will also be introduced to theory that examines female characters in plays and their impact on the artist and audience. Offered as THEA 3361 and GWSS 3361. Credit will be granted only once.

THEA 3387. ART DIRECTION I. 3 Hours.
The history, theory, and basic concepts of art direction methods and basic construction techniques for television and film. Prerequisite: Permission of advisor.

THEA 4110. THEATRE PEDAGOGY FIELD-BASED EXPERIENCE. 1 Hour.
Supervised and directed professional practice in local schools. The student will be assigned to a public-school site for five hours per week. Weekly seminars are required. Field-based experience must be taken the semester immediately preceding student teaching residency. Prerequisite: Permission of advisor.

THEA 4140. PRIVATE LESSONS IN VOICE-MUSICAL THEATRE. 1 Hour.
This sequence of courses is required of students who are pursuing the BFA in Musical Theatre. These courses may not be used as substitute voice lessons for those students pursuing a Bachelor of Music degree. Offered as MUSI 4140 and THEA 4140; credit will be granted only in one department. Prerequisite: C or better in MUSI 3141 or THEA 3141. Open to Musical Theatre majors only or by permission of the Department Chair.

THEA 4141. PRIVATE LESSONS IN VOICE-MUSICAL THEATRE. 1 Hour.
This sequence of courses is required of students who are pursuing the BFA in Musical Theatre. These courses may not be used as substitute voice lessons for those students pursuing a Bachelor of Music degree. Offered as MUSI 4141 and THEA 4141; credit will be granted only in one department. Prerequisite: C or better in MUSI 4140 or THEA 4140. Open to Musical Theatre majors only or by permission of the Department Chair.
THEA 4191. CONFERENCE COURSE. 1 Hour.
Topics assigned on an individual basis covering individual research or study in a designated area. May be repeated as the topic changes. Prerequisite: Permission of advisor.

THEA 4201. BUSINESS OF ACTING. 2 Hours.
An examination of the business of acting for the purpose of becoming a working professional in the entertainment industry. This course will cover headshots, resumes, networking, agents, unions, auditions and interviews, budgeting, marketing, and other aspects in preparing the student for work-readiness as they move into the profession. Prerequisite: permission of advisor.

THEA 4270. PRIVATE LESSONS IN VOICE-MUSICAL THEATRE. 2 Hours.
This sequence of courses is required of students who are pursuing the BFA in Musical Theatre. These courses may not be used as substitute voice lessons for those students pursuing a Bachelor of Music Degree. Prerequisite: Permission of Advisor.

THEA 4271. PRIVATE LESSONS IN VOICE - MUSICAL THEATRE. 2 Hours.
This sequence of courses is required of students who are pursuing the BFA in Musical Theatre. These courses may not be used as substitute voice lessons for those students pursuing a Bachelor of Music Degree. Prerequisite: Permission of advisor.

THEA 4291. CONFERENCE COURSE. 2 Hours.
Topics assigned on an individual basis covering individual research or study in a designated area. May be repeated as the topic changes. Prerequisite: Permission of advisor.

THEA 4300. DIRECTING II. 3 Hours.
Continuation of THEA 3300. Students will direct scenes and/or one-act plays. Prerequisite: THEA 3300 and permission of advisor.

THEA 4301. ADVANCED ACTING: ENSEMBLE. 3 Hours.
Students will perform solo and/or group performances devised from their own and/or other artists' research and development in a collaborative, ensemble environment. May not be repeated for credit. Prerequisite: THEA 2352, THEA 2340, and permission of advisor.

THEA 4303. CLASSICAL THEATRE HISTORY. 3 Hours.
The development of world theatre from its beginnings through the Renaissance. Analysis of representative plays of each period with particular emphasis on drama in its historical context. History of acting, costuming, and directing. Prerequisite: THEA 1343 and permission of advisor.

THEA 4304. MODERN THEATRE HISTORY. 3 Hours.
The development of Western theatre from the Renaissance to the present. Analysis of representative plays from Europe, England, and America. Development of the modern stage, acting methods, and production techniques. Prerequisite: THEA 1343 and permission of advisor.

THEA 4305. SCENE DESIGN II. 3 Hours.
Continuation of THEA 3071. Distinctions among stage, television, and film design, interaction of one with another, advanced methods, and application of scene design concepts. Prerequisite: THEA 3071 and permission of advisor.

THEA 4306. LIGHTING DESIGN II. 3 Hours.
Specialized topics and advanced design technique and application principles. Participation on light crews in departmental productions required. Prerequisite: THEA 3075 and permission of advisor.

THEA 4310. MUSICAL THEATRE HISTORY. 3 Hours.
The history, development, and contemporary manifestations of the musical theatre art form in America and London’s West End, and its relation to the continually changing social milieu. The course follows the development of musical theatre from its inception to the present.

THEA 4311. SHAKESPEARE AND VERSE IN PERFORMANCE. 3 Hours.
The study and performance of iambic pentameter and verse as found in Shakespearean and verse plays. Prerequisite: THEA 1303, THEA 2352 and permission of advisor.

THEA 4314. ADVANCED PRODUCTION TECHNIQUES. 3 Hours.
An advanced examination of theatre craft, technology, and production. Prerequisite: THEA 3304.

THEA 4315. SPECIAL EFFECTS MAKEUP DESIGN. 3 Hours.
The examination of styles and techniques of specialty makeup applications for the stage and how these relate to television and film.

THEA 4317. SINGING FOR THE ACTOR II. 3 Hours.
The advanced study of musical theatre performance as it relates to the integration of acting, singing and dance skills into an effective performance. The script, score, character, vocal demands, and movement requirements of both solo and ensemble works will be studied, and the works will be performed in a culminating, musical revue-styled performance. This course may be repeated once for credit. Prerequisite: THEA 1307 and THEA 3317, or permission of instructor.

THEA 4320. STAGE WELDING, RIGGING, AND FABRICATION. 3 Hours.
Styles and techniques of welding, rigging, and specialized materials fabrication for the stage and in video and film production. Prerequisite: THEA 1304 and permission of advisor.

THEA 4322. PLAYWRITING II. 3 Hours.
The art and craft of constructing a full-length, two-act play. Course content will include references to the work of major playwrights and playwriting theory. Students will receive course content through a combination of class lectures and one-on-one writing conferences with the instructor. Prerequisites: THEA 3320 or permission of faculty.
THEA 4325. PERFORMANCE THEORY. 3 Hours.
The examination of methods for experiencing, analyzing, and writing about theatre, dance, and other performing arts forms though the lenses of class, race, gender, nationalism, and disability/ability. Students will apply concepts of critical theory from its historical precedents to its contemporary forms. Attendance at fee-based arts events may be required. Prerequisite: THEA 2309 and permission of advisor.

THEA 4330. U.S. THEATRE HISTORY. 3 Hours.
The evolution of theatre in the United States from its beginning in colonial times to the present day. Representative plays from various periods are studied.

THEA 4333. MUSICAL THEATRE AUDITIONING AND SHOWCASE. 3 Hours.
Advanced principles of character development for musical theatre are explored with emphasis on the development of a role through script, music, and character analysis. The semester is structured toward the development of an actor's final portfolio culminating in an audition context presentation or showcase. Prerequisite: THEA 2352, THEA 4317, DNCE 3335 and permission of instructor.

THEA 4334. ACTING: AUDITIONING AND SHOWCASE. 3 Hours.
Advanced principles of audition technique with an emphasis on preparing the student for a professional career in the performing arts. The development and presentation of an actor's final portfolio culminating in an audition context presentation or showcase. Prerequisite: THEA 1303, THEA 2309, THEA 2352, THEA 2340 and permission of advisor.

THEA 4340. PHYSICAL THEATRE. 3 Hours.
The study and performance of physical theatre techniques. Prerequisites: THEA 2340, THEA 2352, and permission of advisor.

THEA 4341. ADVANCED SCENE STUDY. 3 Hours.
Advanced acting technique exercises to enhance and develop acting skills through scene study in preparation for work-readiness at the professional level. This includes advanced methods of characterization, research, and role preparation. Prerequisite: THEA 1303, THEA 1343, THEA 2352, THEA 2309, and THEA 2340, and permission of advisor.

THEA 4343. COSTUME DESIGN. 3 Hours.
Theory and practice of costume design and application of those principles to theatrical production. Prerequisites: THEA 1343, THEA 1305, THEA 2309 or permission of instructor.

THEA 4344. PORTFOLIO & THE BUSINESS OF DESIGN. 3 Hours.
Exploration of the business of theatre and development of professional materials essential to theatrical design and technology. The course will include the development of websites, digital, and paper portfolios and focus on fundamentals needed to manage a career as a theatrical designer, manager, and/or technician. Prerequisite: Permission of advisor.

THEA 4345. SUMMER THEATRE ACTIVITIES. 3 Hours.
The study and application of specialized production and performance activities in a summer repertory theatre setting.

THEA 4346. THEATRICAL WEAPONRY. 3 Hours.
This course fosters a practical and theoretical understanding for the process of creating the illusion of safe and credible violence for the stage. Emphasis is placed on textual characterization and working with the weapons most frequently used in stage violence. Depending upon the semester, the student may be trained in broadsword, single rapier, rapier and dagger, small sword, or quarterstaff.

THEA 4347. ADVANCED STUDIES IN THEATRE DESIGN/PRODUCTION PRACTICUM. 3 Hours.
Advanced studies practicum in theatre design and/or production. Topic varies from semester to semester. May be repeated as topic changes. Prerequisite: Permission of advisor.

THEA 4355. STRATEGIES, ASSESSMENT, AND CHILD DEVELOPMENT IN THEATRE PEDAGOGY. 3 Hours.
Open to theatre majors only. Current trends in theatre education will be examined. Topics include effective differentiated instruction, classroom management, strategies for working with diverse learners, and examination of major learning theories and principles of cognitive, social, emotional, physical and aesthetic development. This course will also examine a variety of assessment techniques that are used in a theatre classroom. Assessment tools such as rubrics, rating scales, National Standards, TEKS, STAAR, and TExES will be examined and implemented into lesson planning. Prerequisite: For Theatre Arts majors only. Admission into the College of Education.

THEA 4387. ART DIRECTION II. 3 Hours.
An applied course in art direction methods, construction practices and techniques in video and film production. Prerequisite: Permission of faculty.

THEA 4391. CONFERENCE COURSE. 3 Hours.
Topics assigned on an individual basis covering individual research or study in a designated area. May be repeated as the topic changes. Prerequisite: Permission of advisor.

THEA 4393. SPECIAL TOPICS. 3 Hours.
Special studies in drama and theatre. Topic varies from semester to semester. May be repeated as topic changes or until a maximum of six credit hours is attained. Prerequisite: Permission of advisor.

THEA 4394. SENIOR PROJECT. 3 Hours.
During the senior year, the student must complete a thesis or project of equivalent difficulty under the direction of a faculty member in the major department. Prerequisite: Permission of advisor.
THEA 4395. THEATRE INTERNSHIP LEVEL I. 3 Hours.
Individual research through working with a professional theatre or performing arts organization. Individual conference to be arranged. Graded on a pass/fail basis. Prerequisite: Theatre Arts major with permission of advisor and department chair.

THEA 4695. THEATRE INTERNSHIP LEVEL 2. 6 Hours.
Individual research through working with a professional theatre or performing arts organization. Individual conference between sponsor and departmental advisor required. Graded on a pass/fail basis. Prerequisite: Theatre Arts major with permission of advisor and department chair.

THEA 4995. THEATRE INTERNSHIP LEVEL 3. 9 Hours.
Individual research through working with a professional theatre or performing arts organization. Individual conference between sponsor and departmental advisor required. Graded on a pass/fail basis. Prerequisite: Theatre Arts major with permission of advisor and department chair.

THEA 5391. CONFERENCE COURSE. 3 Hours.
Topics assigned on an individual basis covering individual research or study in a designated area. May be repeated as the topic changes. Prerequisite: Permission of instructor.

THEA 5393. TOPICS IN THEATRE ARTS. 3 Hours.
Special topics in theatre; offered periodically with subject matter determined by instructor and student interest. Previous topics have included: Design Portfolio Workshop; Alternative Actor Training Workshop; Playwriting; Improvisation; and Styles in Acting. Prerequisite: Permission of advisor.
Theatre Arts and Dance - Graduate Programs

Objective
A few graduate course offerings in theatre arts are provided to support other graduate degree programs and to meet the express needs of students. These 5000-level courses may be found in the undergraduate course list. No program leading to a graduate degree in theatre arts exists at this time.
Theatre Arts and Dance - Undergraduate Programs

Mission and Objective

The mission of the Department of Theatre Arts and Dance in the College of Liberal Arts at The University of Texas at Arlington is to provide a comprehensive undergraduate education through theory, research, and practice in the theatre arts and dance.

The objective of the department is to provide an extensive and wide-ranging education in the theatrical and dance professions through applied and practical experiences acquired through performance and production opportunities. Undergraduate students in the Department of Theatre Arts and Dance explore the components which comprise the performance and production event. The research of new theories and their applications to the art, craft, and management of Theatre Arts and Dance is highly encouraged through one-on-one mentoring and supervision by specialized, professional faculty. A primary aspect of the Department of Theatre Arts and Dance is to provide a challenging educational environment for each student characterized by shared values, unity of purpose, diversity of opinion, mutual respect, and a commitment to lifelong learning. The following degrees are offered:

• Bachelor of Arts (B.A.) in Theatre Arts
• Bachelor of Fine Arts (B.F.A.) in Theatre Arts with concentrations in:
  • Design and Technology
  • Musical Theatre
  • Acting

In addition, the Department offers the following minors:

• Minor in Dance
• Minor in Theatre Arts

Dance courses are listed as Dance (DNCE). Several approved university core courses are also offered by the department that satisfy core degree requirements in other disciplines.

Production and Performance

Production and performance within the Department of Theatre Arts and Dance at the University of Texas at Arlington provides a laboratory for curricular exploration and a showcase for the creative research of the academic program. Professional faculty and guest artists work with students to present a wide variety of plays and musicals from past and current theatrical literature with a special focus on new play development. Every student, upon admission to a theatre degree program in the department participates in productions through coursework and practicums. These activities directly support the academic objectives of the department.

The Bachelor of Arts (B.A.) in Theatre Arts

Liberal Arts Requirements

The Bachelor of Arts degree provides a broad range of courses in theatre theory and practice, including acting, directing, technical theatre, dramatic literature, theatre history, and performance which offers breadth of experience and depth of inquiry. The B.A. is designed for students focused on the creation of new works: playwrights, directors, dramaturgs, and scholars.

Admission

In addition to the general requirements for admission to the University, the aspiring undergraduate must meet the following requirement for admission to the Bachelor of Arts degree program:

• Participation in advisement.

To be fully accepted in the Bachelor of Arts (B.A.) in Theatre Arts degree program, all students must complete at least one semester as a “Theatre Arts Intended” student and earn a 2.0 cumulative grade point average in all courses including theatre courses taken at UT Arlington. Once these standards are met, the student may be declared as a Bachelor of Arts in Theatre Arts major.

B.A. in Theatre Arts - Academic Requirements

All Theatre Arts majors shall enroll in THEA 0181 for one hour per semester - six (6) hours of THEA 0181 are required to graduate. Students should see their advisor regarding practicum obligations.
All B.A. students are encouraged to audition for each major production each semester they are enrolled, though they may choose to decline being considered for a role at the time of the audition. Production activities and Theatre Arts disciplinary rules are governed by a student handbook that is available to the student through the Department of Theatre Arts and Dance.

A minimum **2.0 overall grade point average** is required for all courses, including theatre courses, taken at UT Arlington in order to remain in the B.A. degree program. Students currently enrolled at UT Arlington who wish to declare Theatre Arts as a major must have a minimum grade point average of 2.0 in overall coursework taken at UT Arlington in order to be admitted.

A student will be placed on **departmental academic probation** in the Department of Theatre Arts and Dance if her/his grade point average drops below the minimum university GPA requirements. The department follows university guidelines regarding Academic Probation, Academic Warning, Academic Continuance, and Academic Dismissal. Theatre Arts and Dance students will work with their Area Head and advisor while on academic probation to create a specific improvement plan. However, if after a regular semester the student's grade point average does not meet the minimum required grade point average, the student may, at the discretion of the program area head and department chair, be removed from the degree program and will be advised as to other degree plan alternatives, should they exist.

**Department Scholarships**

The Department of Theatre Arts and Dance offers limited talent-based scholarships to deserving students. Work-study positions may be available. Contact the Department of Theatre Arts and Dance for information.

---

**The Bachelor of Fine Arts (B.F.A.)**

**Liberal Arts Requirements**

The Bachelor of Fine Arts degree is a specialized, pre-professional degree that provides a background in the liberal arts with specialized concentrations in: Design and Technology, Musical Theatre, or Acting.

- **The Design and Technology Concentration** is for students seeking a professional career as a scenic, lighting, sound or costume designer, technical director, and/or theatre technician.

- **The Musical Theatre Concentration** is designed for students seeking a professional career in musical theatre performance.

- **The Acting Concentration** is designed for students seeking a professional career as an actor.

Students seeking the B.F.A. elect additional courses chosen from the University and Liberal Arts core curricula outside the Department of Theatre Arts and Dance.

**Admission - B.F.A.**

The aspiring undergraduate must meet the following requirements for admission to the Bachelor of Fine Arts (B.F.A.) degree program:

* Participation in advisement.

* A personal interview with a designated faculty member (all students).

* A design/technical production portfolio review for the Design and Technology B.F.A. Concentration or an audition and interview for the Musical Theatre and the Acting B.F.A. Concentrations are required for admittance into one of these three B.F.A. Concentrations.

* Upon acceptance by the University and the Department of Theatre Arts and Dance, an indication of an area of concentration (Design and Technology, Musical Theatre, or Acting) is required.

**B.F.A. - Academic Requirements**

All Theatre Arts majors shall enroll in THEA 0181 for one hour per the requirements of their B.F.A. concentration in order to graduate. Students should see their advisor regarding practicum obligations. Transfer students must discuss THEA 0181 requirements with the Theatre Arts academic advisor.

- **B.F.A. Design and Technology Concentration** students are required to present an updated portfolio and resume of production and course work at a formal portfolio review session at the end of each semester enrolled. Students are required to perform an assigned BFA assignment each semester enrolled. These assignments can be work on a departmental production or projects geared to enhancing specific skill sets and portfolio materials. The BFA assignment is in addition to the requirements of the THEA 0181 Theatre Practicum course and any other course work. BFA assignments will be assigned by the Area Head of the Design and Technology Concentration with consultation from the design and technology faculty. Upon completion of the final semester of the B.F.A. Design and Technology Concentration, students will present their work at an exit portfolio presentation showcasing the student’s accumulated design and production work completed while enrolled in at UTA.

- **B.F.A. Musical Theatre Concentration** students are required to audition for each major production each semester they are enrolled, unless special permission has been obtained in advance of the audition from the Musical Theatre Concentration Area Head or the Chair of the Department.
• **B.F.A. Acting Concentration** students are required to audition for each major production each semester they are enrolled, unless special permission has been obtained in advance of the audition from the Acting Concentration Area Head or the Chair of the Department.

A minimum grade point average of 2.0 is required in overall coursework taken at UT Arlington in order to remain in the B.F.A. degree program. A minimum grade point average of 2.0 is required for all Theatre courses taken at UT Arlington in order to remain in the B.F.A. degree program. Students currently enrolled at UT Arlington who wish to declare Theatre Arts as an intended B.F.A. major must have a minimum grade point average of 2.0 in overall coursework taken at UT Arlington, in addition to the admission requirements stated above, in order to be admitted.

Concurrent enrollment in more than one B.F.A. concentration is not allowed. A student must complete a B.F.A. concentration and graduate with that concentration before being allowed to enroll in a second B.F.A. concentration.

Students wishing to change their B.F.A. concentration from one plan to another must reapply for and be accepted by the faculty to the new concentration according to the application procedures applicable for that concentration. Students should be aware that changing B.F.A. concentrations may result in additional semesters of study. Students should contact their academic advisor to obtain a new graduation date when changing concentrations.

A student will be placed on **departmental academic probation** in the Department of Theatre Arts and Dance if her/his grade point average drops below the minimum university GPA requirements. The department follows university guidelines regarding Academic Probation, Academic Warning, Academic Continuance, and Academic Dismissal. Theatre Arts and Dance students will work with their Area Head and advisor while on academic probation to create a specific improvement plan. However, if after a regular semester the student's grade point average does not meet the minimum required grade point average, the student may, at the discretion of the program area head and department chair, be removed from the degree program and will be advised as to other degree plan alternatives, should they exist.

Production activities and Theatre Arts disciplinary rules shall be governed by a student handbook that is available to the student upon request through the Department of Theatre Arts and Dance or at <https://www.uta.edu/theatre>.

**Department Scholarships**
The Department of Theatre Arts and Dance offers limited talent-based scholarships to deserving students. Work-study positions may be available. Contact the Department of Theatre Arts and Dance for information.

### TOTAL FOR EACH B.F.A. SUB-PLAN = 128 HOURS, OF WHICH AT LEAST 39 MUST BE AT THE 3000/4000 LEVEL.

---

1. All Theatre Arts BFA concentration majors will enroll in THEA 0181. BFA A and BFA DT concentration majors must enroll for one hour per semester in residence for the first three years with six (6) hours of THEA 0181 THEATRE PRACTICUM required. BFA MT majors must enroll for one hour per semester for the first two years with four (4) hours of THEA 0181 THEATRE PRACTICUM required. Students should see their advisor regarding practicum obligations. Transfer students must discuss THEA 0181 THEATRE PRACTICUM requirements with the Theatre Arts advisor.

## ORAL COMMUNICATION COMPETENCY

Students majoring in Theatre Arts may demonstrate competency in oral communications by taking any course approved by the Undergraduate Assembly for this purpose. Alternatively, they may demonstrate this competency by passing the University proficiency examination in oral communication.
COMPUTER USE COMPETENCY

Students majoring in Theatre Arts may demonstrate competency in computer use by taking any course approved by the Undergraduate Assembly for this purpose. Alternatively, they may demonstrate this competency by passing the University proficiency examination in computer use.

Requirements for a Minor in Theatre Arts

Students who are not majoring in Theatre Arts may elect to minor in it.

REQUIREMENTS

Eighteen (18) hours of Theatre Arts courses are required. This includes:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>THEA 1304</td>
<td>STAGECRAFT I</td>
<td>3</td>
</tr>
<tr>
<td>THEA 1307</td>
<td>ACTING: FUNDAMENTALS</td>
<td>3</td>
</tr>
<tr>
<td>THEA 1343</td>
<td>INTRODUCTION TO THEATRE</td>
<td>3</td>
</tr>
<tr>
<td>THEA 2309</td>
<td>SCRIPT ANALYSIS</td>
<td>3</td>
</tr>
</tbody>
</table>

Electives: 3 hr any level. 3 hr advanced level.

Total Hours: 18

Students interested in theatre arts as a minor should consult a Theatre Arts Department advisor to determine the most advantageous selection of courses in light of their interests and experience. With such consultation, departmental prerequisites may be waived for the purposes of a Theatre Arts minor.

Requirements for a Minor in Dance (DNCE)

Any undergraduate student may elect to minor in Dance (DNCE). The Dance Minor offers a variety of dance technique and theory courses to develop a well-rounded artist/scholar. Students have some flexibility in designing their coursework with the ability to choose from a variety of DNCE elective courses towards the Dance Minor.

REQUIREMENTS

- At least four (4) credit hours in level 2 dance technique courses DNCE 3232, DNCE 3235, or DNCE 3236 must be completed at UT Arlington.
- A placement exam may be required prior to enrolling in level 2 technique courses.
- A maximum of two (2) credits of DNCE 1139 Dance Performance may be applied towards the Dance Minor.
- Eighteen (18) hours of specified Dance courses are required:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>DNCE 1300</td>
<td>DANCE APPRECIATION</td>
<td>3</td>
</tr>
<tr>
<td>DNCE 3232</td>
<td>MODERN DANCE II</td>
<td>2</td>
</tr>
<tr>
<td>DNCE 3235</td>
<td>BALLET II</td>
<td>2</td>
</tr>
<tr>
<td>DNCE 3236</td>
<td>JAZZ DANCE II</td>
<td>2</td>
</tr>
</tbody>
</table>

Electives: A minimum of six (6) DNCE elective hours must be at the 3000 or 4000 level.

Total Hours: 18

Students interested in a minor in Dance should consult with a Theatre Arts Department academic advisor to enroll in the appropriate courses.
Gender, Women & Sexuality Studies - Undergraduate Program

Overview

The Gender, Women & Sexuality Studies Program provides students with the opportunity to engage in critical analysis of issues related to women, gender, and sexuality. Courses typically emphasize how women, gender, and sexuality have shaped and been shaped by history, culture, and society, with particular attention to the role of race, ethnicity, class, nation, age, and religion in forming gender and sexual identities. This interdisciplinary program is taught by faculty from diverse fields and offers a unique opportunity for students to complement their work in traditional disciplines with courses that can be tailored to meet specific interests and needs.

Students may receive a minor in Gender, Women & Sexuality Studies by taking 18 credit hours from a selection of courses offered across several disciplines. Many of our courses are cross-listed with courses offered in other departments. Students should consult the Gender, Women & Sexuality Studies website for a list of the courses being offered in any specific semester.

Gender, Women & Sexuality Studies minors are encouraged to take two foundation courses: GWSS 2310: Introduction to Women's & Gender Studies and GWSS 2315: Introduction to LGBTQ+ Studies. Both of these courses satisfy the general core requirements in Language, Philosophy, and Culture.

Gender, Women & Sexuality Studies Minors may also consider taking the Internship course, which involves working off campus at a local organization that addresses women's or gender issues.

Students seeking the Gender, Women & Sexuality Studies minor should first consult with the advisors in their major departments or programs for approval, then with the Gender, Women & Sexuality Studies Program advisor.

A Graduate Certificate in Gender, Women & Sexuality Studies is an interdisciplinary program that advances knowledge and research in the fields of gender, women, and sexuality studies. A Graduate Certificate demonstrates a student's understanding of the issues related to women, gender, and sexuality that have shaped social structures, institutions, and identities across human history and continue to impact our cultural, political, and social world. Students gain a specialization within the fields of gender, women, and sexuality studies that enhances their graduate education and equips them with skills to succeed in their chosen careers.

Applicants seeking the Gender, Women & Sexuality Studies Graduate Certificate will be restricted to students currently enrolled in a Master's or Ph.D. program at UT Arlington, having met those admission standards. In these cases, the Gender, Women & Sexuality Studies Program will defer to the admissions standards of each individual graduate program. As long as the student remains in good standing within their primary degree-granting department, they may be admitted to the Gender, Women & Sexuality Studies Graduate Certificate Program. Students should consult with the Graduate Studies Advisor of their Master's or Ph.D. program before applying to the Graduate Certificate in Gender, Women & Sexuality Studies.

Students may receive a Graduate Certificate in Gender, Women & Sexuality Studies by taking 12 hours of graduate-level GWSS courses or graduate-level courses designated by the Gender, Women & Sexuality Studies Program as having a central focus on gender, women, sexuality, or related topics. These courses may be taken within the graduate student's primary degree-granting department, or within other participating graduate programs. Courses may be counted twice, for both the student's primary graduate degree and their Graduate Certificate in Gender, Women & Sexuality Studies. A list of approved classes will be posted on the Gender, Women & Sexuality Studies website.

COURSES

GWSS 2301. TOPICS IN GENDER, WOMEN & SEXUALITY STUDIES. 3 Hours.
Special topics of interest in the disciplines of Gender, Women & Sexuality Studies. May be repeated for credit when the topic changes.

GWSS 2307. WOMEN IN THE ANCIENT WORLD. 3 Hours.
Exploration of roles and images of women in ancient Greece and Rome, using a variety of primary (ancient) sources: literature, legal and medical texts, visual art, and inscriptions. Offered as CLAS 2307 and GWSS 2307. Credit will be granted only once.

GWSS 2310. INTRODUCTION TO WOMEN'S & GENDER STUDIES. 3 Hours.
Provides an introduction to Gender, Women & Sexuality Studies as fields that place women and gender at the center of inquiry. Examines topics such as work, family, reproduction, sexuality, politics, art, literature, and contemporary media. Explains the diversity of methods and theories employed in Gender, Women & Sexuality Studies scholarship, emphasizing the intersection of gender, sexuality, race, ethnicity, and class. Satisfies the University of Texas at Arlington core curriculum requirement in Language, Philosophy, and Culture.

GWSS 2315. INTRODUCTION TO LGBTQ+ STUDIES. 3 Hours.
Provides an introduction to Gay and Lesbian Studies, including the study of transsexual, transgender, and queer identities. May address topics such as LGBTQ history; sexuality and civil rights; the representation of LGBTQ in art, literature, and popular culture; and/or feminist analysis of sex, gender, and sexuality. Explains the methods and theories employed in gay and lesbian studies, emphasizing the intersection of gender, sexuality, race, ethnicity, class, and ability/disability. Satisfies the University of Texas at Arlington core curriculum requirement in Language, Philosophy, and Culture. This course is offered as GWSS 2315 and DIVR 2315. Credit will be granted in only one department.
GWSS 2317. BASIC CONCEPTS IN HUMAN SEXUALITY. 3 Hours.
The physiological, psychological, and sociological aspects of human sexuality. Offered as BIOL 2317, HEED 2317, PSYC 2317, and GWSS 2317. Credit will be granted for one of these courses only. Students seeking certification in Health Education must enroll in HEED 2317. Students seeking credit toward their science requirement must enroll in BIOL 2317. May not be used for biology grade point calculation or biology credit toward a BS degree in biology, microbiology, medical technology, psychology, or sociology.

GWSS 3300. TOPICS IN GENDER, WOMEN & SEXUALITY STUDIES. 3 Hours.
Special topics of interest in the disciplines of Gender, Women & Sexuality Studies. May be repeated for credit when the topic changes. Offered as GWSS 3300 and AAST 3300; credit will be granted in only one department.

GWSS 3301. INTRODUCTION TO LATIN/A-HISPANIC FEMINISM. 3 Hours.
This interdisciplinary course explores Latina/Hispanic feminism through the intersection of race, class, gender, and sexuality. This course is organized around the following issues: colonization, immigration, globalization, sexism, health, and violence. Through an analysis of cultural production, politics, socio-economics, literacy texts, and feminist methodology, the goal of this course is to develop a robust understanding of how Latina/Hispanic feminist methodologies can be used as tools for social change and social justice. Offered as GWSS 3301, MAS 3301, and DIVR 3301. Credit will only be granted in one department.

GWSS 3305. WOMEN'S HEALTH ISSUES. 3 Hours.
Will address specific issues of importance to women and their health, including growth and development, nutrition, reproductive health, pregnancy, chronic diseases, and relationship/family issues. Offered as DIVR 3305, HEED 3305 and GWSS 3305. Credit will be granted only once.

GWSS 3314. THE LATINA EXPERIENCE. 3 Hours.
A course on the social, cultural, and economic experiences of Latina and Latin American origin women in the United States. Offered as MAS 3314, SOCI 3314, SOCW 3314, GWSS 3314, and AAST 3321. Credit will be granted in only one department.

GWSS 3315. TOPICS IN LGBTQIA+ STUDIES. 3 Hours.
Special topics related to LGBTQIA+ Studies. May be repeated for credit when the topic changes.

GWSS 3322. U.S. WOMEN'S HISTORY. 3 Hours.
An examination of women in US politics, work and society from the colonial era to the present. Offered as HIST 3324 and GWSS 3324; credit will be granted only once.

GWSS 3328. MARITAL AND SEXUAL LIFESTYLES. 3 Hours.
Contemporary American lifestyles selected from: singles, traditional marriage, homosexuals, single-parent families, open marriage, non-marital sexuality, cohabitation, dual-career marriage, childless couples, egalitarian marriage, families in later life. Offered as DIVR 3328, SOCI 3328 and GWSS 3328; credit will be granted only once.

GWSS 3331. SOCIOLOGY OF THE FAMILY. 3 Hours.
The family's role in American society and in other cultures past, present, and future. Family research methods, comparative family systems, child development/parenting, culture and personality, minority families, social class variation in families, work and family. Offered as SOCI 3331 and GWSS 3331; credit will be granted only once. Prerequisite: sophomore standing or permission of the instructor.

GWSS 3334. SOCIOLOGY OF GENDER. 3 Hours.
Examination of theoretical and empirical approaches to understanding the formation of gender. Assesses individual and structural dimensions of gender in various social institutions including work, education, and families. Offered as SOCI 3334 and GWSS 3334; credit will be granted only once.

GWSS 3338. COMPARATIVE KINSHIP AND FAMILY SYSTEMS. 3 Hours.
Variation in kinship and family systems from crosscultural and evolutionary perspectives. Structure, function, and dynamics of kinship and family systems as adaptations to diverse ecological, social, and historical circumstances. Implications of this approach for understanding kinship and family in American society also addressed. Formerly listed as ANTH 4338. Credit cannot be given for both ANTH 3338 and ANTH 4338. Also offered as GWSS 3338; credit will be granted only once.

GWSS 3356. WOMEN, WORK AND SOCIAL CHANGE. 3 Hours.
Women's work experiences, how these experiences are changing, and relationship between paid employment and non-wage household labor. Paid and unpaid work experiences are empirically examined in terms of a variety of theoretical perspectives. Offered as DIVR 3356, SOCI 3356 and GWSS 3356; credit will be granted only once.

GWSS 3360. GENDER AND THE PERFORMING ARTS. 3 Hours.
Examines the role of gender in the performing arts, including theory and practice focused on gender. Additional topics may include female pioneers in the performing arts, the image of gender in different media, the way gender affects actors and artists, and the effect of cultural definitions of gender on audience reception. Offered as THEA 3360 and GWSS 3360. Credit will be granted only once.

GWSS 3361. WOMEN IN THEATRE. 3 Hours.
Examines the history, theory, and practice of women in theatre. Pioneering female writers, directors, producers, actors, designers, and activists will be explored as will their influence upon drama in its historical, social, and cultural contexts. Students will also be introduced to theory that examines female characters in plays and their impact on the artist and audience. Offered as THEA 3361 and GWSS 3361. Credit will be granted only once.
GWSS 3364. TOPICS IN LGBTQIA+ LITERATURE AND THEORY. 3 Hours.
Studies representations of the sexual and/or gender identities of LGBTQIA+ people and the intersectionality among them through a variety of texts. Specific topics may include the history of marginalized sexualities, crossdressing in literature, or transvestite saints; the texts may be philosophical, political, literary, and/or scientific. Offered as ENGL 3364 and GWSS 3364; credit will be granted in only one department. May be repeated for credit as course content changes. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

GWSS 3366. SEX, GENDER, AND CULTURE. 3 Hours.
The ways gender and sexuality are culturally constructed. Readings include ethnographies, life histories, and fiction. Debates within anthropology and within specific cultures over maleness and femaleness. Offered as ANTH 3366 and GWSS 3366; credit will be granted only once.

GWSS 3368. TOPICS IN FEMINIST THEORY, GENDER, AND SEXUALITY. 3 Hours.
Examines issues of gender and sexuality through literary, theoretical, and philosophical texts that foreground questions feminist theory raises about desire, sexual identity, and gender asymmetry. Considers how gender and sexuality shape and are shaped by race, ethnicity, class, ability/disability, religion, and age. May be repeated for credit as course content changes. Offered as ENGL 3368 and GWSS 3368; credit will be granted in only one department. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

GWSS 3370. HISTORY OF WOMEN'S WRITING. 3 Hours.
Examines women's writing in English from the Medieval period to the present. Offered as ENGL 3370 and GWSS 3370; credit will be granted in only one department. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

GWSS 3385. WOMEN AND CRIME. 3 Hours.
This course examines criminology and criminal justice issues as they relate specifically to women. The three major areas of coverage include (1) women and girls as victims of crime, (2) women and girls as criminal offenders; and (3) women working in the criminal justice system. Offered as DIVR 3385, CRCJ 3385 and GWSS 3385; credit will be granted only once.

GWSS 3393. ART AND GENDER. 3 Hours.
Approaches to the interpretation of art from the stance of gender and feminism. Emphasis is placed on the work of significant female artists and on the gendered representations of art. Offered as ART 3393 and GWSS 3393; credit will be granted only once. Fulfills the Social/Cultural Studies requirement. Prerequisite: Any two of the three courses ART 1309, ART 1310, and ART 1317; or permission from the instructor.

GWSS 4190. CONFERENCE COURSE. 1 Hour.
Independent study for the advanced undergraduate. A close examination of a chosen topic through research and/or reading; format designed by instructor and student. May be repeated for credit when the subject matter varies, but only with permission of the director of Gender, Women & Sexuality Studies Program.

GWSS 4290. CONFERENCE COURSE. 2 Hours.
Independent study for the advanced undergraduate. A close examination of a chosen topic through research and/or reading; format designed by instructor and student. May be repeated for credit when the subject matter varies, but only with permission of director of Gender, Women & Sexuality Studies Program.

GWSS 4302. WOMEN AND WORK IN TRANSATLANTIC PERSPECTIVE. 3 Hours.
Examines the history of women and work, both waged and nonwaged, in Europe and the Americas, including the United States. Highlights differences within women's work cultures as well as variation in women's employment opportunities and their efforts to achieve equality with men in the workplace, by ethnicity, region, and nation. Offered as HIST 4302 and GWSS 4302; credit will be granted only once.

GWSS 4303. WOMEN IN SOCIETY. 3 Hours.
Women's status in contemporary American society, including the family, workplace, and politics. Women's status will also be examined in historical and crosscultural perspectives. Offered as SOCI 4303 and GWSS 4303; credit will be granted only once.

GWSS 4305. TRANSNATIONAL FEMINISMS. 3 Hours.
Explores transnational feminist frameworks and the heterogeneous processes used in the cultural construction of gender in a global context. Centering non-Western perspectives, the class analyzes the intersectional inequalities experienced by women in different cultural contexts and explores the workings of power and gender that shape the lives of women around the world. Topics may include reproductive rights, poverty, education, and religious, economic, political, and legal mechanisms of women's subordination and inequality.

GWSS 4307. 'EVIL' WOMEN: WITCHES, HARLOTS & 'MADWOMEN'. 3 Hours.
Examines the definition of 'evil' women as a mechanism for the control of women and the maintenance of patriarchal gender relations in Western societies. Will address the philosophical and religious ideologies that underpin manifestations of misogyny and the extreme, narrow boundaries Western societies historically used in defining female gender roles. Topics include witch hunts, policing of women's sexual behavior, and using labels of mental illness to punish women for social transgressions.
GWSS 4316. WOMEN IN THE POLITICAL PROCESS. 3 Hours.
This course introduces students to the unique experiences of women in the political process, the impact of these experiences on the political system, and theories of gender and politics. Offered as POLS 4316 and GWSS 4316; credit will be granted only once.

GWSS 4318. LANGUAGE AND GENDER. 3 Hours.
The role of language in the expression and creation of gender identities. Gender differences in language structure and use, women's and men's language in other cultures, the acquisition of gendered ways of speaking, and sexism in language. Offered as LING 4318 and GWSS 4318; credit will be granted only once. Prerequisite: LING 3311.

GWSS 4323. FEMINIST POLITICAL THOUGHT. 3 Hours.
Issues raised by the feminist critique of political theory; the exclusion of women from the political sphere until the 20th century; Marxist, liberal, and radical feminist political thought; alternative feminist conceptions of the political. Offered as POLS 4323 and GWSS 4323; credit will be granted only once. Prerequisite: POLS 2311 and POLS 2312.

GWSS 4325. WOMEN IN SCIENCE. 3 Hours.
Explores the role of women in science. Emphasis on gender and science, the history of women in science, gender equity in the classroom, strategies for the retention of women scientists, the current culture/climate for women in science, and contemporary women in science. Offered as EDUC 4325, SCIE 4325, and GWSS 4325. Credit will be granted only once.

GWSS 4326. DIVERSITY IN ORGANIZATIONS. 3 Hours.
This course examines the implications of employee diversity in organizations, an issue of increasing importance. It includes study of the changing demographics of workers, including multiple demographic groups and areas of difference important to organizational treatment and outcomes. This course examines research on treatment, access, and customer discrimination. Legislation related to diversity is also reviewed. This course also provides suggestions for individuals and organizations to increase opportunities and outcomes for workers of all backgrounds. Offered as MANA 4326, AAST 4326 and GWSS 4326; credit will be granted in only one department. Prerequisite: Junior standing.

GWSS 4327. WOMEN IN HISPANIC LITERATURE. 3 Hours.
Considers women as characters in and writers of Hispanic literature. Includes the analysis of themes, language, and how the writings of women often give voice to lesser known aspects of culture. Offered as SPAN 4327, MAS 4327, and GWSS 4327; credit will be granted only once. Prerequisite: SPAN 3315 with a grade of C or better.

GWSS 4340. TOPICS IN WOMEN'S WRITING. 3 Hours.
Focuses on women's writing in a particular genre or historical period or on a concept or issue of importance to women writers. May be repeated for credit as course content changes. Offered as ENGL 4340 and GWSS 4340; credit will be granted in only one department. Prerequisite: English majors must have earned a C or better in ENGL 3350 and in one literature survey course (ENGL 3340, ENGL 3341, ENGL 3351, ENGL 3352, ENGL 3361, or ENGL 3362). Non-majors must have earned a C or better in 3 hours of sophomore literature (ENGL 2303, ENGL 2309, ENGL 2319, ENGL 2329).

GWSS 4390. CONFERENCE COURSE. 3 Hours.
Independent study for the advanced undergraduate. A close examination of a chosen topic through research and/or reading; format designed by instructor and student. May be repeated for credit when the subject matter varies, but only with permission of the director of the Gender, Women & Sexuality Studies Program.

GWSS 4392. TOPICS IN GENDER, WOMEN & SEXUALITY STUDIES. 3 Hours.
Special topics related to Gender, Women & Sexuality Studies. May be repeated for credit when the topic changes, with permission of the director of the Gender, Women & Sexuality Studies Program.

GWSS 4393. GENDER, WOMEN & SEXUALITY STUDIES INTERNSHIP. 3 Hours.
Supervised internship through which students apply the academic skills they have acquired in Gender, Women & Sexuality Studies courses by working in a related business or non-profit environment. Required coursework will be determined by instructor. Prerequisite: GWSS 2310 and permission of Director of Gender, Women & Sexuality Studies.

GWSS 5301. TOPICS GENDER, WOMEN & SEXUALITY STUDIES. 3 Hours.
Special topics of interest in the discipline of Gender, Women & Sexuality Studies. May be repeated for credit when the topic changes.

GWSS 5310. FEMINIST THEORY. 3 Hours.
The foundational course for the Gender, Women, and Sexuality Studies graduate certificate. Covers a wide range of feminist theoretical approaches to prepare students for graduate-level work in gender, women, and sexuality studies.
College of Nursing and Health Innovation

CONHI Website

Mission and Vision

The College of Nursing and Health Innovation is an integral component of The University of Texas at Arlington and subscribes to the mission of the University.

The mission of the College of Nursing and Health Innovation is to advance global health and the human condition through transdisciplinary collaboration by engaging in high quality teaching, research, scholarship, practice and service to prepare a diverse population of health professionals and to reduce health disparities. The vision of the College of Nursing and Health Innovation is to provide innovative, exceptional education through research and practice to advance health and the human condition globally.

History and Overview

The UT Arlington College of Nursing was established in 1971 as the U.T. System College of Nursing in Fort Worth and was housed in John Peter Smith Hospital. The first baccalaureate class enrolled in fall of 1972; the graduate program (MSN) began in 1975. In 1976, the school became an academic unit of UT Arlington, moving to the campus in 1977. Degree program offerings continued to expand to include a PhD in Nursing in fall 2003. In fall of 2014, the Department of Kinesiology was combined with the College of Nursing to create the College of Nursing and Health Innovation. Before joining with the College of Nursing, the department of Kinesiology was a department in the College of Education and Health Sciences at UTA.

The Undergraduate Nursing Department consists of the BSN and the RN to BSN programs. In addition to the Arlington campus, these programs are offered online through the UT Arlington Academic Partnership program.

The Graduate Nursing Department offers a Master of Science in Nursing (MSN) with preparation as a nurse practitioner in the population areas of Adult-Gerontology Acute Care, Adult Gerontology Primary Care (previously Adult and Gerontology), Family, Neonatal, Acute Care Pediatric, Primary Care Pediatric and Psychiatric-Mental Health. Post-master’s certificates are available in all the above nurse practitioner specialties. In addition, the UT Arlington MSN Program offers preparation in Nursing Administration, Nursing Education, Family Nurse Practitioner, Adult Gerontology Primary and Acute Care Nurse Practitioner, and Pediatric Primary and Acute Care Nurse Practitioner options in an online accelerated format. An RN to MSN option is also available in an accelerated online format in Nursing Education, Nursing Administration and Family Nurse Practitioner. Post baccalaureate certificates are offered in Nursing Administration, Nursing Education, and Health Informatics. Post Master’s Certificates options are available in all Nurse Practitioner tracks and in Nursing Administration. Many of the Post Master’s Certificates are also available in the accelerated online format. The PhD in Nursing was approved in April 2003 with classes beginning in Fall 2003. A BSN-to-PhD entry option was approved in 2005, with classes beginning in Fall 2006. The Doctor of Nursing Practice (DNP) began in Fall 2009.

The undergraduate programs within the Department of Kinesiology are organized into four areas: exercise science, physical education teacher education, sports leadership & management and public health. The graduate programs include a Graduate Certificate in Public Health, a Master of Science in Exercise Science, a Master of Science in Athletic Training and a PhD in Kinesiology. Each of these academic programs provide students with a strong foundation in the sciences of their respective fields and provides a comprehensive discipline-specific program of study designed to prepare students for a specific career path. Some of the degree options work towards meeting the prerequisite requirements for admission to physical therapy, occupational therapy and physician’s assistant graduate programs, as well as medical and dental schools (e.g., BS in Exercise Science - Clinical Health Professions). Other degree plans prepare students for state and national certification/licensure (e.g., Physical Education Teacher Education and Athletic Training) programs. The Public Health programs prepare students for careers in public health, as well as preparation for advanced degrees in public health. The PhD in Kinesiology prepares students for careers in research, academic and related industry settings.

Accreditation

The baccalaureate degree program in nursing, master’s degree program in nursing, Doctor of Nursing Practice program, and post-graduate APRN certificate program at The University of Texas at Arlington is accredited by the Commission on Collegiate Nursing Education, 655 K Street NW, Suite 750, Washington, DC 20001, 202-887-6791.

The Kinesiology Athletic Training Program is accredited by the Commission on Accreditation of Athletic Training Education (CAATE). CAATE ensures that accredited institutions and education programs that offer athletic training meet the rigorous standards for professional athletic training education and encourages continuous enhancement in the quality of preparing athletic trainers.
Research Interests of Faculty

The research programs of the College of Nursing and Health Innovation faculty are diverse. A sampling of their areas of study includes oncology, health disparities, leadership in nursing education, technology in the care of older adults, simulation and technology in health professional education, exercise interventions to mitigate heart disease, inter-professional collaborations education, statistical models, gerontology, bone and muscle disease and heart disease. Other faculty research interests include adapted sports, sports pedagogy, applied biomechanics, motor development, cardiovascular physiology, autonomic function, environmental physiology, cardiac function, pulmonary responses to exercise, postural control in the elderly, dynamic regulation of blood pressure, assessment and management of sports-related concussions, the effects of therapeutic modalities on the treatment of athletic injuries, and the effects of hyperbaric oxygen on the treatment of diseases.

Special

**Smart Hospital™**

Assistant Dean: Jennifer Roye

The Smart Hospital™ is a simulated hospital environment complete with state-of-the-science equipment and furnishings. In this facility, students interact with and provide care to a full array of simulated patients who occupy the Emergency Department, ICU, Labor and Delivery suite, pediatric unit, Neonatal ICU, adult medical/surgical beds and the resuscitation room for large team training. Students learn utilizing simulation technology including full body interactive patient simulators, computerized scenario-based programs and individual trainers for specific skills.

The "patients" who populate our Smart Hospital are life-sized computerized manikins that actually interact with the learners. Patients include infants, children, adults, and even a mother in labor who goes through the labor process and delivers a newborn. Some manikins are static but others are interactive and responsive—they can speak and breathe, have heart sounds and lung sounds, and can progress through the various stages of numerous clinical states from birth through death. In addition, we have specially trained actors who can serve as patients or family members in clinical teaching scenes. In each clinical scenario, the students are exposed to situations and changes in patient conditions, both subtle and obvious, that they will experience in actual practice. With repeated exposure to these situations, students develop a deeper understanding of clinical conditions and become more adept at critical and clinical thinking. With this foundation, our students move more quickly from novice to expert and in so doing enhance the quality of patient care they provide.

Center for Research and Scholarship

Associate Dean: Dr. Paul J. Fadel

Scholarship is an essential component of the professional role in the College of Nursing. The Center provides support services to faculty and students: identifying funding sources; developing competitive proposals; writing grant applications; retrieving literature; collecting, entering and analyzing data; and disseminating research results and other scholarly products. Collaborative relationships for research with Metroplex health care agencies are in place.

Center for Hispanic Studies in Nursing and Health

The Center is dedicated to fostering an understanding between health care professionals and people of Hispanic origin for the purpose of increasing understanding of health and healing through research of individual experience, cultural meanings, and the structure of institutions as important variables influencing health outcomes. The Center is also committed to the provision of educational programs and services which will assist health care providers to gain the necessary knowledge and skills to deliver increasingly culturally sensitive and competent care. The Center promotes interdisciplinary and interuniversity collaboration as a strategy for development of resources to solve or deal with bi-cultural issues facing health care professionals.

Rural Health Outreach Program

The purpose of the Center is to provide appropriate, affordable, accessible continuing education to the nursing staffs of acute care and psychiatric hospitals, long term care facilities, home health agencies, and other health care facilities in the rural communities of North Central Texas.

Center for Healthy Living and Longevity

Associate Dean: Dr. David Keller

The Department of Kinesiology's Center for Healthy Living and Longevity provides a multidisciplinary approach to improving health throughout the lifespan. Research and education initiatives focus on keeping older adults active, decreasing the incidence of sedentary-related diseases (diabetes, cardiovascular disease, osteoporosis, obesity, etc.), and the assessment and management of concussions. Contact: Dr. David Keller, kellerd@uta.edu.

Programs

**BACHELOR’S DEGREES**

- Bachelor of Arts in Kinesiology (Sport Leadership and Management) (p. 1237)
- Bachelor of Arts in Physical Education Teacher Education (PETE) (p. 1237)
- Bachelor of Science in Exercise Science - Clinical Health Professions (CHP) (p. 1237)
• Bachelor of Science in Exercise Science - Fitness/Wellness (F/W) (p. 1237)
• Bachelor of Science in Nursing, B.S.N. (p. 1190)
• Bachelor of Science in Public Health (p. 1238)

MASTER’S DEGREES
• Master of Science in Athletic Training (p. 1223)
• Master of Science in Exercise Science (p. 1223)
• Master of Public Health (p. 1223)
• Master of Science in Nursing - Administration, M.S.N. (p. 1179)
• Master of Science in Nursing - Education, M.S.N. (p. 1179)
• Master of Science in Nursing - Nurse Practitioner, M.S.N. (p. 1179)

DOCTORAL DEGREES
• Doctor of Nursing Practice, D.N.P. (p. 1184)
• PhD in Nursing (p. 1184)
• PhD in Kinesiology (p. 1223)

CERTIFICATES
• Gerontology Healthcare Certificate (p. 1186)
• Nurse Educator Certificate (p. 1186)
• Nurse Practitioner, Acute Care Pediatric (p. 1186)
• Nurse Practitioner, Adult Gerontology Acute Care (p. 1186)
• Nurse Practitioner, Adult Gerontology Primary Care (p. 1186)
• Nurse Practitioner, Family (p. 1186)
• Nurse Practitioner, Neonatal (p. 1186)
• Nurse Practitioner, Primary Care Pediatric (p. 1186)
• Nurse Practitioner, Family Psychiatric/Mental Health (p. 1186)
• Graduate Certificate of Public Health Studies (p. 1235)
• Telehealth and Health Informatics (p. 1200)
• Health Informatics Certificate (https://catalog.uta.edu/nursing/graduate/#certificatestext)

Elizabeth Merwin, PhD, RN, FAAN
Dean & Professor

Kathryn Daniel, PhD, RN, A/GNP-BC, GS-C, AGSF, FAAN
Associate Dean, Academic Affairs, Nursing & Associate Professor

Paul Fadel, PhD
Associate Dean, Research & Professor

David Keller, PhD
Associate Dean & Chair, Kinesiology & Professor

Kimberly A. Siniscalchi, DNP, RN, FAAN
Professor of Practice

Candice Calhoun-Butts, PhD
Assistant Dean, Enrollment and Student Services

Beth Lucy-Speidel, MA, MS
Associate Dean, Administrative Affairs

Ann Eckhardt, PhD, RN
Interim Chair, Graduate Nursing & Assistant Clinical Professor

Jeanean Boyd, DNP, RN
Chair, Undergraduate Nursing & Assistant Clinical Professor
For a comprehensive list of faculty and staff in the College of Nursing in Health Innovation, visit the [College of Nursing and Health Innovation Directory](https://www.uta.edu/conhi/people/).

**COURSES**

**NURS-EL 3300. COOPERATIVE NURSING WORK EXPERIENCE. 3 Hours.**
Designed for nursing cooperative education students to integrate classroom study with career-related practical experience in the workplace. Must earn a C or better to earn credit. Prerequisite: Admission into nursing degree program.

**NURS-EL 3347. SPECIALIZED TOPICS IN NURSING. 3 Hours.**
Areas of special interest. May be repeated with varied topics. Must earn a C or better to earn credit.

**NURS-EL 3352. THE LEGACY OF THE FAMILY. 3 Hours.**
Explore and enhance understanding and application of the principles of family science knowledge in therapeutic relationships with families across the lifespan.

**COURSES**

**NURS-HI 3358. FUNDAMENTAL TELEHEALTH SKILLS. 3 Hours.**
This course is designed to provide students with foundational knowledge of skills required for effective telehealth application and delivery. Prerequisite: undergraduate status or special student status.

**NURS-HI 3359. INTRODUCTION TO HEALTH INFORMATICS. 3 Hours.**
This course provides the foundation for the study of health informatics and covers topics such as health information management, clinical information systems (inpatient, outpatient, nursing, laboratory, pharmacy, radiology, etc.), decision support systems, clinical research and health-assessment systems, technology assessment, population health, ethics, security and confidentiality, social determinants of health and emerging trends. Prerequisite: undergraduate status or special student status.

**NURS-HI 3360. INTERPROFESSIONAL COLLABORATIVE PRACTICE. 3 Hours.**
This course is designed to provide students with foundational knowledge of interprofessional collaborative practice. Students will explore values and ethics for interprofessional practice, roles and responsibilities for collaborative practice, interprofessional communication strategies, and the interprofessional teamwork and team-based practice. This course will provide a framework for deliberate interprofessional collaborative practice with other health professionals to maintain a climate of mutual respect and shared values in today's complex health care environment, with the common goal of improving patient outcomes. Prerequisite: undergraduate status or special student status.

**NURS-HI 5383. PRINCIPLES OF HEALTHCARE INFORMATICS. 3 Hours.**
Health information management, clinical information systems, decision support systems, clinical research and health assessment systems, technology assessment, and healthcare accounting. Focus is on US healthcare and the role of informatics within the U.S. healthcare system. Prerequisite: Graduate standing.

**NURS-HI 5384. HEALTHCARE DATA MANAGEMENT AND ANALYTICS. 3 Hours.**
Development, integration, and management of healthcare information systems, patient care systems, and healthcare delivery applications. Utilizes case studies and real-life application scenarios. Prerequisite: Graduate Standing.

**NURS-HI 5385. HEALTH INFORMATION SYSTEMS MANAGEMENT. 3 Hours.**
Introduction to project management principles and tools used for managing the development of healthcare analytics projects and information systems. Application of systems theory, hardware requirements, personnel requirements, vendor, negotiations, software, database, telecommunications, and use of the internet. Prerequisite: NURS-HI 5383 or instructor approval.

**NURS-HI 5386. SOCIAL DETERMINANTS OF HEALTH AND HEALTHCARE INFORMATICS. 3 Hours.**
Introduce the concepts of SDOH and explore the relationships between SDOH and Health informatics. Include how healthcare informatics can be employed to bridge the gaps experienced by vulnerable populations. Prerequisite: Graduate Standing.

**NURS-HI 5687. INFORMATICS PRACTICUM. 6 Hours.**
Synthesize principles and concepts of healthcare informatics as it applies to the nurse informatics role. Prerequisite: GPA 3.0; NURS 5327, NURS 5388, NURS 5367, NURS 5366, NURS 5342, NURS 5334, NURS-HI 5383, NURS-HI 5384, NURS-HI 5385, NURS-HI 5386.

**COURSES**

**NURS-IS 3137. INDEPENDENT STUDY. 1 Hour.**
Topic and mode of study are agreed upon by the student and instructor. May be repeated with various topics. Must earn C or better for credit. Prerequisite: Consent of instructor.

**NURS-IS 3237. INDEPENDENT STUDY. 2 Hours.**
Topic and mode of study are agreed upon by the student and instructor. May be repeated with various topics. Must earn C or better for credit. Prerequisite: Consent of instructor.

**NURS-IS 3337. INDEPENDENT STUDY. 3 Hours.**
Topic and mode of study are agreed upon by the student and instructor. May be repeated with various topics. Must earn a grade of C or better for credit. Prerequisite: Consent of Instructor.
NURS-IS 5170. INDEPENDENT STUDY IN NURSING. 1 Hour.
Detailed in-depth study in a specific topic area. Topic and mode of study are agreed upon by student(s) and instructor prior to registration. May be repeated for credit when topics vary. Graded F, P, R. Prerequisite: Graduate standing.

NURS-IS 5270. INDEPENDENT STUDY IN NURSING. 2 Hours.
Detailed in-depth study in a specific topic area. Topic and mode of study are agreed upon by student(s) and instructor prior to registration. May be repeated for credit when topics vary. Graded F, P, R. Prerequisite: Graduate Standing and permission of instructor.

COURSES

NURS-SS 2232. LEARNING PROFESSIONAL NURSING AND LIFE SKILLS. 2 Hours.
This course focuses on the development and successful use of time management, test-taking skills, study methods, and additional student success strategies that can support students pursuing the BSN Prelicensure Program. Required for students who fail an upper-division nursing course. Prerequisite: Admission to the BSN Prelicensure program.

NURS-UL 3333. PROMOTING HEALTHY LIFESTYLES. 3 Hours.
Focus on health promotion and disease prevention strategies that promote healthy lifestyles and empower individuals, families, and populations to achieve optimal health and wellness. The role of the nurse in health promotion is emphasized. Students will examine the impact of nurses’ overall wellness on patient safety.

NURS-UL 3352. THE LEGACY OF THE FAMILY. 3 Hours.
Explore and enhance understanding and application of the principles of family science knowledge in therapeutic relationships with families across the lifespan.

NURS-UL 3365. PHARMACOLOGY IN NURSING PRACTICE. 3 Hours.
Introduction to current concepts of pharmacology and their relationship to nursing practice. Included are basic principles of drug actions, side effects for major drug classifications, and the role of the nurse in drug therapeutics. Prerequisite: Admission into the upper division nursing program.

NURS-UL 3366. PATHOPHYSIOLOGIC PROCESSES: IMPLICATIONS FOR NURSING. 3 Hours.
Pathophysiologic alterations, their interactions, and effects on persons across the life span as a basis for therapeutic nursing interventions. Must be taken no more than three years prior to acceptance into the nursing program. Prerequisite: BIOL 2457, BIOL 2458, CHEM 1451.

NURS-UL 3632. CLINICAL NURSING FOUNDATIONS. 6 Hours.
Basic therapeutic nursing interventions with individuals and families in diverse settings using nursing process framework. Prerequisite: Acceptance into the upper division nursing program. Co-req: NURS 3365 and NURS 3320.

COURSES

NURS 5120. ADULT-GERONTOLOGY ASSESSMENT LAB. 1 Hour.
Conduct comprehensive health assessment in the adult-gerontology population. Prerequisite: NURS 5220 or concurrent enrollment or Certificate Program Standing.

NURSC 5130. PEDIATRIC ASSESSMENT LAB. 1 Hour.
Conduct comprehensive health assessment in the pediatric population. Prerequisite: NURS 5220 or concurrent enrollment or Certificate Program Standing.

NURSC 5150. ADVANCED CARE OF A CLIENT POPULATION. 1 Hour.
Conduct comprehensive advanced health assessments of a client population and provide a teaching intervention of a priority health need. Prerequisite: NURS 5220 or concurrent enrollment or Certificate Program Standing.

NURSC 5220. ADVANCED HEALTH ASSESSMENT AND DIAGNOSTIC REASONING. 2 Hours.
Apply theoretical foundations of comprehensive health assessment across the lifespan. Prerequisite: Graduate or Certificate Program Standing. NURS 5315 or Special Permission.

NURSC 5302. CURRICULUM DEVELOPMENT IN NURSING EDUCATION. 3 Hours.
Explore the nature of nursing education. Focus on the curriculum process and its application to nursing education programs. Prerequisite: Graduate standing.

NURSC 5308. NURSING INFORMATICS. 3 Hours.
Focus on application of computer technology that supports the dissemination of health care data, information and knowledge. Selected software packages/applications are presented and used. Prerequisite: NURS 5367.

NURSC 5310. TEACHING AND LEARNING THEORIES AND STRATEGIES IN NURSING EDUCATION. 3 Hours.
Teaching/Learning theories, strategies, and evaluation for educators. Prerequisite: Graduate standing.

NURSC 5311. NURSING MANAGEMENT IN THE HEALTH CARE ENVIRONMENT. 3 Hours.
Considers development of management and organizational theories as applied to health care organizations and their environment. Prerequisite: NURS 5367.
NURSC 5312. ASSESSMENT AND EVALUATION STRATEGIES IN NURSING EDUCATION. 3 Hours.
Integration of concepts of assessment and evaluation into a nursing evaluation framework. Prerequisite: Graduate standing.

NURSC 5315. ADVANCED PATHOPHYSIOLOGY. 3 Hours.
Builds on a previous understanding of anatomy and physiology and focuses on developing advanced knowledge of physiologic and pathophysiologic concepts across the life span. Prerequisite: Graduate Standing.

NURSC 5324. PSYCHIATRIC MENTAL CLINICAL PRACTICE I. 3 Hours.
This course provides application of theoretical knowledge and clinical skills to patients with commonly occurring psychiatric and mental health disorders across the life span in the context of advanced nursing practice. Prerequisite: NURS 5222 and NURS 5223 or Certificate Program Standing. Good academic standing (GPA 3.0).

NURSC 5325. PSYCHIATRIC MENTAL HEALTH CLINICAL PRACTICE II. 3 Hours.
This course provides application of theoretical knowledge and clinical skills to patients with various commonly occurring and complex psychiatric and mental health disorders across the life span in the context of advanced nursing practice. Prerequisite: NURS 5324 or concurrent enrollment, or Certificate Program Standing. Good academic standing (GPA 3.0).

NURSC 5329. ROLE OF THE NURSE EDUCATOR. 3 Hours.
Investigation of the roles and functions of the nurse educator. Prerequisite: Graduate program standing.

NURSC 5334. ADVANCED PHARMACOLOGY FOR NURSE PRACTITIONERS. 3 Hours.
Study of clinical pharmacological therapeutics for advanced nursing practice. Prerequisites: NURS 5315 or Certificate Program Standing.

NURSC 5337. FAMILY CLINICAL PRACTICE 1. 3 Hours.
Initial clinical preceptorship in selected primary health practice sites with opportunities to apply knowledge and concepts of advanced nursing practice implementing the family nurse practitioner role in evidenced based patient care. Prerequisite: NURS 5432, NURS 5433, NURS 5434 and Good academic standing (GPA 3.0) or certificate program standing.

NURSC 5338. FAMILY CLINICAL PRACTICE 2. 3 Hours.
Continued clinical preceptorship with opportunities for increased clinical knowledge in selected primary health practice sites with opportunities to apply knowledge and concepts of advanced nursing practice implementing the family nurse practitioner role in evidenced based patient care. Prerequisite: NURS 5432, NURS 5433, NURS 5434, NURS 5337 or concurrent enrollment; Good academic standing (GPA 3.0) or Certificate Program standing.

NURSC 5339. ROLES AND FUNCTIONS OF THE NURSE ADMINISTRATOR. 3 Hours.
Examine and implement administrative and managerial roles in health care organizations. Prerequisite: NURS 5311.

NURSC 5340. MANAGEMENT SEMINAR AND PRACTICE. 3 Hours.
Synthesize management, organizational, and leadership concepts and theories in selected health care settings. Prerequisite: NURS 5308; NURS 5311; NURS 5339; NURS 5341; NURS 5343; NURS 5342; NURS 5382. Good Academic Standing (3.0 GPA).

NURSC 5341. FINANCIAL MANAGEMENT IN NURSING. 3 Hours.
Analyze and apply financial management concepts to financial planning, budgeting, and reimbursement systems in health care. Prerequisite: NURS 5311 or admission into Masters of Science in Health Informatics (MSH-HI) program.

NURSC 5342. MANAGEMENT OF NURSING OPERATIONS. 3 Hours.
Examine strategic planning for health care systems. Prerequisite: NURS 5311 or admission into Masters of Science in Health Informatics (MSN-HI) program.

NURSC 5343. NURSING LEADERSHIP AND COMPLEX HEALTH CARE SYSTEMS. 3 Hours.
Analyze leadership strategies in current and predicted health care systems including dimensions of workforce and workplace issues, leadership, and evidenced-based decision-making. Prerequisite: NURS 5367.

NURSC 5350. ROLE OF THE NURSE IN ADVANCED PRACTICE. 3 Hours.
Theory and application of the multiple roles of the advanced practice nurse within the health care system. Prerequisite: Graduate Standing.

NURSC 5352. ADULT GERONTOLOGY PRIMARY CARE CLINICAL PRACTICE 1. 3 Hours.
Clinical experience in primary and long term health care settings with focus on managing adolescents, adults, and elders with common episodic acute and chronic health care needs. Prerequisite: NURS 5462 or concurrent enrollment; Good academic standing (GPA 3.0) or certificate program standing.

NURSC 5353. ADULT GERONTOLOGY PRIMARY CARE CLINICAL PRACTICE 2. 3 Hours.
Continued clinical experience in primary and long term health care settings with focus on managing adolescents, adults, and elders with common episodic acute and chronic health care needs. Prerequisite: NURS 5462 and NURS 5352 or concurrent enrollment and Good academic standing (GPA 3.0) or certificate program standing.

NURSC 5354. ADULT GERONTOLOGY ACUTE CARE CLINICAL PRACTICE 1. 3 Hours.
Clinical experience in specialty practice and high acuity health care settings with focus on managing adolescents, adults, and elders with common secondary and tertiary health care needs. Prerequisite: NURS 5463 or concurrent enrollment and Good academic standing (GPA 3.0) or certificate program standing.
NURSC 5355. ADULT GERONTOLOGY ACUTE CARE CLINICAL PRACTICE 2. 3 Hours.
Continued clinical experience in specialty practice and high acuity health care settings with focus on managing adolescents, adults, and elders with common secondary and tertiary health care needs. Prerequisite: NURS 5354 or concurrent enrollment; Good academic standing (GPA 3.0) or certificate program standing.

NURSC 5362. TEACHING PRACTICUM. 3 Hours.
Nursing education preceptorship in selected health care sites with opportunities to apply clinical and educational knowledge, skills, and concepts in a guided, progressive context of nursing education. Graded F,R,P,W. Prerequisite: Completion of all courses in the Nursing Education Program and Good academic standing (GPA 3.0).

NURSC 5371. PEDIATRIC PRIMARY CARE CLINICAL PRACTICE 1. 3 Hours.
Initial clinical preceptorship in selected primary care sites with opportunities to apply knowledge and concepts of advanced nursing practice implementing the pediatric nurse practitioner role in evidenced based patient care. Prerequisite: NURS 5465. Good academic standing (GPA 3.0) or Certificate program standing.

NURSC 5372. PEDIATRIC PRIMARY CARE CLINICAL PRACTICE 2. 3 Hours.
Continue clinical preceptorship in selected primary health care sites with opportunities to apply knowledge and concepts of advanced nursing practice implementing the pediatric nurse practitioner role in evidenced based patient care. Prerequisite: NURS 5371 or concurrent enrollment. Good academic standing (GPA 3.0) or Certificate Program Standing.

NURSC 5373. PEDIATRIC ACUTE CARE CLINICAL PRACTICE 1. 3 Hours.
Initial clinical preceptorship in selected acute and chronic care health practice sites with opportunities to apply knowledge and concepts of advanced nursing practice implementing the pediatric acute care nurse practitioner role in evidenced based patient care. Prerequisite: NURS 5467 or concurrent enrollment. NURS 5466 or concurrent enrollment. Good academic standing (GPA 3.0) or Certificate program standing.

NURSC 5374. PEDIATRIC ACUTE CARE CLINICAL PRACTICE 2. 3 Hours.
Continue clinical preceptorship in selected acute and chronic care health practice sites with opportunities to apply knowledge and concepts of advanced nursing practice implementing the pediatric acute care nurse practitioner role in evidenced based patient care. Prerequisite: NURS 5466; NURS 5373 or concurrent enrollment. Good academic standing (GPA 3.0) or Certificate program standing.

NURSC 5382. NURSING AND HEALTH CARE POLICY: ISSUES AND ANALYSIS. 3 Hours.
Analyze historical, current, and predicted national, state, and local health care policy processes. Prerequisite: NURS 5367.

NURSC 5388. STATISTICS FOR HEALTH CARE. 3 Hours.
This course provides students with the basic knowledge and skills to effectively use biostatistics in different research design and data analysis, and to understand articles in related professional journals. Topics include choosing correct statistical methods and study designs in nursing research and practice; descriptive statistics; probability and probability distributions; estimation and hypothesis testing, simple linear regression, introduction to analysis of variance and an introduction to the use of statistical software packages. Prerequisite: Undergraduate Statistics.

NURSC 5432. FAMILY I. 4 Hours.
This course focuses on advanced concepts and knowledge for nurse practitioner primary care management of designated acute, chronic and complex health problems of individuals and families across the lifespan. Particular emphasis will be on pediatric wellness, women’s health, men’s health, and geriatrics concepts and conditions. Prerequisite: NURS 5418 or NURS 5220 and NURS 5120 and NURS 5130; NURS 5334 or Certificate Program standing.

NURSC 5433. FAMILY II. 4 Hours.
This course focuses on advanced concepts and knowledge for nurse practitioner primary care management of commonly occurring conditions seen in primary care patients across the lifespan. Prerequisite: NURS 5418 or NURS 5220 and NURS 5120 and NURS 5130; NURS 5334 or Certificate Program standing.

NURSC 5434. FAMILY III. 4 Hours.
This course focuses on advanced concepts and knowledge for nurse practitioner primary care management of designated acute, chronic and complex health problems of individuals and families across the lifespan. Particular emphasis will be on adult wellness, psychiatric, and cardiometabolic concepts and conditions. Prerequisite: NURS 5418 or NURS 5220 and NURS 5120 and NURS 5130; NURS 5334 or Certificate Program standing.

NURSC 5450. NEONATAL NP CLINICAL PRACTICE. 4 Hours.
Integration of clinical management of the high-risk neonate through clinical preceptorships in selected health practice sites with application of knowledge, skills and concepts in a guided, progressive context of advanced nursing practice. The ratio of credit to clinical hours is 1:4. Prerequisites: NURS 5334 and NURS 5316 or NURS 5220 and NURS 5110 and NURS 5204 and NURS 5537 or concurrent enrollment and Good academic standing (GPA 3.0) or Certificate Program Standing.

NURSC 5461. ADULT GERONTOLOGY MANAGEMENT ACROSS THE CONTINUUM OF CARE. 4 Hours.
Foundations of advanced knowledge of common acute and chronic health problems in adolescents, adults, and elders across health care settings. Prerequisite: NURS 5220; NURS 5120 and NURS 5334, and NURS 5367 or concurrent enrollment, or Certificate Program Standing.

NURSC 5462. ADULT GERONTOLOGY PRIMARY CARE. 4 Hours.
Focus on an inter-professional approach and the development of advanced knowledge in the primary care management of adults from adolescence through old age, their families, and communities in a variety of health care settings. Prerequisite: NURS 5461 or Certificate Program Standing.
NURSC 5463. ADULT GERONTOLOGY ACUTE CARE. 4 Hours.
Focuses on a collaborative, inter-professional approach in the evaluation, diagnosis, and management of adolescents, adults, and gerontological patients who are experiencing acute, critical, and complex chronic illnesses across the continuum of care. Prerequisite: NURS 5461 or Certificate Program Standing.

NURSC 5465. PRIMARY PEDIATRIC CARE. 4 Hours.
This course focuses on advanced concepts and knowledge for nurse practitioners management of designated minor acute, chronic and chronic health problems of pediatric patients and their families in primary care healthcare settings. Prerequisite: NURS 5334; NURS 5220; NURS 5130; NURS 5367 or concurrent enrollment.

NURSC 5466. PEDIATRIC ACUTE CARE. 4 Hours.
This course focuses on advanced concepts and knowledge for nurse practitioner management of designated critical, acute, chronic and complex health problems of pediatric patients and their families in an acute care facility. Prerequisite: NURS 5465.

NURSC 5467. PEDIATRIC COMPLEX CARE. 4 Hours.
This course focuses on advanced concepts and knowledge for nurse practitioner management of designated acute, chronic and complex health problems of pediatric patients and their families in multiple healthcare settings. Prerequisite: NURS 5465 or concurrent enrollment or Certificate program standing.

NURSC 5610. NEONATAL NP ADVANCED PRACTICUM. 6 Hours.
Clinical preceptorships in selected health practice sites with opportunities to apply knowledge, skills and concepts in a guided, progressive context of neonatal advanced nursing practice. The ratio of credit to clinical hours is 1:4. Prerequisite: NURS 5447 and NURS 5450. Good Academic Standing (GPA 3.0) or Certificate Program Standing.

NURSC 5640. ADULT GERONTOLOGY ACUTE CARE NP ADVANCED PRACTICUM. 6 Hours.
Clinical preceptorships in selected health practice sites with opportunities to apply knowledge, skills and concepts in a guided, progressive context of adult gerontology acute care advanced nursing practice. The ratio of credit to clinical hours is 1:4. Prerequisite: For NURS 5640: NURS 5354 and NURS 5355. Good Academic Standing (GPA 3.0) or Certificate Program Standing. For NURSC 5640: NURSC 5354 and NURSC 5355. Good Academic Standing (GPA 3.0) or Certificate Program Standing.

NURSC 5645. ADULT GERONTOLOGY PRIMARY CARE NP ADVANCED PRACTICUM. 6 Hours.
Clinical preceptorships in selected health practice sites with opportunities to apply knowledge, skills and concepts in a guided, progressive context of adult gerontology primary care advanced nursing practice. The ratio of credit to clinical hours is 1:4. Prerequisite: For NURS 5645: NURS 5352 and NURS 5353. Good Academic Standing (GPA 3.0) or Certificate Program Standing. For NURSC 5645: NURSC 5352 and NURSC 5353. Good Academic Standing (GPA 3.0) or Certificate Program Standing.

NURSC 5650. PSYCHIATRIC MENTAL HEALTH NP ADVANCED PRACTICUM. 6 Hours.
Clinical preceptorships in selected health practice sites with opportunities to apply knowledge, skills and concepts in a guided, progressive context of family psychiatric mental health care advanced nursing practice. The ratio of credit to clinical hours is 1:4. Prerequisite: NURS 5324 and NURS 5325. Good Academic Standing (GPA 3.0) or Certificate Program Standing.

NURSC 5660. FAMILY NP ADVANCED PRACTICUM. 6 Hours.
Clinical preceptorships in selected health practice sites with opportunities to apply knowledge, skills and concepts in a guided, progressive context of Family Primary Care Advanced Nursing Practice. The ratio of credit to clinical hours is 1:4. Prerequisite: For NURS 5660: NURS 5337 and NURS 5338. Good Academic Standing (GPA 3.0) or Certificate Program Standing. For NURSC 5660: NURSC 5337 and NURSC 5338. Good Academic Standing (GPA 3.0) or Certificate Program Standing. For NURSG: NURSG 5337 and NURSG 5338. Good Academic Standing (GPA 3.0) or Certificate Program Standing.

NURSC 5680. PEDIATRIC ACUTE CARE NP ADVANCED PRACTICUM. 6 Hours.
Clinical preceptorships in selected health practice sites with opportunities to apply knowledge, skills and concepts in a guided, progressive context of pediatric acute care advanced nursing practice. The ratio of credit to clinical hours is 1:4. Prerequisite: For NURS 5680: NURS 5373 and NURS 5374. Good Academic Standing (GPA 3.0) or Certificate Program standing. For NURSC 5680: NURSC 5373 and NURSC 5374. Good Academic Standing (GPA 3.0) or Certificate Program standing.

NURSC 5685. PEDIATRIC PRIMARY CARE NP ADVANCED PRACTICUM. 6 Hours.
Clinical preceptorships in selected health practice sites with opportunities to apply knowledge, skills and concepts in a guided, progressive context of pediatric primary care advanced nursing practice. The ratio of credit to clinical hours is 1:4. Prerequisite: For NURS 5685: NURS 5371 and NURS 5372. Good Academic Standing (GPA 3.0) or Certificate Program Standing. For NURSC 5685: NURSC 5371 and NURSC 5372. Good Academic Standing (GPA 3.0) or Certificate Program Standing.

COURSES

NURSG 5150. ADVANCED CARE OF A CLIENT POPULATION. 1 Hour.
Conduct comprehensive advanced health assessments of a client population and provide a teaching intervention of a priority health need. Prerequisite: NURS 5220 or concurrent enrollment or Certificate Program Standing.

NURSG 5220. ADVANCED HEALTH ASSESSMENT AND DIAGNOSTIC REASONING. 2 Hours.
Apply theoretical foundations of comprehensive health assessment across the lifespan. Prerequisite: Graduate or Certificate Program Standing. NURS 5315 or Special Permission.
NURSG 5302. CURRICULUM DEVELOPMENT IN NURSING EDUCATION. 3 Hours.
Explore the nature of nursing education. Focus on the curriculum process and its application to nursing education programs. Prerequisite: Graduate standing.

NURSG 5308. NURSING INFORMATICS. 3 Hours.
Focus on application of computer technology that supports the dissemination of health care data, information and knowledge. Selected software packages/applications are presented and used. Prerequisite: NURS 5367.

NURSG 5310. TEACHING AND LEARNING THEORIES AND STRATEGIES IN NURSING EDUCATION. 3 Hours.
Teaching/Learning theories, strategies, and evaluation for educators. Prerequisite: Graduate standing.

NURSG 5311. NURSING MANAGEMENT IN THE HEALTH CARE ENVIRONMENT. 3 Hours.
Considers development of management and organizational theories as applied to health care organizations and their environment. Prerequisite: NURS 5367.

NURSG 5312. ASSESSMENT AND EVALUATION STRATEGIES IN NURSING EDUCATION. 3 Hours.
Integration of concepts of assessment and evaluation into a nursing evaluation framework. Prerequisite: Graduate standing.

NURSG 5315. ADVANCED PATHOPHYSIOLOGY. 3 Hours.
Builds on a previous understanding of anatomy and physiology and focuses on developing advanced knowledge of physiologic and pathophysiologic concepts across the life span. Prerequisite: Graduate Standing.

NURSG 5318. ADVANCED PATHOPHYSIOLOGY FOR NURSE EDUCATORS. 3 Hours.
This course develops advanced knowledge of pathophysiology. Principles of advanced physiology and pathophysiology are applied to disease processes, plans of care, and teaching plans. This course prepares Nurse Educators to educate clients, students, and colleagues to facilitate patients and/or their support systems understanding of the disease process plan of care. Prerequisite: NURS 5367 and NURS 5310 and NURS 5329 and NURS 5302 and NURS 5312.

NURSG 5319. ADVANCED PHARMACOLOGY FOR NURSE EDUCATORS. 3 Hours.
This course develops advanced knowledge of clinical pharmacological therapeutics through the evaluation of classes of drugs and pharmacologic plans of care. This course prepares Nurse Educators to educate clients, students, and colleagues to facilitate patients and/or their support systems understanding of the pharmacologic plan of care. Prerequisite: NURS 5318.

NURSG 5324. PSYCHIATRIC MENTAL CLINICAL PRACTICE I. 3 Hours.
This course provides application of theoretical knowledge and clinical skills to patients with commonly occurring psychiatric and mental health disorders across the life span in the context of advanced nursing practice. Prerequisite: NURS 5222 and NURS 5223 or Certificate Program Standing. Good academic standing (GPA 3.0).

NURSG 5325. PSYCHIATRIC MENTAL HEALTH CLINICAL PRACTICE II. 3 Hours.
This course provides application of theoretical knowledge and clinical skills to patients with various commonly occurring and complex psychiatric and mental health disorders across the life span in the context of advanced nursing practice. Prerequisite: NURS 5324 or concurrent enrollment, or Certificate Program Standing. Good academic standing (GPA 3.0).

NURSG 5327. EXPLORATION OF SCIENCE AND THEORIES FOR NURSING. 3 Hours.
This course provides a critical examination of the philosophical and theoretical bases for nursing science. Prerequisite: Graduate standing.

NURSG 5329. ROLE OF THE NURSE EDUCATOR. 3 Hours.
Investigation of the roles and functions of the nurse educator. Prerequisite: Graduate program standing.

NURSG 5334. ADVANCED PHARMACOLOGY FOR NURSE PRACTITIONERS. 3 Hours.
Study of clinical pharmacological therapeutics for advanced nursing practice. Prerequisites: NURS 5315 or Certificate Program Standing.

NURSG 5339. ROLES AND FUNCTIONS OF THE NURSE ADMINISTRATOR. 3 Hours.
Examine and implement administrative and managerial roles in health care organizations. Prerequisite: NURS 5311.

NURSG 5340. MANAGEMENT SEMINAR AND PRACTICE. 3 Hours.
Synthesize management, organizational, and leadership concepts and theories in selected health care settings. Prerequisite: NURS 5308; NURS 5311; NURS 5339; NURS 5341; NURS 5343; NURS 5342; NURS 5382. Good Academic Standing (3.0 GPA).

NURSG 5341. FINANCIAL MANAGEMENT IN NURSING. 3 Hours.
Analyze and apply financial management concepts to financial planning, budgeting, and reimbursement systems in health care. Prerequisite: NURS 5311 or admission into Masters of Science in Health Informatics (MSH-HI) program.

NURSG 5342. MANAGEMENT OF NURSING OPERATIONS. 3 Hours.
Examine strategic planning for health care systems. Prerequisite: NURS 5311 or admission into Masters of Science in Health Informatics (MSN-HI) program.

NURSG 5343. NURSING LEADERSHIP AND COMPLEX HEALTH CARE SYSTEMS. 3 Hours.
Analyze leadership strategies in current and predicted health care systems including dimensions of workforce and workplace issues, leadership, and evidenced-based decision-making. Prerequisite: NURS 5367.

NURSG 5350. ROLE OF THE NURSE IN ADVANCED PRACTICE. 3 Hours.
Theory and application of the multiple roles of the advanced practice nurse within the health care system. Prerequisite: Graduate Standing.
NURSG 5352. ADULT GERONTOLOGY PRIMARY CARE CLINICAL PRACTICE 1. 3 Hours.
Clinical experience in primary and long term health care settings with focus on managing adolescents, adults, and elders with common episodic acute and chronic health care needs. Prerequisite: NURS 5462 or concurrent enrollment; Good academic standing (GPA 3.0) or certificate program standing.

NURSG 5353. ADULT GERONTOLOGY PRIMARY CARE CLINICAL PRACTICE 2. 3 Hours.
Continued clinical experience in primary and long term health care settings with focus on managing adolescents, adults, and elders with common episodic acute and chronic health care needs. Prerequisite: NURS 5462 and NURS 5352 or concurrent enrollment and Good academic standing (GPA 3.0) or certificate program standing.

NURSG 5354. ADULT GERONTOLOGY ACUTE CARE CLINICAL PRACTICE 1. 3 Hours.
Clinical experience in specialty practice and high acuity health care settings with focus on managing adolescents, adults, and elders with common secondary and tertiary health care needs. Prerequisite: NURS 5463 or concurrent enrollment and Good academic standing (GPA 3.0) or certificate program standing.

NURSG 5355. ADULT GERONTOLOGY ACUTE CARE CLINICAL PRACTICE 2. 3 Hours.
Continued clinical experience in specialty practice and high acuity health care settings with focus on managing adolescents, adults, and elders with common secondary and tertiary health care needs. Prerequisite: NURS 5354 or concurrent enrollment; Good academic standing (GPA 3.0) or certificate program standing.

NURSG 5360. SIMULATION APPLICATION IN NURSING. 3 Hours.
Application of and active learning strategies in nursing education. Prerequisite: NURS 5367, NURS 5220.

NURSG 5362. TEACHING PRACTICUM. 3 Hours.
Nursing education preceptorship in selected health care sites with opportunities to apply clinical and educational knowledge, skills, and concepts in a guided, progressive context of nursing education. Graded F,R,P,W. Prerequisite: Completion of all courses in the Nursing Education Program and Good academic standing (GPA 3.0).

NURSG 5366. PRINCIPLES OF RESEARCH IN NURSING. 3 Hours.
This course focuses on integration of theoretical and empirical principles of nursing research to generate evidence for nursing practice. Prerequisite: Graduate Standing.

NURSG 5367. EVIDENCE BASED PRACTICE. 3 Hours.
Preparation to lead evidence-based practice teams, to interpret best evidence, to plan for change, to evaluate outcomes, and to disseminate the project. Prerequisite: Graduate standing; NURS 5366 and NURS 5327.

NURSG 5371. PEDIATRIC PRIMARY CARE CLINICAL PRACTICE 1. 3 Hours.
Initial clinical preceptorship in selected primary health practice sites with opportunities to apply knowledge and concepts of advanced nursing practice implementing the pediatric nurse practitioner role in evidenced based patient care. Prerequisite: NURS 5465. Good academic standing (GPA 3.0) or Certificate program standing.

NURSG 5372. PEDIATRIC PRIMARY CARE CLINICAL PRACTICE 2. 3 Hours.
Continue clinical preceptorship in selected primary health practice sites with opportunities to apply knowledge and concepts of advanced nursing practice implementing the pediatric nurse practitioner role in evidenced based patient care. Prerequisite: NURS 5371 or concurrent enrollment. Good academic standing (GPA 3.0) or Certificate Program Standing.

NURSG 5373. PEDIATRIC ACUTE CARE CLINICAL PRACTICE 1. 3 Hours.
Initial clinical preceptorship in selected acute and chronic care health practice sites with opportunities to apply knowledge and concepts of advanced nursing practice implementing the pediatric acute care nurse practitioner role in evidenced based patient care. Prerequisite: NURS 5467 or concurrent enrollment. NURS 5466 or concurrent enrollment. Good academic standing (GPA 3.0) or Certificate program standing.

NURSG 5374. PEDIATRIC ACUTE CARE CLINICAL PRACTICE 2. 3 Hours.
Continue clinical preceptorship in selected acute and chronic care health practice sites with opportunities to apply knowledge and concepts of advanced nursing practice implementing the pediatric nurse practitioner role in evidenced based patient care. Prerequisite: NURS 5466; NURS 5373 or concurrent enrollment. Good academic standing (GPA 3.0) or Certificate program standing.

NURSG 5382. NURSING AND HEALTH CARE POLICY: ISSUES AND ANALYSIS. 3 Hours.
Analyze historical, current, and predicted national, state, and local health care policy processes. Prerequisite: NURS 5367.

NURSG 5388. STATISTICS FOR HEALTH CARE. 3 Hours.
This course provides students with the basic knowledge and skills to effectively use biostatistics in different research design and data analysis, and to understand articles in related professional journals. Topics include choosing correct statistical methods and study designs in nursing research and practice; descriptive statistics; probability and probability distributions; estimation and hypothesis testing, simple linear regression, introduction to analysis of variance and an introduction to the use of statistical software packages. Prerequisite: Undergraduate Statistics.

NURSG 5432. FAMILY I. 4 Hours.
This course focuses on advanced concepts and knowledge for nurse practitioner primary care management of designated acute, chronic and complex health problems of individuals and families across the lifespan. Particular emphasis will be on pediatric wellness, women's health, men's health, and geriatrics concepts and conditions. Prerequisite: NURS 5418 or NURS 5220 and NURS 5120 and NURS 5130; NURS 5334 or Certificate Program standing.
NURSG 5433. FAMILY II. 4 Hours.
This course focuses on advanced concepts and knowledge for nurse practitioner primary care management of commonly occurring conditions seen in primary care patients across the lifespan. Prerequisite: NURS 5418 or NURS 5220 and NURS 5120 and NURS 5130; NURS 5334 or Certificate Program standing.

NURSG 5434. FAMILY III. 4 Hours.
This course focuses on advanced concepts and knowledge for nurse practitioner primary care management of designated acute, chronic and complex health problems of individuals and families across the lifespan. Particular emphasis will be on adult wellness, psychiatric, and cardiometabolic concepts and conditions. Prerequisite: NURS 5418 or NURS 5220 and NURS 5120 and NURS 5130; NURS 5334 or Certificate Program standing.

NURSG 5450. NEONATAL NP CLINICAL PRACTICE. 4 Hours.
Integration of clinical management of the high-risk neonate through clinical preceptorships in selected health practice sites with application of knowledge, skills and concepts in a guided, progressive context of advanced nursing practice. The ratio of credit to clinical hours is 1:4. Prerequisites: NURS 5334 and NURS 5316 or NURS 5220 and NURS 5110 and NURS 5204 and NURS 5537 or concurrent enrollment and Good academic standing (GPA 3.0) or Certificate Program Standing.

NURSG 5610. NEONATAL NP ADVANCED PRACTICUM. 6 Hours.
Clinical preceptorships in selected health practice sites with opportunities to apply knowledge, skills and concepts in a guided, progressive context of neonatal advanced nursing practice. The ratio of credit to clinical hours is 1:4. Prerequisite: NURS 5447 and NURS 5450. Good Academic Standing (GPA 3.0) or Certificate Program Standing.

NURSG 5640. ADULT GERONTOLOGY ACUTE CARE NP ADVANCED PRACTICUM. 6 Hours.
Clinical preceptorships in selected health practice sites with opportunities to apply knowledge, skills and concepts in a guided, progressive context of adult gerontology acute care advanced nursing practice. The ratio of credit to clinical hours is 1:4. Prerequisite: For NURS 5640: NURS 5354 and NURS 5355. Good Academic Standing (GPA 3.0) or Certificate Program Standing. For NURSC 5640: NURSC 5354 and NURSC 5355. Good Academic Standing (GPA 3.0) or Certificate Program Standing.

NURSG 5645. ADULT GERONTOLOGY PRIMARY CARE NP ADVANCED PRACTICUM. 6 Hours.
Clinical preceptorships in selected health practice sites with opportunities to apply knowledge, skills and concepts in a guided, progressive context of adult gerontology primary care advanced nursing practice. The ratio of credit to clinical hours is 1:4. Prerequisite: For NURS 5645: NURS 5352 and NURS 5353. Good Academic Standing (GPA 3.0) or Certificate Program Standing. For NURSC 5645: NURSC 5352 and NURSC 5353. Good Academic Standing (GPA 3.0) or Certificate Program Standing.

NURSG 5650. PSYCHIATRIC MENTAL HEALTH NP ADVANCED PRACTICUM. 6 Hours.
Clinical preceptorships in selected health practice sites with opportunities to apply knowledge, skills and concepts in a guided, progressive context of family psychiatric mental health care advanced nursing practice. The ratio of credit to clinical hours is 1:4. Prerequisite: NURS 5324 and NURS 5325. Good Academic Standing (GPA 3.0) or Certificate Program Standing.

NURSG 5680. PEDIATRIC ACUTE CARE NP ADVANCED PRACTICUM. 6 Hours.
Clinical preceptorships in selected health practice sites with opportunities to apply knowledge, skills and concepts in a guided, progressive context of pediatric acute care advanced nursing practice. The ratio of credit to clinical hours is 1:4. Prerequisite: For NURS 5680: NURS 5373 and NURS 5374. Good Academic Standing (GPA 3.0) or Certificate Program Standing. For NURSC 5680: NURSC 5373 and NURSC 5374. Good Academic Standing (GPA 3.0) or Certificate Program standing.

NURSG 5685. PEDIATRIC PRIMARY CARE NP ADVANCED PRACTICUM. 6 Hours.
Clinical preceptorships in selected health practice sites with opportunities to apply knowledge, skills and concepts in a guided, progressive context of pediatric primary care advanced nursing practice. The ratio of credit to clinical hours is 1:4. Prerequisite: For NURS 5685: NURS 5371 and NURS 5372. Good Academic Standing (GPA 3.0) or Certificate Program Standing. For NURSC 5685: NURSC 5371 and NURSC 5372. Good Academic Standing (GPA 3.0) or Certificate Program Standing.

COURSES

NURSU 3300. COOPERATIVE NURSING WORK EXPERIENCE. 3 Hours.
Designed for nursing cooperative education students to integrate classroom study with career-related practical experience in the workplace. Must earn a C or better to earn credit. Prerequisite: Admission into nursing degree program.

NURSU 3309. MEDICAL TERMINOLOGY FOR HEALTHCARE PROVIDERS. 3 Hours.
This course will enable the student to speak, use, and understand commonly used terms in the healthcare field. This course can be used as the upper division elective. Formerly taught as BIOL 3309. Credit will not be given for both.

NURSU 3315. RN-BSN HOLISTIC HEALTH ASSESSMENT ACROSS THE LIFESPAN. 3 Hours.
Theory and practice of holistic health assessment of individuals and families across the life span designed for the registered nurse. RN-BSN students only. Prerequisite: NURS 3345.

NURSU 3325. RN-BSN HOLISTIC CARE OF THE OLDER ADULT. 3 Hours.
Introduction to gerontologic nursing principles and standards. Selected concepts and issues related to aging and its impact on society and health care. RN-BSN students only. Previously listed as NURS 3322. Prerequisite: NURS 3345.
NURSU 3335. RN-BSN PROMOTING HEALTHY LIFESTYLES. 3 Hours.
Focus on health promotion and disease prevention strategies that promote healthy lifestyles and empower individuals, families, and populations to achieve optimal health and wellness. The role of the nurse in health promotion is emphasized. Students will examine the impact of nurses’ overall wellness on patient safety. RN-BSN students only. Previously NURS 3435. Prerequisite: NURS 3345.

NURSU 3345. ROLE TRANSITION TO PROFESSIONAL NURSING. 3 Hours.
Course addresses the role transition to Professional Nursing, nursing theory, ethics, decision making, critical thinking/clinical judgment, introduction to evidence-based practice, and informatics/technology in practice. Identifies strategies for personal and professional empowerment. Prerequisite: Admission into nursing degree program.

NURSU 3352. THE LEGACY OF THE FAMILY. 3 Hours.
Explore and enhance understanding and application of the principles of family science knowledge in therapeutic relationships with families across the lifespan.

NURSU 3375. RN-BSN HEALTH POLICY, LEGAL ASPECTS AND INFORMATICS IN NURSING. 3 Hours.
This course provides an introduction to legal and ethical concepts, values, and behaviors necessary for transitioning to a professional nursing role. Topics include health care policy development, legal overview and peer-review process, health care informatics, economic and political issues, laws, rules, challenges, boundaries, malpractice and societal issues and trends influencing health care. Prerequisite: NURS 3345.

NURSU 4300. COOPERATIVE NURSING WORK EXPERIENCE. 3 Hours.
Designed for nursing cooperative education student to integrate classroom study with career-related practical experience in the workplace. Prerequisite: NURS-EL 3300 or NURS 3300.

NURSU 4325. RN-BSN NURSING RESEARCH. 3 Hours.
Basic concepts, processes and applications of nursing research. Research role of the nurse in decision making and clinical practice. RN-BSN students only. Prerequisite: ENGL 2338 or equivalent, Math 1308 or equivalent, and NURS 3345 or NURS 3645.

NURSU 4455. RN-BSN NURSING LEADERSHIP & MANAGEMENT. 4 Hours.
Exploration of organizational strategies, leadership theories and societal trends with implications for decision making in health care. Introduction to management skills needed by professional nurses with clinical application in diverse settings. RN-BSN students only. Prerequisite: NURS 3345.

NURSU 4465. RN-BSN POPULATION AND COMMUNITY HEALTH NURSING. 4 Hours.
Integrates knowledge from nursing theory and public health science in assessing health care needs of aggregates, communities, and society for the Registered Nurse. RN-BSN students only. Prerequisite: NURS 3345.

NURSU 4685. RN-BSN CAPSTONE. 6 Hours.
Synthesis of knowledge acquired in the RN-BSN curriculum and development of the Nurse Role with evolving professional issues, health care environment, lifelong learning, and promotion of the Nursing profession designed for Registered Nurses RN-BSN student only. Prerequisite: NURS 4325, NURS 4455 Corequisite: NURS 4465.

COURSES

NURS 2200. CONCEPTS IN PROFESSIONAL NURSING. 2 Hours.
Designed to introduce the student to specific professional concepts in nursing. Selected concepts and processes for professional nursing will include an introduction to nursing's theoretical, philosophical, ethical, and legal dimensions with an emphasis on professional formation. Course activities will focus on development of teamwork, communication skills, effective decision-making and reflective practice.

NURS 2222. LEARNING PROFESSIONAL NURSING AND LIFE SKILLS. 2 Hours.
This course focuses on the development and successful use of time management, test-taking skills, study methods, and additional student success strategies that can support students pursuing the BSN Preliminary Program. Required for students who fail an upper-division nursing course. Prerequisite: Admission to the BSN Preliminary program.

NURS 3100. COOPERATIVE NURSING WORK EXPERIENCE. 1 Hour.
Designed for nursing cooperative education students to integrate classroom study with career-related practical experience in the workplace. This course is graded as pass/fail. Prerequisite: Consent of instructor.

NURS 3137. INDEPENDENT STUDY. 1 Hour.
Topic and mode of study are agreed upon by the student and instructor. May be repeated with various topics. Must earn C or better for credit. Prerequisite: Consent of instructor.

NURS 3147. SPECIALIZED TOPICS IN NURSING. 1 Hour.
Areas of special interest. May be repeated with varied topics. Must complete with C or better for credit. Prerequisite: Junior standing and consent of instructor.

NURS 3200. COOPERATIVE NURSING WORK EXPERIENCE. 2 Hours.
Designed for nursing cooperative education students to integrate classroom study with career-related practical experience in the workplace. This course is graded as pass/fail. Prerequisite: Consent of instructor.

NURS 3237. INDEPENDENT STUDY. 2 Hours.
Topic and mode of study are agreed upon by the student and instructor. May be repeated with various topics. Must earn C or better for credit. Prerequisite: Consent of instructor.
NURS 3247. SPECIALIZED TOPICS IN NURSING. 2 Hours.
Areas of special interest. May be repeated with varied topics. Must earn C or better for credit. Prerequisite: Junior standing and consent of instructor.

NURS 3261. NURSING OF OLDER ADULTS. 2 Hours.
Selected concepts and issues related to aging and its impact on society and health care. Introduction to gerontologic nursing principles. Clinical application in diverse settings across the continuum of care. Prerequisite: NURS 3632, NURS 3320.

NURS 3300. COOPERATIVE NURSING WORK EXPERIENCE. 3 Hours.
Designed for nursing cooperative education students to integrate classroom study with career-related practical experience in the workplace. Must earn a C or better to earn credit. Prerequisite: Admission into nursing degree program.

NURS 3309. MEDICAL TERMINOLOGY FOR HEALTHCARE PROVIDERS. 3 Hours.
This course will enable the student to speak, use, and understand commonly used terms in the healthcare field. This course can be used as the upper division elective. Formerly taught as BIOL 3309. Credit will not be given for both.

NURS 3315. RN-BSN HOLISTIC HEALTH ASSESSMENT ACROSS THE LIFESPAN. 3 Hours.
Theory and practice of holistic health assessment of individuals and families across the life span designed for the registered nurse. RN-BSN students only. Prerequisite: NURS 3345.

NURS 3320. HOLISTIC HEALTH ASSESSMENT ACROSS THE LIFESPAN. 3 Hours.
Theory and practice of holistic health assessment of individuals and families across the life span with emphasis on normal findings. Prerequisite: or Corequisite: NURS 3632.

NURS 3321. NURSING RESEARCH. 3 Hours.
Basic concepts, processes and applications of nursing research. Research role of the nurse in decision making and clinical practice. Prerequisite: NURS 3632.

NURS 3322. HUMAN FACTORS IN HEALTHCARE. 3 Hours.
This course provides an overview of human factors concepts and principles essential for healthcare professionals. Topics include the basics of patient safety and human factors principles in patient safety improvement at individual, team and organizational levels, such as psychological safety, visual design, and human performance limitations.

NURS 3325. RN-BSN HOLISTIC CARE OF THE OLDER ADULT. 3 Hours.
Introduction to gerontologic nursing principles and standards. Selected concepts and issues related to aging and its impact on society and health care. RN-BSN students only. Previously listed as NURS 3322. Prerequisite: NURS 3345.

NURS 3333. PROMOTING HEALTHY LIFESTYLES. 3 Hours.
Focus on health promotion and disease prevention strategies that promote healthy lifestyles and empower individuals, families, and populations to achieve optimal health and wellness. The role of the nurse in health promotion is emphasized. Students will examine the impact of nurses' overall wellness on patient safety.

NURS 3335. RN-BSN PROMOTING HEALTHY LIFESTYLES. 3 Hours.
Focus on health promotion and disease prevention strategies that promote healthy lifestyles and empower individuals, families, and populations to achieve optimal health and wellness. The role of the nurse in health promotion is emphasized. Students will examine the impact of nurses' overall wellness on patient safety. RN-BSN students only. Previously NURS 3435. Prerequisite: NURS 3345.

NURS 3337. INDEPENDENT STUDY. 3 Hours.
Topic and mode of study are agreed upon by the student and instructor. May be repeated with various topics. Must earn a grade of C or better for credit. Prerequisite: Consent of Instructor.

NURS 3344. ENHANCING NURSING PRACTICE AND SAFETY WITH HISPANIC PATIENTS THROUGH BETTER COMMUNICATION. 3 Hours.
Explores and augments the understanding of factors which facilitate or inhibit effective communication with Spanish-speaking clients. Focus on vocabulary specific to assessment and intervention with persons whose primary language is Spanish.

NURS 3345. ROLE TRANSITION TO PROFESSIONAL NURSING. 3 Hours.
Course addresses the role transition to Professional Nursing, nursing theory, ethics, decision making, critical thinking/clinical judgment, introduction to evidence-based practice, and informatics/technology in practice. Identifies strategies for personal and professional empowerment. Prerequisite: Admission into nursing degree program.

NURS 3347. SPECIALIZED TOPICS IN NURSING. 3 Hours.
Areas of special interest. May be repeated with varied topics. Must earn a C or better to earn credit.

NURS 3352. THE LEGACY OF THE FAMILY. 3 Hours.
Explore and enhance understanding and application of the principles of family science knowledge in therapeutic relationships with families across the lifespan.

NURS 3364. INTRODUCTION TO PROFESSIONAL AND CLINICAL CONCEPTS IN NURSING. 3 Hours.
Designed to introduce the student to specific professional concepts in nursing as well as academic success strategies. Selected concepts and processes for professional nursing will include an introduction to nursing's theoretical, philosophical, ethical, and legal dimensions with an emphasis on professional formation. Course activities will focus on development of teamwork, communication skills, effective decision making and reflective practice.
NURS 3365. PHARMACOLOGY IN NURSING PRACTICE. 3 Hours.
Introduction to current concepts of pharmacology and their relationship to nursing practice. Included are basic principles of drug actions, side effects for major drug classifications, and the role of the nurse in drug therapeutics. Prerequisite: Admission into the upper division nursing program.

NURS 3366. PATHOPHYSIOLOGIC PROCESSES: IMPLICATIONS FOR NURSING. 3 Hours.
Pathophysiologic alterations, their interactions, and effects on persons across the life span as a basis for therapeutic nursing interventions. Must be taken no more than three years prior to acceptance into the nursing program. Prerequisite: BIOL 2457, BIOL 2458, CHEM 1451.

NURS 3375. RN-BSN HEALTH POLICY, LEGAL ASPECTS AND INFORMATICS IN NURSING. 3 Hours.
This course provides an introduction to legal and ethical concepts, values, and behaviors necessary for transitioning to a professional nursing role. Topics include health care policy development, legal overview and peer-review process, health care informatics, economic and political issues, laws, rules, challenges, boundaries, malpractice and societal issues and trends influencing health care. Prerequisite: NURS 3345.

NURS 3381. PSYCHIATRIC MENTAL HEALTH NURSING OF INDIVIDUALS, FAMILIES, AND GROUPS. 3 Hours.
Application of the nursing process with emphasis on critical thinking, therapeutic nursing interventions, and effective communication and interpersonal skills as they relate to persons with psychiatric mental health conditions. Prerequisite: NURS 3632, NURS 3320 and NURS 3333.

NURS 3437. INDEPENDENT STUDY. 4 Hours.
Topic and mode of study are agreed upon by the student and instructor. May be repeated with various topics. Must earn C or better for credit. Prerequisite: Consent of instructor.

NURS 3447. SPECIALIZED TOPICS IN NURSING. 4 Hours.
Areas of special interest. May be repeated with varied topics. Must earn C or better for credit. Prerequisite: Consent of instructor.

NURS 3537. INDEPENDENT STUDY. 5 Hours.
Topic and mode of study are agreed upon by the student and instructor. May be repeated with various topics. Must earn C or better for credit. Prerequisite: Consent of instructor.

NURS 3547. SPECIALIZED TOPICS IN NURSING. 5 Hours.
Areas of special interest. May be repeated with varied topics. Must earn C or better for credit. Prerequisite: Junior standing and consent of instructor.

NURS 3632. CLINICAL NURSING FOUNDATIONS. 6 Hours.
Basic therapeutic nursing interventions with individuals and families in diverse settings using nursing process framework. Prerequisite: Acceptance into the upper division nursing program. Co-req: NURS 3365 and NURS 3320.

NURS 3637. INDEPENDENT STUDY. 6 Hours.
Topic and mode of study are agreed upon by the student and instructor. May be offered with any combination of lecture/lab hours. May be repeated with various topics. Must earn C or better for credit. Prerequisite: Consent of instructor.

NURS 3647. SPECIALIZED TOPICS IN NURSING. 6 Hours.
Areas of special interest. May be repeated with varied topics. Must earn C or better for credit. Prerequisite: Junior standing and consent of instructor.

NURS 3661. NURSING OF ADULTS. 6 Hours.
Application of the nursing process with emphasis on critical thinking, therapeutic nursing interventions, and effective communication for persons experiencing medical-surgical problems. Theory and clinical application in diverse settings. Prerequisite: NURS 3632, NURS 3320 and NURS 3333.

NURS 4100. COOPERATIVE NURSING WORK EXPERIENCE. 1 Hour.
Designed for nursing cooperative education students to integrate classroom study with career-related practical experience in the workplace. Prerequisite: Consent of instructor.

NURS 4199. ROLE DEVELOPMENT IN PROFESSIONAL NURSING SEMINAR. 1 Hour.
The course addresses professional nursing role development integrating concepts of professional comportment. Prerequisite: NURS 3661, NURS 3381.

NURS 4200. COOPERATIVE NURSING WORK EXPERIENCE. 2 Hours.
Designed for nursing cooperative education students to integrate classroom study with career-related practical experience in the workplace. Prerequisite: Consent of instructor.

NURS 4300. COOPERATIVE NURSING WORK EXPERIENCE. 3 Hours.
Designed for nursing cooperative education student to integrate classroom study with career-related practical experience in the workplace. Prerequisite: NURS-EL 3300 or NURS 3300.

NURS 4323. HEALTH POLICY, LEGAL ASPECTS AND INFORMATICS IN NURSING. 3 Hours.
This course provides an introduction to legal and ethical concepts, values, and behaviors necessary for transitioning to a professional nursing role. Topics include health care policy development, legal overview and peer-review process, health care informatics, economic and political issues, laws, rules, challenges, boundaries, malpractice and societal issues and trends influencing health care. Prerequisite: NURS 4331 and NURS 4341 OR NURS 4331 and NURS 4581 OR NURS 4341 and NURS 4581.

NURS 4325. RN-BSN NURSING RESEARCH. 3 Hours.
Basic concepts, processes and applications of nursing research. Research role of the nurse in decision making and clinical practice. RN-BSN students only. Prerequisite: ENGL 2338 or equivalent, Math 1308 or equivalent, and NURS 3345 or NURS 3645.
NURS 4331. NURSING OF CHILDREN AND ADOLESCENTS. 3 Hours.
Nursing care for infants, children, adolescents, and their families. Theory and clinical application in diverse settings. Prerequisite: NURS 3661, NURS 3381, NURS 3321.

NURS 4341. NURSING OF THE CHILDBEARING FAMILY. 3 Hours.
Application of the nursing process with emphasis on critical thinking, communication and therapeutic nursing interventions as related to care of individuals and families during the childbearing experience. Prerequisite: NURS 3381, NURS 3661, NURS 3321.

NURS 4350. CAPSTONE: TRANSITION TO PROFESSIONAL NURSING. 3 Hours.
Focus on the synthesis of knowledge acquired throughout the curriculum and the enactment of the professional nurse role in a concentrated practicum. Prerequisite: or Corequisite: NURS 4351, NURS 4462, NURS 4323.

NURS 4351. BSN NURSING LEADERSHIP AND MANAGEMENT. 3 Hours.
Exploration of organizational strategies, leadership theories and societal trends with implications for decision making in health care. Introduction to management skills needed by professional nurses in diverse settings. Prerequisites: NURS 4331, NURS 4341, NURS 4581.

NURS 4393. NURSING CERTIFICATION. 3 Hours.

NURS 4455. RN-BSN NURSING LEADERSHIP & MANAGEMENT. 4 Hours.
Exploration of organizational strategies, leadership theories and societal trends with implications for decision making in health care. Introduction to management skills needed by professional nurses with clinical application in diverse settings. RN-BSN students only. Prerequisite: NURS 3345.

NURS 4462. POPULATION AND COMMUNITY HEALTH NURSING. 4 Hours.
Integrate knowledge from nursing theory and public health science in assessing health care needs of aggregates, communities, and society. Prerequisite: NURS 4331, NURS 4341, NURS 4581.

NURS 4465. RN-BSN POPULATION AND COMMUNITY HEALTH NURSING. 4 Hours.
Integrates knowledge from nursing theory and public health science in assessing health care needs of aggregates, communities, and society for the Registered Nurse. RN-BSN students only. Prerequisite: NURS 3345.

NURS 4581. NURSING OF ADULTS WITH COMPLEX NEEDS. 5 Hours.
Use of critical thinking, therapeutic nursing interventions and communication skills in promoting quality of life for persons with complex health needs. Application of nursing roles in diverse settings. Prerequisite: NURS 3661, NURS 3381, NURS 3321, NURS 3261.

NURS 4685. RN-BSN CAPSTONE. 6 Hours.
Synthesis of knowledge acquired in the RN-BSN curriculum and development of the Nurse Role with evolving professional issues, health care environment, lifelong learning, and promotion of the Nursing profession designed for Registered Nurses RN-BSN student only. Prerequisite: NURS 4325, NURS 4455 Corequisite: NURS 4465.

NURS 5110. NEONATAL ASSESSMENT LAB. 1 Hour.
Conduct comprehensive health assessment in the neonatal population. Prerequisite: NURS 5220 or concurrent enrollment or permission of instructor or Certificate Program Standing.

NURS 5112. THERAPY CONCEPTS FOR PSYCHIATRIC MENTAL HEALTH NURSE PRACTITIONERS. 1 Hour.
This course provides evidence based practice principles of non-pharmacological individual, family and group therapies for psychiatric disorders and mental health problems across the lifespan. Prerequisite: NURS 5315, NURS 5410 or concurrent enrollment, NURS 5140 or concurrent enrollment, or Certificate Program Standing.

NURS 5120. ADULT-GERONTOLOGY ASSESSMENT LAB. 1 Hour.
Conduct comprehensive health assessment in the adult-gerontology population. Prerequisite: NURS 5220 or concurrent enrollment or Certificate Program Standing.

NURS 5130. PEDIATRIC ASSESSMENT LAB. 1 Hour.
Conduct comprehensive health assessment in the pediatric population. Prerequisite: NURS 5220 or concurrent enrollment or Certificate Program Standing.

NURS 5140. PSYCHIATRIC ASSESSMENT LAB FOR THE PSYCHIATRIC MENTAL HEALTH NURSE PRACTITIONER. 1 Hour.
Introduces the PMHNP student to the psychiatric mental health assessment applied to the pediatric, adult, and geriatric patient with a mental health disorder through knowledge acquisition and skill development. Prerequisite: NURS 5220, NURS 5120, and NURS 5130, NURS 5410 or concurrent enrollment, NURS 5112 or concurrent enrollment, or Certificate Program Standing.

NURS 5150. ADVANCED CARE OF A CLIENT POPULATION. 1 Hour.
Conduct comprehensive advanced health assessments of a client population and provide a teaching intervention of a priority health need. Prerequisite: NURS 5220 or concurrent enrollment or Certificate Program Standing.

NURS 5170. INDEPENDENT STUDY IN NURSING. 1 Hour.
Detailed in-depth study in a specific topic area. Topic and mode of study are agreed upon by student(s) and instructor prior to registration. May be repeated for credit when topics vary. Graded F, P, R. Prerequisite: Graduate standing.

NURS 5190. TOPICS IN NURSING. 1 Hour.
Selected topics in advanced nursing. May be repeated for credit as topics change.
NURS 5204. NEONATAL NURSING I. 2 Hours.
Clinical management of the high-risk neonate with a focus on the perinatal and transition periods as well as stabilization of the ill newborn at birth. Includes fluid and electrolyte management, nutrition, and identification of the indications and complications associated with invasive skills and procedures relevant to the high-risk neonate. Prerequisite: NURS 5315; NURS 5316 or NURS 5220 or concurrent enrollment and NURS 5110 or concurrent enrollment or Certificate Program Standing.

NURS 5213. PSYCHOPHARMACOLOGY FOR THE PSYCHIATRIC MENTAL HEALTH NURSE PRACTITIONER. 2 Hours.
This course provides advanced study of clinical psycho-pharmacological therapeutics for the psychiatric mental health nurse practitioner. Foundations of advanced psychopharmacology in common and complex mental health disorders and conditions in populations across the lifespan are explored. Prerequisite: NURS 5334, NURS 5410, NURS 5140, NURS 5112, NURS 5222 or concurrent enrollment, NURS 5223 or concurrent enrollment.

NURS 5220. ADVANCED HEALTH ASSESSMENT AND DIAGNOSTIC REASONING. 2 Hours.
Apply theoretical foundations of comprehensive health assessment across the lifespan. Prerequisite: Graduate or Certificate Program Standing. NURS 5315 or Special Permission.

NURS 5222. CHILD, ADOLESCENT, AND SPECIAL POPULATIONS PSYCHIATRIC MENTAL HEALTH FOR THE PMHNP. 2 Hours.
This course provides the scientific foundations and evidence-based practice principles necessary for managing children, adolescents, and special populations (and/or at risk for) various commonly occurring and complex psychiatric disorders and mental health problems as well as comorbid medical illnesses. Prerequisite: NURS 5410, NURS 5213, NURS 5112, NURS 5222 or concurrent enrollment, or Certificate Program Standing.

NURS 5223. ADULT AND GERIATRIC PSYCHIATRIC MENTAL HEALTH FOR THE PMHNP. 2 Hours.
This course provides the scientific foundations and evidence-based practice principles necessary for managing adult and geriatric populations with (and/or at risk for) commonly occurring and complex psychiatric disorders and mental health problems as well as co-morbid medical illnesses. Prerequisite: NURS 5410, NURS 5140, NURS 5213 or concurrent enrollment, NURS 5222 or concurrent enrollment, or Certificate Program Standing.

NURS 5270. INDEPENDENT STUDY IN NURSING. 2 Hours.
Detailed in-depth study in a specific topic area. Topic and mode of study are agreed upon by student(s) and instructor prior to registration. May be repeated for credit when topics vary. Graded F, P, R. Prerequisite: Graduate Standing and permission of instructor.

NURS 5290. TOPICS IN NURSING. 2 Hours.
Selected topics in advanced nursing. May be repeated for credit as topics change.

NURS 5300. ADVANCED ASSESSMENT, PATHOPHYSIOLOGY, AND PHARMACOLOGY FOR NURSE EDUCATORS. 3 Hours.
Focus on the development and integration of advanced knowledge of health assessment, pathophysiology, and pharmacology across the lifespan. Prerequisite: Graduate standing.

NURS 5302. CURRICULUM DEVELOPMENT IN NURSING EDUCATION. 3 Hours.
Explore the nature of nursing education. Focus on the curriculum process and its application to nursing education programs. Prerequisite: Graduate standing.

NURS 5308. NURSING INFORMATICS. 3 Hours.
Focus on application of computer technology that supports the dissemination of health care data, information and knowledge. Selected software packages/applications are presented and used. Prerequisite: NURS 5367.

NURS 5310. TEACHING AND LEARNING THEORIES AND STRATEGIES IN NURSING EDUCATION. 3 Hours.
Teaching/Learning theories, strategies, and evaluation for educators. Prerequisite: Graduate standing.

NURS 5311. NURSING MANAGEMENT IN THE HEALTH CARE ENVIRONMENT. 3 Hours.
Considers development of management and organizational theories as applied to health care organizations and their environment. Prerequisite: NURS 5367.

NURS 5312. ASSESSMENT AND EVALUATION STRATEGIES IN NURSING EDUCATION. 3 Hours.
Integration of concepts of assessment and evaluation into a nursing evaluation framework. Prerequisite: Graduate standing.

NURS 5315. ADVANCED PATHOPHYSIOLOGY. 3 Hours.
Builds on a previous understanding of anatomy and physiology and focuses on developing advanced knowledge of physiologic and pathophysiologic concepts across the life span. Prerequisite: Graduate Standing.

NURS 5318. ADVANCED PATHOPHYSIOLOGY FOR NURSE EDUCATORS. 3 Hours.
This course develops advanced knowledge of pathophysiology. Principles of advanced physiology and pathophysiology are applied to disease processes, plans of care, and teaching plans. This course prepares Nurse Educators to educate clients, students, colleagues to facilitate patients and/or their support systems understanding of the disease process plan of care. Prerequisite: NURS 5367 and NURS 5310 and NURS 5329 and NURS 5302 and NURS 5312.

NURS 5319. ADVANCED PHARMACOLOGY FOR NURSE EDUCATORS. 3 Hours.
This course develops advanced knowledge of clinical pharmacological therapeutics through the evaluation of classes of drugs and pharmacologic plans of care. This course prepares Nurse Educators to educate clients, students, and colleagues to facilitate patients and/or their support systems understanding of the pharmacologic plan of care. Prerequisite: NURS 5318.
NURS 5324. PSYCHIATRIC MENTAL CLINICAL PRACTICE I. 3 Hours.
This course provides application of theoretical knowledge and clinical skills to patients with commonly occurring psychiatric and mental health disorders across the life span in the context of advanced nursing practice. Prerequisite: NURS 5222 and NURS 5223 or Certificate Program Standing. Good academic standing (GPA 3.0).

NURS 5325. PSYCHIATRIC MENTAL HEALTH CLINICAL PRACTICE II. 3 Hours.
This course provides application of theoretical knowledge and clinical skills to patients with various commonly occurring and complex psychiatric and mental health disorders across the life span in the context of advanced nursing practice. Prerequisite: NURS 5324 or concurrent enrollment, or Certificate Program Standing. Good academic standing (GPA 3.0).

NURS 5327. EXPLORATION OF SCIENCE AND THEORIES FOR NURSING. 3 Hours.
This course provides a critical examination of the philosophical and theoretical bases for nursing science. Prerequisite: Graduate standing.

NURS 5329. ROLE OF THE NURSE EDUCATOR. 3 Hours.
Investigation of the roles and functions of the nurse educator. Prerequisite: Graduate program standing.

NURS 5334. ADVANCED PHARMACOLOGY FOR NURSE PRACTITIONERS. 3 Hours.
Study of clinical pharmacological therapeutics for advanced nursing practice. Prerequisites: NURS 5315 or Certificate Program Standing.

NURS 5337. FAMILY CLINICAL PRACTICE 1. 3 Hours.
Initial clinical preceptorship in selected primary health practice sites with opportunities to apply knowledge and concepts of advanced nursing practice implementing the family nurse practitioner role in evidenced based patient care. Prerequisite: NURS 5432, NURS 5433, NURS 5434 and Good academic standing (GPA 3.0) or certificate program standing.

NURS 5338. FAMILY CLINICAL PRACTICE 2. 3 Hours.
Continued clinical preceptorship with opportunities for increased clinical knowledge in selected primary health practice sites with opportunities to apply knowledge and concepts of advanced nursing practice implementing the family nurse practitioner role in evidenced based patient care. Prerequisite: NURS 5432, NURS 5433, NURS 5434, NURS 5337 or concurrent enrollment; Good academic standing (GPA 3.0) or Certificate Program standing.

NURS 5339. ROLES AND FUNCTIONS OF THE NURSE ADMINISTRATOR. 3 Hours.
Examine and implement administrative and managerial roles in health care organizations. Prerequisite: NURS 5311.

NURS 5340. MANAGEMENT SEMINAR AND PRACTICE. 3 Hours.
Synthesize management, organizational, and leadership concepts and theories in selected health care settings. Prerequisite: NURS 5308; NURS 5311; NURS 5339; NURS 5341: NURS 5343; NURS 5342; NURS 5382. Good Academic Standing (3.0 GPA).

NURS 5341. FINANCIAL MANAGEMENT IN NURSING. 3 Hours.
Analyze and apply financial management concepts to financial planning, budgeting, and reimbursement systems in health care. Prerequisite: NURS 5301 or admission into Masters of Science in Health Informatics (MSN-HI) program.

NURS 5342. MANAGEMENT OF NURSING OPERATIONS. 3 Hours.
Examine strategic planning for health care systems. Prerequisite: NURS 5311 or admission into Masters of Science in Health Informatics (MSH-HI) program.

NURS 5343. NURSING LEADERSHIP AND COMPLEX HEALTH CARE SYSTEMS. 3 Hours.
Analyze leadership strategies in current and predicted health care systems including dimensions of workforce and workplace issues, leadership, and evidenced-based decision-making. Prerequisite: NURS 5367.

NURS 5348. NURSING CARE AT THE END OF LIFE. 3 Hours.
Addresses concepts of palliative care of patients with life limiting disease and their families. Explores the physiology of end stage disease processes, clinical approaches to pain and symptom management, societal issues and trends in end of life care, models of care delivery and the impact of personal values and beliefs about death. Prerequisite: Graduate Standing.

NURS 5350. ROLE OF THE NURSE IN ADVANCED PRACTICE. 3 Hours.
Theory and application of the multiple roles of the advanced practice nurse within the health care system. Prerequisite: Graduate Standing.

NURS 5352. ADULT GERONTOLOGY PRIMARY CARE CLINICAL PRACTICE 1. 3 Hours.
Clinical experience in primary and long term health care settings with focus on managing adolescents, adults, and elders with common episodic acute and chronic health care needs. Prerequisite: NURS 5462 or concurrent enrollment; Good academic standing (GPA 3.0) or certificate program standing.

NURS 5353. ADULT GERONTOLOGY PRIMARY CARE CLINICAL PRACTICE 2. 3 Hours.
Continued clinical experience in primary and long term health care settings with focus on managing adolescents, adults, and elders with common episodic acute and chronic health care needs. Prerequisite: NURS 5462 and NURS 5352 or concurrent enrollment and Good academic standing (GPA 3.0) or certificate program standing.

NURS 5354. ADULT GERONTOLOGY ACUTE CARE CLINICAL PRACTICE 1. 3 Hours.
Clinical experience in specialty practice and high acuity health care settings with focus on managing adolescents, adults, and elders with common secondary and tertiary health care needs. Prerequisite: NURS 5463 or concurrent enrollment and Good academic standing (GPA 3.0) or certificate program standing.
NURS 5355. ADULT GERONTOLOGY ACUTE CARE CLINICAL PRACTICE 2. 3 Hours.
Continued clinical experience in specialty practice and high acuity health care settings with focus on managing adolescents, adults, and elders with common secondary and tertiary health care needs. Prerequisite: NURS 5354 or concurrent enrollment; Good academic standing (GPA 3.0) or certificate program standing.

NURS 5356. GLOBAL HEALTH POLICY, HEALTH LITERACY, AND MODELS OF CARE FOR OLDER ADULTS. 3 Hours.
This course will focus on healthcare policy issues and models of healthcare delivery for older adults at the state, national and global levels. Prerequisite: Graduate Standing.

NURS 5357. ADVANCED CLINICAL MANAGEMENT OF OLDER ADULTS WITH COMPLEX MULTIMORBIDITY. 3 Hours.
This course will focus upon an inter-professional approach to develop advanced knowledge in the chronic health care management of older adults, their families, and communities in a variety of health care settings. Prerequisite: Graduate Standing or permission of instructor.

NURS 5358. ADVANCED CLIN MGMT OF OLDER ADULTS W/COMPLEX MULTIMORBIDITY DURING ACUTE ILLNESS CRISIS. 3 Hours.
This course will focus upon an inter-professional approach to develop advanced knowledge in aging issues and paradigms of care for the older adult; in addition, this course will accentuate the management of older adults with acute health problems, their families, and communities in a variety of health care settings. Prerequisite: Graduate Standing or permission of instructor.

NURS 5360. SIMULATION APPLICATION IN NURSING. 3 Hours.
Application of and active learning strategies in nursing education. Prerequisite: NURS 5367, NURS 5220.

NURS 5362. TEACHING PRACTICUM. 3 Hours.
Nursing education preceptorship in selected health care sites with opportunities to apply clinical and educational knowledge, skills, and concepts in a guided, progressive context of nursing education. Graded F,R,P,W. Prerequisite: Completion of all courses in the Nursing Education Program and Good academic standing (GPA 3.0).

NURS 5366. PRINCIPLES OF RESEARCH IN NURSING. 3 Hours.
This course focuses on integration of theoretical and empirical principles of nursing research to generate evidence for nursing practice. Prerequisite: Graduate Standing.

NURS 5367. EVIDENCE BASED PRACTICE. 3 Hours.
Preparation to lead evidence-based practice teams, to interpret best evidence, to plan for change, to evaluate outcomes, and to disseminate the project. Prerequisite: Graduate standing; NURS 5366 and NURS 5327.

NURS 5370. INDEPENDENT STUDY IN NURSING. 3 Hours.
Detailed in-depth study in a specific topic area. Topic and mode of study are agreed upon by student(s) and instructor prior to registration. May be repeated for credit when topics vary. Graded F,R,P,W. Permission of instructor. Graduate standing.

NURS 5371. PEDIATRIC PRIMARY CARE CLINICAL PRACTICE 1. 3 Hours.
Initial clinical preceptorship in selected primary health practice sites with opportunities to apply knowledge and concepts of advanced nursing practice implementing the pediatric nurse practitioner role in evidenced based patient care. Prerequisite: NURS 5465. Good academic standing (GPA 3.0) or Certificate program standing.

NURS 5372. PEDIATRIC PRIMARY CARE CLINICAL PRACTICE 2. 3 Hours.
Continue clinical preceptorship in selected primary health practice sites with opportunities to apply knowledge and concepts of advanced nursing practice implementing the pediatric nurse practitioner role in evidenced based patient care. Prerequisite: NURS 5371 or concurrent enrollment. Good academic standing (GPA 3.0) or Certificate Program Standing.

NURS 5373. PEDIATRIC ACUTE CARE CLINICAL PRACTICE 1. 3 Hours.
Initial clinical preceptorship in selected acute and chronic care health practice sites with opportunities to apply knowledge and concepts of advanced nursing practice implementing the pediatric acute care nurse practitioner role in evidenced based patient care. Prerequisite: NURS 5467 or concurrent enrollment. NURS 5466 or concurrent enrollment. Good academic standing (GPA 3.0) or Certificate program standing.

NURS 5374. PEDIATRIC ACUTE CARE CLINICAL PRACTICE 2. 3 Hours.
Continue clinical preceptorship in selected acute and chronic care health practice sites with opportunities to apply knowledge and concepts of advanced nursing practice implementing the pediatric nurse practitioner role in evidenced based patient care. Prerequisite: NURS 5466; NURS 5373 or concurrent enrollment. Good academic standing (GPA 3.0) or Certificate program standing.

NURS 5380. INDEPENDENT STUDY IN RESEARCH. 3 Hours.
Detailed study and participation in a faculty sponsored research project. Topic and mode of study are agreed upon by the student and instructor prior to registration. Permission of instructor. Graded F,R,P,W.

NURS 5382. NURSING AND HEALTH CARE POLICY: ISSUES AND ANALYSIS. 3 Hours.
Analyze historical, current, and predicted national, state, and local health care policy processes. Prerequisite: NURS 5367.

NURS 5388. STATISTICS FOR HEALTH CARE. 3 Hours.
This course provides students with the basic knowledge and skills to effectively use biostatistics in different research design and data analysis, and to understand articles in related professional journals. Topics include choosing correct statistical methods and study designs in nursing research and practice; descriptive statistics; probability and probability distributions; estimation and hypothesis testing, simple linear regression, introduction to analysis of variance and an introduction to the use of statistical software packages. Prerequisite: Undergraduate Statistics.
NURS 5390. TOPICS IN NURSING. 3 Hours.
Selected topics in advanced nursing. May be repeated for credit as topics change.

NURS 5392. GENOMICS AND NANOTECHNOLOGY IN HEALTH CARE PRACTICE. 3 Hours.
Genomics and nanotechnology are emerging as principal drivers to improve human diagnosis and treatment modalities. This course is designed to introduce tools used in these fields. Health care outcomes, in relation to innovations produced from these fields, will be described. Prerequisite: Graduate standing.

NURS 5393. ADVANCED CLINICAL NURSING PRACTICE I. 3 Hours.
Development of advanced knowledge base of specialized clinical concepts and the application of this knowledge in selected clinical areas. Prerequisite: Graduate standing.

NURS 5395. HEART FAILURE PATHOPHYSIOLOGY AND EXERCISE REHABILITATION. 3 Hours.
The goal of this course is to provide students with fundamental knowledge related to heart failure (HF) pathophysiology, and the role of evidence based exercise rehabilitation to improve overall health related physical fitness and quality of life. Prerequisite: Graduate Standing or Approval of Instructor.

NURS 5396. CURRENT BIOTECHNOLOGY IN HEALTH CARE. 3 Hours.
The goal of this course is to provide students with fundamental knowledge and current advances of biotechnology in medicine and healthcare, and train them how to apply these new technologies in their pertinent fields. Prerequisite: Graduate Standing. Approval of instructor.

NURS 5397. ETHICAL RESEARCH AND THE PROPOSED IRB/IACUC PROTOCOL. 3 Hours.
Ethical research practices that the learner will be able to demonstrate through a written research protocol using good clinical practice (GCP) to ensure protection of subjects/animals. Related topics include social-behavioral and biomedical research certifications, and issues related to scientific misconduct. Prerequisite: Graduate standing or permission of instructor.

NURS 5398. THESIS. 3 Hours.
Graded F,R.

NURS 5410. INTRODUCTION TO PSYCHIATRIC MENTAL HEALTH FOR THE PMHNP. 4 Hours.
This course provides the neuroscientific foundations for various psychiatric disorders and mental health problems across the lifespan. An analysis of the relationships between the neurobiology, neurophysiology, genetic, and epigenetic aspects of various psychiatric disorders and mental health problems will be explored. Prerequisite: NURS 5315, NURS 5220, NURS 5120, NURS 5130, or Certificate Program Standing.

NURS 5432. FAMILY I. 4 Hours.
This course focuses on advanced concepts and knowledge for nurse practitioner primary care management of designated acute, chronic and complex health problems of individuals and families across the lifespan. Particular emphasis will be on pediatric wellness, women's health, men's health, and geriatrics concepts and conditions. Prerequisite: NURS 5418 or NURS 5220 and NURS 5120 and NURS 5130; NURS 5334 or Certificate Program standing.

NURS 5433. FAMILY II. 4 Hours.
This course focuses on advanced concepts and knowledge for nurse practitioner primary care management of commonly occurring conditions seen in primary care patients across the lifespan. Prerequisite: NURS 5418 or NURS 5220 and NURS 5120 and NURS 5130; NURS 5334 or Certificate Program standing.

NURS 5434. FAMILY III. 4 Hours.
This course focuses on advanced concepts and knowledge for nurse practitioner primary care management of designated acute, chronic and complex health problems of individuals and families across the lifespan. Particular emphasis will be on adult wellness, psychiatric, and cardiometabolic concepts and conditions. Prerequisite: NURS 5418 or NURS 5220 and NURS 5120 and NURS 5130; NURS 5334 or Certificate Program standing.

NURS 5447. NEONATAL NURSING III. 4 Hours.
This course focuses on advanced concepts of pharmacological and technological therapies and evidence based knowledge for the management of designated complex acute and chronic health problems affecting infants (birth to 2 years of age) and their families including ethical issues. Prerequisite: NURS 5537 or Certificate Program Standing.

NURS 5450. NEONATAL NP CLINICAL PRACTICE. 4 Hours.
Integration of clinical management of the high-risk neonate through clinical preceptorships in selected health practice sites with application of knowledge, skills and concepts in a guided, progressive context of advanced nursing practice. The ratio of credit to clinical hours is 1:4. Prerequisites: NURS 5334 and NURS 5316 or NURS 5220 and NURS 5110 and NURS 5204 and NURS 5537 or concurrent enrollment and Good academic standing (GPA 3.0) or Certificate Program Standing.

NURS 5461. ADULT GERONTOLOGY MANAGEMENT ACROSS THE CONTINUUM OF CARE. 4 Hours.
Foundations of advanced knowledge of common acute and chronic health problems in adolescents, adults, and elders across health care settings. Prerequisite: NURS 5220; NURS 5120 and NURS 5334, and NURS 5367 or concurrent enrollment, or Certificate Program Standing.

NURS 5462. ADULT GERONTOLOGY PRIMARY CARE. 4 Hours.
Focus on an inter-professional approach and the development of advanced knowledge in the primary care management of adults from adolescence through old age, their families, and communities in a variety of health care settings. Prerequisite: NURS 5461 or Certificate Program Standing.
NURS 5463. ADULT GERONTOLOGY ACUTE CARE. 4 Hours.
Focuses on a collaborative, inter-professional approach in the evaluation, diagnosis, and management of adolescents, adults, and gerontological patients who are experiencing acute, critical, and complex chronic illnesses across the continuum of care. Prerequisite: NURS 5461 or Certificate Program Standing.

NURS 5465. PRIMARY PEDIATRIC CARE. 4 Hours.
This course focuses on advanced concepts and knowledge for nurse practitioners management of designated minor acute, chronic and chronic health problems of pediatric patients and their families in primary care healthcare settings. Prerequisite: NURS 5334; NURS 5220; NURS 5130; NURS 5367 or concurrent enrollment.

NURS 5466. PEDIATRIC ACUTE CARE. 4 Hours.
This course focuses on advanced concepts and knowledge for nurse practitioner management of designated critical, acute, chronic and complex health problems of pediatric patients and their families in an acute care facility. Prerequisite: NURS 5465.

NURS 5467. PEDIATRIC COMPLEX CARE. 4 Hours.
This course focuses on advanced concepts and knowledge for nurse practitioner management of designated acute, chronic and complex health problems of pediatric patients and their families in multiple healthcare settings. Prerequisite: NURS 5465 or concurrent enrollment or Certificate program standing.

NURS 5470. INDEPENDENT STUDY IN NURSING. 4 Hours.
Detailed in-depth study in a specific topic area. Topic and mode of study are agreed upon by student(s) and instructor prior to registration. May be repeated for credit when topics vary. Prerequisite: Permission of instructor. Graded F,R,P,W.

NURS 5537. NEONATAL NURSING II. 5 Hours.
This course focuses on advanced concepts of pharmacological and technological therapies and evidence based knowledge for the management of designated complex, acute health problems affecting infants (birth to 2 years of age). Graded (A,B,C,D,F,I,W). Prerequisite:NURS 5204 and NURS 5334 and NURS 5316 or NURS 5220 and NURS 5110; NURS 5367 or concurrent enrollment or Certificate Program Standing.

NURS 5610. NEONATAL NP ADVANCED PRACTICUM. 6 Hours.
Clinical preceptorships in selected health practice sites with opportunities to apply knowledge, skills and concepts in a guided, progressive context of neonatal advanced nursing practice. The ratio of credit to clinical hours is 1:4. Prerequisite: NURS 5447 and NURS 5450. Good Academic Standing (GPA 3.0) or Certificate Program Standing.

NURS 5640. ADULT GERONTOLOGY ACUTE CARE NP ADVANCED PRACTICUM. 6 Hours.
Clinical preceptorships in selected health practice sites with opportunities to apply knowledge, skills and concepts in a guided, progressive context of adult gerontology acute care advanced nursing practice. The ratio of credit to clinical hours is 1:4. Prerequisite: For NURS 5640: NURS 5354 and NURS 5355. Good Academic Standing (GPA 3.0) or Certificate Program Standing. For NURSC 5640: NURSC 5354 and NURSC 5355. Good Academic Standing (GPA 3.0) or Certificate Program Standing.

NURS 5645. ADULT GERONTOLOGY PRIMARY CARE NP ADVANCED PRACTICUM. 6 Hours.
Clinical preceptorships in selected health practice sites with opportunities to apply knowledge, skills and concepts in a guided, progressive context of adult gerontology primary care advanced nursing practice. The ratio of credit to clinical hours is 1:4. Prerequisite: For NURS 5645: NURS 5352 and NURS 5353. Good Academic Standing (GPA 3.0) or Certificate Program Standing. For NURSC 5645: NURSC 5352 and NURSC 5353. Good Academic Standing (GPA 3.0) or Certificate Program Standing.

NURS 5650. PSYCHIATRIC MENTAL HEALTH NP ADVANCED PRACTICUM. 6 Hours.
Clinical preceptorships in selected health practice sites with opportunities to apply knowledge, skills and concepts in a guided, progressive context of family psychiatric mental health care advanced nursing practice. The ratio of credit to clinical hours is 1:4. Prerequisite: NURS 5324 and NURS 5325. Good Academic Standing (GPA 3.0) or Certificate Program Standing.

NURS 5660. FAMILY NP ADVANCED PRACTICUM. 6 Hours.
Clinical preceptorships in selected health practice sites with opportunities to apply knowledge, skills and concepts in a guided, progressive context of Family Primary Care Advanced Nursing Practice. The ratio of credit to clinical hours is 1:4. Prerequisite: For NURS 5660: NURS 5337 and NURS 5338. Good Academic Standing (GPA 3.0) or Certificate Program Standing. For NURSC 5660: NURSC 5337 and NURSC 5338. Good Academic Standing (GPA 3.0) or Certificate Program Standing. For NURSG: NURSG 5337 and NURSG 5338. Good Academic Standing (GPA 3.0) or Certificate Program Standing.

NURS 5670. INDEPENDENT STUDY IN NURSING. 6 Hours.
Detailed in-depth study in a specific topic area. Topic and mode of study are agreed upon by student(s) and instructor prior to registration. May be repeated for credit when topics vary. Prereq: Permission of instructor. Graded F,R,P,W.

NURS 5680. PEDIATRIC ACUTE CARE NP ADVANCED PRACTICUM. 6 Hours.
Clinical preceptorships in selected health practice sites with opportunities to apply knowledge, skills and concepts in a guided, progressive context of pediatric acute care advanced nursing practice. The ratio of credit to clinical hours is 1:4. Prerequisite: For NURS 5680: NURS 5373 and NURS 5374. Good Academic Standing (GPA 3.0) or Certificate Program standing. For NURSC 5680: NURSC 5373 and NURSC 5374. Good Academic Standing (GPA 3.0) or Certificate Program standing.
NURS 5685. PEDIATRIC PRIMARY CARE NP ADVANCED PRACTICUM. 6 Hours.
Clinical preceptorships in selected health practice sites with opportunities to apply knowledge, skills and concepts in a guided, progressive context of pediatric primary care advanced nursing practice. The ratio of credit to clinical hours is 1:4. Prerequisite: For NURS 5685: NURS 5371 and NURS 5372. Good Academic Standing (GPA 3.0) or Certificate Program Standing. For NURSC 5685: NURSC 5371 and NURSC 5372. Good Academic Standing (GPA 3.0) or Certificate Program Standing.

NURS 5698. THESIS. 6 Hours.
Graded F, R, P.

NURS 6170. INDEPENDENT STUDY IN NURSING. 1 Hour.
Detailed in-depth study in a specific topic area. Topic and mode of study are agreed upon by student(s) and instructor prior to registration. May be repeated for credit when topics vary. Graded F, R, P.

NURS 6190. SPECIAL TOPICS IN NURSING. 1 Hour.
Selected topics in advanced nursing. May be repeated for credit as topics change.

NURS 6270. INDEPENDENT STUDY IN NURSING. 2 Hours.
Detailed in-depth study in a specific topic area. Topic and mode of study are agreed upon by student(s) and instructor prior to registration. May be repeated for credit when topics vary. Graded F, R, P.

NURS 6290. TOPICS IN NURSING. 2 Hours.
Selected topics in advanced nursing. May be repeated for credit as topics change.

NURS 6301. THEORY IN NURSING SCIENCE. 3 Hours.
Analysis and evaluation of theory used to guide health-related research; synthesis of health-related research guided by theory. Prerequisite: Graduate standing.

NURS 6302. ISSUES IN STUDYING THE HEALTH OF CULTURALLY DIVERSE AND VULNERABLE POPULATIONS. 3 Hours.
Social and cultural factors affecting health among sub-populations defined by age, education, gender, ethnicity, culture, religion, occupation, vulnerability, income and geography. Prerequisite: Graduate Standing. DNP or PhD program.

NURS 6303. CULTURE OF SCIENCE. 3 Hours.
Professional, ethical, legal, financial, and socio-political issues associated with the conduct and dissemination of research. Prerequisite: Graduate standing.

NURS 6304. MEASUREMENT IN CULTURALLY DIVERSE AND VULNERABLE POPULATIONS. 3 Hours.
This course presents the process involved in identifying different sources of data and variables and the use of conceptual models to influence choice and measurement of variables. The course presents the processes for identifying different sources of variables, designing, testing and/or selecting instruments, methods and procedures for measuring variables in clinical, educational and research settings. Prerequisite: NURS 6301, Theoretical Evolution in Science, or permission of instructor. Course is predicated on prior learning related to concept analysis, basic statistics including correlation.

NURS 6305. QUALITATIVE RESEARCH. 3 Hours.
Philosophical foundation for and methodological issues in using qualitative approaches for scientific and knowledge development. Prerequisite: Graduate standing.

NURS 6306. RESEARCH DESIGN. 3 Hours.
Application of advanced nursing research methods to design studies that improve health outcomes in culturally diverse populations. Prerequisites: NURS 6304 or permission of instructor.

NURS 6307. POPULATION HEALTH. 3 Hours.
This course focuses on analyzing determinants of health, then designing health strategies to improve outcomes of populations. Prerequisite: Doctoral Standing. Graduate Level Statistics (with minimum of a B). 6327 if in DNP Program.

NURS 6308. STATE OF THE SCIENCE: BACKGROUND IN RESEARCH. 3 Hours.
Application of criteria for appraising strengths and weaknesses of published studies; Synthesis of research literature on a selected topic. Prerequisite: Graduate standing.

NURS 6311. MANUSCRIPT DEVELOPMENT FOR PUBLICATION. 3 Hours.
This course provides a frame for which students focus their prose in order to disseminate their work to a broad audience of clinical, education, or research oriented practitioners. This course allows participants to critique peers' work to enhance their own skills as a peer reviewer, to enhance their career, and support other authors' writing efforts. The participants will write and explore the differences between peer reviewing and editing by critiquing sample review comments. Prerequisite: Approval of instructor. Doctoral Graduate standing.

NURS 6318. PARAMETRIC STATISTICS FOR HEALTHCARE RESEARCH. 3 Hours.
This course provides basic knowledge and skills to select the appropriate biostatistical analysis for different research designs, analyze data, interpret statistical results, and understand research articles in professional journals. Emphasis will be placed on common research designs in health care research; analysis of variance (ANOVA), factorial ANOVA, ANCOVA, MANCOVA, simple linear regression, multiple linear regression, and power analysis. Proficiency in the use of a statistical software package as well as a power analysis software package will be achieved. Prerequisite: Graduate-level introductory statistics course.
NURS 6319. PSYCHOMETRIC AND NONPARAMETRIC STATISTICS FOR HEALTHCARE RESEARCH. 3 Hours.
This course provides basic knowledge and skills to select the appropriate biostatistical analysis for different research designs, analyze data, interpret statistical results, and understand research articles in professional journals. Emphasis will be placed on reliability and validity of instruments commonly used in healthcare; assumptions testing including non-normality; nonparametric statistics for dependent samples and independent samples; logistic regression; and survival analysis. Proficiency in the use of a statistical software package will be achieved. Prerequisite: Graduate-level introductory statistics course.

NURS 6320. LEADERSHIP IN HEALTH CARE SYSTEMS. 3 Hours.
This course focuses on the DNP nurse influencing health systems change at any level. Prerequisite: Doctoral Standing. Prerequisite or co-requisite with NURS 6327 if full time.

NURS 6322. TRANSLATIONAL RESEARCH. 3 Hours.
This course provides a review of differences in QI, EBP, and Research as a foundation for translation of evidence. New practice-based clinical inquiry methods and strategies are explored to promote application of translational Research in the DNP role. Prerequisite: Doctoral Standing. Graduate Level Statistics (with minimum of a B). NURS 6327, NURS 6320.

NURS 6323. EVIDENCE APPRAISAL. 3 Hours.
In this course, students will use analytical methods to critically appraise existing research and literature to select and implement the best evidence for practice. Prerequisite: Doctoral Standing. Graduate Level Statistics (with minimum of a B). NURS 6327, NURS 6320, and NURS 6322.

NURS 6324. CLINICAL INFORMATION SYSTEMS. 3 Hours.
This course focuses on the selection, assessment, and use of information systems, technology, and data to evaluate and monitor outcomes of care, care systems, and quality improvement. Prerequisite: Doctoral Standing. Graduate Level Statistics (with minimum of a B).

NURS 6326. PROJECT PROPOSAL DEVELOPMENT. 3 Hours.
In this course the student will propose an evidence-based scholarly project. Upon completion 180 Practicum Hours will be applied to NURS 6620/6621 Practicums. Prerequisite: Pre-requisites in order of occurrence NURS 6320, NURS 6322, NURS 6323.

NURS 6327. CLINICAL SCHOLARSHIP TO IMPROVE HEALTHCARE OUTCOMES. 3 Hours.
This course will develop clinical scholarship and analytical methods to improve healthcare outcomes. Prerequisite: Graduate Standing; Graduate Level Statistics (with minimum of a B). NURS 6327, NURS 6320, and NURS 6322.

NURS 6330. DATA SCIENCE AND POPULATION DATABASES. 3 Hours.
This course is designed to prepare students to analyze population-based health data including the theoretical framework behind the design and administration of such studies. The focus is on datasets containing health and behavioral variables. At the conclusion of this course, students will be prepared to produce descriptive and inferential statistics about a defined population using data collected using complex survey design. With the collaboration of the instructor, this course culminates in the development, analysis, and reporting of a research project conducted using a population health database. Prerequisite: NURS 6318, NURS 6319.

NURS 6331. DNP PRACTICUM I PRACTICE. 3 Hours.
During this course, students implement evidence-based solutions that influence health outcomes. Prerequisite: NURS 6307, NURS 6320, NURS 6321, NURS 6322, NURS 6323, NURS 6324, NURS 6326, NURS 6382. DNP status and good academic standing (GPA 3.0).

NURS 6333. DNP PRACTICUM II PRACTICE. 3 Hours.
This course is applicable for students who have passed 6326 Project Proposal Development without approval from the Graduate Nursing Review Committee regarding implementation of a DNP Project. In this course students have faculty supervision in creating a successful DNP Project Proposal. Upon completion, 180 Practicum hours will be applied to NURS 6620/6621 Practicums. Prerequisite: NURS 6326.

NURS 6370. INDEPENDENT STUDY IN NURSING. 3 Hours.
Detailed in-depth study in a specific topic area. Topic and mode of study are agreed upon by student(s) and instructor prior to registration. May be repeated for credit when topics vary. Graded F, R, P.

NURS 6381. RESEARCH PRACTICUM. 3 Hours.
With the active guidance and under the supervision of an active researcher, the student will complete at least 75 hours of research activities, such as designing studies, seeking IRB and organizational approvals, obtaining informed consent, collecting and analyzing data, conducting laboratory experiments, or disseminating findings. This is practical research experience in preparation for the student's dissertation in the PhD Program in Nursing. Prerequisite: Doctoral standing. By permission of Research Advisor.

NURS 6382. HEALTH CARE POLICY. 3 Hours.
Critique policies and processes to provide leadership in developing and implementing policies and/or regulations that influence institutional, local, state, federal, and/or international healthcare outcomes. Prerequisite: Doctoral Standing. Graduate Level Statistics (with minimum of a B). NURS 6327 if in DNP program.

NURS 6390. TOPICS IN NURSING. 3 Hours.
Selected topics in advanced nursing. May be repeated for credit as topics change.

NURS 6399. DISSERTATION. 3 Hours.
Graded F, R. Prerequisite: Admission to candidacy for the Doctor in Nursing degree.
NURS 6470. INDEPENDENT STUDY IN NURSING. 4 Hours.
Detailed in-depth study in a specific topic area. Topic and mode of study are agreed upon by student(s) and instructor prior to registration. May be repeated for credit when topics vary. Graded F, R, P.

NURS 6490. TOPICS IN NURSING. 4 Hours.
Selected topics in advanced nursing. May be repeated for credit as topics change.

NURS 6620. DNP PRACTICUM I. 6 Hours.
During this course, students implement evidence-based solutions that influence health outcomes. Prerequisite: NURS 6307, NURS 6320, NURS 6322, NURS 6323, NURS 6324, NURS 6326, NURS 6327, and NURS 6382. Good academic standing (GPA 3.0).

NURS 6621. DNP PRACTICUM II. 6 Hours.
During this course, students evaluate evidence-based solutions that influence health outcomes. Prerequisite: NURS 6620 and DNP status, Good academic standing (3.0).

NURS 6699. DISSERTATION. 6 Hours.
Graded F, R, P, W. Prerequisite: Admission to candidacy for the Doctor in Nursing degree.

NURS 6999. DISSERTATION. 9 Hours.
Graded F, R, P. Prerequisite: Admission to candidacy for the Doctor in Nursing degree.

NURS 7399. DOCTORAL DEGREE COMPLETION. 3 Hours.
This course may be taken during the semester in which a student expects to complete all requirements for the doctoral degree and graduate. Enrolling in this course meets minimum enrollment requirements for graduation, for holding fellowships awarded by The Office of Graduate Studies and for full-time GTA or GRA positions. Students should verify that enrollment in this course meets other applicable enrollment requirements. To remain eligible in their final semester of study for grants, loans or other forms of financial aid administered by the Financial Aid Office must enroll in a minimum of 5 hours as required by the Office of Financial Aid. Other funding sources may also require more than 3-hours of enrollment. Additional hours may also be required to meet requirements set by immigration law or by the policies of the student’s degree program. Students should contact the Financial Aid Office, other sources of funding, Office of International Education and/or their graduate advisor to verify enrollment requirements before registering for this course. This course may only be taken twice. Students who do not complete all graduation requirements while enrolled in this course must enroll in a minimum of 6 dissertation hours (6699 or 6999) in their graduation term. Graded P/R.
Department of Graduate Nursing

MSN Programs (Nurse Practitioner, Nurse Educator, Nurse Administrator, Post Master’s Certificate)

Our master's specialty degree prepares students for advanced practice, education and management and research endeavors to address a change in health care landscape. Both full-time and part-time study options are available as well as online and classroom-based programs.

ADMISSION REQUIREMENTS

The applicant for the Master of Science in Nursing (MSN) degree must meet the general requirements of Graduate Admissions.

The College of Nursing and Health Innovation admission criteria are detailed in the MSN Graduate Admission table below. The admission status options are described below.

Unconditional Admission

Applicants must meet all criteria for unconditional admission.

Probationary Admission

Criteria for probationary admission status and minimum GRE scores are listed in the MSN Graduate Admission table below. When admitted on probation, a student must maintain a 3.0 GPA in the first two semesters of enrollment in the graduate program. Probationary students are admitted for part-time study only.

Provisional Admission

An applicant unable to supply all required documentation prior to the admission deadline but who otherwise appears to meet admission requirements may be granted provisional admission.

Deferred Status

Deferred decision is granted when a file is incomplete or when a denial decision is not appropriate.

Denial of Admission

An applicant will be denied admission if they have less than satisfactory performance on a majority of admission criteria listed in the MSN Admission Table.

MSN Graduate Admission Table (Nurse Practitioner, Nurse Educator, Nurse Administrator, Post Master’s Certificate)

<table>
<thead>
<tr>
<th>Admission Criteria</th>
<th>Unconditional</th>
<th>Probationary</th>
</tr>
</thead>
<tbody>
<tr>
<td>GPA</td>
<td>3.0\textsuperscript{a} on last 60 hours of courses of the bachelor's degree program (as calculated by Graduate Admission of UTA) for MSN students. 3.0 GPA in master’s degree program for post-master’s certificate students.</td>
<td>2.8-2.99\textsuperscript{a,b} for MSN students</td>
</tr>
<tr>
<td>GRE\textsuperscript{a} Two highest GRE scores will be used in admission process</td>
<td>Not required</td>
<td>Verbal: 430 or 149\textsuperscript{2} or Quantitative: 430 or 141 or Analytical Writing: 3.5 Analytical: 430</td>
</tr>
<tr>
<td>TOEFL iBT (Test of English as a Foreign Language) or IELTS (International English Language Testing System)</td>
<td>The minimum acceptable scores for the TOEFL iBT and IELTS comply with the graduate admission requirements for The University as stated in the Graduate Catalog.</td>
<td>The minimum acceptable scores for the TOEFL iBT and IELTS comply with the graduate admission requirements for The University as stated in the Graduate Catalog.</td>
</tr>
<tr>
<td>Clinical Experience</td>
<td>1. Two years clinical experience as a Registered Nurse (RN) is required for the MSN in Psychiatric Mental Health NP specialty, Nursing Education, Nursing Administration and Nursing Health Informatics.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>2. For all high-acuity MSN NP Programs, (Acute Care Pediatrics and Adult Gerontology Acute Care), two years clinical experience as an RN in an acute care setting within the previous five (5) years is required. (Evaluated by the Associate Dean and/or designee.)</td>
<td></td>
</tr>
</tbody>
</table>
3. For the Neonatal NP Program, two (2) years full time clinical experience as an RN in a Level III or IV NICU within the previous five (5) years and current employment (minimum of one shift per week) in a Level III or IV NICU. (Evaluated by the Associate Dean and/or designee).

4. For the MSN in Adult Gerontology Primary Care, Family and Primary Care Pediatrics, no experience is required.

5. International students are required to have two years RN clinical experience in a healthcare system in the United States (or equivalent).

6. Two years clinical experience as an RN in an acute care setting within the previous five (5) years is required for admission to the dual Adult Gerontology Acute and Primary Care Nurse Practitioner track.

7. Two years of clinical experience as a RN in an acute care setting within the previous five (5) years is required for admission to the dual Pediatric Acute and Primary Care Nurse Practitioner track.

Current and unencumbered RN License from Texas, a compact state, or other state board of nursing\(^5\) Evaluated by Associate Dean or designee

Neonatal Resuscitation Program (NRP) Required only for the Neonatal Nurse Practitioner Program.

Pediatric Advanced Life Support (PALS) Required only for the Acute Care Pediatric Nurse Practitioner Program; Neonatal NP applicants may complete the NRP (Neonatal Resuscitation Program).

BSN from ACEN or CCNE Accredited Program Evaluated by Associate Dean or designee

MSN from an Accredited Program For post-master’s certificate students only.

Undergraduate Level Statistics Minimum grade of “C”

Cardiopulmonary Resuscitation Required for all programs.

\(^1\) Minimum undergraduate GPA requirement for unconditional admission is a 3.0 on a 4.0 scale as calculated by Graduate Admissions.

\(^2\) If a person does not meet probationary admission requirements, he or she may request review by a Committee of the Graduate Nursing Faculty. The Committee may request completion of coursework and/or additional information to support the individual’s petition for admission.

\(^3\) If admitted on probation, a student must maintain a 3.0 GPA in the first two semesters of enrollment in the graduate program. Probationary students are admitted for part-time study only.

\(^4\) Verbal, Quantitative, and Analytical Writing GRE scores will be reviewed and the two highest scores will be considered for the admission process.

\(^5\) All graduate nursing students must have an unencumbered Registered Nursing License as designated by the Board of Nursing (BON) for clinical courses. It is imperative that any student whose license becomes encumbered by the BON must immediately notify their department chair. The complete policy regarding encumbered RN license is available on the Department of Graduate Nursing website (https://www.uta.edu/academics/schools-colleges/conhi/academics/grad-nursing/) under Clinical Requirements.

\(^6\) For applicants with an undergraduate GPA of 2.8-2.99 on the last 60 hours, but have completed a graduate level degree following the BSN, the GRE is not required.

\(^7\) If a student has master’s level coursework, we will consider the information in the review of the applicant.

References or Letters of Recommendation are not required for admission into the MSN Program.

Admission Policy for Individuals Ineligible to Continue Graduate Study

Applicants who are on academic probation or who are ineligible to continue graduate study at another university are ineligible for admission. However, applicants may submit a petition to be reviewed by a Committee of the Graduate Nursing Faculty.

The committee will make a decision regarding admission based on the following:
a. GPA on the last 60 hours of BSN, graduate GPA, GRE scores (if applicable), and English language score (if applicable);
b. Official transcripts from BSN and all universities attended following completion of BSN;
c. A narrative statement from the potential student providing a rationale for their ineligibility in the previous program;
d. A letter of reference from a graduate faculty in the previous program; and
e. A plan for successful study at UT Arlington.

The admission committee reserves the right to ask for additional materials as needed. The committee will make its recommendation regarding admission to the Associate Dean or their designee of the Graduate Nursing Programs.

**Post BACCALAUREATE Certificates**

Applicants must meet the admission criteria for the MSN degree program in which they are applying and have a bachelor's degree in nursing from a program accredited by the Accreditation Commission for Education in Nursing (ACEN) or the Commission on Collegiate Nursing Education (CCNE) or proof of equivalent education at a foreign institution.

**POST MASTER’S CERTIFICATES**

Applicants must meet the admission criteria for the MSN degree program in which they are applying and have a master’s degree in nursing from a program accredited by the Accreditation Commission for Education in Nursing (ACEN) or the Commission on Collegiate Nursing Education (CCNE) or proof of equivalent education at a foreign institution. Applicants applying for the Post Master’s Certificate in Administration may have coursework from an MBA program considered.

**RN to MSN Program**

The RN to MSN program will enable outstanding undergraduate students who are registered nurses to satisfy degree requirements leading to a master’s degree (MSN) in Nursing Administration, Nursing Education, or Family Nursing Practice while completing their undergraduate studies through the RN to BSN online program. The RN to MSN online program is designed to encourage outstanding registered nurses to complete a master’s degree at UT Arlington. It is also intended to decrease the cost of the combined degree and save time for students seeking the BSN and MSN degrees.

**ADMISSION REQUIREMENTS**

Registered nurses holding an associate’s degree in nursing may apply for the RN to MSN program. All applicants must meet the admission criteria prior to being accepted into the graduate program, including completion of all non-nursing courses required for the BSN with the exception of the 6 hours of electives.

The criteria for unconditional admission to the RN to MSN require that applicants meet the standards for graduate admissions as follows:

- Current licensure as a registered nurse (RN)
- Two-years of experience as an RN for the Nursing Administration and Nursing Education program. No RN experience is required for the Family Nurse Practitioner program
- Undergraduate prerequisite courses completed
- Admission GPA of 3.0 or higher

Students who are not admissible under the conditions specified above shall be denied admission to the Fast Track program. However, they may apply to the RN to BSN program via the regular application process, paying all required fees and meeting all admission criteria. Admission will not be automatic as it will be subject to the normal admission practices of the program to which application is made. Upon completion of the RN to BSN program, the graduate can apply for the master’s program in nursing through the regular application process and must meet all admission criteria.

**DNP Program**

The Doctor of Nursing Practice Program builds on a foundation of previous advanced practice education in nursing and prepares advanced practice nurse providers who demonstrate leadership, clinical expertise and innovation in problem recognition and resolution. The required courses identified for the DNP curriculum meet the American Association of Colleges of Nursing Essentials for Doctoral Education for Advanced Nursing Practice (AACN, August 2006). Our innovative DNP Program prepares clinical and research leaders to advance nursing and improve health care in our local community and around the world. This program is offered with two formats: accelerated online asynchronous and traditional semester online with synchronous online classes.

**ADMISSION REQUIREMENTS**

The applicant for the Doctor of Nursing Practice (DNP) degree must meet the general requirements of Graduate Admissions. Applicants with an MSN which prepares them for a role in advanced nursing practice as defined in The Doctor of Nursing Practice: Current Issues and Clarifying Recommendations paper, Published by AACN in 2015, are eligible for admission.

The UTA Doctor of Nursing Practice (DNP) Program is open to individuals who have completed their program at an institution accredited by the Commission on Collegiate Nursing Education (CCNE), Accreditation Commission for Education in Nursing (ACEN), National League for Nursing
Commission for Nursing Education accreditation (NLN-CNEA), or an equivalent accrediting body, including Board certified Advanced Practice Registered Nurses (APRNs), Nurse Practitioners (NP); Nurse Midwives (CNM); Certified Registered Nurse Anesthetist (CRNA); Clinical Nurse Specialists (CNS); and Nurse Administrators who completed a Master's of Science in Nursing with a Nursing Administration specialty (MSN-ADM).

Master Nursing Education Degree is not eligible for the DNP program.

The DNP Program does not accept course transfers from other DNP programs. All required courses must be completed at UTA.

The College of Nursing and Health Innovation admission criteria are detailed in the DNP Graduate Admission Table below. The admission status options are described below.

Unconditional Admission
Applicants must meet all criteria for unconditional admission.

Probationary Admission
3.0 to 3.49 on a 4.0 scale

Provisional Admission
An applicant unable to supply all required documentation prior to the admission deadline but whom otherwise appears to meet admission requirements may be granted provisional admission.

Deferred Status
Deferred decision is granted when a file is incomplete or when a denial decision is not appropriate.

Denial of Admission
An applicant will be denied admission if they have less than satisfactory performance on a majority of admission criteria listed in the DNP Graduate Admission Table.

<tr>
<td>APRNs: Current certification by an APRN national certifying board with unencumbered APRN license in any U.S. State or Territory. Students will need to submit a copy of active certification during admission as evidence of clinical hours.</td>
<td>Evaluated by the Associate Dean or designee.</td>
<td></td>
</tr>
</tbody>
</table>
Administrators: Current National certification as a Nurse Administrator preferred. Applicants must submit a completed and signed practice/clinical hour verification form with school seal or a certified letter on university letterhead verifying the number of MSN clinical/practice hours completed during the program of study. Evaluated by the Associate Dean or designee.

Current NP practice or current Nurse Administrator practice. Evaluated by Admissions Committee.

Current CPR, ACLS, or PALS if required for their Specialty Area. Evaluated by the Associate Dean or designee.

Immunizations required by the College of Nursing. Evaluated by the Associate Dean or designee.

Clear criminal background check, which satisfies the Dallas/Fort Worth Hospital Council and the Texas Board of Nursing. Evaluated by the Associate Dean or designee.

Negative drug screen prior to clinical and research activities in health care agencies. Evaluated by the Associate Dean or designee.

Practice Hours: A minimum of 1000 clinical practice hours are required for the UTA Doctor of Nursing Practice program. Up to 500 clinical/practice hours obtained during the student's MSN program may be applied to the 1000 post-bachelors practice hours. Evaluated by the Associate Dean or designee.

1 All DNP Program NP students must have an unencumbered APRN and RN license as designated by the Board of Nursing (BON) for clinical courses. It is imperative that any student whose license becomes encumbered by the BON must immediately notify the Associate Dean for the Graduate Nursing Programs. The complete policy regarding encumbered RN license is available online in the DNP student handbook (https://cdn.web.uta.edu/-/media/project/website/corhi/documents/ignurs/dnp_student_handbook.ashx?revision=d9f21e70-71de-47d0-a24f-1c2220c86766).

2 GPA of 3.5 or higher in an earned master's degree in nursing (Master of Science, Master of Arts, Master of Science in Nursing) or a postmaster's Nurse Practitioner (NP) or Nursing Administration (Admin) Certificate from a program or school accredited by the National League for Nursing Accrediting Commission (NLNAC), the Commission on Collegiate Nursing Education (CCNE), or equivalent accrediting body.

Admission Policy for Individuals Ineligible to Continue Graduate Study at Another University:
If potential students are ineligible to continue graduate study at another university and apply to The University of Texas at Arlington DNP Program, they may request to be reviewed by an admission committee. The admissions committee will be composed of (at a minimum):

a. Two representative faculty, and
b. DNP Graduate Advisor

The Admissions Committee will make their recommendation for admission or denial based on the following:

a. Admission materials (GPA on the Master in Nursing or Post-Master's certificate, grade of B or higher in graduate statistics, current vita, and English language score if applicable);

b. A narrative statement from the potential student providing a rationale for their ineligibility at another university; and

c. A plan for successful study at UT Arlington.

The committee reserves the right to ask for additional materials as needed. The admissions committee will make its recommendation of admission or denial to the Graduate Office for the University.

PhD Program
The Doctor of Philosophy in Nursing Program is built on a foundation of prior nursing education and prepares the student for original research and theory development. The PhD in Nursing Program is designed to prepare nurse scientists to meet the health needs of a rapidly changing and culturally diverse society. The central focus of the PhD in Nursing Program is to prepare researchers and teachers who understand how communities evolve, interact, and change and how they prescribe, understand, and sanction health, illness, and health seeking behaviors.

The PhD in Nursing Program offers two routes of entry: BSN-PhD or MSN-PhD. Potential students should refer to admission criteria below.
ADMISSION REQUIREMENTS

The applicant for the Doctor of Philosophy in Nursing (PhD) degree must meet the general requirements of Graduate Admissions and have a Bachelor's degree in Nursing (BSN-PhD entry) or a Master of Science in Nursing degree (MSN-PhD entry) from a program accredited by the Accreditation Commission for Education in Nursing (ACEN) or the Commission on Collegiate Nursing Education (CCNE) or proof of equivalent education at a foreign institution. Applicants must submit to the Office of Graduate Admissions official transcripts from each college or university attended.

PhD Admission Status Options

The College of Nursing admission criteria are detailed in the PhD Program Requirements table below. The admission status options are described below.

Unconditional Admission

Applicants must meet all criteria for unconditional admission.

Probationary Admission

Criteria for probationary admission status are designated in the PhD Program Requirements table below. When on probation, a student must maintain a 3.0 GPA in the first two semesters of enrollment in the graduate program.

Provisional Admission

Applicants who are unable to supply all required documentation prior to the admission deadline but who otherwise appear to meet admission requirements may be admitted provisionally.

Deferred Status

Deferred decision is granted when a file is incomplete or when a denied decision is not appropriate.

Denial of Admission

An applicant will be denied admission if he/she has less than satisfactory performance on a majority of admission criteria listed in the table below. The PhD Admissions Committee will make a recommendation for denial.

1 A student on probation must maintain a 3.0 GPA in the first two semesters of enrollment in the graduate program.

2 A new goal statement and a new interview are required with every application.

Health Insurance Coverage

All UT Arlington nursing students enrolled in clinical course(s) will be required to provide verification of medical insurance coverage that includes Emergency Department evaluation and follow-up treatment for needle-stick and blood borne disease exposure. This mandatory clinical requirement has been authorized by The University of Texas System Board of Regents.

As such, UT Arlington will not cover initial and follow up treatment for needle-stick injuries and/or exposure to blood borne diseases which may occur while students are enrolled in clinical courses.

While the UT Arlington College of Nursing and Health Innovation recognizes the financial impact this clinical requirement presents for students, we also support the need for students to have health coverage for sudden illness, accidents, emergencies and exposure treatments that may occur in the clinical setting in a variety of clinical agencies.

Fees

Course fee information is available at www.uta.edu/fees. Additional costs beyond tuition, fees and books that may be incurred by a nursing student will include those items listed on the CONHI website. In addition, some clinical agencies charge a nominal fee for parking passes.

E-mail Accounts

Each student will be provided a UT Arlington e-mail address. Official communications from the College of Nursing will be distributed to this e-mail address and learning management system accounts required by many courses. Students will be held responsible for information distributed in this manner.

MSN Degree Requirements

A degree plan is developed for the student upon admission to the MSN Program. Students are required to have any changes in degree plan approved by a Graduate Academic Advisor prior to registration. A minimum of 34 semester hours, thesis or non-thesis option, is required for the degree. Elective coursework that supports the selected nursing study area must be approved by a Graduate Academic Advisor prior to registration. Students electing the thesis option do not have elective course requirements.

MSN students must complete hours in required courses, nursing specialty area, functional role, and elective(s) depending on specific plan.

RN to MSN (p. 1190)

Students who have successfully met the criteria for the RN-MSN undergraduate portion of the program, will be allowed to take two designated graduate courses that can be used to replace 6 hours of upper-division electives in the BSN program. The 6 hours of graduate courses will be counted toward both degrees.

Continuing in the RN to MSN program requires a 3.3 GPA on the three indicator courses. Students who make a 3.3 GPA in the indicator courses and maintain 3.0 each semester are eligible to take the graduate courses when the student is within 12 hours of completing BSN courses. The student completes a short form to indicate the desire to continue in the RN to MSN program and take the graduate courses. There is no need to apply for graduate admission; the graduate application fee and essay are not required. The hours required for them to complete their BSN degree will be adjusted to include the two MSN courses that are replacing upper division electives.

When students complete their undergraduate degree requirements, they may apply for conferral of the BSN degree, while continuing in the RN to MSN program. They will subject to the usual fees for graduation and diplomas. When the student has applied for conferral of his/her undergraduate degree, the responsibility for advising the student will be transferred to a graduate advisor within the College.

Dual Degree Programs

Nurse Practitioner Dual Adult Gerontology Acute and Primary Care Program

The Adult Gerontology Dual Nurse Practitioner Program prepares students to the acute and primary care nurse practitioner roles. This program provides one with an expanded scope of practice and upon graduation students are eligible for national certification and licensure in both roles.

Applicants must meet the admission criteria for the Master of Science in Nursing, including a minimum of 2 years of RN experience, within the last 5 years, in an acute care setting. Students may not transfer into this program without having the required RN experience.

Nurse Practitioner Dual Pediatric Acute and Primary Care Program

The Pediatric Dual Nurse Practitioner Program prepares students in the acute and primary care nurse practitioner roles. This program provides one with an expanded scope of practice and upon graduation students are eligible for national certification and licensure in both roles.

Applicants must meet the admission criteria for the Master of Science in Nursing, including a minimum of 2 years of RN experience, within the last 5 years, in an acute care setting. Students may not transfer into this program without having the required RN experience.

NURS 5373  PEDIATRIC ACUTE CARE CLINICAL PRACTICE 1  3
NURS 5374  PEDIATRIC ACUTE CARE CLINICAL PRACTICE 2  3
NURS 5680  PEDIATRIC ACUTE CARE NP ADVANCED PRACTICUM  6
NURS 5685  PEDIATRIC PRIMARY CARE NP ADVANCED PRACTICUM  6

Total Hours  45

Electives/Independent Study

Elective courses may be taken in Nursing or other departments of the University. Electives can also be transferred from other universities with the approval of a Graduate Advisor. Independent study offers the student the opportunity to explore topics of special interest.

DNP Degree Requirements

A degree plan is developed for the student upon admission to the DNP Program. Students are required to have any changes in planned program approved by the DNP Graduate Advisor prior to registration. The DNP Program includes 36 semester hours of required courses. Students will complete a Scholarly Project and Clinical Practica.

DNP Required courses

NURS 6327  CLINICAL SCHOLARSHIP TO IMPROVE HEALTHCARE OUTCOMES  3
NURS 6320  LEADERSHIP IN HEALTH CARE SYSTEMS  3
NURS 6307  POPULATION HEALTH  3
NURS 6322  TRANSLATIONAL RESEARCH  3
NURS 6324  CLINICAL INFORMATION SYSTEMS  3
NURS 6323  EVIDENCE APPRAISAL  3
NURS 6326  PROJECT PROPOSAL DEVELOPMENT  3
NURS 6382  HEALTH CARE POLICY  3
NURS 6620  DNP PRACTICUM I  6
NURS 6621  DNP PRACTICUM II  6

Total Hours  36

DNP Project Proposal:

This applies to students who have passed NURS 6326. To ensure timely completion of the degree program, a student unable to implement their planned project will be enrolled in DNP Practicum 6331 to have faculty supervision for developing a new project proposal. Students will be able to start earning practicum hours up to a maximum of 180 hours and will complete a project proposal to be implemented in NURS 6620. It is the student’s responsibility to notify the DNP program director and Academic Adviser if they have lost their job or otherwise are unable to complete the project at their work site.

PhD Degree Requirements

Students are required to have each semester’s planned program approved by the Graduate Advisor prior to registration. A minimum of 45 semester hours is required for the degree.

BSN-to-PhD Students will complete all PhD requirements.

PHD REQUIRED COURSES (CORE)

NURS 6301  THEORY IN NURSING SCIENCE  3
NURS 6302  ISSUES IN STUDYING THE HEALTH OF CULTURALLY DIVERSE AND VULNERABLE POPULATIONS  3
NURS 6304  MEASUREMENT IN CULTURALLY DIVERSE AND VULNERABLE POPULATIONS  3
NURS 6305  QUALITATIVE RESEARCH  3
NURS 6306  RESEARCH DESIGN  3
NURS 6308  STATE OF THE SCIENCE: BACKGROUND IN RESEARCH  3
NURS 6318  PARAMETRIC STATISTICS FOR HEALTHCARE RESEARCH  3
NURS 6319  PSYCHOMETRIC AND NONPARAMETRIC STATISTICS FOR HEALTHCARE RESEARCH  3
NURS 6381  RESEARCH PRACTICUM  3
NURS 6382  HEALTH CARE POLICY  3
Individual Area of Study by independent study or other selected graduate level courses  6
Dissertation  9
Total Hours  45

Dissertation

NURS 6399  DISSERTATION  3
NURS 6699  DISSERTATION  6
NURS 6999  DISSERTATION  9
NURS 7399  DOCTORAL DEGREE COMPLETION  3

1 Graded R/F
2 Graded R/F/P

ELECTIVES / INDEPENDENT STUDY

Elective courses may be taken in an area of concentration in other departments.

NURS 6170 & NURS 6270 & NURS 6370 & NURS 6470  INDEPENDENT STUDY IN NURSING  10
NURS 6190 & NURS 6290 & NURS 6390 & NURS 6490  SPECIAL TOPICS IN NURSING  10

1 Graded P/R/F

ACADEMIC STANDING

To graduate from the PhD program, the student must have a 3.0 GPA.

a. Student who does not earn at least a B in a course or independent study is required to submit to graduate advisor an evaluation of his or her engagement in the course, reason for less than satisfactory performance, and plan to acquire knowledge and skills to continue.

b. Student who earns a second course or independent study grade that is C or lower will be dismissed from the program

PROGRAM MILESTONES

Diagnostic Evaluation

Before the completion of the first 18 hours beyond appropriate master’s level coursework to assess progress and potential for completion

Comprehensive Examination

Examination scheduled no earlier than during the last nine hours of coursework. It may also be scheduled after all coursework and research tools are completed. Guidelines for the comprehensive examination are available in the PhD Student Handbook.

Proposal Defense

Dissertation Committee reviews the study proposal and meets with the student privately to approve or not approve the proposal.

Dissertation Defense

Open meeting during which student presents study findings and responds to questions posed by the dissertation committee and other attendees. Successful defense of the dissertation is the final step toward completion of the doctoral degree.
BSN-to-PhD Master’s Level Courses

Students accepted into the BSN-to-PhD entry option will work with an advisor to develop individualized degree plans based on their career goals and research interests. Students will complete 12 hours of core master’s courses and an additional 10-18 hours of master’s coursework based on their area of focus.

Total Hours 12

Post-Master’s Certificate Requirements

Post-Master’s Certificate applicants must meet the admission criteria for the MSN degree program in which they are applying and must complete the required courses for the nursing specialty area and functional role.

POST-MASTER’S NURSING ADMINISTRATION CERTIFICATE

Post-Master’s Certificate applicants must complete the required courses included in the Master of Nursing Administration graduate degree program. The Post Master’s Nursing Administration Certificate enables individuals with a master’s degree in Nursing to advance in professional roles of nursing administration as well as provide a pathway toward doctoral programs in nursing practice.

The MSN Administration core courses may be taken in the Accelerated Online format only, or an equivalency course with credit hours transferred to UTA. Required courses will be determined by a Gap Analysis completed by the program director.

Department of Undergraduate Nursing

Bachelor of Science in Nursing (BSN)

The undergraduate nursing degree consists of two programs: Prelicensure BSN and post-licensure RN to BSN or RN to MSN. We offer two delivery options: traditional Campus-based (CB) Program and Accelerated Online (AO) Program. The Accelerated Online Program (AO BSN and AO RN-BSN) is an online format developed by UT Arlington’s College of Nursing and Health Innovation to serve nurses in Texas and beyond by offering high quality, affordable, and convenient nursing programs. AO outside of Texas is for the RN to BSN or RN to MSN students only. As there are some differences in policies between the programs, there may also be differences between the CB program and the AO Program; those will be noted throughout the catalog.

The faculty of the College of Nursing and Health Innovation takes academic honesty and ethical behavior very seriously. Nurses are entrusted with the health, safety, and well-being of the public. Students found guilty of academic dishonesty will be punished to the full extent permitted by the rules and regulations of UT Arlington.

BSN PRELICENSURE PROGRAM

This is a program consisting of nursing courses, university core courses and other required prerequisite courses. Upon successful completion of the program, the student is awarded the Bachelor of Science in Nursing degree and is eligible to take the National Council Licensure Examination (NCLEX) for licensure as a Registered Nurse. The BSN Prelicensure program is a competitive admission, limited-access program offered as a campus-based or accelerated online option.

RN TO BSN PROGRAM

This program is designed for Registered Nurses who have completed an accredited Associate Degree or Diploma nursing program. Full-time students may complete the Upper-Division nursing courses in one academic year. Upon successful completion of the program, the student is awarded the Bachelor of Science in Nursing degree. This program is not limited-access and is offered as a campus-based or accelerated online option.

RN TO MSN PROGRAM (NURSING ADMINISTRATION, NURSING EDUCATION OR NURSE PRACTITIONER)

The RN to MSN program is an option for RNs who want to move seamlessly between the RN to BSN program and the MSN program. The university calls this a Fast-Track program. The Fast-Track RN to MSN program will enable outstanding undergraduate students who are registered nurses to satisfy degree requirements leading to a Bachelor of Science in Nursing (BSN) and master’s degree (MSN) in Nursing Administration, Nursing Education or Nurse Practitioner.

UNDERGRADUATE OUTCOMES - FOR THE BSN DEGREE

The University of Texas at Arlington Undergraduate Nursing Program leading to the Bachelor of Science in Nursing prepares graduates to provide professional nursing care to persons/clients (individuals, families, groups, and communities) in diverse settings through the roles of provider of care, coordinator of care, and member of the profession.

On completion of the BSN degree, the graduate will be able to:

- Integrate foundational knowledge to apply the art and science of nursing by providing evidence-based care in delivering competent, culturally sensitive, and developmentally appropriate holistic care.
- Demonstrate person-centered care using analytical, systematic, nursing clinical judgment in delivering competent, culturally sensitive, and developmentally appropriate holistic care.
- Ethically apply public health knowledge across the age continuum through patient advocacy and interdisciplinary collaboration by coordinating resources to protect the health and safety of diverse patient populations.
- Integrate scholarly research knowledge, evidence-based practice, and theory into nursing policy and practice to provide innovative care for individuals, families, and communities.
- Utilize standards of practice to provide safe nursing care in all patient care settings while promoting quality improvement, minimizing risk, and preventing errors to patients, self, and others, with an awareness of the nursing role within the interprofessional team.
- Communicate, collaborate, and delegate respectfully and effectively to promote and maintain diversity, equity, inclusion, and belonging for optimal health outcomes.
- Integrate the principles of organizational structure in healthcare systems and coordinate resources to provide cost-effective, safe, quality, and equitable care to diverse populations.
- Utilize informatics and advanced technology to integrate concepts of electronic health, mobile health, and telehealth systems in planning, implementing, and evaluating patient-centered care.
- Apply the principles of ethical/legal behavior, collaborative practice, accountability, and patient advocacy while integrating diversity, equity, inclusion, and belonging into the development of nursing professional identity.
Demonstrate personal, professional, and leadership growth by applying self-reflection of one’s practice that fosters self-care behaviors that promote wellness, lifelong learning, resiliency, knowledge, and expertise.

BSN Prelicensure Program

CORE PERFORMANCE STANDARDS FOR ADMISSION AND PROGRESSION IN BSN PRELICENSURE PROGRAM

It is the philosophy of the University of Texas at Arlington College of Nursing and Health Innovation that the Undergraduate Nursing Program is designed to prepare a competent, self-directed, general practitioner of nursing who can assume increasing responsibility and leadership in the delivery of nursing care. In consideration of the preparation of a general practitioner, all individuals who apply for admission and are enrolled in the BSN Prelicensure Program must be able to perform the essential functions of a student of nursing.

The College of Nursing and Health Innovation has identified essential nursing skills: communication, cognitive, motor, and sensory, observation, tactile, hearing, smell, psychomotor and ethical and professional integrity. The student enrolled in the program must demonstrate mastery of these components. Because providing direct patient care is physically demanding, students need to meet the physical requirements of a staff nurse in the same setting in which they are completing a clinical rotation. Upon BSN program acceptance, students must attest to their ability to meet these standards with or without an accommodation. If at that time a student requests an accommodation, the Student Access & Resource Center (SARC) and the CONHI must determine if the accommodation is reasonable PRIOR to the student beginning Upper-Division coursework.

If a student requires an accommodation to meet these standards, the student must initiate the review process with SARC within five (5) business days of being accepted to prevent a delay in the start of the program.

Qualified applicants are admitted without discrimination with regard to race, color, national origin or ancestry, gender, age, religion, sexual orientation, veteran status, or disability (reasonable accommodations will be made within the Americans with Disabilities Act guidelines).

More detailed information related to the core performance standards is available in the Undergraduate Nursing Program Policy Library (https://cdn.web.uta.edu/-/media/project/website/conhi/documents/unurs/bsn_student_handbook.ashx?revision=5a3d6773-b0aa-4557-bc77-1e795e79ffbd).

ADMISSION REQUIREMENTS

Students may be admitted to UT Arlington upon meeting the admission requirements established by the University. Official transcripts must be submitted to the UT Arlington Office of Admissions.

The BSN Prelicensure program is a competitive admission program; students interested in admission to the BSN Prelicensure program will be placed in the Nursing and Health program—a preparatory health professions program designed to prepare students for application to the Undergraduate Nursing Program (BSN Nursing) or admission to the Public Health Program (BS Public Health). Nursing and Health students will be advised by the CONHI Office of Enrollment and Student Services.

NOTE: All freshmen are advised by the University Advising Center. A designated CONHI advisor will advise students in the Freshman Nursing Scholars and Maverick Nursing Scholars Programs.

Students applying for admission to the BSN Prelicensure Program leading to the degree of Bachelor of Science in Nursing must:

• Submit a BSN Prelicensure application and official transcripts by January 15 for following fall semester or June 1 for following spring semester.
• Complete with a C or better all specified nursing preparatory courses in the Nursing and Health curriculum (NURS 3364 Introduction to Professional and Clinical Concepts in Nursing and NURS 3366 (https://catalog.uta.edu/search/?P=NURS%203366) Pathophysiologic Processes: Implications for Nursing) prior to starting Junior I nursing courses. (See Nursing and Health curriculum for details.) NURS 3366 (https://catalog.uta.edu/search/?P=NURS%203366) must be taken within 3 years of starting the nursing program.
• Complete all 5 Natural Sciences.
• Have two GPAs calculated: science and overall prerequisite.
• Have minimum science and prerequisite GPAs of 2.75.
• Completion of designated sections of the Test of Essential Academic Skills (TEAS) with a score in the proficient range (58.7 - 77.3) for each of the following sections:
  • Reading
  • Math
  • Science
  • English and Language Usages

Admission to the BSN Prelicensure program is by ranking order based on space availability. A student who accepts their spot but decides not to start will get 2 (two) times to do this before they must wait 1 year (two application cycles) to reapply.

Additional consideration will be given to applicants who complete the following by the application deadline:
• Thirty (30) or more required prerequisite lower division credit hours earned at UT Arlington
• Twelve (12) or more required prerequisite lower-division natural science credit hours earned at UT Arlington.
• Nine (9) hours of UT Arlington ROTC courses (Must be active in ROTC) (Campus-based only)
• Previous baccalaureate, masters or doctorate degree earned in the United States or international degree approved by UTA Office of Admissions.
• Veteran, including Reservist and National Guard
• First-time full-time freshman: all four Natural Sciences and the identified Nursing preparatory courses in the Nursing and Health curriculum are completed at UTA. NURS 3364 Intro to Professional Nursing and NURS 3366 (https://catalog.uta.edu/search/?P=NURS%203366) Pathophysiologic Processes: Implication for Nursing must be completed by application deadline.
• Students who have completed non-expired Pathophysiology (NURS 3366) course on their first attempt with an earned grade of B or higher by the application deadline will receive an additional consideration.

NOTE: Students entering the AO BSN program must complete the full Nursing and Health curriculum including the upper-division elective prior to beginning the program. Priority will be given to AO applicants employed by partner hospital systems offering clinical sites during that semester of admission. Partner hospital clinical sites vary each semester. To receive AO priority, an applicant must be employed at the time of application through the first day of class. For consideration, applicants must submit documentation of employment at time of application. Employment at a partner hospital is not a guarantee of admission into the BSN Program.

NURSING AND HEALTH POLICIES

The Nursing and Health policies are updated yearly and can be found on the CONHI website (https://cdn.web.uta.edu/-/media/project/website/conhi/documents/unurs/bsn_pre-lic_ldiv_prereq-and-eligiblity-policies.ashx). Students are expected to understand the policies and procedures prior to enrollment in the program.

TWO-ATTEMPT POLICY

Students must successfully complete the full Nursing and Health curriculum as noted in the plan of study. Specific courses are subject to the Two Attempt policy. Under the Two-Attempt Policy each course taken at UT Arlington and/or any other approved institution may be attempted a maximum of two times to earn a passing grade. By the second attempt a grade of “C” or better must be earned.

• Withdrawals (W) are exempt from this policy.
• Any non-passing grade is valid for a three-year period. At the conclusion of three years, a non-passing grade is no longer considered an attempt.

GRADE IMPROVEMENT POLICY

The Grade Improvement Policy is unique to the BSN Prelicensure program and is used for the selection process only. This policy differs from the BSN Prelicensure program's Two Attempt Policy and from the University’s Grade Replacement, Exclusion, and Forgiveness policies. Grades of C or above may be replaced to improve GPAs for the selection process with the following limitations:

• A limit of four courses may be retaken. The identified Nursing preparatory courses are not eligible for the Grade Improvement Policy.
• All earned grades of C or higher are valid indefinitely.
• The first four courses retaken are the grades used in the selection process. Any courses retaken thereafter are not used in the selection process.
• The higher of the two grades is used in the selection process.
• Withdrawals (W) are exempt from this policy.
• Repeated courses are subject to financial aid restrictions.

UPPER-DIVISION COURSES IN NURSING AND HEALTH PROGRAM

Upper-division Nursing preparatory courses include NURS 3366 (https://catalog.uta.edu/search/?P=NURS%203366) Pathophysiologic Processes: Implication for Nursing, is subject to the Failure of Nursing Preparatory Course Policy.

One failed grade = probationary status with the BSN Prelicensure program indefinitely

Conditions of Probationary Status

• A student who earned a failed grade (D or F) in the term prior to BSN application deadline must re-take the course, pass with a C or better, and have not violated the UT Arlington or College policies to be considered a viable applicant.
• A student who earned a failed grade (D or F) in the term directly following the BSN application deadline may not start the program, even if the course is retaken and passed during the subsequent term. A student is eligible to re-apply for the following application period; however, the failed grade will be used in the selection process.

Two failed grades = inability to continue with BSN Prelicensure program for a period of three years. Upon return, a student is eligible to apply under the conditions of the BSN Prelicensure program Re-entry policy.

Re-entry policy refers to a student who is ineligible to continue a BSN Prelicensure program due to academic failure. This includes a student who was accepted into a prelicensure program and has not completed an Associate Degree in Nursing (ADN) or Bachelor of Science in Nursing (BSN) program.
During this three-year timeframe, a student may not enroll in the University as a BSN Prelicensure student or apply to the BSN Prelicensure program from another major for three years.

CONDITIONS OF RE-ENTRY

• A student must provide a letter from previous nursing school stating program dismissal was for academic reasons.
• Must meet the eligibility requirements of the application requirements and submit a new application by the desired start date application deadline.
• Pathophysiologic Processes: Implication for Nursing, and Pharmacology in Nursing Practice must be re-taken.

CRITERIA FOR READMISSION OF UNDERGRADUATE NURSING STUDENTS

Students who withdraw from the UT Arlington BSN Prelicensure program for more than one semester in good standing who wish to return to complete the program must submit a written request for readmission to the Office of Enrollment and Student Services by the following deadlines:

Returning spring – September 1st Returning summer - March 1st Returning fall - June 1st

• Readmission is dependent upon space availability.
• A student is eligible for readmission to the program only once.
• If a clinical course is to be repeated, the student must repeat both the theory and clinical components of the course.
• Student must repeat the drug screening process.

Time out of the Program:

One semester:

• All of requirements listed above plus:
• Completion of a clinical skills assessment. This assessment will be completed no later than three weeks prior to the start of the semester in which the student is planning to return. The assessment will focus on the skills associated with the last clinical course completed. Input related to skills to be assessed may be sought from faculty in the previous course(s) completed. Should clinical deficiencies be identified, faculty will remediate clinical skill areas that are questionable or inadequate and provide the results to the lead teacher of the course the student is scheduled to enter. Failing to demonstrate adequate clinical skills after three attempts will result in the student being required to retake the last clinical course taken to re-establish clinical competency.
• If the student is in the AO BSN program, he/she will be required to come to the UT Arlington campus to complete the special skills assessment.

Two Long Semesters CB or Two Semesters AO (based on course availability):

• All of requirements listed above plus:
• Repeat criminal background check.

More than two long semesters CB or Two Semesters AO:

• Not eligible for readmission. Student must apply for admission as a beginning student.

TRANSFER FROM ANOTHER NURSING PROGRAM

Transfer students who have successfully completed prerequisite courses with a C or above and Junior I courses for the BSN Program: Holistic Health Assessment and Clinical Nursing Foundations at another college or university may be eligible to apply to the BSN Prelicensure program. Students who have not completed the required courses will be ranked with the incoming junior class. Admission as a transfer student to the Undergraduate Nursing Program is contingent upon available space. Transfer students must attend orientation. Transfer students ready to start as a Junior 2 can be admitted in either the CB or AO programs.

• Transfer students must transfer all nursing courses and the grade received from those courses.
• No Ds or Fs in nursing courses.

Students must:

• Meet minimum requirements as stated in the published admission requirements.
• Submit a course syllabus and a content outline of the course(s) to the Office of Enrollment and Student Services. If the course is a clinical course, a list of nursing skills learned in the course(s) must also be submitted.
• The lead teacher in the course, using the Field of Study Criteria Guidelines and other criteria related to the course, will review courses provided by the student for substitution of UT Arlington courses. Faculty may request additional information to clarify their decision. The course is then accepted as a substitution for a core nursing course, as an elective, or denied.
• Submit a letter from previous school stating that the student is in good standing.
• Meet minimum 2.75 GPA in the prerequisite natural science and prerequisite lower-division courses.
• Meet application deadlines of:
• March 1 - Fall Semester
• September 1 - Spring Semester

Processing of the transfer admission review will not be initiated until the student has also applied to the BSN Prelicensure program in the College of Nursing and Health Innovation.

ORIENTATIONS

All students are required to complete the general online orientation in the Learning Management System and attend the mandatory in-person orientation held prior to the fall and spring semesters.

Clinical orientation is mandatory for all Undergraduate Nursing students, as established by the Dallas/Fort Worth Hospital Council. Undergraduate Nursing students are required to complete the Standard Hospital Student Orientation annually. Clinical requirements must be valid through the entire semester. If the annual orientation will expire during the current semester, it must be updated.

SPECIAL PARAPHERNALIA/EQUIPMENT REQUIREMENTS

All students enrolled in the CONHI must have internet access and a laptop computer meeting minimum computing recommendations. A list of computer specifications is outlined on the CONHI website (https://www.uta.edu/conhi/). Students may be asked to purchase and download software to meet course and/or program requirements.

Smart Phone or similar device highly recommended.

IMMUNIZATIONS

The UT Arlington CONHI standards require that all students in the BSN Prelicensure program complete immunizations by the time of acceptance.

Students are encouraged to start the immunization process one year before applying to the BSN Prelicensure program.

Program eligibility is dependent upon valid documentation submitted and approved at the time of program acceptance.

View the website (https://www.uta.edu/academics/schools-colleges/conhi/academics/undergrad-programs/imm-prelic/) for more information on the vaccines, titers and valid documentation options.

If you know you will be applying to our BSN Prelicensure program within the next year, you will need to start these now because some will take up to 6 months to complete.

To be eligible to start the program, you will need to submit valid documentation that you have completed the following by Friday of the 2nd full week in March for Fall starts or Friday of the 2nd full week in September for Spring starts.

View the website (https://na01.safelinks.protection.outlook.com/?url=http%3A%2F%2Fwww.uta.edu%2Fconhi%2Fstudents%2Fimm-prelic%2Findex.php&data=02%7C01%7Chwoods%40uta.edu%7C24d15f45992841752c3708d6605814f0%7C5c5d5b43d7be4eaa8173729e3b0a62d9%7C0%7C0%7C636802328753838757&sdata=RrfP6ezM2%2B0xUuc199999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999999
DRUG SCREEN POLICY
All students accepted to the BSN Prelicensure AO or CB programs will complete a drug screen.

At any time if there is a confirmation of a positive drug screening, the student will be removed from clinical courses for a period of one calendar year. Upon returning to the program, random drug screenings will be conducted throughout the program. A second positive test will result in immediate dismissal from the nursing program.

Random and/or cause drug screens are at the student’s expense and must be completed as required. Failure/refusal to undergo a drug screen on the designated day will result in immediate dismissal from the nursing program. Full Policy (https://cdn.web.uta.edu/-/media/project/website/conhi/documents/unurs/consubstanceabusepolicyandprocedure.ashx?revision=ac30e000-f708-407a-a6ff-99e006d04491)

CRIMINAL BACKGROUND SCREEN
Accepted students complete two criminal background checks (CBC): Texas Board of Nursing (BON) and a 3rd party provider as designated by CONHI.

Students accepted into the BSN Prelicensure program must complete the Texas BON CBC prior to program application. Students who have completed or are currently enrolled in NURS 3364, Introduction to Professional Nursing, should submit their BON CBC during that course. Students, who have not taken NURS 3364 by the application deadline, should contact CONHladmin@uta.edu, provide the necessary information, give permission to send the information to the BON, and schedule the fingerprinting appointment within one month of the application deadline. Full Policy (https://cdn.web.uta.edu/-/media/project/website/conhi/documents/unurs/cbdeclaratoryorderpolicyguidelines.ashx?revision=078d965-bd24-486e-a567-5a3ff9af61d3)

The second CBC is completed after program acceptance.

A student with a positive criminal background screen will not be admitted into the BSN Prelicensure program without a Declaratory Order from the Texas Board of Nursing stating that the individual has been granted permission to sit for the National Council Licensure Examination for Registered Nurses (NCLEX-RN Examination) upon completion of the requirements for graduation and payment of any required fees. Eligibility to take the NCLEX-RN Examination may be affected by any inaccuracies in the petition, and any subsequent violations of the Nursing Practice Act that may affect eligibility to sit for the examination or the later revocation of a license obtained through misrepresentation.

ELIGIBILITY TO WRITE THE NATIONAL COUNCIL LICENSURE EXAMINATION FOR REGISTERED NURSES (NCLEX RN) - DECLARATORY ORDERS
The Texas Board of Nursing (BON) has set out guidelines and criteria on the eligibility of persons with criminal convictions to obtain a license as a registered nurse. The BON may refuse to admit persons to its licensure examinations, may refuse to issue a license or certificate of registration, or may refuse to issue a temporary permit to any individual who has any criminal offense. Detailed information related to determining eligibility and required processes to determine eligibility for your specific circumstances is available from the Texas Board of Nursing and on their website (https://www.bon.texas.gov/). Students who are unable to obtain clearance from the BON will not be allowed to begin the nursing program.

Once admitted to the BSN Prelicensure program, any student that commits an offense that would require a Declaratory Order will be removed from current and future clinical courses until the Declaratory Order is obtained from the Texas BON and submitted to the College of Nursing and Health Innovation Director of Student Support.

Professional Liability Insurance
Students in the BSN Prelicensure program are required to have evidence of professional liability insurance coverage for a minimum of $1,000,000 limit each claim and $3,000,000 limit aggregate. The charge for coverage will be assessed as a mandatory fee at the time of registration.

FEES
Course fee information is available at www.uta.edu/fees (http://www.uta.edu/fees/). Additional costs beyond tuition, fees and books that may be incurred by a nursing student will include those items listed on the CONHI website. In addition, some clinical agencies charge a nominal fee for parking passes and utilizing their scrubs.

ORAL COMMUNICATION PROFICIENCY REQUIREMENT
Oral proficiency is recognized to be a critical component of providing safe nursing care. In addition to content-specific presentations in various nursing courses, all students in the Undergraduate Nursing program are required to communicate effectively with clients, members of the health care team, and faculty. Contact the Associate Chair of Undergraduate Programs for more information.

E-MAIL ACCOUNTS
Each student will be provided a UT Arlington e-mail address. Official communications from the CONHI will be distributed to this e-mail address and Learning Management System accounts required by many courses. Students will be held responsible for information distributed in this manner.

NURSING COURSE WITHDRAWAL POLICY
Students within the BSN Prelicensure program, enrolled in nursing courses are permitted to drop the course one time. Enrolling (on or after the census date) in a course for a second time is considered an attempt. The grade earned on the second attempt is retained. All drops including academic and
non-academic drops are also considered an attempt. Compassionate withdrawals and withdrawal exceptions will be reviewed on an individual basis by Undergraduate Nursing Appeals Committee.

Students may drop no more than three upper-division NURS courses during their undergraduate career. All drops for academic and non-academic reasons are considered. Drops due to corequisite and prerequisite violations are also counted in this policy.

Students are required to meet with their academic advisor before dropping/withdrawing. All drops are finalized by the BSN Academic Advisors. Exceptions to this policy may be entertained because of extraordinary non-academic circumstances by Undergraduate Nursing leadership. Elective and nursing preparatory courses are exempt from this policy.

**MOVEMENT BETWEEN PROGRAMS**

Movement between the AO and CB BSN Prelicensure programs is at the discretion of program administration. Students will be required to sign a Program Transfer Agreement.

**PRELICENSURE BSN STUDENTS WHO DROP OR FAIL A COURSE**

Prelicensure BSN students who withdraw or fail a course can repeat the course the next available time the course is offered.

AO Students:

- Students who seek readmission after failing or withdrawing for any reason must meet with an academic advisor to discuss clinical and course options.
- If no seats are available, the student will be delayed until a seat is available at a future admission date. See the student handbook [here](https://cdn.web.uta.edu/-/media/project/website/conhi/documents/unurs/bsn_student_handbook.ashx?revision=5a3d6773-b0aa-4557-bc77-1e795e79fbd) for full policy.

"If there are more students than seats available, the students will be placed in the order in which they request the move (first come, first placed)."

**CLINICAL COURSES**

To pass a clinical course, the student must pass both the didactic and the clinical components of that course. Clinical attendance expectations, Clinical Performance Requirements and Evidence of Clinical Competence information can be found in the Undergraduate Student Handbook. [Here](https://cdn.web.uta.edu/-/media/project/website/conhi/documents/unurs/bsn_student_handbook.ashx?revision=5a3d6773-b0aa-4557-bc77-1e795e79fbd).

**CLINICAL ATTENDANCE DURING SCHEDULED UNIVERSITY CLOSINGS**

Some programs in the CONHI, such as the AO BSN Program, may require students to attend clinical on evenings, nights, weekends, or holidays. Students are expected to attend their assigned clinical rotation as scheduled, even when the University is otherwise scheduled for closure, i.e., Spring Break.

**PROGRESSION IN THE UNDERGRADUATE NURSING PROGRAM**

Students in the Prelicensure BSN Program will not be permitted to continue in the program nor to enroll for additional courses if they:

- receive a grade of D or F in more than one required Nursing or Nursing preparatory course, or
- receive any combination of grades of D or F on two attempts of the same course
- score less than 70% on weighted exam or assignment average
- do not meet requirements of the Comprehensive Assessment and Preparation Program [here](https://cdn.web.uta.edu/-/media/project/website/conhi/documents/unurs/capp_procedure.ashx?revision=e4109778-d947-4ae9-8960-9cdb1d306706)
- do not achieve minimum score requirements on Medication Administration Competency Assessment [here](https://cdn.web.uta.edu/-/media/project/website/conhi/documents/unurs/bsn_student_handbook.ashx?revision=5a3d6773-b0aa-4557-bc77-1e795e79fbd)
- receive a Clinical Failure [here](https://cdn.web.uta.edu/-/media/project/website/conhi/documents/unurs/bsn_student_handbook.ashx?revision=5a3d6773-b0aa-4557-bc77-1e795e79fbd)

If a student fails a course, they must take NURS2232 if they have not already taken it.

**HONORS DEGREE IN NURSING**

Nursing students who wish to graduate with an Honors Degree in Nursing must be members of the Honors College in good standing. Students must complete the Nursing degree requirements and the requirements of the Honors College. Contact the College of Nursing and Health Innovation Honors Coordinator for further information. Due to the accelerated nature of the AO program the Honors Degree is limited to students in the Campus-based program.
RN to BSN Program

CORE PERFORMANCE STANDARDS FOR ADMISSION AND PROGRESSION IN THE RN TO BSN PROGRAM

It is the philosophy of the University of Texas at Arlington College of Nursing and Health Innovation (CONHI) that the baccalaureate program is designed to prepare a competent, self-directed, general practitioner of nursing who can assume increasing responsibility and leadership in the delivery of nursing care. In consideration of the preparation of a general practitioner, all individuals who apply for admission and are enrolled in the undergraduate program must be able to perform the essential functions of a student of nursing.

The CONHI has identified essential nursing skills: communication, cognitive, motor, and sensory, observation, tactile, hearing, smell, psychomotor and ethical and professional integrity. The student enrolled in the Undergraduate Nursing program must demonstrate mastery of these components. Because providing direct patient care is physically demanding, students need to meet the physical requirements of a staff nurse in the same setting in which they are completing a clinical rotation. Upon BSN program acceptance, students must attest to their ability to meet these standards with or without an accommodation. If at that time a student requests an accommodation, the Student Access & Resource Center (SARC) and the CONHI must determine if the accommodation is reasonable PRIOR to the student beginning Upper-Division coursework.

If a student requires an accommodation to meet these standards, the student must initiate the review process with SARC within five (5) business days of being accepted to prevent a delay in the start of the program.

Qualified applicants are admitted without discrimination with regard to race, color, national origin or ancestry, gender, age, religion, sexual orientation, veteran status, or disability (reasonable accommodations will be made within the Americans with Disabilities Act guidelines).

More detailed information is available in the UG Nursing Policy Library (https://cdn.web.uta.edu/-/media/project/website/conhi/documents/unurs/bsn_student_handbook.ashx?revision=5a3d6773-b0aa-4557-bc77-1e795e79f8bd).

ADMISSION REQUIREMENTS

Students may be admitted to UT Arlington upon meeting the admission requirements established by the university which are described in the university catalog and website. Official transcripts must be submitted to the university Office of Admissions.

Registered nurses desiring admission to the RN to BSN program must:

- Apply for admission to the University of Texas at Arlington
- Meet the University of Texas at Arlington transfer student admission requirements.
- Have a current, unencumbered license as an RN in the U.S.A.
- Be complete in Texas Success Initiative (TSI) requirements.
- Meet the University of Texas at Arlington English proficiency requirement, TOEFL, if applicable

CREDIT BY RN LICENSURE

Transcripts of RN students are evaluated with consideration of the Coordinating Board Field of Study Curriculum guidelines. Credit is given for all courses listed in the Field of Study Curriculum as transferable as well as any additional courses that may be applicable for transfer for a total of 29 hours.

Certain other conditions apply:

- If the student earned one D or F in a nursing course at another college or school of nursing, they will be admitted unconditionally. If the student earns a subsequent D or F at UT Arlington, he/she will be placed on probation. The student must earn a C or above in all subsequent courses to remain in the program.
- If the student has earned more than one D or F, but no more than two, in nursing courses at another college or school of nursing, the student will enter UT Arlington on a probationary basis. The student must earn a C or above in all subsequent courses at UT Arlington to remain in the program.

ORIENTATION

Prior to entering their junior semester, all students are required to attend the general orientation.

PROGRESSION IN THE RN TO BSN NURSING PROGRAM

The University grade replacement/exclusion policy is limited by the College of Nursing and Health Innovation and is not applicable to nursing courses.

- A student in the RN to BSN program who earns a second D or F will be placed on probation. The student must earn a C or above in all subsequent courses to remain in the program.
ORAL COMMUNICATION PROFICIENCY REQUIREMENT

Oral proficiency is recognized to be a critical component of providing safe nursing care. In addition to content-specific presentations in various nursing courses, all Undergraduate Nursing students are required to communicate effectively with clients, members of the health care team, and faculty. Contact RN-BSN Program Director for more information.

E-MAIL ACCOUNTS

Each student will be provided a UT Arlington e-mail address. Official communications from the College of Nursing and Health Innovation will be distributed to this e-mail address and Learning Management System accounts required by many courses. Students will be held responsible for information distributed in this manner.

MOVEMENT BETWEEN PROGRAMS

Movement between AO and CB RN-BSN program is at the discretion of program administration.

Telehealth Certificate

ADMISSIONS REQUIREMENTS

Students may be admitted to UT Arlington upon meeting the admission requirements established by the University. Students will be advised by the CONHI Office of Enrollment and Student Services. Official transcripts must be submitted to the UT Arlington Office of Admissions.

BSN Prelicensure Program

PRIOR TO ENROLLMENT

The following semester hours must be completed prior to enrollment in upper-division nursing courses except as noted:

Total Hours: 67

1 If part of a two-semester sequence, both courses are required.
2 Must contain a lab component.
3 Degree Plan Core Curriculum courses.
4 Degree Plan Program Specific courses.
CB students may complete after enrollment in junior nursing courses. House Bill 935, passed by the Sixtieth Legislature, provides that no person may receive an undergraduate degree unless she/he has taken and passed six semester hours in American political science and six semester hours in United States history. Must be passed with a grade of C or better and is subject to the Two-Attempt policy.

**Note:** AO BSN students must complete all courses, including the upper division elective, prior to enrollment in junior nursing courses.

### PRELICENSURE BSN Suggested Course Sequence

The following semester hours must be completed for graduation. These courses are prescriptive. A student may not move to the next semester without successfully completing the previous semester.

**Statistics** \(^{3,4,6}\)
- Upper division elective \(^{5,8}\)

---

1. If part of a two-semester sequence, both courses are required.
2. Must contain a laboratory component.
3. Degree Plan Core Curriculum courses.
4. Degree Plan Program Specific courses.
5. May be completed after enrollment in nursing program.
6. Course must be completed with a grade of C or above prior to enrolling in the nursing program.
7. House Bill 935, passed by Sixtieth Legislature, provides that no person may receive an undergraduate degree unless she/he has taken and passed six semester hours in American political science and six semester hours in United States history.
The upper division elective course is in addition to the 3 credit hour upper division nursing elective requirement included in the 35 credit RN to BSN Nursing Course listing. This general 3 credit requirement can be met by taking any upper division elective course (including a second nursing elective), or by providing documentation of being certified through a nationally recognized nursing certification examination, or by completing a work-based project in the Nursing Cooperative Education (Co-Op) Program.

<sup>1</sup> Elective credit may be awarded for national certifications. Electives may be taken as a junior or as a senior.

<sup>2</sup> Will accept up to 29 credit hours transferred from a diploma or Associate Degree in nursing.

---

**TELEHEALTH AND HEALTH INFORMATICS CERTIFICATE**

Certificate Advisor: telehealthadvising@uta.edu

Associate Dean for Academic Affairs, Nursing: Kathy Daniel, PhD

This 9-semester credit hour certificate will prepare upper division undergraduate students from any related discipline to have fundamental skills needed for telehealth and health informatics. Telehealth is the distribution of health-related services via electronic and telecommunication technology. Health Informatics is the storage and use of health care information to foster better collaboration among various health-related providers.

The courses for this certificate are offered all online, but are campus based. They are not available in the accelerated online format. Students may enroll in the certificate alone or include the certificate as part of an undergraduate degree plan from any related major. There are 3 required courses in the certificate.

Department of Kinesiology

Undergraduate Degrees

• Bachelor of Arts in Physical Education Teacher Education (PETE) (p. 1237)
• Bachelor of Arts in Kinesiology - Sports Leadership and Management (SLAM) (p. 1237)
• Bachelor of Science in Exercise Science - Clinical & Applied Physiology (CAP) (p. 1237)
• Bachelor of Science in Exercise Science - Motor & Rehabilitation Services (MRS) (p. 1237)
• Bachelor of Science in Exercise Science - Health, Fitness, & Wellness (HFW) (p. 1237)
• Bachelor of Science in Exercise Science (3+2) HFW - MSAT (p. 1238)
• Bachelor of Science in Public Health (BSPH) (p. 1237)

Graduate Degrees

• Master of Science in Athletic Training (p. 1223)
• Master of Science in Exercise Science (p. 1223)
• Doctor of Philosophy in Kinesiology (http://catalog.uta.edu/nursing/kinesiology/graduate/#doctoraltext)
• Graduate Certificate in Public Health (http://catalog.uta.edu/nursing/kinesiology/graduate/#certificatetext)
• Master of Public Health (https://catalog.uta.edu/nursing/kinesiology/graduate/)

COURSES

HEED 1230. FIRST AID / CPR / AED TRAINING. 2 Hours.
This course is designed to cover the components of Standard First Aid, Cardio-Pulmonary Resuscitation (CPR) for the Professional Rescuer, and Automated External Defibrillator (AED) training. Certification is possible upon successful course completion. Offered as HEED 1230 and KINE 1230. Students seeking credit in HEED should enroll in HEED 1230 and students seeking credit in KINE should enroll in KINE 1230. Credit will not be granted for both courses.

HEED 1301. NUTRITION. 3 Hours.
Nutrients essential to an adequate diet and good health and the nutritive values of common foods are reviewed. Offered as BIOL 1301 and HEED 1301: credit will be granted for only one of these courses. Students seeking certification in Health Education must enroll in HEED 1301. Students seeking credit toward their science requirement must enroll in BIOL 1301. May not be used for biology grade point calculation or biology credit toward a BS degree in biology, microbiology, or medical technology.

HEED 1316. FOUNDATIONS OF HEALTH. 3 Hours. (TCCN = PHED 1338)
Emphasis on interrelationship of physical, emotional, mental, social, and spiritual dimensions of health. Involves the analysis of personal health status and development of strategies for improving quality of life.

HEED 1340. HEALTHY LIFESTYLES. 3 Hours. (TCCN = PHED 1304)
This course will present theoretical content related to a healthy lifestyle. Students will apply these concepts in laboratory sessions where they evaluate current health habits and develop nutrition, exercise, and stress management plans to promote a healthy lifestyle. The laboratory section will also provide instruction with regards to proper technique and form for resistance training, flexibility and aerobic conditioning. Lifestyle related diseases and addictions such as cardiovascular disease, cancer, diabetes, substance abuse, sexually transmitted diseases and achievement and maintenance of optimal body composition will also be addressed. These problems will be discussed relative to social, cultural and ethnic concerns.

HEED 2300. STUDENT HEALTH PEER TRAINING. 3 Hours.
Train students to be peer counselors who will work as group leaders both on campus and in the community in the Fall and Spring Semesters. Students learn about alcohol and other drugs and their relationship to health and sex issues which prepare them for group presentations and in making referrals when necessary. Topics of training include alcohol and other drug use/abuse, sexually transmitted diseases (STDs), HIV/AIDS, acquaintance rape, smoking/tobacco cessation, eating disorders, suicide, and self-esteem. Prerequisite: permission of instructor.

HEED 2317. BASIC CONCEPTS IN HUMAN SEXUALITY. 3 Hours.
The physiological, psychological, and sociological aspects of human sexuality. Offered as BIOL 2317, HEED 2317, PSYC 2317, and GWSS 2317. Credit will be granted for one of these courses only. Students seeking certification in Health Education must enroll in HEED 2317. Students seeking credit toward their science requirement must enroll in BIOL 2317. May not be used for biology grade point calculation or biology credit toward a BS degree in biology, microbiology, medical technology, psychology, or sociology.

HEED 2330. CARE AND PREVENTION OF ATHLETIC INJURIES. 3 Hours.
An introduction to the profession of Athletic Training. Common sports-related injuries and illnesses will be discussed with an emphasis on the proper methods for prevention, recognition, and immediate care. Offered as HEED 2330 and KINE 2330. Kinesiology majors must take KINE 2330.

HEED 3301. SPORTS NUTRITION. 3 Hours.
Overview of nutrients necessary for healthful living and nutritional impact on reducing risk factors of lifestyle diseases. Application of nutrient recommendations for sports and exercise activities, including fluid replacement, sports supplements, and ergogenic aids.
HEED 3303. DRUGS AND BEHAVIOR. 3 Hours.
A survey of the psychoactive agents, their therapeutic uses, and social abuses. Alcohol, nicotine, caffeine, narcotics, hallucinogens, stimulants, and tranquilizers. Offered as BIOL 3303, HEED 3303, and PSYC 3303; credit will be granted only once. May not be used for biology grade point calculation or biology credit toward a B.S. degree in biology, microbiology, or medical technology. Students seeking certification in health education must enroll in HEED 3303.

HEED 3305. WOMEN'S HEALTH ISSUES. 3 Hours.
Will address specific issues of importance to women and their health, including growth and development, nutrition, reproductive health, pregnancy, chronic diseases, and relationship/family issues. Offered as DIVR 3305, HEED 3305 and GWSS 3305. Credit will be granted only once.

HEED 3330. CONSUMER HEALTH AND PUBLIC HEALTH SYSTEMS. 3 Hours.
Analysis of personal, social, cultural, economic, and political aspects of health. Topics covered include managed health care, health insurance, health services/products, doctor-patient communication, traditional vs. non-traditional medicine, diagnosis and treatment of chronic diseases, and health legislation. Prerequisite: KINE 2350 and KINE 3350.

HEED 4191. CONFERENCE COURSE. 1 Hour.
Topics assigned on an individual basis covering personal research or study in the designated area.

HEED 4192. SPECIAL TOPICS IN HEALTH. 1 Hour.
Designed to present topics in health not currently offered in existing curriculum. May be repeated for credit when the topic changes.

HEED 4291. CONFERENCE COURSE. 2 Hours.
Topics assigned on an individual basis covering personal research or study in the designated area. Prerequisite: permission of department chairperson.

HEED 4292. SPECIAL TOPICS IN HEALTH. 2 Hours.
Designed to present topics in health not currently offered in existing curriculum. May be repeated for credit when the topic changes.

HEED 4310. STRESS MANAGEMENT. 3 Hours.
Analysis of the psychophysiology of stress and the role of stress in the development of acute and chronic diseases. Examine personal and medical uses of stress management techniques.

HEED 4311. THE ENVIRONMENT AND PUBLIC HEALTH SYSTEMS. 3 Hours.
This course is a study of the basic principles of ecology as they relate to the general health of society. Topics including conditions of soil, water, and air - nationally and globally - will be discussed. The successful student will acquire a level of proficiency in appropriate health care techniques specific to environmental health concerns. Prerequisite: KINE 2350, KINE 3350, KINE 3353, CHEM 1441 or CHEM 1451 and BIOL 1345 or BIOL 1441.

HEED 4312. HEALTH & HUMAN DISEASE. 3 Hours.
Basic principles of human diseases including cardiovascular disease, cancer, AIDS, influenza, and Alzheimer's. The role of infectious and communicable diseases in human history will also be discussed.

HEED 4320. STUDIES IN HEALTHY AGING. 3 Hours.
Emphasis on complex issues associated with aging and death. Topics include changes/losses related to specific stages of life; care-giving to the dying; pertinent legal issues; medical gerontology; other salient issues and problems concerning aging and death. This course is especially helpful to those students who plan careers in the medical profession.

HEED 4330. COMPREHENSIVE SEXUALITY EDUCATION. 3 Hours.
Explores contemporary issues in human sexuality (i.e., physiological, psychological, and sociological) and prepares those interested in teaching health education to teach sexuality education with diverse populations in a variety of settings (i.e., school or community agency). Students will increase their knowledge of sexuality and enhance their ability to educate about and promote sexual health. Students seeking certification in health must enroll in HEED 4330.

HEED 4340. PRINCIPLES OF HEALTH APPLICATIONS. 3 Hours.
Designed to integrate the information base of health studies into action plans for developing health education and promotion programs for organizations, agencies, and schools. Designed to integrate the information base of health studies into action plans for developing health education and promotion programs for organizations, agencies and communities. Includes planning and evaluation components recommended for students who plan to sit for ACSM/NPASPA certificate exam. Prerequisite: Junior standing and completion of KINE 2350.

HEED 4357. HEALTH PSYCHOLOGY. 3 Hours.
This course provides a broad introduction to health psychology and its interface with the medical world. The course provides a balanced presentation of the important issues in the field, as well as specific content topics that are especially relevant today to better understand health and illness. Offered as BIOL 4357, HEED 4357, and PSYC 4357. Students seeking science requirement credit must enroll in BIOL 4357; students seeking Certification in Health must enroll in HEED 4357. Prerequisite: PSYC 1315 or BIOL 1333 or BIOL 1441 or BIOL 2457; junior standing recommended.

HEED 4391. CONFERENCE COURSE. 3 Hours.
Topics assigned on an individual basis covering personal research or study in the designated area. Prerequisite: permission of department chairperson.

HEED 4392. SPECIAL TOPICS IN HEALTH. 3 Hours.
Designed to present topics in health not currently offered in existing curriculum. May be repeated for credit when the topic changes.
COURSES

KINE 1100. LAB SKILLS IN KINESIOLOGY AND EXERCISE SCIENCE. 1 Hour.
The course is designed to provide basic lab measurement and testing experiences for Kinesiology and Exercise Science students. Prerequisite: or Co-requisite: KINE 1300.

KINE 1230. FIRST AID / CPR / AED TRAINING. 2 Hours.
This course is designed to cover the components of Standard First Aid, Cardio-Pulmonary Resuscitation (CPR) for the Professional Rescuer, and Automated External Defibrillator (AED) training. Certification is possible upon successful course completion. Offered as HEED 1230 and KINE 1230. Students seeking credit in HEED should enroll in HEED 1230 and students seeking credit in KINE should enroll in KINE 1230. Credit will not be granted for both courses.

KINE 1300. INTRODUCTION TO KINESIOLOGY AND EXERCISE SCIENCE. 3 Hours. (TCCN = PHED 1301)
Introduction to key concepts concerning the anatomical, motor, biomechanical, and physiological basis of exercise science. The student is introduced to cardiovascular responses to training, analysis of human and motor behavior, and basic principles of exercise prescription.

KINE 1315. INTRODUCTION TO PHYSICAL EDUCATION AND SPORT. 3 Hours.
This course is an introduction to, and observation of, practices in pedagogical kinesiology and sports leadership.

KINE 1400. INTRODUCTION TO EXERCISE SCIENCE. 4 Hours.
Introduction to key concepts concerning the anatomical, biomechanical, and physiological basis of exercise science. Through lecture and laboratory experiences, the student is introduced to cardiovascular responses to training, analysis of human movement, and basic principles of exercise prescription. Credit cannot be given for both KINE 1400 and the combination of courses it replaces: KINE 1124 and KINE 1314.

KINE 2130. ATHLETIC TRAINING CLINICAL PRACTICUM I. 1 Hour.
Laboratory and clinical experiences designed to provide students with formal instruction and evaluation in the Entry Level Athletic Training Clinical Proficiencies with an instructional emphasis on preventive and protective taping and wrapping procedures. This course requires the completion of 120 clinical hours under the supervision of an Approved Clinical Instructor (ACI) or Clinical Instructor (CI).

KINE 2230. INTRODUCTION TO MUSCULOSKELETAL INJURIES. 2 Hours.
This course is designed to introduce students to the mechanisms of musculoskeletal injury and their associated signs, symptoms, and tissue responses. Students will also be introduced to the basic principles of musculoskeletal assessment. This course is a prerequisite for admission to the Athletic Training Education Program. Prerequisite: KINE 2120, KINE 2320; must be concurrently enrolled in KINE 2130.

KINE 2301. TEACHING GAMES FOR UNDERSTANDING. 3 Hours.
The course will provide students with theoretical concepts with which they can design and analyze various short- and long-term plans related to the Teaching Games for Understanding theoretical model. Students will learn various tactical strategies and modification principles for applying learned concepts in institutional settings. The instructor will use expertise from given sports to help students transfer the common themes across the spectrum of the model's category of games. KINE 1315 is a co-requisite for this course. Prerequisite: Co-requisite KINE 1315.

KINE 2302. DANCE AND MOVEMENT ACTIVITIES. 3 Hours.
This course is designed to enhance the students performance knowledge of skills and strategies in dance and movement activities to acquaint them with effective teaching behaviors appropriate for these activities. Co-requisite KINE 1315. Prerequisite: Co-requisite KINE 1315.

KINE 2307. SPORTS AND SOCIETY. 3 Hours.
This course will examine the bidirectional impact of sport and societal institutions. The class will explore the co-dependent nature of sport and society and attempt to separate fact from fiction to aid in the understanding of the true role of sport as it fits into society. Topics to be addressed include the potentially controversial areas of race, gender, disability, institutional rule violations, and ethics in the contemporary sports arena. This is a lower level elective. Credit cannot be received for this course and KINE 3307.

KINE 2330. CARE AND PREVENTION OF ATHLETIC INJURIES. 3 Hours. (TCCN = PHED 2356)
An introduction to the profession of Athletic Training. Common sports-related injuries and illnesses will be discussed with an emphasis on the proper methods for prevention, recognition, and immediate care. Offered as HEED 2330 and KINE 2330. Kinesiology majors must take KINE 2330.

KINE 2350. PUBLIC HEALTH: PRINCIPLES AND POPULATIONS. 3 Hours.
This course will provide students with an overview of Public Health: what it is, how it works, and why it is important. Topics include current health issues, global health, health disparities and how Public Health impacts community settings. Class requirement includes participation in community-based, experiential-learning activities. Examination of public health concepts, values and functions. Exploration of the underlying science of human health and disease as that is impacted by socioeconomic, behavioral, biological, environmental and other factors that impact human health and contribute to health disparities. This course satisfies the University of Texas at Arlington core curriculum requirement in Social and Behavioral Sciences.

KINE 2351. HEALTH ISSUES IN DIVERSE & VULNERABLE POPULATIONS. 3 Hours.
Cultural competence is attracting increased attention across the spectrum of public health. However, many vulnerable populations continue to be "invisible," resulting in a lack of awareness and knowledge in public health and healthcare workers. This course provides students with information related to the multi-faceted disparities that exist beyond ethnic differences to investigate the many other facets of cultural diversity and health issues.
KINE 2420. INTRODUCTION TO ATHLETIC TRAINING. 4 Hours.
Classroom and laboratory experiences that provide an introduction to the profession of Athletic Training with an emphasis on prevention and immediate care of sports related injuries. Specific topics will include injury prevention techniques; emergency first aid and acute care; superficial application of therapeutic modalities; proper use and fitting of protective equipment; and environmental considerations. Credit cannot be given for KINE 2420 and the combination of courses it replaces: KINE 2320 and KINE 2120.

KINE 3130. ATHLETIC TRAINING CLINICAL PRACTICUM II. 1 Hour.
Laboratory and clinical experiences designed to provide students with formal instruction and evaluation in the Entry Level Athletic Training Competencies and Clinical Proficiencies. This course requires the completion of 250 hours of clinical experience performed under the supervision of an Approved Clinical Instructor (ACI) or Clinical Instructor (CI). Prerequisites: BIOL 2457, Athletic Training Majors only or permission of instructor. Corequisite: KINE 3320.

KINE 3131. ATHLETIC TRAINING CLINICAL PRACTICUM III. 1 Hour.
Laboratory and clinical experiences designed to provide students with formal instruction and evaluation in the Entry Level Athletic Training Competencies and Clinical Proficiencies. This course requires the completion of 250 hours of clinical education experience performed under the supervision of an Approved Clinical Instructor (ACI) or Clinical Instructor (CI). Prerequisite: BIOL 2457, Athletic Training Majors only or permission of instructor. Corequisite: KINE 3324.

KINE 3300. FUNCTIONAL ANATOMY. 3 Hours.
A study of the musculoskeletal anatomy to include bony landmarks, muscle origin, insertion and action, as well as nerve innervation. Knowledge of the functional anatomy is crucial to the understanding of sports performance, the design of strength training programs, and injury prevention. Prerequisite: KINE 1300, KINE 1100 and BIOL 2457.

KINE 3302. SPORT AND EXERCISE PSYCHOLOGY. 3 Hours.
Analysis of exercise and sport activities in terms of psychological skills and strategies. Topics include motivation, arousal regulation, focus, concentration, group cohesion & imagery.

KINE 3303. ORGANIZATIONAL PRINCIPLES OF EXERCISE AND SPORT ACTIVITIES. 3 Hours.
An organizational analysis of exercise and sport in terms of participation rules, regulations, and responsibilities. Emphasis on knowledge and understanding of the principles governing the organization and conduct of exercise and sport activities.

KINE 3304. ADAPTED PHYSICAL EDUCATION & SPORT. 3 Hours.
Analysis of conditions that impact individuals with disabilities in society, schools and disability sport. Emphasis is placed on adapted physical education and sport strategies that facilitate the learning of this population. Prerequisite: Instructor Permission.

KINE 3305. MOTOR INTEGRATION. 3 Hours.
Principles of motor skill acquisition, performance, and control. Topics include practice strategies, memory, neuromotor functioning, attention, and learning (assessment, transfer & stages). Prerequisite: KINE 1315, and KINE 1400, or permission of instructor.

KINE 3307. SPORT AND SOCIETY: ISSUES AND DEBATES. 3 Hours.
This course will examine the bidirectional impact of sport and societal institutions. The class will explore the co-dependent nature of sport and society and attempt to separate fact from fiction to aid in the understanding of the true role of sport as it fits into society. Topics to be addressed include the potentially controversial areas of race, gender, disability, institutional rule violations, and ethics in the contemporary sports arena. This is an upper level elective. Credit cannot be received for this course and KINE 2307.

KINE 3309. FOUNDATIONS OF RECREATION. 3 Hours.
Leisure time in our social structure and the agencies which have developed to provide leisure time activities. Program development and leadership skills in the recreation profession.

KINE 3311. RECREATION AND LEISURE SERVICE. 3 Hours.
Application of management and organizational principles, objectives, and procedures involved in implementing recreational and leisure service programs.

KINE 3312. COACHING INVASION GAME PRINCIPLES. 3 Hours.
The course will provide students with theoretical concepts with which they can design and analyze various short and long-term plans related to invasion games. Students will learn various tactical strategies and modification principles for applying learned concepts in instructional settings. The instructor will use expertise from given sports to help students transfer the common themes across the spectrum of invasion games.

KINE 3313. COACHING OF NET/WALL GAME PRINCIPLES. 3 Hours.
The course will provide students with theoretical concepts with which they can design and analyze various short and long-term plans related to net/wall games. Students will learn various tactical strategies and modification principles for applying learned concepts in instructional settings. The instructor will use expertise from given sports to help students transfer the common themes across the spectrum of net/wall games.

KINE 3320. LOWER EXTREMITY EVALUATION. 3 Hours.
A study of the common orthopedic and musculoskeletal injuries involving the lower extremities and lumbar spine, with a special emphasis on recognition, evaluation, diagnosis, and initial management. Prerequisite: BIOL 2457, Athletic Training Majors only or permission of instructor. Corequisite: KINE 3130.
KINE 3324. UPPER EXTREMITY EVALUATION. 3 Hours.
A study of the common orthopedic and musculoskeletal injuries involving the upper extremities, spine, head, face, abdomen, and thorax, with a special emphasis on recognition, evaluation, diagnosis, and initial management. Prerequisite: BIOL 2457, Athletic Training Majors only or permission of instructor. Corequisite: KINE 3131.

KINE 3325. UNDERGRADUATE RESEARCH METHODS. 3 Hours.
Current practices in the conduct of qualitative research, measurement, and evaluation processes applied to programs related to exercise science, pedagogical kinesiology, athletic training and related fields will be examined. Enrolled students will develop and conduct a research project based on their declared discipline. Prerequisite: KINE 1300, KINE 1100, MATH 1302, MATH 1308.

KINE 3330. PATHOLOGY AND PHARMACOLOGY. 3 Hours.
Study of acute and chronic illness and their response to, and impact on, physical activity. Discussion of pharmacological agents used in the care of general illnesses and musculoskeletal disorders in the physically active. Prerequisite: BIOL 2458, acceptance into the Athletic Training Education Program or permission of instructor.

KINE 3333. THERAPEUTIC INTERVENTION II. 3 Hours.
This course is designed to provide the student with an understanding of upper extremity and low back rehabilitation protocols and the use of electric therapeutic modalities like ultrasound, diathermy, laser, and electric stimulation. Emphasis will be placed on understanding the disablement model and learning how to plan, implement, document, and evaluate programs for the rehabilitation and reconditioning of injuries and illnesses of athletes and others involved with physical activity. Operation of electrical therapeutic modalities and how they can be incorporated into a rehabilitation program will be investigated. The underlying principles and application techniques for each modality, therapeutic exercise progressions, patient clinical goals, legal and safe practice guidelines, and evidence based therapeutic modality science will allow for critical thinking and problem solving in relation to common upper extremity and low back injuries. Both surgical and non-surgical rehabilitation models for the upper extremity and low back will be discussed with a special emphasis on the use of functional progressions. Prerequisites: BIOL 2457 and BIOL 2458. Concurrent enrollment in KINE 4131 is required for all Athletic Training Education Program students.

KINE 3342. SOCIOLOGY OF THE HUMAN BODY. 3 Hours.
Drawing from the social sciences, cultural and gender studies, and exercise physiology, this course in body sociology addresses several contemporary issues relating to diet, nutrition and exercise. Specific topics include eating disorders, factory farming, and "body industries" involving weight-loss diets, gyms, fashion, and cosmetic and bariatric surgery. The medical model of bodies is also examined. Also listed as SOCI 3342; credit will not be granted for both KINE 3342 and SOCI 3342.

KINE 3350. URBANIZATION AND VULNERABLE POPULATIONS. 3 Hours.
Investigation of diversity of individuals and populations in a community, including how diversity may influence policies, programs, services, and the health of a community, and the importance for a diverse public health workforce.

KINE 3352. INTRODUCTION TO PUBLIC HEALTH EPIDEMIOLOGY. 3 Hours.
Analysis of factors that affect the health of a community, including how disease spreads, legal aspects of epidemics, and how data is used to drive public health decision making. Overview of how public health practice and science come together to protect the health of the public, or of a specific population. Prerequisite: MATH 1301 or MATH 1302 or MATH 1303 or MATH 1426 and MATH 1308 and KINE 2350 required.

KINE 3353. HEALTH AND THE HUMAN CONDITION IN THE GLOBAL COMMUNITY. 3 Hours.
Study of the history, philosophy and contemporary issues of public health as those apply to public health in both urban and global societies.

KINE 3354. EMERGENCY PREPAREDNESS & MANAGEMENT. 3 Hours.
Inquiry into the structures, functions, and authorizations of governmental public health programs. Identification of tools, processes, and activities related to both practice and policy used to support community responses to public health emergencies and other disasters. Prerequisite: KINE 2350.

KINE 3355. ADDICTIVE BEHAVIORS. 3 Hours.
Students will examine substance abuse including alcohol, drugs (illegal and prescription), smoking, vaping, and gaming from a population-based approach. There will also be a focus on compulsive behaviors including topics such as food over- and undereating, gambling, shopping and internet/technology addictions. While the course emphasis is on addictive behaviors, material and learning activities will also address how diverse and vulnerable populations are impacted by addictive behaviors as those relate to injury and illness prevention.

KINE 3356. PUBLIC HEALTH IN ACADEMIC SETTINGS. 3 Hours.
Public Health in Academic Settings This course addresses common health issues found throughout educational settings. Topics include chronic stress, health and well-being, school violence and the roles of hunger and obesity as concerns in the school environment. A focus on school climate, the role of school-based healthcare and preventing dropout from public health perspectives will be included.

KINE 3357. PHYSICAL ACTIVITY IN PUBLIC HEALTH. 3 Hours.
Designed for public health and health/fitness/wellness professionals who are interested in the promotion of physical activity in a variety of areas of public health. Emphasis on advocating for the importance of integration of physical activity in community health. This course prepares students to sit for the American College of Sports Medicine/National Physical Activity Society Physical Activity in Public Health Specialist certification examination.

KINE 3358. COMMUNICATION FOR HEALTH PROFESSIONALS. 3 Hours.
Information and experiences that identify the health literacy of populations, including assessment of barriers and unique situations for vulnerable populations. Communication of information through appropriate, culturally competent methodologies. Integration of basic concepts of public health-specific communication into technical and professional writing. The use of mass media and electronic technology. Prerequisite: KINE 2350 and KINE 3350.
KINE 3388. THEORY AND APPLICATION IN MOTOR DEVELOPMENT. 3 Hours.
A study of motor skill development from infancy to adolescence with emphasis upon motor development theory and aspects that effect motor competence, underlie movement control, and influence change in the acquisition of motor skills. Prerequisite: KINE 1100 and KINE 1300.

KINE 3401. BIOMECHANICS OF HUMAN MOVEMENT. 4 Hours.
Quantitative and qualitative analyses of human movement. Emphasis is on the application of the principles of human movement, with consideration of functional anatomy, kinesiology and mechanical concepts to exercise, sport, and activities of daily living. Course credit may not be granted for both KINE 3301 and KINE 3401. Prerequisite: KINE 1300, KINE 1100, BIOL 2457 and MATH 1302.

KINE 3415. PHYSIOLOGY OF EXERCISE. 4 Hours.
Provides the physiology background necessary for an understanding of the acute and chronic effects of exercise on the body. Physiological concepts and their relationship to exercise, sport, and health programs are examined. Laboratory experiences are designed for evaluating physiological responses to exercise. Course credit may not be granted for both KINE 3315 and KINE 3415. Prerequisite: Restricted to Kinesiology, Athletic Training and Exercise Science Majors. KINE 1300, KINE 1100, BIOL 2457, BIOL 2458, and MATH 1302 required.

KINE 4130. ATHLETIC TRAINING CLINICAL PRACTICUM IV. 1 Hour.
Laboratory and clinical experiences designed to provide students with formal instruction and evaluation in the Entry Level Athletic Training Competencies and Clinical Proficiencies. The instructional emphasis is the development of functional rehabilitation programs for musculoskeletal injuries and common orthopedic surgeries. This course requires the completion of 250 hours of clinical experience performed under the supervision of an Approved Clinical Instructor (ACI) or Clinical Instructor (CI). Prerequisite: BIOL 2457 and BIOL 2458; Athletic Training Majors only or permission of instructor. Corequisite: KINE 4336.

KINE 4131. ATHLETIC TRAINING CLINICAL PRACTICUM V. 1 Hour.
Laboratory and clinical experiences designed to provide students with formal instruction and evaluation in the Entry Level Athletic Training Competencies and Clinical Proficiencies. Instructional emphasis is on the selection and clinical application of therapeutic modalities. This course requires the completion of 250 hours of clinical experience performed under the supervision of an Approved Clinical Instructor (ACI) or Clinical Instructor (CI). Prerequisite: BIOL 2457 and BIOL 2458; Athletic Training Majors only or permission of instructor. Corequisite: KINE 4333.

KINE 4132. ATHLETIC TRAINING CLINICAL PRACTICUM VI. 1 Hour.
Laboratory and clinical experiences designed to provide students with formal instruction and evaluation in the Entry Level Athletic Training Competencies and Clinical Proficiencies. This course requires the completion of 200 hours of clinical experience performed under the supervision of an Approved Clinical Instructor. Prerequisite: KINE 3130, KINE 3131, KINE 3320, KINE 3324, KINE 3330, KINE 3333, KINE 4130, KINE 4131, KINE 4336, and acceptance into the Athletic Training Education Program or approval of instructor. Must be concurrently enrolled in KINE 4233.

KINE 4188. CLINICAL HEALTH PROFESSIONS INTERNSHIP. 1 Hour.
Individualized academic training in an internal or external clinical health professions setting (e.g. university, hospital, physical therapy clinic, or physician's office) under the direct supervision of a health care professional (MD, PT, OT, PA). Prerequisite: Corequisite: KINE 4315 or successful completion of KINE 4315 and proof of sufficient professional liability insurance.

KINE 4191. CONFERENCE COURSE. 1 Hour.
Topics assigned on an individual basis covering personal research or study in the designated area. Prerequisite: permission of department chairperson.

KINE 4193. PHYSICAL EDUCATION TEACHER CERTIFICATION PRACTICUM. 1 Hour.
In this course students will be prepared for the TEExES PE-EC-12 and PPR-EC-12 exams and prepared for the professional dispositions associated with being a Physical Educator with an emphasis on ethics, interviewing, and role modeling. The students will take and review the PE Content and Pedagogy and Professional Responsibilities practice teaching licensure exams. Through this process teacher candidates will be cleared for official TEExES registration. This course is to be taken the semester immediately prior to the student teaching semester.

KINE 4201. ADVANCED TECHNIQUES AND TACTICS OF BASEBALL. 2 Hours.
Development and analysis of skills, offensive and defensive strategies used in the sport of baseball.

KINE 4202. ADVANCED TECHNIQUES AND TACTICS OF BASKETBALL. 2 Hours.
Development and analysis of skills, offensive/defensive strategies used in the sport of basketball.

KINE 4203. ADVANCED TECHNIQUES AND TACTICS OF FootBALL. 2 Hours.
Development and analysis of skills, offensive and defensive strategies used in the sport of football.

KINE 4204. ADVANCED TECHNIQUES AND TACTICS OF TRACK AND FIELD. 2 Hours.
Development and analysis of track and field event techniques and strategies.

KINE 4205. ADVANCED TECHNIQUES AND TACTICS OF VOLLEYBALL. 2 Hours.
Development and analysis of skills, offensive and defensive strategies used in the sport of volleyball.

KINE 4233. ATHLETIC TRAINING ORGANIZATION & ADMINISTRATION. 2 Hours.
A study of the administrative issues and management theories that may be encountered in athletic training. Special emphasis is placed on the practical application of concepts related to legal liability, facility design and maintenance, documentation, financial management, health insurance, and general day-to-day operations. Prerequisite: KINE 3130, KINE 3131, KINE 3320, KINE 3324, KINE 3330, KINE 3333, KINE 4130, KINE 4131, KINE 4336, and acceptance into the Athletic Training Education Program or approval of instructor.

KINE 4291. CONFERENCE COURSE. 2 Hours.
Topics assigned on an individual basis covering personal research or study in the designated area. Prerequisite: permission of department chairperson.
KINE 4293. SEMINAR IN ATHLETIC TRAINING. 2 Hours.
Synthesis of theories and concepts in athletic training. Review of the competencies and proficiencies in athletic training with special emphasis on professional development and the refinement of clinical decision-making. Prerequisite: KINE 3320, KINE 3324, KINE 3330, KINE 3333, KINE 4233, KINE 4336; Athletic Training Majors only.

KINE 4296. SPECIAL TOPICS IN EXERCISE AND SPORT. 2 Hours.
Designed to meet the current needs of students. May be repeated for credit when the topic changes.

KINE 4316. FITNESS PROGRAMMING. 3 Hours.
This course will provide students with practical and theoretical applications of fitness programming. The successful student will acquire a level of proficiency in the development of fitness programs and plans based upon client specific fitness assessment characteristics. Fitness programs shall include, but not be limited to: musculoskeletal symmetry, strength, and flexibility; body composition; cardiovascular endurance, and nutritional recommendations. Additionally, successful students will become proficient in the application of client related historical, nutritional, medical, psychological, and psychosocial factors that impact the development of a properly designed exercise program. Prerequisite: Current CPR certification, MATH 1302, KINE 3300, KINE 3315, and KINE 4315, or permission of instructor.

KINE 4317. EXERCISE PRESCRIPTION FOR SPECIAL POPULATIONS. 3 Hours.
This course will discuss the pathophysiology of prevalent cardiovascular, metabolic and pulmonary diseases. Methods of exercise prescription and issues of concern will also be presented for these populations, as well as, low back pain, pregnancy, osteoporosis, cancer, children, older adults, fibromyalgia, multiple sclerosis and cardiac disease. Prerequisite: MATH 1302, MATH 1308, BIOL 2457, BIOL 2458, KINE 3300, KINE 3415 and KINE 3325.

KINE 4319. FITNESS, HEALTH AND OUTDOOR ADVENTURE ACTIVITIES EDUCATION. 3 Hours.
The course will provide students with theoretical health-related concepts with which they can design and apply fitness learning into various physical education settings. In addition, this course is designed to introduce students to outdoor and adventure education activities and adventure-based learning. Time will be spent on low element group initiatives and high element adventure activities. Prerequisite: KINE 2301 and KINE 2302.

KINE 4320. TEACHING SECONDARY PHYSICAL EDUCATION. 3 Hours.
Designed to enhance teacher candidates' understanding of curriculum development as it applies to theory of motor learning and the sciences of kinesiology. These progressions are synthesized into a collaborative service-learning project with secondary public school partner(s). Candidates take responsibility for creating, coordinating, and facilitating learning experiences that are developmentally appropriate, motivating, and based on research. Prerequisite: KINE 3304, KINE 3388.

KINE 4321. TEACHING ELEM PHYSICAL EDUCATION. 3 Hours.
This course is designed to synthesize the sciences of anatomy and physiology, biomechanics, motor integration and motor control with sound pedagogical knowledge into an applied elementary physical education setting. Criminal background check required. Prerequisite: KINE 3304 and KINE 3388.

KINE 4323. MOTOR CONTROL AND LEARNING. 3 Hours.
This course will expose students to the theoretical perspectives and current principles associated with the control and learning of movement skills. Specifically, the neural and mechanical mechanisms underlying motor behavior and the variables influencing motor learning will be addressed. Throughout the course, application of theoretical concepts to instructional and clinical settings will be emphasized. Prerequisite: KINE 1300, KINE 1100, MATH 1308, and KINE 3325.

KINE 4329. STRENGTH & CONDITIONING IN SPORT AND PERFORMANCE. 3 Hours.
This course covers the physiology and biomechanics of strength training and conditioning. Additional topics include: testing and evaluation of athletes, resistance training techniques, training program design, and organization administration of a strength training facility. This course is designed to prepare students to take the CSCS, Certified Strength and Conditioning Specialist, certification examination. Prerequisite: MATH 1302, MATH 1308, BIOL 2457, BIOL 2458, KINE 3300, KINE 3415, KINE 3325.

KINE 4330. PROGRAM DESIGN & ADMINISTRATION. 3 Hours.
The development and operation of health/wellness programs and facilities will be presented, including: program design and administration, facility design, organizational development, management theory, marketing, financial management, legal issues, strategic planning, and evaluation models. The student will participate in all phases of program and facility development, such as budget development, recruiting and retaining employees and clients, market niche, and conflict resolution. Prerequisite: KINE 3415 and KINE 3325.

KINE 4331. OBESITY & WEIGHT MANAGEMENT. 3 Hours.
This course is a review of the scientific literature on the causes and consequences of obesity. Topics include: techniques for assessing body composition, metabolic factors promoting obesity, the role of obesity in metabolic and cardiovascular disease, traditional and non-traditional weight loss programs, economic consequences and contributors of obesity, and psychosocial consequences and contributors of obesity. Prerequisite: KINE 3415 and KINE 3325.

KINE 4335. GRADED EXERCISE TESTING & PRESCRIPTION. 3 Hours.
The knowledge and skills necessary for assessment of health history and appraisal, blood pressure, electrocardiogram, cardiovascular fitness and function will be acquired in lecture and laboratory sessions. Various test modalities and protocols will be discussed for health and diseased populations. Prerequisite: BIOL 2457, BIOL 2458, and KINE 3315, KINE 4315, or permission of instructor.
KINE 4336. THERAPEUTIC INTERVENTION I. 3 Hours.
This course is designed to provide the student with an understanding of the scientific theory and the basic principles of musculoskeletal rehabilitation and therapeutic modalities. Emphasis will be placed on understanding the disablement model and learning how to plan, implement, document, and evaluate programs for the rehabilitation and reconditioning of injuries and illnesses of athletes and others involved with physical activity. Operation of superficial heating and cooling therapeutic modalities and how manual treatments (e.g., traction, muscle energy and massage) can be incorporated into a rehabilitation program will be investigated. The underlying principles and application techniques for each modality, therapeutic exercise progressions, patient clinical goals, legal and safe practice guidelines, and evidence based therapeutic modality science will allow for critical thinking and problem solving in relation to common lower extremity injuries. Both surgical and non-surgical rehabilitation models for the lower extremity will be discussed with a special emphasis on the use of functional progressions. Prerequisites: BIOL 2457 and BIOL 2458. Concurrent enrollment in KINE 4130 is required for all Athletic Training Education Program students.

KINE 4337. STRENGTH AND CONDITIONING IN GENERAL POPULATIONS: HEALTH AND DISEASE. 3 Hours.
This course covers the physiology and biomechanics of strength training and conditioning as it applies to the general populations across the spectrum of health and disease. This includes: testing, evaluation, resistance training techniques and training program design for individuals with orthopedic injuries and rehabilitation concerns, metabolic conditions (e.g., diabetes), youth, elderly, and pregnant or post-prenatal women. This course is designed to prepare students to take the NSCA-CPT, and apply the skills needed to be a leader within the personal training and physical therapy career paths. Prerequisite: KINE 3415 and KINE 3325.

KINE 4339. SPORTS LEADERSHIP AND MANAGEMENT INTERNSHIP. 3 Hours.
Individualized training and experience in a youth, college, professional or other sport-based organization. Students will work with a mentor and university supervisor in a community-based setting to better understand, explore, and apply principles of coaching and operations. Prerequisite: KINE majors and Senior standing.

KINE 4349. PUBLIC HEALTH INFORMATICS. 3 Hours.
Explain and apply ethical principles that apply to the use of information technology as those pertain to accessing, collecting, analyzing, using, maintaining, and disseminating data and information. Prerequisite: KINE 2350, KINE 3350, KINE 3358, KINE 3352, and KINE 3353.

KINE 4350. SPORTS PSYCHOLOGY. 3 Hours.
The course will provide an overview of the growing field of Sports Psychology, which involves applying psychological science to sports. Topics such as maximizing sports performance, elite performance and personality, motivation techniques in sports, leadership skills in sports, etc., will be covered.

KINE 4351. PUBLIC HEALTH ETHICS. 3 Hours.
Study of ethical standards and how those are incorporated into practice and decision-making that relate to interactions with individuals, organizations, and communities. Exploration of strategies for public health, health care, and other allied healthcare organizations to work together or individually to impact the health of a community. Prerequisite: Junior status, KINE 2350 and KINE 3350.

KINE 4352. PUBLIC HEALTH SCIENCES AND METHODS. 3 Hours.
Identify scientific concepts and research methods of population health, along with the basic processes, approaches, and interventions that identify and address the major health-related needs and concerns of populations. Analysis of project implementation such as planning, assessment and evaluation. Prerequisite: KINE 2350, KINE 3350, KINE 3352, KINE 3353, and KINE 3358. Minimum GPA of 2.5 required to enroll in the course.

KINE 4353. EMERGENCY PREPAREDNESS & MANAGEMENT. 3 Hours.
Inquiry into the structures, functions, and authorizations of governmental public health programs. Identification of tools, processes, and activities related to both practice and policy used to support community responses to public health emergencies and other disasters. Credit may not be given for both KINE 3354 and KINE 4353. Prerequisite: KINE 2350, KINE 3350, KINE 3352, KINE 3353, and KINE 3358.

KINE 4354. PUBLIC HEALTH ADVOCACY AND LEADERSHIP. 3 Hours.
Appraisal of leadership philosophies and actions that reflect and model effective strategies for protecting and promoting the public's health. Prerequisite: KINE 2350, KINE 3350, KINE 3352, KINE 3353, KINE 3354, KINE 3358, MANA 4326, KINE 4352, KINE 4349, KINE 4357. Concurrent enrollment in KINE 4359 recommended. 2.5 GPA required for course enrollment.

KINE 4356. PUBLIC HEALTH PROJECT DESIGN & ADMINISTRATION. 3 Hours.
This course includes content designed to develop the knowledge, skills and competencies necessary for public health project management. The course includes experiential learning activities and case studies that integrate practice-based learning on topics such as project design, team dynamics, project evaluation and quality improvement measures. Prerequisite: KINE 2350 and junior status.

KINE 4357. PREPARATION FOR THE PUBLIC HEALTH WORKFORCE. 3 Hours.
The development and operational systems and processes in public health programs and facilities will be presented, including: concepts and experiences necessary for success in the workplace, community dynamics, independent work and development of a personal work ethic, networking and professional communication, and teamwork. The student will participate in multiple career readiness learning experiences through a co-curricular collaboration with UTA Career Services. Prerequisite: KINE 2350, KINE 3350, KINE 3352, KINE 3353, KINE 3358, and MANA 4326.

KINE 4358. APPLIED APPROACHES TO DIVERSITY AND CULTURAL AWARENESS IN PUBLIC HEALTH ORGANIZATIONS. 3 Hours.
Applied Approaches to Diversity and Cultural Awareness in Public Health Organizations This course examines the changing demographics of the public health workforce and organizations, presenting students with varied perspectives, approaches and competencies required for understanding and appreciation of greater diversity across the public health and healthcare systems.
KINE 4359. PUBLIC HEALTH CUMULATIVE EXPERIENCE. 3 Hours.
Individualized learning opportunity to integrate, synthesize and apply knowledge through cumulative and experiential activities. All students complete a cumulative, integrative and scholarly or applied experience or inquiry project that serves as an optimum point to the education experience. These experiences may include, but are not limited to, internships, service-learning projects, senior seminars, portfolio projects, research papers or honors theses. Students are encouraged to gain exposure to local-level public health professionals and/or agencies that engage in public health practice. To be taken during the final semester prior to graduation. Prerequisite: KINE 2350, KINE 3350, KINE 3352, KINE 3353, KINE 3358, KINE 4352, KINE 4349, KINE 4357 and MANA 4326 required. Corequisite: KINE 4354. Minimum GPA of 2.5 required for enrollment.

KINE 4387. EXERCISE SCIENCE PRACTICUM. 3 Hours.
Academic training within the internal setting of U.T. Arlington's exercise science laboratories. Each student will receive 135 hours of professional practicum experience in a variety of exercise science settings including wellness, physical fitness activity classes, physical fitness theory classes, the physical fitness center, and/or other exercise science settings. Prerequisite: Current CPR certification, KINE 4315, KINE 4316, and permission of instructor.

KINE 4388. EXERCISE SCIENCE INTERNSHIP. 3 Hours.
Individualized academic training in an external professional exercise science setting (e.g., hospital, physical therapy, cardiac rehabilitation, fitness center) under the direct supervision of an exercise science professional or licensed therapist. Proof of sufficient professional liability insurance is required for enrollment. A minimum of 135 hours in the field is required for completion of the course. Prerequisite: KINE 4415 (or Corequisite).

KINE 4389. FITNESS MANAGEMENT INTERNSHIP. 3 Hours.
Individualized academic training in an external professional exercise science setting (e.g., hospital, physical therapy, cardiac rehabilitation, fitness center) under the direct supervision of an exercise science professional or licensed therapist. Proof of sufficient professional liability insurance is required for enrollment. A minimum of 135 hours in the field is required for completion of the course. Prerequisite: KINE 4415 (or Corequisite).

KINE 4390. PRACTICUM IN SPORT PERFORMANCE. 3 Hours.
Designed on an individual basis as a field experience in the observation of sport performance, and the application of performance principles to sport participation. Students must make application for enrollment prior to October 1 for Spring Semester and prior to April 1 for Fall Semester.

KINE 4391. CONFERENCE COURSE. 3 Hours.
Topics assigned on an individual basis covering personal research or study in the designated area. Prerequisite: permission of department chairperson.

KINE 4394. HONORS THESIS/SENIOR PROJECT. 3 Hours.
Required of all students in the University Honors College. During the senior year, the student must complete a thesis or a project under the direction of a faculty member in the major department.

KINE 4395. INDIVIDUAL STUDY IN EXERCISE AND SPORT. 3 Hours.
The completion of an existing course on an individual basis as contracted with an approved faculty member. This procedure is limited to emergency situations, and must be identified through the departmental advising process.

KINE 4396. SPECIAL TOPICS IN EXERCISE AND SPORT. 3 Hours.
Designed to meet the current needs of students. May be repeated for credit when the topic changes.

KINE 4400. APPLIED EXERCISE PHYSIOLOGY. 4 Hours.
Application of physiological principles of training of physical fitness and sport; examination of factors influencing anaerobic and aerobic training methods and their effect on fitness. Physiological responses studied include cardiovascular, bioenergetics, and extreme environments. Site visits, laboratory experiences and a research project enhance the student's understanding of physiological changes and career paths in exercise science. Prerequisite: KINE 3415, KINE 3325, MATH 1302 (or MATH 1402) and MATH 1308. KINE 4415 is a co/pre-requisite.

KINE 4415. FITNESS ASSESSMENT/PROGRAMMING. 4 Hours.
Classroom and laboratory experiences provide the student with an opportunity to become familiar with the assessment of physical fitness including graded exercise testing, metabolic studies, basic ECG interpretation, and body composition. The student will also learn risk factor identification and exercise prescription. Course credit may not be granted for both KINE 4315 and KINE 4415. Prerequisite: KINE 4315 and KINE 3325.

KINE 4420. APPLIED MOTOR BEHAVIOR. 4 Hours.
Application of motor behavior and biomechanical principles as well as factors influencing learning, re-learning and enhancing motor skills will be examined. Students will craft a research project to enhance their understanding of principles of motor behavior and will be involved in several case studies that can help understand how to apply motor behavior in their career paths. Prerequisite: KINE 3325; KINE 3388; KINE 4323.

KINE 4490. EXERCISE SCIENCE INTERNSHIP. 4 Hours.
Individualized academic training in an external professional exercise science setting (e.g., hospital, physical therapy, cardiac rehabilitation, fitness center) under the direct supervision of an exercise science professional or licensed therapist. Proof of sufficient professional liability insurance is required for enrollment. A minimum of 180 hours in the field is required for completion of the course. Prerequisite: KINE 4415 (or Corequisite).

KINE 4491. MRS INTERNSHIP. 4 Hours.
Individualized academic training in an external professional movement or rehabilitation setting (e.g., hospital, OT clinic, SLP clinic, school, recreation center, therapy setting, etc) under the direct supervision of an exercise science professional or licensed therapist. Proof of sufficient professional liability insurance is required for enrollment. A minimum of 180 hours in the field is required for completion of the course. Prerequisite: KINE 3388; KINE 3415.
KINE 4589. EXERCISE SCIENCE INTERNSHIP. 5 Hours.
Individualized academic training in an external professional exercise science setting (e.g., hospital, physical therapy, cardiac rehabilitation, fitness center) under the direct supervision of an exercise science professional or licensed therapist. Proof of sufficient professional liability insurance is required for enrollment. A minimum of 225 hours in the field is required for completion of the course. Prerequisite: KINE 4415 (or Corequisite).

KINE 4639. SPORTS LEADERSHIP AND MANAGEMENT INTERNSHIP II. 6 Hours.
Individualized training and experience in a youth, college, professional or other sport-based organization. Students will work with a mentor and university supervisor in a community-based setting to better understand, explore, and apply principles of coaching and operations. Prerequisite: KINE majors and Senior standing.

KINE 4647. CLINICAL TEACHING PHYSICAL EDUCATION EC-12. 6 Hours.
This supervised course is designed as a culminating field experience of pre-service professional preparation giving an opportunity to practically apply theoretical and pedagogical knowledge in real school settings. Applied experience will be attained in both Elementary and Secondary settings. Criminal background check required. Prerequisite: KINE 1315, KINE 2301, KINE 3304, KINE 3306, KINE 3325, KINE 3388, KINE 4193, KINE 4319, KINE 4320, KINE 4321, LIST 4343, and EDUC 4340.

KINE 4659. PUBLIC HEALTH EXTENDED CUMULATIVE EXPERIENCE. 6 Hours.
Individualized practice-based public health work experience in a professional public health-related setting (e.g., public health agency, nonprofit organization, legislative representative office, hospital) under the direct supervision of a public health professional. To be taken during the final semester prior to graduation. Prerequisite: KINE 2350, KINE 3350, KINE 3351, KINE 3352, KINE 3353, KINE 3354, KINE 4352, KINE 4355, KINE 4357 and MANA 4326 required. Corequisite: KINE 4354.

KINE 4689. EXERCISE SCIENCE INTERNSHIP. 9 Hours.
Individualized academic training in an external professional exercise science setting (e.g., hospital, physical therapy, university laboratory) under the direct supervision of an exercise science professional. Prerequisite: KINE 4315, KINE 4316, KINE 4387 (or concurrent enrollment), proof of sufficient professionally liability insurance, and permission of instructor.

KINE 4689. FITNESS MANAGEMENT INTERNSHIP. 9 Hours.
Designed on an individual basis to allow the student to apply academic training in a professional fitness center under the direct supervision of a fitness specialist. Prerequisite: Current CPR certification, KINE 4315, KINE 4316, KINE 4387 (or concurrent enrollment), proof of sufficient professional liability insurance, and permission of instructor.

KINE 4698. EXERCISE SCIENCE INTERNSHIP. 9 Hours.
Individualized academic training in an external professional exercise science setting (e.g., hospital, physical therapy, university laboratory) under the direct supervision of an exercise science professional. Prerequisite: KINE 4315, KINE 4316, KINE 4387 (or concurrent enrollment), current CPR certification, proof of sufficient professional liability insurance, and permission of instructor.

KINE 4699. FITNESS MANAGEMENT INTERNSHIP. 9 Hours.
Designed on an individual basis to allow the student to apply academic training in a professional fitness center under the direct supervision of a fitness specialist. Prerequisite: Current CPR certification, KINE 4315, KINE 4316, KINE 4387 (or concurrent enrollment), proof of sufficient professionally liability insurance, and permission of instructor.

KINE 5120. ATHLETIC TRAINING CLINICAL I. 1 Hour.
An introduction to clinical experiences in athletic training. Students will be introduced to ethical and confidentiality standards, basic clinical skills, communication and interprofessional practice skills, and cultural competency and humility. Prerequisite: Admission to the MSAT Program. Prerequisite: Admission to the MSAT Program.

KINE 5121. FUNCTIONAL ANATOMY AND BIOMECHANICS FOR THE ATHLETIC TRAINER II. 1 Hour.
This course builds on prerequisite knowledge of human musculoskeletal anatomy to describe human movement. Principles of biomechanics and kinesiology will guide an advanced, applied understanding of arthrokinematics, kinetic chain principles, functional movement, and the anatomy of common musculoskeletal injuries. Prerequisite: KINE 5229.

KINE 5122. DOCUMENTATION AND HEALTH INFORMATICS FOR THE ATHLETIC TRAINER. 1 Hour.
This course is designed to introduce and develop effective medical documentation skills. Health informatic concepts and disablement classification models will be introduced to support quality of care and to measure functional outcomes/treatment goals. Prerequisite: KINE 5120, KINE 5229, KINE 5230, KINE 5236.

KINE 5123. PHARMACOLOGY IN ATHLETIC TRAINING. 1 Hour.
This course will provide background information on pharmacological agents for the management of general medical and orthopedic conditions. Emphasis will be placed on the development of patient education in the areas of indication, contraindication, dosing, interaction, route of administration, and adverse reaction related to various medications and therapeutic agents. Prerequisite: KINE 5222, KINE 5237, KINE 5324, KINE 5325.

KINE 5125. IMMUNOLOGY. 1 Hour.
This course will include a brief review of the immune system and factors that affect immune function with emphasis on the effect of exercise and stress on muscle and overall immune function. The effect of nutrition and over-training on the immune system and associated syndromes/diseases will also be presented.

KINE 5128. CLINICAL DIAGNOSTIC PROCEDURES. 1 Hour.
This course provides fundamental clinical knowledge of commonly utilized diagnostic procedures and tests in medical practice. Emphasis will be placed on understanding of indications, contraindications, and clinical implications of diagnostic tests and understanding of normal and diseased states. Correlation and integration of test results into clinical examination findings and clinical plan of care will be addressed. Prerequisite: Admission to MSAT Program.
KINE 5130. Clinical Athletic Training II. 1 Hour.
Clinical experiences in selected health care settings that provide students the opportunity to integrate their knowledge and skills into actual patient care. Emphasis will be placed on the development of clinical decision-making skills. This course requires the completion of 250 hours of clinical experience under the supervision of a program approved clinical preceptor. Prerequisites: KINE 5420, KINE 5220, KINE 5120.

KINE 5140. Clinical Athletic Training III. 1 Hour.
Clinical experiences in selected health care settings that provide students the opportunity to integrate their knowledge and skills into actual patient care. Emphasis will be placed on the development of clinical decision-making skills. This course requires the completion of 250 hours of clinical experience under the supervision of a program approved clinical preceptor. Prerequisite: KINE 5130.

KINE 5150. Clinical Athletic Training IV. 1 Hour.
Clinical experiences in selected health care settings that provide students the opportunity to integrate their knowledge and skills into actual patient care. Emphasis will be placed on the development of clinical decision-making skills. This course requires the completion of 250 hours of clinical experience under the supervision of a program approved clinical preceptor. Prerequisite: KINE 5140.

KINE 5160. Clinical Athletic Training V. 1 Hour.
Clinical experiences in selected health care settings that provide students the opportunity to integrate their knowledge and skills into actual patient care. Emphasis will be placed on the development of clinical decision-making skills. This course requires the completion of 250 hours of clinical experience under the supervision of a program approved clinical preceptor. Prerequisite: KINE 5150.

KINE 5170. JOURNAL CLUB IN PHYSIOLOGY. 1 Hour.
This course is designed to provide the students an opportunity to learn the art of critically reading and interpreting research articles. There will be emphasis on identifying strengths and weakness of research studies. There will also be an opportunity for the students to present their research study ideas and / or their preliminary findings of their research to the class. This will provide an opportunity for students to interact and receive / provide feedback regarding methodological approaches and interpretation of findings. Lastly, the student will learn how to prepare and deliver presentations to an audience.

KINE 5171. JOURNAL CLUB IN MOVEMENT & REHABILITATION SCIENCES. 1 Hour.
There is a growing emphasis on research and in particular student involvement in research at UTA. A fundamental skill that will be critical in the successful growth of student involvement in research is their ability to read and critically analyze / interpret journal articles. In addition to this important skill the students will also gain valuable experience by presenting their research study ideas and / or their preliminary findings of their research to the class. This will provide an opportunity for students to interact and receive / provide feedback regarding methodological approaches and interpretation of findings.

KINE 5190. SPECIAL TOPICS IN KINESIOLOGY. 1 Hour.
In-depth study of selected topics in physical education and exercise science. May be repeated when topics vary. Prerequisite: consent of instructor.

KINE 5191. INTERNSHIP IN CARDIOPULMONARY REHABILITATION. 1 Hour.
The student will complete 400 internship hours in an approved Cardiopulmonary rehabilitation setting. The student may take two semesters of KINE 5191 at 200 hours each. The student will be involved in patient/client assessment, training, rehabilitation, risk factor identification and lifestyle management services provided for individuals with or at risk for cardiovascular, pulmonary, and metabolic diseases. In addition the student will observe common cardiac surgeries and diagnostic procedures to better understand the pathophysiology and treatment of cardiovascular, pulmonary and metabolic disease.

KINE 5192. INTERNSHIP IN GRADED EXERCISE TESTING FOR HIGH RISK POPULATIONS. 1 Hour.
The student will complete 200 hours of graded exercise testing in an approved hospital or outpatient clinical setting which conducts exercise tests for high risk populations, including clients with suspected cardiopulmonary and metabolic diseases. The student will be exposed to noninvasive (echocardiography and graded exercise testing) and invasive methods used to diagnose cardiopulmonary and metabolic disease, including procedures conducted in cath and nuclear testing laboratories.

KINE 5193. PHYSIOLOGY OF EXERCISE INTERNSHIP. 1 Hour.
Individualized academic training in an external professional exercise physiology setting (e.g., physical medicine, athletic training, external laboratory, health/fitness facility, professional teams or sports management) under the direct supervision of an exercise science professional.

KINE 5194. RESEARCH IN KINESIOLOGY. 1 Hour.
Individually approved research projects selected from the various areas of Kinesiology.

KINE 5195. INTERNSHIP IN GRADED EXERCISE TESTING FOR HIGH RISK POPULATIONS. 1 Hour.
The student will complete 200 hours of graded exercise testing in an approved hospital or outpatient clinical setting which conducts exercise tests for high risk populations, including clients with suspected cardiopulmonary and metabolic diseases. The student will be exposed to noninvasive (echocardiography and graded exercise testing) and invasive methods used to diagnose cardiopulmonary and metabolic disease, including procedures conducted in cath and nuclear testing laboratories.

KINE 5196. LABORATORY TECHNIQUES IN EXERCISE SCIENCE. 1 Hour.
A primary objective of this course is to further your understanding of exercise physiology. A second but equally important objective is to enhance your ability for critical thinking on exercise physiology through the scientific process. This includes formation of a research question, hypothesis, designing an experiment, and inferring conclusions from data. Secondary objectives include improving technology skills to assist collecting and analyzing data, and writing and oral communication skills for demonstrating understanding of the physiological principles.
KINE 5198. THESIS. 1 Hour.

KINE 5220. PREVENTATIVE AND ACUTE CARE TECHNIQUES IN ATHLETIC TRAINING. 2 Hours.
Classroom and laboratory experiences designed to provide students with formal instruction and evaluation in the prevention and acute care of activity related injuries and illnesses.

KINE 5221. CLINICAL ATHLETIC TRAINING II. 2 Hours.
This course will include clinical experiences and simulation, providing students the opportunity to integrate their knowledge and skills into actual patient care. Emphasis will be placed on the development of clinical decision-making skills. This course requires the completion of clinical experience under the supervision of a program approved preceptor. The course will also provide opportunities for simulation and mastery of clinical skills. Prerequisite: KINE 5120, KINE 5229, KINE 5230, KINE 5236.

KINE 5222. CLINICAL ATHLETIC TRAINING III. 2 Hours.
This course will include clinical experiences and simulation, providing students the opportunity to integrate their knowledge and skills into actual patient care. Emphasis will be placed on the development of clinical decision-making skills. This course requires the completion of clinical experience under the supervision of a program approved preceptor. Prerequisite: KINE 5121, KINE 5221, KINE 5321, KINE 5332.

KINE 5224. CLINICAL ATHLETIC TRAINING V. 2 Hours.
This course will include clinical experiences and simulation providing students the opportunity to integrate their knowledge and skills into actual patient care. Emphasis will be placed on the development of clinical decision-making skills as well as exam review and test-taking strategies. This course requires the completion of clinical experience under the supervision of a program approved preceptor. Prerequisite: KINE 5123, KINE 5306, KINE 5339, KINE 5343.

KINE 5226. PATHOPHYSIOLOGY AND PHARMACOLOGY II. 2 Hours.
Further study of acute and chronic illnesses and their response to, and impact on, physical activity. Discussion of pharmacological agents used in the care of general illnesses and musculoskeletal disorders in the physically active. Prerequisite: KINE 5348.

KINE 5227. LITERATURE AND RESEARCH FOR THE ATHLETIC TRAINER. 2 Hours.
This course is an overview of concepts and procedures necessary for designing, conducting, and critically appraising research in Athletic Training from multiple research paradigms. The course will focus on the steps involved in the administration of a research project, including literature review, design, data collection and analysis. Prerequisite: KINE 5223, KINE 5234, KINE 5341, KINE 5356.

KINE 5228. SEMINAR IN ATHLETIC TRAINING. 2 Hours.
A capstone course designed to provide students the opportunity to synthesize and integrate the athletic training theories and concepts taught in the previous courses. Class discussions and projects will emphasize health care administration, professional development, cultural competence, transition to practice, inter-professional education and skills required of the entry-level athletic trainer. Prerequisite: KINE 5333, KINE 5227, KINE 5224.

KINE 5229. FUNCTIONAL ANATOMY AND BIOMECHANICS FOR THE ATHLETIC TRAINER. 2 Hours.
This course builds on prerequisite knowledge of human musculoskeletal anatomy to describe human movement. Principles of biomechanics and kinesiology will guide the understanding of mechanical and physiologic interactions between muscles and joints to form the basis of understanding normal and pathological movement. This course will specifically focus on identifying musculoskeletal landmarks through lecture, virtual cadaver learning, and hands-on palpation. Prerequisite: Admission to MSAT Program.

KINE 5230. FOUNDATIONS OF ORTHOPEDIC ASSESSMENT AND THERAPEUTIC INTERVENTIONS. 2 Hours.
This course is designed to develop foundational skills in orthopedic injury assessment and an understanding of the theory and the basic principles of diagnostic testing and therapeutic interventions for the rehabilitation and reconditioning of injuries and illnesses of those involved with physical activity. The focus of the course is on patient-centered care and will include principles related to the injury evaluation process, healing and pain physiology, and therapeutic interventions commonly utilized during the initial phases of acute and chronic injuries and conditions. The use of patient rated outcome scales along with quality improvement through planning, implementing, documenting, and evaluating clinical techniques used in orthopedic injury assessment and intervention programs will be discussed. Prerequisite: Admission to MSAT Program.

KINE 5231. FUNDAMENTALS OF ATHLETIC TRAINING I. 2 Hours.
This course is designed to provide the entry level athletic training student with classroom and laboratory experiences to provide an introduction to the profession and the role of athletic trainers in the overall health care environment. Emphasis will be placed on the epidemiology of orthopedic injuries, orthopedic trauma, emergency planning and care, cold and hot therapeutic modalities, and prevention of sudden death. Prerequisite: Admission to MSAT Program.

KINE 5232. FUNDAMENTALS OF ATHLETIC TRAINING II. 2 Hours.
This course is designed to provide the entry level athletic training student with classroom and laboratory experiences to further their development as an athletic trainer in a dynamic health care system. Emphasis will be placed on interprofessional practice, prevention of sudden death, nutrition for the physically active, ergonomics, body composition assessment, and fitness assessment/programming. Prerequisite: Admission to MSAT Program.

KINE 5233. THERAPEUTIC MODALITIES. 2 Hours.
This course is designed to provide the entry level athletic training student with classroom and laboratory experiences to provide an understanding of the theory and application of common therapeutic modalities for the treatment of musculoskeletal injuries. Emphasis will be placed on using the disabatement model to plan, implement, and document the use of therapeutic modalities for the treatment and rehabilitation of injuries and illnesses of those involved with physical activity. Critical appraisal of research studies regarding the effectiveness and efficacy of therapeutic modalities will also be emphasized. Prerequisite: Admission to MSAT Program.
KINE 5234. CLINICAL REASONING AND DECISION MAKING. 2 Hours.
This course is designed to provide an understanding and application of theories and frameworks to clinical decision making. Students will work toward becoming an effective practitioner, able to make clinical decisions by studying clinical situations and how health care professionals make clinical decisions. Emphasis will be placed on problem solving strategies, decision making and evidence based rationale. Clinical reasoning will be developed while integrating knowledge and skills in management of complex clinical conditions using scientific and contemporary evidence-based clinical knowledge. Prerequisite: Admission into MSAT Program.

KINE 5235. ADVANCED FUNCTIONAL ASSESSMENT AND CORRECTIVE EXERCISE. 2 Hours.
This course will introduce functional movement assessments and corrective exercises as a preventative and therapeutic approach to musculoskeletal conditions. Specific topics will include advanced techniques designed to restore body symmetry and theories of functional movement. Evidence-based application of functional assessment, evaluation and assignment of corrective exercises will be emphasized. Prerequisite: KINE 5123, KINE 5306, KINE 5339, KINE 5343.

KINE 5236. PREVENTION, HEALTH PROMOTION, AND WELLNESS. 2 Hours.
This course will highlight the athletic trainer's role in promoting and maintaining the health and well-being of individuals and populations before and after injuries and illnesses. Emphasis will be placed on the epidemiology and prevention of musculoskeletal injuries, medial conditions, and chronic disease, emergency planning and care, environmental monitoring, nutrition and dietary interventions, biometrics, and other determinants including social, economic, and individual factors that affect health outcomes. Prerequisite: Admission to the MSAT Program.

KINE 5237. BEHAVIORAL AND POPULATION HEALTH. 2 Hours.
This course will highlight the athletic trainer's role in promoting and maintaining the health and well-being of individuals and populations. The athletic trainer's role in behavioral health will be emphasized, as well as development, implementation, and assessment of preventative measures to reduce injury risk and long-term health conditions across the lifespan. Emphasis will also be placed on population-level problems, including health risks and determinants as well as individual and behavioral factors that affect health outcomes. Prerequisite: KINE 5121, KINE 5221, KINE 5321, KINE 5332.

KINE 5238. ADVANCED MANUAL THERAPY AND INTEGRATED MODALITIES. 2 Hours.
This course is designed to introduce students to advanced manual therapy and integrated therapeutic modalities that are currently used in musculoskeletal rehabilitation. Both the theoretical and scientific basis of novel therapeutic interventions will be examined using an evidence-based approach. Emphasis will be placed on the foundational concepts and techniques associated with selection and application and how to make effective clinical decisions. Prerequisite: KINE 5123, KINE 5306, KINE 5339, KINE 5343.

KINE 5239. HEALTH CARE ADMINISTRATION. 2 Hours.
A study of the administrative issues and management theories that may be encountered in overseeing an athletic training/sports medicine program. Special emphasis is placed on the practical application of concepts related to legal liability, facility design and maintenance, financial and budget management, common health insurance models, insurance contract negotiation, strategic planning as a means to assess and promote organizational improvement, the impact of organizational structure on the daily operations of a healthcare facility, components of developing and implementing a basic business plan, medical record and documentation systems, federal and state infection control regulations and guidelines, risk management plan development, emergency action planning, and general day to day operations. Prerequisite: KINE 5123, KINE 5306, KINE 5339, KINE 5343.

KINE 5240. ADVANCED IMMEDIATE AND EMERGENCY CARE. 2 Hours.
This course is designed to provide knowledge and skills related to the immediate and emergent care of injuries/conditions in work settings of athletic trainers. Prerequisite: KINE 5123, KINE 5306, KINE 5339, KINE 5343.

KINE 5241. PERFORMANCE ENHANCEMENT FOR THE ATHLETIC TRAINER. 2 Hours.
Concepts, theories, and foundational background information will be presented to optimize human movement and performance. An emphasis on sports science, technology and data analysis will be discussed to enhance program design and patient goals. Prerequisite: KINE 5123, KINE 5306, KINE 5339, KINE 5343.

KINE 5242. SPECIAL TOPICS IN KINESIOLOGY. 2 Hours.
In-depth study of selected topics in physical education and exercise science. May be repeated when topics vary. Prerequisite: consent of instructor.

KINE 5291. INTERNSHIP IN CARDIOPULMONARY REHABILITATION. 2 Hours.
The student will complete 400 internship hours in an approved Cardiopulmonary rehabilitation setting. The student may take two semesters of KINE 5191 at 200 hours each. The student will be involved in patient/client assessment, training, rehabilitation, risk factor identification and lifestyle management services provided for individuals with or at risk for cardiovascular, pulmonary, and metabolic diseases. In addition the student will observe common cardiac surgeries and diagnostic procedures to better understand the pathophysiology and treatment of cardiovascular, pulmonary and metabolic disease.

KINE 5292. SPECIAL TOPICS IN KINESIOLOGY. 2 Hours.

KINE 5293. PHYSIOLOGY OF EXERCISE INTERNSHIP. 2 Hours.
Individualized academic training in an external professional exercise physiology setting (e.g., physical medicine, athletic training, external laboratory, health/fitness facility, professional teams or sports management) under the direct supervision of an exercise science professional.

KINE 5294. RESEARCH IN KINESIOLOGY. 2 Hours.
Individually approved research projects selected from the various areas of Kinesiology.
KINE 5298. THESIS. 2 Hours.

KINE 5300. RESEARCH METHODS IN KINESIOLOGY. 3 Hours.
This course is an overview of concepts and procedures necessary for designing, conducting, and analyzing research in Kinesiology from multiple research paradigms. The course will focus on the steps involved in the administration of a research project, including literature review, design, data collection and analysis.

KINE 5305. APPLIED STATISTICAL PRINCIPLES IN KINESIOLOGY. 3 Hours.
The course covers descriptive statistics, elementary probability, one- and two-population mean and variance comparisons, ANOVA, simple linear regression, and correlations. In addition, more advanced principles in parametric and non-parametric statistics will be emphasized.

KINE 5306. CLINICAL ATHLETIC TRAINING IV. 3 Hours.
This course will include clinical experiences, providing students the opportunity to integrate their knowledge and skills into actual patient care. Emphasis will be placed on the development of clinical decision-making skills. This course requires the completion of clinical experience under the supervision of a program approved preceptor. Prerequisite: KINE 5222, KINE 5237, KINE 5324, KINE 5325.

KINE 5308. ADVANCED STATISTICAL ANALYSIS. 3 Hours.
This course presents an applied approach on the use of mixed effects and/or multilevel models for clustered, repeated, and longitudinal experimental designs. Develops the skills to implement and interpret random effects, variance component models of time varying and time invariant predictors on outcome variables. Included topics: transitioning from general linear model to mixed effects model, interpretation of population-average and subject specific models containing random intercept and random slopes. Discussion of special topics including importance of graphing data, model fitting, centering, variance/covariance matrix, sample size, sample power, missing data in repeated measures designs. Prerequisite: Instructor Approval.

KINE 5320. ADVANCED PHYSIOLOGY OF EXERCISE. 3 Hours.
Lecture and laboratory sessions are designed to investigate concepts of energy metabolism, lactate production and accumulation, energy expenditure, excess post exercise oxygen consumption, cardiovascular and temperature regulation, neuromuscular control, aerobic and anaerobic adaptations and ergonomics.

KINE 5321. THERAPEUTIC INTERVENTIONS I. 3 Hours.
This course will present the theoretical and scientific basis for traditional therapeutic interventions including taping, wrapping, padding, durable medical equipment, cryotherapy, thermotherapy, joint mobilizations, exercise, and manual therapy techniques commonly used in the treatment of orthopedic injuries and conditions. Discussions will include the study of physical rehabilitation theory including basic physics, physiological effects, indications, and contraindications for traditional therapeutic interventions. Emphasis will be placed on the critical analysis of clinical practice and existing research to establish quality patient care. This course includes the execution of clinical and home care plans, the use of patient rated outcome scales, and the integration of pharmacological interventions. Prerequisite: KINE 5120, KINE 5229, KINE 5230, KINE 5236.

KINE 5322. METABOLISM & EXERCISE BIOCHEMISTRY. 3 Hours.
This course will address the regulation of exercise metabolism as well as the distinct biochemical pathways through which energy transduction occurs. This will allow the student to appreciate not only the end result of metabolism, ultimately the production and maintenance of cellular ATP levels, but also the pathways that biological machines use to achieve ATP homeostasis. Calorimetry, respiratory exchange ratio, and substrate utilization during exercise will be assessed as part of the laboratory section of this course.

KINE 5323. MOTOR CONTROL AND LEARNING. 3 Hours.
This course advances on fundamental concepts of motor behavior and performance combining theoretical principles to a variety of realistic contexts to provide the basis of skilled behavior. Contemporary research in human motor behavior models is used to identify effective solutions to practical problems and to spark ideas for optimizing development, learning, and control of motor skills.

KINE 5324. ASSESSMENT AND MANAGEMENT II. 3 Hours.
This course will focus on examination and initial management of chronic musculoskeletal pathologies. Emphasis will be placed on diagnostic testing and development of a care plan. Prerequisite: KINE 5121, KINE 5221, KINE 5321, KINE 5332.

KINE 5325. THERAPEUTIC INTERVENTIONS II. 3 Hours.
This course will present the theoretical and scientific basis for traditional therapeutic interventions including taping, wrapping, padding, durable medical equipment, thermotherapy, electrotherapy, acoustic therapy, exercise, and manual therapy techniques commonly used in the treatment of orthopedic injuries and conditions. Discussions will include the study of physical rehabilitation theory including basic physics, physiological effects, indications, and contraindications for traditional therapeutic interventions. Emphasis will be placed on the critical analysis of clinical practice and existing research to establish quality patient care. This course includes the execution of clinical and home care plans, the use of patient rated outcome scales, and the integration of pharmacological interventions. Prerequisite: KINE 5121, KINE 5221, KINE 5321, KINE 5332.

KINE 5326. CARDIOVASCULAR PHYSIOLOGY OF EXERCISE. 3 Hours.
The structure and function of the cardiovascular and circulatory system will be studied, as well as, cardiac control, the cardiac cycle, cardiac output, hemodynamics, vascular resistance, arterial-venous oxygen difference and oxygen delivery and consumption. Heat production and thermal control during exercise will also be addressed in lecture and laboratory sessions.

KINE 5327. PULMONARY PHYSIOLOGY OF EXERCISE. 3 Hours.
Examines the structure and function of the pulmonary system including mechanics of breathing, lung capacity tests, pulmonary circulation, lung diseases, gas exchange, ventilation, diffusing capacity, acid/base balance, neural and chemical regulation of breathing, and blood flow with respect to rest and exercise values in healthy and diseased populations. Prerequisite: KINE 5320.
KINE 5328. NEUROMUSCULAR PHYSIOLOGY OF EXERCISE. 3 Hours.
The structure and function of muscle, including the motor unit, control and integration, central and peripheral modifiers of neuromuscular control and biochemical characteristics of fibers will be studied. These concepts will also be applied to concepts in strength and power development.

KINE 5329. STRENGTH & CONDITIONING IN SPORT AND PERFORMANCE. 3 Hours.
The course covers the physiology and biomechanics of strength training and conditioning. Additional topics include: testing and evaluation of athletes, resistance training techniques, training program design, and organization administration of a strength training facility. This course is designed to prepare students to take the CSCS certification examination. Prerequisite: current CPR certification, KINE 3300, KINE 3301, KINE 3315, or permission of the instructor.

KINE 5330. ENVIRONMENTAL PHYSIOLOGY OF EXERCISE. 3 Hours.
This course will address the impact of environmental stress (e.g., thermal, gravitational, microgravity, etc.) on the cardiovascular system. Related focus will be given to cardiac function, blood pressure regulation and thermoregulation. Topics will be addressed in lecture and laboratory sessions. *Doctoral students will be required to complete an additional research-related assignment.

KINE 5331. OBESITY & WEIGHT MANAGEMENT. 3 Hours.
This course is an overview of concepts and procedures necessary for designing, conducting, and critically appraising research in Athletic Training from general emergency care and acute management of injuries and illness. Students will also be required to complete a scholarship project concerning injuries and rehabilitation concerns, metabolic conditions (e.g., diabetes), youth, elderly, and pregnant or post-prenatal women. This course is designed to prepare students to work in cardiac rehabilitation and other allied health professions.

KINE 5332. ASSESSMENT AND MANAGEMENT I. 3 Hours.
This course builds on the foundation from functional anatomy and biomechanics. Examination skills and immediate management interventions that apply to acute orthopedic and medical conditions are reviewed.

KINE 5334. SEMINAR IN ATHLETIC TRAINING. 3 Hours.
Graduate seminar discussing current issues in athletic training. Class discussions and projects will prepare students for entry-level practice.

KINE 5335. GRADED EXERCISE TESTING AND PRESCRIPTION. 3 Hours.
The knowledge and skills necessary for assessment of health history and appraisal, blood pressure, electrocardiogram, cardiovascular fitness and function will be acquired in lecture and laboratory sessions. Various test modalities and protocols will be discussed for health and diseased populations.

KINE 5336. ECG INTERPRETATION. 3 Hours.
Principles of electrocardiography will be explored, with emphasis on interpretation of resting and stress ECGs. Interpretation of dynamic rhythm strips will prepare students to work in cardiac rehabilitation and other allied health professions.

KINE 5337. STRENGTH AND CONDITIONING IN GENERAL POPULATIONS: HEALTH AND DISEASE. 3 Hours.
This course covers the physiology and biomechanics of strength training and conditioning as it applies to the general populations across the spectrum of health and disease. This includes: testing, evaluation, resistance training techniques and training program design for individuals with orthopedic injuries and rehabilitation concerns, metabolic conditions (e.g., diabetes), youth, elderly, and pregnant or post-prenatal women. This course is designed to prepare students to take the NSCA-CPT, and apply the skills needed to be a leader within the personal training and physical therapy career paths. Prerequisite: KINE 3300, KINE 3315, and KINE 3325.

KINE 5338. EXERCISE PRESCRIPTION FOR SPECIAL POPULATIONS. 3 Hours.
This course will discuss the pathophysiology of prevalent cardiovascular, metabolic and pulmonary diseases. Methods of exercise prescription and issues of concern will also be presented for these populations, as well as, low back pain, pregnancy, osteoporosis, cancer, children, older adults, fibromyalgia, multiple sclerosis and cardiac disease.

KINE 5339. ASSESSMENT AND MANAGEMENT III. 3 Hours.
This course introduces the study of acute and chronic illnesses and their response to, and impact on, physical activity. An emphasis will be placed on clinical examination skills and tools to screen patients for the presence of signs and symptoms related to acute and chronic illness. Prerequisite: KINE 5222, KINE 5237, KINE 5324, KINE 5325.

KINE 5340. ENVIRONMENTAL PHYSIOLOGY. 3 Hours.
This course will address the impact of environmental stress (e.g., thermal, gravitational, microgravity, etc.) on the cardiovascular system. Related focus will be given to cardiac function, blood pressure regulation and thermoregulation. Topics will be addressed in lecture and laboratory sessions.

KINE 5342. IMMEDIATE AND EMERGENCY CARE 2. 3 Hours.
This course is designed to build off of Immediate and Emergency Care 1 and include didactic and clinical experiences surrounding best practices in general emergency care and acute management of injuries and illness. Students will also be required to complete a scholarship project concerning general emergency care and acute management of injuries and illnesses. Clinical hours will be required in an emergency medicine environment.

KINE 5343. LITERATURE AND RESEARCH FOR THE ATHLETIC TRAINER. 3 Hours.
This course is an overview of concepts and procedures necessary for designing, conducting, and critically appraising research in Athletic Training from multiple research paradigms. The course will focus on the steps involved in the administration of a research project, including literature review, design, data collection and analysis. Prerequisite: KINE 5222, KINE 5237, KINE 5324, KINE 5325.

KINE 5344. SCHOLARSHIP IN ATHLETIC TRAINING PRACTICE. 3 Hours.
This course is designed to build off of the foundations of Literature and Research for the Athletic Trainer with further study of data collection and analysis as well as evidence-based practice principles. Students will be expected to complete a scholarship project related to athletic training practice. Prerequisite: KINE 5227.
KINE 5345. SPORT NUTRITION. 3 Hours.
Overview of nutrients necessary for healthful living and nutritional impact on reducing risk factors of lifestyle diseases. Application of nutrient recommendations for sports and exercise activities, including fluid replacement, sports supplements, and ergogenic aids. In addition, students will construct plans for dietary intake of athletes during training and competition for both endurance and resistance training. Offered as KINE 5345 and KINE 5330. Credit will be granted only once.

KINE 5346. ADVANCED FUNCTIONAL ASSESSMENT AND CORRECTIVE EXERCISE. 3 Hours.
Classroom and laboratory experiences that provide an introduction to functional assessment and corrective exercises. Specific topics will include an analysis of common biomechanics of movement and the evidence-based application of functional assessment and assignment of corrective exercises. Prerequisite: KINE 5420, KINE 5430, KINE 5431, KINE 5432, KINE 5444.

KINE 5347. ADVANCED FUNCTIONAL ASSESSMENT AND CORRECTIVE EXERCISE. 3 Hours.
Classroom and laboratory experiences that provide an introduction to functional assessment and corrective exercises. Specific topics will include an analysis of common biomechanics of movement and the evidence-based application of functional assessment and assignment of corrective exercises. Prerequisite: KINE 5420, KINE 5430, KINE 5431, KINE 5432, KINE 5444.

KINE 5348. PATHOPHYSIOLOGY AND PHARMACOLOGY I. 3 Hours.
This course provides an introduction to the study of acute and chronic illnesses and their response to, and impact on, physical activity. Discussion of pharmacological principles will be incorporated as it relates to the care of general illnesses and musculoskeletal disorders in the physically active. Prerequisite: KINE 5120, KINE 5231.

KINE 5350. APPLIED BIOMECHANICS. 3 Hours.
Application of Newtonian mechanics to human movement analysis. Biomechanical models using three-dimensional video and force plate data will be used to analyze human movement.

KINE 5353. LOWER EXTREMITY ASSESSMENT AND REHABILITATION. 3 Hours.
This course will focus on common orthopedic injuries involving the lower extremities, with a special emphasis on recognition, evaluation, diagnosis, and initial management. Additionally, students will learn to implement rehabilitation programs and therapeutic techniques for lower extremity injuries. Prerequisite: Admission to MSAT Program.

KINE 5354. UPPER EXTREMITY ASSESSMENT AND REHABILITATION. 3 Hours.
This course will focus on common orthopedic injuries involving the upper extremities, with a special emphasis on recognition, evaluation, diagnosis, and initial management. Additionally, students will learn to implement rehabilitation programs and therapeutic techniques for upper extremity injuries. Prerequisite: Admission to MSAT Program.

KINE 5355. PATHOPHYSIOLOGY & PHARMACOLOGY II. 3 Hours.
This course provides further study of acute and chronic illnesses and their response to, and impact on, physical activity. Discussion of pharmacological principles will be incorporated as it relates to the care of general illnesses and musculoskeletal disorders in the physically active. Prerequisite: KINE 5348.

KINE 5356. HEAD AND SPINE ASSESSMENT AND REHABILITATION. 3 Hours.
This course will focus on common orthopedic injuries involving the head and spine, with a special emphasis on recognition, evaluation, diagnosis, and initial management. Additionally, students will learn to implement rehabilitation programs and therapeutic techniques for head and spine injuries. Prerequisite: KINE 5353, KINE 5354.

KINE 5357. PREVENTATIVE MEDICINE AND POPULATION HEALTH. 3 Hours.
This course will highlight the athletic trainer's role in promoting and maintaining the health and well-being of individuals and populations. Development, implementation, and assessment of preventative measures to reduce injury risk and long-term health conditions across the lifespan will be addressed. Emphasis will also be placed on population-level problems, including health risks and determinants as well as individual and behavioral factors that affect health outcomes. Prerequisite: Admission to MSAT Program.

KINE 5360. FUNDAMENTAL PRINCIPLES OF INTEGRATIVE PHYSIOLOGY. 3 Hours.
This course is designed to provide a fundamental understanding of human physiology. Physiological function is a complex process that involves a complex interaction among the various physiological systems. As such there will be an emphasis on the integration of cellular, cardiovascular, renal, autonomic, respiratory, and endocrine physiology.

KINE 5362. PRINCIPLES OF MOVEMENT NEUROSCIENCE. 3 Hours.
This course focuses on principles of movement that have emerged from the computational study of motor control. The principles and application to processes such as motor planning, control, estimation, prediction and learning are explored.

KINE 5363. CONDITIONS OF THE MOTOR SYSTEM IN CHILDHOOD. 3 Hours.
This course explores a prevalent dysfunction of the motor system in childhood, known as Developmental Coordination Disorder (DCD). This class explores potential causes of DCD, common mechanisms and impairments, intervention methods and their effectiveness, and associated co-morbidities. In addition, students will understand the current state of research in the field and understand future avenues for research.

KINE 5364. CURRENT PERSPECTIVES IN MOTOR LEARNING AND CONTROL. 3 Hours.
This course explores five aspects of the new directions in research in the Motor Learning and Control field: Perception-Action mechanisms, Dynamical systems, Motor disorders, Learning and intervention for motor behavior, and neural mechanisms.
KINE 5365. ADVANCED MOTOR DEVELOPMENT. 3 Hours.
This course explores the current field of research in Motor Development applied to typical and special populations. More specifically, it discusses issues related to motor skill learning in childhood, the development of motor control, the relationship between motor competence and general health, and how lack of appropriate motor skills affect several domains of development (Developmental Coordination Disorder). To that, we use current research articles that discuss each one of these topics from different perspectives.

KINE 5370. GLOBAL HEALTH. 3 Hours.
Today's public health practice requires an awareness of health threats beyond U.S. borders. “Global health” implies health concerns and solutions that are shared worldwide. In this course, students will study global health priorities among different populations, cultures, and health systems. Students will examine health challenges and disease threats faced in resource-constrained countries, and the roles of health determinants, socioeconomic and health equity in improving health outcomes. In addition, students will learn about the foundational elements of global health, including globalization and health, water, sanitation, the burden of infectious and chronic diseases, human rights and global health partnerships.

KINE 5371. PUBLIC HEALTH PROGRAM PLANNING AND EVALUATION. 3 Hours.
Before we can effectively receive funding and implement programs that benefit our communities, we have to answer many questions. Who is the target audience? What are the program's goals? What are the intended outcomes of the program? How can we measure program effectiveness? Program evaluation is the methodology to developing scientifically sound answers to these questions. This course will teach you how evaluators work with stakeholders and project teams to tailor an intervention to a target audience, and document program activities, outcomes and impact on a community health issue. This course will allow you to have hands-on experience designing and conducting program evaluation.

KINE 5372. INTRODUCTION TO EPIDEMIOLOGY. 3 Hours.
By participating in this course students will learn the critical role that epidemiology plays in preventing and controlling disease. This course provides students with a foundation of the methods and concepts used in epidemiology. Students will learn the measures used in epidemiology and apply principles of causality, study design, disease surveillance, and outbreak investigations. In addition, students will be introduced to sources of data used in epidemiologic studies. The major course project will provide students with hands-on experience using skills sought by employers in public health agencies.

KINE 5373. INTRODUCTION TO ENVIRONMENTAL AND OCCUPATIONAL HEALTH. 3 Hours.
This course provides an overview of the critical environmental health problems in industrialized and developing countries, discusses their causes and solutions, and emphasizes the role of science in environmental policy decisions. Topics include climate change, water and air contaminants, injury risk and prevention in the workplace, food and water-borne disease, toxic metals, and how the body reacts to environmental pollutants.

KINE 5374. RACE, ETHNICITY AND HEALTH. 3 Hours.
Despite advances in medicine and health policies, racial and ethnic health disparities persist. Americans of color have higher mortality rates and an unequal burden of many health concerns compared to their white counterparts. Such health inequities compromise the cultural and economic fabric of our country. This course will discuss the complex relationship between socioeconomic status, race/ethnicity, and health. In addition, this course will examine the economic and societal threats that health disparities pose to our communities and nation, as well as policies and approaches to addressing such disparities.

KINE 5375. COMMUNITY HEALTH. 3 Hours.
This course explores population health, providing students with learning experiences that facilitate an understanding of what public health is and why it is important. Course activities guide students in exploring their role in population health dynamics of their communities. The course will provide students an investigation of theoretical and evidence-based strategies designed to improve community health from population-based approaches. Students will then narrow those areas of focus to contemplate real-world, practice-based learning experiences.

KINE 5376. INTRODUCTION TO BIOSTATISTICS. 3 Hours.
The course will introduce students to analysis skills applied in the public health sciences. Students will learn how to apply descriptive statistics, t-tests, ANOVA, correlation, multiple regression, and non-parametric statistics to public health problems.

KINE 5377. INTRODUCTION TO HEALTH SYSTEMS AND POLICY. 3 Hours.
What is "population health" and why does it matter? Why are U.S. health care costs so high? How is the U.S. health system financed? What are the basic principles of health insurance? Who are the uninsured? It is critical that public health professionals be able to answer these questions and understand the basic functions that comprise the U.S. health care system. This course will help students answer these questions through an introduction to health systems and policy, including the delivery, quality and costs of health care for individuals and populations. The course will also examine the structure, processes and outcomes of health services, financing, organization, outcomes and accessibility of care.

KINE 5378. FOUNDATIONS OF PUBLIC HEALTH. 3 Hours.
This course teaches students what public health is and how it works. The mission of public health is to assure conditions in which people can be healthy. This course will present the history, frameworks, values, and goals of public health which support this mission. Students will study the principles and core responsibilities of public health from a multidisciplinary perspective, with emphasis on the public health core functions of assessment, policy development, and assurance. This course will provide the foundation for further studies in public health practice through developing public health problem solving and decision-making skills through case studies and applied coursework.
KINE 5379. FUNDAMENTALS OF POPULATION HEALTH. 3 Hours.
Public health is charged with advancing health while reducing health care costs. This requires us to move away from a reactionary model of health care delivery and towards models of disease prevention and health promotion. Students will consider how collaborations among organizations within and outside the health care system, and the integration of public health into clinical care, impacts population health. The course will use case studies and applied learning to discuss the role of incentives, financing, data, measurement, structure of health care delivery, and policy in advancing population health.

KINE 5380. URBAN COMMUNITY HEALTH ASSESSMENT. 3 Hours.
We must learn the health needs in a community before we can address those needs to improve the health of the community. Assessment skills allow us to learn what health needs exist in a community by using sounds scientific methods to collect evidence about gaps in health. In this course, students will apply quantitative and qualitative methods, data analysis, community mobilization, and capacity building to assess community health needs and strategies for health improvement.

KINE 5381. SOCIAL AND BEHAVIORAL EPIDEMIOLOGY. 3 Hours.
Social epidemiology considers how social determinants impact population health. Behavioral epidemiology studies how lifestyle and behaviors affect health conditions. The class will explore how social, political, cultural and economic forces influence our health and health behaviors. The course will focus on social and health inequities, and resulting health behaviors. Theory from social science is integrated with epidemiological methods to learn how social circumstances influence behavior and health, and determine how we can target interventions to reduce health inequities in our community, nation and world. Prerequisite: KINE 5372 Introduction to Epidemiology.

KINE 5382. CHRONIC DISEASE EPIDEMIOLOGY. 3 Hours.
Chronic diseases are the leading causes of death in the United States and globally. Chronic diseases, such as cardiovascular disease, cancer, diabetes, HIV/AIDS, respiratory conditions, and neurologic disorders have devastating consequences for population health. This class will explore and apply epidemiologic methods which help identify strategies to prevent and treat chronic diseases, emphasizing modifiable risk factors. Coursework will aim to increase student understanding of how epidemiologic methods are used to identify determinants of chronic diseases, and how to identify and target interventions to reduce the burden of chronic disease locally, nationally, and across the globe. Prerequisite: KINE 5372.

KINE 5383. COMMUNITY-BASED INTERNSHIP. 3 Hours.
This course is a required 200-hour service learning experience for Master of Public Health (MPH) students which combines specific learning objectives with reflection. The student will apply skills learned in the MPH program in a "real-life" environment. The student will complete a defined project, mutually agreed upon between the MPH Graduate Advisor and the partner organization, which benefit both the student and the partner organization. Students will keep a log of hours, work performed, and competencies addressed throughout the internship experience, and comply with specified reporting periods. Prerequisite: KINE 5372, KINE 5373, KINE 5376, KINE 5305, KINE 5377, KINE 5375, KINE 5371, and KINE 5378.

KINE 5384. PUBLIC HEALTH CAPSTONE EXPERIENCE. 3 Hours.
This course is the culmination of all previous coursework for Master of Public Health (MPH) students, requiring the student to complete a final paper, poster and oral presentation about the project completed as part of the Community-Based Internship. In addition, the student will complete a professional portfolio comprised of work illustrating the competencies learned during the MPH program and applied during the Internship. Prerequisite: KINE 5372, KINE 5373, KINE 5376, KINE 5305, KINE 5377, KINE 5375, KINE 5371, KINE 5378, and KINE 5383, and completion of all MPH coursework required for graduation, or concurrent enrollment in final courses needed for graduation.

KINE 5385. COMMUNICATION AND HEALTH. 3 Hours.
Students will learn how interpersonal, organizational and mass media communications influence health behaviors and health outcomes. Students will study theories and applied techniques of interpersonal communication in health care and health education settings, as well as the theory and practice of media in achieving desired effects from public health messages.

KINE 5386. BIG DATA FOR EPIDEMIOLOGY. 3 Hours.
Big Data have revolutionized science, including the future of public health. This course prepares future public health practitioners to integrate knowledge of epidemiology methods with the data analytics savvy. Students will gain competence in conducting analysis using large, commonly used health-related databases. Learn how to use large datasets to advance your practice of epidemiology by enrolling in this course. Prior completion or concurrent enrollment in KINE 5372.

KINE 5387. INFECTIOUS DISEASE EPIDEMIOLOGY. 3 Hours.
From Ebola to COVID-19, tuberculosis to hepatitis A—every outbreak has a team of behind-the-scenes disease detectives tracking its source and pathways. Students will learn the methods of infectious disease epidemiology, studying outbreak investigations, disease surveillance, study designs, laboratory diagnosis, and dynamics of transmission. Students must have completed KINE 5372 Introduction to Epidemiology to enroll in this course. Prerequisite: Prior or concurrent enrollment in KINE 5372.

KINE 5388. GLOBAL HEALTH ON-SITE EXPERIENCE ABROAD. 3 Hours.
Students will study the factors impacting health for populations in a selected country outside of the U.S. Then, students will travel to that country at the end of the course for a real life experience learning from people who are impacted by, and/or who help address the health factors in that region. Prerequisite: MPH student or Instructor Permission.

KINE 5389. RESEARCH MANUSCRIPT SUBMISSION. 3 Hours.
The student will collect scientific data in the Physiology of Exercise laboratories or in a work-related environment under the supervision of a faculty member. The student will analyze the data, write a manuscript, and submit a manuscript for publication in a peer-reviewed journal. This course must be taken in the final semester of graduate work and requires approval of the Graduate Advisor.
KINE 5390. SPECIAL TOPICS IN KINESIOLOGY. 3 Hours.
In-depth study of selected topics in physical education and exercise science. May be repeated when topics vary. Prerequisite: consent of instructor.

KINE 5391. INTERMEDIATE BIOSTATISTICS FOR PUBLIC HEALTH. 3 Hours.
This course builds on the foundational skills taught in Intro to Biostatistics. Students will learn how to conduct multivariate regression analysis and code using the statistical analysis program "R." It counts towards the required coursework for the Epidemiology concentration in the MPH. It is open to all graduate students who have completed an introductory statistics course at the graduate level. Prerequisite: KINE 5376 Intro to Biostatistics and KINE 5372 Intro to Epidemiology.

KINE 5392. SPECIAL TOPICS IN KINESIOLOGY. 3 Hours.

KINE 5393. PHYSIOLOGY OF EXERCISE INTERNSHIP. 3 Hours.
Individualized academic training in an external professional exercise physiology setting (e.g., physical medicine, athletic training, external laboratory, health/fitness facility, professional teams or sports management) under the direct supervision of an exercise science professional.

KINE 5394. RESEARCH IN KINESIOLOGY. 3 Hours.
Individually approved research projects selected from the various areas of Kinesiology.

KINE 5395. RESEARCH METHODS FOR PUBLIC HEALTH. 3 Hours.
This course will teach students how to craft research questions, research objectives, plans for data analysis, and other important skills needed when designing original research. Examples and objectives will be tailored to the field of public health. Prerequisite: KINE 5376 Intro to Biostatistics and KINE 5372 Intro to Epidemiology.

KINE 5396. RESEARCH IN ATHLETIC TRAINING. 3 Hours.
Independent research under the supervision of an individual faculty member; may be repeated for credit with consent of Graduate Advisor. Prerequisite: consent of the instructor.

KINE 5397. INTERNSHIP ATHLETIC TRAINING. 3 Hours.
Individualized clinical experience in an external athletic training or other medical setting (e.g., physician's office, rehabilitation clinic, professional sports teams) under the direct supervision of a health care professional.

KINE 5398. THESIS. 3 Hours.
This is a thesis course for student to take to satisfy their MS in Exercise Science degree requirements.

KINE 5399. MENTAL HEALTH IN PUBLIC HEALTH. 3 Hours.
This course explores topics in mental health facing public health researchers and practitioners, including substance use disorder, interpersonal violence, suicidality, and other topics. These topics are explored from the perspective of public health practice.

KINE 5420. CONCEPTS IN ATHLETIC TRAINING. 4 Hours.
Classroom and laboratory experiences that provide an introduction to the profession of Athletic Training with an emphasis on prevention and acute care of activity related injuries and illnesses. Specific topics will include injury prevention strategies; emergency first aid and acute care; superficial application of therapeutic modalities; nutritional considerations; and environmental considerations.

KINE 5430. ORTHOPEDIC ASSESSMENT I. 4 Hours.
A study of the common orthopedic injuries involving the lower extremities, with a special emphasis on recognition, evaluation, diagnosis, and initial management. Prerequisites: KINE 5120, KINE 5220, and KINE 5420.

KINE 5431. Orthopedic Assessment II. 4 Hours.
A study of the common orthopedic injuries involving the upper extremities, spine, head, and face with a special emphasis on recognition, evaluation, diagnosis, and initial management. Prerequisite: KINE 5430.

KINE 5432. PATHOPHYSIOLOGY AND PHARMACOLOGY. 4 Hours.
A study of acute and chronic illnesses and their response to, and impact on, physical activity. Discussion of pharmacological agents used in the care of general illnesses and musculoskeletal disorders in the physically active. Prerequisite: KINE 5430, KINE 5433, KINE 5130.

KINE 5498. THESIS. 4 Hours.

KINE 5520. CLINICAL ATHLETIC TRAINING VI. 5 Hours.
This course will include clinical experiences providing students the opportunity to integrate their knowledge and skills into actual patient care. Emphasis will be placed on the development of clinical decision-making skills. This course requires the completion of clinical experience under the supervision of a program approved preceptor. Prerequisite: KINE 5123, KINE 5306, KINE 5339, KINE 5343.

KINE 5598. THESIS. 5 Hours.

KINE 5647. CLINICAL TEACHING PHYSICAL EDUCATION EC-12. 6 Hours.
This supervised course is designed as a culminating field experience of pre-service professional preparation giving an opportunity to practically apply theoretical and pedagogical knowledge in school settings with a mentor teacher. Applied experience will be attained in both Elementary and Secondary settings. Additionally, a field-research project will be required to be arranged with course supervisor. Criminal background check required. Prerequisite: KINE 1315, KINE 2301, KINE 2302, KINE 3304, KINE 3388, KINE 4319, KINE 4320, KINE 4321, EDUC 5310, EDUC 5314, and LIST 5345.

KINE 5693. PHYSIOLOGY OF EXERCISE INTERNSHIP. 6 Hours.
Individualized academic training in an external professional exercise physiology setting (e.g., physical medicine, athletic training, external laboratory, health/fitness facility, professional teams or sports management) under the direct supervision of an exercise science professional.
KINE 5694. RESEARCH IN KINESIOLOGY. 6 Hours.
Individually approved research projects selected from the various areas of Kinesiology.

KINE 5698. THESIS. 6 Hours.

KINE 5994. RESEARCH IN KINESIOLOGY. 9 Hours.
Individually approved research projects selected from the various areas of Kinesiology.

KINE 6100. SEMINAR IN KINESIOLOGY. 1 Hour.
Implements the research process with faculty guidance. Students will attend regularly scheduled lectures from internal and external faculty members. Learning activities based on student and faculty interest.

KINE 6105. LABORATORY TECHNIQUE ROTATIONS IN KINESIOLOGY I. 1 Hour.
A primary objective of this course is to further your understanding of lab work in Kinesiology. A second objective is to enhance your ability for critical thinking in Kinesiology through the scientific process. This includes formation of a research question, hypothesis, designing an experiment, and inferring conclusions from data. Secondary objectives include improving technology skills to assist collecting and analyzing data, and writing and oral communication skills for demonstrating understanding of the kinesiology principles. Prerequisite: Consent of faculty.

KINE 6106. LABORATORY TECHNIQUE ROTATIONS IN KINESIOLOGY II. 1 Hour.
A primary objective of this course is to further your understanding of lab work in Kinesiology. A second objective is to enhance your ability for critical thinking in Kinesiology through the scientific process. This includes formation of a research question, hypothesis, designing an experiment, and inferring conclusions from data. Secondary objectives include improving technology skills to assist collecting and analyzing data, and writing and oral communication skills for demonstrating understanding of the kinesiology principles. This section must occur in a different laboratory than KINE 6105. Prerequisite: KINE 6105 and consent of faculty.

KINE 6126. JOURNAL CLUB IN EX PHYSIOL. 1 Hour.
This course is designed to provide doctoral students an opportunity to learn the art of critically reading and interpreting research articles. There will be emphasis on identifying strengths and weaknesses of research studies. There will also be an opportunity for the students to present their research study ideas and/or their preliminary findings of their research to the class. This will provide an opportunity for students to interact and receive/provide feedback regarding methodological approaches and interpretation of findings. Lastly, the student will learn how to prepare and deliver presentations to an audience. Prerequisite: Instructor Approval.

KINE 6170. JOURNAL CLUB IN PHYSIOLOGY. 1 Hour.
There is a growing emphasis on research and in particular student involvement in research at UTA. A fundamental skill that will be critical in the successful growth of student involvement in research is their ability to read and critically analyze/interpret journal articles. In addition to this important skill the students will also gain invaluable experience by presenting their research study ideas and/or their preliminary findings of their research to the class. This will provide an opportunity for students to interact and receive/provide feedback regarding methodological approaches and interpretation of findings. Doctoral students will be required to complete an additional research related topic.

KINE 6171. JOURNAL CLUB IN MOVEMENT & REHABILITATION SCIENCES. 1 Hour.
There is a growing emphasis on research and in particular student involvement in research at UTA. A fundamental skill that will be critical in the successful growth of student involvement in research is their ability to read and critically analyze/interpret journal articles. In addition to this important skill the students will also gain invaluable experience by presenting their research study ideas and/or their preliminary findings of their research to the class. This will provide an opportunity for students to interact and receive/provide feedback regarding methodological approaches and interpretation of findings. Doctoral students will be required to complete an additional research related topic.

KINE 6194. RESEARCH IN KINESIOLOGY. 1 Hour.
Individually approved research projects selected from the various areas of Kinesiology. May be repeated for credit with consent of the Graduate Advisor. Graded P/F/R. Prerequisite: Consent of Instructor.

KINE 6293. GRANT WRITING. 2 Hours.
Students will learn strategies associated with grant applications. Students will prepare an individual proposal associated with a research grant application. Although submission for funding (e.g., pre-doctoral fellowship) is not required for the course, students will develop and complete a grant application.

KINE 6294. RESEARCH IN KINESIOLOGY. 2 Hours.
Individually approved research projects selected from the various areas of Kinesiology. May be repeated for credit with consent of the Graduate Advisor. Graded P/F/R. Prerequisite: Consent of the instructor.

KINE 6300. RESEARCH METHODS IN KINESIOLOGY. 3 Hours.
This course is an overview of concepts and procedures necessary for designing, conducting, and analyzing research in Kinesiology from multiple research paradigms. The course will focus on the steps involved in the administration of a research project, including literature review, design, data collection and analysis. Doctoral students will be required to complete an additional research related topic. Prerequisite: Instructor Approval.

KINE 6303. PROFESSIONAL DEVELOPMENT. 3 Hours.
The philosophy and methods of conducting a university class for undergraduates are examined. Specific tips and suggestions for managing course materials, lectures, audiovisual aids, grading, etc. will be presented. The role of the university instructor as a researcher as well as a teacher will be elaborated. Specific topics will include the ethics and regulation of research, service as a journal referee, corresponding with peers, participating in a research team, manuscript preparation, presentation at professional conferences, and submitting material for publication.
KINE 6305. APPLIED STATISTICAL PRINCIPLES IN KINESIOLOGY. 3 Hours.
The course covers descriptive statistics, elementary probability, one- and two-population mean and variance comparisons, ANOVA, simple linear regression, and correlations. In addition, more advanced principles in parametric and non-parametric statistics will be emphasized. *Doctoral students will be required to complete an additional research related topic. Prerequisite: Instructor Approval.

KINE 6308. ADVANCED STATISTICAL ANALYSIS. 3 Hours.
This course presents an applied approach on the use of mixed effects and/or multilevel models for clustered, repeated, and longitudinal experimental designs. Develops the skills to implement and interpret random effects, variance component models of time varying and time invariant predictors on outcome variables. Included topics: transitioning from general linear model to mixed effects model, interpretation of population-average and subject specific models containing random intercept and random slopes. Discussion of special topics including importance of graphing data, model fitting, centering, variance/covariance matrix, sample size, sample power, missing data in repeated measures designs. *Doctoral students will be required to complete an additional research related topic. Prerequisite: Instructor Approval.

KINE 6320. ADVANCED PHYSIOLOGY OF EXERCISE. 3 Hours.
Lecture and laboratory sessions are designed to investigate concepts of energy metabolism, lactate production and accumulation, energy expenditure, excess post exercise oxygen consumption, cardiovascular and temperature regulation, neuromuscular control, aerobic and anaerobic adaptations and ergonomics. *Doctoral students will be required to complete an additional research related topic. Prerequisite: Instructor Approval.

KINE 6322. METABOLISM & EXERCISE BIOCHEMISTRY. 3 Hours.
This course will address the regulation of exercise metabolism as well as the distinct biochemical pathways through which energy transduction occurs. This will allow the student to appreciate not only the end result of metabolism, ultimately the production and maintenance of cellular ATP levels, but also the pathways that biological machines use to achieve ATP homeostasis. Calorimetry, respiratory exchange ratio, and substrate utilization during exercise will be assessed as part of the laboratory section of this course. *Doctoral students will be required to complete an additional research-related assignment. Prerequisite: Instructor Approval.

KINE 6323. MOTOR CONTROL AND LEARNING. 3 Hours.
This course advances on fundamental concepts of motor behavior and performance combining theoretical principles to a variety of realistic contexts to provide the basis of skilled behavior. Contemporary research in human motor behavior models is used to identify effective solutions to practical problems and to spark ideas for optimizing development, learning, and control of motor skills. *Doctoral students will be required to complete an additional research-related assignment. Prerequisite: Instructor Approval.

KINE 6326. CARDIOCIRCULATORY PHYSIOLOGY OF EXERCISE. 3 Hours.
The structure and function of the cardiovascular and circulatory system will be studied, as well as, cardiac control, the cardiac cycle, cardiac output, hemodynamics, vascular resistance, arterial-venous oxygen difference and oxygen delivery and consumption. Heat production and thermal control during exercise will also be addressed in lecture and laboratory sessions. *Doctoral students will be required to complete an additional research-related assignment. Prerequisite: Instructor Approval.

KINE 6327. PULMONARY PHYSIOLOGY OF EXERCISE. 3 Hours.
Examines the structure and function of the pulmonary system including mechanics of breathing, lung capacity tests, pulmonary circulation, lung diseases, gas exchange, ventilation, diffusing capacity, acid/base balance, neural and chemical regulation of breathing, and blood flow with respect to rest and exercise values in healthy and diseased populations. *Doctoral students will be required to complete an additional research-related assignment. Prerequisite: Instructor Approval.

KINE 6328. NEUROMUSCULAR PHYSIOLOGY OF EXERCISE. 3 Hours.
The structure and function of muscle, including the motor unit, control and integration, central and peripheral modifiers of neuromuscular control and biochemical characteristics of fibers will be studied. These concepts will also be applied to concepts in strength and power development. *Doctoral students will be required to complete an additional research-related assignment. Prerequisite: Instructor Approval.

KINE 6330. ENVIRONMENTAL PHYSIOLOGY OF EXERCISE. 3 Hours.
This course will address the impact of environmental stress (e.g., thermal, gravitational, microgravity, etc.) on the cardiovascular system. Related focus will be given to cardiac function, blood pressure regulation and thermoregulation. Topics will be addressed in lecture and laboratory sessions. *Doctoral students will be required to complete an additional research-related assignment. Prerequisite: Instructor Approval.

KINE 6338. EXERCISE PRESCRIPTION FOR SPECIAL POPULATIONS. 3 Hours.
This course will discuss the pathophysiology of cardiovascular, metabolic and pulmonary diseases. Methods of exercise prescription and issues of concern will also be presented for these populations, as well as, low back pain, pregnancy, osteoporosis, cancer, children, older adults, fibromyalgia, multiple sclerosis, and cardiac disease. *Doctoral students will be required to complete an additional research-related assignment. A student may not receive course credit for both KINE 5338 and KINE 6338. Prerequisite: Instructor Approval.

KINE 6350. APPLIED BIOMECHANICS. 3 Hours.
Application of Newtonian mechanics to human movement analysis. Biomechanical models using three-dimensional video and force plate data will be used to analyze human movement. *Doctoral students will be required to complete an additional research-related assignment. Prerequisite: Instructor Approval.
KINE 6360. FUNDAMENTAL PRINCIPLES OF INTEGRATIVE PHYSIOLOGY. 3 Hours.
This course is designed to provide a fundamental understanding of human physiology. Physiological function is a complex process that involves a complex interaction among the various physiological systems. As such there will be an emphasis on the integration of cellular, cardiovascular, renal, autonomic, respiratory, and endocrine physiology. *Doctoral students will be required to complete an additional research-related assignment. Prerequisite: Instructor Approval.

KINE 6362. PRINCIPLES OF MOVEMENT NEUROSCIENCE. 3 Hours.
This course focuses on principles of movement that have emerged from the computational study of motor control. The principles and application to processes such as motor planning, control, estimation, prediction and learning are explored.*Doctoral students will be required to complete an additional research-related assignment. A student may not receive course credit for both KINE 5362 and KINE 6362.

KINE 6363. CONDITIONS OF THE MOTOR SYSTEM IN CHILDHOOD. 3 Hours.
This course explores a prevalent dysfunction of the motor system in childhood, known as Developmental Coordination Disorder (DCD). This class explores potential causes of DCD, common mechanisms and impairments, intervention methods and their effectiveness, and associated co-morbidities. In addition, students will understand the current state of research in the field and understand future avenues for research. *Doctoral students will be required to complete an additional research-related assignment. A student may not receive course credit for both KINE 5363 and KINE 6363.

KINE 6364. CURRENT PERSPECTIVES IN MOTOR LEARNING AND CONTROL. 3 Hours.
This course explores five aspects of the new directions in research in the Motor Learning and Control field: Perception-Action mechanisms, Dynamical systems, Motor disorders, Learning and intervention for motor behavior, and neural mechanisms.*Doctoral students will be required to complete an additional research-related assignment. A student may not receive course credit for both KINE 5364 and KINE 6364.

KINE 6365. ADVANCED MOTOR DEVELOPMENT. 3 Hours.
This course explores the current field of research in Motor Development applied to typical and special populations. More specifically, it discusses issues related to motor skill learning in childhood, the development of motor control, the relationship between motor competence and general health, and how lack of appropriate motor skills affect several domains of development (Developmental Coordination Disorder). To that, we use current research articles that discuss each one of these topics from different perspectives. *Doctoral students will be required to complete an additional research-related assignment. A student may not receive course credit for both KINE 5365 and KINE 6365.

KINE 6389. RESEARCH MANUSCRIPT SUBMISSION. 3 Hours.
The student will collect scientific data in the Physiology of Exercise laboratories or in a work-related environment under the supervision of a faculty member. The student will analyze the data, write a manuscript, and submit a manuscript for publication in a peer-reviewed journal. This course must be taken in the final semester of graduate work and requires approval of the Graduate Advisor. *Doctoral students will be required to complete an additional research-related assignment. Prerequisite: Instructor Approval.

KINE 6394. RESEARCH IN KINESIOLOGY. 3 Hours.
Individually approved research projects selected from the various areas of Kinesiology. May be repeated for credit with consent of the Graduate Advisor. Graded P/F/R. Prerequisite: Consent of the instructor.

KINE 6399. DISSERTATION. 3 Hours.
Preparation and submission of a doctoral dissertation in an area of kinesiology. Graded R/F only. Prerequisite: Admission to candidacy for the Ph.D. in Kinesiology.

KINE 6694. RESEARCH IN KINESIOLOGY. 6 Hours.
Individually approved research projects selected from the various areas of Kinesiology. May be repeated for credit with consent of the Graduate Advisor. Graded P/F/R. Prerequisite: Consent of the instructor.

KINE 6699. DISSERTATION. 6 Hours.
Preparation and submission of a doctoral dissertation in an area of kinesiology. Graded R/F only. Prerequisite: Admission to candidacy for the Ph.D. in Kinesiology.

KINE 6999. DISSERTATION. 9 Hours.
Preparation and submission of a doctoral dissertation in an area of kinesiology. Graded R/F only. Prerequisite: Admission to candidacy for the Ph.D. in Kinesiology.

KINE 7399. DOCTORAL DEGREE COMPLETION. 3 Hours.
This course may be taken during the semester in which a student expects to complete all requirements for the doctoral degree and graduate. Enrolling in this course meets minimum enrollment requirements for graduation, for holding fellowships awarded by The Office of Graduate Studies and for full-time GTA or GRA positions. Students should verify that enrollment in this course meets other applicable enrollment requirements. To remain eligible in their final semester of study for grants, loans or other forms of financial aid administered by the Financial Aid Office must enroll in a minimum of 5 hours as required by the Office of Financial Aid. Other funding sources may also require more than 3-hours of enrollment. Additional hours may also be required to meet to requirements set by immigration law or by the policies of the student's degree program. Students should contact the Financial Aid Office, other sources of funding, Office of International Education and/or their graduate advisor to verify enrollment requirements before registering for this course. This course may only be taken twice. Students who do not complete all graduation requirements while enrolled in this course must enroll in a minimum of 6 dissertation hours (6699 or 6999) in their graduation term. Graded P/F/R.
Kinesiology - Graduate Programs

Master of Science in Athletic Training - Mission and Goals

PROGRAM MISSION

The Master of Science in Athletic Training Program at the University of Texas at Arlington is committed to providing educational advancement and excellence to students pursuing a career in athletic training. The program emphasizes critical inquiry, scientific theory, skill acquisition and application, and professional behaviors that advance health and the human condition across diverse populations of patients. Faculty and preceptor mentoring produce graduates that are competent, creative, and caring clinicians who enhance best-practice patient-centered healthcare, exercise sound judgment, and value lifelong learning.

The Master of Science in Athletic Training (MSAT) is guided by program goals and student outcomes:

Program Goal #1

Provide didactic and clinical educational experiences that provide students with the knowledge, skills, and abilities needed to practice in a variety of practice settings and with a diverse population of patients.

1.1: Provide quality didactic education that incorporates the knowledge, skills, and abilities needed to practice as an athletic trainer.

1.2: Provide quality clinical education that supports students’ development of the knowledge, skills, and abilities needed to practice as an athletic trainer.

1.3: Provide clinical learning environments that support student development.

1.4: Students will gain experiences in a variety of practice settings.

1.5: Students will engage in patient encounters with a diverse population of patients, including: throughout the lifespan, of different sexes, with different socioeconomic statuses, of varying levels of activity & athletic ability, who participate in nonsport activities.

Program Goal #2

Recruit, admit, retain, and graduate individuals who meet or exceed the MSAT admissions standards and are committed to a career in athletic training.

2.1: Entering students’ GPA will meet or exceed the requirement each year.

2.2: Students will progress through the MSAT according to the curricular plan.

2.3: Graduates will pursue careers in athletic training.

Program Goal #3

Faculty will continually develop contemporary expertise in routine areas of athletic training and will engage in scholarship.

3.1: Faculty will develop and maintain contemporary expertise in areas of athletic training practice.

3.2: Faculty will engage in scholarship as defined by Boyer’s model of scholarship.

Student Outcome #1

Students will demonstrate the knowledge, skills, clinical abilities and professional behaviors needed to practice with diverse populations of patients.

1.1: Students will demonstrate increased ability to engage in critical inquiry throughout the program.

1.2: Students will demonstrate competence in scientific theory and other knowledge required of entry-level athletic trainers.

1.3: Students will demonstrate competence in the acquisition and application of clinical skills.

1.4: Students will demonstrate appropriate professional behaviors according to the NATA Code of Ethics and BOC Standards of Professional Practice.

1.5: Students will demonstrate the ability to serve patients with quality care regardless of socioeconomic background, gender, age, ethnicity, race, religion, sexual orientation, or gender identity.

Student Outcome #2

Students and graduates will become competent clinicians who enhance best-practice healthcare, exercise sound judgment, and value lifelong learning.
2.1: Graduates will demonstrate competence and the ability to engage in best practices and exercise sound clinical judgment.

2.2: Students will progressively demonstrate competence and the ability to engage in best practices and exercise sound clinical judgment throughout the program.

2.3: Alumni will demonstrate a value for lifelong learning.

**Student Outcome #3**

Students and graduates will become creative, caring clinicians who engage in patient-centered healthcare.

3.1: Students will demonstrate creativity in clinical practice.

3.2: Students will display a caring demeanor in their clinical practice.

3.3: Graduates will display a caring demeanor in their clinical practice.

3.4: Students will demonstrate patient-centeredness in their clinical practice.

3.5: Graduates will demonstrate patient-centeredness in their clinical practice.

For specific information regarding the Master of Science in Athletic Training in the Department of Kinesiology, please contact us at 817.272.6735 or by email at msat@uta.edu.

**Master of Science in Exercise Science - Objective**

The Kinesiology Department’s Master’s of Science Program provides students with advanced level training in Exercise Science. Students will interact with world-renowned faculty at the forefront of research and discovery, to accomplish three distinct objectives:

a. Provide students with the academic and research skills needed for doctoral study in integrative and applied physiology, movement and rehabilitation sciences, or physical education.

b. Prepare students for employment in clinically oriented environments, associated with physical activity and rehabilitation such as cardiac rehabilitation, strength and conditioning, or sports medicine.

c. Enhance the theoretical background and skills of students seeking employment in Physical and Health Education.

Students can choose to (1) work directly with a faculty member to complete a manuscript project or a thesis OR (2) complete an internship during the final semester in a clinical environment.

For specific information regarding the Master of Science in Exercise Science in the Department of Kinesiology, please contact us at 817.272.3288 or by email at PhDKine@uta.edu.

**Master of Public Health**

**Program Mission**

Educate future public health professionals so they may improve the health of urban and underserved communities locally, nationally, and globally by addressing health determinants and applying core public health functions.

**Values of the UTA Public Health**

- Health Equity
- Opportunity for Health is a Human Right
- Diversity and Inclusion
- Engagement
- Student Success
- Community Voice

**Objective of the Master of Public Health Degree**

The Master of Public Health (MPH) degree is a 42-credit hour, professional master degree program designed to prepare graduates to work in public health career fields. Public health training in the core public health disciplines offer foundational public health knowledge necessary to assess, implement interventions, and evaluate the health of a population with an organization or community. Additional core courses build on the foundation to cultivate practice-based skill sets readily applied to the public health setting. The MPH degree may complement students’ current job skills, or provide students with new public health knowledge and career opportunities. Coursework will emphasize prevention, interdisciplinary approaches, applied skills, and social justice.
The MPH curriculum has been designed to meet current needs in the field of public health, Council on Education for Public Health (CEPH) accreditation criteria, and the College’s mission, goals and objectives.

**The MPH degree offers the following concentrations:**

**Urban Health**

The Urban Health concentration trains students to meet the demand of multi-faceted public health issues facing urban communities, and address health inequities arising from racial, ethnic and socioeconomic health disparities. Concentration coursework represents a variety of disciplines and technical skillsets integral in promoting health in urban settings, including courses focused on advocacy, policy and social justice. Graduates will be equipped to advocate for policies to address health needs in urban communities, as well as apply skills to conduct health needs assessments, program implementation, and program evaluation.

The Urban Health concentration prepares graduates to work in a wide range of settings, including:

- Health care systems
- Public health agencies on local, state, national and international levels
- Nonprofit health organizations
- Research organizations
- Advocacy organizations

**Epidemiology**

The Epidemiology concentration prepares students with the skills and knowledge required to work as epidemiologists or in related jobs. Graduates will be prepared to monitor the trends of chronic and infectious disease in populations, as well as investigate infectious disease outbreaks, while considering how to prevent disease or stop its spread. Concentration coursework includes training in chronic disease epidemiology, infectious disease epidemiology, social epidemiology, and large data set analysis for epidemiology.

The Epidemiology concentration prepares graduates to work in many public health settings such as:

- Local and state health departments
- Federal agencies like Centers for Disease Control and Prevention
- Hospitals
- Research centers
- Infection control
- Laboratories
- Food safety
- Health data analysis
- Non-governmental and non-profit organizations
- Global health

For specific information regarding Public Health studies in the Department of Kinesiology, please contact us at 817.272.1890 or by e-mail at publichealth@uta.edu.

**Doctor of Philosophy in Kinesiology**

The Doctor of Philosophy in Kinesiology prepares students to be scholarly researchers who generate new knowledge in the field of Kinesiology, with the skills to apply existing scholarship to questions concerning the prevention, assessment, and treatment of motor difficulties, chronic diseases, and musculoskeletal injuries.

The program’s interprofessional and multidisciplinary curriculum, as well as research focus, incorporates basic and clinical science approaches to identify disease markers and mechanisms, as well as evidence-based interventions designed to prevent and treat specific health conditions such as chronic illnesses and injuries in vulnerable and at-risk populations comprised of obese, older, and/or minority persons. This program builds and extends the Department of Kinesiology’s existing research, education, and community outreach initiatives in health and the human condition across the lifespan. Students will work with their advisor to design an individualized program of study to meet their research interests and career goals.

For specific information regarding the Doctor of Philosophy in Kinesiology in the Department of Kinesiology, please contact us at 817.272.3288 or by email at PhDKine@uta.edu.

**Admission Requirements for M.S. in Athletic Training**

Application instructions and materials can be found on the UT Arlington MSAT website.
UNCONDITIONAL ADMISSION

- Earned Bachelor’s degree, with an undergraduate cumulative GPA of 3.0, or a 3.0 GPA during the last 60 hours of undergraduate course work.
- 50 hours of observation with an athletic trainer (LAT and/or ATC credential)
- Meet program technical standards for admission
- Measles, Mumps and Rubella (MMR) vaccination
- Hepatitis B vaccination (three doses)
- Proof of current certification by the American Heart Association in Basic Life Support (Only AHA BLS certification will be accepted)
- International students are required to receive tuberculosis screening and this must be performed at the UTA Student Health Center or another U.S. facility
- International applicants must meet the University’s English language test score requirements for graduate admission.
- Required prerequisite courses *Prerequisite courses must have been completed with a grade of “C” or better and within the last 10 years.
  - Anatomy and Physiology I
  - Anatomy and Physiology II
  - Functional Anatomy (must be upper division and may also be titled Applied Kinesiology, Kinesiology, or Biomechanics)
  - Physiology of Exercise
  - Nutrition
  - Psychology
  - Statistics or Research Design
  - Biology (lecture and lab)
  - Physics (lecture and lab; will accept PHYS 3360 from UTA students)
  - Chemistry (lecture and lab)
    - Preferred Prerequisite Courses
  - Medical Terminology
  - Care and Prevention of Athletic Injuries

PROBATIONARY ADMISSION

Applicants failing to meet the unconditional admission criteria may be considered for probationary admission with documented previous relevant experience and recommendations describing potential for exceptional personal and professional growth. Students who are admitted on a probationary status will be limited in their clinical experience time, will be required to meet with the MSAT faculty to develop a success plan, and must complete their first term with a 3.0 GPA.

START DATE

Each new cohort begins the MSAT program summer (typically the first Monday in June).

RETENTION CRITERIA

MSAT students’ academic and clinical progress will be closely monitored each semester by the MSAT Program Director and Coordinator of Clinical Education. To remain in the MSAT program, students must:

Complete each course with a grade of “C” or better.

Maintain a 3.0 cumulative GPA

Adhere to documents which outline professional behaviors, including but not limited to the MSAT Student Handbook, the BOC Standards of Professional Practice, the NATA Code of Ethics, and course syllabi.
TRANSFER POLICY
No transfer credit will be awarded for MSAT courses.

CRIMINAL BACKGROUND CHECK
All students accepted for admission into the MSAT will be required to complete a criminal background check. Students who have a criminal record are encouraged to meet with the MSAT Program Director to discuss how this may affect their ability to become credentialed as an athletic trainer.

Degree Requirements for M.S. in Athletic Training
All students accepted into the Master of Science in Athletic Training Program will complete 57 hours of coursework.

REQUIRED COURSEWORK
The following courses will be required for completion of the MSAT degree program.

Prefix and Number Required Courses SCH

Total Hours: 57

Admission Requirements for M.S. in Exercise Science
Admissions Standards for Master’s Degree in Exercise Science (Note – Meeting these minimum standards does not guarantee acceptance into the program).

a. Undergraduate degree from a U.S. accredited institution or an equivalent foreign institution.
b. GPA of 3.0 or above during the last 60 hours of undergraduate work or in any previous graduate program.
c. GRE Quantitative score of 144 (500 on old scale) and Verbal score of 153 (500 on old scale). Additionally, satisfactory Writing scores are required. If scores are below these standards the application will still be considered as the Department takes all components of the application into consideration.

d. A minimum score of 550 on the paper-based TOEFL, a minimum score of 213 on the computer-based TOEFL, a minimum score of 40 on the TSE, a minimum score of 6.5 on the IELTS, or a minimum TOEFL iBT total score of 79 with sectional scores that meet or exceed 22 for the writing section, 21 for the speaking section, 20 for the reading section, and 16 for the listening section.
e. All Master’s students are originally accepted as “Non-thesis track”.
f. Contact information for references is not required but may be asked for if additional information is needed.

Probationary Admission

Applicants failing to meet the above admission criteria may be considered for probationary admission in which case the following additional criteria will also be considered by the Graduate Studies Committee:

- Professionally relevant experience
- Additional writing samples and/or information may be requested
- Applicants admitted on probation will be required to maintain a B or better average during their first 12 hours of graduate study.

A graduate advisor within the Department of Kinesiology will review transcripts of prospective students to determine what prerequisites are needed prior to enrollment in courses within the proposed program. If deficiencies are identified, a pre-program of study designed to prepare the student for graduate course prerequisites will be written and signed by the prospective student and the graduate advisor.

Waiver of the Graduate Record Examination

Upon recommendation of the Graduate Advisor, outstanding UT Arlington graduates with a degree in Kinesiology or related fields (such as Biology, Chemistry, Mathematics, Computer Science, or Engineering) may qualify for a waiver of the requirements for the Graduate Record Examination (GRE). To qualify, the applicant must meet the following minimum requirements:

a. The student must have graduated from a commensurate bachelor’s degree program at UT Arlington no more than three academic years prior to admission to the graduate program (as measured from the start of the semester for which admission is sought). A commensurate bachelor’s degree program is one that is a normal feeder program for the master’s degree program to which the student seeks admission. Undergraduate students in their final year of study are also eligible; in such cases, admission with the GRE waiver is contingent upon successful completion of the bachelor’s degree.

b. The student’s UT Arlington grade-point average must equal or exceed 3.0 in the following calculations:
   - as calculated for admission by the Office of Graduate Studies;
   - overall;
   - in the major field; and
   - in all upper-division work.

Applicants qualifying for waiver of GRE who do not qualify for advanced admission, must comply with all other requirements for admission, i.e., submitting the application for admission, paying fees, providing official transcripts from other institutions, and meeting any requirements established by the admitting graduate program. The GRE waiver must be recommended by the Graduate Advisor at the time of admission.

Graduate Assistantships for M.S Students in Exercise Science

The Department of Kinesiology and faculty offers financial assistance to M.S. students. Assistantships are contingent upon prior acceptance to the Graduate School and are limited and thus offered on a competitive basis. Graduate Assistant applicant evaluation begins on January 1 and continues until all positions are filled. Please direct all inquiries to the graduate program director Dr. R. Matthew Brothers at matthew.brothers@uta.edu.

Degree Requirements for M.S. in Exercise Science

All students are required to complete 36 hours for the master's degree. All students accepted into the Master of Science in Exercise Science will take a core of 15-semester hours of required KINE courses. In addition, all students are required to complete one of the following in their last semester; KINE 5389: Research Manuscript Submission, KINE 5689: Thesis, or KINE 5389 Physiology of Exercise Internship. The remaining required hours will be completed through various course electives.

All M.S. students are initially accepted on the non-thesis track. The student’s academic advisor within the Department of Kinesiology will review transcripts of prospective students to determine what prerequisites are needed prior to enrollment in courses within the proposed program. If deficiencies are identified, a pre-program of study designed to prepare the student for graduate course prerequisites will be written and signed by the prospective student and the student’s graduate advisor.

**Total Hours** 39-45

Coursework that is more than six years old at the time of graduation or teacher/administrator certification program completion cannot be used toward meeting the requirements for a master’s degree or graduate-level certification. Master’s degree and graduate-level certification programs must be completed within six years (time in military service excluded) from initial registration in the Graduate School. Appropriate state exams and application to the State Board for Educator Certification for a standard certificate must be made within six months of completion of residency/practicum/program. If a candidate allows the six-month period to go by without passing all state exams and applying for certification, additional coursework and/or exams will be required.

**Admission Requirements for Master of Public Health**

Admission to the Master of Public Health degree is based on completion of general admission requirements of the Graduate School as specified under the Graduate School Admissions Requirements and Procedures in the Graduate Catalog.

Admission criteria include:

- Official transcripts showing an earned bachelor’s degree from an accredited school, with a 3.0 or higher grade point average for the last 60 undergraduate or the last 18 graduate/post-baccalaureate credit hours completed.
- Official Graduate Record Examination (GRE) scores taken within the last five years are required of all applicants. Preference will be given to applicants with verbal, quantitative and analytic writing scores above the 50th percentile.

Applicants may request a waiver of the GRE requirement if they meet any of the following criteria:

- Hold a graduate or terminal degree from an accredited U.S. university.
- Completed a UTA Graduate Certificate in Public Health Practice and/or a UTA Bachelor of Science in Public Health degree with a minimum cumulative GPA of 3.0 and no less than a grade of “B” in any required public health course.
- At least 5 years of full-time professional experience in a public health field.

An approved GRE waiver does not guarantee admission into the degree program. To apply for a GRE waiver, applicants should submit the following items via email to the Public Health Graduate Advisor:

- Completed GRE Waiver Application
- Scanned copies of all college or university transcripts (official or unofficial transcripts)
- Current resume or CV
- A one-page personal statement written in English describing the applicant’s interest in earning an MPH degree and potential for contributing to public health, as well as the applicant’s career objectives, self-assessment of abilities and preparation for succeeding in a public health graduate program. The quality of written expression in the applicant’s personal statement will be considered.
- An applicant whose native language is other than English must demonstrate a sufficient level of skill with the English language to assure success in graduate studies as defined under Admissions Requirements and Procedures in the Graduate Catalog.
- Three letters of recommendation from academic or professional references.
• The applicant’s resume or CV, highlighting professional experience such as accomplishments, linguistic abilities, computer expertise, and analytics expertise.

PROBATIONARY ADMISSION
For an applicant who does not meet all admission criteria but shows promise for completing a graduate program based on some admission criteria, in rare cases probationary admission may be granted. Students on probationary admission conditions specified by the Public Health Graduate Advisor.

PROVISIONAL, DEFERRED AND DENIED ADMISSION
Provisional, deferred and denied admission decisions meet the criteria as defined under Admission Requirements and Procedures in the Graduate Catalog.

Degree Requirements for the Master of Public Health

Degree Requirements
The Master of Public Health is a degree program consisting of 42 credit hours to include required core courses in the following areas:

Biostatistics

KINE 5376 Introduction to Biostatistics

OR

KINE 5305 Applied Statistical Principles in Kinesiology

Epidemiology

KINE 5372 Introduction to Epidemiology

Health Policy and Health Management

KINE 5377 Introduction to Health Systems and Policy

Social and Behavioral Health

KINE 5375 Community and Behavioral Health

Health Communications

KINE 5385 Communication and Health

OR

COMM 5385 Seminar in Health Communication

Core Functions of Public Health

KINE 5378 Foundations of Public Health

Culminating Practice Experience

KINE 5383 Community Based Internship

KINE 5384 Capstone Experience

Students have five years to complete the program.

Foundation Requirements - No previous specific coursework is required.

Transfer Credit - Students may transfer three courses (9 SCH) into the MPH program from an accredited school, if approved by the Public Health Graduate Advisor. The course must have been completed at the graduate level at an accredited university, with a grade of “B” or above, and be determined to be equivalent to the course offered at UTA. The course should not have been used for another degree or certificate program. Determination of course equivalency will be made by the course instructor on a case-by-case basis.

In addition to the courses required for all concentrations, students enrolling in the Urban Health concentration will take the following concentration courses:
KINE 5380 Urban Community Health Assessment
KINE 5374 Race, Ethnicity, and Health in the U.S.
KINE 5371 Introduction to Program Planning and Evaluation
SOCW 5343 Health Policy and Social Justice

In addition, MPH students will select two electives from the following courses:

- KINE 5379 Fundamentals of Population Health
- KINE 5373 Introduction to Environmental and Occupational Health
- KINE 5370 Global Health
- KINE 5385 Chronic Disease Epidemiology
- KINE 5386 Big Data for Epidemiology
- KINE 5381 Social Epidemiology
- KINE 5387 Infectious Disease Epidemiology
- SOCW 5345 Critical Issues in Health Equity
- SOCW 5353 Mental Health Policy and Social Justice
- NURS 5366 Principles of Research in Nursing
- PAPP 5345 Evaluation Research
- PAPP 5329 Financial Management in the Public and Non-Profit Sectors
- PAPP 5309 Local Politics in the Intergovernmental Setting
- PAPP 5311 Public Policy Formation and Analysis
- PAPP 5324 Urban Public Finance
- PAPP 5367 Strategic Public and Non-Profit Human Resource Management
- COMM 5306 Qualitative Research Methods
- PAPP 5352 Conflict Resolution
- MANA 5330 Negotiations and Conflict Management
- HCAD 5350 Health Care Information Systems
- HCAD 5333 Economics of Health

Admission Standards for Doctor of Philosophy in Kinesiology

Faculty Sponsorship

Please note that all PhD students (regardless of Bachelors – Ph.D. or Masters to Ph.D.) must be accepted by a faculty member based on faculty research/mentoring alignment in order to be accepted into the program: https://www.uta.edu/conhi/academics/kinesiology/phd-kinesiology/faculty.php

Admissions Standards

Please make sure to follow the admissions standards that applies to your degree option.

Masters to Ph.D. option:

1. Master’s degree from a US accredited institution or an equivalent foreign institution.
2. GPA of 3.25 on all graduate work.
3. GRE Quantitative score of 150 and Verbal score of 150. Additionally, satisfactory Writing scores are required. If scores are below these standards the application will still be considered as the Department takes all components of the application into consideration.

4. A minimum score of 550 on the paper-based TOEFL, a minimum score of 213 on the computer-based TOEFL, a minimum score of 40 on the TSE, a minimum score of 6.5 on the IELTS, or a minimum TOEFL iBT total score of 79 with sectional scores that meet or exceed 22 for the writing section, 21 for the speaking section, 20 for the reading section, and 16 for the listening section.

5. A resume or CV of the applicant (maximum of 2 pages). This should highlight the educational background of the applicant, work/volunteer history, awards, research experience etc.

6. A Statement of Purpose (maximum of 2 pages). This should highlight the previous achievements and experiences of the applicant that have led to the decision to consider a Doctoral graduate degree in Kinesiology as well as the previous achievements that would qualify the applicant for admission into the Kinesiology Doctoral Program. The statement should also include future career goals following obtaining a Doctoral degree in Kinesiology.

7. Three (3) letters of reference. The Department accepts letters through email and/or postal mail.

§ Recommendation Form (PDF)

§ Email: Reviewers can email recommendations directly to Dr. Matthew Brothers (matthew.brothers@uta.edu).

§ Postal Mail: Reviewers should directly mail physical forms to the address specified at the bottom of this page. We suggest that prospective students provide their reviewers with the form and a stamped envelope with the correct address as a convenience to their reviewers.

Bachelors to Ph.D. Option:

1. Undergraduate degree from a US accredited institution or an equivalent foreign institution.

2. GPA of 3.5 and/or 3.5 GPA during the last 60 hours of undergraduate work.

3. 3.5 GPA on all Kinesiology-related work.

4. GRE Quantitative score of 150 and Verbal score of 150. Additionally, satisfactory Writing scores are required. If scores are below these standards the application will still be considered as the Department takes all components of the application into consideration.

5. A minimum score of 550 on the paper-based TOEFL, a minimum score of 213 on the computer-based TOEFL, a minimum score of 40 on the TSE, a minimum score of 6.5 on the IELTS, or a minimum TOEFL iBT total score of 79 with sectional scores that meet or exceed 22 for the writing section, 21 for the speaking section, 20 for the reading section, and 16 for the listening section.

6. A resume or CV of the applicant (maximum of 2 pages). This should highlight the educational background of the applicant, work/volunteer history, awards, research experience etc.

7. A Statement of Purpose (maximum of 2 pages). This should highlight the previous achievements and experiences of the applicant that have led to the decision to consider a Doctoral graduate degree in Kinesiology as well as the previous achievements that would qualify the applicant for admission into the Kinesiology Doctoral Program. The statement should also include future career goals following obtaining a Doctoral degree in Kinesiology.

8. Three (3) letters of reference. The Department accepts letters through email and/or postal mail.

• Recommendation Form (PDF)
• Email: Reviewers can email recommendations directly to Dr. Matthew Brothers (matthew.brothers@uta.edu).
• Postal Mail: Reviewers should directly mail physical forms to the address specified at the bottom of this page. We suggest that prospective students provide their reviewers with the form and a stamped envelope with the correct address as a convenience to their reviewers.

Address for Letters of Reference

All letters of reference should be mailed to the following address:

Dr. R. Matthew Brothers
Associate Chair for Graduate Programs in Exercise Science and Kinesiology
Department of Kinesiology
P.O. Box 19259
University of Texas at Arlington
500 W. Nedderman Drive
Arlington, TX 76019-0259

Addresses for Transcripts and GRE Scores

Transcripts and GRE scores should be sent directly to the Office of Graduate Admissions using the appropriate address below.
Degree Requirements for Doctor of Philosophy Degree in Kinesiology

The degree requirements differ slightly depending on if a student enters the B.S. to Ph.D. program or the M.S. to Ph.D. program.

• **B.S. – Ph.D. program**: Requires 18 required course credit hours, 42 credit hours (minimum) of track electives, and 9 – 12 credit hours of dissertation (69 total credit hours minimum).

• **M.S. – Ph.D. program**: Requires 11 required course credit hours, 22 credit hours (minimum) of track electives, and 9 – 12 credit hours of dissertation (69 total credit hours minimum).

**Required Courses (B.S. – Ph.D.)**

KINE 6300 Research Methods

KINE 5305 Applied Statistics in Kinesiology, or KINE 5376 Introduction to Biostatistics

3 hours of advanced statistics **OR** Advanced Research Methods (course can be taken outside of the department).

KINE 6293 Grant Writing

KINE 6105 Laboratory Techniques in Kinesiology I

KINE 6106 Laboratory Techniques in Kinesiology II

KINE 6103 Professional Development

4 hours of KINE 6100 Seminar in Kinesiology (this is a 1 hour credit course that must be taken in a minimum of 4 different semesters).

**Required Courses (M.S. – Ph.D.)** KINE 5300 Research Methods

3 hours of advanced statistics **OR** Advanced Research Methods (course can be taken outside of the department).

KINE 6293 Grant Writing

KINE 6105 Laboratory Techniques in Kinesiology I

KINE 6103 Professional Development

4 hours of KINE 6100 Seminar in Kinesiology (this is a 1 hour credit course that must be taken in a minimum of 4 different semesters).

**Electives for Either Track**

KINE 6322 Metabolism & Exercise Biochemistry

KINE 6326 Cardiovacular Physiology of Exercise

KINE 6327 Pulmonary Physiology of Exercise

KINE 6340 Environmental Physiology of Exercise

KINE 6328 Neuromuscular Physiology of Exercise

KINE 5329 Strength & Conditioning

KINE 5331 Obesity and Weight Management

KINE 6338 Exercise Prescription for Special Populations
KINE 6350 Applied Biomechanics
KINE 6360 Fundamental Principles of Integrative Physiology
KINE 6393 Physiology of Exercise Internship
KINE 6394 Research in Kinesiology

Students in the B.S – Ph.D and the M.S. – Ph.D. tracks MUST complete 9 – 12 credit hours of dissertation

Individual graduate advisors / research mentors may require additional courses.

Doctor of Philosophy in Kinesiology – Dissertation Committees and Candidacy

The Dissertation requirement for the Ph.D. in Kinesiology includes two components:

1. A written Dissertation to include at least 2 manuscripts of quality and format that are submitted to a peer-reviewed scientific journal and

The Dissertation Committee is responsible for the evaluation of both the written dissertation and oral defense. The Committee must be comprised of a minimum of four members, including the Committee Chair who will be the student's primary faculty mentor. This Committee Chair must be a member of the Department of Kinesiology Graduate Studies Committee or have status on the Department of Kinesiology Graduate Studies Committee. The remaining Committee members must include at least one additional faculty member from the Department of Kinesiology. If the Committee Chair is not a full time member of the Department of Kinesiology Graduate Studies Committee the remaining Committee members must include at least two members from the Department of Kinesiology. In addition the Committee must include at least one member who is external to the Department of Kinesiology. The external member may include individuals not working within UT Arlington if applicable. All Committee members must hold a terminal degree in their field and/or demonstrate the required expertise and appropriate faculty status for serving on dissertation committees.

Comprehensive Examination

**B.S. to Ph.D.** students will become eligible for the comprehensive examination when they have completed 36 hours of their graduate work.

**M.S. to Ph.D.** students will become eligible for the comprehensive examination when they have completed 18 hours of their graduate work (at UT Arlington).

These completed course hours represent the minimum requirement; however, eligibility for the comprehensive examination will be dependent on approval from the Chair of the Dissertation Committee.

Successful completion of the comprehensive examination makes students eligible for PhD candidacy. Students must be enrolled in the semester they take the comprehensive examination.

The purpose of the comprehensive examination is to evaluate the extent to which students have acquired the basic principles / knowledge in pertinent coursework. The expectation will be that students will be able to apply, integrate, and synthesize their knowledge.

When students are eligible for the comprehensive examination, the student's graduate mentor/advisor will recommend the student for the examination to the Department of Kinesiology Graduate Studies Committee for approval.

Upon completion, the comprehensive examination committee will meet to discuss the merits of the student's examination. Comprehensive examinations will only be held in regular, long semesters.

The composition of the comprehensive examination committee will be decided by the Department of Kinesiology Graduate Academic Committee. This comprehensive examination committee will be comprised of at least one member of the Graduate Academic Committee and a minimum of 2 additional members with relevant content expertise.

Following completion of the examination the Committee may recommend any of the following outcomes:

1. Unconditional pass. With an unconditional pass, students become eligible for PhD candidacy and prepare for the defense of their dissertation proposal.

2. Pass with conditions. A pass with conditions requires that students perform each of the conditions satisfactorily in order to become eligible for PhD candidacy.

3. Unsatisfactory with opportunity to retake the examination. With this recommendation, the committee will specify when the retake will occur.

4. Unsatisfactory, do not continue in program.
If the outcome of the comprehensive examination is an unconditional pass, students immediately become eligible for PhD candidacy. If the outcome is a pass with conditions, students may only become eligible for candidacy when the examining committee determines that the student has successfully met the conditions stipulated by the committee.

Dissertation Proposal

Following successful completion of the oral examination the student will then need to draft a grant application to be written in the format of a National Institute of Health Ruth L. Kirschstein National Research Service Award (NRS) Individual Predoctoral Fellowship (F31) grant (https://grants.nih.gov/grants/guide/pa-files/PA-16-309.html). This grant application will describe the student's dissertation projects and will also serve as the student's dissertation proposal. The student will give an oral presentation of the research proposal outlined in the grant application to his/her dissertation committee. This proposal defense must occur within two long semesters following successful completion of the oral comprehensive examination.

GRADUATE CERTIFICATE IN PUBLIC HEALTH PRACTICE: MISSION AND OBJECTIVES

PROGRAM MISSION

The mission of the University of Texas at Arlington’s graduate Public Health programs is to prepare students to become leading public health practitioners and advocates who serve communities and organizations, promote collaboration between public health and health care practitioners, and protect and advance community health through applying the core public health functions of assessment, policy development and assurance.

PROGRAM OBJECTIVES

Through completing the Graduate Certificate in Public Health Practice (GCPHP), students will:

a. Gain graduate-level introductory knowledge and accompanying foundational skill sets in the five core public health disciplines: Biostatistics, epidemiology, health systems and policy, environmental health, and social and behavioral health.

b. Be prepared to apply fundamental skills from each of the five core public health disciplines to complement current job skills, or gain new public health knowledge and career opportunities.

c. Be equipped to execute skills to assess, implement interventions, and evaluate the health of a population within their organizations or communities.

Admission Requirements for the Graduate Certificate in Public Health Practice

ADMISSION CRITERIA

Official transcripts showing an earned bachelor’s degree from an accredited school, with a 3.0 or higher grade point average for the last 60 undergraduate or the last 18 graduate/post-baccalaureate credit hours completed.

• Only GPA will be considered for admission to the program. The Graduate Record Exam (GRE) or other standardized graduate school exam is not required for admission to the certificate program.

A one-page personal statement written in English describing the applicant’s interest in and potential for contributing to public health, career objectives, and self-assessment of abilities and preparation for succeeding in a public health graduate program. The quality of written expression in the applicant’s personal statement will be considered.

An applicant whose native language is other than English must demonstrate a sufficient level of skill with the English language to assure success in graduate studies as defined under Admissions Requirements and Procedures in the Graduate Catalog.

The applicant’s resume or CV, highlighting professional experience such as accomplishments, linguistic abilities, computer expertise, and analytics expertise.

PROBATIONARY ADMISSION

Applicants who fail to meet the admission criteria may be considered for probationary admission. Applicants admitted on a probationary basis must maintain a 3.0 GPA in the first two semesters of program enrollment.

PROVISIONAL, DEFERRED AND DENIED ADMISSION

Provisional, deferred and denied admission decisions meet the criteria as defined under Admission Requirements and Procedures in the UTA Graduate Catalog.

TRANSFER CREDIT

Students may transfer one course (3 SCH) into the GCPHP program. The course must have been completed at the graduate level at an accredited university, with a grade of "B" or above, and be determined to be equivalent to the course offered at UTA. The course should not have been used for another degree or certificate program. Determination of course equivalency will be made by the course instructor on a case-by-case basis.
Degree Requirements for the Graduate Certificate in Public Health Practice

The Graduate Certificate in Public Health Practice is a certificate program consisting of 15 credit hours to include one required 3-hour course in each of the five public health disciplines:

REQUIRED COURSEWORK

The following courses will be required for completion of the Graduate Certificate in Public Health Program. Students have three years to complete the program.

Biostatistics
KINE 5376 Introduction to Biostatistics

or

KINE 5305 Applied Statistical Principles in Kinesiology

Epidemiology
KINE 5372 Introduction to Epidemiology

Health Policy and Health Management
KINE 5377 Introduction to Health Systems and Policy

Environmental Health
KINE 5373 Introduction to Environmental and Occupational Health

Social and Behavioral Health
KINE 5375 Community and Behavioral Health

FOUNDATION REQUIREMENTS

No previous specific coursework is required.
Kinesiology - Undergraduate Programs

Overview

The Department of Kinesiology is committed to providing quality educational programs that emphasize scientific theory, hands-on learning in the laboratory setting and real-world application through clinical internships and other field-based experiences. The faculty's vast teaching experience and research expertise provide rich learning experiences across all of the department's academic programs.

The undergraduate studies within the Department of Kinesiology are organized into three areas: Bachelor of Arts in Kinesiology (Physical Education Teacher Education, Sports Leadership & Management), Bachelor of Science in Exercise Science (Clinical & Applied Physiology; Health, Fitness, & Wellness; and Motor & Rehabilitation Sciences), and Bachelor of Science in Public Health. Each of these academic programs share a common core of kinesiology courses that provide students with a strong foundation in the sciences of human anatomy, biomechanics, motor behavior, and exercise physiology, as well as an introduction to research methodology. In addition to the kinesiology core, each undergraduate degree plan provides a comprehensive discipline-specific program of study designed to prepare students for a specific career path.

The Department of Kinesiology also offers an accelerated (3+2) Bachelor of Science in Exercise Science (Health, Fitness, & Wellness) to Master of Science in Athletic Training. This track enables high-achieving undergraduate students to begin taking MSAT courses in their 4th year and complete the MSAT in their 5th year.

The Department of Kinesiology offers multiple degree plan options that work towards meeting the prerequisite requirements for admission to athletic training, physical therapy, occupational therapy, speech pathology, and physician's assistant graduate programs, as well as medical and dental schools.

The undergraduate program areas are listed below. Complete degree plans, descriptions, and course requirements are provided on subsequent pages.

Bachelor of Arts in Kinesiology

PHYSICAL EDUCATION TEACHER EDUCATION (PETE)
Bachelor of Arts in Physical Education Teacher Education (PETE) for individuals who wish to teach in the PK-12 setting.

SPORTS LEADERSHIP AND MANAGEMENT (SLAM)
The Bachelor of Arts in Kinesiology - Sports Leadership and Management (SLAM) programs prepare individuals for sport and physical activity program leadership in both the public and private settings such as coaching, youth sports, sport marketing, sport management, sport psychology, or sport sociology. There are two concentrations offered under the SLAM program. Coaching and Youth Sports; and Sports Leadership and Management.

BA MINOR IN COACHING AND YOUTH SPORTS
The minor consists of 18 hours, six of which must be upper level. A 2.5 grade point average must be maintained for a student to remain in the minor.

Bachelor of Science in Exercise Science

CLINICAL & APPLIED PHYSIOLOGY (CAP)
The Bachelor of Science in Exercise Science - Clinical & Applied Physiology (CAP) is designed for individuals who plan to pursue a graduate degree in the fields of physical therapy, physician assistant, and medical/dental schools, or athletic training, as well as careers and research in physiological sciences applied to exercise.

MOTOR & REHABILITATION SCIENCES (MRS)
The Bachelor of Science in Exercise Science - Motor & Rehabilitation Sciences is designed for individuals who plan to pursue careers and research in pediatrics and special populations, biomechanics, motor behavior, and rehabilitation sciences, as well as graduate school programs in occupational therapy.

HEALTH, FITNESS, & WELLNESS (HFW)
The Bachelor of Science in Exercise Science - Health, Fitness, & Wellness is designed for individuals who wish to pursue a career in personal fitness training, strength and conditioning, cardiac rehabilitation, or other health and wellness related career paths.

HEALTH, FITNESS, & WELLNESS (HFW) TO MASTER OF SCIENCE IN ATHLETIC TRAINING (MSAT) 3+2 TRACK
This track enables high-achieving undergraduate students to begin taking MSAT courses in their 4th year and complete the MSAT in their 5th year. This program is designed for students with a goal of becoming an athletic trainer.
Bachelor of Science in Public Health

BACHELOR OF SCIENCE IN PUBLIC HEALTH (BSPH)

The Bachelor of Science in Public Health is designed to prepare individuals for career opportunities in areas such as community health education, project management, compliance in public sector capacities, environmental science and protection, non-profit organizations, and healthcare services and administration. The Bachelor of Science in Public Health (BSPH) degree consists of two program delivery options: A Traditional Campus Based Program and an Accelerated Online Program (AO). The Accelerated Online Program is an online format developed by UT Arlington’s Department of Kinesiology and College of Nursing and Health Innovation to serve students in Texas and beyond by offering a high quality, affordable, and convenient undergraduate public health degree program. The BSPH AO program is available to those students who have earned a minimum of 24 transfer-credit hours prior to enrollment.

PUBLIC HEALTH MINOR

The Department of Kinesiology offers a minor in public health. The minor consists of 18 credit hours. Students must complete at least nine hours toward the minor at UT Arlington. A 2.5 grade point average must be maintained for a student to remain in the minor.

Oral Communication Competencies

All students declared as majors in the Department of Kinesiology (with the exception of BSPH majors) are required to complete KINE 3325 UNDERGRADUATE RESEARCH METHODS. Embedded in this class is the task of orally presenting research findings as both a formal oral research presentation and also in support of posters presented during the Kinesiology Research Presentation Day. BS Public Health students are required to complete KINE 4352 SCIENCES & METHODS IN PUBLIC HEALTH.

Computer Use Competencies

All students declared as majors in the Department of Kinesiology (with the exception of BSPH majors) are required to pass the University computer competency exam or complete KINE 1100 early in their specialization. Embedded in this class are tasks requiring familiarity with the word processor, spreadsheet and Internet browsing programs common on personal computers. BS Public Health students are required to complete KINE 3351 PUBLIC HEALTH INFORMATICS to meet this requirement. Additionally, the department’s core curriculum requires the demonstration of computer use competencies for completion of the majority of assignments.

The Bachelor of Arts in Kinesiology

The Bachelor of Arts in Kinesiology is designed to prepare individuals for teaching and coaching positions in public and private schools and for sport and physical activity program leadership in both the public and private settings. Majors can choose from one of two degree plan options: Physical Education Teacher Education (PETE) and Sport Leadership & Management (SLAM).

Physical Education Teacher Education (PETE)

The Bachelor of Arts in Kinesiology, Physical Education with All-Level Teacher Certification prepares individuals for teaching and coaching positions in public and private schools. This degree is specifically designed to prepare graduates for certification in teaching PK-12 physical education. The program is designed to provide a scientific and pedagogical foundation with multiple public school experiences that enable students to observe, assist teachers and coaches, experiment with curriculum, create programs, and gain structured experiences in teaching. Because of the emphasis on field experiences, our graduates are well prepared when they enter the workforce. In addition, our graduates work in diverse settings and are able to plan and teach individuals with disabilities successfully. Candidates are also encouraged to earn a second teaching area concentration (such as English, History, Biology/Life Science, Math, Modern Language, Health Education, etc.).

Admission Requirements:

To ensure that all students develop a solid academic foundation, all first time, first-year freshman students (regardless of intended major) must obtain academic advising and clearance for registration from an advisor in the Division of Student Success during their first year. After the first year, students should seek advisement from the PETE Advisor in the Department of Kinesiology. Transfer students must seek academic advising from the PETE Advisor in the Department of Kinesiology immediately.

In order to qualify for admission to the Physical Education Teacher Education (PETE) program, students must:

- Satisfy the University’s credit hour requirements for admission to a degree plan
- Provide transcripts from each college or university the student has attended (reflecting all current/completed semesters)
- Petition for admission into the College of Education prior to taking education coursework
- Have a cumulative GPA of at least 2.75 for all classes taken at UT Arlington including classes transferred into the program, and sustain a 3.00 GPA across the education sequence as specified in the degree listing below.
• All classes involving field-based experiences require students to pass a criminal background check. This is also a requirement for all certified teachers in the State of Texas.

• Students who have been suspended or expelled from The University of Texas at Arlington or any other university or program for reasons other than academic reasons may be denied admission or readmission to an educator preparation program in the College of Education.

Maintaining Major Status:
If a student falls below a 2.75 GPA at any time prior to petitioning for admission into the College of Education, the student will be on departmental probation for one semester. If the student is unable to make up the deficiency in the semester immediately following the probation, the student will lose status as a Bachelor of Arts in Kinesiology with All-Level Certification major and be moved to the Bachelor of Arts in Kinesiology - Sports Leadership and Management major. Courses to make up a GPA deficiency must be taken at UT Arlington. If the student is able to make up the GPA deficiency in the semester immediately following loss of major status, she or he will be eligible to apply for reinstatement as a major by making application to the Departmental Advisor when grades are released. No courses on the degree plan may be taken as pass/fail.

Each candidate in the PETE program will be evaluated on the College of Education Professional Dispositions by faculty and staff. These dispositions have been identified as essential for a highly-qualified professional. Instructors and program directors will work with candidates rated as “unacceptable” in one or more stated criteria. The candidate will have an opportunity to develop a plan to remediate any digressions.

Application for Student Teaching: Students must apply to the Director of Field Experience in the College of Education by the appropriate deadline to begin. Students must also submit any applicable background checks at registration. The student teaching will be performed in both elementary and secondary (high school or middle school) levels.

Many of the courses in the Kinesiology curriculum require prerequisite courses which are identified in the course descriptions.

**Sports Leadership and Management (SLAM)**

The Bachelor of Arts in Kinesiology - Sports Leadership and Management (SLAM) program prepares individuals for sport and physical activity program leadership in both the public and private settings. The curriculum examines sport in the contexts of historical and contemporary culture. It looks at sport’s cultural relationship with education, the economy, families, the media, and politics, and considers race, class, and gender differences in the sport experience. Two specializations are offered under the SLAM program: Coaching and Youth Sports; and Sports Leadership and Management.

**Admission Requirements:**

To ensure that all students develop a solid academic foundation, all first time, first-year freshman students (regardless of intended major) must obtain academic advising and clearance for registration from a Division of Student Success academic advisor during their first year. After the first year, students should seek advisement from the BA Kinesiology Advisor in the Department of Kinesiology. Transfer students must seek academic advising from the BA Kinesiology Advisor in the Department of Kinesiology immediately.

- All classes involving field-based experiences require students to pass a criminal background check. This is also a requirement for all certified teachers and professionals that work with school aged children in the State of Texas.

**Maintaining Major Status:**

Students must maintain an overall GPA of 2.5 and a KINE GPA of 2.5.

**Coaching and Youth Sports**

This concentration is designed to provide a scientific and pedagogical foundation with multiple experiences that enable students to observe, assist, coach, and create programs that encourage physical activity across the age spectrum: Youth, high school, collegiate, elite-level, or private coaching. In addition to the identified core and specialization courses there are 9 hours available as electives.

---

Many of the courses in the Kinesiology curriculum require prerequisite courses which are identified in the course descriptions.

**BA Minor in Coaching and Youth Sports**

The minor consists of 18 hours, six of which must be upper level.

A 2.5 grade point average must be maintained for a student to remain in the minor.

**Courses that may be taken toward the minor are:**

#### Required:

- KINE 1315  Introduction to Physical Education and Sport
- KINE 2301  Teaching Games for Understanding
- KINE 2302  Dance and Movement Activities

#### Electives

Nine hours from the following.

- KINE 3302  Sport and Exercise Psychology
- KINE 3304  Adapted Exercise and Sport Activities
Bachelor of Science in Exercise Science

The Bachelor of Science in Exercise Science is designed to provide a foundation of the movement and exercise science to students interested in pursuing careers associated with therapy and rehabilitation, fitness and training, and research with typical and atypical populations. The three tracks are designed to provide a thorough foundation in three areas of Exercise Science: Clinical & Applied Physiology, Health, Fitness, & Wellness, and Motor & Rehabilitation Sciences. All KINE listed courses are designed for majors only.

The Clinical & Applied Physiology (CAP) Track incorporates prerequisites and prepares students for graduate school applications in physical therapy, physician assistant, and medical/dental schools.

The Motor & Rehabilitation Sciences (MRS) Track incorporates prerequisites and prepares students for graduate school applications in occupational therapy, as well as careers and research in pediatrics and special populations, biomechanics, motor behavior and rehabilitation sciences.

The Health, Fitness, & Wellness (HFW) Track prepares students for careers in strength conditioning, personal training, cardiac rehabilitation, and corporate wellness & fitness. It also prepares students for certifications programs such as ACSM, HFS, NSCA, CSCS. In addition, it incorporates prerequisites and prepares students for graduate school applications in athletic training.

The Health, Fitness, & Wellness (HFW) to Master of Science in Athletic Training (MSAT) 3+2 track enables high-achieving undergraduate students to begin taking MSAT courses in their 4th year and complete the MSAT in their 5th year. This program is designed for students with a goal of becoming an athletic trainer. Undergraduates will apply to the MSAT program during their third year, and if accepted, will begin taking MSAT courses in the summer of their third year. They will graduate with their Bachelor of Science in Exercise Science in their fourth year and with their Master of Science in Athletic Training at the end of their fifth year.

Admission Requirements:

To ensure that all students develop a solid academic foundation, all first time, first-year freshman students (regardless of intended major) must obtain academic advising and clearance for registration from an advisor in the Division of Student Success during their first year. After the first year, students should seek advisement from the Exercise Science Advisor in the Department of Kinesiology prior to each semester and summer sessions. Transfer students must seek academic advising from the Exercise Science Advisor in the Department of Kinesiology immediately. All incoming freshmen and transfer students wishing to major in Exercise Science are initially classified as Exercise Science pre-majors.

To be classified as an Exercise Science major, students must satisfy the following requirements:

Clinical & Applied Physiology Track

• Completion of 12 hours at UT Arlington
• Overall GPA of 3.00 and KINE GPA of 3.00 by completion of KINE 3415 and a grade of “B” or better at KINE 3415.

Motor & Rehabilitation Sciences Track

• Completion of 12 hours at UT Arlington
• Overall GPA of 2.5 and KINE GPA of 2.5 by completion of KINE 3415.

Health, Fitness, & Wellness Track

• Completion of 12 hours at UT Arlington
• Overall GPA of 2.5 and KINE GPA of 2.5 by completion of KINE 3415.

Master of Science in Athletic Training Portion of the Health, Fitness, & Wellness to Master of Science in Athletic Training Track

• Must be within 30 hours of graduation with a BS in EXS
• Must have completed at least 30 hours of study at UTA with a 3.3 GPA or better
• A 3.3 overall GPA for all college courses
• 50 hours of observation with an athletic trainer (LAT and/or ATC credential)
• Meet program technical standards for admission
• Measles, Mumps and Rubella (MMR) vaccination
• Hepatitis B vaccination (three doses)
• Proof of current certification by the American Heart Association in Basic Life Support (only AHA BLS certification will be accepted)
• Successful interview with the MSAT admissions committee
• A ‘C’ or better and 3.3 GPA in the following prerequisite courses:
  • Anatomy and Physiology I
  • Anatomy and Physiology II
  • Functional Anatomy
  • Physiology of Exercise
  • Nutrition
  • Psychology
  • Statistics/Research Design
  • Biology (lecture and lab)
  • Physics (lecture and lab; will accept PHYS 3360 from UTA)
  • Chemistry (lecture and lab)

**Maintaining Major Status:**

Students accepted as Bachelor of Science in Exercise Science majors in the Department of Kinesiology must maintain the minimum GPAs as indicated above or they will be on departmental probation. Students who are on departmental probation must meet with their academic advisor for future enrollment options. If the student is unable to make up the deficiency in the semester immediately following the probation, the student will lose status as a Bachelor of Science in Exercise Science major. Courses to make up the GPA deficiency must be taken at UT Arlington. No courses on the degree plan may be taken as pass/fail.

**Retention Requirements for the Master of Science in Athletic Training Portion of the Health, Fitness, & Wellness to Master of Science in Athletic Training Track**

• Maintain a ‘B’ or better in the following courses:
  • KINE 5120 Clinical Athletic Training I
  • KINE 5229 Functional Anatomy & Biomechanics for the Athletic Trainer
  • KINE 5230 Foundations of Orthopedic Assessment & Therapeutic Interventions
  • KINE 5236 Prevention, Health Promotion, and Wellness
  • KINE 5332 Assessment and Management I

• Complete each additional course with a grade of C or better. Students who earn below a C will be dismissed from the program.

• Maintain a 3.0 cumulative GPA. Students who earn below a 3.0 cumulative GPA will be placed on academic probation for one semester. If the student does not earn a cumulative GPA of 3.0 or higher by the end of the probationary semester, the student will be dismissed from the program.

*Students who are dismissed from the program and have not yet completed their bachelor’s degree will be able to take undergraduate electives to complete their degree. They will also be eligible to apply for regular admissions to the MSAT program upon completion of their bachelor’s degree.

• Adhere to documents which outline professional behaviors, including but not limited to the MSAT Student Handbook, BOC Standards of Professional Practice, the NATA Code of Ethics, and course syllabi.

**Clinical & Applied Physiology - (CAP)**

The Exercise Science Clinical & Applied Physiology track incorporates prerequisites and prepares students for graduate school applications in physical therapy, physician assistant, and medical/dental schools, as well as careers and research in physiological sciences applied to exercise.

**BS in Exercise Science - CAP**

**Hours Toward BS in Exercise Science** 120

**Hours Toward MS in Athletic Training** 38

**Total Hours** 158
Many of the courses in the Kinesiology curriculum require prerequisite courses which are identified in the course descriptions.

Bachelor of Science in Public Health (BSPH)

The Bachelor of Science in Public Health (BSPH) degree consists of two program delivery options: A traditional Campus Based Program and an Accelerated Online Program (AO). The Accelerated Online Program is an online format developed by UT Arlington’s Department of Kinesiology and College of Nursing and Health Innovation to serve students in Texas by offering a high quality, affordable, and convenient undergraduate public health degree program. The BSPH AO program is available to those students who have earned a minimum of 24 transfer-credit hours prior to enrollment.

The BSPH degree program aligns well with current science-based degree programs offered in the Department of Kinesiology. In addition, with a unique positioning of public health aligned with nursing and kinesiology programs along a continuum of health-related coursework and practice-based experiences, students may access an intersection point at which individual health and wellness meets population health and prevention of disease. Potential career opportunities exist in job categories such as government, non-profit organizations, medical/healthcare facilities and community agencies.

The Bachelor of Science in Public Health program features a competency-based curriculum built upon a collaborative, interdisciplinary matrix. Relevant coursework, accompanied by experiential and service learning activities anchored throughout the program support a robust program framework, which includes The Council on Education for Public Health (CEPH) accreditation criteria, Association of Schools and Programs of Public Health (ASPPH) undergraduate competencies and The Council on Linkages Between Academia and Public Health Practice Tier I Public Health Workforce competencies. These program elements will enable students to gain a broad knowledge base, along with the skills and abilities necessary to be a competent and effective member of the public health workforce.

The Bachelor of Science in Public Health provides students with a rigorous background in public health education, while also providing multi-disciplinary support for each student to pursue his or her own individual interests and passions through minor degrees (e.g., Disability Studies, Diversity Studies, Psychology, Spanish). The degree program provides coursework and experiential learning activities that intersect individual health, wellness and prevention with population-based health perspectives. Students have the flexibility to choose 20-21 hours of electives, providing academic flexibility so that students may individualize components of their academic pathway to meet their unique personal, professional, and academic goals.

Admission Requirements:

To ensure that all students develop a solid academic foundation, all first time, first-year freshman students (regardless of intended major) must obtain academic advising and clearance for registration from an advisor in the Division of Student Success during their first year. After the first year, students should seek advisement from the Public Health Advisor in the Department of Kinesiology prior to each semester and summer sessions. Transfer students must seek academic advising from the Public Health Advisor in the Department of Kinesiology immediately. All incoming freshmen and transfer students wishing to major in Public Health are initially classified as Public Health pre-majors (PH.Int).

To be classified as a Public Health major, students must satisfy the following requirements:

**BS Public Health**

- Completion of 12 hours at UT Arlington
- Completion of KINE 2350 INTRODUCTION TO PUBLIC HEALTH: PRINCIPLES & POPULATIONS EXERCISE SCIENCE with a grade of C or better
- Overall GPA of 2.50.

**Maintaining Major Status:**

Students accepted as Bachelor of Science in Public Health majors in the Department of Kinesiology must maintain the minimum GPAs as indicated above or they will be placed on departmental probation. In order to take additional Public Health courses, approval must be granted by the Department Chair. If the student is unable to make up the deficiency in the semester immediately following the probation, the student will lose status as a Bachelor of Science in Public Health major. Courses to make up the GPA deficiency must be taken at UT Arlington. If the student is able to make up the GPA deficiency in the semester immediately following loss of major status, he or she can be reinstated as a major by making application to the Departmental Advisor when grades are released. No courses on the degree plan may be taken as pass/fail.

**Additional Requirements**

BSPH majors must meet the overall GPA minimum of 2.5 in order to enroll in the following courses:

- KINE 4352 Public Health Sciences and Methods
- KINE 4354 Public Health Advocacy and Leadership
- KINE 4359 Public Health Cumulative Experience
BS in Public Health - BSPH

Total Hours

Total Hours: 120

Many of the courses in the Kinesiology curriculum require prerequisite courses which are identified in the course descriptions.

BS in Public Health - Minor

The Department of Kinesiology offers a minor in public health. The minor consists of 18 credit hours. Students must complete at least nine hours toward the minor at UT Arlington. A 2.5 grade point average must be maintained for a student to remain in the minor.

Courses that may be taken toward the minor are:

1. Course 1
2. Course 2
3. Course 3
4. Course 4
5. Course 5
6. Course 6
7. Course 7
8. Course 8
9. Course 9

Total Hours: 18
Required
KINE 2350  PUBLIC HEALTH: PRINCIPLES AND POPULATIONS

Electives
Fifteen hours from the following:

KINE 3307  SPORTS AND SOCIETY
KINE 3350  URBANIZATION AND VULNERABLE POPULATIONS
KINE 3352  INTRODUCTION TO PUBLIC HEALTH EPIDEMIOLOGY
KINE 3353  HEALTH AND THE HUMAN CONDITION IN THE GLOBAL COMMUNITY
KINE 4330  PROGRAM DESIGN & ADMINISTRATION
KINE 4331  OBESITY & WEIGHT MANAGEMENT
KINE 4349  PUBLIC HEALTH INFORMATICS
KINE 4351  ETHICAL PRACTICES IN HEALTH PROFESSIONS
HEED 3305  WOMEN'S HEALTH ISSUES
HEED 3330  CONSUMER HEALTH AND PUBLIC HEALTH SYSTEMS
HEED 4320  STUDIES IN HEALTHY AGING
The College of Science graduate programs are committed to excellence in graduate education and research and contribute, along with other institutions in this country and throughout the world, to the expansion of scientific knowledge. Graduates of our programs are highly trained and educated scientists who will be able to contribute to the economic and social well-being of our state and nation.

OVERVIEW

With outstanding departments of Biology, Chemistry and Biochemistry, Earth and Environmental Sciences, Mathematics, Physics and Psychology, the College of Science offers comprehensive graduate studies with our world class faculty and research programs. In addition to providing our students with strong core training in the physical and life sciences, we offer specialized Masters degrees for educators to expand their core science training. Interdisciplinary programs and Research Centers provide students with opportunities to span disciplines, and student research activities are complemented by excellent research facilities and state-of-the-art instrumentation. The College and Departments host a series of seminars to further expose our students to cutting edge science developments.

Master's degrees are offered in all of our departments, and we award Ph.D. degrees in Quantitative Biology, Applied Chemistry, Environmental and Earth Sciences, Mathematics, Applied Physics, and Experimental Psychology. For application and entrance requirements, or more on our graduate programs, please call us or visit our Web site at [www.uta.edu/cos](http://www.uta.edu/cos).

Overview

Pursuit of knowledge through scientific study has been the cornerstone of human accomplishment throughout history. The College of Science continues this tradition by providing undergraduate students with curricula that allow exploration and mastery of both the basic concepts and most recent advances of modern science and preparation for professional scientific careers. The College of Science consists of the departments of Biology, Chemistry and Biochemistry, Earth and Environmental Sciences, Mathematics, Physics, and Psychology. Bachelor of Science (B.S.) and Bachelor of Arts (B.A.) degrees offered by these departments prepare students to pursue a wide variety of rewarding, professional scientific careers or graduate study. Bachelor of Arts and Bachelor of Science degrees are offered in all departments. Bachelor of Arts degrees allow students to develop a broad liberal education with a concentration in science and are particularly appropriate for careers in science teaching. Bachelor of Science degrees provide students with a more intensive background in science, preparing them for advanced graduate study or entry into exciting technological careers in industry, medicine, government, business, or commerce. A wide range of degree options within departmental B.S. programs provide students with career-oriented course work required to pursue professional career paths in specific scientific fields. All departments within the college provide highly accessible student academic and career advising that support customization of degree plans to meet a student's specific career goals.

The College of Science fosters interaction between students and faculty. Faculty actively participate as advisors to student scientific societies and are readily available to assist or advise students both within and outside the classroom. Faculty members in all departments actively participate in research supported by world-class research facilities and modern scientific equipment. Undergraduate science majors are encouraged to engage in research under the supervision of a faculty member of their choice, many of whom have international reputations for their scholarly contributions. Students can receive course credit for supervised research.

Beyond the undergraduate degree, the College of Science offers programs leading to graduate degrees. All departments offer Master of Science degrees (M.S.) that allow students to pursue technologically intensive careers in public or private arenas. The departments of Biology, Chemistry and Biochemistry, Earth and Environmental Sciences, Mathematics, Physics and Psychology offer the Doctor of Philosophy degrees (Ph.D.) that allow students to carry out independent dissertation research within a chosen scientific specialty, leading to careers in research and/or university teaching. The M.S. and Ph.D. degrees offered by the Graduate Program in Environmental Science and Engineering prepare students for careers as environmental professionals. The Graduate Catalog provides details of the college's master's and doctoral degree programs.

Also available to undergraduate students in the College of Science are unique and innovative combined degree programs leading to both a B.S. degree and a graduate or professional degree within an accelerated time frame. These combined degree programs include the five-year Bachelor of Science (B.S.) in Biology/Master of Business Administration (M.B.A.) degree programs in Health Care and Biomedical Sciences Management and a five-year B.S. in Biology/Master of Biomedical Engineering (M.B.E.) degree program (see the Department of Biology section of this catalog for detailed descriptions of these programs).

The College of Science takes pride in offering students outstanding degree programs in all of its departments. These programs are marked by excellent teaching, broad undergraduate research opportunities and superior academic and career advising. Graduates of these degree programs are highly competitive in the job market or when applying to nationally recognized graduate or health professions schools. Please visit the College of Science website to make an appointment with one of our advisors. [www.uta.edu/cos](https://www.uta.edu/cos)
Opportunities in Science

The future marvels of the 21st century will spring from science just as did those of the 20th century. The human genome project, miracle drugs, efficient fuels, arrays of new synthetic materials, the transistor, the laser, nuclear power, solar energy, computers, the Worldwide Web, global information systems, the electron microscope, nanotechnology, bioinformatics and sophisticated techniques for locating mineral deposits are merely a few examples of the crowning scientific achievements of the past century. Discoveries of similar or greater magnitude lie ahead in this new century as scientists bring their talents to bear on modern society’s pressing problems such as alternative energy sources, environmental protection, and improved health care. Students graduating from College of Science degree programs have the unique opportunity to participate in this century of new and unparalleled scientific discovery.

Requirements for Admission to the College of Science

The University of Texas at Arlington does not admit students to specific degree programs. Instead students wishing to pursue a major in one of the College of Science undergraduate degree programs must apply to the appropriate academic unit for acceptance into that program. Students should familiarize themselves with the general requirements for acceptance to the degree program of their choice as well as the specific requirements for granting of the degree.

ACADEMIC POLICIES FOR COLLEGE OF SCIENCE MAJORS

In the College of Science, students are required to maintain a minimum overall GPA of 2.25 in all their course work as well as a minimum GPA of 2.25 in their major course work in order to remain in good standing within their degree program. Students whose overall or major GPA falls below 2.25 will be dropped as a major in the College of Science and must select an alternative major. The general College of Science policy on academic probation may be superseded by more rigorous policies within specific science degree programs.

ACADEMIC POLICIES FOR SCIENCE MINORS

A science minor consists of 18 credit hours or more in any one of the departments within the college. At least 6 of the 18 hours must be in advanced 3000 or 4000 level courses. All classes that are to be used toward a minor must also be applicable toward a major in the same discipline. Non majors courses may not be applied toward a minor.

A 2.0 grade average must be maintained in the minor in order to be approved by the minor department. All classes for a science minor must be approved by an academic advisor in the minor department. Transfer students must complete at least nine hours toward the minor at UT Arlington, and six of the nine must be 3000 or 4000 level.

Transfer Students

Field of Study

Students who complete an approved field of study curriculum in whole or in part will receive academic credit for the equivalent courses within their selected field of study at UT Arlington. To view the field of study curriculums approved by the Texas Higher Education Coordinating Board, visit THECB website (https://www.highered.texas.gov/our-work/supporting-our-institutions/institutional-resources/workforce-transfer-resources/programs-of-study/).

Core Complete

Students who transfer from a Texas community college or university and are certified as core complete shall have satisfied the core requirements of UT Arlington. Academic departments may, in some instances, require specific courses outside the major as prerequisites for major course work.

Academic Standards

Students who wish to be admitted to a department within the College of Science must have a grade point average of 2.25 or higher in all college course work completed prior to application for admission to the UT Arlington College of Science.

COMPETENCE IN COMPUTER USE

Graduating students are expected to be proficient in the use of computers. Proficiency is considered to be the ability to utilize word-processing, database/spreadsheet, statistical, graphical and other representative software applications in a student's major discipline. Each student should be able to tap the communications, analytical, and information-retrieval potential of computers to solve scientific problems and evaluate research results. Students should consult with their individual department, school or college undergraduate advisors to determine the mechanisms by which they can demonstrate computer competency. A student may be required to pass a proficiency examination or complete a department- or college-designated computer proficiency course to meet this requirement.

COMPETENCE IN ORAL PRESENTATIONS

Graduating students are expected to have proficiency in oral communication skills including interaction in classroom settings to meet the needs of their course work and utilization of acceptable grammar and pronunciation in formal presentations. Students should consult their individual department, school or college undergraduate advisors to determine the mechanisms by which they can demonstrate oral communication skills competency. A student may be required to pass a proficiency examination or complete a department- or college-designated oral communication skills course to meet this requirement.
Pre-Health Programs

Students interested in graduate health professional fields such as medicine, dentistry, physician assistant, pharmacy, optometry and veterinary medicine may complete required courses with most majors. The Health Professions Office offers pre-health advising on graduate health school requirements and expectations, access to resources, mock interviews, opportunity for a committee letter of recommendation, and feedback/assistance in applying to professional health schools.

In general, health professional admission committees do not state a preference regarding an applicant's undergraduate major, leaving students to choose a degree program best suited to their special abilities and interests. Therefore, a student may choose any major, as long as the minimum requirements for admission to the specific program(s) are met. Science courses for non-science majors do not satisfy the requirements for most graduate health professional schools. The B.S. in Biology meets the requirements for most programs. Additional information can be found on the Health Professions Website: [https://www.uta.edu/pre-health](https://www.uta.edu/pre-health).

Post Baccalaureate Non-Degree Seeking Program

The post baccalaureate program is intended for students who have previously completed a bachelor's degree and wish to pursue admission to a graduate health professional school, usually medical, dental, or PA school. Since student backgrounds vary, courses for the post baccalaureate program are custom designed for the individual student. This informal program does not have special admission requirements. Students in this program may complete prerequisite requirements in one to two years depending upon their undergraduate major and GPA, intended course load, time of entry to the program, and additional criteria that should be discussed with the Health Professions Advisor. Additional information can be found on the Post Bacc Program Page ([https://www.uta.edu/science/programs/health-professions/non-traditional-and-post-bacc-applicants.php](https://www.uta.edu/science/programs/health-professions/non-traditional-and-post-bacc-applicants.php)) on the Health Professions Website: [https://www.uta.edu/pre-health](https://www.uta.edu/pre-health).

Teacher Certification in the Sciences

Programs leading to teacher certification at secondary levels are available in departments of the College of Science in coordination with UTeach Arlington and the College of Education. Included among these are secondary certification in Composite Science or Life Science offered in the Departments of Biology and Earth & Environmental Sciences; in Physical Science offered in the Departments of Physics and Chemistry & Biochemistry; in Chemistry offered in the Department of Chemistry and Biochemistry; in Physics/Mathematics offered in the Department of Physics; and in Mathematics offered in the Department of Mathematics. Descriptions of these programs are provided in each department’s section of this catalog.

Transfer Students

Students transferring from other institutions are invited to explore opportunities in the College of Science. Inquiries about the equivalency of their transferred courses and other questions related to transferring are welcome to make an appointment with the Transfer Advisor, 107B Life Science Building.

Science Constituency Council

The Science Constituency Council is the official representative student organization for the College of Science with Student Government. Meeting twice monthly, the SCC serves both the College and its students. The SCC strives to involve a greater number of students in all aspects of the College of Science. SCC members are majors in the departments of the College. For more information, visit [https://mavorgs.campuslabs.com/engage/organization/scienceconstituencycouncil](https://mavorgs.campuslabs.com/engage/organization/scienceconstituencycouncil).

Science Learning Center

501 S. Nedderman Dr. · 106 Life Science Bldg.

The Science Learning Center is an on-site resource facility designed to support student learning and course work in science and mathematics through self-study modules and a variety of study aids. In cooperation with College of Science faculty, the center offers a full spectrum of multimedia resource materials and study aids for students in biology, chemistry, geology, mathematics, physics and psychology classes. The center also provides students with study areas and a study lounge.

Materials currently available include:

- Study guides and sample exams
- Lab notes and solutions manuals
- Hands-on models (Anatomical and Molecular)
- MCAT Prep Resources
- Networked computers
Chemistry Clinic

The Chemistry Clinic is available to answer questions related to your chemistry courses. This service is free for all UT Arlington students enrolled in the following courses:

- **CHEM 1400** INTRODUCTORY CHEMICAL PRINCIPLES 4
- **CHEM 1341** GENERAL CHEMISTRY I 3
- **CHEM 1342** GENERAL CHEMISTRY II 3
- **CHEM 1441** GENERAL CHEMISTRY I 4
- **CHEM 1442** GENERAL CHEMISTRY II 4
- **CHEM 1451** CHEMISTRY FOR HEALTH SCIENCES 4
- **CHEM 1465** CHEMISTRY FOR ENGINEERS 4
- **CHEM 2321** ORGANIC CHEMISTRY I 3
- **CHEM 2322** ORGANIC CHEMISTRY II 3

The tutors are outstanding undergraduates in the Department of Chemistry & Biochemistry. The clinic's location is Room 318, Science Hall, where you can find the operation hours posted. No appointment is necessary.

Math Clinic

The Math Clinic is a service provided on a walk-in basis for all math students enrolled in:

- **MATH 0302** FUNDAMENTALS OF ALGEBRA 3
- **MATH 1301** CONTEMPORARY MATHEMATICS 3
- **MATH 1302** COLLEGE ALGEBRA 3
- **MATH 1303** TRIGONOMETRY 3
- **MATH 1308** ELEMENTARY STATISTICAL ANALYSIS 3
- **MATH 1315** COLLEGE ALGEBRA FOR ECONOMICS & BUSINESS ANALYSIS 3
- **MATH 1316** MATHEMATICS FOR ECONOMICS AND BUSINESS ANALYSIS 3
- **MATH 1324** ALGEBRA AND TRIGONOMETRY 3
- **MATH 1325** ANALYTIC GEOMETRY 3
- **MATH 1421** PREPARATION FOR CALCULUS 4
- **MATH 1426** CALCULUS I 4
- **MATH 2326** CALCULUS III 3
- **MATH 2425** CALCULUS II 4
- **MATH 3319** DIFFERENTIAL EQUATIONS & LINEAR ALGEBRA 3

It is located in Room 325, Pickard Hall, and is open seven days a week during the Fall and Spring semesters and with limited hours during the Summer semesters. The tutors are outstanding undergraduate students with demonstrated abilities for helping students.

Physics Clinic

The Physics Clinic is a tutoring service provided on a walk-in basis for students enrolled in:

- **PHYS 1441** GENERAL COLLEGE PHYSICS I 4
- **PHYS 1442** GENERAL COLLEGE PHYSICS II 4
- **PHYS 1443** GENERAL TECHNICAL PHYSICS I 4
- **PHYS 1444** GENERAL TECHNICAL PHYSICS II 4

The tutors include graduate students, faculty and outstanding undergraduates. The location and times are posted in the Physics Department Office, 108 Science Hall.

Science and Mathematics for the Non-Science Major

The College of Science provides a wide variety of science courses for non-science majors. These courses, including those listed below, have been specifically designed to be applicable to science and mathematics requirements for non-science majors. Non-major students should examine the requirements for their degrees before selecting science courses to meet those requirements. The listed courses are also intended to stimulate interest in science and mathematics beyond the specific degree requirements for non-science majors. The figures in parenthesis indicate the number of hours
of instruction per week in the Fall and Spring Semesters. The first figure indicates the amount of time devoted to theory, and the second indicates the amount of time devoted to laboratory work.

BIOLOGY
The Department of Biology has a wide array of research programs ranging from molecular through ecosystem levels of integration. The program boasts strengths in ecology and systematics, evolution, microbiology, genomics, and molecular biology, and has active funding from a variety of private and public agencies. The department also hosts centers for genomics, biological macrofouling, electron microscopy and a collection of invertebrates. The research program emphasizes quantitative aspects of biology and provides students with strong training in statistics and experimental design.

CHEMISTRY AND BIOCHEMISTRY
Research programs include synthetic work on natural products, medically active agents, novel ligands, new catalysts, luminescent materials, photocatalysts, supramolecular and metallosupramolecular compounds, molecular magnetism, molecular recognition, stabilization of reactive intermediates, solar energy conversion and electrically conducting polymers. Biochemical research includes studies of enzymology and molecular biology of bacterial metabolism, and studies on problems involved in anticancer therapy. Physical, analytical and electrochemical research includes studies of colloids and surfaces, electrode modification through thin film surface deposition, MALDI mass spectrometry and characterization of the electrical properties of polymers and other materials. Theoretical studies involve both a major computational program applying molecular orbital theory to a variety of problems.

EARTH AND ENVIRONMENTAL SCIENCES
Department research has a strong orientation toward the application of geochemistry, oceanography, geophysics and paleobiology to earth resources and the environment. Current research interests include analysis and modeling of geologic deformational structures, biostratigraphy of accreted terranes of the Pacific Northwest and the middle Permian of West Texas, sedimentology, paleoclimatology, hydrology, fluvial geomorphology, environmental health, and plate tectonics.

MATHEMATICS
The Department of Mathematics at the University of Texas at Arlington is fast evolving into one of the premier centers in the Dallas/Fort Worth metroplex for mathematics research and education. Our active research faculty have strengths that lie in pure, applied mathematics, statistics, and mathematics education. Many of their research projects are supported by external grants. Recent faculty scholarly accomplishments attest to the high quality of research. The research interests of the faculty in the Mathematics Department include the following areas:

Algebra: homological theory of commutative Noetherian rings; non-commutative algebra using geometric methods; symbolic computations; representations of Lie Algebras and superalgebras.

Differential Equations, Integral Equations and Dynamical Systems: geometric study of integrable Hamiltonian systems; stability and instability of solitary waves; nonlinear dispersive waves; free boundary problems related to phase transition and multi-fluid flow; stochastic differential equations; control theory; inverse problems; computerized tomography.

Geometry: birational algebraic geometry and Mori theory; differential geometry and inverse spectral geometry; finite geometry related to non-associative division algebras.

Mathematical Biology: mathematical modeling of microbial populations, biofilms and competition dynamics; population biology and epidemiology; neuronal dynamics.

Mathematical Education: mathematics program development, impact of reform mathematics learning strategies on mathematics teaching, mathematics problem solving for teaching.

Numerical Analysis: numerical solutions to ordinary and partial differential equations; moving grid, multi-grid and multilevel adaptive methods; fluid dynamics (mechanics); numerical simulation and scientific computation; numerical combustion; software development.

PHYSICS
Current research in the department is primarily in the areas of condensed matter physics, materials science and high energy physics. The theoretical condensed matter group is engaged in cluster, electron transport, electronic structure, molecular dynamics and path integral computations having relevance to the chemical, electrical and magnetic properties of surfaces, metals and semiconductors. The experimental condensed matter group is engaged in studies of diamond coatings, magnetic multi-layers, metals, semiconductors and surfaces using electron, positron, optical and magnetic resonance spectroscopies. The experimental high energy group is involved in collider experiments at Fermi-lab, Brookhaven Laboratory and CERN to
study QCD and to search for super-symmetry and other physics beyond the standard model. Other active research areas include high energy theory, optics, parallel computing and statistical physics.

PSYCHOLOGY
Expertise and research activity include animal behavior, animal and human learning, cognitive processes, social psychology, psycho-biology and developmental psychology. Current research interests include group brainstorming, verbal memory and neuro-psychology, applied psychological measurement, pain systems, decision processes, naturalistic social cognition, stress, genetic and hormonal determinants of aggressive and defensive behaviors and parent-offspring interactions, sea turtle behavior, and infant mental representation of objects.

SCIENCE EDUCATION
The Master of Arts in Interdisciplinary Science (MAIS), a 36 credit hour degree program without a thesis requirement, was designed and developed by science teachers for science teachers. The program will help science educators strengthen and update their knowledge of content in two or more of the following cognate areas: biology, chemistry, earth & environmental sciences, mathematics, and physics. In addition to enhancing content knowledge, the courses will help educators develop teaching strategies that lead to improved student learning, implement high quality instructional materials, and develop skills in using various strategies for assessing student learning. The MAIS degree will serve the needs of classroom teachers, content-area and staff development specialists, curriculum developers, program directors, school administrators, college/university faculty, and educators from informal science institutions who have responsibility for designing, delivering, evaluating, and/or continuously improving standards-based science, mathematics, and technology instruction for students, prekindergarten through the undergraduate degree.

While engaging in the coursework, educators will become learners themselves to deepen their own mastery of scientific and/or mathematical content. The laboratory-based learning activities in the program will help science educators see teaching as less a matter of knowledge transfer and more as an activity of facilitation in which knowledge is generated, content is investigated in depth, and meaning is developed from experience. Graduates of the program will take their place as master science educators who are recognized as proven practitioners in delivering rigorous and relevant instruction and are valued as effective coaches, mentors, and teacher trainers.

Programs

MASTER OF SCIENCE DEGREES
- Biology
- Chemistry
- Earth & Environmental Sciences (Both Thesis and Non-thesis)
- Mathematics
- Physics
- Psychology

MASTER OF ARTS DEGREE
- Interdisciplinary Science (Non-thesis)

DOCTORAL DEGREES
- Chemistry
- Experimental Psychology
- Physics and Applied Physics
- Quantitative Biology
- Mathematics
- Earth and Environmental Sciences
Biology

Undergraduate Degrees

- Bachelor of Arts in Biology (http://catalog.uta.edu/science/biology/undergraduate/#bachelorstext/#ba)
- Bachelor of Science in Biology - Life Science Teacher Pathway (http://catalog.uta.edu/science/biology/undergraduate/#bachelorstext/#bsteacher)
- Bachelor of Arts in Biology - Composite Science Teacher Pathway (http://catalog.uta.edu/science/biology/undergraduate/#bachelorstext/#bacomposite)
- Bachelor of Science in Biology (http://catalog.uta.edu/science/biology/undergraduate/#bachelorstext/#bsbiology)
- Bachelor of Science in Biology - Pre-clinical Track (http://catalog.uta.edu/science/biology/undergraduate/#bachelorstext/#bsbiomed)
- Bachelor of Science in Microbiology (http://catalog.uta.edu/science/biology/undergraduate/#bachelorstext/#bsmicrobiology)
- Bachelor of Science in Medical Technology (http://catalog.uta.edu/science/biology/undergraduate/#bachelorstext/#bsmedtech)
- Bachelor of Science in Biology and Master of Science in Biology Fast Track (https://catalog.uta.edu/science/biology/undergraduate/#bachelorstext)
- Minor in Biology (p. 1291)

Graduate Degrees

- Biology, M.S. (p. 1271)
- Quantitative Biology, B.S. to Ph.D. (p. 1272)
- Quantitative Biology, Ph.D. (p. 1272)

COURSES

BIOL 1301. NUTRITION. 3 Hours. (TCCN = BIOL 1322)
Nutrients essential to an adequate diet and good health and the nutritive values of common foods are reviewed. Offered as BIOL 1301 and HEED 1301: credit will be granted for only one of these courses. Students seeking certification in Health Education must enroll in HEED 1301. Students seeking credit toward their science requirement must enroll in BIOL 1301. May not be used for biology grade point calculation or biology credit toward a BS degree in biology, microbiology, or medical technology.

BIOL 1333. BIOLOGY FOR NON-SCIENCE MAJORS: CELLS AND DISEASE. 3 Hours. (TCCN = BIOL 1308)
Scientific literacy is crucial for navigating health-related issues in today's society. In this lecture and lab course, non-science majors will learn about the molecules of life, the cell, energy and metabolism, cell division, genetics and inheritance and diseases, such as cancer and diabetes. This course will satisfy the laboratory science requirements for students in the Colleges of Liberal Arts and Business Administration, and in the School of Social Work. Formerly listed as BIOL 1433, credit will not be given for both.

BIOL 1334. BIOLOGY FOR NON-SCIENCE MAJORS: LIFE ON EARTH. 3 Hours. (TCCN = BIOL 1309)
Scientific literacy is crucial for understanding the natural world and our relationship to it. In this lecture and lab course, non-science majors will learn about biologically-based problems facing today's society. Course themes include evolution, antibiotic resistance, genetic diversity, animal and bacterial plant diversity, ecosystems, ecology and global change. This course will satisfy the laboratory science requirements for students in the Colleges of Liberal Arts and Business Administration, and in the School of Social Work. Formerly listed as BIOL 1434, credit will not be given for both.

BIOL 1345. BIOLOGY I FOR NURSING STUDENTS. 3 Hours.
This course focuses on the chemical and molecular basis of life, including metabolism, cell structure and function, and genetics to provide knowledge of these subjects for those pursuing a degree in nursing or public health. Note: This course cannot be applied for credit toward a degree in Biology.

BIOL 1441. BIOLOGY I FOR SCIENCE MAJORS: CELL AND MOLECULAR BIOLOGY. 4 Hours. (TCCN = BIOL 1406)
(BIOL 1406) This course focuses on the chemical and molecular basis of life, including metabolism, cell structure and function, and genetics. Laboratory experiments are designed to complement theory presented in lecture. Formerly listed as BIOL 1449; credit will not be given for both.

BIOL 1442. BIOLOGY II FOR SCIENCE MAJORS: ECOLOGY AND EVOLUTION. 4 Hours. (TCCN = BIOL 1407)
Reviews significant aspects of organismal biology and presents current hypotheses concerning the origin and diversification of life on Earth. The ecological and behavioral interactions between organisms and their biotic/abiotic environments are considered from an evolutionary perspective. The laboratory will examine evolution, ecology and the diversity of life using hands-on observational and experimental approaches. Prerequisite: BIOL 1441.

BIOL 2300. BIOSTATISTICS. 3 Hours.
Introduction to the collection, description, and analysis of data with statistical methods appropriate for biological sciences. Specific topics covered include but are not limited to: descriptive statistics, frequency distributions, random sampling, probabilities, binomial distribution, normal distribution theory and calculations, confidence intervals, t-tests (independent sample and paired designs), Chi-square tests (one-way and two-way analysis), analysis of variance, correlation and linear regression. Prerequisite: BIOL 1441 and BIOL 1442, or permission of the instructor.

BIOL 2317. BASIC CONCEPTS IN HUMAN SEXUALITY. 3 Hours.
The physiological, psychological, and sociological aspects of human sexuality. Offered as BIOL 2317, HEED 2317, PSYC 2317, and GWSS 2317. Credit will be granted for one of these courses only. Students seeking certification in Health Education must enroll in HEED 2317. Students seeking credit toward their science requirement must enroll in BIOL 2317. May not be used for biology grade point calculation or biology credit toward a BS degree in biology, microbiology, medical technology, psychology, or sociology.
Biol 2444. General Microbiology. 4 Hours. (Tccn = Biol 2421)
Fundamental principles of microbiology including the structure and function of microbial cells and their activities in nature. Bacteria will be used in the laboratory to provide training and experimental methodology. Formerly listed as Biol 3444; credit will not be granted for both. Prerequisite: Biol 1441, Chem 1441 or Chem 1341.

Biol 2457. Human Anatomy and Physiology I. 4 Hours. (Tccn = Biol 2401)
Functional morphology of humans, cellular function, principles of support and movement, and neural control systems. Laboratory exercises involve both anatomical and physiological aspects of principles introduced in the lecture. This class is designed for students in sport activities (Exsa), nursing, and health. Prerequisite: Biol 1345 or Biol 1441 or equivalent, or approval of the department. May not be used for biology grade point calculation or biology credit toward a degree in biology or microbiology.

Biol 2458. Human Anatomy and Physiology II. 4 Hours. (Tccn = Biol 2402)
Functional morphology of humans, maintenance of the human body, and continuity of life. Topics will include the endocrine, cardiovascular, respiratory, digestive, urinary, immune, and reproductive systems. Laboratory exercises explore both anatomical and physiological aspects of principles introduced in the lecture. This class is designed for students in sport activities (Exsa), nursing, and health. Prerequisite: Biol 2457 or equivalent. May not be used for biology grade point calculation or biology credit toward a degree in biology or microbiology.

Biol 2460. Microbiology for Non-Science Majors. 4 Hours. (Tccn = Biol 2420)
This course covers basic microbiology and immunology and is primarily directed at pre-nursing, pre-allied health, and non-science majors. It includes the nature of microorganisms, microbial diversity, the importance of microorganisms and acellular agents in the biosphere, and their roles in human and animal diseases. Major topics include microorganism structure, growth, physiology, pathogenesis, and biochemistry. Emphasis is on medical microbiology, infectious diseases, and public health. The laboratory component covers essential microbiology laboratory skills including aseptic technique, assessment of antimicrobial agents, microscopy, and staining techniques. This course cannot be applied for credit toward a degree in Biology. Prerequisite: Biol 1345, or Biol 1441 or equivalent.

Biol 3101. Current Topics in Biology. 1 Hour.
Seminar on significant topics and issues in modern biology. Students will attend seminars on selected topics. Topics will vary each semester. May be repeated once for biology credit.

Biol 3131. Service Learning. 1 Hour.
Service learning is a credit-bearing learning experience; therefore, credit is awarded for academic learning and not for service hours. Students engage in classroom activities, assignments, and discussions and in addition, integrate course content and learning outcomes with genuine community needs or issues. Collaborations with the community result in relationship-building and partnerships through intentional, structured service experiences. Students are required to analyze and evaluate these experiences by engaging in reflective activities, such as discussion and journaling. This process of structured service and learning in the community promote a sense of civic responsibility and commitment to others. Students commit to serve weekly time resulting in at least fifteen hours during one semester. This time is agreed upon by student, faculty, and community agency. Prerequisite: Permission of the Instructor.

Biol 3149. Cooperative Program in Biology. 1 Hour.
The purpose of this course is to allow students to earn college credit for relevant field work in the areas of biology and microbiology. Students must apply for the program and be cleared for registration during the semester prior to enrollment.

Biol 3231. Service Learning. 2 Hours.
Service learning is a credit-bearing learning experience; therefore, credit is awarded for academic learning and not for service hours. Students engage in classroom activities, assignments, and discussions and in addition, integrate course content and learning outcomes with genuine community needs or issues. Collaborations with the community result in relationship-building and partnerships through intentional, structured service experiences. Students are required to analyze and evaluate these experiences by engaging in reflective activities, such as discussion and journaling. This process of structured service and learning in the community promote a sense of civic responsibility and commitment to others. Students commit to serve weekly time resulting in at least fifteen hours during one semester. This time is agreed upon by student, faculty, and community agency. Prerequisite: Permission of the Instructor.

Biol 3249. Cooperative Program in Biology. 2 Hours.
The purpose of this course is to allow students to earn college credit for relevant field work in the areas of biology and microbiology. Students must apply for the program and be cleared for registration during the semester prior to enrollment.

Biol 3301. Cell Physiology. 3 Hours.
An introduction to the basic physical, chemical, and biological principles which govern function in eukaryotic cells, and the relationships between cells and their environments. Prerequisite: Biol 1441. Chem 2181 and Chem 2321 are recommended.

Biol 3302. Undergraduate Research Experience. 3 Hours.
In this laboratory course, students will learn core concepts in Biology through an intense research experience. Students will master skills including quantitative data analysis, oral and written communication, and critical thinking. Permission is required to enroll in this course.

Biol 3303. Drugs and Behavior. 3 Hours.
A survey of the psychoactive agents, their therapeutic uses, and social abuses. Alcohol, nicotine, caffeine, narcotics, hallucinogens, stimulants, and tranquilizers. Offered as Biol 3303, Heed 3303, and Psyc 3303; credit will be granted only once. May not be used for biology grade point calculation or biology credit toward a B.S. degree in biology, microbiology, or medical technology. Students seeking certification in health education must enroll in Heed 3303.

Biol 3306. Seminar on Significant Topics and Issues in Modern Biology. 1 Hour.
Seminar on significant topics and issues in modern biology. Students will attend seminars on selected topics. Topics will vary each semester. May be repeated once for biology credit.

Biol 3441. Introductory Microbiology. 4 Hours. (Tccn = Biol 2421)
A survey of the basic physical, chemical, and biological principles which govern function in eukaryotic cells, and the relationships between cells and their environments. Prerequisite: Biol 1441. Chem 2181 and Chem 2321 are recommended.

Biol 3444. General Microbiology. 4 Hours. (Tccn = Biol 2421)
Fundamental principles of microbiology including the structure and function of microbial cells and their activities in nature. Bacteria will be used in the laboratory to provide training and experimental methodology. Formerly listed as Biol 3444; credit will not be granted for both. Prerequisite: Biol 1441, Chem 1441 or Chem 1341.

Biol 3457. Human Anatomy and Physiology II. 4 Hours. (Tccn = Biol 2402)
Functional morphology of humans, maintenance of the human body, and continuity of life. Topics will include the endocrine, cardiovascular, respiratory, digestive, urinary, immune, and reproductive systems. Laboratory exercises explore both anatomical and physiological aspects of principles introduced in the lecture. This class is designed for students in sport activities (Exsa), nursing, and health. Prerequisite: Biol 2457 or equivalent. May not be used for biology grade point calculation or biology credit toward a degree in biology or microbiology.

Biol 3460. Microbiology for Non-Science Majors. 4 Hours. (Tccn = Biol 2420)
This course covers basic microbiology and immunology and is primarily directed at pre-nursing, pre-allied health, and non-science majors. It includes the nature of microorganisms, microbial diversity, the importance of microorganisms and acellular agents in the biosphere, and their roles in human and animal diseases. Major topics include microorganism structure, growth, physiology, pathogenesis, and biochemistry. Emphasis is on medical microbiology, infectious diseases, and public health. The laboratory component covers essential microbiology laboratory skills including aseptic technique, assessment of antimicrobial agents, microscopy, and staining techniques. This course cannot be applied for credit toward a degree in Biology. Prerequisite: Biol 1345, or Biol 1441 or equivalent.

Biol 3501. Current Topics in Biology. 1 Hour.
Seminar on significant topics and issues in modern biology. Students will attend seminars on selected topics. Topics will vary each semester. May be repeated once for biology credit.

Biol 3531. Service Learning. 1 Hour.
Service learning is a credit-bearing learning experience; therefore, credit is awarded for academic learning and not for service hours. Students engage in classroom activities, assignments, and discussions and in addition, integrate course content and learning outcomes with genuine community needs or issues. Collaborations with the community result in relationship-building and partnerships through intentional, structured service experiences. Students are required to analyze and evaluate these experiences by engaging in reflective activities, such as discussion and journaling. This process of structured service and learning in the community promote a sense of civic responsibility and commitment to others. Students commit to serve weekly time resulting in at least fifteen hours during one semester. This time is agreed upon by student, faculty, and community agency. Prerequisite: Permission of the Instructor.

Biol 3549. Cooperative Program in Biology. 1 Hour.
The purpose of this course is to allow students to earn college credit for relevant field work in the areas of biology and microbiology. Students must apply for the program and be cleared for registration during the semester prior to enrollment.

Biol 3551. Service Learning. 2 Hours.
Service learning is a credit-bearing learning experience; therefore, credit is awarded for academic learning and not for service hours. Students engage in classroom activities, assignments, and discussions and in addition, integrate course content and learning outcomes with genuine community needs or issues. Collaborations with the community result in relationship-building and partnerships through intentional, structured service experiences. Students are required to analyze and evaluate these experiences by engaging in reflective activities, such as discussion and journaling. This process of structured service and learning in the community promote a sense of civic responsibility and commitment to others. Students commit to serve weekly time resulting in at least fifteen hours during one semester. This time is agreed upon by student, faculty, and community agency. Prerequisite: Permission of the Instructor.

Biol 3569. Cooperative Program in Biology. 2 Hours.
The purpose of this course is to allow students to earn college credit for relevant field work in the areas of biology and microbiology. Students must apply for the program and be cleared for registration during the semester prior to enrollment.

Biol 3601. Cell Physiology. 3 Hours.
An introduction to the basic physical, chemical, and biological principles which govern function in eukaryotic cells, and the relationships between cells and their environments. Prerequisite: Biol 1441. Chem 2181 and Chem 2321 are recommended.

Biol 3602. Undergraduate Research Experience. 3 Hours.
In this laboratory course, students will learn core concepts in Biology through an intense research experience. Students will master skills including quantitative data analysis, oral and written communication, and critical thinking. Permission is required to enroll in this course.

Biol 3603. Drugs and Behavior. 3 Hours.
A survey of the psychoactive agents, their therapeutic uses, and social abuses. Alcohol, nicotine, caffeine, narcotics, hallucinogens, stimulants, and tranquilizers. Offered as Biol 3303, Heed 3303, and Psyc 3303; credit will be granted only once. May not be used for biology grade point calculation or biology credit toward a B.S. degree in biology, microbiology, or medical technology. Students seeking certification in health education must enroll in Heed 3303.
BIOL 3304. MICROBIAL GENETICS. 3 Hours.
Consideration of the physical, chemical, and functional nature of genetic processes in micro-organisms. Prerequisite: BIOL 2444, or permission of instructor.

BIOL 3306. BACTERIAL PHYSIOLOGY AND ANTIBIOTICS. 3 Hours.
This course will cover the fundamentals of how bacterial cells work, and how antibiotics interfere with essential functions to stop bacterial cells from working. This class is taught largely through reading and discussion of the primary literature, and with active learning and writing assignments. Prerequisite: BIOL 2444.

BIOL 3307. EVOLUTIONARY MEDICINE. 3 Hours.
The application of evolutionary theory to the practice of medicine from an anthropological perspective. Topics include diet/paleodiets, sleep habits, infectious diseases, the developmental origins of health and disease, mental health, women's health and reproduction, and aging/senescence, among others. Offered as BIOL 3307 and ANTH 3307; credit will only be granted in one department.

BIOL 3308. MICROBIAL ECOLOGY AND EVOLUTION. 3 Hours.
The diversity, ecology and evolution of microorganisms in natural systems. Topics will include the role of bacteria and fungi in the functioning of terrestrial ecosystems; microbial biogeography; taxonomic and metabolic diversity; evolutionary diversification; and interactions among microbes and with plant and animal hosts. Prerequisite: BIOL 2444.

BIOL 3310. SELECTED TOPICS IN BIOLOGY. 3 Hours.
Topics in biology not treated in the regular curriculum. Topic, format, and prerequisites to be determined by the instructor. May be repeated for biology elective credit as different topics are offered. Prerequisite: BIOL 1441, BIOL 1442.

BIOL 3311. SELECTED TOPICS IN MICROBIOLOGY. 3 Hours.
Topics in microbiology not treated in the regular curriculum. Topic, format, and prerequisites to be determined by the instructor. May be repeated for microbiology elective credit as different topics are offered. Prerequisite: BIOL 1441, BIOL 2444.

BIOL 3312. IMMUNOLOGY. 3 Hours.
An introduction to the components, properties, and manifestations of the adaptive immune response that occurs in vertebrates. Prerequisite: BIOL 1441, BIOL 2444, CHEM 2181, CHEM 2321 are recommended.

BIOL 3313. HUMAN ADAPTATION AND THE CONCEPT OF RACE. 3 Hours.
The study of modern human biological variation in the context of the history of the concept of race. Detailed historical review explores changing perspectives on variation within our species. Course examines physiological adaptations to environmental stress among a variety of human populations and implications of recent genetic research. Offered as BIOL 3313 and ANTH 3311; credit will only be granted in one department.

BIOL 3314. PRIMATE EVOLUTION AND BEHAVIOR. 3 Hours.
An overview of the Primate Order covering primate origins, evolution, ecology, adaptation, and behavior. Examination of the environmental context within which primates live, how the form of their bodies reflects their activities, and how they relate behaviorally to their environments and to one another. Offered as BIOL 3314 and ANTH 3313; credit will only be granted in one department.

BIOL 3315. GENETICS. 3 Hours.
Principles of molecular and classical genetics. The function and transmission of hereditary material in microorganisms, plants, and animals, including humans. Prerequisite: BIOL 1441.

BIOL 3316. ASTROBIOLOGY I. 3 Hours.
This is an interdisciplinary course between astrophysics, biology and geology. Topics include properties of life, origin and evolution of life on Earth, terrestrial geology and habitability, environmental forcings, extremophiles, mass extinctions, meteorites, searches for life in the solar system. Offered as BIOL 3316, GEOL 3316 and PHYS 3316; credit will be granted only once. Prerequisite: PHYS 1441 & PHYS 1442 or equivalent and PHYS 2315 or PHYS 3315, or permission from instructor. Prerequisites for Biology majors: PHYS 1441 & PHYS 1442 or equivalent.

BIOL 3317. GENOMICS. 3 Hours.
This course presents an integrative approach to genome science, combining elements of genetics, state of the art technologies in genomic analysis. A basic knowledge of genetics and probability concepts is required. Use of the World Wide Web will be an essential part of the course. Prerequisite: BIOL 3315 or permission of instructor.

BIOL 3318. LIMNOLOGY. 3 Hours.
The living and nonliving components of inland waters. An introduction to the geological, physical, and chemical background, and to the major organisms and ecological processes. Prerequisite: BIOL 1441.

BIOL 3319. HUMAN GENETICS. 3 Hours.
This course will enable students to comprehend the basic principles of genetics applied to human inheritance and disease, to interpret the research strategies aimed to identify and study the genes responsible for diverse functions and traits, as well as to assess the consequences of the genetic technologies in our society. Prerequisites: BIOL 1441 and BIOL 3315.

BIOL 3320. BIOLOGY OF TEXAS. 3 Hours.
This course is an introduction to habitat diversity and the number of species found in the state of Texas. Students will learn about the physical, climatological, and human geography of Texas and how that affects animal and plant life within the state. Descriptions of state and federal endangered species listing processes will also be covered. Prerequisite: BIOL 1441 and BIOL 1442.
BIOL 3321. INFECTIOUS DISEASE. 3 Hours.
This course will cover key concepts that relate to the history and background of infectious diseases, as well as the emergence, spread, and control of infectious disease epidemics. Vaccination, antibiotic resistance, and eradication of diseases will also be discussed. Prerequisite: BIOL 3444.

BIOL 3322. BRAIN AND BEHAVIOR. 3 Hours.
An introduction to the anatomical structures and physiological processes that determine behavior. Topics include the acquisition and processing of sensory information, the neural control of movement, and the biological bases of complex behaviors (such as learning, memory, sex, language, and addiction), as well as the basic functioning of the nervous system. Offered as BIOL 3322 and PSYC 3322. Credit will be granted only once. BIOL 3322 prerequisite: BIOL 1441, BIOL 1442. PSYC 3322 prerequisite: BIOL 1441 or PSYC 1315.

BIOL 3324. HUMAN ECOLOGY OF FOOD. 3 Hours.
Modern food production and consumption is a complex, interdisciplinary topic directly relevant to global environmental and public health issues. This course will examine our place in the food web from ecological, biogeographical, historical, cultural, and sociopolitical perspectives. Course participants will examine the implications of our everyday decisions as consumers who play a key role in an intricate ecological system. Prerequisite: BIOL 1441 and BIOL 1442.

BIOL 3326. ANIMAL BEHAVIOR. 3 Hours.
A survey of research and theory comparing behavior at various phyletic levels. Offered as BIOL 3326 and PSYC 3326. Credit will be granted for only one of these courses. Prerequisite: BIOL 1441, BIOL 1442.

BIOL 3327. MICROBIAL DIVERSITY. 3 Hours.
This course is an introduction to the great diversity of microbial life. The topic material explores this diversity by considering the great age of bacteria, their evolution, biochemistry, habitat and form. The course of study focuses attention on organisms not commonly encountered in General Microbiology laboratories. Prerequisite: BIOL 3444 Microbiology.

BIOL 3328. ENVIRONMENTAL MICROBIOLOGY. 3 Hours.
An introduction to the principles, methodology, and practical applications and implications of environmental microbiology. Lecture topics include habitat and community approaches to environmental microbiology, measures of microbial populations and activities, interactions among microbial communities, the role of microorganisms in the origin of mineral resources, microorganisms and pollution, and current developments on energy flow through microbial communities. Prerequisite: BIOL 3444.

BIOL 3331. SERVICE LEARNING. 3 Hours.
Service learning is a credit-bearing learning experience; therefore, credit is awarded for academic learning and not for service hours. Students engage in classroom activities, assignments, and discussions and in addition, integrate course content and learning outcomes with genuine community needs or issues. Collaborations with the community result in relationship-building and partnerships through intentional, structured service experiences. Students are required to analyze and evaluate these experiences by engaging in reflective activities, such as discussion and journaling. This process of structured service and learning in the community promote a sense of civic responsibility and commitment to others. Students commit to serve weekly time resulting in at least fifteen hours during one semester. This time is agreed upon by student, faculty, and community agency. Prerequisite: Permission of the Instructor.

BIOL 3333. GLOBAL CHANGE BIOLOGY. 3 Hours.
This course covers global-scale environmental changes and their consequences for species and ecological communities. We will focus on climate change, habitat loss, and species invasion, with special emphasis on combining physiology, ecology, and evolution to understand past responses and predict future outcomes. Prerequisite: BIOL 1442.

BIOL 3339. INTRODUCTION TO EVOLUTION. 3 Hours.
The goals of this course are: to introduce students to the process of evolution, the patterns that result, and the way that evolutionary history has shaped the diversity of organisms on Earth; to explore how evolutionary biologists formulate and test hypotheses; to investigate applications of evolutionary biology to mainstream medical research; and to investigate current controversies in evolutionary biology. Prerequisites: BIOL 1441 and BIOL 3315 (or equivalent), or permission of instructor.

BIOL 3340. BIOINFORMATICS. 3 Hours.
This course is an applied introduction to bioinformatics and computational genomics. The course is geared toward the student with a biology background and limited programming experience. The course provides an entrance to commonly used programming/scripting languages and an introduction to numerous aspects of modern genomic data analyses (e.g. identification of coding and regulatory features in novel sequences, expression analysis, and comparative/phylogenetic analyses). Prerequisite: BIOL 1442 and BIOL 3315, or permission of instructor.

BIOL 3342. DEVELOPMENTAL BIOLOGY IN HEALTH AND DISEASE. 3 Hours.
An introduction to fundamental developmental events that form complex organisms with an emphasis on human health and disease. Prerequisites: BIOL 1441 and BIOL 1442. BIOL 3301 is recommended.

BIOL 3349. COOPERATIVE PROGRAM IN BIOLOGY. 3 Hours.
The purpose of this course is to allow students to earn college credit for relevant field work in the areas of biology and microbiology. Students must apply for the program and be cleared for registration during the semester prior to enrollment.

BIOL 3352. INTRODUCTION TO FORENSIC LAB SCIENCE. 3 Hours.
An introduction to the various disciplines of Forensic Science including DNA analysis, drug analysis, and firearms basics. Laboratory consists of hands-on investigation of mock crime scenes, fingerprint enhancement methods, and biological analysis of fluids. Prerequisite: BIOL 1441, BIOL 1442, CHEM 1441.
BIOL 3353. FUNDAMENTAL MEDICAL MYCOLOGY. 3 Hours.
Medical mycology deals with those infections in humans, and animals resulting from pathogenic fungi. As a separate discipline, the concepts, methods, diagnosis, and treatment of fungal diseases of humans are specific. Fundamental Medical Mycology balances clinical and laboratory knowledge to provide students with in-depth coverage of the most common fungal diseases and its etiologic agents from both the laboratory and clinical perspective. Prerequisite: BIOL 2444.

BIOL 3355. TOXICOLOGY. 3 Hours.
An introduction to the general principles of toxicology with an emphasis on certain classes of toxic agents, their sources and toxic effects, as well as their environmental fates. Pollution of various media (air, water and soil) and the differences between them will be discussed. Prerequisite: BIOL 1441, BIOL 1442, or equivalent.

BIOL 3356. ENVIRONMENTAL SYSTEMS, BIOLOGICAL ASPECTS. 3 Hours.
Biological components of environmental systems. Population dynamics, species interactions, community structure, biodiversity, bioenergetics, nutrient cycling and human impacts are reviewed. Prerequisite: BIOL 1441, BIOL 1442.

BIOL 3358. ASTROBIOLOGY II. 3 Hours.
This is an interdisciplinary course between astrophysics, biology and geology. Topics include basic properties of life, habitability of Earth, studies of possible life regarding Mars, Europa & Titan, space missions, exoplanets and exomoons, stellar habitable zones, multistellar systems, exoEarths, biomarkers, SETI, Fermi paradox, Drake equation, cosmology. Offered as BIOL 3358, GEOL 3358, and PHYS 3358; credit will be granted only once. Prerequisite: PHYS 1441 & PHYS 1442 or equivalent and PHYS 2315 or PHYS 3315, or permission from instructor. Prerequisites for Biology majors: PHYS 1441 & PHYS 1442 or equivalent. Note that Astrobiology I is strongly recommended to students to be taken prior to Astrobiology II, but is not a prerequisite.

BIOL 3359. MEDICAL MOLECULAR BIOLOGY. 3 Hours.
This course is an introduction to modern molecular biology and human diseases. This course will use medical diseases, class projects, and problem sets to explore and learn modern molecular biology. The molecular mechanisms and underpinnings for several human diseases will be covered. Topics may include, gene regulation, the dynamic genome and how to rewrite it, modern cloning schemes, synthetic biology, and drug design. BIOL 3315 or BIOL 2444 are recommended, but not required. Prerequisite: BIOL 1441.

BIOL 3409. PALEOANTHROPOLOGY. 4 Hours.
Paleoanthropology: an exploration of fossil evidence for human origins and human evolution. Course focuses on the evolution of humans and our close relatives, from our origins as a distinct lineage to “anatomically modern” Homo sapiens, including the relationship between biological and cultural/behavioral evolution. Offered as BIOL 3409 and ANTH 3409; credit will be granted only once.

BIOL 3410. SELECTED TOPICS IN BIOLOGY. 4 Hours.
Topics in biology not treated in the regular curriculum. Topic, format, and prerequisites to be determined by the instructor. May include lab, service learning or any other experiential learning module. May be repeated for biology elective credit as different topics are offered. Prerequisite: BIOL 1441 or BIOL 1442.

BIOL 3420. GENETICS METHODS LAB. 4 Hours.
Computational and experimental approach to genomics research. The course theme will be transposable elements. Prerequisite: BIOL 3315.

BIOL 3427. PLANT SCIENCE. 4 Hours.
A survey of plant science including the importance of plants to people and the human side of botany; the structure, reproduction, physiology, and classification of plants. The laboratory includes the study of structure, function, reproduction, and classification of plants. Replaces BIOL 3327 and BIOL 3183. Credit cannot be given for BIOL 3427 and BIOL 3327 and 3183. Prerequisite: BIOL 1441, BIOL 1442 or equivalent.

BIOL 3442. HUMAN PHYSIOLOGY. 4 Hours.
A comparative study of vertebrate function. The general principles of physiological mechanisms on the cellular, tissue, organ, and organismal levels will be examined. Laboratory studies will complement lecture material and will stress experimental design, data analysis, and the understanding of critical research in physiology. Prerequisite: BIOL 1441, BIOL 1442.

BIOL 3445. METHODS IN MOLECULAR MICROBIOLOGY. 4 Hours.
An overview of different techniques used during manipulation of microorganisms. It will allow students to gain an historical perspective of techniques used in microbiology as well as learn state of the art molecular characterization of microorganisms and their genetic manipulation. Introduces biochemical, physiological, and molecular biology methods to assess community diversity and microbial activity in a variety of ecosystems. Bacterial growth and survival, population biology, and microbial interactions will also be discussed. Prerequisite: BIOL 1441 and BIOL 3444.

BIOL 3446. HUMAN ANATOMY. 4 Hours.
Study of the gross functional anatomy of the human body. Students will participate in laboratory exercises designed to familiarize them with human anatomical structures and their functions. Use of eponyms for anatomical terms will be minimized. Prerequisite: BIOL 1441, BIOL 1442 or 8 hours of Bioltran.

BIOL 3454. GENERAL ZOOLOGY. 4 Hours.
An overview of animal life including the diversity and evolution of major animal phyla, reproduction, development and aspects of physiological function. The laboratory examines form, function and phyletic relationships in a wide variety of animal types. Prerequisite: BIOL 1441, BIOL 1442, or equivalent, or permission of instructor.
BIOL 3457. GENERAL ECOLOGY. 4 Hours.
An examination of the theoretical and experimental aspects of the relationship between the biological and physical environments (organisms, food, space, and time) at the individual, population, community, and ecosystem levels. Prerequisite: BIOL 1441, BIOL 1442.

BIOL 4089. RESEARCH IN BIOLOGY. 0 Hours.
Research problems on an individual basis, conducted under the direction of a member of the biology faculty. Prerequisite: written permission of the supervising instructor prior to registration. This is a non-credit course. Prerequisite: Written permission of the supervising instructor prior to registration.

BIOL 4179. RESEARCH AND DIRECTED STUDY. 1 Hour.
Research or independent study by individual students in biology under the supervision of a biology faculty member. Topics must be approved by the supervising faculty member. Prerequisite: BIOL 1441, BIOL 1442, and permission of instructor.

BIOL 4189. RESEARCH IN BIOLOGY. 1 Hour.
Research problems on an individual basis, conducted under the direction of a member of the biology faculty. A limit of two hours per semester is imposed and only a total of three hours may be counted toward degree requirements. These courses are offered only on a pass/fail basis. Prerequisite: written permission of the supervising instructor prior to registration.

BIOL 4279. RESEARCH AND DIRECTED STUDY. 2 Hours.
Research or independent study by individual students in biology under the supervision of a biology faculty member. Topics must be approved by the supervising faculty member. Prerequisite: BIOL 1441, BIOL 1442, and permission of instructor.

BIOL 4289. RESEARCH IN BIOLOGY. 2 Hours.
Research problems on an individual basis, conducted under the direction of a member of the biology faculty. A limit of two hours per semester is imposed and only a total of three hours may be counted toward degree requirements. These courses are offered only on a pass/fail basis. Prerequisite: written permission of the supervising instructor prior to registration.

BIOL 4303. MICROBIOMES: HEALTH AND THE ENVIRONMENT. 3 Hours.
The development, interactions, and change of polymicrobial communities in both humans and the environment with implications in health, nutrition, disease, research, ecology and agriculture. Prerequisite: BIOL 2444.

BIOL 4307. MOLECULAR EVOLUTION. 3 Hours.
This course focuses on understanding how genes and genomes evolve at the molecular level. Molecular biology provides the data while population genetics provides the theoretical framework. Prerequisite: BIOL 3315, BIOL 3339.

BIOL 4309. NEUROPHARMACOLOGY. 3 Hours.
A survey of how drugs affect the nervous system. General topics will include cellular and molecular foundations of neuropharmacology, receptors and modulation of neural signaling. The specific role of neurotransmitter systems (i.e. acetylcholine, dopamine, norepinephrine, serotonin, and opiate) will be explored. Offered as BIOL 4309 and PSYC 4309; credit will be granted only once. Prerequisite: one or more of the following courses or permission of instructor: BIOL 1441 or PSYC 3322/BIOL 3322 or BIOL 3301.

BIOL 4311. HISTOLOGY. 3 Hours.
Histology is a branch of biological science concerned with structure and function of the organism on a cellular level. The objective in this class is to provide students with the skills and knowledge needed to identify and describe tissues and organs in the microscopic images based on the characteristic morphologies of cells and arrangement of tissues. Students will learn about basic histological techniques used in slide preparation, four basic tissue types and types of tissue, followed by the survey of microscopic images of all organ systems. This course bridges the “whole body” disciplines of anatomy and physiology and cell-level sciences such as cell physiology and genomics. It will help students understand how the differential expression of the genome leads to different cell morphology that in turn leads to different functions. Prerequisite: BIOL 1441, BIOL 1442.

BIOL 4312. INTRODUCTION TO VIROLOGY. 3 Hours.
The nature, reproduction, and host cell interactions of viruses and virus-like agents of bacteria, animals, and plants. Prerequisite: BIOL 2444.

BIOL 4315. HORMONES AND BEHAVIOR. 3 Hours.
A study of the interaction between hormones and behavior. Specific topics covered include: examination of the hormonal influences on sex determination, reproductive behaviors, parental behavior, dominance and aggression, responses to stressful stimuli, homeostasis, and learning and memory. This course uses a comparative approach and draws examples of neuroendocrine function from throughout the animal kingdom including fish, birds, reptiles, and mammals (including humans). Offered as PSYC 4315 and BIOL 4315. Credit will be granted only once. Prerequisite: PSYC 3322/BIOL 3322 or BIOL 1441 or BIOL 3301.

BIOL 4316. GROWTH, DEVELOPMENT, AND EVOLUTION. 3 Hours.
A survey of topics at the nexus of modern human biological research in growth and development and the evolutionary record of hominid subadults. Offered as BIOL 4316 and ANTH 4315; credit will be granted only in one department. Prerequisite is only required for students registering for ANTH 4315. Prerequisite: ANTH 2307 or permission of the instructor.

BIOL 4317. BACTERIAL PATHOGENESIS. 3 Hours.
Host-pathogen relationships in microbial diseases. Topics include bacterium-host interactions; pathogens and pathogenic factors; techniques in pathogenesis research; molecular mechanisms of pathogenesis by major bacterial pathogens; antimicrobial compounds and resistance to antibiotics; and discussion of human genomics and susceptibility to infections. Prerequisites: BIOL 3312, BIOL 2444.
BIOL 4321. ADVANCED PROBLEM SOLVING IN BIOLOGY. 3 Hours.
This course will focus on crucial techniques needed to solve application-based questions in biology. Students will develop and practice reading comprehension, problem solving, critical thinking, and reasoning skills while deepening their understanding of core biological concepts, including cell and molecular biology; biochemistry; anatomy and physiology; and behavior. The goal of this course is to improve students' critical reasoning skills to prepare them for problem-based exams. BIOL 3442 is recommended. Prerequisite: BIOL 1442, BIOL 3301, BIOL 3315.

BIOL 4327. BEHAVIORAL GENETICS. 3 Hours.
Genetic influences on behavioral phenotypes. Research strategies, quantitative methods, and pharmacogenetic approaches to the brain; sociality and altruism; the personality, emotionality and intelligence; psychopathology; chromosomal abnormalities; forensic implications of genetic counseling. Offered as BIOL 4327 and PSYC 4327; credit will be granted only once. Students seeking credit toward the science requirement must enroll in BIOL 4327. Prerequisite: PSYC 1315 or BIOL 1441.

BIOL 4329. NEURAL ENGINEERING. 3 Hours.
This course consists of both lecture/discussion and laboratory. Lecture topics include central and peripheral nervous system injury and regeneration, brain/machine interfacing, primary culture of neural cells, neuroinflammatory and neurodegenerative disease. Laboratories include embryonic and neonatal rat derived neuronal culturing, immunostaining and quantitative analysis. Prerequisites: BIOL 3301, CSE 1310, CHEM 2322, and MATH 3319.

BIOL 4332. POLYMERS IN BIOMEDICAL ENGINEERING. 3 Hours.
This is a foundation course in polymeric biomaterial design, synthesis, characterization, and processing. The topics include design, surface-engineering, functionalization, characterization, as well as micro- and nano-fabrication of polymeric biomaterials. The biomedical applications of the polymeric biomaterials and their interaction with cell/tissue is discussed. Prerequisite: BIOL 3301, CSE 1310, CHEM 2322 and MATH 3319.

BIOL 4333. NANOBIOMATERIALS. 3 Hours.
Synthesis, fabrication, characterization, and biomedical applications of nanobiomaterials. Topics include synthetic nanobiomaterials, biological nanobiomaterials (DNA nanomaterials, protein and peptide nanomaterials, etc.), biofunctionalization of nanobiomaterials, use of nanobiomaterials in tissue engineering, drug delivery, gene delivery. Prerequisites: BIOL 3301, CSE 1310, CHEM 2322, and MATH 3319.

BIOL 4343. RESEARCH METHODS - UTEACH. 3 Hours.
The purpose of this course is to present UTeach students with the tools scientists use to solve scientific problems. These tools enable scientists to develop new knowledge and insights, the most important of which are eventually presented in textbooks and taught in more conventional science classes. These tools include: design of experiments to answer scientific questions; use of statistics to interpret experimental results and deal with sampling errors; mathematical modeling of scientific phenomena; finding and reading articles in the current scientific literature; applying scientific arguments in matters of social importance; writing scientific papers; oral presentation of scientific work; use of probes and computers to gather and analyze data; ethical treatment of human subjects; laboratory safety. Research Methods is primarily a laboratory course, and most of these topics are developed in connection with 4 independent inquiries UTeach students design and carry out. Written inquiries will be evaluated as examples of scientific writing. Prerequisite: SCIE 1201 or SCIE 1334 or concurrent enrollment; junior or senior standing.

BIOL 4345. MICROBIAL PHYSIOLOGY. 3 Hours.
This course considers the anatomy and physiology of the bacterial cell in detail. Lecture topics consider the molecular architecture of cell walls, membranes and organelles, synthesis of wall material and membranes, insertion of proteins into membranes and regulation of biosynthetic systems at the whole cell level. Prerequisite: BIOL 1441 and BIOL 3444. CHEM 4311 recommended.

BIOL 4350. CONSERVATION BIOLOGY. 3 Hours.
Introduction to theory and practice of conservation biology, with emphasis on applications of modern quantitative and genetic techniques to preservation of organisms and habitats. Topics include identification and prioritization of units for protection; conservation genetics; preserve design; public policy issues; and case studies. Prerequisite: BIOL 3315 or equivalent (Genetics), or permission of the instructor.

BIOL 4352. FORENSIC BIOLOGY. 3 Hours.
A comprehensive review of biological principles, applied to forensic science, including sample recovery and handling, analytical techniques, profile matching/exclusion, reporting, and testimony. Prerequisite: BIOL 3315; statistics course recommended; or permission of instructor.

BIOL 4355. METHODS IN FORENSIC BIOLOGY. 3 Hours.
Analysis of typical biological evidentiary samples including extraction of DNA, quantitation, amplification and electrophoresis of examples. Instrumentation utilized includes thermal cyclers and ABI 377 genetic analyzer. Prerequisite: BIOL 4352 or concurrent enrollment.

BIOL 4357. HEALTH PSYCHOLOGY. 3 Hours.
This course provides a broad introduction to health psychology and its interface with the medical world. The course provides a balanced presentation of the important issues in the field, as well as specific content topics that are especially relevant today to better understand health and illness. Offered as BIOL 4357, HEED 4357, and PSYC 4357. Students seeking science requirement credit must enroll in BIOL 4357; students seeking Certification in Health must enroll in HEED 4357. Prerequisite: PSYC 1315 or BIOL 1333 or BIOL 1441 or BIOL 2457; junior standing recommended.

BIOL 4365. TISSUE ENGINEERING LAB. 3 Hours.
Each student will be given the opportunity to perform the techniques commonly used in tissue engineering and biomaterial research. These techniques are culture media preparation, cell culture/subculture, degradable scaffold preparation, scaffold modification, histological sections and staining, and cell imaging analyses. Prerequisites: BIOL 3301, CSE 1310, CHEM 2322, and MATH 3319.

BIOL 4379. RESEARCH AND DIRECTED STUDY. 3 Hours.
Research or independent study by individual students in biology under the supervision of a biology faculty member. Topics must be approved by the supervising faculty member. Prerequisite: BIOL 1441, BIOL 1442, and permission of instructor.
BIOL 4388. INSTRUCTIONAL TECHNIQUES IN BIOLOGY. 3 Hours.
Students will participate in laboratory instruction and student recitation sessions under the supervision of a faculty member. A maximum of 3 hours can be applied to the major for biology or microbiology credit. Enrollment by departmental permission only. A maximum of 6 hours credit from this class will be used to calculate a student's grade point average. Students on probation or who have not qualified for major status may not enroll in this course.

BIOL 4389. RESEARCH IN BIOLOGY. 3 Hours.
Research problems on an individual basis, conducted under the direction of a member of the biology faculty. A limit of two hours per semester is imposed and only a total of three hours may be counted toward degree requirements. These courses are offered only on a pass/fail basis. Prerequisite: written permission of the supervising instructor prior to registration.

BIOL 4390. INSTRUCTIONAL TECHNIQUES IN MICROBIOLOGY. 3 Hours.
Students will participate in laboratory instruction and laboratory preparation under the supervision of the lab coordinator. A maximum of 3 hours can be applied to the major for biology or microbiology credit. Enrollment by departmental permission only. A maximum of 6 hours credit from this class will be used to calculate a student's grade point average. Students on probation or who have not qualified for major status may not enroll in this course.

BIOL 4392. INSTRUCTIONAL TECHNIQUES IN MICROBIOLOGY LEADER. 3 Hours.
Students will take on a leadership role in laboratory instruction and preparation under the supervision of the lab coordinator. Students will strengthen their skill set and gain experience in a supervisory role. A maximum of 3 hours can be applied to the major for biology or microbiology credit. Enrollment by departmental permission only. A maximum of 6 hours credit from this class will be used to calculate a student's grade point average. Students on probation or who have not qualified for major status may not enroll in this course.

BIOL 4393. HONORS SENIOR PROJECT IN BIOLOGY. 3 Hours.
A topic will be selected after consultation with a supervising professor and will involve both original research and writing a formal report. The work will be evaluated by a faculty honors committee. Completion of this course will satisfy the thesis requirement for the Honors College described elsewhere in this catalog.

BIOL 4395. FORENSICS-EL PA. 3 Hours.

BIOL 4406. HUMAN OSTEOLOGY. 4 Hours.
Detailed examination of human skeletal morphology. Topics include form and function of all skeletal elements in the human body, differentiation of each bone, left and right side identification, identification of fragmented remains, and muscle attachments and articulations. Content useful in forensic anthropology, archaeology, and hominin paleontology. Offered as BIOL 4406 and ANTH 4406; credit will be granted only in one department.

BIOL 4421. ADVANCED TOPICS IN NEUROSCIENCE. 4 Hours.
This course will cover current topics in Neuroscience using an interactive, participatory format that includes a lecture portion and a laboratory section. The course will focus on specific content topics that are especially relevant today to better understand and use advanced concepts in Neuroscience research. Completion of this course is essential for students who are interested in pursuing a career in Neuroscience research. Offered as BIOL 4421 or PSYC 4421. Credit will be granted only once. Junior standing recommended. Prerequisite: C or better in BIOL 3322 or PSYC 3322.

BIOL 4440. LABORATORY METHODS IN BACTERIAL PATHOGENESIS. 4 Hours.
This course is intended to expose students to research techniques for studying bacterial pathogens. Students will use molecular and classical techniques to isolate, identify, and characterize bacteria and their response to stimuli. Techniques will range from polymerase chain reaction (PCR), gene sequencing, sodium dodecyl sulfate polyacrylamide gel electrophoresis (SDS-PAGE) and Immunofluorescence Microscopy. Prerequisites: BIOL 3312, BIOL 3444, BIOL 4317, or permission of instructor.

BIOL 4441. ADVANCED MICROBIOLOGY LAB. 4 Hours.
An overview of advanced microbiology techniques used in microbial genetics and physiology. It will allow students not only to gain an advanced and applicable perspective of techniques used in microbiology, but also to learn current state-of-the-art molecular techniques for genetic manipulation and physiological characterization of microorganisms. Included are molecular, physiological, and biochemical methods as well as metagenomics approaches and basic analysis of sequencing data for studying microorganisms. Enrollment requirements: BIOL 1441, General Microbiology (BIOL 2444), and Microbial Genetics (BIOL 3304). Prerequisite: BIOL 1441, BIOL 2444, BIOL 3304.

BIOL 4459. BIOARCHAEOLOGY. 4 Hours.
The study of human remains in archaeological contexts in order to reconstruct individual identity, life history, and past population characteristics. No formal prerequisites, but familiarity with the human skeleton is helpful. Lab component is required. Offered as BIOL 4459 and ANTH 4459; credit will be granted only in one department.

BIOL 4460. ZOOARCHAEOLOGY. 4 Hours.
The study of faunal remains from archaeological contexts to understand past human economic strategies and ecological circumstances. Topics include skeletal and taxonomic identification, taphonomic processes, mortality profiles, biometric analyses, and human behavioral ecology. Lab component is required. Offered as BIOL 4460 and ANTH 4460; credit will be granted only once.

BIOL 5101. SPECIAL TOPICS IN BIOLOGY. 1 Hour.
Seminar on significant biological research. May be repeated for credit. Prerequisite: consent of the instructor.

BIOL 5102. PROFESSIONAL DEVELOPMENT. 1 Hour.
This course will provide senior graduate students with important information regarding various aspects of their professional development including job searching, interviewing, stress and time management, and professional ethics.
BIOL 5193. RESEARCH IN BIOLOGY. 1 Hour.
Conference course in which the student undertakes intensive investigation of topics under the supervision of a staff member. Prerequisite: consent of the instructor. Graded P/F/R.

BIOL 5291. INDIVIDUAL PROBLEMS IN BIOLOGY. 2 Hours.
Individual research projects supervised by a faculty member. Prerequisite: consent of the instructor.

BIOL 5293. RESEARCH. 2 Hours.

BIOL 5301. LABORATORY ROTATION. 3 Hours.
This course is an elective designed to enable students to choose a major advisor and laboratory. Rotations among two or three faculty laboratories will familiarize students with faculty research interests, sharpen individual research skills, and expose students to different study systems, instruments, and research methods. May only be taken once for credit by MS students; may be repeated for credit once by Ph.D. students.

BIOL 5302. MICROBIAL GENETICS. 3 Hours.
Consideration of the nature, expression and regulation of the genetic processes in micro-organisms.

BIOL 5303. MICROBIOMES: HEALTH AND THE ENVIRONMENT. 3 Hours.
The development, interactions, and change of polymicrobial communities in both humans and the environment with implications in health, nutrition, disease, research, ecology and agriculture.

BIOL 5304. VIROLOGY. 3 Hours.
The nature, reproduction and host-cell interactions of viruses and animals. Emphasizes molecular aspects of viral replication and the molecular basis of pathogenesis. Prerequisite: consent of the instructor.

BIOL 5307. NEUROBIOLOGY. 3 Hours.
General principles of the function, structure, and organization of the nervous system. Topics include the gross and microscopic anatomy of nervous tissues; physical and chemical basis for action potentials and synaptic transmission; sensory and motor pathways of transduction; molecular, cellular, and systems study of learning and memory; development; and a study of neural diseases and disorders.

BIOL 5309. IMMUNOLOGY. 3 Hours.
This course is designed to acquaint students with the cellular processes involved in the generation of an immune response. It will provide students with detailed knowledge of the cells and organs of the immune system, their organization and diversity and their specialized functions at different anatomical locations. The importance of immune cell receptors and cytokines in cellular interactions and co-ordination of immunological mechanisms is also emphasized.

BIOL 5310. SELECTED TOPICS IN BIOLOGY. 3 Hours.
Topics may vary depending on the needs and interests of the students. May be repeated for credit. Prerequisite: consent of the student's thesis committee and the current course instructor.

BIOL 5311. EVOLUTION. 3 Hours.
Study of the origin of living systems and the mechanism of their evolution.

BIOL 5312. ADVANCED GENETICS. 3 Hours.
Mechanisms of transmission and function of genetic material. Covers fundamental concepts in transmission genetics including: genotype/phenotype relationships; inheritance; linkage; genome organization; and gene expression. Experimental and quantitative approaches to genetic analyses are emphasized. Prerequisite: consent of the instructor.

BIOL 5314. BIOMETRY. 3 Hours.
An examination of statistical methods and procedures in relation to the design of biological experiments and the analysis of their results. Prerequisite: consent of the instructor.

BIOL 5315. COMMUNITY ECOLOGY. 3 Hours.
An investigation of the effects of interspecific interactions on the distribution and abundance of organisms. Prerequisite: consent of the instructor.

BIOL 5317. BACTERIAL PATHOGENESIS. 3 Hours.
Host-pathogen relationships in microbial diseases. Topics include bacterium-host interactions, pathogens and pathogenic factors: techniques in pathogenesis research: molecular mechanisms of pathogenesis by major bacterial pathogens; antimicrobial compounds and resistance to antibiotics; and discussion of human genomics and susceptibility to infections.

BIOL 5319. HUMAN GENETICS. 3 Hours.
This course will enable students to comprehend the basic principles of genetics applied to human inheritance and disease, to interpret the research strategies aimed to identify and study the genes responsible for diverse functions and traits, as well as to assess the consequences of the genetic technologies in our society.

BIOL 5321. ADVANCED PROBLEM SOLVING IN BIOLOGY. 3 Hours.
This course will focus on crucial techniques needed to solve application-based questions in biology. Students will develop and practice reading comprehension, problem solving, critical thinking, and reasoning skills while deepening their understanding of core biological concepts, including cell and molecular biology; biochemistry; anatomy and physiology; and behavior. The goal of this course is to improve students' critical reasoning skills to prepare them for problem-based exams. BIOL 3442 is recommended. Prerequisite: BIOL 1442, BIOL 3301, BIOL 3315.
BIOL 5325. PLANT ECOLOGY. 3 Hours.
An introduction to plant ecology including physiological, population, community and ecosystem ecology.

BIOL 5335. ESSENTIALS OF GENOMICS. 3 Hours.
An integrative approach to genome science, combining elements of genetics, statistics and bioinformatics. Current technologies used in genomics analysis will be presented.

BIOL 5336. MOLECULAR EVOLUTION. 3 Hours.
An exploration of how genes and genomes evolve at the molecular level. The presentation uses the theoretical framework provided by population genetics to analyze molecular biology data.

BIOL 5340. BIOINFORMATICS. 3 Hours.
This course is an applied introduction to bioinformatics and computational genomics. The course is geared toward the student with a biology background and limited programming experience. The course provides an entrance to commonly used programming/scripting languages and an introduction to numerous aspects of modern genomic data analyses (e.g. identification of coding and regulatory features in novel sequences, expression analysis, and comparative/phylogenetic analyses).

BIOL 5341. HISTOLOGY. 3 Hours.
Histology is a branch of biological science concerned with structure and function of the organism on a cellular level. The objective in this class is to provide students with the skills and knowledge needed to identify and describe tissues and organs in the microscopic images based on the characteristic morphologies of cells and arrangement of tissues. Students will learn about basic histological techniques used in slide preparation, four basic tissue types and types of tissue, followed by the survey of microscopic images of all organ systems.

BIOL 5342. DEVELOPMENTAL BIOLOGY IN HEALTH AND DISEASE. 3 Hours.
An introduction to fundamental developmental events that form complex organisms with an emphasis on human health and disease.

BIOL 5349. COOPERATIVE PROGRAM IN BIOLOGY. 3 Hours.
The purpose of this course is to allow students to earn credit for relevant field work in the areas of biology and microbiology. Students must apply for the program and be cleared for registration during the semester prior to enrollment.

BIOL 5350. CONSERVATION BIOLOGY. 3 Hours.
Theory and practice of conservation biology, with emphasis on applications of modern quantitative and molecular genetic techniques to preservation of organisms and habitats. Includes: identification and prioritization of units for protection; conservation genetics; preserve design; public policy; and current case studies. Prerequisites: BIOL 3315 or equivalent or consent of the instructor.

BIOL 5351. ENVIRONMENTAL MICROBIOLOGY. 3 Hours.
Principles, methodology, and practical applications of environmental microbiology. Topics include: habitat and community approaches to environmental microbiology; measures of microbial populations and activities; interactions among microbial communities; role of microorganisms in the origin of mineral resources and pollution and energy flow through microbial communities. Prerequisite: BIOL 3444 or equivalent or consent of the instructor.

BIOL 5353. FUNDAMENTAL MEDICAL MYCOLOGY. 3 Hours.
Medical mycology deals with those infections in humans, and animals resulting from pathogenic fungi. As a separate discipline, the concepts, methods, diagnosis, and treatment of fungal diseases of humans are specific. Fundamental Medical Mycology balances clinical and laboratory knowledge to provide students with in-depth coverage of the most common fungal diseases and its etiologic agents from both the laboratory and clinical perspective.

BIOL 5354. LIMNOLOGY. 3 Hours.
The study of biotic and abiotic components of inland waters. Prerequisite: consent of the instructor.

BIOL 5355. TOXICOLOGY. 3 Hours.
An introduction to the general principles of toxicology with an emphasis on certain classes of toxic agents, their sources and toxic effects, as well as their environmental fates. Pollution of various media (air, water and soil) and the differences between them will be discussed.

BIOL 5359. MEDICAL MOLECULAR BIOLOGY. 3 Hours.
This course is an introduction to modern molecular biology and human diseases. This course will use medical diseases, class projects, and problem sets to explore and learn modern molecular biology. The molecular mechanisms and underpinnings for several human diseases will be covered. Topics may include, gene regulation, the dynamic genome and how to rewrite it, modern cloning schemes, synthetic biology, and drug design.

BIOL 5366. ADVANCED ORGANISIMAL PHYSIOLOGY. 3 Hours.
In this course, the fundamentals of the structure (anatomy) and function (physiology) of "higher" plants and animals are discussed. Cellular, tissue, organ, and organismal levels will be the focus. General topics will include energy acquisition, distribution of nutrients, fluid transport, gas exchange, defense, sensing and responding to the environment, and reproduction. An understanding of basic biological concepts is expected.

BIOL 5370. THESIS RESEARCH IN CELL BIOLOGY. 3 Hours.
Faculty supervised thesis research.

BIOL 5371. THESIS RESEARCH IN ECOLOGY AND EVOLUTION. 3 Hours.
Faculty supervised thesis research.

BIOL 5372. THESIS RESEARCH IN BIOINFORMATICS. 3 Hours.
Faculty supervised thesis research.
BIOL 5373. THESIS RESEARCH IN MICROBIOLOGY. 3 Hours.
Faculty supervised thesis research.

BIOL 5374. THESIS RESEARCH IN GENETICS AND GENOMICS. 3 Hours.
Faculty supervised thesis research.

BIOL 5391. INDIVIDUAL PROBLEMS IN BIOLOGY. 3 Hours.
Individual research projects supervised by a faculty member. Prerequisite: consent of the instructor.

BIOL 5392. MASTER'S NON-THESIS CAPSTONE. 3 Hours.
The Master of Science in Biology Non-Thesis (MSNT) capstone course creates opportunities for students to integrate, reflect on, and apply what they have learned in their coursework. Students also practice professional competencies including communication, teamwork, critical thinking, research, problem-solving, and analytical thinking. This course satisfies the capstone requirement for the MS in Biology (non-thesis) degree.

BIOL 5393. RESEARCH IN BIOLOGY. 3 Hours.
Conference course in which the student undertakes intensive investigation of topics under the supervision of a staff member. Prerequisite: consent of the instructor. Graded P/F/R.

BIOL 5398. THESIS. 3 Hours.
Graded R/F only. Prerequisite: consent of faculty.

BIOL 5420. GENETICS METHODS LAB. 4 Hours.
Computational and experimental approach to genomics research. The course theme will be transposable elements.

BIOL 5421. METHODS IN MOLECULAR MICROBIOLOGY. 4 Hours.
This course will provide an overview of different techniques used during manipulation of microorganisms. It will allow students to gain a historical perspective of techniques used in microbiology (Winogradsky column, Koch solid agar plating) as well as learn state of the art molecular characterization of microorganisms and their genetic manipulation. This course introduces current biochemical, physiological and molecular biology methods to assess community diversity and microbial activity in a variety of ecosystems. Other topics discussed include bacterial growth and survival, population biology, and microbial interactions.

BIOL 5440. LABORATORY METHODS IN BACTERIAL PATHOGENESIS. 4 Hours.
This course is intended to expose students to research techniques for studying bacterial pathogens. Students will use molecular and classical techniques to isolate, identify and characterize bacteria and their response to stimuli. Techniques will range from PCR, Gene Sequencing, SDS_PAGE and Immunofluorescence Microscopy. Prerequisite: BIOL 3312, BIOL 3444, BIOL 4317.

BIOL 5493. RESEARCH. 4 Hours.

BIOL 5593. RESEARCH. 5 Hours.

BIOL 5693. RESEARCH IN BIOLOGY. 6 Hours.
Conference course in which the student undertakes intensive investigation of topics under the supervision of a staff member. Prerequisite: consent of the instructor. Graded P/F/R.

BIOL 5698. THESIS. 6 Hours.
Graded P/F/R. Prerequisite: consent of faculty.

BIOL 5998. THESIS. 9 Hours.
Graded P/F/R. Prerequisite: consent of faculty.

BIOL 6191. ADVANCED RESEARCH. 1 Hour.
Faculty supervised individual research. May be repeated for credit. Graded P/F/R.

BIOL 6291. ADVANCED RESEARCH. 2 Hours.
Faculty supervised individual research. May be repeated for credit. Graded P/F/R.

BIOL 6301. ESSENTIAL TOPICS IN GENOMICS. 3 Hours.
This course will explore diverse aspects of genome biology, including the evolutionary principles that influence how genomes change through time, genome structure, and genome function. Emphasis will be given on how genome technology influences the way we do modern biology and how genomics influences the world around us.

BIOL 6302. MICROBIOLOGY, MOLECULAR AND CELLULAR BIOLOGY. 3 Hours.
Using model microorganisms, this course will investigate their (1) Physiology, biochemistry, and genetics, (2) The host's innate and adaptive immune responses, (3) The molecular basis for virulence and pathogenesis and (4) The ecological and economic impact of microbial pathogens including epidemics and pandemics.

BIOL 6303. ADVANCED EVOLUTION AND ECOLOGY. 3 Hours.
Biodiversity, encompassing 8.7 million species, is the most distinctive feature of Earth. In this class, students will learn about the evolutionary and ecological forces shaping biodiversity, the measures of biodiversity from local to global scales, biogeographical patterns of biodiversity, the benefits of biodiversity to humans and ecosystems, and the major threats to biodiversity due to human activities.
BIOL 6310. SELECTED TOPICS IN BIOLOGY FOR PhD STUDENTS. 3 Hours.
Topics may vary depending on the needs and interests of the students. May be repeated for credit. This course is specific to students in the PhD program.

BIOL 6391. ADVANCED RESEARCH. 3 Hours.
Faculty supervised individual research. May be repeated for credit. Graded P/F/R.

BIOL 6399. DISSERTATION. 3 Hours.
BIOL 6399 and BIOL 6699 graded R/F only; BIOL 6999 graded P/F/R. Prerequisite: admission to candidacy for the degree Doctor of Philosophy in Quantitative Biology.

BIOL 6491. ADVANCED RESEARCH. 4 Hours.
Faculty supervised individual research. May be repeated for credit. Graded P/F/R.

BIOL 6591. ADVANCED RESEARCH. 5 Hours.
Faculty supervised individual research. May be repeated for credit. Graded P/F/R.

BIOL 6691. ADVANCED RESEARCH. 6 Hours.
Faculty supervised individual research. May be repeated for credit. Graded P/F/R.

BIOL 6699. DISSERTATION. 6 Hours.
BIOL 6399 and BIOL 6699 graded R/F only; BIOL 6999 graded P/F/R. Prerequisite: admission to candidacy for the degree Doctor of Philosophy in Quantitative Biology.

BIOL 6999. DISSERTATION. 9 Hours.
BIOL 6399 and BIOL 6699 graded R/F only; BIOL 6999 graded P/F/R. Prerequisite: admission to candidacy for the degree Doctor of Philosophy in Quantitative Biology.

BIOL 7399. DOCTORAL DEGREE COMPLETION. 3 Hours.
This course may be taken during the semester in which a student expects to complete all requirements for the doctoral degree and graduate. Enrolling in this course meets minimum enrollment requirements for graduation, for holding fellowships awarded by The Office of Graduate Studies and for full-time GTA or GRA positions. Students should verify that enrollment in this course meets other applicable enrollment requirements. To remain eligible in their final semester of study for grants, loans or other forms of financial aid administered by the Financial Aid Office must enroll in a minimum of 5 hours as required by the Office of Financial Aid. Other funding sources may also require more than 3-hours of enrollment. Additional hours may also be required to meet to requirements set by immigration law or by the policies of the student's degree program. Students should contact the Financial Aid Office, other sources of funding, Office of International Education and/or their graduate advisor to verify enrollment requirements before registering for this course. This course may only be taken twice. Students who do not complete all graduation requirements while enrolled in this course must enroll in a minimum of 6 dissertation hours (6699 or 6999) in their graduation term. Graded P/F/R.
# Biology - Graduate Programs

## PROGRAM OBJECTIVE

The Master of Science (M.S.) in Biology is designed to prepare students to pursue careers in research, science education, industry, and government. Courses are taught by award-winning, nationally recognized research and teaching faculty and cover a range of essential topics in contemporary biology. The UTA Biology Department offers two distinct Master of Science in Biology programs: the Master of Science with Thesis option (MST), and the fully online Master of Science without a thesis, or “non-thesis,” option (MSNT).

The Doctor of Philosophy (Ph.D.) in Quantitative Biology is designed to train students to apply sophisticated quantitative techniques to solving basic and applied problems in biology. Students in this program will attain substantially greater quantitative skills than in traditional doctoral programs in the biological sciences, providing them with a competitive advantage in business, industry, government, and academia.

### MASTER OF SCIENCE NON-THESIS OPTION (MSNT)

The Master of Science in Biology Non-Thesis option is **100% online and asynchronous**. The non-thesis option is intended to meet the needs of students looking to advance in their careers in private and government sectors, biology teachers wishing to expand their knowledge or be qualified to teach dual credit, or those seeking additional preparation for professional or health science programs. The requirements include a capstone course (BIOL 5392) and 27 additional hours of 5000 level Biology courses*. Students have the flexibility to choose from a range of courses that align with their career and educational goals.

### MASTER OF SCIENCE THESIS OPTION (MST)

The Master of Science in Biology Thesis option is a campus-based Master’s program intended to prepare students for careers in research, government agency, and industry. MST students obtain skills such as data collection and analysis, evaluation of primary literature, and contemporary laboratory techniques. MST students conduct research leading to a thesis in one of the five concentrations: Cell Biology, Genetics and Genomics, Ecology and Evolution, Bioinformatics, or Microbiology. All MST students complete a master’s thesis and 30 credit-hours of 5000 level Biology courses*, including the required courses listed below.

BIOL 5374  THESIS RESEARCH IN GENETICS AND GENOMICS

Select 5 from the following

- BIOL 5303  MICROBIOMES: HEALTH AND THE ENVIRONMENT
- BIOL 5304  VIROLOGY
- BIOL 5307  NEUROBIOLOGY
- BIOL 5309  IMMUNOLOGY
- BIOL 5311  EVOLUTION
- BIOL 5317  BACTERIAL PATHOGENESIS
- BIOL 5319  HUMAN GENETICS
- BIOL 5321  ADVANCED PROBLEM SOLVING IN BIOLOGY
- BIOL 5335  ESSENTIALS OF GENOMICS
- BIOL 5336  MOLECULAR EVOLUTION
- BIOL 5342  DEVELOPMENTAL BIOLOGY IN HEALTH AND DISEASE
- BIOL 5353  FUNDAMENTAL MEDICAL MYCOLOGY
- BIOL 5354  LIMNOLOGY
- BIOL 5355  TOXICOLOGY
- BIOL 5359  MEDICAL MOLECULAR BIOLOGY
- BIOL 5366  ADVANCED ORGANISMAL PHYSIOLOGY

Total Required Hours 30

*Subject to written approval by the Graduate Advisor and within the limitations stated in the General Graduate School Regulations, a MS student may take up to nine hours of coursework from courses listed under Biology at the 3000 or 4000 levels. Coursework may be taken in other areas to support the student's program subject to graduate advisor approval.

Wondering why you should choose UTA Biology for your Master's degree? Or which degree option would be best for you? See the Department of Biology website and the FAQ for answers to these and other common questions about the UTA Biology Master of Science programs.

ADMISSION REQUIREMENTS

The following are minimal requirements for entrance into the Master of Science Non-Thesis and Master of Science Thesis programs.

a. A bachelor's degree in biology or a bachelor's degree in a related discipline with at least 12 hours of advanced level coursework (junior or senior level courses) in biology.

b. A minimum undergraduate GPA of 3.0 on a 4.0 scale, as calculated by the Graduate School. Applicants’ GPA in the Sciences will also be considered.

c. International students whose home country's native language is not English must provide a score on the Test of Spoken English (TSE) of at least 45, a minimum score of 23 on the Speaking portion of the TOEFL iBT exam, or a minimum score of 7 on the Speaking portion of the IELTS exam. See the following website for complete details: https://www.uta.edu/admissions/apply/international-graduate

d. OPTIONAL: GRE. Students may submit GRE scores, although they are not a requirement for admission.

HOW TO APPLY

First, read the general instructions for applying to the graduate program and download the checklists available on the Office of Admissions webpage: https://www.uta.edu/admissions/apply/graduate

The list below contains additional information required by the Biology Department.

Department of Biology Required Materials

For the MSNT and MST programs you will need to submit the application and your official transcripts through the UTA Office of Admissions. https://www.uta.edu/admissions/apply/graduate

There are no additional materials required to apply to either program.

Questions can be addressed to askbiology@uta.edu.

DOCTOR OF PHILOSOPHY IN QUANTITATIVE BIOLOGY

Students interested in pursuing the Ph.D. in Quantitative Biology in the Biology Department may apply for the B.S. - Ph.D. Track or the Ph.D. program directly, depending on their background.
B.S. to Ph.D.
This track is for students who possess a bachelor's degree in biology, or a bachelor's degree in some other discipline with at least 12 hours of advanced level coursework (junior or senior level courses) in biology. This is the Ph.D. track designed for students with a B.S and without master's degree, which tends to be the majority of applicants.

Ph.D.
This track is for students who have a master's degree in biology, or at least 30 hours of graduate level coursework in biology. A minimum undergraduate GPA of 3.0 (4.0 scale), as calculated by the Graduate School, is expected. An applicant's GPA in science courses will be taken into consideration. If an applicant has a master's degree, the GPA from their master's degree will also be considered. For applicants with up to 30 hours of graduate coursework but no master's degree, the GPA from those hours will also be taken into consideration.

ADMISSION
Decisions are based on consideration of all the information listed below and are not based on any single criterion alone.

a. A Bachelor's degree in Biology or a Bachelor's degree in some other discipline with at least 12 hours of advanced level coursework (junior or senior level courses) in Biology.
b. A minimum undergraduate GPA of 3.0 on a 4.0 scale, as calculated by the Graduate School. Applicants overall GPA in the Sciences and within Biology are also considered.
c. Favorable letters of recommendation from at least three individuals able to assess the applicant's potential for success in graduate school.
d. Letter of Intent (see below)
e. Department Questionnaire (see below)
f. International students whose home country's native language is not English must provide a score on the Test of Spoken English (TSE) of at least 45, a minimum score of 23 on the Speaking portion of the TOEFL iBT exam or a minimum score of 7 on the Speaking portion of the IELTS exam.

Denial of Admission
A candidate may be denied admission if they have less than satisfactory performance on a majority of the admission criteria listed above.

Fellowships and Scholarships
Award of scholarships or fellowships will be based on consideration of the same criteria utilized in admission decisions. To be eligible, candidates must be new students coming to UT Arlington in the Fall semester, must have a GPA of 3.0 in their last 60 undergraduate credit hours plus any graduate credit hours as calculated by the Graduate School, and must be enrolled in a minimum of 6 hours of coursework in both long semesters to retain their fellowships.

DEGREE REQUIREMENTS
The degree of Doctor of Philosophy in Quantitative Biology requires distinguished attainment both in scholarship and in research. In addition to meeting the minimum requirements of a planned course of study, the ultimate basis for conferring the degree must be the demonstrated ability to do independent and creative work and the exhibition of a profound grasp of the subject matter within the field.

General Course Requirements: All students are required to complete 15 hours of coursework, 2 hours of seminar, and additional hours of research.

Other requirements: Each student will make three research presentations that are open to the entire department. These may include the proposal defense, a research progress report, and the dissertation defense.

COURSES

Required
BIOL 5340  BIOINFORMATICS  3
BIOL 5314  BIOMETRY  3

Required to take twice
BIOL 5101  SPECIAL TOPICS IN BIOLOGY  2

Choose 2 from the following
BIOL 6301  ESSENTIAL TOPICS IN GENOMICS  6
BIOL 6302  MICROBIOLOGY, MOLECULAR AND CELLULAR BIOLOGY
BIOL 6303  ADVANCED EVOLUTION AND ECOLOGY

Choose 1 from the following
BIOL 5304  VIROLOGY  3
BIOL 5342  DEVELOPMENTAL BIOLOGY IN HEALTH AND DISEASE
BIOL 5336  MOLECULAR EVOLUTION
### BIOL 5309 IMMUNOLOGY
### BIOL 5311 EVOLUTION
### BIOL 5317 BACTERIAL PATHOGENESIS
### BIOL 5319 HUMAN GENETICS
### BIOL 5354 LIMNOLOGY

### Research Courses
- **BIOL 5301** LABORATORY ROTATION
- **BIOL 6391** ADVANCED RESEARCH
- **BIOL 6691** ADVANCED RESEARCH
- **BIOL 6999** DISSERTATION
- **BIOL 7399** DOCTORAL DEGREE COMPLETION

### HOW TO APPLY
First, read the general instructions for applying to the graduate program and download the checklists available on the Office of Admissions webpage: [www.uta.edu/admissions/graduate/apply](https://www.uta.edu/admissions/graduate/apply)

International applicants have specific requirements, and a separate admissions checklist, available here: [https://www.uta.edu/admissions/apply/international-graduate/](https://www.uta.edu/admissions/apply/international-graduate/)

Additionally, the Department requests that applicants fill out the following questionnaire as part of the application package: [https://common.forms.uta.edu/view.php?id=2034157](https://common.forms.uta.edu/view.php?id=2034157)

Students are accepted into our Ph.D. program as either **direct admit** or **rotation** students.

#### Direct admit
To qualify as a direct admit, an applicant must secure the support of a faculty member before applying, mention their faculty support in their letter of intent, and ask that their faculty member reach out to the chair of the admissions committee (see the [Department of Biology](https://www.uta.edu/academics/schools-colleges/science/departments/biology/graduate-programs/phd-program/) website for details and contact information).

To secure the support of a faculty member before applying, begin by visiting our Biology faculty page: [https://www.uta.edu/academics/schools-colleges/science/departments/biology/faculty](https://www.uta.edu/academics/schools-colleges/science/departments/biology/faculty)- research/faculty, review the research focuses of the labs, and contact individual faculty members to discuss your research interests. Explain how your interests align with their lab and inquire if they would consider having you join their lab as a new Ph.D. student.

#### Rotation Program
Applicants would choose this option if they are unsure which area of research interests them. Please indicate your interest in the rotation program in your letter of intent. Applicants admitted into the program will perform three rotations in three separate labs. At the end of the rotation period, applicants are placed in a home lab under the guidance of a Rotation Program Committee. Applicants will select their rotation labs only after being admitted into the Ph.D. program. Please note that applications to the rotation program are only considered for the Fall semester. For more information about the rotation program, please contact the chair of the Rotation Program Committee (see the [Department of Biology](https://www.uta.edu/academics/schools-colleges/science/departments/biology/graduate-programs/phd-program/) website for details and contact information).

### APPLICATIONS REVIEW SCHEDULE
For fall admission, applications must be submitted no later than December 1.

For spring admission, applications must be submitted no later than September 1.

Rotation students are only admitted for fall entry.
Biology - Undergraduate Programs

Overview

The Department of Biology curriculum familiarizes students with basic concepts inherent to biological science and allows them to master new, cutting edge areas of biological research. Its degree programs prepare students to enter exciting and challenging careers in the many diverse and rapidly expanding areas of biological employment, including environmental biology, conservation, microbiology, the health sciences, science teaching, pharmacology, biotechnology, molecular biology, neurobiology, and forensics as well as in basic biological research. Superior teaching and faculty involvement with students is a high priority in the department. Many of its faculty have received university-wide awards for teaching excellence. Biology faculty have internationally recognized research programs in which students are actively encouraged to participate through credit for supervised research. Thus, students can prepare for careers in specific areas of biology by being actively engaged in research related to that career area under faculty supervision.

The Department of Biology offers four programs of study leading to an undergraduate degree. These are the Bachelor of Arts (B.A.) degree in Biology and the Bachelor of Science (B.S.) degrees in Biology, Microbiology or Medical Technology. The Microbiology B.S. degree prepares students to enter careers in the highly diverse field of microbiology, ranging from control of infectious diseases, through public health and environmental microbiology to genetic engineering and molecular biology or to pursue graduate study. The B.S. in Medical Technology combines course work with 12 to 16 months of clinical laboratory training in a NAACLS accredited hospital school of medical technology. This degree prepares students for careers as technicians in medical laboratories, clinics, hospitals and industry. The Biology B.S. program provides students with a strong background in the fundamental tenets of the biological sciences while allowing them to customize their degree plans to meet specific career goals. The Biology B.A. program is suitable for career preparation in a number of biological fields and for teaching certification in Composite Science.

The Biology B.S. degree allows students to choose elective courses beyond the biology core that prepare them to enter a specific professional field, such as medical, dental, veterinary, or graduate school for further study and research. Students pursuing health professions careers should contact the Health Professions Advisor for assistance in selecting course electives pertinent to their specific career path. Students interested in genomics, environmental biology, forensics, or other areas of specialization should contact their Biology advisor for assistance with recommended courses.

All Biology degrees and degree plan options are supported by providing students with ready access to both academic and career advice provided by full-time undergraduate advisors and faculty members knowledgeable with a student’s particular areas of academic and/or career interests. Students are strongly encouraged to interact with departmental and faculty advisors throughout their academic careers, particularly through independent research under faculty supervision, to develop the skills and course work background that will allow them to achieve their future academic/career goals. Detailed information on Biology and degree plan options is provided later in this section.

Beyond the undergraduate B.A. and B.S. degrees, the Department of Biology offers programs leading to graduate degrees, including the Master of Science in Biology (M.S.) which allows students to pursue biological careers requiring a greater knowledge base than provided by an undergraduate B.A. or B.S. degree and a Doctor of Philosophy Degree in Quantitative Biology (Ph.D.) which allows students to carry out independent dissertation research within a chosen area of biological research leading to a career in research and/or university teaching. The Ph.D. degree in Biology provides students with a strong background in modern mathematical approaches to biological research, including biostatistics, experimental design and mathematical modeling of biological systems. The Graduate Catalog provides details of the Biology M.S. and Ph.D. degree programs.

The Department of Biology takes pride in offering students outstanding degree programs supported by excellent teaching, undergraduate research opportunities and superior academic advising. These programs make graduates highly competitive in the job market or when applying to graduate or professional degree programs. Please visit the Biology Department and speak with one of our advisors. Phone 817-272-2408 to make an appointment.

Applying for Major Status in Biology

Freshmen who have no previous college work must complete the following courses before applying to the Biology Department to become a major:

19 hours from the University core (consisting of courses in English, history, political science, et al. See list of general core curriculum requirements set by the University elsewhere in this catalog) and a minimum of 20 hours from the courses below:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 1441</td>
<td>BIOLOGY I FOR SCIENCE MAJORS: CELL AND MOLECULAR BIOLOGY</td>

Total Hours: 61

1 Micro majors will substitute BIOL 2444 in the second semester of their freshman year, and another micro class in the first semester of their sophomore year. Med Tech majors will substitute BIOL 2444 during the first semester of their sophomore year.

Transfer students interested in one of the degree programs in biology will, after admission to UT Arlington, be placed into pre-major status: BIOL intended, MEDT intended, or MICR intended major. To apply for status as a major in biology, microbiology, or medical technology, these students must have a minimum of 39 hours which include:

- At least 28 hours in the University core curriculum including eight hours of freshman chemistry, with lab (credit by transfer or earned at UT Arlington).
- At least 11 hours in biology courses taken at UT Arlington that apply to one of the three programs awarded by the department.

At the time of switching from intended to full major status in biology, the student must have a GPA of 2.25 or better in courses taken at UT Arlington (both overall and in biology courses). Students should discuss switching to full major status with their advisor when they are eligible. Transfer students will be evaluated for major status only after completing 11 hours in biology in residence at UT Arlington.

Maintaining Major Status

- Students who are accepted as majors in biology, microbiology, or medical technology must thereafter maintain a GPA of 2.25 or better in all courses and in biology courses. Any student whose GPA falls below 2.25 in either of these categories will be returned to undeclared status at the end of the semester in which the deficiency occurs.
- Students who fall into academic difficulty will be required to meet with their Advisor and/or Academic Dean in order to discuss academic consequences and their future status in the College of Science. Please refer to the College of Science section of the catalog, "Academic Policies for College of Science Majors".
Students who have lost status as a major must have departmental permission to enroll in any junior or senior course in biology at UT Arlington.

Students in the medical technology program should have a 2.8 GPA or higher after completing three years of course work to be competitive when applying for the final year of training in medical technology.

General Information

In order to receive a B.A. degree in Biology or a B.S. degree in Biology or Microbiology from UT Arlington, transfer students must complete a minimum of 18 hours of junior or senior level courses (12 of the 18 hours in Biology) at UT Arlington. Transfer students who are approved for admission to the medical technology program must complete at least 13 hours of junior or senior level courses in biology at UT Arlington to qualify for a B.S. Degree in Medical Technology from UT Arlington.

No student working toward a B.A. degree in Biology or a B.S. degree in Biology, Medical Technology or Microbiology may take any biology course on a Pass/Fail basis.

Students are not allowed to receive credit for biology courses at the sophomore level or above by special examination.

Exceptions to the core course prerequisites for advanced courses will be made only for specialized degree programs such as Medical Technology, Nursing, and Physical Education, and for selected non-majors with special needs.

UNIV 1101 Career Preparation and Student Success

All transfer students are required to enroll in a 1 hour career preparation course, UNIV 1101.

UNIV 1131 Issues in College Adjustment

All entering freshmen are required to enroll in a 1 hour college adjustment course, UNIV 1131.

Computer and Oral Communication Competency Requirement

Students majoring in Biology, Microbiology, or Medical Technology are required to demonstrate computer use and oral communication competencies.

The University requirement of competency in computer proficiency is satisfied by completion of the BIOL 1441 or 1442 labs.

Oral communication competency can be demonstrated by completion of COMS 1301, COMS 2302, or an approved substitute.

Teacher Certification

A student interested in earning a degree with a major in biology with secondary teacher certification, should refer to the “Bachelor of Science Degree in Biology – Life Science Pathway” and the “Bachelor of Arts Degree in Biology – Composite Science Pathway” degree plans for teacher certification requirements and for biology courses recommended for each teaching field option.

Requirements for a Bachelor of Arts Degree in Biology

The Bachelor of Arts Degree in Biology is suitable for career preparation in a number of biological career fields and for students who desire teaching certification with a teaching field in biology or composite science. Students choosing this program are required to consult with the Department of Biology’s undergraduate advisor to develop an acceptable degree plan. Students seeking teaching certification with a teaching field in biology or composite science are required to consult with the Department of Biology certification advisor in order to develop an acceptable teaching certification degree program.

### Requirements for a Bachelor of Science Degree in Biology

The B.S. in Biology is intended for students studying basic aspects of the biological sciences. This degree will prepare students for careers in a variety of the Biological Sciences (including Health Professions, Genomics, Forensics, Ecology/Environmental Studies, etc.) or for graduate study in Biology at the Master's or Ph.D. levels.

**BACHELOR OF SCIENCE DEGREE IN MEDICAL TECHNOLOGY**

A student who completes the special degree plan given below plus 12 - 16 months of clinical laboratory training in an accredited hospital school of medical technology may receive the degree of Bachelor of Science in Medical Technology, which will be conferred by The University of Texas at Arlington. Graduates may become certified in medical technology by passing the examination of the Board of Registry of the American Society of Clinical Pathologists (ASCP).

Fast Track Degree Plan: Bachelor of Science in Biology and Master of Science in Biology

The Fast Track program will enable outstanding senior undergraduate Biology students to satisfy degree requirements leading to a master's degree in Biology while completing their undergraduate studies.

DESCRIPTION

Undergraduate Biology students will apply when they are within 30 hours of completing their bachelor's degrees. They must have completed at least 30 hours at UTA, achieving a GPA of at least 3.3 in those courses, have an overall GPA of 3.3 or better in all department courses, and have a GPA of at least 3.3 in all biology courses taken at UTA. Additionally, they must have completed 13 hours of specified undergraduate Fast Track foundation courses at UTA that are listed below with a minimum GPA of 3.5 in these courses. If one of these courses is transferred from another school it will not be included, and an equivalent course determined by the undergraduate advisor will be used as a Fast Track foundation course.

Foundation Courses Required for Admission into the Fast Track program:

1. BIOL 2300 Biostatistics (3-0)
2. BIOL 3315 Genetics (3-0)
3. BIOL 3301 Cell Physiology (3-0)
4. BIOL 2444 General Microbiology (4-0)

BIOL students pursuing the Fast Track master's degree will be allowed to take BIOL 5309, 5314 and 5304 in place of advanced undergraduate biology electives.

### Requirements for a Minor in Biology

A minor in biology will consist of a minimum of 18 credit hours of approved biology classes that would be applicable toward a major in Biology. Non-majors' courses will not apply toward a minor in biology, such as:

<table>
<thead>
<tr>
<th>Course Code</th>

</tbody>
</table>

Non-lecture courses such as research, directed study, co-op, or lab TA credit may not be used toward a minor in Biology. A minimum of six of the 18 credit hours required for the minor must be at the 3000 or 4000 level. BIOL 1441 and BIOL 1442, or equivalent, are required for the minor. The remaining 10 hours must be chosen with and approved by a Biology Advisor.

A 2.0 Biology Grade Point Average must be maintained to earn the minor. Transfer students must complete at least nine hours toward the minor at UT Arlington, and six of the nine hours must be 3000 or 4000 level.
Chemistry and Biochemistry

Undergraduate Degrees

- Bachelor of Arts in Chemistry (p. 1308)
- Bachelor of Arts in Chemistry with Chemistry Teacher Pathway (UTeach Program) (p. 1308)
- Bachelor of Arts in Chemistry with Physical Science Teacher Pathway (UTeach Program) (p. 1308)
- Bachelor of Science in Chemistry - American Chemical Society certified (p. 1308)
- Bachelor of Science in Biochemistry - American Chemical Society certified (p. 1308)
- Bachelor of Science in Biological Chemistry (p. 1308)
- Bachelor of Science-Master of Science in Chemistry (p. 1308)
- Bachelor of Science in Biochemistry and Master of Science in Biomedical Engineering (p. 1308)
- Minors in Chemistry (p. 1323)

Graduate Degrees

- Chemistry, M.S. (http://catalog.uta.edu/science/chemistry/graduate/#masterstext/#ms)
- Chemistry, M.S. Thesis Substitute (http://catalog.uta.edu/science/chemistry/graduate/#masterstext/#msthesissub)
- Chemistry, M.S. Non-Thesis (http://catalog.uta.edu/science/chemistry/graduate/#masterstext/#msnonthesis)
- Chemistry, B.S. to Ph.D. (p. 1302)
- Chemistry, Ph.D. (p. 1304)

COURSES

CHEM 1101. SUCCESS IN CHEMISTRY AND BIOCHEMISTRY. 1 Hour.
A first-year experience course for new students and new transfer students interested in a career in chemistry. Provides the necessary foundation for success in a college environment while balancing personal and work obligations. Orient students to life on campus, demonstrates how to leverage campus resources to achieve career and academic goals, and emphasizes engagement outside the classroom through collaborative and co-curricular opportunities. This course is reserved exclusively for students planning to major in chemistry or biochemistry who are in their first semester at UTA. Fulfills the University requirement for either UNIV 1101 or UNIV 1131.

CHEM 1181. GENERAL CHEMISTRY I LABORATORY FOR ADVANCED CHEMICAL TECHNOLOGIES. 1 Hour.
General, analytical, and synthetic chemistry concepts will be reinforced through problem- and inquiry-based laboratory activities. The Advanced Chemical Technologies track for majors will introduce research and scientific methods in the context of instructor and student-selected research problems. Hand-on experience in the laboratory will be supplemented with mini-lectures, modules, and web resources to increase student readiness for scientific discovery. Students will also learn about contemporary challenges and advances in chemistry and biochemistry. If a student withdraws from CHEM 1181, the student must also withdraw from CHEM 1341. Prerequisite: Concurrent enrollment in CHEM 1341.

CHEM 1182. GENERAL CHEMISTRY II LABORATORY FOR ADVANCED CHEMICAL TECHNOLOGIES. 1 Hour.
General, analytical, and synthetic chemistry concepts will be reinforced through problem- and inquiry-based laboratory activities. Research and scientific methods will be reinforced through the investigation of student-selected research problems and modules on scientific communication. Increased exposure to state-of-the-art analytical techniques and instruments, as well as synthetic methods will culminate in the preparation of a proposal related to the synthesis of new materials and the analysis of their structure and function. If a student withdraws from CHEM 1182, the student must also withdraw from CHEM 1342. Prerequisite: (CHEM 1341 with a grade of C or better) and (CHEM 1181 with a grade of C or better) and (concurrent enrollment in CHEM 1342).

CHEM 1185. CHEMISTRY FOR ENGINEERS LABORATORY. 1 Hour.
This course is intended to provide laboratory credit in chemistry for engineering-majors who transfer into UT-Arlington with credit in Chemistry for Engineers lecture only. Students may register for this course only with specific approval of a Chemistry advisor. Prerequisite: 3 hours of Chemistry for Engineers lecture. Credit cannot be earned for both CHEM 1465 and CHEM 1185.

CHEM 1188. GENERAL CHEMISTRY I LABORATORY. 1 Hour.
This course is intended to provide laboratory credit in freshman chemistry for students who transfer into UT-Arlington with credit in General Chemistry I lecture only. Experiments include: measurement and scientific equipment use, physical properties, separations, synthesis, qualitative analysis, spectroscopy. Students may register for this course only with specific approval of a Chemistry advisor. Prerequisite: 3 hours of General Chemistry I lecture. Credit cannot be earned for both CHEM 1441 and CHEM 1188.

CHEM 1189. GENERAL CHEMISTRY II LABORATORY. 1 Hour.
This course is intended to provide laboratory credit in freshman chemistry for students who transfer into UT-Arlington with credit for General Chemistry lecture only. Experiments include: thermodynamics, electrochemistry, synthesis, quantitative analysis, spectroscopy, stoichiometry, and acid-base chemistry. Students may register for this course only with specific approval of a Chemistry advisor. Prerequisite: CHEM 1188 and 6 hours of General Chemistry II lecture. Credit cannot be earned for both CHEM 1442 and CHEM 1189.
CHEM 1341. GENERAL CHEMISTRY I. 3 Hours.
This course covers the fundamentals of atomic structure, chemical bonding, the periodic table, nomenclature, kinetic theory, gas laws, chemical equations, and solutions. Only chemistry majors in the Advanced Chemical Technologies program may take this course. When combined with CHEM 1181, this course will satisfy completion of CHEM 1441 for Chemistry, Biochemistry, and Biological Chemistry majors. Prerequisite: (MATH 1302 or MATH 1303 or MATH 1322 or MATH 1323 or MATH 1402 or MATH 1421 or MATH 1426 or ALEKS =/> 61) and (concurrent enrollment in CHEM 1181). ACT program only.

CHEM 1342. GENERAL CHEMISTRY II. 3 Hours.
This course covers study of advanced atomic structure and bonding concepts, acid-base theory, kinetics and equilibria, thermodynamics, electrochemistry, and the chemistry of some elements. Only chemistry majors in the Advanced Chemical Technologies program may take this course. When combined with CHEM 1182, this course will satisfy completion of CHEM 1442 for Chemistry, Biochemistry, and Biological Chemistry majors. Prerequisite: (CHEM 1341 or CHEM 1441 with a grade of C or better) and (CHEM 1181 with a grade of C or better) and (concurrent enrollment in CHEM 1182). ACT program only.

CHEM 1345. CHEMISTRY IN THE WORLD AROUND US. 3 Hours. (TCCN = CHEM 1305)
This course looks at current issues in society and uses chemical principles to understand them. Topics include sustainability, air pollution, the ozone layer, global climate change, fuels, and water. CHEM 1345/1346 cannot be used to fulfill the CHEM 1441/1442/1451/1465 requirement in any degree program.

CHEM 1346. CHEMISTRY IN THE WORLD AROUND US II. 3 Hours. (TCCN = CHEM 1307)
This course is a continuation of the study of current issues in society using chemical principles to understand them. Topics include polymers, drug design, nutrition, and genetic engineering. CHEM 1345/1346 cannot be used to fulfill the CHEM 1441/1442/1451/1465 requirement in any degree program. Prerequisite: CHEM 1345 or equivalent with a grade of C or better.

CHEM 1400. INTRODUCTORY CHEMICAL PRINCIPLES. 4 Hours.
Provides a background in fundamental chemical mathematics, in writing and understanding chemical formulas and equations, and in the application of scientific laws to the behavior of matter. Students will learn problem solving skills necessary in general chemistry I by hands-on and interactive approach. This course is designed for the student with little or no previous chemical training who intends to take the CHEM 1441/CHEM 1442 sequence or CHEM 1465 at a later date. CHEM 1400 cannot replace CHEM 1441/CHEM 1442/CHEM 1451/CHEM 1465. Prerequisite: (MATH 1302, MATH 1402, or equivalent) or ALEKS score =/> 61.

CHEM 1441. GENERAL CHEMISTRY I. 4 Hours. (TCCN = CHEM 1411)
The lecture covers the fundamentals of atomic structure, chemical bonding, the periodic table, nomenclature, kinetic theory, gas laws, chemical equations, and solutions. The laboratory introduces the scientific method, experiment design, data collection and analysis, as well as illustrates fundamental principles presented in the lecture. Students who have not had high school chemistry are advised to take an introductory chemistry course first. Prerequisite: MATH 1302 or MATH 1303 or MATH 1322 or MATH 1323 or MATH 1402 or MATH 1421 or MATH 1426 or ALEKS =/> 61 or Student Group CHEM 1441.

CHEM 1442. GENERAL CHEMISTRY II. 4 Hours. (TCCN = CHEM 1412)
Study of advanced atomic structure and bonding concepts, acid-base theory, kinetics and equilibria, thermodynamics, electrochemistry, the chemistry of some elements. The laboratory focuses on experimental design, data collection and analyses as well as chemical syntheses to illustrate fundamental principles presented in the lecture. Prerequisite: CHEM 1441 or equivalent with a grade of C or better or (CHEM 1341 with a grade C or better) or Student Group CHEM 1442.

CHEM 1451. CHEMISTRY FOR HEALTH SCIENCES. 4 Hours. (TCCN = CHEM 1406)
Survey of general, organic, and biochemistry with emphasis on applications to the human body. Measurement, atomic theory and structure, bonding, quantitative relationships in chemical reactions, gases, solutions, electrolytes, organic functional groups and nomenclature, organic reactions, carbohydrates, lipids, proteins, enzymes, metabolism, and nucleic acids. CHEM 1451 cannot count for major credit toward a degree in chemistry. Prerequisite: MATH 1301 or MATH 1302 or MATH 1303 or MATH 1315 or MATH 1316 or MATH 1322 or MATH 1323 or MATH 1324 or MATH 1421 or MATH 1426 or equivalent.

CHEM 1465. CHEMISTRY FOR ENGINEERS. 4 Hours. (TCCN = CHEM 1409)
An introduction to important concepts and principles of chemistry with emphasis on areas considered most relevant in an engineering context. Topics include chemical stoichiometry, bonding, chemical thermodynamics, equilibria, electrochemistry, and kinetics. Engineering students may substitute the eight hour sequence CHEM 1441 and CHEM 1442 for this class, but not either CHEM 1441 or CHEM 1442 alone. Students who complete CHEM 1465 and subsequently change majors to curricula that require both CHEM 1441 and CHEM 1442 may substitute CHEM 1465 for CHEM 1441. Prerequisite: C or better in MATH 1322 or C or better in MATH 1323 or C or better in MATH 1324 or C or better in MATH 1421 (or concurrent enrollment) or MATH 1426 (or concurrent enrollment) or HONR-SC 1426 (or concurrent enrollment) or MATH 2425 (or concurrent enrollment) or HONR-SC 2425 (or concurrent enrollment) or Student Group CHEM 1465.

CHEM 2101. CHEMICAL INFORMATICS I. 1 Hour.
Developing quantitative understanding in chemistry relies heavily on models, from very crude and simple ideas to complex theoretical frameworks. This class aims to introduce students into models and modeling chemical phenomena that develop understanding of chemical processes. Working with observations and data, we develop the art of developing qualitative relations and explore their limitations. The class is delivered as a practical tour with hands-on practice. Good number skills, basic knowledge of coding and handling of computers is required. Prerequisite: (CHEM 1442 with a grade of C or better) and (MATH 1426 with a grade of C or better or Concurrent enrollment in MATH 1426 or Instructor's permission).
CHEM 2180. RESEARCH IN CHEMISTRY. 1 Hour.
Research for undergraduate students supervised by faculty of the department. May be repeated. Graded pass/fail only. Prerequisite: written permission of the instructor. Students may take a maximum of 12 hours credit on a pass/fail basis.

CHEM 2181. ORGANIC CHEMISTRY I LABORATORY. 1 Hour. (TCCN = CHEM 2123)
Experiments which illustrate laboratory techniques, theoretical concepts, and synthesis. Prerequisite: CHEM 1442 with a grade of C or better or ((CHEM 1342 with a grade C or better) and (CHEM 1343 with a grade C or better)) or Student Group CHEM 2181. Corequisite: CHEM 2321. If student withdraws from CHEM 2321 prior to midterm date, student must also withdraw from CHEM 2181.

CHEM 2182. ORGANIC CHEMISTRY II LABORATORY. 1 Hour. (TCCN = CHEM 2125)
Experiments which will include syntheses, characterization of unknown substances, and use of the chemical literature. Prerequisite: (CHEM 2181 with a grade of C or better) and (CHEM 2321 with a grade of C or better). Corequisite: CHEM 2322. If student withdraws from CHEM 2322 prior to the midterm date, student must also withdraw from CHEM 2182.

CHEM 2283. SYNTHESIS AND ANALYSIS LABORATORY I. 2 Hours.
Students will perform experiments that build mastery in standard laboratory techniques and illustrate theoretical concepts related to organic synthesis and quantitative analysis methods. Students will continue to develop their mastery of analysis through an introduction to the acquisition and statistical analysis of quantitative and qualitative data, acquired in the context of a series of guided inquiry design and synthesis projects. Syntheses may involve small molecules, polymers, and materials designed to perform specific functions. Students will continue to develop their communication and group work skills by sharing independent data and critical feedback with peers. Additionally, laboratory exercises will involve basic titrimetric, spectrophotometric, and chromatographic methods. Prerequisite: CHEM 1442/CHM 1342 and CHEM 1182 or equivalent with a grade of C or better. Corequisites: Concurrent enrollment or previous credit in CHEM 2321 and CHEM 2335. Students must remain enrolled in at least one of CHEM 2321 and CHEM 2335 beyond the mid-semester date to remain enrolled in CHEM 2283.

CHEM 2284. SYNTHESIS AND ANALYSIS LABORATORY II. 2 Hours.
Experiments will include syntheses and analysis, characterization of unknown substances, and use of the chemical literature. A focus will be placed on advancing the use of modern chemical technologies for both synthetic and analytical work in a guided inquiry format. Prerequisite: CHEM 2283 and CHEM 2321 with a grade of C or better. Corequisite: CHEM 2322.

CHEM 2285. QUANTITATIVE CHEMISTRY LABORATORY. 2 Hours.
An introduction to computers for the acquisition and statistical analysis of data. Laboratory exercises involving basic titrimetric, spectrophotometric and chromatographic methods. Prerequisite: CHEM 1442 or equivalent with a grade of C or better, and concurrent enrollment/previous credit in CHEM 2335.

CHEM 2321. ORGANIC CHEMISTRY I. 3 Hours. (TCCN = CHEM 2323)
The fundamentals of molecular structure, stereochemistry, and the reactions of aliphatic hydrocarbons. Electronic theory, synthetic methods, and mechanisms. Prerequisite: CHEM 1442 with a grade of C or better or ((CHEM 1342 with a grade C or better) and (CHEM 1182 with a grade C or better)) or Student Group CHEM 2321.

CHEM 2322. ORGANIC CHEMISTRY II. 3 Hours. (TCCN = CHEM 2325)
Organic spectroscopic analysis. The chemistry of aromatic hydrocarbons, alcohols and ethers, aldehydes, ketones, carboxylic acids and derivatives, amines, amino acid, carbohydrates, and other functional groups. Mechanisms and synthesis. Prerequisite: CHEM 2321 with a grade of C or better.

CHEM 2335. QUANTITATIVE CHEMISTRY. 3 Hours.
Basic methods of error analysis, simple and advanced methods for the solution of complex equilibria, fundamentals of titrimetric, spectrophotometric and chromatographic instrumental analysis. Prerequisite: (CHEM 1442 or CHEM 1342 or equivalent) and (MATH 1324 or MATH 1325 or MATH 1421 or MATH 1426 or equivalent or higher) and (CHEM 2285 or CHEM 2283 concurrent enrollment or previous credit).

CHEM 2380. UNDERGRADUATE RESEARCH. 3 Hours.
Research in chemistry supervised by a faculty member of the department. May be repeated. Graded pass/fail only. Prerequisite: written permission of the instructor. Students may take a maximum of 12 hours credit on a pass/fail basis.

CHEM 3101. CHEMICAL INFORMATICS II. 1 Hour.
This course provides a succinct overview of the emerging discipline of Chemical Informatics at the intersection of chemistry, computational science, and information science. Efficient and reliable analysis of chemical analytical data is a great challenge due to the increase in data size, variety and velocity. Attention in this class is drawn to specific opportunities afforded by this new field in accelerating discovery and understanding of cause and effect. The class is delivered as a practical tour with hands-on practice. Good number skills, basic knowledge of coding and handling of computers is required. Prerequisite: (CHEM 2101 with a grade C or better) or (Instructor's permission).

CHEM 3131. CHEMISTRY COMMUNITY SERVICE LEARNING. 1 Hour.
Service learning is a credit-bearing learning experience; therefore, credit is awarded for academic learning and not for service hours. Students engage in classroom activities, assignments, and discussions and in addition, integrate course content and learning outcomes with genuine community needs or issues. Collaborations with the community result in relationship-building and partnerships through intentional, structured service experiences. Students are required to analyze and evaluate these experiences by engaging in reflective activities, such as discussion and journaling. This process of structured service and learning in the community promote a sense of civic responsibility and commitment to others. Students commit to serve weekly time resulting in at least fifteen hours during one semester. This time is agreed upon by student, faculty, and community agency. Prerequisites: Permission of the Instructor.

CHEM 3175. BIOPHYSICAL CHEMISTRY LABORATORY. 1 Hour.
Introduction to the physical experimental techniques used in quantitative biochemical practice. Prerequisite: CHEM 3315 or concurrent enrollment.
CHEM 3181. PHYSICAL CHEMISTRY I LABORATORY. 1 Hour.
The physical and thermodynamic properties of substances, experimentally determined. Prerequisite: (Grade of C or better in ((CHEM 2284 or CHEM 2285) and CHEM 2335)) and (Grade of C or better in CHEM 3321 or concurrent enrollment).

CHEM 3182. PHYSICAL CHEMISTRY II LABORATORY. 1 Hour.
Experiments in kinetics, equilibria, spectroscopy, and electrochemistry. Modern instrumental techniques. Prerequisite: (Grade C or better in ((CHEM 2284 or CHEM 2285) and CHEM 2335)) and (Grade C or better in CHEM 3322 or concurrent enrollment).

CHEM 3231. CHEMISTRY/BIOCHEMISTRY COMMUNITY SERVICE LEARNING. 2 Hours.
Service learning is a credit-bearing learning experience; therefore, credit is awarded for academic learning and not for service hours. Students engage in classroom activities, assignments, and discussions and in addition, integrate course content and learning outcomes with genuine community needs or issues. Collaborations with the community result in relationship-building and partnerships through intentional, structured service experiences. Students are required to analyze and evaluate these experiences by engaging in reflective activities, such as discussion and journaling. This process of structured service and learning in the community promote a sense of civic responsibility and commitment to others. Students commit to serve weekly time resulting in at least fifteen hours during one semester. This time is agreed upon by student, faculty, and community agency. Prerequisites: Permission of the Instructor.

CHEM 3307. INTRODUCTION TO POLYMER CHEMISTRY. 3 Hours.
The chemistry and technology of polymeric systems. The chemistry of natural systems such as proteins as well as the synthesis of fibers, films, plastics, and elastomers. Discussion of the characterization of polymers by modern techniques using instrumental analysis is followed by a summary of end-use and processing techniques. Prerequisite: CHEM 2322 with a grade of C or better or permission of instructor.

CHEM 3315. INTRODUCTION TO BIOPHYSICAL CHEMISTRY. 3 Hours.
A basic course introducing the physical principles that govern biological systems and processes, and the methods used for their investigation. Topics include solution thermodynamics, biomolecular interactions, enzyme kinetics, transport processes (diffusion, sedimentation, electrophoresis, viscous flow), and the applications of spectroscopic methods (absorption, emission and scattering of radiation, and the utilization of polarized light). Prerequisite: A grade of C or better in each of the following: CHEM 2335, MATH 2425, and 8 hours of college level physics.

CHEM 3317. INORGANIC CHEMISTRY. 3 Hours.
An overview of descriptive main group chemistry, solid state structures and the energetics of ionic, metallic, and covalent solids, acid-base chemistry and the coordination chemistry of the transition metals. The course is intended to explore and describe the role of inorganic chemistry in other natural sciences with an emphasis on the biological and geological sciences. Important compounds and reactions in industrial chemistry are also covered. Intended for both chemistry and non-chemistry majors. Prerequisite: Grade of C or better in CHEM 2322 or concurrent enrollment.

CHEM 3321. PHYSICAL CHEMISTRY I. 3 Hours.
Thermodynamics, gases, First and Second Law, pure substances, mixtures and solutions, equilibrium; Statistical Thermodynamics; Kinetics, rates, mechanisms, transitions state theory. In this class you will learn to understand the basic principles of Chemistry as the Science of Transformation and Change. We emphasize conceptual understanding and will become skilled in a quantitative description of the phenomena we study. The goal is that at the end of the course every student can outline the basic principles of Thermodynamics, has a sound understanding of ideal and approximate systems, and can apply the tools to engage in self-driven investigations. Prerequisites: CHEM 2335, MATH 2326, both with a grade of C or better and PHYS 1443 and PHYS 1444. MATH 3318 concurrent enrollment recommended.

CHEM 3322. PHYSICAL CHEMISTRY II. 3 Hours.
Quantum theory, introduction, principles. Schrödinger Equation, wavefunction; particle in a box, uncertainty; postulates of quantum mechanics; hydrogen atom, orbitals, structure of multi-electron atoms, atomic spectra and selection rules; molecular structure of diatomic molecules; introduction to molecular spectroscopy; materials and structure: lattices, diffraction methods, properties of solids. In this class you will learn to understand the principles of Quantum Chemistry and how it applies to atoms, molecules, and solids. We emphasize conceptual understanding and will become skilled in quantitative descriptions. The goal is that at the end of the course every student can outline the basic principles of Quantum Chemistry, both qualitatively and quantitatively. Students will obtain a sound understanding of probability, wavefunctions, orbitals, and spectroscopy, and can apply the learned concepts and tools to engage in self-driven investigations. This course is designated as the capstone course. Prerequisite: CHEM 2335, MATH 2326, both with a grade of C or better and PHYS 1443 and PHYS 1444. MATH 3318 concurrent enrollment recommended.

CHEM 3331. CHEMISTRY/BIOCHEMISTRY COMMUNITY SERVICE LEARNING. 3 Hours.
Service learning is a credit-bearing learning experience; therefore, credit is awarded for academic learning and not for service hours. Students engage in classroom activities, assignments, and discussions and in addition, integrate course content and learning outcomes with genuine community needs or issues. Collaborations with the community result in relationship-building and partnerships through intentional, structured service experiences. Students are required to analyze and evaluate these experiences by engaging in reflective activities, such as discussion and journaling. This process of structured service and learning in the community promote a sense of civic responsibility and commitment to others. Students commit to serve weekly time resulting in at least fifteen hours during one semester. This time is agreed upon by student, faculty, and community agency. Prerequisites: Permission of the Instructor.

CHEM 4080. UNDERGRADUATE RESEARCH. 0 Hours.
Research problems on an individual basis, conducted on a selected topic under the direction of a member of the chemistry and biochemistry faculty. May be repeated. This is a non-credit course and cannot be used to meet degree requirements. Prerequisite: Permission of the instructor.
CHEM 4101. SEMINAR IN CHEMISTRY. 1 Hour.
Oral and written communication of chemical information. Seminars will be presented by students on topics from the current chemical literature. A term paper is required. The use of the library for researching the chemical literature will be emphasized. May be repeated for a total of two semester hours of credit. Students must be within 12 credits hours from the degree completion. Departmental permission required.

CHEM 4180. UNDERGRADUATE RESEARCH. 1 Hour.
Research under the direction of a member of the department. No more than six hours of CHEM 4180, CHEM 4280, CHEM 4380 and CHEM 4381 may be taken for a letter grade. Prerequisite: Written permission of the instructor and a minimum grade point average of 2.5.

CHEM 4181. COMPUTATIONAL CHEMISTRY LABORATORY. 1 Hour.
Molecular modeling. Application of various computational techniques to chemical problems, including determination of molecular geometry, conformational analysis, and molecular energetics. Prerequisite: CHEM 3321 or CHEM 3322 with a grade C or better.

CHEM 4191. READINGS IN CHEMISTRY. 1 Hour.
May be repeated for a maximum of six hours credit. Topics arranged on an individual basis. Performance may be assessed by oral exam, written test, or review paper. Prerequisite: permission of department chair. Graded pass/fail only.

CHEM 4203. COMPUTATIONAL CHEMISTRY. 2 Hours.
A course emphasizing molecular quantum mechanics. Topics include the basic postulates of quantum mechanics, many electron wave functions, the variation method, and molecular orbital theory at various levels of approximation (Hueckel, Extended Hueckel, semi-empirical, ab initio, etc.). Related methods, such as force-field approaches and molecular dynamics, will be discussed. Prerequisite: CHEM 3322, with a grade of "C" or better.

CHEM 4242. LABORATORY TECHNIQUES IN BIOCHEMISTRY. 2 Hours.
Designed to introduce the student to biochemical laboratory methods; a practical approach to the properties of carbohydrates, proteins, enzymes, and nucleotides. Prerequisite: CHEM 4311, with a grade of "C" or better.

CHEM 4280. UNDERGRADUATE RESEARCH. 2 Hours.
Research under the direction of a member of the department. No more than six hours of CHEM 4180, CHEM 4280, CHEM 4380 and CHEM 4381 may be taken for a letter grade. Prerequisite: Written permission of the instructor and a minimum grade point average of 2.5.

CHEM 4291. READINGS IN CHEMISTRY. 2 Hours.
May be repeated for a maximum of six hours credit. Topics arranged on an individual basis. Performance may be assessed by oral exam, written test, or review paper. Prerequisite: permission of department chair. Graded pass/fail only.

CHEM 4311. BIOCHEMISTRY I. 3 Hours.
The chemistry of the sugars, amino acids, proteins, and nucleic acids, followed by an introduction to enzyme chemistry. The major metabolic pathways of the cell, glycolysis, TCA cycle, and pentose phosphate pathway. Auditing of this class is NOT permitted. Prerequisite: CHEM 2322, with a grade of "C" or better.

CHEM 4312. BIOCHEMISTRY II. 3 Hours.
A continuation of CHEM 4311. The breakdown and biosynthesis of fats and the synthesis of carbohydrates, including photosynthesis. Metabolic utilization of proteins and amino acids together with an introduction to protein synthesis. Prerequisite: CHEM 4311, with a grade of "C" or better, or equivalent.

CHEM 4313. METABOLISM AND REGULATION. 3 Hours.
Selected topics in advanced metabolism including biosynthesis of phospholipids, steroids, porphyrins and related molecules, and prostaglandins. Membranes and transport phenomena, regulation of glycogen and glucose metabolism in muscle and lipid metabolism in adipose tissue. Prerequisite: CHEM 4312 with a grade of C or better.

CHEM 4314. ENZYMEOLOGY. 3 Hours.
A comprehensive study of enzymes including structures, reaction mechanisms, regulation, and kinetics. Prerequisite: CHEM 4311 with a grade of C or better.

CHEM 4316. BIOCHEMICAL GENETICS. 3 Hours.
Aspects of the biochemistry of gene expression in prokaryotic and eukaryotic organisms and its regulation, together with genetic manipulations and the methodology of recombinant DNA technology. Prerequisite: CHEM 4312 with a grade of C or better.

CHEM 4318. INORGANIC CHEMISTRY. 3 Hours.
An overview of the chemistry of the transition metals. Topics include symmetry and applications, bonding models, magnetism, synthesis of metal complexes, modern characterization techniques including IR, NMR, and electronic spectroscopy, organometallic compounds, reaction mechanisms, catalysis, and bioinorganic chemistry. Prerequisite: CHEM 2322 with a grade of C or better.

CHEM 4342. SOLID STATE AND MATERIALS CHEMISTRY. 3 Hours.
Chemical synthesis, structure characterization, and properties of solid-state materials. Principles of solid-state synthesis, classical equilibrium approaches, diffusion, and chemical transport, non-equilibrium, and deposition methods; high temperature and high-pressure synthesis; basic characterization techniques using X-rays, electrons, and neutrons; basic structure types and symmetry; optical, electrical, and magnetic properties; examples will relate to materials used for energy harvesting, sensors, catalysis, and other applications. Prerequisite: Grade of C or better in CHEM 3317.
CHEM 4343. RESEARCH METHODS - UTEACH. 3 Hours.
The purpose of this course is to present UTeach students with the tools scientists use to solve scientific problems. These tools enable scientists to develop new knowledge and insights, the most important of which are eventually presented in textbooks and taught in more conventional science classes. These tools include: design of experiments to answer scientific questions; use of statistics to interpret experimental results and deal with sampling errors; mathematical modeling of scientific phenomena; finding and reading articles in the current scientific literature; applying scientific arguments in matters of social importance; writing scientific papers; reviewing scientific papers; oral presentation of scientific work; use of probes and computers to gather and analyze data; ethical treatment of human subjects; laboratory safety. Research Methods is primarily a laboratory course, and most of these topics are developed in connection with four independent inquiries UTeach students design and carry out. Written inquiries will be evaluated as examples of scientific writing. Prerequisite: SCIE 1201 or SCIE 1334 or concurrent enrollment; junior or senior standing.

CHEM 4346. ADVANCED SYNTHETIC METHODS. 3 Hours.
Methods and techniques for the synthesis and characterization of organic, inorganic, and organometallic compounds. Prerequisite: Grade of C or better in CHEM 2182, CHEM 2322, and CHEM 3317 or CHEM 4318.

CHEM 4380. UNDERGRADUATE RESEARCH. 3 Hours.
Research under the direction of a member of the department. No more than six hours of CHEM 4180, CHEM 4280, CHEM 4380 and CHEM 4381 may be taken for a letter grade. Prerequisite: Written permission of the instructor and a minimum grade point average of 2.5.

CHEM 4381. HONORS RESEARCH. 3 Hours.
Research in chemistry under the direction of a member of the department, resulting in a written honors thesis. No more than 6 hours of CHEM 4180, CHEM 4280, CHEM 4380 and CHEM 4381 may be taken for a letter grade. Prerequisite: CHEM 2322, CHEM 2182, and admission to the University Honors College.

CHEM 4385. INSTRUCTIONAL TECHNIQUES IN CHEMISTRY. 3 Hours.
Students participate in undergraduate laboratory instruction or recitation sessions under the supervision of a faculty member. No more than 6 hours of CHEM 4385 may be taken for a letter grade. Enrollment by departmental permission only.

CHEM 4387. UNIVERSITY-INDUSTRY CHEMISTRY COOPERATIVE. 3 Hours.
By special arrangement only. Cooperative study assignment doing chemical research in a local industrial chemical laboratory. Enrollment by departmental permission only. Graded pass/fail only.

CHEM 4391. READINGS IN CHEMISTRY. 3 Hours.
May be repeated for a maximum of six hours credit. Topics arranged on an individual basis. Performance may be assessed by oral exam, written test, or review paper. Prerequisite: permission of department chair. Graded pass/fail only.

CHEM 4392. ADVANCED TOPICS IN CHEMISTRY. 3 Hours.
Topics arranged on an individual basis. May be repeated for credit as the topic varies. Prerequisite: permission of instructor.

CHEM 4461. INSTRUMENTAL ANALYSIS. 4 Hours.
The principles involved in the operation of modern analytical instruments and the laboratory use of such instruments. Students must be within 30 hours of completing their bachelor degrees. Prerequisite: Grades of C or better in (CHEM 2284 or CHEM 2285) and CHEM 2335.

CHEM 5011. SEMINAR IN CHEMISTRY. 0 Hours.
Students will present a talk, prepare a poster, and engage in scientific writing and communication. Includes learning how to prepare, present, and defend an oral presentation. May not be counted for credit toward the degree requirements.

CHEM 5168. QUANTUM CHEMISTRY LABORATORY. 1 Hour.
Molecular modeling. Application of various computational techniques to chemical problems, including determination of molecular geometry, conformational analysis, and molecular energetics. Prerequisite: concurrent enrollment in CHEM 5262.

CHEM 5191. READINGS IN CHEMISTRY. 2 Hours.
Conference course which may be repeated for credit, with credit granted according to work performed. Graded P/F/R only. Prerequisite: concurrent enrollment in CHEM 5262.

CHEM 5911. SEMINAR IN CHEMISTRY. 1 Hour.
Conference course which may be repeated for credit, with credit granted according to work performed. Graded P/F/R only. Prerequisite: permission of instructor.
CHEM 5300. SELECTED TOPICS IN ADVANCED CHEMISTRY. 3 Hours.
The area may vary (typically analytical, applied, biological, colloid, environmental, inorganic, organic, physical, polymer, materials, theoretical, etc.) and will be announced in advance. More than one area may be covered simultaneously, in parallel courses offered under different section numbers. May be repeated for credit when area or topics vary. Prerequisite: permission of instructor.

CHEM 5324. ANALYTICAL MASS SPECTROMETRY AND SPECTROSCOPY. 3 Hours.
This course covers modern aspects of atomic and molecular mass spectrometry, as well as spectrochemical analysis. Upon completion of this course, the student will be able to: describe the basic setup and operation of mass spectrometric and spectroscopic instrumentation; interpret spectra from various instruments as a means for qualitative and quantitative analysis; apply basic knowledge of mass spectrometry and spectroscopy for practical problem solving; relate the use of mass spectrometry and spectroscopy to his or her own research interests; and compile, present, and explain modern techniques for analytical research. Written and oral presentations, as well as traditional classroom examinations, homework, and quizzes will be used to assess student performance. Prerequisite: CHEM 4461 or equivalent; or permission of instructor.

CHEM 5325. SEPARATION SCIENCE. 3 Hours.
A comprehensive examination of most areas involving the separation of molecules and ions. Theoretical, practical and historical aspects of: distillation, sublimation, liquid-liquid extraction, solid phase extraction, chromatography, electrophoresis, field flow fractionation, membrane/barrier processes, and crystallization will be considered. Students taking this course must have a good basic background in organic chemistry and physical chemistry.

CHEM 5326. ANALYTICAL CHEMISTRY - CONCEPTS AND IMPLEMENTATION. 3 Hours.
This course familiarizes students with basic electronic design in analytical instrumentation. Familiarization with active and passive components, operational amplifiers, timers, logic gates, and designing analytical instrumentation based on such components, especially in Wet Chemistry. The course covers ionic equilibria and acid-base equilibria and solving complex problems by iterative numerical methods and nonlinear curve fitting using programming in BASIC and MS Excel SolverTM. The course covers present day applications of wet chemical analysis, specific methods and instrumentation, practical aspects of automated liquid phase analytical methods including component availability and cost. A design problem, chosen by lottery, will be given to each student early in the semester. The newly acquired knowledge of chemistry and electronics will be used to design a new instrument and present it. Prerequisite: CHEM 4461 or equivalent undergraduate instrumental analysis course.

CHEM 5327. ANALYTICAL ELECTROCHEMISTRY. 3 Hours.
This course covers modern aspects of electroanalytical chemistry. Upon completion of this course, the student will be able to: understand the concepts of redox potentials and their role in electron transfer, the thermodynamic aspects of electrochemical cells, mass transport in electrochemical systems, and the principles underlying various electroanalytical techniques such as potentiometry, amperometry, coulometry and voltammetry. The instrumental aspects of these techniques will also be addressed, including specialized approaches such as spectrotroelectrochemistry. The student will be able to relate the use of these analytical techniques to his or her own research needs and interests. Written and oral examinations, as well as traditional classroom examinations, will be used to assess student performance. Prerequisite: CHEM 4461 or equivalent; or permission of instructor.

CHEM 5328. ANALYTICAL SPECTROSCOPY. 3 Hours.
This course covers many of the methods of spectrochemical analysis used in the analytical laboratory. At the end of this course, students should be able to: explain the fundamental theory of many spectroscopy methods, including atomic spectroscopy, molecular spectroscopy, UV/Vis spectroscopy, molecular luminescence, and infrared spectroscopy, among others; describe basic instrumental components; apply basic statistics (e.g., measurement errors, and calibration methods) for data analysis; and understand the fundamental use and applications of spectroscopy methods for basic research and laboratory measurements. Student performance will be evaluated based on homework assignments, exams, quizzes, and presentations. Prerequisite: CHEM 4461 or equivalent, or permission of instructor.

CHEM 5331. ADVANCED BIOCHEMISTRY I. 3 Hours.
1) Learn the vocabulary and conceptually understand at an advanced level the biochemical processes by which cells break down organic molecules and trap some of the released energy in the form of reactive nucleotides; use these reactive nucleotides to drive the synthesis of organic building blocks such as sugars, lipids, amino acids and nucleic acids from simpler molecules that serve as precursors. 2) To learn to critically review primary research articles in biochemistry by reading the assigned material related to proteins, expression and purification, kinetics, and metabolism as they are presented in class. 3) Research Project: To learn to critically review primary research articles in biochemistry by preparing a presenting and NIH R15 proposal/paper on a topic relevant to the topics covered in class. This project will teach students how to design and interpret experiments, thereby contributing to the creation of new knowledge in the fields of biochemistry and biophysics. This project will allow students to become knowledgeable in a specific subfield of biochemistry. 4) Develop an awareness of ethical responsibilities when conducting and reporting research and reviewing the research of others. 5) Understanding of the structures and functions of biological molecules. 6) Understanding of intermediary metabolism and its control. 7) Understanding of molecular genetics. 8) Ability to present concepts in oral, written and visual forms.

CHEM 5332. CELL SIGNALING & HUMAN BIOCHEMISTRY. 3 Hours.
Explores different aspects of signal transduction and different types of signaling pathways including enzyme linked receptors, G-protein signaling, G-protein coupled receptors, cytokine signaling, cyclic AMP based signaling, Calcium signaling, lipid signaling, NO-signaling, hormone signaling, peptide hormones, amino acid based hormones, steroid hormones; immune response and inflammation; cancer cell signaling, hypoxia and angiogenesis, aging; metabolic interrelation, vitamins and mineral, dietary supplements; recent topics in signaling, clinical correlation and health impacts.

CHEM 5333. BIOPHYSICAL METHODS AND SPECTROSCOPY IN BIOCHEMISTRY. 3 Hours.
A) Examination of various biophysical methods that determine enzyme functions: the methods includes purification of enzymes, determination of various kinetic parameters, and choice of methodology. B) Discussion of various spectroscopic approaches that determine the enzyme structures and functions: the approaches includes the modern spectroscopic techniques including fluorescence fluctuation spectroscopy as well as UV spec, fragonomics, surface plasmon resonance, FTIR-spectroscopy, and advanced NMR techniques such as HSQC and NOE.
CHEM 5334. MECHANISMS OF ENZYME ACTIONS. 3 Hours.
A) Exploration of enzyme properties that include enzyme kinetics, allostery, structure and their functions. B) Evaluation of enzyme functions associated with cofactors and regulators and their significance with respect to human health and diseases; evaluation of emerging scientific advances and challenges associated with enzyme actions will also be discussed throughout lectures, student paper presentation and student written proposal. Prerequisite: A passing grade in the ACS-test in Biochemistry.

CHEM 5335. GENES, GENOMES, AND NUCLEIC ACIDS. 3 Hours.
Concepts of genes and genomes in prokaryotes and eukaryotes. Nucleic acids structures and functions. Detailed mechanisms of prokaryotic and eukaryotic DNA replication and transcription; mRNA processing; Gene regulation, epigenetics and non-coding RNA. Fundamental theory of each topic will be covered with emphasis on current research literature and clinical correlations. Prerequisite: Passing grade in ACS-test in Biochemistry.

CHEM 5336. STRUCTURE & FUNCTION OF PROTEINS, MEMBRANES & CARBOHYDRATES AND FAST KINETICS. 3 Hours.
This is a one-semester course that extends fundamental concepts in chemistry, such as kinetic phenomena and thermodynamics into an exploration of biology. The content includes structure and function of proteins and membranes, and catalysis of biological reactions through: 1) applying equilibrium processes to study biochemical reactions 2) analyzing the kinetic parameters of enzymes that cause disease states as well as exploration of how drugs are used to inhibit enzymes.

CHEM 5337. MEDICINAL CHEMISTRY AND DRUG Discovery. 3 Hours.
This course will provide students with an understanding of the history of the modern drug discovery process, drugs and drug ionization states, biological targets, lead molecule discovery and optimization, cell signaling and metabolism, the investigation of structure activity relationships, translation with preclinical models, intellectual property and commercialization, and the regulatory process from target/lead discovery to clinical use. History and introduction to Discovery; Foundations: predicting structural ionization states using concepts from pH/pKa/acidic and bases/buffers; Biological Targets: Enzymes, Receptors, Oligonucleotides; Drug-Target Structures and Interactions, Lead identification and optimization, Structure Activity Relationships: Computational Approaches (ligand based; structure based); Cell signaling and Metabolism, cardiovascular diseases, diabetes, obesity, neurological disorders, and cancer; and current therapies; Translation and intellectual property; FDA regulations and clinical trials. To enroll students must have completed or be concurrently enrolled in CHEM 4311 or receive special permission of the instructor. Prerequisite: CHEM 4311 or permission of the instructor.

CHEM 5341. INORGANIC CHEMISTRY. 3 Hours.
Structures, bonding, and properties of main group and transition element compounds including: symmetry, coordination chemistry, reaction mechanisms, organometallic chemistry, and modern characterization techniques. Prerequisite: CHEM 4318 or permission of instructor.

CHEM 5342. SOLID STATE CHEMISTRY. 3 Hours.
Chemical synthesis and characterization methods of extended structures. Principles of solid-state synthesis, classical equilibrium approaches, diffusion and chemical transport, non-equilibrium and deposition methods; high temperature and high pressure synthesis; basic characterization techniques using X-rays, electrons, and neutrons; basic structure types and symmetry; optical, electrical and magnetic properties; examples will relate to materials used for energy harvesting, sensors, and catalysis.

CHEM 5344. X-RAY DIFFRACTION, SCATTERING AND ABSORPTION. 3 Hours.
The class will focus on modern applications of X-ray diffraction and absorption techniques in crystal and molecular structure determination. A practical component will address aspects of state of the art methods, including how to solve structures using data collected on powder and single-crystal diffractometers, X-ray photoelectron spectroscopy (XPS), etc.

CHEM 5351. ORGANIC CHEMISTRY I. 3 Hours.
Bonding, structure, stereochemistry, substituent effects, isotope effects, solvent effects, kinetics, and linear free-energy relationships in determining reaction mechanisms. Acids and bases, orbital symmetry, pericyclic reactions, photochemistry, and nucleophilic substitution reactions. Prerequisites: CHEM 2322 and CHEM 3332 or equivalent.

CHEM 5354. ORGANIC CHEMISTRY II. 3 Hours.
A survey of organic reaction mechanisms including addition and elimination reactions, nucleophilic carbon species, carbonyl reactions, electrophilic substitution reactions, rearrangement reactions, electron deficient species, and free radical reactions. Prerequisite: CHEM 5309 or permission.

CHEM 5355. ADVANCED ORGANIC SYNTHESIS. 3 Hours.
Synthetically important reactions, strategy in organic synthesis using retrosynthetic analysis and mechanistic understanding of reactions, synths, asymmetric synthesis. Prerequisite: CHEM 5310 or permission of instructor.

CHEM 5356. ADVANCED POLYMER CHEMISTRY. 3 Hours.
Polymer synthesis and reactions including condensation, free-radical, ionic, and coordination polymerizations; principles of polymerization including thermodynamics and kinetic considerations; physical characterizations including determinations of absolute molecular weights, relative molecular weights, morphology, glass transitions, and polymer crystallinity; relationships between macromolecular structure, properties, and uses of polymeric materials. Also offered as MSE 5346. Prerequisite: CHEM 2321 and CHEM 2322 or permission of instructor.

CHEM 5358. DETERMINATION OF MOLECULAR STRUCTURE BY PHYSICAL METHODS. 3 Hours.
The use of modern instrumental techniques to determine structure: infrared, ultraviolet, and magnetic resonance spectroscopy, mass spectrometry, optical rotatory dispersion. Emphasis on interpretation of spectra.

CHEM 5361. INTRODUCTION TO GRADUATE PHYSICAL CHEMISTRY. 3 Hours.
CHEM 5364. ADVANCED GRADUATE PHYSICAL CHEMISTRY. 3 Hours.
Statistical thermodynamics and its application to kinetics and spectroscopy. Quantum theory, ab initio methods and density functional theory. Advanced spectroscopic methods to investigate bonding in molecules and solids. Prerequisite: CHEM 5301 or permission of the instructor.

CHEM 5365. THERMODYNAMICS OF MATERIALS. 3 Hours.
Applications of thermodynamics to the study of materials, thermodynamic properties of liquid and solid solutions and their relationship to surface and crystalline defects.

CHEM 5366. CHEMICAL KINETICS. 3 Hours.
Experimental and theoretical aspects of chemical reaction kinetics. Classical and modern techniques for mechanistic characterization, methods for approximation, analysis and interpretation. Simple and complex reaction matrices are considered (gas, liquid, solid state). Specific topics include microscopic reversibility, transition state theory, homo/heterogeneous catalysis, and quantum/statistical mechanical estimation of rate constants and chemical activation. Relevant examples relating to atmospheric and environmental, biological, organic, and inorganic reactions will be discussed. Prerequisite: CHEM 5301 or by permission from the instructor.

CHEM 5380. ADVANCED LABORATORY RESEARCH TOPICS IN CHEMISTRY. 3 Hours.
This course will provide a pathway for PhD-bound students to identify laboratories with appropriate research goals that align with the students’ own goals for their terminal degrees. At the end of CHEM 5380, students and faculty mentors will identify mutually satisfactory research plans for PhD research during the students’ remaining tenure within the Department of Chemistry & Biochemistry.

CHEM 5381. ADVANCED LABORATORY TECHNIQUES IN CHEMISTRY I. 3 Hours.
The course will introduce to advanced laboratory techniques used in research laboratories in the Chemistry department. Handling of chemicals, synthesis procedures, characterization methods, data analysis, and safety regulations. Student will engage in reading primary literature and detailed process descriptions. Goal is to prepare students for successful work on their initial research project.

CHEM 5382. ADVANCED LABORATORY TECHNIQUES IN CHEMISTRY II. 3 Hours.
The course will continue to provide up-to-date laboratory techniques used in research laboratories in the Chemistry department. Synthesis procedures, analytical instrumentation, characterization methods, and data analysis. Free literature studies and assignments by instructor will prepare student for research and development. Goal is to support the research progress of students towards their comprehensive exam. Prerequisite: CHEM 5381.

CHEM 5383. ADVANCED LABORATORY TECHNIQUES IN CHEMISTRY III. 3 Hours.
The course will complete exposure to advanced laboratory techniques used in research laboratories in the Chemistry department and will make students ready for developing their own project proposal. Synthesis procedures, analytical instrumentation, characterization methods, and data analysis. Literature studies and explicit writing of scientific notes will prepare students for their comprehensive exam. Prerequisite: CHEM 5381, CHEM 5382.

CHEM 5391. READINGS IN CHEMISTRY. 3 Hours.
Conference course which may be repeated for credit, with credit granted according to work performed. Graded P/F/R only. Prerequisite: permission of instructor.

CHEM 5392. RESEARCH IN CHEMISTRY. 3 Hours.
Conference course with laboratory with credit granted according to work performed. May be repeated for credit. Graded P/F/R only. Prerequisite: permission of instructor.

CHEM 5398. THESIS. 3 Hours.
Graded R/F only. Prerequisite: permission of instructor.

CHEM 5421. ANALYTICAL INSTRUMENTATION. 4 Hours.
Theory of instrumentation and chemical signal source. Practical experiments utilizing atomic and molecular absorption and emission spectroscopy, chromatographic analysis, and electrochemical techniques.

CHEM 5491. READINGS IN CHEMISTRY. 4 Hours.
Conference course which may be repeated for credit, with credit granted according to work performed. Graded P/F/R only. Prerequisite: permission of instructor.

CHEM 5492. RESEARCH IN CHEMISTRY. 4 Hours.
Conference course with laboratory with credit granted according to work performed. May be repeated for credit. Graded P/F/R only. Prerequisite: permission of instructor.

CHEM 5591. READINGS IN CHEMISTRY. 5 Hours.
Conference course which may be repeated for credit, with credit granted according to work performed. Graded P/F/R only. Prerequisite: permission of instructor.

CHEM 5592. RESEARCH IN CHEMISTRY. 5 Hours.
Conference course with laboratory with credit granted according to work performed. May be repeated for credit. Graded P/F/R only. Prerequisite: permission of instructor.

CHEM 5691. READINGS IN CHEMISTRY. 6 Hours.
Conference course which may be repeated for credit, with credit granted according to work performed. Graded P/F/R only. Prerequisite: permission of instructor.
CHEM 5692. RESEARCH IN CHEMISTRY. 6 Hours.
Conference course with laboratory with credit granted according to work performed. May be repeated for credit. Graded P/F/R only. Prerequisite: permission of instructor.

CHEM 5698. THESIS. 6 Hours.
Graded P/F/R only. Prerequisite: permission of instructor.

CHEM 5998. THESIS. 9 Hours.
Graded P/F/R only. Prerequisite: permission of instructor.

CHEM 6011. TOPICS IN GRADUATE RESEARCH. 0 Hours.
Lectures by departmental and university faculty on current chemical research at U.T. Arlington. All graduate students are required to take this course once. May not be counted toward degree requirements. Graded P/F only.

CHEM 6012. ISSUES IN MODERN CHEMICAL RESEARCH. 0 Hours.
Topics to be discussed include the use of the library, maintenance of a research notebook, ethics in research, aspects of technical writing and presentations, and how research is funded. May not be counted toward degree requirements.

CHEM 6104. CHEMISTRY CAREER DEVELOPMENT. 1 Hour.
Every PhD-bound student is required to spend time for professional development outside his UTA laboratory. Possible opportunities include traditional internships in an industrial setting, working at a national laboratory, international exchange programs, extended collaborative visits, teaching engagements and other educational projects outside UTA. The career advancement may consist of one or multiple portions, in total time no less than three and not more than six months. Prerequisite: Permission of research supervisor and graduate advisor.

CHEM 6202. PRINCIPLES OF INDUSTRIAL CHEMISTRY. 2 Hours.
Survey of industrial inorganic and organic chemical processes. Prerequisite: permission of instructor.

CHEM 6203. REGULATORY ASPECTS OF THE CHEMICAL INDUSTRY. 2 Hours.
Survey of chemical toxicology, regulatory aspects involved in the chemical industry, industrial safety, patents and patent law.

CHEM 6304. CHEMISTRY CAREER DEVELOPMENT. 3 Hours.
Every PhD-bound student is required to spend time for professional development outside his UTA laboratory. Possible opportunities include traditional internships in an industrial setting, working at a national laboratory, international exchange programs, extended collaborative visits, teaching engagements and other educational projects outside UTA. The career advancement may consist of one or multiple portions, in total time no less than three and not more than six months. Prerequisite: Permission of the research supervisor and Graduate Advisor.

CHEM 6399. DISSERTATION. 3 Hours.
Graded R/F only. Prerequisite: admission to candidacy for the degree of Ph.D. in Applied Chemistry.

CHEM 6699. DISSERTATION. 6 Hours.
Graded R/F/P/W. Prerequisite: admission to candidacy for the degree of Ph.D. in Applied Chemistry.

CHEM 6904. CHEMISTRY CAREER DEVELOPMENT. 9 Hours.
Every PhD-bound student is required to spend time for professional development outside his UTA laboratory. Possible opportunities include traditional internships in an industrial setting, working at a national laboratory, international exchange programs, extended collaborative visits, teaching engagements and other educational projects outside UTA. The career advancement may consist of one or multiple portions, in total time no less than three and not more than six months. Prerequisite: Permission of Graduate Advisor and research supervisor.

CHEM 6999. DISSERTATION. 9 Hours.
Graded P/F/R only. Prerequisite: admission to candidacy for the degree of Ph.D. in Applied Chemistry.

CHEM 7399. DOCTORAL DEGREE COMPLETION. 3 Hours.
This course may be taken during the semester in which a student expects to complete all requirements for the doctoral degree and graduate. Enrolling in this course meets minimum enrollment requirements for graduation, for holding fellowships awarded by The Office of Graduate Studies and for full-time GTA or GRA positions. Students should verify that enrollment in this course meets other applicable enrollment requirements. To remain eligible in their final semester of study for grants, loans or other forms of financial aid administered by the Financial Aid Office must enroll in a minimum of 5 hours as required by the Office of Financial Aid. Other funding sources may also require more than 3-hours of enrollment. Additional hours may also be required to meet to requirements set by immigration law or by the policies of the student's degree program. Students should contact the Financial Aid Office, other sources of funding, Office of International Education and/or their graduate advisor to verify enrollment requirements before registering for this course. This course may only be taken twice. Students who do not complete all graduation requirements while enrolled in this course must enroll in a minimum of 6 dissertation hours (6699 or 6999) in their graduation term. Graded P/F/R.
OBJECTIVE: MASTER OF SCIENCE

The objectives of the Chemistry and Biochemistry Department’s program leading to the Master of Science degree include:

a. developing the individual’s ability to do independent research,
b. preparing students for more advanced study in chemistry and
c. providing advanced training to professional chemists and those employed in technical and business areas in which chemistry at this level is necessary for efficient performance.

Research areas include analytical chemistry, biochemistry, bioinorganic chemistry, colloid and surface chemistry, electrochemistry, inorganic chemistry, medicinal chemistry, organic chemistry, physical chemistry, polymer chemistry, and theoretical chemistry.

OBJECTIVE: PH.D. IN CHEMISTRY

The program leading to the Doctor of Philosophy degree in Chemistry is designed primarily to prepare doctoral-level chemists for industrial research careers. The student must:

a. demonstrate the ability to carry out independent research and
b. acquire the practical knowledge of the type of research conducted in industry and of the constraints (both practical and philosophical) under which such research is conducted.

The areas of research include analytical chemistry, biochemistry, bioinorganic chemistry, colloid and surface chemistry, electrochemistry, inorganic chemistry, medicinal chemistry, organic chemistry, organometallic chemistry, physical chemistry, polymer chemistry, and theoretical chemistry.

ADMISSION CRITERIA

In evaluating candidates for admission to its graduate degree programs, the Department of Chemistry and Biochemistry emphasizes the preparedness of the student as evidenced by quality and quantity of coursework and the student’s previous research experience. Recommendations from our own faculty, based on firsthand knowledge of the applicant or a faculty member at the applicant’s institution, are also very important.

UNCONDITIONAL ADMISSION

Unconditional admission may be granted under any one of the following options. The minimum undergraduate GPA requirement for all options is 3.0, as calculated by Graduate Admissions.

OPTION 1
A satisfactory completion of a Bachelor’s degree or equivalent, official transcripts, and GRE scores, and three letters of recommendation.

OPTION 2
A satisfactory completion of a Bachelor’s degree or equivalent, official transcripts, and a letter of recommendation from a faculty member at the applicant’s undergraduate institution, plus a recommendation from a UT Arlington Chemistry and Biochemistry faculty member.

OPTION 3
A satisfactory completion of a bachelor’s degree or equivalent, official transcripts, and a letter of recommendation from a faculty member at the undergraduate institution, plus a recommendation from a UT Arlington Chemistry and Biochemistry faculty member based on a face-to-face interview.

LANGUAGE REQUIREMENTS

An applicant whose native language is not English must submit a TOEFL score of at least 550 or a score of at least 213 on the computer-based test. A TSE-A score of 45 or higher can be substituted for the TOEFL. Those who have completed their undergraduate education in English may be eligible for a TOEFL waiver based on the recommendation letters.

PROVISIONAL ADMISSION

An applicant unable to supply all required documentation prior to the admission deadline but who otherwise appears to meet admission requirements may be granted provisional admission.

A deferred decision may be granted when a file is incomplete or when a denied decision is not appropriate.
PROBATIONARY ADMISSION
In rare cases, probationary admission may be granted as the result of a substandard performance on one or more of the admission criteria. In this case, the Graduate Advisor will set additional conditions for admission including, but not limited to, additional undergraduate coursework and/or achieving a B or better in the first 9 hours of graduate coursework.

DENIAL OF ADMISSION
A candidate may be denied admission if they have less than satisfactory performance on a majority of the admission criteria described above.

ELIGIBILITY FOR SCHOLARSHIPS/FELLOWSHIPS
Students that have no provisional admission conditions to meet will be eligible for available scholarship and/or fellowship support. Award of scholarships or fellowships will be based on the same criteria utilized in admission decisions. To be eligible, candidates must be new students coming to UT Arlington in the Fall semester, must have a GPA of 3.0 in their last 60 undergraduate credit hours plus any graduate credit hours as calculated by Graduate Admissions, and must be enrolled in a minimum of 6 hours of coursework in both long semesters to retain their fellowships. (Students with graduate teaching or research assistantships, however, must be enrolled in a minimum of 9 hours of coursework in both long semesters and 6 hours of coursework in the summer sessions.)

Master’s Degree Requirements
A candidate for graduate study must satisfy the general admission requirements of the program.

MASTERS DEGREE WITH THESIS
This degree requires a minimum of 24 credit hours in course work plus a 6 credit hour thesis class. A minimum of 18 hours in chemistry from courses listed in the Graduate Catalog will be required. Twelve of these hours will be taken from at least four (4) of the chemistry disciplines (Analytical, Biochemistry, Inorganic, Organic, Physical); suggested classes include:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 5331</td>
<td>ADVANCED BIOCHEMISTRY I</td>
<td>3</td>
</tr>
<tr>
<td>or CHEM 5336</td>
<td>STRUCTURE &amp; FUNCTION OF PROTEINS, MEMBRANES &amp; CARBOHYDRATES AND FAST KINETICS</td>
<td></td>
</tr>
<tr>
<td>CHEM 5341</td>
<td>INORGANIC CHEMISTRY</td>
<td>3</td>

<td>ANALYTICAL MASS SPECTROMETRY AND SPECTROSCOPY</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 5325</td>
<td>SEPARATION SCIENCE</td>
<td>3</td>
</tr>
</tbody>
</table>

Electives (6 hours) shall be graduate division courses in a science or engineering subject selected by the candidate; any elective requires the approval of the graduate advisor.

The 6 credit hour thesis class (CHEM 5698) is a completion course and must be taken in the final semester.

MASTER’S DEGREE WITH THESIS SUBSTITUTE
This degree is available for students with at least five years of professional experience in an industrial, government, or other chemistry laboratory at the time the degree is awarded. Admission to the program requires specific approval of the Graduate Studies Committee.

The degree plan requires a minimum of 30 credit hours, of which at least 24 must be in coursework and at least 3 in a suitable research project (CHEM 5392). A minimum of 18 hours in chemistry from courses listed in the Graduate Catalog will be required. Twelve of these hours will be taken from at least four (4) of the chemistry disciplines (Analytical, Biochemistry, Inorganic, Organic, Physical); suggested classes include:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 5331</td>
<td>ADVANCED BIOCHEMISTRY I</td>
<td>3</td>
</tr>
<tr>
<td>or CHEM 5336</td>

<td>ANALYTICAL MASS SPECTROMETRY AND SPECTROSCOPY</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 5325</td>
<td>SEPARATION SCIENCE</td>
<td>3</td>
</tr>
</tbody>
</table>

Additional electives ll be graduate division courses in a science or engineering subject selected by the candidate; any elective requires the approval of the graduate advisor.
MASTER’S DEGREE NON-THESIS
This option requires a minimum of 30 hours of coursework of which at least 24 hours must be in chemistry. Courses in chemistry will be taken from at least four (4) of the chemistry disciplines (Analytical, Biochemistry, Inorganic, Organic, Physical). Suggested classes include:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 5331</td>
<td>ADVANCED BIOCHEMISTRY I</td>
<td>3</td>

<td>SEPARATION SCIENCE</td>
<td>3</td>
</tr>
</tbody>
</table>

Elective courses (6 hours) shall be graduate division courses selected by the candidate. All courses taken for this degree plan including electives must be approved by the graduate advisor.

ADMISSION CRITERIA
In evaluating candidates for admission to its graduate degree programs, the Department of Chemistry and Biochemistry emphasizes the preparedness of the student as evidenced by quality and quantity of coursework and the student’s previous research experience. Recommendations from our own faculty, based on firsthand knowledge of the applicant or a faculty member at the applicant’s institution, are also very important.

UNCONDITIONAL ADMISSION
Unconditional admission may be granted under any one of the following options. The minimum undergraduate GPA requirement for all options is 3.0, as calculated by Graduate Admissions.

OPTION 1
A satisfactory completion of a Bachelor's degree or equivalent, official transcripts, and GRE scores, and three letters of recommendation.

OPTION 2
A satisfactory completion of a Bachelor’s degree or equivalent, official transcripts, and a letter of recommendation from a faculty member at the applicant’s undergraduate institution, plus a recommendation from a UT Arlington Chemistry and Biochemistry faculty member.

OPTION 3
A satisfactory completion of a bachelor’s degree or equivalent, official transcripts, and a letter of recommendation from a faculty member at the undergraduate institution, plus a recommendation from a UT Arlington Chemistry and Biochemistry faculty member based on a face-to-face interview.

LANGUAGE REQUIREMENTS
An applicant whose native language is not English must submit a TOEFL score of at least 550 or a score of at least 213 on the computer-based test. A TSE-A score of 45 or higher can be substituted for the TOEFL. Those who have completed their undergraduate education in English may be eligible for a TOEFL waiver based on the recommendation letters.

PROVISIONAL ADMISSION
An applicant unable to supply all required documentation prior to the admission deadline but who otherwise appears to meet admission requirements may be granted provisional admission.

A deferred decision may be granted when a file is incomplete or when a denied decision is not appropriate.

PROBATIONARY ADMISSION
In rare cases, probationary admission may be granted as the result of a substandard performance on one or more of the admission criteria. In this case, the Graduate Advisor will set additional conditions for admission including, but not limited to, additional undergraduate coursework and/or achieving a B or better in the first 9 hours of graduate coursework.

DENIAL OF ADMISSION
A candidate may be denied admission if they have less than satisfactory performance on a majority of the admission criteria described above.

ELIGIBILITY FOR SCHOLARSHIPS/FELLOWSHIPS
Students that have no provisional admission conditions to meet will be eligible for available scholarship and/or fellowship support. Award of scholarships or fellowships will be based on the same criteria utilized in admission decisions. To be eligible, candidates must be new students coming to UT Arlington in the Fall semester, must have a GPA of 3.0 in their last 60 undergraduate credit hours plus any graduate credit hours as calculated by
Graduate Admissions, and must be enrolled in a minimum of 6 hours of coursework in both long semesters to retain their fellowships. (Students with graduate teaching or research assistantships, however, must be enrolled in a minimum of 9 hours of coursework in both long semesters and 6 hours of coursework in the summer sessions.)

### Ph.D. Degree Requirements

To be admitted to the Ph.D. program, an applicant must satisfy the general admission requirements of the program and his or her academic record must show preparation for advanced work in chemistry.

Each candidate must complete the following program requirements:

1. **Courses for students emphasizing analytical chemistry**
   
   Select three of the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 5324</td>
<td>ANALYTICAL MASS SPECTROMETRY AND SPECTROSCOPY</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 5325</td>
<td>SEPARATION SCIENCE</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 5327</td>
<td>ANALYTICAL ELECTROCHEMISTRY</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 5326</td>
<td>ANALYTICAL CHEMISTRY - CONCEPTS AND IMPLEMENTATION</td>
<td>3</td>
</tr>
</tbody>
</table>

   Plus two (2) courses from two divisions outside of analytical chemistry (biochemistry, inorganic, organic, or physical). Suggestions include:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 5331</td>
<td>ADVANCED BIOCHEMISTRY I</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 5341</td>
<td>INORGANIC CHEMISTRY</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 5351</td>
<td>ORGANIC CHEMISTRY I</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 5361</td>
<td>INTRODUCTION TO GRADUATE PHYSICAL CHEMISTRY</td>
<td>3</td>
</tr>
</tbody>
</table>

2. **Courses for students emphasizing biochemistry**:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 5331</td>
<td>ADVANCED BIOCHEMISTRY I</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 5341</td>
<td>MECHANISMS OF ENZYME ACTIONS</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 5351</td>
<td>GENES, GENOMES, AND NUCLEIC ACIDS</td>
<td>3</td>
</tr>
</tbody>
</table>

   Plus two (2) courses from two divisions outside of analytical chemistry (biochemistry, inorganic, organic, or physical). Suggestions include:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 5262</td>
<td>COMPUTATIONAL CHEMISTRY</td>
<td>3</td>
</tr>
</tbody>
</table>
   & CHEM 5168 | and QUANTUM CHEMISTRY LABORATORY                 | 3       |
   | CHEM 5336   | STRUCTURE & FUNCTION OF PROTEINS, MEMBRANES & CARBOHYDRATES AND FAST KINETICS | 3 |
   | CHEM 5351   | ORGANIC CHEMISTRY I                              | 3       |
   | CHEM 5341   | INORGANIC CHEMISTRY                               | 3       |
   | CHEM 5358   | DETERMINATION OF MOLECULAR STRUCTURE BY PHYSICAL METHODS | 3   |
   | CHEM 5324   | ANALYTICAL MASS SPECTROMETRY AND SPECTROSCOPY     | 3       |

   Plus courses as indicated in items 7-11.

3. **Courses for students emphasizing inorganic chemistry**:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 5341</td>
<td>INORGANIC CHEMISTRY</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 5358</td>
<td>DETERMINATION OF MOLECULAR STRUCTURE BY PHYSICAL METHODS</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 5342</td>
<td>SOLID STATE CHEMISTRY</td>
<td>3</td>
</tr>
</tbody>
</table>
   or CHEM 5336 | STRUCTURE & FUNCTION OF PROTEINS, MEMBRANES & CARBOHYDRATES AND FAST KINETICS | 3 |

   Plus two (2) courses from two divisions outside of analytical chemistry (biochemistry, inorganic, organic, or physical). Suggestions include:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 5262</td>
<td>COMPUTATIONAL CHEMISTRY</td>
<td>3</td>
</tr>
</tbody>
</table>
   & CHEM 5168 | and QUANTUM CHEMISTRY LABORATORY                 | 3       |
   | CHEM 5351   | ORGANIC CHEMISTRY I                              | 3       |
   | CHEM 5324   | ANALYTICAL MASS SPECTROMETRY AND SPECTROSCOPY     | 3       |
   | CHEM 5331   | ADVANCED BIOCHEMISTRY I                          | 3       |

   Plus courses as indicated in items 7-11.

4. **Courses for students emphasizing organic chemistry**:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 5358</td>
<td>DETERMINATION OF MOLECULAR STRUCTURE BY PHYSICAL METHODS</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 5351</td>
<td>ORGANIC CHEMISTRY I</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 5354</td>
<td>ORGANIC CHEMISTRY II</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 5355</td>
<td>ADVANCED ORGANIC SYNTHESIS</td>
<td>3</td>
</tr>
</tbody>
</table>

   Plus two (2) courses from two divisions outside of analytical chemistry (biochemistry, inorganic, organic, or physical). Suggestions include:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 5324</td>
<td>ANALYTICAL MASS SPECTROMETRY AND SPECTROSCOPY</td>
<td>3</td>
</tr>
</tbody>
</table>
1. CHEM 5358 cannot be used to fulfill this requirement. Students who do not have a good instrumentation background should consider taking CHEM 5421.

2. For guidance and options of "Career Development" (possible "Internship"), students will consult with their research supervisor and with the Graduate Advisor.

A course grade may be used to satisfy degree requirements for no more than seven years after the course has been completed.

After admission to the doctoral program, the student must successfully complete the appropriate examination(s) required by the faculty of the student’s discipline.

A supplementary set of guidelines, published by the Department of Chemistry and Biochemistry, should be consulted.
Chemistry and Biochemistry - Undergraduate Programs

Academic Advising: 817-272-9687

Overview

The Department of Chemistry and Biochemistry offers four programs of study leading to a bachelor's degree and two leading to both a bachelor's and master's degree. They are the Bachelor of Arts in Chemistry, the Bachelor of Science in Chemistry - American Chemical Society certified, the Bachelor of Science in Biochemistry - American Chemical Society certified, the Bachelor of Science in Biological Chemistry a combined Bachelor of Science-Master of Science in Chemistry, and a Bachelor of Science in Biochemistry with a Master of Science in Biomedical Engineering.

• Professional Chemist: Students who wish to become professional chemists or whose goals include graduate education in chemistry should pursue the Bachelor of Science in Chemistry - American Chemical Society certified. Alternatively, students may choose the Bachelor of Science-Master of Science combined program. Prospective students should contact the departmental undergraduate advisor.

• Professional Biochemist: Students who wish to become professional biochemists or whose goals include graduate education in biochemistry, should pursue the Bachelor of Science in Biochemistry - American Chemical Society certified. Prospective students should contact the departmental undergraduate advisor.

• Premedical and Predental Programs: Students who wish to prepare for entry into medical or dental school may choose to major in chemistry or biochemistry. While any of the four bachelor's programs will meet the minimum requirements, the department recommends either the Bachelor of Arts in Chemistry or the Bachelor of Science in Biological Chemistry. Prospective students should contact both the departmental undergraduate advisor and the premedical advisor in the College of Science.

• Preallied Health Programs: Students who wish to prepare for entry into pharmacy or veterinary school, physical therapy, or occupational therapy may choose to major in chemistry. Prospective students should contact the departmental undergraduate advisor.

• Chemistry as a Teaching Field: Although students who intend to teach chemistry at the secondary school level may pursue any of the degrees, the Bachelor of Arts Degree offers the greatest flexibility.

Declaring a Major in Chemistry or Biochemistry

Beginning freshmen who intend to declare chemistry or biochemistry as a major must complete the following courses with a minimum GPA of 2.25 in chemistry and an overall GPA of 2.25.

• CHEM 1441 and CHEM 1442.
• Six hours of mathematics approved by the department.
• Three hours of biology or geology.
• 12 hours from courses in the University core curriculum other than science or mathematics (English, history, political science, social and cultural studies, and fine arts).

Transfer students who transfer part or all of the above requirements must complete a minimum of 11 hours of approved science and mathematics courses in residence with a minimum GPA of 2.25 to be eligible to major in chemistry or biochemistry.

All new students who intend to major in chemistry or biochemistry should schedule an appointment for advising with the departmental undergraduate advisor.

Declaring a Second Major in Chemistry

A person who satisfies the requirements for any other baccalaureate degree qualifies for having chemistry named as a second major upon completion of the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 1441</td>
<td>GENERAL CHEMISTRY I</td>
<td>4</td>
</tr>
<tr>
<td>CHEM 1442</td>
<td>GENERAL CHEMISTRY II</td>
<td>4</td>
</tr>
<tr>
<td>CHEM 2321</td>
<td>ORGANIC CHEMISTRY I</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 2181</td>
<td>ORGANIC CHEMISTRY I LABORATORY</td>
<td>1</td>
</tr>
<tr>
<td>CHEM 2322</td>
<td>ORGANIC CHEMISTRY II</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 2182</td>
<td>ORGANIC CHEMISTRY II LABORATORY</td>
<td>1</td>
</tr>
<tr>
<td>CHEM 2335</td>

</tr>
<tr>
<td>CHEM 4311</td>
<td>BIOCHEMISTRY I</td>
<td>3</td>
</tr>
</tbody>
</table>

Chemistry Electives Chosen with the Chemistry Advisor 6

Total Hours 33
Please note that a second major in Chemistry is not the same as a double major in which students complete the requirements for a second degree. Please see the undergraduate chemistry advisor for additional information.

**Teacher Certification**

Students interested in earning a Bachelor of Arts or Bachelor of Science degree with a major in chemistry leading to secondary teacher certification should refer to the “Bachelor of Arts Degree in Chemistry with Physical Science Pathway (UTeach Program)” degree plan or the “Bachelor of Arts Degree in Chemistry with Chemistry Pathway (UTeach Program)” degree plan for teacher certification requirements.

**Calculation of Chemistry Grade Point Average**

Only chemistry courses required in the degree program will be used in calculating the chemistry grade point average for chemistry degree candidates.

**Honors Program**

Students who qualify are encouraged to participate in the University Honors College. Students should enroll in honors sections of chemistry courses when available and should include CHEM 4381 as approved by the departmental undergraduate advisor.

**Chemistry Course Registration & Requirements**

Students may not be “pre-enrolled” in chemistry courses while pre-requisite courses at another institution are pending grades. Only UT Arlington credits may be used for pre-enrollment purposes.

Canvas grades (or other learning-management system grades) may not be used as proof of completion for a pre-requisite course. Students must submit either an official transcript to the registrar’s office, or submit a transcript with a letter grade for the pre-requisite course to the undergraduate chemistry advisor in order to be enrolled in a chemistry course. If a student is submitting the transcript via email, the email must be sent from their UTA email address.

The ACS-certified degree programs (Bachelor of Science in Chemistry and Bachelor of Science in Biochemistry) require the capstone course CHEM 3322. The capstone course is meant to test students in their knowledge of Math, Physics, and Chemistry in order to assess their cumulative knowledge of the sciences needed for success in their profession. This course requirement may not be satisfied with transfer credit without the approval of the undergraduate curriculum committee of the Department of Chemistry and Biochemistry.

**Department of Chemistry and Biochemistry Academic Regulations**

All students pursuing a degree in one of the academic programs from the Department of Chemistry and Biochemistry must abide by the academic regulations of the University and the following additional rules established by the Department of Chemistry and Biochemistry.

**Three-Attempt Rule:** A student may not attempt a course (at UT Arlington and/or at any other institution) more than three times and apply that course toward a chemistry/biochemistry degree. Enrollment in a course for a period of time sufficient for assignment of a grade, including a grade of W, is considered an attempt.

**Undergraduate Degrees**

- Bachelor of Arts in Chemistry (p. 1308)
- Bachelor of Arts in Chemistry with Chemistry Teacher Pathway (UTeach Program) (p. 1310)
- Bachelor of Arts in Chemistry with Physical Science Teacher Pathway (UTeach Program) (p. 1312)
- Bachelor of Science in Chemistry - American Chemical Society certified (p. 1314)
- Bachelor of Science in Biochemistry - American Chemical Society certified (p. 1315)
- Bachelor of Science in Biological Chemistry (p. 1317)
- Fast-Track Program: Bachelor of Science-Master of Science in Chemistry (p. 1319)
- Fast-Track Program: Bachelor of Science in Biochemistry and Master of Science in Biomedical Engineering (p. )

**Requirements for a Bachelor of Arts Degree in Chemistry**

This program is suitable preparation for admission to medical and dental schools, and other health-related professions.

The University Core Curriculum consists of 42 credit hours from University Core Curriculum (p. 47).

**Pre-Professional Courses**

**Recommended Core Requirements**

CHEM 3317       INORGANIC CHEMISTRY   3
CHEM 4101       SEMINAR IN CHEMISTRY   1
CHEM 4311       BIOCHEMISTRY I   3

Select one from the following:
CHEM 3307       INTRODUCTION TO POLYMER CHEMISTRY
CHEM 4242       LABORATORY TECHNIQUES IN BIOCHEMISTRY
CHEM 4312       BIOCHEMISTRY II
CHEM 4318       INORGANIC CHEMISTRY
CHEM 4346       ADVANCED SYNTHETIC METHODS

Advanced electives at the 3000 or 4000 level sufficient to meet the 36 advanced hours requirement

All students are strongly encouraged to enroll in undergraduate research

Total Hours

The minimum biology requirement for premedical students is BIOL 1441 CELL AND MOLECULAR BIOLOGY and three additional courses. Specifically, BIOL 2444 GENERAL MICROBIOLOGY and BIOL 3442 HUMAN PHYSIOLOGY are recommended plus three additional hours.

**Total Hours: 120**

¹A See approved list of courses (p. 1252) for the College of Science’s liberal arts area clusters.

¹B Student may take GEOL 1301 and 1302 to meet degree requirement. This will affect the number of electives needed to reach 120 hours.

¹C Completion of CHEM 2335 with the grade of “C” or above will satisfy the computer proficiency requirement.

### Requirements for a Bachelor of Arts Degree in Chemistry with Chemistry Teacher PATHWAY (UTeach Program)

This program is suitable preparation for students who desire certification with a teaching field in chemistry and/or physical science.

The University Core Curriculum consists of 42 credit hours from [University Core Curriculum](p. 47).

2A Student may take GEOL 1301 and 1302 to meet requirement. This will affect the number of electives needed to reach 120 hours.
2B Completion of CHEM 2335 with the grade of "C" or above will satisfy the computer proficiency requirement.

**Requirements for a Bachelor of Science Degree in Biochemistry - American Chemical Society Certified**

This program is recommended to students who plan to enter into graduate study in biochemistry and for those who anticipate professional careers as biochemists. This program is also suitable for premedical and predental students and for training in allied health sciences.

The University Core Curriculum consists of 42 credit hours from [University Core Curriculum](#) (p. 47).

### Requirements for a Bachelor of Science Degree in Biological Chemistry

This program is recommended to students who plan to enter into medical and dental school and for training in allied health sciences. This program is also suitable for students who anticipate professional careers in the field of biotechnology or graduate training in biochemistry.

The University Core Curriculum consists of 42 credit hours from [University Core Curriculum](#) (p. 47).

Elective: 10

Advanced Elective: 17

Total Hours: 120

4A Completion of CHEM 2335 with the grade of "C" or above will satisfy the computer proficiency requirement.

4B When you choose BIOL 3442, you need the three credit hours of an advanced elective.

### Requirements for Fast-Track Program: Bachelor of Science and Master of Science in Chemistry

This program is recommended for students who wish to earn graduate level course credit and who wish to obtain graduate level research experience. This program is suitable for those students who plan to pursue doctoral graduate studies in chemistry and for those who anticipate professional careers as chemists. **B.S. in Chemistry degree of this Fast-Track program is an American Chemical Society Certified degree.**

#### FOUNDATION COURSES

Students must take the following 4 specific undergraduate CHEM courses in order to be admitted into the Fast Track program. The cumulative GPA required for the foundation courses is a 3.25. Students must also maintain a 3.3 GPA or higher in all CHEM courses completed at UTA, and have a cumulative GPA of a 3.3 or higher.

- **CHEM 2322** ORGANIC CHEMISTRY II: 3
- **CHEM 2335** QUANTITATIVE CHEMISTRY: 3
- One of the following two courses: 3
  - **CHEM 3317** INORGANIC CHEMISTRY
  - **CHEM 4318** INORGANIC CHEMISTRY
- One of the following two courses: 3
  - **CHEM 3321** PHYSICAL CHEMISTRY I
  - **CHEM 3322** PHYSICAL CHEMISTRY II

The University Core Curriculum consists of 42 credit hours from University Core Curriculum (p. 47).

#### Pre-Professional Courses

**Recommended Core Requirements**

- **CHEM 1101** SUCCESS IN CHEMISTRY AND BIOCHEMISTRY: 1
- **ENGL 1301** RHETORIC AND COMPOSITION I: 3
- **ENGL 1302** RHETORIC AND COMPOSITION II: 3
- See General Core Requirements for Creative Arts: 3
- **POLS 2311** GOVERNMENT OF THE UNITED STATES: 3
- **POLS 2312** STATE AND LOCAL GOVERNMENT: 3
- See General Core Requirements for Language, Philosophy, and Culture: 3
- **HIST 1301** HISTORY OF THE UNITED STATES TO 1865: 3
- **HIST 1302** HISTORY OF THE UNITED STATES, 1865 TO PRESENT: 3
- See General Core Requirements for Social and Behavioral Sciences: 3
MATH 1426  CALCULUS I  4

See General Core Requirements for Foundational Component Area  3
PHYS 1443  GENERAL TECHNICAL PHYSICS I  4
PHYS 1444  GENERAL TECHNICAL PHYSICS II  4

Program Requirements
MATH 3318  DIFFERENTIAL EQUATIONS  3
or MATH 3319  DIFFERENTIAL EQUATIONS & LINEAR ALGEBRA  3
Advanced PHYS course at 3000 level or above:
  PHYS 3313  INTRODUCTION TO MODERN PHYSICS  3
Biology or Geology for science majors courses  8

Professional Courses
CHEM 1341  GENERAL CHEMISTRY I  3
CHEM 1181  GENERAL CHEMISTRY I LABORATORY FOR ADVANCED CHEMICAL TECHNOLOGIES  1
CHEM 1342  GENERAL CHEMISTRY II  3
CHEM 1182  GENERAL CHEMISTRY II LABORATORY FOR ADVANCED CHEMICAL TECHNOLOGIES  1
CHEM 2321  ORGANIC CHEMISTRY I  3
CHEM 2322  ORGANIC CHEMISTRY II  3
CHEM 2335  QUANTITATIVE CHEMISTRY  3
CHEM 2283  SYNTHESIS AND ANALYSIS LABORATORY I  2
CHEM 2284  SYNTHESIS AND ANALYSIS LABORATORY II  2
CHEM 3317  INORGANIC CHEMISTRY  3
CHEM 3321  PHYSICAL CHEMISTRY I  3
CHEM 3322  PHYSICAL CHEMISTRY II  3
CHEM 3182  PHYSICAL CHEMISTRY II LABORATORY  1
CHEM 3181  PHYSICAL CHEMISTRY I LABORATORY  1
CHEM 4101  SEMINAR IN CHEMISTRY  1
CHEM 4311  BIOCHEMISTRY I  3
CHEM 4318  INORGANIC CHEMISTRY  3
CHEM 4346  ADVANCED SYNTHETIC METHODS  3
CHEM 4461  INSTRUMENTAL ANALYSIS  4
CHEM 4380  UNDERGRADUATE RESEARCH  3
Advanced electives at the 3000 or 4000 level sufficient to meet the 36 advanced hours requirement.  2
Electives sufficient to complete the total hours requirement for the undergraduate degree.  5

Student's have the option of taking 9-10 hours worth of graduate courses for undergraduate credit that can also be used towards their master's in chemistry. Please see the Chemistry Advisor for possible graduate level coursework that can be used in place of undergraduate coursework.

Refer to the Graduate Catalog and the graduate advisor for MS in Chemistry degree requirements (Master's Degree with Thesis).  30

Total Hours  150
